Fine old porter drawn from the wood; wines and liquors for family and medicinal use; champagne and cigars at W. E. Talbott's, the only reliable wholesale house in New Mexico.

NUBS OF NEWS.

A. Horstman, Louisville, Ky., is a guest at the Armijo House.

C. B. Brown, Wellington, Kansas, came in from the north last night.

J. G. Crothers, Lawrenceville, Kas., is one of the latest arrivals from that State.

E. N. Sickles, Chicago, was one of the passengers for the central city last night.

Dr. Winkler, of Augusta, Georgia, is in the city for a few days, looking after his mining interests.

The Knights of Pythias will give a hop in their hall in the Childer's block next Wednesday evening.

Father Fede will say mass at Michael Hogan's in new town, at half past nine o'clock to-morrow morning.

The list of voters registered in precinct twelve is still growing larger There are now 1,100 names inscribed on the books.

Con Caddigan has returned from his trip after the rustlers, from Williams. The remainder of the party are still in pursuit of the horse thieves.

Spiegelberg Bros., to meet the demand of many customers, have reduced the price of tickets for their raffle to one dollar, as will be seen by their advertisement.

The Skandenavian saloon and lunch counter, on First street is the latest applicant for popular favor. As will be seen by the advertisement in another column, you can get anything to eat or drink.

On November 6, the people of this city, especially the theatre goers, will be entertained by Frank Mordaunt's company in "Old Shipmates." The company is highly spoken of and the play has the highest praise.

Tony Nels, who has been absent from this city for over two weeks, is expected to arrive this evening. He has been after several criminals, who are wanted in this city, and has been successful in capturing two of them.

Holladay & Sanguinette have dissolved partnership, George Holladay having purchased his partner's interest. Billy will go to Lake Valley, but he hopes his friends here, will give his old partner a full share of the trade of the central city.

Yesterday morning a mule drawing a street car became frightened at some object near the track near Rancho Secco hall, shied the track and fell down. A wheel of the car run over one of the animal's legs entirely severing it. The mule was shot and put out of its misery.

This evening, Boyd & Wade will reopen the Opera House. The whole interior of the house, including the stage has been thoroughly overhauled and refitted. The entrance to the boxes will now be to the right of the main entrance. A double bar has been arranged and other needed improvements added.

The following letters are held in the Albuquerque postoffice for postage: John Phelen, city; Miss Alice G. Amernian, New York; Fred Shelton, Silver City, N. M.; J. C. Somerville, St. Louis; Martha Carter, Santa Fe; G. W. Stoneroad, Las Vegas; S. A. Baker, Tucson; Antonacio Montoya, Las Vegas.

The practice indulged in during the late hours of the night, by certain citizens whose business occupations are, to say the least, questionable, of loading the canine race down with tin pots, kettles or cans, should be broken up. If these persons, who call themselves men, have nothing better to do, they should be made to join Con Caddigan's brigade of street cleaners, where they can have a grand opportunity of gathering together the rubbish with which they have strewn the city by their midnight labors.

The Journal Hotel has proven such a great success under the able management of Lawrence Marrinan and his estimable wife that they are compelled to seek more room and have made arrangements with the Journal Publishlishing company to rent their old quarters in the rear of their present brick building which is next to the Journal hotel, so that virtually it is all one, both being in the same yard. This gives Mr. Marrinan a building 25x50 feet which he will utilize immediately by dividing it into single rooms for the accommodation of his many guests.

MINES AND MINERALS.

Twenty thousand pounds of ore from Copper City, only covered the floor of a car twelve inches deep. Pretty heavy ore.

There is plenty of flux within twelve miles of the city, to supply a dozen smelters.

Cerrillos has plenty of pay mineral within five miles of the town. Why not develop the mines?

Placitas, according to Professor Bibikov, is a rich mining district, and the opinion is backed up by ore recently brought to this city.

Work has stopped on the Star mine for the present, as the contractors failed to come to time.

Percha, and not Perche, is the way the Black Range and Lone Star spell it.

The Sierra Granda company are said to own most of the rich mines around Daly.

Nathan Bibo intends soon to commence work on his claim in the Jemez district.

Bernalillo and Wallace will both put in bids for the New Placer district when Albuquerque loses it.

The Organ district is attracting almost as much attention as Lake Valley.

ARIZONA.

A Matter of Interest to the People of Apache County.

EDITOR JOURNAL: Please give the following correspondence a place in your columns and oblige the people of Apache county:

James Stinson, Probate Judge:

ST. JOHNS, Arizona, May 1st., 1879. —SIR: The people of Springerville, were by general invitation, of the people of this place, requested to meet them in joint convention for the purpose of selecting a ticket for the ensuing election; also, to decide upon a site either between St. Johns or Springerville, for the county seat.

After coming down here we are informed by Sol Barth, that he (Barth) is to dictate, who shall be candidates for the various county offices, and that the county seat must and shall be at St. Johns.

Now sir, we the people of Springerville and quite a number of the people in this village, are determined that Sol. Barth shall not run the county of Apache. And sir, to this end, we propose to meet you and your friends, half way, or if necessary, more than half way.

You can rest assured that the people of Round Valley are sincere in this matter, and you can make any and all necessary arrangements to secure this consumation.

Representatives from our precinct will be over your way to consult you and friends in this measure. Till then rest assured that we are in earnest in this thing, and are anxious aud willing to defeat the machinations of Sol. Barth. Respectfully yours,

W. R. MILLIGAN,
C. A. FRANKLIN.

P. S.—Please give this to Mr. Flake and Cooley and tell them to act accordingly.

CONSISTENCY.

Now, gentlemen and citizens of Apache county, if this is consistency with the gentleman's former idea of Sol. Barth, why should he place the gentleman at the masthead of the 8 by 10 Pioneer? O you consistent Democrats of Apache county! The voters of Apache county would very much like to know why the editor of the Pioneer has so lately changed his views about the great financier, Sol. Barth? Is it the lower house in Prescott that Sol. has promised him a seat in this winter, or does he want to start a monte bank for about forty days? The latter, I presume, and perhaps both. To the people consistency is a jewel, Charley Pioneer. INDEPENDENT.

RAILROAD REVIEW.

W. C. Nixon, the popular station agent is at the Las Vegas hot springs.

The Atlantic and Pacific railroad company is making preparation to erect buildings at Williams, Arizona, the terminus of the third division of the road.

The Atchison, Topeka and Santa Fe will begin running through trains from Kansas City to Guaymas on or about November 1. By the completion of the line the Santa Fe becomes the longest railway in the United States or the world, being under one management from the Missouri river to the Pacific ocean.

C. J. Anderson, of Columbus, has patented a station indicator intended to obviate the nuisance of having the stations' names being all jumbled together by brakemen every few minutes. It is arranged so as to have each station's name in dark letters before a lamp, and visable to every passenger in the car.

The largest engine ever built in the United States was turned out of the Grand Trunk shops at Port Huron last week for use on the Chicago & Grand Trunk. It is 59 feet long, and the height from the rail to the smokestack is 15 feet 7 inches, the diameter of the drive wheel is 6 feet, and the cylinders are 18 by 24 inches. Nine more like it will be built at once.

The monthly report of the Railroad Gazette of railroad accidents in August shows a total number of 139 accidents, by which 46 persons were killed and 218 injured. There were 65 collisions, in which 27 persons were killed and 117 injured, 70 derailments, with 18 persons killed and 100 injured, and four other accidents, in which one person was killed and one injured. Twenty-six of the killed and 117 of the injured were railroad employees, while 20 of the killed and 101 of the injured were passengers or others riding on the trains, the number including several tramps stealing rides. As compared with August, 1881, there was an increase of 10 accidents, 15 in the number killed and 151 in that injured, the number of injuries reported in August last year having been very small.

The District Court.

At 10 o'clock yesterday morning court was convened by Judge Bell, and immediately the case of William E. Talbott vs. Smith & Snyder was called. This case was upon a motion to vacate the attachment secured by Talbott, which the court refused to do, and Mr. Talbott secured his judgment.

The case of Jefferson Raynolds vs. W. S. Monroe was decided in favor of the plaintiff.

When the case of T. J. Trask vs. Hiram Allen was called, Mr. Childers stated that the defendant had died since the goods were attached, and that therefore the attachment was vacated. This view was also taken by C. C. McComas and Leo J. Barr, while W. H. Whiteman contended that the attachment survived the death of Allen. After argument, Judge Bell took the papers, reserving his decision.

The only other case was that of Trask vs. Matteson, which was also a motion to vacate the attachment.

Judge Bell remarked at the closing of court that he would not hold court to-day.

The Democrats.

A few Democrats assembled in the Democrat office last night to attend a meeting of the Manzanares club.

Thomas Keleher, president of the club, called the meeting to order, and the committee on membership reported that rolls had been distributed generally throughout the city.

The committee on organization reported that no action had yet been taken by the committee.

Upon motion, three more persons were added to the committee. The chairman named J. H. Sullivan, Philip Schmitz and George J. Magley as the additional members. It was decided that a ratification meeting should be held ratifying the acceptance of Frank Manzanares as the Democratic candidate for delegate to congress, and a committee of seven, consisting of L. Rosenthal, Tom F. Phelan, W. B. Childers, W. T. Strachan, Frank Armijo, Tomas Guitterres, and J. W. Price, was appointed to make all arrangements. Invitations will be sent to Frank Manzanares and several prominent Democrats to be present and address the meeting.

After the late Democratic victory had been discussed and the early breaking up of the Republican party prophesied, the club adjourned until next Tuesday evening.

KINGSTON.

The New Metropolis of the Percha District—Fifty Houses Commenced in One Day.

Editor Journal:

KINGSTON, Grant County, New Mexico, Oct. 10, 1882.—This morning finds me in one of the liveliest camps I have struck for years. Town lots are selling as high as $5,000. One week ago they could have been bought at $25. I am told the Las Vegas town company sold 100 lots yesterday. Three lots of surveyors are at work on lots. The mines are the richest I ever saw. I think the arrivals will reach 100 per day. This place will be the head supply camp, as it is located in a beautiful valley covered with pine timber, and spring water running through the streets in ditches. This water was put through the town in one day. The town of Kingston is thirty miles north of Lake. Over 30,000 feet of lumber have arrive since yesterday morning. The business houses are doing a big business. One large tent called the Occidental hotel, Chas. Reed, proprietor. Mr. Reed carries a six-shooter in one pocket and the hotel register in the other. He has a hardware store and drug store and in front a hotel. I asked him to show me his register, so here I give you the arrivals for one day as he has them down:

F. C. means beds with sheets and they are good beds; sleep double $1.40 each or $3 for the bed. S. C. means second class; $1.00 each, two in a bed, or $2.00 for the bed. This hotel can seat forty persons. In about one week he says he can accommodate 100. I give you his arrivals for October 8, as they appear on his ledger: Capt. Hilte, Elliott, W. Barker, Rob't Williams, J. Green, Col. Pickett, Bronko Bill, Diver, Tirzener, Col. Moore, W. S. Gardener, Major Walton, Capt. King, S. C. Haring, W. Hillyer, Bapt Meggs, Buckskin Joe, Red, Devens, Fitzcamp, Steve Upton, Gleason, Curly Bill, Long Hair, Col. Waking, Col. Geo. Maderia, N. Y., Capt. Cuttington, Stage Driver, Stage Superintendent. Joe Briggs, Jones, Brooks, F. B. Gleason, Fittsmire, Capt. Gregg, Col. Watson, Stage Driver, Mrs. D. Adams, Chicago; Miss Moulton, plain sewing; Miss E Stam, dress maker; Col E. Stonewall, Mrs. J. Fritz and child.

Passing the book back the landlord says "let's take a smile, come on boys."

I think there has been fifty houses started to-day.

From one of your readers,
JAMES MURRAY.

The Albuquerque Postoffice.

Both Santa Fe and Las Vegas papers have published statements, concerning the business done by the postoffices in those towns. The Albuquerque postoffice can make a better showing than either of them. Postmaster Hughes has just made out his report for the two months during which he has held the position. Folowing is a brief summary of the business done during that time:

Number of letters registered....651

Number of registered letters delivered.....875

Number of registered letters in transit.....1,288

Amount received for box rent..$252

Amount received from sale of stamps, $1,700.

The receipts for box rent at the Santa Fe office were $250 for the quarter, which was greater than that at Las Vegas and two dollars less than at Albuquerque. The number of letters registered in Santa Fe for three months was 735 while in two months in Albuquerque it was 651, which is a much larger average. At Las Vegas the number was considerably less than at Santa Fe. The amount of money orders funds handled at Santa Fe during the quarter was $80,748.37, of which amount the office at Albuquerque contributed more than any office in New Mexico. Postal route agents on the road say that the mails from Albuquerque are larger and put up better than those of any other office in New Mexico. The central city takes the lead in postoffice business as it does in everything else.

Change in the Board.

The board of registration of precinct twelve was composed entirely of Republicans and as the Democrats thought they ought to be represented Charles Montaldo resigned and H. T. McKinney, who is of the proper political caste to suit the dissatisfied ones, was appointed in his stead. Following is Mr. Montaldo's letter of resignation:

ALBUQUERQUE, Oct. 13, 1882.

Messrs Charles Robinson and Elwood Maden, Members of the Board of Registration of Precinct 12, County of Bernalillo.

GENTLEMEN: The spirits of the great fathers of our glorious country are exhibiting their wrath and manifest such disapproval of my being a member of the board of registration of said precinct, and fearing that some great calamity might fall upon our good people of Bernalillo county should I remain a member of your honorable board of registration, therefore, in order to appease the rebellious spirits of the fathers of our glorious country, and to avoid any great calamity that might occur to our good people, I most respectfully tender my resignation as a member of your honorable body, to take immediate effect.

Very truly yours,
CHAS. MONTALDO.

A Society Building.

The Independent Order of Odd Fellows, Ancient Order of United Workmen and Knights of Pythias are considering the matter of erecting a society building which will cost not less than $20,000. Each society has named a committee of three and the nine will decide upon some plan by which the object can be attained. The committees are: Odd Fellows—John W. Berks, Edward Strasburg, M. J. Murphy; Workmen—Edward Medler, C. B. Hawley, R. W. Hopkins; Knights—W. N. Smith, B. W. Angel, Z. T. Phillips. The committees meet for consultation Tuesday evening.
