"TERROR TRAIL"

Episode Fifteen

"The Wings of Victory"

BRUCE goes to headquarters to make a report. Elaine watches her butler. She sees him leave the house and follows in her car when he takes a taxi. The chase leads to another part of the city. There Elaine sees her butler meet Hunch's. Risking the peril of being discovered, she contrives to listen in on their conversation. She learns that they are both willing to deal with the new organization, provided there is enough in it for them, and also that Hunch's butler seems to know where the new band is located. So when the two butlers separate, Elaine follows Hunch's butler back to Hunch's house. There she finds that Hunch is impatiently awaiting the return of the butler, for he has gotten track of the new band and is eager to be after them. They leave for the station in an auto. Elaine rushes to a phone and tells Bruce to join her at the station, as they must catch the same train in order to learn where Hunch is going. She is delayed and misses the train by a few seconds. Bruce is held up by a traffic accident but a friend comes to his aid in a high-powered roadster and they speed on to the station.

Elaine drives furiously to where the road crosses a viaduct over the tracks. As the train goes under, she drops on top of it. Then she sees that she cannot find an open door. The train gathers speed and approaches a tunnel which threatens to sweep Elaine off.
