R

JUN 23 1922

MAIN TITLE: "YELLOWSTONE NATIONAL PARK"

Produced and Distributed by Ford Motion Picture Laboratories

Copyrighted 1922 by Ford Motor Company.

SUB-TITLES:

1. The Yellowstone Park was made a National Park in 1872. It is a land of hot springs and geysers. Over the gateway is this inscription: "For the Benefit and Enjoyment of the People."

2. The park is a plateau built up by lava deposits surrounded by mountains.

3. The high mountains of the Continental Divide form a rim about the east valleys.

4. The grassy valleys have some trees and shrubs.

5. The lodgepole fir, spruce, balsam and Douglas fir are the trees along the stream.

6. The forests shelter many wild animals.

7. The friendly bear is common.

8. The brown bear, unlike the grizzly, is at home in the trees.

9. The eagle nests among the hightest mountain crags.

10. The park is a land of more than 100 geysers.

11. Geysers are caused by underground water being changed into steam by contact with heated rock.

12. Old Faithful Geyser erupts regularly about every 70 minutes.

13. The Giant Geyser throws a column of water 5 feet in diameter and 250 feet high.

14. The Grotto Geyser is one of the lagge geysers.

15. Giantess Geyser has an immense conelss crater from which rises a column of water 20 feet in diameter.

16. Riverside Geyser is very near the Firehold River.

17. Lion Geyser erupts at irregular intervals.

18. Lone Star Geyser has built up a large irregular cone.

19. The Devil's Punch Bowl, so called because of its shape.

20. The Hot Springs have sinter deposits about their openings.

21. Liberty Cap consists of deposits made by a one active hot spring.

22. Jupiter Terrace covers nearly five acres of surface.

23. Mammoth Hot Springs are beautifully colored.

24. Cleopatra Terrace has huge vats of the clearest water.

25. Minerva Terrace has beautiful terraces.

26. Pulpit Terrace.

27. Mud Volcano, a boiling, steaming mass of clay.

28. The Mammoth Paint Pots, great blubbering mush-like vats of brilliantly colored clays.

29. Black Growler constantly ejects steam clouds.

30. The Hoodoos or old lava flows.

31. The Devil's Kitchen is a heated underground cavity.

32. Obsidian Cliff from which the Indians obtained material for their arrows.

33. Tourists' accommodations are excellent.

34. Golden Gate and Highway. A part of the excellent road system in the park.

THE END.
