THE SUN GUARANTEES ITS ADVERTISERS A CIRCULATION OF TWELVE HUNDRED COPIES EACH WEEK---THE SUN'S BOOKS ARE OPEN TO ALL

PRINTING AND BINDING

Anything from a visiting card to a broadside, and a quality of work at prices that are satisfactory. Lithographed stock certificates and engraved wedding goods and the like. Rubber stamps, sheep tags and everything in metal goods at right prices. When better printing is done The Sun will do it.

The Sun

PRICE, UTAH

POLITICALLY, REPUBLICAN.

Entered as Second-Class Matter, June 4, 1915, at the Postoffice at Price, Utah, Under the Act of March 3, 1879.

VOLUME 1; NUMBER 43 | EVERY FRIDAY | MARCH 24, 1916

LEGAL BLANKS

The Sun carries in stock all legal blanks commonly in use, deeds, mortgages, location notices, leases, contracts and the like. The most complete stock in Eastern Utah. Orders filled and mailed the day received. Let The Sun fill your legal blank orders. When better printing and binding is done The Sun will do it.

MOHRLAND CLUB MAKES BIG KICK

PLANS BEING DROPPED FROM THE LOCAL LEAGUE.

John Henry Young and Chapp Fabs Met At Price Last Monday and Organized For the Coming Baseball Season—Dr. H. E. Dowd, President, and Lake F. Young, Secretary.

J. E. Fox favored The Sun with a call yesterday and he reports that the citizens of Mohrland and Hiawatha are greatly chagrined on account of their baseball club having been shut out of the Carbon County Baseball league. The opinion at the United States Fuel company camps is that inasmuch as the Mohrland team represents about three thousand people, all of them rabid fans, that it was a foolish business move—to say the least—to exclude their team. About two a month last season special trains were run from Mohrland to Price that brought down crowds of people who were always willing to spend a few dollars and the result was that Price business men were considerable gainers.

The people of the United States Fuel company camps—Mohrland and Hiawatha—have been particularly friendly to Price during the winter months excursions were run between the two camps and Price, and the dances and other entertainments here were liberally patronized by the coal camp people. They feel that in excluding their team from the league the rest of the clubs hit below the belt.

Superintendent H. M. McGraw is willing and anxious, says Fox, that his team should be represented and he would, as Sax says, come in with bells on if only the invitation be extended. It is even suggested that Price by withdrawing from the league would be the great gainer in the long run as Mohrland would play more than half of their games here.

The Carbon-Emery Baseball league met last Saturday evening and in its place the Carbon County baseball league was formed. It is to be regretted extremely that Mohrland, one of the best teams in last year's league, should be the one that is compelled to drop out. The weather is reported to The Sun is that the score that he in Hiawatha decided that there should be no baseball there this season, and it was planned to give the Mohrland team play its games alternately at Mohrland and Hiawatha. When the representatives of the five clubs—Price, Mohrland, Castle Gate, Sunnyside and Helper—met last Saturday night at Price the feasibility of a five-club league was discussed, and after the matter was put to a vote it was found that Mohrland was left out. When this fact was reached the Mohrland representatives withdrew from the meeting.

Lake F. Young was Helper's representative at the meeting and as the other clubs had two delegates each, he was given two votes. Kinney and Davis were there from Mohrland, Edwards and Moorehead from Castle Gate, Tucker and Detweiler from Sunnyside and the Price team was represented by Leo Evans and Lee Whitmore. Kinney was elected temporary chairman of the meeting and Whitmore secretary. After the withdrawal of Kinney and Davis, the permanent officers of the season were chosen. Dr. H. E. Dowd of Kenilworth was made president and Lake F. Young of Helper, secretary and treasurer. The constitution and by-laws of last year's Carbon-Emery league were adopted bodily with the exception that the name of the league was changed to "Carbon County league" and the schedule for the season was arranged to begin April 16th and to end September 24. A committee was appointed to draw up the schedule for the coming season. The members are Moorehead of Castle Gate, Wise of Helper and McKinnon of Price.

The temporary secretary, Lee Whitmore, was instructed to draw up and forward to each club a resolution expressing regret at the necessity of dropping any club from the league and particularly that it should be Mohrland, and expressing the good will of the league clubs and extending an invitation to re-enter the league whenever the opportunity should present itself to procure six clubs.

C. E. Goulmalt, a representative of Spalding & Bros., came out from Salt Lake City to attend the meeting and announced that his company presented the winners in the Carbon County league a silver cup. His offer was cheerfully accepted. The league will now be "Win the Duel."

ALL THE FANS REGRET THE DROPPING OF MOHRLAND

The elimination of Mohrland and the failure of Hiawatha to have a team is regretted by all the fans of the county, as both teams last season put up big league ball and were undoubtedly at the close of the year about as good a bunch of players as were to be found in any part of the country outside of the larger leagues. Before Kinney and Davis left Price they intimated that Mohrland was "through." The Sun hopes not, and also hopes that Morse and Standardville may yet get a team together, and when that happens Mohrland will come back into the fold and welcome. Possibly Hiawatha might be induced to westwelder and thus the Carbon-Emery league would be revived.

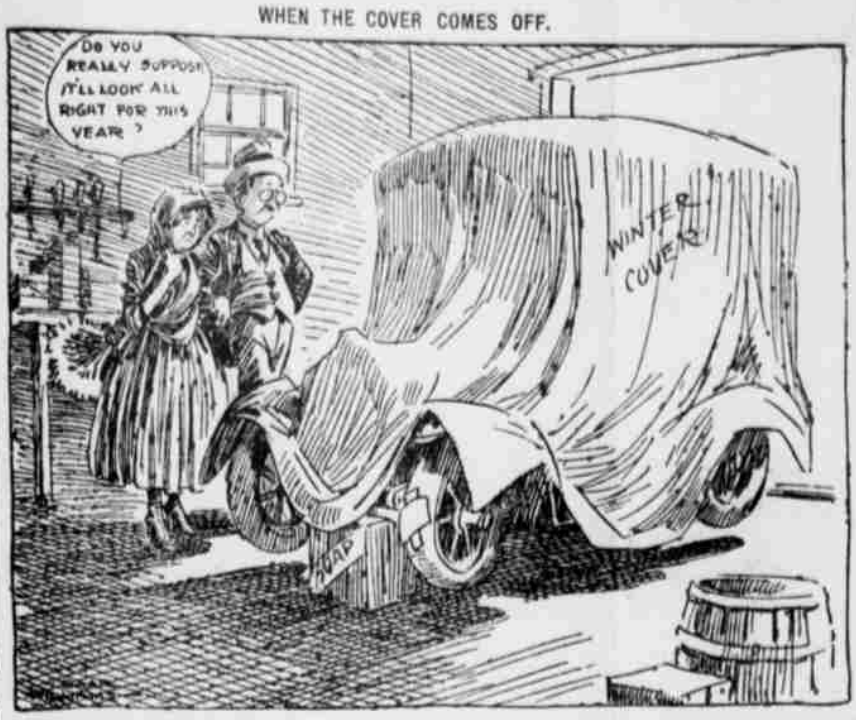
NUTTER SUES COUNTY

Sue For Return of Money On Taxes Paid Under Protest.

Preston Nutter of Nine Mile is the plaintiff against Carbon county in a suit filed in the district court at Price last week to recover four hundred forty-seven dollars and forty-three cents, which is alleged to have been exacted from the plaintiff for taxes. The complaint in brief sets forth that the plaintiff last year filed with the county assessor a sworn statement in which he set forth that he had one thousand head of cattle and twenty head of horses. In spite of this statement, it is alleged, the county assessor assessed him on fifteen hundred head of cattle and thirty head of horses in a total valuation of thirty thousand seven hundred and fifty dollars. The plaintiff claims that this was ten thousand two hundred and fifty dollars in excess of the value of his property. He has already paid $42.28 to the county treasurer under protest and is now suing for the return of the amount—$427.43—with which he alleges he was overcharged. Fred P. Graffret is plaintiff's attorney.

Frank De Rosa seeks a divorce from his betterhalf, Antolnetta De Rosa, alleging desertion. Another case to come up from the Helper city court on appeal in which Louis Oleson is suing Casino Rodio on an account. Defendant is the appellant.

WHEN THE COVER COMES OFF.



MORE MEN ARE WANTED

Forces At Sunnyside to Be Increased Immediately.

By Telephone to The Sun.

SUNNYSIDE, Mar. 24.—Flash Fuel company, through W. S. Wetzel, superintendent here, announces that the company will employ several more men loading coke now stored at the ovens here. Work will commence at once. Several more miners will be given employment at the mines.

The employment of more laborers and miners as here announced is confirmed by J. S. Thompson, general superintendent of all the Utah Fuel company properties, who was in camp yesterday and left here in the evening for Castle Gate.

J. M. Shapp is superintendent of coke ovens at Sunnyside and to him application for positions should be made and to W. N. Wetzel, superintendent, for employment at the mines.

Large contracts for coke from the smelters of Utah, Montana and Nevada is given as the reason for the increase of forces at Carbon county's greatest coal camp.

STATEMENT OF PRICE'S BASEBALL MONEY FUND

Below is the financial statement of the Price Baseball association for the months of January, February and March. This is published by The Sun at the request of the association's secretary in order that the public—especially those who have contributed—may know what is being done. The officials of the association are L. E. Woods, president; L. E. Whitmore, secretary and treasurer, and G. E. Nelson, F. W. Averill, A. H. Hansen, the finance committee. The whole body also forms the executive committee.

Month of January, 1916.

Turned over by Frank Averill, profits from baseball dances	$ 42.50
Balance from 1915, from Dr. Chamberlain, treasurer	14.68
Gross receipts, dance January 22, 1916	29.00
	$ 87.18

Wetter Lumber Co., bats and balls	12.50
Balance on hand March 22d	$87.41
	$232.11

FIRST BALL GAME

Price Puts It Over Standardville and Helper Picked Nine.

Last Friday afternoon several score baseball fans witnessed a pretty good game of ball at City Park, when a team composed of some Helper and Standardville players crossed bats with Price, victory resting with the home team by a score of eight to five. Some errors were made—three by Standardville and four by Price. This was good considering the want of practice. Happs, who pitched for the visitors, struck out twelve men. Evans, the Price pitcher, copped off two.

CLEAN UP THE SLOGAN

Council Directs City Health Officer to Start Campaign.

Clean up! Clean up! This is the word being passed along by City Physician Chamberlain and the board of health. The city council has caused notice to be served on all citizens to clean up their premises by April 15th, at which time the board of health will make an official inspection of the city and take notes. If premises are not cleaned up to that date owners of property and tenants are due to get a calling down.

City Attorney F. E. Woods had pensions but a ninety-day service prepared and presented a resolution to the council at the meeting last Friday evening providing for a board of appraisers and a special election to sell the municipal light and power plant. A majority of the council felt that the people are entitled to know about what they would be taxed for light and power under private or corporate ownership, and also the probable expense of street lighting. Council felt that it was prepared to act on the matter of calling an election as soon as an intelligent expression could be had on these questions, hence the resolution was laid over until the next meeting of the council, April 4th.

Morgan King was retained as collector of poll taxes.

The street committee was authorized to have the irrigating laterals running north and south cleaned out at once.

The street sprinkling was referred to the street supervisor until such time as permanent sprinkling arrangements are made.

The park committee was authorized to select a suitable caretaker of City Park, and to report such appointment to next meeting of council.

The purchase of a three-way drag for street purposes was authorized.

Farmers Exchange and Implement company was granted permission to put its wagon scales on the street in front of its property.

There was present a representative of the White company of Cleveland, O., who made arguments in favor of the fire fighting machine. Council now has two definite fire apparatus propositions—one from the White firm and one from the American-La France concern. The order will probably be placed at the next meeting of council.

SPLENDID PROGRAM

Everyone Invited Out to the Tabernacle Sunday Evening.

Below is the program to be given at the tabernacle next Sunday evening, March 26th, at 7 o'clock by the Mutual Improvement associations. The program is in addition to the regular exercises. The public is cordially invited.

Song, "I Know That My Redeemer Liveth," congregation; reading (selected), Lyle Beach; vocal solo (soprano), Mrs. William H. Pace; address, "Topics of the Day," George Wootton. Music under direction of Prof. A. Burgener.

Lesson, "Science and Economy Essential to the Profit Margin In Better Methods of Business," Carl R. Marcusen, director.

EVERYONE BOOSTING FOR HIS HOME TOWN

Castle Gate People Proud of Their Welfare Association, Their Band and Orchestra and Many Other Things.

Correspondence The Sun.

CASTLE GATE, March 18.—"Boost For It" is Castle Gate's slogan. One may ask: "Boost for what?" The answer you would receive here is: "Why everything." And the people here sure do boost. They boost their camp at every opportunity—boost it at their work, boost it at their play and it is the writer's firm belief they actually boost it in their sleep. The reason for all this is that Castle Gate has a "welfare association." And it is in real truth an organization that is accomplishing wonders for the community and its aim is to "promote general community welfare, entertainments, first aid work, band concerts, baseball and basketball." It would be a difficult matter for a more earnest and capable set of men to be found in any community that are better fitted to the task of uniting the population of a mining camp made up of representatives from many different nationalities into a great big, hearty, hospitable and cheerful happy family, than are the officers of this association. In fact, they all try to emulate the example set by the president of the association, Superintendent William Littlejohn, who is a typical Scot and hailing from a county (Ayrshire) that is famous for its honest men and pretty girls. In fact Robert Burns wrote of the town of Ayr:

"Auld Ayr, whom ne'er a town surpasses,
For honest men and bonnie lasses."

They are J. A. Thorpe, secretary and treasurer; Dr. E. M. Neher, J. C. Snow, Otto Herres, G. D. Reese, W. H. Johnson, William Harry, board of directors; William Edman, manager of the baseball club; W. S. Young, president of the first aid association; H. J. Wilstead, manager of the basketball team; G. D. Reese, manager and director of the band, and the boosting committee, J. C. Snow and W. H. Johnson, the former also being their local press agent. The association sprang into being on July 12th last year and has had a gradual and healthy growth from that time until today it is a most prosperous and efficient organization. From now on concerts and entertainments will be given monthly and they will undoubtedly be of a high order. It is well worth anyone's time to attend these affairs. They are splendidly conducted and visitors will always find a hearty welcome. Most of the efforts of the association this year will be directed towards the development of a strong baseball team. The players are in no sense a paid organization, but are all employes in a strict sense of the word, and it might be well to mention here that the jobs the boys hold are by no means sinecures. They must perform their daily tasks just as other employes. In another place in this impression is given an account of the band concert and entertainment given last Saturday and in another month Glen Reese intends putting on a choral program with a choir of about twenty or more. No doubt it will be of the same excellence as last Saturday's performance.

Proud of the Ball Team.

Manager William Edman of the Castle Gate ball team is mighty proud of the aggregation he has got together for the season. In fact, so sure is he that he has the winning team of the Carbon County league that he has been overheard saying: "When we win the pennant—". A look at the material will show that his optimism is justifiable. Three good outfielders of last year's team, Leo Shehan, Jack Dugan and Jack Roach, are trying for places. Jimmy Morehead, formerly of "King" Knight's Ogden team in the Union association and a hitter of class, will probably displace one of the positions. Last year's men will fill infield positions, Carl Olsen at the initial sack, Ralph Jacobshagen, second, Harry Lott, shortstop, and Jim Pierce, a new recruit from Pocatello, Ida., at third. Clarence Johnson will wear the shinguards and Ed Noon will be one of Edman's pitching staff. Kellogg, who heaved for Magna last year and arrived last Sunday, is the other. Five more men will try for positions and taking it all in all the "Gate" boys do look formidable.

Gun Club Is Good One.

Another feature is a rapidly growing gun club in the general sport program of the camp and twelve members are already enrolled. They are William Edman, president; J. C. Snow, secretary and treasurer; J. B. Marshall, P. W. Dayton, Carl Schoenfell, E. A. Hassmeyer, W. J. Bowns, M. O. Carlson, E. Head, Samuel Whitton, Tony Spigorelli and Dr. E. M. Neher. Last Sunday six members of the club were out. The scores were not as good as usual, but considering the high wind that was blowing they were very creditable. J. B. Marshall headed the list with twenty-one, J. C. Snow, P. W. Dayton and Carl Schoenfell had fourteen apiece and E. A. Hassmeyer came in with sixteen to his credit. The gun club has been organized for about five months and the members are very enthusiastic and feel confident that some tall scores will be made during the coming season.

Odd Fellows and Knights.

Castle Gate Lodge No. 34, Independent Order of Odd Fellows, is in splendid condition and boasts a membership of about a hundred. The lodge was instituted on August 12, 1899, by Past Grand Master W. O. Carlisle under a special dispensation, assisted by W. G. Moore, grand secretary, and the members of Scofield Lodge No. 32 and their degree staff. The first officers of the lodge were Robert Williams, noble grand; William Featherstone, vice grand; H. G. Webb, secretary, and R. Flaim, treasurer. During the seventeen years the lodge has been in existence the membership has steadily increased and the present officers are Riley Huff, N. G.; Albert Recci, V. G.; Thomas Dickson, R. S.; Robert Henderson, F. S.; John Stagg, treasurer; John Lofley, R. S. N. G.; Ed Perkins, L. S. N. G.; Peter Piccioni, R. S. V. G.; N. A. Reber, L. S. V. G.; Howard Perkins, chaplain; John Lofley, Robert Davini and Peter Piccioni, trustees, and the representative to the grand lodge is John Stagg. It will be of interest to many to give here the names of the past noble grands of No. 34. They are Edward Perkins, John Stagg, Robert Graham, William Crow, Robert Crow, John Lofley, John Yates, John Loveland, Peter Piccioni, James Cowan and Charles Houghton.

Strong Lodge of Pythians.

Another secret organization in the camp is that of the Knights of Pythias, who were organized about the year 1901, and have at present about fifty-five members. This lodge has erected a fine hall which is also used by the Odd Fellows' lodge and for entertainments, dances and other purposes. They meet every Friday night and the officers are Tony Reder, C. C.; Harry Bamber, V. C.; W. J. Bowns, prelate; W. H. Johnson, M. E.; Robert Crow, K. R. S.; William Crow, M. F.; Dominic Patrick, M. A.; David Morrison, I. G.; William Harry, O. G.; W. L. Jones, M. H., with Robert Graham, Charles Houghton and J. H. Zobell, trustees.

Another little organization that is thriving nicely in Castle Gate is the mandolin club. P. W. Dayton is the leader of the club and he is rapidly getting the members into shape. They expect to be able in the near future to take part in the monthly entertainments given by the parent welfare association. The members are W. H. Johnson, W. L. Jones, J. C. Snow, N. C. Christensen, Terry Oakley and Dr. Leonard Ward.

First Aid Team Doing Well.

Another organization that is included in the welfare association's management is the first aid association of the camp. The Castle Gate team, as Sun readers will remember, won second place on August 21st at the annual first aid and mine rescue contest held at Castle Gate. The members of the winning team then were Robert Henderson, Leonard Taylor, Albert Wardell, John Ramage, John Hretnson and John Henderson. The team that will represent Castle Gate this coming summer will practice assiduously. Superintendent Littlejohn has great hopes for its success.

UTAH MAY GET BIG SUM OF MONEY OUT OF GOVERNMENT

The territory of Utah turned down a total of $53,512.20 that it had coming from the government in 1861, and as a result the only way this state can get money due from the Indian wars of 1853 is to obtain a special act of congress.

This information was received this week by the attorney general from James L. Betz, auditor of the United States war department. He says that congress appropriated the amount, but when the territory failed to apply for the money it was turned back into the surplus fund.

The state's interest in the matter was caused by the application of Andrew Leslie, an aged Indian war veteran of Ferron in Emery county, for money he claims is due him for services rendered in 1853.

An earthenware casserole, or any dish, should be soaked in salty or soda water for twenty-four hours before using, so as to avoid cracking. Treated thus its term of usefulness will be prolonged.
