Subpart A—[Reserved]

Subpart B—Special Project Grants for Family Planning Services

AUTHORITY: The provisions of this Subpart B issued under sec. 1102, 49 Stat. 647, 42 U.S.C. 1302; sec. 508, 81 Stat. 926, 42 U.S.C. 708.

SOURCE: The provisions of this Subpart B appear at 36 F.R. 3314, Feb. 27, 1971, unless otherwise noted. Redesignated at 37 F.R. 10780, May 27, 1972.

§ 51a.201 Applicability.

The regulations in this subpart are applicable to the award of grants under section 508(a)(3) of the Social Security Act (42 U.S.C. 708(a)(3)) for projects for the provision of family planning services to ensure that individuals have available to them the freedom of choice to determine the spacing of their children and the size of their families, and to help improve the general health of mothers and children.

§ 51a.202 Definitions.

As used in this subpart:

(a) "Act" means section 508 of the Social Security Act as amended (42 U.S.C. 708).

(b) "State" means any of the several States, the District of Columbia, Puerto Rico, the Virgin Islands, and Guam.

(c) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

§ 51a.203 Eligibility for grants.

In order to be eligible for a grant under this part, an applicant must be (a) the State health agency of any State; (b) with the consent of such State health agency, the health agency of a political subdivision of the State; or (c) any public or nonprofit private agency, institution, or organization.

§ 51a.204 Application.

(a) An application for a grant under this subpart shall be submitted to the Secretary in such form and manner and at such time as the Secretary may prescribe.¹ The application shall contain a budget and a narrative plan of the manner in which the applicant intends to conduct the project and carry out the requirements of this subpart.

(b) The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of the grant award, including the regulations of this subpart and the policies and procedures prescribed by the Secretary for grants under this subpart.

(c) The applicant will be notified of action taken on his application.

(1) If a grant is made, the initial award will set forth the amount of funds granted and will specify the project period for which support is contemplated if the activity is satisfactorily carried out and Federal funds are available. For continuation support, grantees must make separate application annually.

(2) Neither the approval of any project nor a grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation or other award with respect to any approved project or portion thereof,

¹ Applications and instructions may be obtained from the Regional Health Director of the Health Services and Mental Health Administration at the Regional Office of the Department of Health, Education, and Welfare for the region in which the project is to be conducted.

but this provision shall not preclude the Secretary from making upward adjustments to actual costs as to amounts awarded on a provisional basis as provided in subparagraph (1) of this paragraph.

§ 51a.205 Matching requirements.

Federal funds will be granted on the basis of project applications and may be used to meet not more than 75 percent of the cost of the project. The non-Federal participation may be derived from a variety of sources, including (a) new State or local appropriations or other new grantee funds, and (b) existing funds and time of personnel used for the ongoing activities of the grantee agency which are made a part of the project. Grantee funds or services derived from other Federal funds or used for matching any other Federal grant may not be used to match the Federal funds in this program except as otherwise specifically allowed by Federal statute.

[36 FR 3814, Feb. 27, 1971. Redesignated at 37 FR 10730, May 27, 1972 and amended at 38 FR 26195, Sept. 19, 1973]

§ 51a.206 Personnel and facilities standards.

The application shall describe the standards required for personnel and facilities utilized in the provision of services under the program. These standards for personnel and facilities must (a) be those which are found upon investigation by the grantee to be best adapted for the attainment of the specific purposes of the project, (b) assure a reasonably high standard of care, and (c) be in substantial accordance with national standards as accepted by the Secretary or standards prescribed by the Secretary. However, if a project is planned for an area in which it is not possible to meet standards accepted or prescribed by the Secretary, the best available resources must be used, and steps must be taken to improve the standard of care. In such case, the application must include a description of such proposed remedial action.

§ 51a.207 Availability of services.

Project services must be made available:

(a) Without any requirement for legal residence other than a requirement that the person or family to be served is currently residing in the project area;

(b) Upon referral from any source or upon the patient's own application;

(c) With respect for the dignity of the individual;

(d) With efficient administrative procedures for registration and delivery of services;

(e) Without regard to religion, family size, or marital status (see also section 51a.20); and

(f) Only to persons who because of low income or for other reasons beyond their control could not otherwise obtain services comparable to those provided under the project. However, if specific income standards are used, they must be applied flexibly, with due regard for total family needs in the particular case. Determinations of eligibility for services under the project shall be made by the project director or a member of the project staff designated by him, and shall be made in accordance with this section, the policies and procedures governing the project, and the project plan and budget as approved.

§ 51a.208 Provision of services.

(a) Acceptance of services provided under the project must be voluntary, and individuals must not be subjected to any coercion to receive services or to employ or not to employ any particular method of family planning. Acceptance of family planning services shall not be a prerequisite to eligibility for or receipt of any other services.

(b) Measures must be taken to promote community understanding of the objectives of the program, to make the availability of services known to the community, and to encourage and facilitate attendance in the program.

(c) The project must be coordinated with related services of local health and welfare departments, hospitals and related voluntary agencies, and health projects supported by the Office of Economic Opportunity. Where appropriate, there should be referral arrangements with local welfare departments for services to persons under the Aid to Families With Dependent Children Program.

(d) The program must include counseling, and interpretation to individuals of the service provided.

(e) Family planning medical services shall be under the direction and responsibility of a physician with special training or experience in family planning.

(f) Projects are to be designed to assure comprehensiveness and continuity in the health management and super-

vision of project patients with respect to family planning services.

(g) A variety of medically approved methods of family planning, including the rhythm method, must be available to persons to whom family planning services are offered and provided.

(h) Diagnostic and treatment services for infertility must be provided for in the family planning project.

§ 51a.209 Payment for services.

(a) Project plans shall set forth the methods utilized by the grantee in establishing the rates of payment for medical care, and in substantiating that the rates are reasonable and necessary to maintain standards relating to the provision of services established pursuant to § 51a.206. Grantees will maintain a schedule of rates for such services.

(b) All services purchased for project patients must be authorized by the project director or his designee on the project staff.

(c) No charge shall be made to any person or family for services under the project, except to the extent that payment will be made by a third party (including a government agency) which is authorized or is under legal obligation to pay such charges. Where the cost of care and services furnished by or through the project is to be reimbursed under Title XIX of the Social Security Act, a written agreement with this Title XIX agency is required. Reimbursement may be either to the project or directly to the provider.

§ 51a.210 Confidentiality of information.

All information as to personal facts and circumstances obtained by the project staff shall be treated as privileged communications, shall be held confidential, and shall not be divulged without the individual's consent except as may be necessary to provide services to the individual. Information may be disclosed in summary, statistical, or other form which does not identify particular individuals.

§ 51a.211 Project expenditures.

(a) Project funds (Federal and matching) are available for the direct costs of operating and maintaining the project approved in the plan and budget.

(b) Funds may not be used for the following:

- (1) Construction of buildings;

- (2) Depreciation of existing building or equipment;

§ 51a.212 Interest and other income.

(a) Pursuant to section 203 of the Intergovernmental Cooperation Act of 1968, 42 U.S.C. 4213, a State, as defined in section 102 of that Act, will not be held accountable for interest earned on grant funds, pending their disbursement for program purposes. A State, as defined in the Intergovernmental Cooperation Act, section 102, means any one of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State. § 51a.219 Effect of payment.

Neither the approval of a project plan nor any certification of funds or payment to a grantee pursuant thereto shall be deemed to waive the obligation of the grantee to observe, before or after such action, any Federal requirements, or to waive the right of the Secretary to withhold funds for noncompliance with Federal requirements.

Such regulations shall apply to any activity for which grant funds are in fact used whether within the scope of the project as approved or otherwise. Appropriate measures shall be taken by the grantee and by the Secretary to assure that no contracts, assignments or other arrangements inconsistent with the grant obligation are continued or entered into and that all personnel involved in the supported activity are aware of and comply with such obligation. Laboratory notes, related technical data and information pertaining to inventories or discoveries shall be maintained for such periods, and filed with or otherwise made available to the Secretary or those he may designate, at such times and in such manner as he may determine necessary to carry out such Department regulations.

§ 51a.313 Publications and copyright.
