PART 1075—CONSTRUCTION
CONSERVATION ORDER NO. L-41

War requirements of the United States have created a shortage of all materials required for war production and construction necessary thereto, for private account and for export; the War Production Board accordingly has stated as its policy that it is in the national interest that all construction which is not essential, directly or indirectly, to the successful prosecution of the war, and which involves the utilization of labor, material or construction plant urgently needed in the war effort, be deferred for the duration of the emergency; the following order is, therefore, necessary and appropriate to conserve scarce materials by allocating them to essential uses and restricting their use in non-essential construction.

§ 1075.1 Conservation Order L-41—
(a) Definitions. For the purpose of this Order:

(1) "Person" means any individual, partnership, association, business trust, corporation, government or governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Construction" means the erection, construction, remodeling or rehabilitation of any building, structure or project, or additions thereto or extensions or alterations thereof, but not including maintenance or repair as defined in paragraphs (a) (6) and (a) (9) below.

(3) "Residential Construction" means any construction where the principal function of the building, structure or project is or will be to provide living space or accommodations, including, but not limited to, single or multiple dwelling units, dormitories, hotels, and apartment houses.

(4) "Agricultural Construction" means any Construction, other than Residential Construction, where the building, structure or project is used in the production of agricultural products including but not limited to, those produced by farmers, planters, ranchmen, dairymen, or fruit or vegetable growers.

(5) "Other Restricted Construction" means any Construction, other than Residential and Agricultural Construction, including but not limited to, commercial, industrial, recreational, institutional, highway, roadway, sub-surface and utilities construction, whether publicly or privately financed.

(6) "Begin Construction" means to initiate Construction by physically incorporating into any Construction material which is an integral part of the Construction.

(7) "Cost" is meant to include the total cost of labor and material, including equipment, architects', engineers', and contractors' fees, insurance charges and financing costs.

(8) "Maintenance" means the upkeep of a building, structure or project in sound working condition.

(9) "Repair" means the restoration, without change of design, of any portion of a building, structure or project to sound working condition, when such portion has been rendered unsafe or unfit for service by wear and tear, damage or other similar causes.

(b) Prohibited construction. No Person shall, after the date of issuance of this Order, Begin Construction, or order, permit, accept delivery of, withdraw from inventory or in any other manner secure or use material or construction plant in order to Begin Construction, unless the Construction is within one of the following classes:

(1) The Construction is to be the property of the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, or the Office of Scientific Research and Development.

(2) The Construction consists of any building, structure or project, which is used directly in the discovery, development or depletion of mineral deposits.

(3) The Construction is of a type subject to the provisions of any order in the M-48 series relating to the production and distribution of petroleum. Any such construction is permitted only to the extent authorized by the applicable order in the M-48 series.

(4) The Construction is Residential and

(i) the estimated Cost is less than five hundred dollars; or

(ii) is to reconstruct or restore Residential Construction damaged or destroyed after December 31, 1941, by fire, flood, tornado, earthquake, act of God or the public enemy.

(5) The Construction is Agricultural and the estimated Cost is less than one thousand dollars.

(6) The Construction is Other Restricted Construction and the estimated Cost is less than five thousand dollars.

(c) Further construction limitations. Nothing in this Order shall authorize the use or delivery of any material, or the application or extension of any preference rating, in violation of the provisions of any limitation or other order or regulation herebefore or hereafter issued by the Director of Priorities, Office of Production Management, or by the Director of Industry Operations.

(d) Orders or certificates not constituting authorization. The assignment of a preference rating by a PD-1 or other certificate, or other order or regulation other than those listed in Schedule A, shall not constitute authorization to Begin Construction.

(1) Applications for authority to begin Construction. (i) The applicant requires priorities assistance for the proposed construction, an application shall be made for the appropriate Preference Rating Order or Certificate listed on Schedule A on the form referred to therein.

(2) Where the applicant does not require priorities assistance, application for the specific authorization to Begin Construction referred to in paragraph (b) (7) (i) hereof may be made by filing Forms PD-200 and PD-200A, or such other forms as may hereafter be prescribed, together with a statement showing (1) that no prior application is requested, (2) whether any previous application for authorization has been denied, and, if so, the reasons therefor, and (3) the total value of all Construction on the particular building, structure or project in the preceding twelve month period. Such forms or statements are to be filed with the field office of the Federal Housing Administration having jurisdiction over the location of the site.

(3) In applying either for priority assistance or for authorization to Begin Construction, the applicant should also submit additional information as to the necessity for the proposed construction, any exceptional hardships which the restrictions of this Order impose upon him, the effect on employment conditions if the application is denied, and any other pertinent facts.

(g) Violations. Any person who wilfully violates any provision of this Order or who wilfully furnishes false information to the Director of Industry Operations in connection with this Order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries or from processing or...
using material under priority control and may be deprived of priorities assistance by the Director of Industry Operations.

(h) Communications. Applications, communications and reports under this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D.C. (Ref.: L-41)

Those relating to Residential Construction shall in addition be conspicuously marked "Res."

Shipyards and Drydocks.

...marked "Res.", those relating to

SCHEDULE A—CONSERVATION ORDER L-41

The following Preference Rating Orders and Certificates are listed pursuant to paragraph (b) (7) (1) of the above Order. A general description of the type of construction covered by each, the appropriate application form and where such form should be filed, are given solely for purposes of identification.

§ 1107.2 Supplementary Limitation Order L-53—(a) Applicability of Priorities Regulation No. 1. FEDERAL POWER COMMISSION.

[DOCKET NO. G-251]

IN THE MATTER OF CABOT GAS CORPORATION

ORDER FIXING DATE OF HEARING AND SUSPENDING RATE SCHEDULE

APRIL 7, 1942.

IT APPEARS TO THE COMMISSION THAT:

(a) Cabot Gas Corporation has on file a certain Rate Schedule, designated in the files of the Commission as Cabot Gas Corporation Rate Schedule FPC No. 1, and certain supplements thereto, designated as Supplements No. 1 and No. 2 to said Cabot Gas Corporation Rate Schedule FPC No. 1, and certain supplements thereto. Designated as Supplement No. 3 to Cabot Gas Corporation Rate Schedule FPC No. 1, and certain increased rates or charges for natural gas sold to Pavilion Natural Gas Company for resale for ultimate public consumption are proposed to become effective as of February 8, 1942. Said Supplement No. 3 to Cabot Gas Corporation Rate Schedule FPC No. 1 was received by the Commission on February 3, 1942, but was not accompanied by the information required by Commission's Orders Nos. 72 and No. 72-A, to support or justify the proposed changes in rates or charges; this omission was called to the attention of the Commission in a letter of February 10, 1942, and in compliance, Cabot Gas Corporation submitted the required information on March 14, 1942, the date designated by the Commission as the filing date therefor in accordance with the requirements of said Orders Nos. 72 and No. 72-A;

(c) The filing of said Supplement No. 3 was accompanied by the information required and, in accordance with the provisions of said Orders Nos. 72 and No. 72-A; and under the provisions of section 4 (d) of the Natural Gas Act, the said supplement could not, unless otherwise ordered by the Commission, become effective until thirty days thereafter, i.e., April 13, 1942.

(d) The schedule of increased rates or charges contained in said Cabot Gas Corporation Rate Schedule FPC No. 1, as modified by Supplement No. 3 to said schedule, which supplement by its terms is proposed to become effective as of February 8, 1942, may result in excessive rates or charges to Pavilion Natural Gas Company, or place an undue burden upon ultimate consumers of natural gas, which increased rates or charges have not been shown to be justified;

The Commission finds that:

It is necessary, desirable and in the public interest that the Commission enter upon a hearing concerning the lawfulness of the proposed increased rates or charges and that said proposed increased rates or charges be suspended pending such hearing and the order thereon, but not for a longer period than five months beyond April 13, 1942;

The Commission, upon its own motion, orders that:

(A) A public hearing be held on May 11, 1942, at 10 o'clock a. m. in the Hearing Room of the Federal Power Commission in the Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the lawfulness of the rates or charges contained in said Cabot Gas Corporation Rate Schedule FPC No. 1, and Supplement No. 1 and No. 2 thereto, as modified by Supplement No. 3 thereto, which are proposed to become effective under the said rate supplement as of February 8, 1942;

(B) Pending such hearing and decision thereon the schedule of increased rates or charges contained in said Cabot Gas Corporation Rate Schedule FPC No. 1, and Supplements No. 1 and No. 2 thereto, as modified by Supplement No. 3 to said schedule, except in so far as
it may provide for the sale of natural gas for resale for ultimate public consumption for industrial use, and the same is hereby suspended for a period of five months beyond April 14, 1942, and be subject to all other requirements which may be applicable under the provisions of section 4 (c) of the Natural Gas Act; (C) During the said period of suspension the rates or charges of Cabot Gas Corporation to Pavilion Natural Gas Company, as provided for in said Rate Schedule FDC No. 1, as modified by Supplements No. 1 of No. 2 therefor, shall remain and continue in full force and effect, except so far as they may be for the sale of natural gas for resale for industrial use;

(D) As such hearing, the burden of proof to show that the proposed increased rates or charges are just and reasonable shall be upon Cabot Gas Corporation, as is provided in section 4 (c) of the Natural Gas Act; (E) Interested State commissions may participate in said hearing as provided in § 67.4 of the Provisional Rules of Practice and Regulations under the Natural Gas Act.

FEDERAL TRADE COMMISSION.

[Docket No. 4744]

IN THE MATTER OF TENNESSEE TUFTING COMPANY, A CORPORATION

COMPLAINT

The Federal Trade Commission having reason to believe that the party respondent named in the caption hereto and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of subsection (a) of section 2 of the Clayton Act (U.S.C. Title 15, section 13) as amended by the Robinson-Patman Act, approved May 18, 1938, hereby issues its complaint stating its charges with respect thereto as follows:

PART ONE: Respondent, Tennessee Tufting Company, is a corporation organized and existing under and by virtue of the laws of the State of Tennessee with its principal place and place of business at 2404 Helman Street, Nashville, Tennessee.

PART TWO: Respondent is now and has been, since June 19, 1936, engaged in the business of manufacturing and selling tufted bedspreads, bath mats, rugs and allied products for use, and resale within the United States. In the course and conduct of its said business, respondent sells the aforesaid products to purchasers located in the various states of the United States, and causes said products, when sold, to be shipped and transported from its place of business in the State of Tennessee to the respective purchasers thereof located in various states of the United States other than the State of Tennessee.

There is and has been, at all times mentioned herein, a constant current of trade in said products, between respondent, located in the State of Tennessee, and its customers located in various other states of the United States.

PART THREE: In the course and conduct of its business as aforesaid, respondent has been, and is now, engaged in substantial competition in commerce with other manufacturers and sellers of tufted bedspreads, bath mats, rugs and allied products, who, for many years prior hereto, have been, and are now, engaged in manufacturing and selling and shipping such products in commerce across state lines to purchasers thereof located in various states of the United States.

Many of respondent's customers are competitively engaged with each other and with the customers of respondent's competitors in the resale of said products within the several trade areas in which respondent's said customers respectively offer for sale and sell aforesaid products purchased from respondent.

PART FOUR: In the course and conduct of its said business, since June 19, 1936, respondent has been and is now discriminating in price between different purchasers of said products of like grade and quality, which products have been and are being sold by respondent in commerce for use, and resale as aforesaid, by selling said products to some of said purchasers at lower prices than the prices at which it sells products of the same grade and quality to other of its said purchasers, and by giving and allowing certain of said purchasers adjustments, rebates or discounts not given or allowed to other of respondent's said purchasers.

(a) Among the general practices pursued by the respondent in discriminating in price, since June 19, 1936, are the following:

1. A rebate of 5% has been granted and allowed to each customer who is a member of a buying syndicate if the
total purchases of the member customers of the buying syndicate through which the purchases of such member customer are made aggregate a minimum of $10,000 annually.

2. A rebate of 5% has been granted and allowed to certain of respondent's large individual customers upon varying terms and conditions. Some of this class of customers were granted and allowed a rebate of 5% when their individual purchases aggregated a minimum of $5,000 and 6% when their individual purchases aggregated a minimum of $15,000. Others of this class of customers were granted a rebate of 5% irrespective of the aggregate amount of their individual purchases and the rebate was denied entirely to others of said class of customers irrespective of the aggregate amount of their annual purchases.

(b) More recently and at the present time among the practices pursued by the respondent in discriminating in price are the following:

1. The respondent grants and allows a 5% rebate to any retail customer on its purchases if such purchases exceed $5,000 per year. Such rebate is entirely denied others of this class of customers whether or not their purchases of the respondent's products exceed $5,000 per year.

2. The respondent grants and allows a 5% rebate to each customer who is a member of a buying syndicate if the annual purchases of such member customer aggregate a minimum of $500.00 per year, the total purchases of the member customers of the buying syndicate through which the purchases of such member customer are made aggregate a minimum of $10,000 annually.

Par. Fifth: The effect of such discrimination in price by respondent, as set forth in Paragraph Four hereof, has been and may be substantially to lessen competition in said line of commerce in which respondent is engaged, and to injure, destroy and impair competition with respondent and with those of respondent's customers who are granted the benefit of such discrimination. Such discrimination in price by respondent between different purchasers of commodities of like grade and quality in interstate commerce in the manner and form aforesaid are in violation of the provisions of subsection (a) of section 2 of the Act described in the preamble hereof.

Wherefore, the premises considered, the Federal Trade Commission, on the 8th day of April, A. D. 1942, issues its complaint against said respondent.

NOTE

Notice is hereby given you, Tennessee Tufting Company, a corporation, respondent, on the 15th day of May, A. D. 1942, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, where a hearing shall be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint. You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervenor, to find the facts to be true, and if in the judgment of the Commission such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations.

Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission, may be heard on brief, in oral argument, or both, solely for the purpose of ascertaining the character of such violations.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereon affixed, at Washington, D. C., this 8th day of April, A. D. 1942.

By the Commission.
