Book 1 of 2 Books
Thursday, December 3, 1981

Highlights

- 58812 Grant Programs—Education** ED publishes list of schools eligible for National Defense Student Loan and National Direct Student Loan Cancellation Benefits for 1981-82 school year. (Part III of this issue)
- 58674, 58706 Grant Programs—Health** HHS/PHS removes prohibition on eligibility for research awards to for-profit organizations, and HHS proposes rule on grants and subgrants to for-profit organizations. (2 documents)
- 58675 HHS/PHS** revises grant regulations of National Institute for Occupational Safety and Health.
- 58644 Credit** FRS revises staff commentary to regulation Z to exempt origination fee in certain student loans from truth-in-lending disclosures until August 1982.
- 58701 SBA** proposes standards and guidelines for Export Revolving Line of Credit loans.
- 58664 Supplemental Security Income** HHS/SSA makes available to States use of regression formula in computation of Federal fiscal liability rates.
- 58677 Medicaid** HHS/HCFA amends rules on public notice of changes in method or level of reimbursement.

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers, free of postage, for \$75.00 per year, or \$45.00 for six months, payable in advance. The charge for individual copies is \$1.00 for each issue, or \$1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

58773 Employee Benefit Plans Labor/P&WBP issues notice of proposed class exemption for transactions involving certain residential mortgage financing arrangements.

58682, 58691 Telecommunications FCC exempts rural areas from telephone company-cable television cross ownership rules and amends rules to permit "talk-around" in private land mobile radio services on shared channels above a certain frequency. (2 documents)

58693 Hazardous Materials DOT/RSPA amends general applicability regulations.

58702 Consumer Protection CPSC repropose rule on risk of injury from certain stuffed toys.

58651 Air Transportation DOT/FAA extends termination date of Special Federal Aviation Regulation No. 36 on development of major repair data.

58665 Drawbridges DOT/CG establishes standard opening and acknowledging signals for most drawbridges throughout country.

58654 Securities SEC amends regulations on national securities exchanges membership for self-regulatory organizations.

58671 Copyrights Library of Congress, Copyright Office prescribes conditions for registration of certain claims to renewal copyright.

58804 Fishing Commerce/NOAA implements amendments to section 10 of Fisherman's Protective Act on fishing vessel or gear damage compensation. (Part II of this issue)

58731 Imports CITA adjusts restraint level for certain man-made fiber apparel from Republic of Korea.

58778 Sunshine Act Meetings

Rules and Regulations

Federal Register

Vol. 46, No. 232

Thursday, December 3, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 907

[Navel Orange Reg. 530]

Navel Oranges Grown in Arizona and Designated Part of California; Limitation of Handling.

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona navel oranges that may be shipped to market during the period December 4-10, 1981. Such action is needed to provide for orderly marketing of fresh navel oranges for this period due to the marketing situation confronting the orange industry.

EFFECTIVE DATE: December 4, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202-447-5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under Secretary's Memorandum 1512-1 and Executive Order 12291 and has been designated a "non-major" rule. This regulation is issued under the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). This action is based upon the recommendations and information submitted by the Navel Orange Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1981-82. The marketing policy was recommended by the committee following discussion at a public meeting on October 6, 1981. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202-447-5975.

The committee met again publicly on December 1, 1981 at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of navels deemed advisable to be handled during the specified week. The committee reports the demand for navel oranges is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the Federal Register (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared policy of the act to make this regulatory provision effective as specified, and handlers have been apprised of such provisions and the effective time.

Forms required for operation under this part are subject to clearance by the Office of Management and Budget and are in the process of review.

1. Section 907.830 is added as follows:

§ 907.830 Navel Orange Regulation 530.

The quantities of navel oranges grown in Arizona and California which may be handled during the period December 4, 1981, through December 10, 1981, are established as follows:

- (a) District 1: 1,365,000 cartons;
- (b) District 2: Unlimited cartons;
- (c) District 3: 135,000 cartons;
- (d) District 4: Unlimited cartons.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: December 2, 1981.

Charles C. Brader,
Director, Fruit and Vegetable Division,
Agricultural Marketing Service.

[FR Doc. 81-34243 Filed 12-2-81; 11:38 am]

BILLING CODE 3410-02-M

7 CFR Part 928

[Papaya Reg. 11, Amdt. 2]

Papayas Grown in Hawaii; Termination of Grade and Size Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This amendment terminates mandatory minimum grade and size requirements for shipments of fresh Hawaiian papayas. Changes in the handling requirements of California and Japan have altered the supply and demand factors upon which these grade and size requirements are based. This action recognizes the current and prospective marketing situation for Hawaiian papayas.

EFFECTIVE DATE: November 29, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202-447-5975.

SUPPLEMENTARY INFORMATION: This amendment has been reviewed under Secretary's Memorandum 1512-1 and Executive Order 12291 and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would not measurably affect costs for the directly regulated handlers.

This amendment is issued under the marketing agreement and Order No. 928 (7 CFR Part 928) regulating the handling of papayas grown in Hawaii. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). This action is based upon the recommendations and information submitted by the Papaya Administrative Committee and upon other information. It is hereby found that this action will tend to effectuate the declared policy of the act.

The Papaya Administrative Committee (PAC) at its meeting on September 24, 1981, unanimously recommended grade and size requirements for shipments of fresh papayas during the period November 1–December 31, 1981. Papaya Regulation 11 was published in the Federal Register on October 20, 1981 (46 FR 51368). Amendment 1 to Papaya Regulation 11 was published in the Federal Register on November 5, 1981 (46 FR 54920) which changed the effective date for minimum grade and size requirements from November 1–December 31, 1981, to November 29–December 31, 1981.

The minimum grade and size requirements recommended by the PAC were based upon a market which included California and Japan. The California Occupational Safety and Health Administration put into effect a new standard concerning the handling of commodities that have been treated with ethylene dibromide (EDB). As a result, it is not likely that Hawaiian papayas will be marketed in the State. In addition, Japan has adopted regulations similar to the new California standard and thus that market is not an outlet. Since these major markets are not available, papaya shipments are being diverted to other markets. The committee met on November 20, 1981, to review crop conditions and consider recommendations for modification or termination of quality requirements for papayas. The committee concluded that the remaining supplies of papayas for fresh shipment are satisfactory and of a quality consistent with demand and recommended termination of grade and size requirements under Papaya Regulation 11, which would have become effective November 29, 1981.

It is found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date of this amendment until 30 days after publication in the Federal Register (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient. This amendment relieves restrictions on the handling of papayas. It is necessary to effectuate the declared purposes of the act to make this regulatory provision effective as specified, and handlers have been apprised of such provisions and the effective time.

Information collection requirements (reporting or recordkeeping) under this part are subject to clearance by the

Office of Management and Budget and are in the process of review. These information requirements shall not become effective until such time as clearance by the OMB has been obtained.

PART 928—PAPAYAS GROWN IN HAWAII

§ 928.311 [Removed]

Accordingly, § 928.311 (Papaya Regulation 11; 46 FR 51368, 54920) is hereby terminated and removed.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: November 27, 1981.

D. S. Kuryloski,
*Deputy Director, Fruit and Vegetable
Division, Agricultural Marketing Service.*

[FR Doc. 81–34738 Filed 12–2–81; 8:45 am]

BILLING CODE 3410–02–M

7 CFR Part 989

Raisins Produced From Grapes Grown in California; Preliminary Free and Reserve Percentages for the 1981–82 Crop Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This rule designates preliminary marketing percentages for Natural (sun-dried) Seedless and Dipped Seedless raisins from the 1981 production. The estimated 1981 production of such raisins is in excess of domestic and Western Hemisphere market needs, and the action is intended to tailor the supply to these needs. Excess supplies would be available primarily for export to approved countries outside the Western Hemisphere.

EFFECTIVE DATES: August 1, 1981, through July 31, 1982.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250 (202) 447–5697.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA guidelines implementing Executive Order 12291 and Secretary's Memorandum No. 1512–1 and has been classified a "non-major" rule under criteria contained therein.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would result in only

minimal costs being incurred by the regulated 21 handlers.

Information collection (reporting and recordkeeping) under this part are subject to clearance by the Office of Management and Budget and are in the process of review. These information requirements shall not become effective until such OMB clearance has been obtained.

It is found that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register (5 U.S.C. 553) because: (1) The percentages designated herein for the 1981–82 crop year apply to all Natural (sun-dried) Seedless and Dipped Seedless raisins acquired by handlers during that crop year; (2) handlers will be marketing these 1981 crop raisins soon, and must know what free and reserve percentages will be applicable to make marketing plans; (3) handlers are aware of this action as recommended by the Committee and require no additional time to comply; and (4) no useful purpose would be served by delaying this action.

Notice of this action was published in the Federal Register on October 27, 1981 (46 FR 52377). In that notice interested persons were given the opportunity to submit comments until November 12, 1981. None was received.

The rule pertains to designating preliminary free tonnage percentages for Natural (sun-dried) Seedless and Dipped Seedless raisins of 71 percent for the 1981–82 crop year. Also, designated for that crop year are preliminary reserve tonnage percentages for these raisins of 29 percent. The 1981–82 crop year began August 1, 1981.

These designations are pursuant to § 989.55 of the marketing agreement and Order No. 989, both as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California, hereinafter referred to collectively as the "order". The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The marketing percentages were recommended under § 989.54(b) by the Raisin Administrative Committee, established under the order as the agency to work with USDA in administering its terms and provisions.

Under § 989.54(b) of the order, the Committee is required to recommend on or before October 5, a preliminary free tonnage percentage for any varietal type of raisin for which a free tonnage has been computed. If the Committee determines that the field price is firmly established for a particular varietal type, the Committee is required to

recommend a preliminary free tonnage percentage which when applied to the estimated production of that varietal type, would release 85 percent of the computed free tonnage for that varietal type. In accordance with § 989.54(a), the Committee computed free tonnages for Natural (sun-dried) Seedless and Dipped Seedless raisins of 180,430 natural condition tons and 6,691 natural condition tons, respectively. The field price for each of these varietal types has been firmly established and the 1981 production of Natural (sun-dried) Seedless and Dipped Seedless raisins is estimated to be 215,000 natural condition tons and 8,000 natural condition tons, respectively.

Eighty-five percent of the free tonnage quantity (180,430 tons) for Natural (sun-dried) Seedless raisins would be 153,366 tons. Dividing this by the estimated production (215,000 tons) results in a preliminary free tonnage percentage of 71 percent. Eighty-five percent of the free tonnage quantity (6,691 tons) for Dipped Seedless raisins would be 5,687 tons. Dividing 5,687 tons by the estimated production (8,000 tons) results in a preliminary free tonnage percentage of 71 percent.

Section 989.54(b) also provides that any difference between the preliminary or final free tonnage percentage and 100 percent should be the reserve percentage. Thus, the preliminary reserve percentage for Natural (sun-dried) Seedless and Dipped Seedless raisins would be 29 percent.

The preliminary free tonnage percentages would make 153,366 tons of the estimated 1981 production of Natural (sun-dried) Seedless raisins, and 5,687 tons of the Dipped Seedless raisin production available for immediate sale in any marketing channel. No later than February 15, the Committee is required to recommend free tonnage percentages which when applied to the final production estimate will tend to release the full free tonnage for those varietal types. By then, the Committee will have more accurate estimates of the 1981 raisin production.

After consideration of all relevant matter presented including that in the notice, the information and recommendations submitted by the Committee, and other available information, it is further found that the designation under § 989.55 of the preliminary free and reserve percentages for Natural (sun-dried) Seedless and Dipped Seedless raisins, set forth below, will tend to effectuate the declared policy of the act.

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Therefore, § 989.235 is added to read as follows: [The following section will not be published in the Code of Federal Regulations].

§ 989.235 Free and reserve percentages for the 1981-82 crop year.

The preliminary percentages of standard Natural (sun-dried) Seedless and Dipped Seedless raisins acquired by handlers during the crop year beginning August 1, 1981, which shall be free tonnage and reserve tonnage, respectively, are designated as follows:

	Free percent- age	Reserve percent- age
Natural (sun dried) Seedless	71	29
Dipped Seedless	71	29

(Secs. 1-19, 48 Stat. 31, as amended; (7 U.S.C. 601-674)

Dated: November 27, 1981.

[Docket No. AO-14-A58; Milk Order No. 1]

Milk in the New England Marketing Area; Order Amending Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This action changing present provisions of the New England milk order is based on industry proposals which were considered at a public hearing held in September 1980. The amendments increase the total amount of transportation allowance on milk moved from country locations to city plants in order to reflect more nearly the actual costs of transportation. Related amendments permit the use of storage tanks at a nonpricing reload point, allow Class I classification of ending inventories of fluid milk products, and increase the level of allowable diversions of producer milk to nonpool plants. The procedure for applying location adjustments to shipments from supply plants is also amended. The amendments are necessary to reflect current marketing conditions and to

assure orderly marketing in the New England area.

EFFECTIVE DATE: The order provisions set forth herein shall become effective January 1, 1982.

FOR FURTHER INFORMATION CONTACT: Clayton H. Plumb, Marketing Specialist, Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington, D.C. 20250 (202/447-6273).

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of Hearing: Issued August 11, 1980; published August 14, 1980 (45 FR 54066).

Recommended Decision: Issued August 28, 1981; published September 2, 1981 (46 FR 43980).

Final Decision: Issued November 5, 1981; published November 12, 1981; (46 FR 55876).

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the New England marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feed, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the

aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than January 1, 1982. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. The recommended decision of the Acting Administrator, was issued August 28, 1981, and the decision of the Deputy Assistant Secretary containing all amendment provisions of this order was issued November 5, 1981. The changes effected by this order will not require extensive preparation of substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective January 1, 1982; and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the Federal Register. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551-559)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk which is marketed within marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interest of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order Relative to Handling

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the New England marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as

amended, and as hereby further amended, as follows:

PART 1001—MILK IN THE NEW ENGLAND MARKETING AREA; ORDER AMENDING ORDER

1. In § 1001.4 paragraph (b) is revised to read as follows:

§ 1001.4 Plant.

* * * * *

(b) Bulk reload points (separate premises used for the purpose of transferring bulk milk from one tank truck to another tank truck while en route from dairy farmers' farms to a plant). If stationary storage tanks are used for transferring milk at the premises, the operator of the facility shall make an advance written request to the market administrator that the facility be treated as a reload point; otherwise it shall be a plant. The cooling of milk, collection or testing of samples, and washing and sanitizing of tank trucks at the premises shall not disqualify it as a bulk reload point.

2. In § 1001.15 paragraph (c) is revised to read as follows:

§ 1001.15 Diverted milk.

* * * * *

(c) Milk moved, as described in paragraphs (a) and (b) of this section, from dairy farmers' farms to nonpool plants in excess of 35 percent in the months of September through November and 45 percent in other months, of the total quantity of producer milk received (including diversions) by the handler during the month shall not be diverted milk. Such milk, and any other milk reported as diverted milk that fails to meet the requirements set forth in this section, shall be considered as having been moved directly from the dairy farmers' farms to the plant of physical receipt, and if that plant is a nonpool plant the milk shall be excluded from producer milk. If the handler fails to designate the dairy farmers whose milk is to be so excluded, the entire quantity of milk that the handler caused to be moved from dairy farmers' farms directly to nonpool plants during the month shall be excluded from producer milk.

3. Section 1001.41 is revised to read as follows:

§ 1001.41 Classification of inventories.

(a) A handler who operates a pool distributing plant may claim a Class I classification of some or all inventories of fluid milk products at the end of each month pending final disposition of such fluid milk products.

(b) If a handler does not claim a Class II classification of any fluid milk

products received, inventories of fluid milk products at the end of each month shall be classified as Class I milk pending final disposition of such fluid milk products.

4. In § 1001.47 paragraphs (a), (b) and (c) are revised to read as follows:

§ 1001.47 Additional assignments to Class I and Class II milk.

(a) Assign to Class I milk bulk fluid milk products received from other pool plants, unless Class II utilization was requested by the transferee and transferor handlers.

(b) Assign to Class I milk the receipts of producer milk that have not been previously assigned pursuant to § 1001.43(d) and receipts of milk from cooperative associations in their capacity as handlers under § 1001.9(d).

(c) Assign to class I milk the bulk fluid milk products received from other pool plants that have not been previously assigned.

* * * * *

§ 1001.50 [Amended]

5. In § 1001.50(a), the amount "\$2.42" is changed to "\$2.28".

6. In § 1001.52, paragraph (a) is revised, paragraphs (b), (c) and (d) are removed, and paragraph (g) is revised, as follows:

§ 1001.52 Plant location adjustments.

* * * * *

(a) The following zones are defined for the purpose of determining location adjustments:

(1) Zone 1 shall include the State of Rhode Island and the Massachusetts counties of Barnstable, Bristol, Dukes, Norfolk, Plymouth and Suffolk, and between Boston and Massachusetts highway route number 128.

(2) Zone 2 shall include the Massachusetts counties of Middlesex (only that portion south of Massachusetts highway route number 2 not included in Zone 1) and Worcester (only the townships of Berlin, Blackstone, Bolton, Douglas, Hopedale, Mendon, Milford, Millville, Northborough, Northbridge, Southborough, Sutton, Upton, Uxbridge, Westborough and that portion of Harvard township south of Massachusetts highway route number 2).

(3) Zone 3 shall include:

(i) The Connecticut counties of Middlesex (except the townships of Cromwell, Durham, Haddam, Middlefield, Middletown, and Portland), New London, Tolland (except the townships of Ellington and Somers), and Windham.

(ii) The Massachusetts county of Worcester (only the townships of Auburn, Boylston, Charlton, Clinton, Dudley, Grafton, Holden, Lancaster, Leicester, Millbury, Oxford, Paxton, Shrewsbury, Southbridge, Sterling, Webster, West Boylston, and Worcester City).

(4) Zone 5 shall include:

(i) The Connecticut counties of Fairfield, Hartford, Litchfield, Middlesex (only the townships of Cromwell, Durham, Haddam, Middlefield, Middletown and Portland), New Haven, and Tolland (only the townships of Ellington and Somers).

(ii) The Massachusetts counties of Hampden (only the townships of Brimfield, Holland, Monson, Palmer and Wales), Hampshire (only the township of Ware), and Worcester (only the townships of Brookfield, East Brookfield, Hardwick, New Braintree, North Brookfield, Oakham, Spencer, Sturbridge and West Brookfield).

(5) Zone 6 shall include the Massachusetts counties of Hampden (except the townships of Brimfield, Holland, Monson, Palmer and Wales), and Hampshire (except the township of Ware).

(b)-(d) [Reserved]

(g) The location adjustments for each plant shall be the amounts shown in the following table for the zone in which the plant is located:

LOCATION ADJUSTMENTS FOR DETERMINATION OF ZONE PRICE

Distance to Boston (miles)	Plant location zone	Class I and blended price adjustments (cents per hundredweight)
1 to 10	1	+72.0
11 to 20	2	+69.5
21 to 30	3	+67.0
31 to 40	4	+64.5
41 to 50	5	+62.0
51 to 60	6	+59.5
61 to 70	7	+57.0
71 to 80	8	+54.5
81 to 90	9	+52.0
91 to 100	10	+49.5
101 to 110	11	+47.0
111 to 120	12	+44.5
121 to 130	13	+42.0
131 to 140	14	+39.5
141 to 150	15	+37.0
151 to 160	16	+34.5
161 to 170	17	+32.0
171 to 180	18	+29.5
181 to 190	19	+27.0
191 to 200	20	+24.5
201 to 210	21	+22.0
211 to 220	22	+19.5
221 to 230	23	+17.0
231 to 240	24	+14.5
241 to 250	25	+12.0
251 and over	26	+10.0

¹ Class I and blended price location adjustments applicable to plants located in subsequent zones shall be obtained by extending the table at the rate of 2.5 cents for each additional 10 miles except that in no event shall the Class I or blended price at any zone be less than the Class I price for the month.

² Includes 26 and over.

7. In § 1001.53, the word "and" at the end of paragraph (f) is removed, the period at the end of paragraph (g) is changed to a semicolon followed by the word "and", and a new paragraph (h) is added to read as follows:

§ 1001.53 Determination of applicable zone locations for pricing purposes.

(h) For purposes of computing the value of fluid milk products at class prices, any fluid milk products moved in bulk from a pool plant to another pool plant at which a higher Class I price applies and which is classified as Class I milk shall be priced at the Class I price applicable at the location of the plant to which the milk was moved subject to a location adjustment credit for the transferee-plant determined by the market administrator as follows:

(1) After the assignments pursuant to § 1001.46 for the transferee-plant, multiply the remaining pounds of Class I skim milk by 110 percent and the remaining pounds of Class I butterfat by 150 percent;

(2) Subtract the respective pounds of skim milk and butterfat in bulk fluid milk products physically received at the plant from the following sources:

(i) Producers;
(ii) Cooperative associations in their capacity as handlers under § 1001.9(d);
(iii) Receipts of diverted milk from pool plants; and
(iv) Receipts (other than diverted milk) from pool plants at which the same or a higher Class I price applies;

(3) Assign any pounds remaining (which are not in excess of Class I transfers) to skim milk and butterfat in bulk receipts of fluid milk products (except diverted milk) from other pool plants at which a lower Class I price applies in sequence according to the zone location of the plants, beginning with the plant in the lowest numbered zone; and

(4) Multiply the hundredweight computed for each transferor-plant in paragraph (h)(3) of this section by the difference in the Class I prices applicable at the transferee-plant and transferor-plant and total such amounts.

8. In § 1001.60 paragraphs (a) (1) and (3), and (i) are revised to read as follows:

§ 1001.60 Computation of value of fluid milk products at class prices.

(a) * * *

(1) Producer milk assigned under §§ 1001.43(d) and 1001.47(b) except that for any cooperative association in its capacity as a handler under § 1001.9(d) the quantity of producer milk shall be

reduced by the total quantity of milk moved to pool plants during the month, to the limit of the quantity of producer milk;

(2) * * *

(3) Milk received at a pool plant from a cooperative association in its capacity as a handler under § 1001.9(d) and assigned under § 1001.47(b).

(i) Add together the amounts obtained under paragraphs (a) through (d) of this section, subtract therefrom the sum of the amounts obtained under paragraphs (e) through (h) of this section, and subtract the amount of the location adjustment credit computed pursuant to § 1001.53(h).

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: January 1, 1982.

Signed at Washington, D.C. on: November 24, 1981.

C. W. McMillan,
Assistant Secretary, Marketing and Inspection Services.

Agricultural Marketing Service

Food Safety and Quality Service

7 CFR Part 2856

[Docket No. 80-025F]

Revision of Shell Egg Standards and Grades; Correction

AGENCY: Agricultural Marketing Service,¹ USDA.

ACTION: Final rule; correction.

SUMMARY: This document corrects amendatory language contained in a final rule implementing changes to shell egg standards and grades which was published August 4, 1981, (46 FR 39566). This action is necessary to clarify the amendatory language so that it is clearly understood that the table and note in the affected section is not deleted or changed. This change is editorial in nature and is not substantive.

FOR FURTHER INFORMATION CONTACT: D. M. Holbrook, (202) 447-3506.

Accordingly, in FR Doc. 81-22537 published on August 4, 1981, at 46 FR 39573, the amendatory language in item number 22, in the first column is corrected to read:

¹ The Commodity Services program of the Food Safety and Quality Service, USDA, was transferred to the Agricultural Marketing Service, USDA by USDA Secretary's Memorandum, 1000-1, issued June 17, 1981. A notice detailing the Agency's reorganization is being drafted for later publication.

"22. In § 2856.228, the text of (a) is revised to read as set forth below. The note and table which follow the paragraph continue in effect."

(Agricultural Marketing Act of 1946, sec. 205, 60 Stat. 1090, as amended; (7 U.S.C. 1624))

Done at Washington, D.C., on November 25, 1981.

BILLING CODE 3410-02-M

FEDERAL RESERVE SYSTEM

12 CFR Part 226

[Reg. Z; TIL-1]

Truth in Lending; Official Staff Commentary: Revision

AGENCY: Federal Reserve System.

ACTION: Revision to official staff
commentary to Regulation Z.

SUMMARY: On October 9, 1981 (46 FR 50288), the Board's staff published a final official staff commentary to Regulation Z, as revised effective April 1, 1981. One paragraph of the commentary discussed the treatment of origination fees in certain student loans and provided an exception to the annual percentage rate disclosure for such fees. The staff is now revising that position to state that until August 1, 1982, the origination fee in such student loans need not be reflected in any of the Truth in Lending disclosures. Because of the need for prompt action, the revision is being adopted in final form immediately.

EFFECTIVE DATE: December 4, 1981.

FOR FURTHER INFORMATION CONTACT: Claudia J. Yarus or Rugenia Silver, Staff Attorneys, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202-452-3667).

SUPPLEMENTARY INFORMATION: (1) An August 13, 1981 amendment to the Higher Education Act of 1965 (Pub. L. 97-35, 536(a)(4)) permits lenders to charge an origination fee of up to 5% on certain guaranteed student loans. The amendment provides that for loans made before August 1, 1982, the disclosure of origination fees "need not meet the requirements of Truth in Lending" and "shall not be taken into account in calculating and disclosing the annual percentage rate."

After reviewing the legislative history, the staff included an interpretation of the amendment in the official staff commentary to Regulation Z (TIL-1). Comment 17(i)-4 provided that these

origination fees should be excluded from the annual percentage rate, but required that all other Truth in Lending disclosures must account for the fees. Examples of such other disclosures include the prepaid finance charge and the amount financed.

After publication of the commentary, the Chairmen and Ranking Minority Members of the Subcommittee on Education, Arts and Humanities of the Senate Committee on Labor and Human Relations and the Subcommittee on Postsecondary Education of the House Committee on Education and Labor wrote to the Board regarding this matter. They stated that the congressional intent was to exclude the origination fee from Truth in Lending for all purposes and urged that the commentary be revised to reflect that intent, particularly to avoid any disruption to the student loan program.

The staff is now revising Comment 17(i)-4 to state that for loans made before August 1, 1982, the origination fee shall not be considered in calculating and disclosing the annual percentage rate and need not be taken into account for purposes of any other Truth in Lending calculations and disclosures. While this revision does not alter the commentary's previous treatment of the annual percentage rate, it now permits the creditor either to reflect the origination fee in the other disclosures or to disregard the fees altogether for purposes of Truth in Lending.

The revised position applies to student loans made under both previous Regulation Z and revised Regulation Z.

The Truth in Lending effects of revised Comment 17(i)-4 are set forth below. These examples contrast the disclosures as they may be made for an interim student loan pursuant to the amendment to the Higher Education Act until August 1, 1982, with the way the disclosures would be made without that amendment. An interim student loan as defined in the commentary is an extension of credit for educational purposes where the repayment amount and schedule are not known at the time the credit is advanced. Both examples are based on a typical student loan of this type involving a single advance of \$2,000 for 18 months, with a 5% origination fee and a 1% guarantee insurance fee. These examples assume that the only finance charge for the repayment period is 9% simple interest.

• Before August 1, 1982, the Truth in Lending disclosures may reflect an amount financed of \$1,980, a prepaid finance charge of \$20 (attributable only to the guarantee fee), an annual percentage rate of .67% for the interim

period, and an annual percentage rate of 9% for the repayment period.

• Beginning on August 1, 1982, the Truth in Lending disclosures will reflect an amount financed of \$1,880, a prepaid finance charge of \$120 (\$100 attributable to the origination fee and \$20 attributable to the guarantee fee), an annual percentage rate of 4.20% for the interim period, and an annual percentage rate of 9% for the repayment period.

The staff is adopting this revision in final form rather than inviting public comment on it. Immediate resolution of this issue is essential to avoid disruption to guaranteed student loan programs, and the delay required for a comment period would be contrary to the public interest.

(2) Pursuant to 15 U.S.C. 1640(f), the staff is amending TIL-1 by revising Comment 17(i)-4 to read as follows:

Section 226.17—General Disclosure Requirements * * *

17(i) Interim student credit extensions. * * *

4. *Origination fee disclosure.* Pub. L. 97-35 (August 13, 1981) amended the Higher Education Act of 1965 to permit lenders to charge up to a 5% origination fee on certain student credit extensions, such as federally-insured student loans. On such credit extended before August 1, 1982, creditors are not to take those fees into account in calculating and disclosing the annual percentage rate. Moreover, the origination fee need not be taken into account for purposes of any other Truth in Lending calculations and disclosures (for example, amount financed, prepaid finance charge, and prepayment disclosures) on such credit extended before August 1, 1982.

Board of Governors of the Federal Reserve
System, November 27, 1981.

William W. Wiles,

Secretary of the Board.

[FR Doc. 81-34648 Filed 12-2-81; 8:45 am]

BILLING CODE 6210-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 81-CE-4-AD; Amdt. 39-4273]

Airworthiness Directives; Beech Models 99, 99A, A99A, A99 and B99 Airplanes

Note.—This document originally appeared in the Federal Register for Tuesday, December 1, 1981. It is reprinted in this issue

to meet requirements for publication on the Monday-Thursday schedule assigned to the Federal Aviation Administration.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Extension of effective date of final rule.

SUMMARY: This amendment extends the effective date of Amendment 39-4235 (46 FR 51734-51736) Airworthiness Directive (AD) 81-18-08 which concerns revised operating limitations in the FAA Approved Airplane Flight Manual (AAFM) for Beech Models 99, 99A, A99A, A99 and B99 airplanes. The AD's extended effective date provides approximately 60 days beyond the effective date of the FAA Master Minimum Equipment List (MMEL) to be issued on these Beech Model 99 airplanes for the accommodation of affected operators to develop and process Minimum Equipment Lists (MELs) with their local FAA office to this latest issue of the Beech 99 series MMEL. This reissued MMEL will be available after the Central Region's next meeting of the Flight Operations Evaluation Board (FOEB) meeting scheduled for December 1981.

DATE: Extends effective date of Amendment 39-4235, AD 81-18-08 to February 16, 1982.

SUPPLEMENTARY INFORMATION: The FAA issued an airworthiness directive, Amendment 39-4196, AD 81-18-08, on August 17, 1981, effective October 3, 1981, and revised the AD by Amendment 39-4235 (46 FR 51734-51736) effective December 2, 1981, applicable to Beech Models 99, 99A, A99A, A99 and B99 airplanes. The AD, as amended, requires the deletion of the Minimum Equipment List (MEL) and Configuration Deviation List (CDL) from the FAA Approved Airplane Flight Manual (AAFM) and the insertion therein of a new document entitled Kinds of Operations Equipment List (KOEL) in the Limitations Section of the AAFM for these Beech Model 99 airplanes. This action was taken pursuant to a notice of proposed rulemaking and is necessary to preclude unsafe operation of the airplanes with certain inoperative equipment. Consistent and in accordance with the AD, the FAA was to issue a new MMEL on these Beech Model 99 airplanes to be used as a guide by operators of these airplanes in updating their MELs or develop new MELs to the new MMEL. Issuance of the new MMEL has been unduly delayed due to various reasons. Since the new MMEL will not be issued prior to the Amendment 39-4235 effective date of December 2, 1981, there will not be

sufficient time to allow operators to adjust their MELs or develop new MELs to the new MMEL. Accordingly, the FAA has determined there is a need to extend the AD effective date beyond the projected new MMEL issue date to be established at the December meeting of the Beech 99 FOEB. Therefore, the FAA believes that it is in the public interest to extend the effective date of Amendment 39-4235 until February 16, 1982. This should allow affected operators and their local FAA offices ample time to develop and process MELs on these Beech Model 99 airplanes to the above new MMEL.

FOR FURTHER INFORMATION CONTACT: Paul A. Cormaci, Aerospace Engineer, FAA, Airworthiness Standards Program, Room 1639, 601 East 12th Street, Kansas City, Missouri 64106, Telephone (816) 374-6942.

PART 39—AIRWORTHINESS DIRECTIVES

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by amending Amendment 39-4235, AD 81-18-08, as follows:

This amendment extends the effective date of Amendment 39-4235, AD 81-18-08 to February 16, 1982.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); 14 CFR 11.89))

Note.—Since this document involves an extension of effective date of a regulation which is not major, the FAA has determined that it is not major under Executive Order 12291, or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). This regulatory action imposes no additional burden on any persons, and the anticipated impact is so minimal that it does not warrant preparation of a regulatory evaluation.

Issued in Kansas City, Missouri, on November 25, 1981.

Murray E. Smith,
Director, Central Region.

[Docket No. 81-NW-35-AD, Amdt. 39-4270]

Airworthiness Directives; McDonnell Douglas Model DC-8 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires inspection of windshields manufactured by Pittsburgh Plate Glass Industries (PPG), between November 1, 1978, and December 31, 1980, that are installed on McDonnell Douglas Model DC-8 series airplanes. Due to the existence of unstable anti-ice electrical coatings in these windshields, this AD is needed to assure that proper heat generation is available for bird impact protection and anti-ice functions.

DATE: Effective date January 4, 1982. Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: The applicable service information may be obtained from: McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Director, Publications and Training, C1-750 (54-60). This information also may be examined at FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington 98108, or 4344 Donald Douglas Drive, Long Beach, California 90808.

FOR FURTHER INFORMATION CONTACT: Gilbert L. Thompson, Aerospace Engineer, Systems and Equipment Branch, ANM-130L, Federal Aviation Administration, Northwest Mountain Region, Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808, telephone (213) 548-2833.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to adopt a new airworthiness directive to require inspection of windshields manufactured by Pittsburgh Plate Glass Industries (PPG), between November 1, 1978, and December 31, 1980, that are installed on McDonnell Douglas Model DC-8 series airplanes was published in the Federal Register (46 FR 35523; July 9, 1981). This proposal was prompted by the events discussed below:

During the latter part of 1980, an increase in the number of DC-8/DC-9 windshield panels being returned under warranty for out of tolerance resistance coatings was investigated by the McDonnell Douglas Company. This investigation revealed that windshield panels manufactured by Pittsburgh Plate Glass Industries (PPG) between November 1, 1978 and December 31, 1980, may have unstable anti-ice electrical coatings that increase in resistance after installation. This increase in resistance may prevent sufficient heat generation to provide ice protection. Further, the windshields' structural strength may be reduced

below that required for bird impact protection if adequate windshield heat is not available. Investigation has shown that new windshield anti-ice coatings were within specifications as measured during acceptance inspections, but that the coating's electrical resistance may increase after power application. Service reports indicate this resistance change can be measured only after 20 to 100 hours of flight operation. The rate of resistance increase is significantly reduced after 200 flight hours. An inspection of these windshields is necessary to assure that windshield heating is available or that certain operational procedures are followed when it is not available.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Seven comments were received in response to the Notice of Proposed Rule Making. Three commenters noted an erroneous reference in paragraph A.2.c.(4)(f) to manufacturer's date codes beginning with November 1, 1979, instead of November 1, 1978. The Final Rule reflects the correct date of November 1, 1978. Also, three commenters recommended that the words following the December 31, 1980, date be deleted from paragraph A.2.c.(4)(f) because the manufacturer's quality assurance system will assure that the windshields are produced within the required tolerance. Considering, in addition, that the operator's maintenance program should provide for proper maintenance practice concerning windshield tolerance checks, as noted in the maintenance manual, the FAA agrees and these words have been deleted.

One commenter pointed out that some DC-8 airplanes have a five tap transformer installed. Paragraph A.2.c.(2)(c) has been revised to reflect this configuration.

One commenter noted that the use of the statement "resistance must * * *" in paragraphs A.2.c.(1)(c) and A.2.c.(1)(d) should be changed to "resistance should * * *" because paragraph A.2.c.(4)(c) provides for resistance values other than the range indicated. The FAA agrees and the final rule is so modified.

One commenter questioned the need for the airspeed limitation placard in light of the FAR 91.70 requirement that aircraft operated below 10,000 feet mean sea level be restricted to an indicated airspeed of no more than 250 knots. The FAA has determined that the airspeed placards are appropriate, since many DC-8 airplanes are operated over water and internationally where the provisions of FAR 91.70 do not apply. In addition, there is a need for the pilot in command, from an overall operational standpoint,

to be aware that he is so limited because of potential bird impact protection degradation.

One commenter feels the requirement for 50 hour and 1500 hour repetitive inspections is unnecessary and inconsistent with the initial inspection requirement of the proposed airworthiness directive. The FAA does not agree. The initial inspection interval was derived and based upon the degree of operation hazard associated with the potential exposure of windshields whose electrical coatings are far out of tolerance. Once the windshield panels are initially inspected, the 50 hour and 1500 hour repetitive inspection intervals as outlined in the proposed AD are warranted based upon known unstable electrical coating characteristics.

One commenter questioned the necessity of referencing the lower limit resistance tolerance since the proposed AD is concerned with resistance instabilities which increase after installation. Though such is the case, the resistance tolerance intervals referenced in the proposed AD are those reflected by the airplane maintenance manual as established by the airplane type design. Since the airplanes involved are maintained in a manner consistent with good maintenance practice, the FAA sees no conflict in specifying the complete tolerance band.

One commenter felt that paragraphs A.2.c.(4)(d) and A.2.c.(4)(e) were unclear in their intent to require that existing Airplane Flight Manual procedures be followed for all DC-8 series airplanes when windshield heat is inoperative. Since paragraph A.2.c.(4)(e) applies to all DC-8 airplanes regardless of series, the wording of that paragraph has been changed to more clearly reflect this intent.

Finally, one commenter requested that the phrase "if windshield heat is unavailable for ice protection" in paragraph A.2.c.(4)(e) be clarified by providing appropriate numerical limitations. The FAA has determined that this is unnecessary since paragraphs A.2.c.(1), A.2.c.(2), and A.2.c.(4)(c) provide such numerical limits; and companion tolerance limits for proper system operation are presently reflected in the airplane maintenance manual.

After careful review of available data, including the comments above, the FAA has determined that sufficient evidence exists in the public interest in aviation safety to adopt the proposed rule with the changes previously noted.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator,

§ 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

McDonnell Douglas: Applies to McDonnell Douglas Model DC-8 series airplanes certificated in all categories. Compliance required within six months from the effective date of this AD, unless already accomplished. To assure that proper windshield heat generation is available for bird impact protection and anti-ice functions, on aircraft that have had left, center, or right windshield panels replaced since November 1, 1978, accomplish the following:

A. Inspect windshield panels to determine manufacturer and year of manufacture. Windshield panels may be identified by the manufacturer's logo "PPG" or "LOF" in large capital letters with part number specification, and serial number adjacent to logo. These are located at the top panel on the left and right-hand windshield panels, and at the bottom or top of the center windshield panel.

1. Panels manufactured by Libbey Owens Ford (LOF), no further action is required.

2. Panels manufactured by PPG:

a. Determine the year of manufacture, which is contained in the serial number. Serial number samples are shown below:
8-H-11-20-220-315 (first digit indicates year of manufacture, 1978; third digit indicates month, November).

9-H-5-21-315-373 (first digit indicates year of manufacture, 1979; third digit indicates month, May).

0-H-4-6-219-215 (first digit indicates year of manufacture, 1980; third digit indicates month, April).

1-H-3-6-317-212 (first digit indicates year of manufacture, 1981; third digit indicates month, March).

b. Windshield panels with an October 1978 or prior manufacturing data coded or January 1981 or subsequent manufacturing data coded, no further action is required.

c. Aircraft with less than 200 flight hours on replacement panel(s), accomplish the following resistance check of PPG November 1, 1978, through December 31, 1980, data coded windshield panels:

(1) DC-8-60 series windshield resistance check:

(a) Open anti-ice windshield heat right, center, left, and right, center, left anti-fog circuit breakers on EPG circuit breaker panel.

(b) Disconnect windshield electrical conductor from receptacle on left, right, and center windshield panels.

(c) Using an ohmmeter check resistance between Terminal L and P at the receptacle on left (right) windshield panel. Resistance should be 61.2-82.8 ohms.

(d) Using an ohmmeter check resistance between Terminals E and G at receptacle on center windshield panel. Resistance should be 67.5-92.5 ohms.

(e) Reconnect the windshield electrical conductor to receptacle on windshields and close the power system circuit breakers.

(2) DC-8-50 series and prior windshield resistance check:

(a) Open the outer pane windshield heat circuit breakers for the left, right, and center windshields on the heat, vent, and ice protection (AC bus) circuit breaker panel.

(b) Remove access door No. 623 on the first officer's console and electrical power center.

(c) Disconnect the conductor connected to transformer Terminal X, Y, or Z on three tap transformer or V, W, X, Y or Z on five tap transformer of windshield to be tested.

(d) Using an ohmmeter, check resistance between transformer Terminal 1 and the conductor disconnected from the transformer. Resistance should be 81.6 to 110.4 ohms for left [right] windshield.

(e) Using an ohmmeter, check the resistance between transformer Terminal 1 and the conductor disconnected from the transformer. Resistance should be 96 to 130 ohms for the center windshield.

(f) Reconnect conductors to terminals.

(3) If windshield resistance is:

(a) Within tolerance on all three panels, aircraft may be continued in service and panels must be respectively inspected at 50-hour intervals until the accumulation of 200 flight hours.

(b) Within tolerance after the accumulation of 200 flight hours, no further action is required.

(4) If resistance is out of tolerance on one or more of the three windshield panels:

(a) For DC-8-60 series center panel out of tolerance install the following placard in full view of pilot: "Do Not Exceed 260 kts IAS Below 10,000 Feet Altitude."

(b) For DC-8-60 series with only side panel(s) out of tolerance, install the following placard in full view of the pilot: "Do Not Exceed 285 kts IAS Below 10,000 Feet Altitude."

(c) For DC-8-60 series, if left [right] windshield panel(s) resistance is 82.9 to 130 ohms and/or center windshield panel resistance is 92.6 to 130 ohms, full anti-ice capability is available. Panels must be repetitively inspected at 50-hour intervals, until the accumulation of 200 flight hours, to ascertain that the resistance remains at or below 130 ohms. After the accumulation of 200 flight hours, the repetitive inspection interval can be extended to 1500 flight hours.

(d) For DC-8-50 series and prior with resistance out of tolerance on one or more of the three windshield panels, install the following placard in full view of the pilot: "Do Not Exceed 245 kts IAS Below 10,000 Feet Altitude."

(e) If windshield heat is unavailable for ice protection, install the following placard in full view of the pilot: "Windshield Heat Inoperative." In certain cases, the rain removal system can be used to de-ice or anti-ice windshields. See procedures in the airplane Flight Manual.

(f) The above restrictions can be removed when the out-of-tolerance panel(s) is/are replaced with panel(s) manufactured by LOP or any PPG manufactured panel(s) with a date code other than November 1, 1978, through December 31, 1980.

d. For November 1, 1978, through December 31, 1980, date coded windshield panels which have over 200 flight hours, accomplish the resistance check per paragraph c(1) or c(2), as applicable.

(1) If windshield resistance is within tolerance on panels, no further action is required.

(2) If resistance is out of tolerance on any of the three panels, accomplish the instructions as outlined under paragraph c(4).

B. Alternative inspections, repairs, or other action to be accomplished on or after the effective date of this AD which provide an equivalent level of safety, may be used when approved by the Chief, Los Angeles Area Aircraft Certification Office, FAA Northwest Mountain Region.

Special flight permits may be issued in accordance with FAR §§ 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation which is not considered to be major Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and will not have a significant economic effect on a substantial number of small entities under the criteria of the Regulatory Flexibility Act, since it involves few, if any, such entities. A final evaluation has been prepared for this regulation and has been placed in the docket. A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator. Under section 1006(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1486(a)), it is subject to review by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Washington, on November 20, 1981.

Robert O. Brown,

Acting Director, Northwest Mountain Region.

[FR Doc. 81-34470 Filed 12-2-81; 8:45 am]

BILLING CODE 4910-13-14

14 CFR Part 39

[Docket No. 81-NW-36-AD; Amdt. 39-4271]

Airworthiness Directives; McDonnell Douglas Model DC-9 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new Airworthiness Directive (AD) which requires inspection of windshields manufactured by Pittsburgh Plate Glass Industries (PPG), between November 1, 1978, and December 31,

1980, that are installed on McDonnell Douglas Model DC-9 series airplanes. Due to the existence of unstable anti-ice electrical coatings in these windshields, this AD is needed to assure that proper heat generation is available for bird impact protection and anti-ice functions.

DATE: Effective date January 4, 1982. Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: The applicable service information may be obtained from: McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Director, Publications and Training, C1-750 (54-60). This information also may be examined at FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington 98108, or the Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808.

FOR FURTHER INFORMATION CONTACT: Gilbert L. Thompson, Aerospace Engineer, Systems and Equipment Branch, ANM-130L, Federal Aviation Administration, Northwest Mountain Region, Los Angeles Area Aircraft Certification Office, 4344 Donald Douglas Drive, Long Beach, California 90808, telephone (213) 548-2833.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to adopt a new airworthiness directive to require inspection of windshields manufactured by Pittsburgh Plate Glass Industries (PPG), between November 1, 1978, and December 31, 1980, that are installed on McDonnell Douglas Model DC-9 series airplanes was published in the Federal Register (46 FR 34806; dated July 6, 1981). This proposal was prompted by the events discussed below:

During the latter part of 1980, an increase in the number of DC-8/DC-9 windshields being returned under warranty for out of tolerance resistance coatings was investigated by the McDonnell Douglas Company. This investigation revealed that windshields manufactured by Pittsburgh Plate Glass Industries (PPG) between November 1, 1978 and December 31, 1980, may have unstable anti-ice electrical coatings that increase in resistance after installation. This increase in resistance may prevent sufficient heat generation to provide for ice protection. Further, the windshield's structural strength may be reduced below that required for bird impact protection if adequate windshield heat is not available. Investigation has shown that new windshield anti-ice coatings were within specifications as

measured during acceptance inspections, but that the coating's electrical resistance may increase after power application. Service reports indicate this resistance change can be measured only after 20 to 100 hours of flight operation. The rate of resistance increase is significantly reduced after 200 flight hours. An inspection of these windshields is necessary to assure that windshield heating is available or that certain operational procedures are followed when it is not available.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Eight comments were received in response to the Notice of Proposed Rule Making (NPRM). Three commenters noted an erroneous reference in paragraph A.2.c.6.d to manufacturer's date codes beginning with November 1, 1979, instead of November 1, 1978. The Final Rule reflects the correct date of November 1, 1978.

Also, one commenter recommended that the words following the December 31, 1980, date be deleted from paragraph A.2.c.6.d., because the manufacturer's quality assurance system will assure that the windshields are produced within the required tolerance. Considering, in addition, that the operators' maintenance program should provide for proper maintenance practice concerning windshield tolerance checks as noted in the airplane maintenance manual, the FAA agrees and these words have been deleted.

Two commenters felt the proposed amendment was unwarranted based upon prior satisfactory service experience. The FAA does not agree. Service experience of two years does not moderate the known degradation of the required bird impact protection and anti-ice functions which result from the resistance increase in the electrical coating of the windshield.

Two commenters questioned the need for the airspeed limitation placard in light of FAR 91.70 requirements that aircraft operated below 10,000 feet mean sea level are restricted to an indicated airspeed of no more than 250 knots. The FAA has determined that the airspeed placards are appropriate, since many DC-9 aircraft are operated overwater and internationally where the provisions of FAR 91.70 do not apply. In addition, there is a need for the pilot-in-command, from an overall operational standpoint, to be aware that he is so limited because of potential bird impact protection degradation.

Two commenters expressed concern regarding the availability of replacement parts. A lack of parts could ground aircraft with windshields outside the 130

ohm limit during the winter months. The FAA considered this possibility when formulating the six month period for initial inspection and the period of time involved in issuance of a Notice of Proposed Rule Making and subsequent Final Rule. At the manufacturer's rate of production of new windshields the present airline inventory was to be replaced by the end of June 1981. The FAA has determined, considering the percentage of suspect windshields which will fall outside the 130 ohm limit with the inspection intervals and windshield availability, that sufficient flexibility is provided so that accomplishment of the AD within the times allowed will have no adverse effect on operations.

One commenter requested that McDonnell Douglas Service Bulletin 56-12 be approved as an equivalent method of compliance with the proposed AD. Many of the aspects of S/B 56-12 are identical with the actions proposed in the AD, but the FAA does not agree with the structure of the compliance times as presented in S/B 56-12 so it cannot be considered an equivalent means of compliance in toto.

Finally, one commenter feels the requirement for 50 hour and 1,500 hour repetitive inspections is unnecessary and inconsistent with the initial inspection requirement of the proposed airworthiness directive. The FAA does not agree. The initial inspection interval was arrived at based upon the degree of operational hazard associated with the potential exposure of windshields whose electrical coatings are far out of tolerance. Once the windshield panels are initially inspected, the 50 hour and 1,500 hour repetitive inspection intervals, as outlined in the proposed AD, are warranted based upon known unstable electrical coating characteristics.

After careful review of all available data, including the comments above, the FAA has determined that sufficient evidence exists in the public interest in aviation safety to adopt the proposed rule with the changes previously noted.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

McDonnell Douglas: Applies to McDonnell Douglas Model DC-9-10, -20, -30, -40, -50, and -80 series airplanes, including C-9A, C-9B, and VC-9C airplanes, certificated in all categories. Compliance required within six months from the effective date of this AD, unless already

accomplished. To assure that proper windshield heat generation is available for bird impact protection and anti-ice functions on aircraft fuselage numbers 894 through 1021 and on aircraft that have had left, center, or right windshield panels replaced since November 1, 1978, accomplish the following:

A. Inspect windshield panels to determine manufacturer and year of manufacture. Windshield panels may be identified by the manufacturer's logo "PPG" or "LOF" in large capital letters with part number, specification, and serial number adjacent to logo. These are located at the top of the panel on the left and right-hand windshield panels, and at the bottom or top of the center windshield panel.

1. Panels manufactured by Libbey Owens Ford (LOF), no further action is required.

2. Panels manufactured by PPG Industries:

a. Determine the year of manufacture, which is contained in the serial number. Serial number samples are shown below:

8-H-10-20-220-315 (first digit indicates year of manufacture, 1978; third digit indicates month, October).

9-H-5-21-315-373 (first digit indicates year of manufacture, 1979; third digit indicates month, May).

0-H-4-6-219-215 (first digit indicates year of manufacture, 1980; third digit indicates month, April).

1-H-3-6-317-212 (first digit indicates year of manufacture, 1981; third digit indicates month, March).

b. Windshield panels with an October 1978 or prior manufacturing date coded, or January 1981 or subsequent manufacturing date coded, no further action is required.

c. Aircraft with less than 200 flight hours since new or on aircraft with less than 200 flight hours on replacement panel(s), accomplish the following heating element resistance check on PPG November 1, 1978, through December 31, 1980, date coded windshield panels:

(1) Open anti-ice circuit breaker on lower electrical panel center for windshield to be checked.

(2) Disconnect electrical connector from windshield panel to be checked.

(3) Using an ohmmeter, check resistance between Pins L and P at receptacle on left (right) windshield panel. Resistance reading should measure 61.2-82.8 ohms.

(4) Using an ohmmeter, check resistance between Pins E and G at receptacle on center windshield panel. Resistance should measure 67.5-92.5 ohms.

(5) If windshield resistance is:

(a) Within tolerance on all three panels, aircraft may be continued in service, and panels must be repetitively inspected at 50-hour intervals until the accumulation of 200 flight hours.

(b) Within tolerance after the accumulation of 200 flight hours, no further action is required.

(6) If resistance is out of tolerance on one or more of the three windshield panels:

(a) Center panel out of tolerance, install the following placard in full view of the pilot: "Do Not Exceed 260 kts IAS Below 10,000 Feet Altitude."

(b) Only side panel(s) out of tolerance, install the following placard in full view of the pilot: "Do Not Exceed 285 kts IAS Below 10,000 Feet Altitude."

(c) If windshield resistance of any panel, left, right, or center is greater than 130 ohms, install the following placard in full view of the pilot: "Flight into known icing conditions is prohibited." If left (right) windshield panel(s) resistance is 82.9 to 130 ohms, and/or center windshield panel resistance is 92.6 to 130 ohms, the panel(s) must be repetitively inspected at 50-hour intervals until the accumulation of 200 flight hours to ascertain that resistance remains at or below 130 ohms. After the accumulation of 200 flight hours, the repetitive inspection interval can be extended to 1,500 flight hours.

(d) The above restrictions can be removed when the out-of-tolerance panel(s) is/are replaced with panel(s) manufactured by LOF or any PPG manufactured panel(s) with a date code other than November 1, 1978, through December 31, 1980.

(7) Reconnect electrical connector to windshield panel and close circuit breakers.

d. For November 1, 1978, through December 31, 1980, date coded windshield panels which have over 200 flight hours, accomplish the following:

(1) Perform heating element resistance check, as outlined in paragraphs c(1) through c(4). If windshield resistance is within tolerance on panel(s), reconnect electrical connector to panel(s). No further action is required.

(2) If resistance is out of tolerance on any of the three panels, accomplish the instructions as outlined under paragraph c(6).

B. Alternate inspections, repairs, or other action to be accomplished on or after the effective date of this AD, which provide an equivalent level of safety, may be used when approved by the Chief, Los Angeles Area Aircraft Certification Office, FAA Northwest Mountain Region.

Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

(Sec. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89)

Note.—The FAA has determined that this document involves a regulation which is not considered to be major under Executive Order 12291 or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), and will not have a significant economic effect on a substantial number of small entities under the criteria of the Regulatory Flexibility Act, since it involves few, if any, such entities. A final evaluation has been prepared for this regulation and has been placed in the docket. A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator. Under section 1006(a) of the Federal Aviation Act of 1958, as

amended (49 U.S.C. 1486(a)), it is subject to review by the courts of appeals of the United States, or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Washington, on November 20, 1981.

Robert O. Brown,

Acting Director, Northwest Mountain Region.

BILLING CODE 4910-13-M

14 CFR Part 73

[Airspace Docket No. 81-APC-1]

Special Use Airspace; Amendment To Restricted Area R-7201, Farallon De Medinilla Island, Mariana Islands, Guam

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This action amends the time of use of Restricted Area R-7201 and adds the Federal Aviation Administration, Guam Center/RAPCON as the controlling agency. This action results in more efficient joint use of the affected airspace by freeing that airspace for nonparticipating IFR and VFR aircraft when not in use.

DATES: Effective date—January 21, 1982. Comments must be received on or before January 4, 1982.

ADDRESSES: Send comments on the rule in triplicate to: Director, FAA Western-Pacific Region, Attention: Chief, Air Traffic Division, Docket No. 81-APC-1, Federal Aviation Administration, 15000 Aviation Boulevard, P.O. Box 92007, Worldway Postal Center, Los Angeles, CA 90009.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, D.C.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Robert Maxey, Airspace Regulations and Obstructions Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

The Rule

This amendment to § 73.72 of Part 73 of the Federal Aviation Regulations (14

CFR Part 73) changes the time of use for Restricted Area R-7201, Farallon De Medinilla Island, Mariana Islands, Guam, to read "As activated by NOTAM 12 hours in advance." and adds "Controlling agency. Federal Aviation Administration, Guam Center/RAPCON." Redesignation of this area as joint use airspace will relieve any burden the restricted area may have upon airspace users by freeing that airspace for nonparticipating IFR and VFR aircraft when not in use. Because this action results in increased public access to the affected airspace, I find that notice and public procedure are unnecessary; however, comments are invited on the rule. When the comment period ends, the FAA will use the comments and any other available information to review the regulation. Section 73.72 of Part 73 of the Federal Aviation Regulations was republished in the Federal Register on January 2, 1981 (46 FR 831).

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 73.72 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) as republished (46 FR 831) is amended, effective 0901 GMT, January 21, 1982, as follows:

Restricted Area R-7201 Farallon De Medinilla Island, Mariana Islands, Guam [Amended]

Under time of use by deleting the word "Continuous." and substituting the words "as activated by NOTAM 12 hours in advance."

By adding "Controlling agency. Federal Aviation Administration, Guam Center/RAPCON."

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on November 24, 1981.

B. Keith Potts,
Chief, Airspace and Air Traffic Rules
Division.

BILLING CODE 4910-13-M

14 CFR Part 97

[Docket No. 22455; Amdt. No. 1204]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, may be ordered from

Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The annual subscription price is \$135.00.

FOR FURTHER INFORMATION CONTACT:

Donald K. Funai, Flight Procedures and Airspace Branch (AFO-730), Aircraft Programs Division, Office of Flight Operations, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the Federal Register expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an

effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 G.M.T. on the dates specified, as follows:

1. By amending § 97.23 VOR-VOR/DME SIAPs identified as follows:

BILLING CODE 4910-13-M

14 CFR Parts 121, 127, 135, and 145

[Docket No. 17551; SFAR No. 36-2]

Development of Major Repair Data

AGENCY: Federal Aviation Administration (FAA), DOT.
ACTION: Final rule.

SUMMARY: This amendment extends the effectivity of Special Federal Aviation Regulation (SFAR) No. 36 which provides that repair stations, air carriers, air taxis, and commercial operators of large aircraft may accomplish major repairs using self-developed repair data which have not been specifically approved by the FAA.

EFFECTIVE DATE: January 23, 1982.

FOR FURTHER INFORMATION CONTACT: Joseph A. Sirkis, Regulatory Projects

Branch (AVS-24), Safety Regulations Staff, Associate Administrator for Aviation Standards, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591, Telephone: (202) 755-8716.

SUPPLEMENTARY INFORMATION: SFAR 36, which became effective January 23, 1978, was issued to relieve qualifying certificated air carriers, operators, and repair stations of the burden of obtaining FAA approval of data developed by them for major repairs on a case-by-case basis. The certificate holders eligible for authorization under the SFAR are those employing adequately trained personnel and complying with specified procedural requirements.

SFAR 36 was adopted as an interim rulemaking action to obtain information upon which to base a permanent rule change. However, most of the affected certificate holders did not utilize the provisions of SFAR 36 until it was well into its second year and near its expiration date of January 23, 1980. Since the FAA did not have sufficient data upon which to base a permanent rule change, the termination date for SFAR 36 was extended an additional 2 years. The termination date for SFAR 36 is January 23, 1982, and authorizations issued to date under SFAR 36 are effective for a period of 2 years.

The FAA will initiate rulemaking to make the authorization issued under SFAR 36 a permanent part of the Federal Aviation Regulations. The reasons which justified the adoption of SFAR 36 still exist, and in order to allow time for completion of the permanent rule change, it is in the public interest to extend the termination date of SFAR 36 from January 23, 1982, to January 23, 1984. So that previously authorized certificate holders will not be subjected to the unnecessary burden of requalifying upon expiration of the initial 2-year period, the amendment provides that each authorization issued under this SFAR has an effective period from the date of issuance until January 23, 1984. This rule extension should provide ample time for provisions to be incorporated into a permanent rule change.

Since this amendment continues in effect the provisions of a currently effective SFAR and imposes no additional burden on any person, I find that notice and public procedures hereon are unnecessary, and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, effective January 23, 1982, Special

Federal Aviation Regulation No. 36 is amended by changing the termination date from "January 23, 1982" to "January 23, 1984", and by revising paragraph 5 to read as follows:

5. *Duration of Authorization.* Each authorization issued under this Special Federal Aviation Regulation is effective from the date of issuance until January 23, 1984, unless it is surrendered or the administrator suspends, revokes, or otherwise terminates it at an earlier date.

* * * * *

(Secs. 313(a), 601, 604 and 607, Federal Aviation Act of 1958 as amended (49 U.S.C. 1354(a), 1421, 1424, and 1427); Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Note.—The FAA has determined that this document involves a rule change which is relaxatory in nature and imposes no additional burden on any person. Accordingly, it has been determined that: the rule change does not involve a major change under Executive Order 12291; it is not significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and its anticipated impact is so minimal that an evaluation is not required.

Issued in Washington, D.C., on November 3, 1981.

J. Lynn Helms,
Administrator.

BILLING CODE 4910-13-M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[Docket No. C-3078]

Ball-Matic Corp., Inc., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.
ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, an Orange, California corporation and corporate officer to cease representing that the use of the "Ball-Matic" or any similar retrofit device will result in substantial fuel economy improvement. Further, respondents are prohibited from making representations that the use of any retrofit device or product will result in an energy savings; unless substantiated by competent scientific evidence. In addition, where any claim or characterization pertaining to energy savings is made, respondents are barred from making any endorsements without written and dated authorization, and prohibited from making

misrepresentations concerning the purpose, content or conclusion of any test or survey.

DATE: Complaint and order issued Oct. 29, 1981.¹

FOR FURTHER INFORMATION CONTACT: FTC/PE, William Haynes, Attorney, Washington, D.C. 20580. (202) 724-0726.

SUPPLEMENTARY INFORMATION: On Thursday, August 6, 1981, there was published in the Federal Register, 46 FR 40040, a proposed consent agreement with analysis in the Matter of Ball-Matic Corporation, Inc., a corporation; Lonnie W. Smith, individually and as an officer of Ball-Matic Corporation, Inc., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Advertising Falsely or Misleadingly: § 13.110 Endorsements, approval and testimonials; § 13.170 Qualities or properties of product or service, 13.170-12, Auxiliary, improving or supplementary, 13.170-34 Economizing or saving; § 13.190 Results; § 13.205 Scientific or other relevant facts; § 13.210 Scientific tests; § 13.250 Success, use or standing.

Subpart—Claiming or Using Endorsements or Testimonials Falsely or Misleadingly: § 13.330 Claiming or using endorsements or testimonials falsely or misleadingly, 13.330-94 Users, in general. Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements, 13.533-45 Maintain records, 13.533-45(a) Advertising substantiation. Subpart—Disseminating Advertisements, Etc.: § 13.1043 Disseminating advertisements, etc.

Subpart—Misrepresenting Oneself and Goods—Business Status, Advantages or Connections: § 13.1665 Endorsements; § 13.1730 Results; § 13.1740 Scientific or other relevant facts; § 13.1755 Success, use, or standing; § 13.1757 Surveys. Subpart—neglecting, Unfairly or Deceptively, To Make Material Disclosure: § 13.1863 Limitations of product; § 13.1865

¹ Copies of the Complaint and the Decision and Order filed with the original document.

Qualities or properties; § 13.1895 Scientific or other relevant facts. Subpart—Offering Unfair, Improper and Deceptive Inducements To Purchase or Deal: § 13.1980 Guarantee, in general; § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

Carol M. Thomas,
Secretary.

BILLING CODE 6750-01-M

16 CFR Part 13

[Docket No. C-3077]

Great North American Industries, Inc., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, two Gainesville, Texas corporations and a corporate officer to cease representing that substantial fuel economy can be achieved by the use of Teflon oil additives such as "Tephguard." Further, respondents are prohibited from making representations that the use of any automobile retrofit device, fuel or engine oil additive will increase fuel economy, unless substantiated by competent scientific evidence, and accompanied by the disclosure of any limitations on the performance or efficacy of such products. Additionally, the Order bars claims of government approval without written and dated authorization; prohibits misrepresentations concerning the conclusions of product tests or surveys; and requires that consumer endorsements of any product or service reflect typical consumer experiences.

DATE: Complaint and order issued October 29, 1981.¹

FOR FURTHER INFORMATION CONTACT: FTC/PE, William Haynes, Attorney, Washington, D.C. 20580. (202) 724-0726.

SUPPLEMENTARY INFORMATION: On Thursday, August 6, 1981, there was published in the Federal Register, 46 FR 40037, a proposed consent agreement with analysis in the matter of Great North American Industries, Inc., a corporation; Products on the Move, Inc., a corporation; and Patrick O. McCrary, individually and as an officer of Great

North American Industries, Inc., and Products on the Move, Inc., for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Advertising Falsely or Misleadingly: § 13.15 Business status, advantages or connections, 13.15-150 Endorsement; § 13.85 Government approval, action, connection or standards; § 13.110 Endorsements, approvals and testimonials; § 13.170 Qualities or properties of product or service, 13.170-12 Auxiliary, improving, or supplementary, 13.170-34 Economizing or saving; § 13.190 Results; § 13.205 Scientific or other relevant facts; § 13.210 Scientific tests; § 13.250 Success, use or standing.

Subpart—Claiming or Using Endorsements or Testimonials Falsely or Misleadingly: § 13.330 Claiming or using endorsements or testimonials falsely or misleadingly, 13.330-90 United States Government, 13.330-94 Users, in general. Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements, 13.533-20 Disclosures, 13.533-37 Formal regulatory and/or statutory requirements, 13.533-45 Maintain records, 13.533-45(a) Advertising substantiation.

Subpart—Disseminating Advertisements: § 13.1043 Disseminating advertisements. Subpart—Misrepresenting Oneself and Goods—Business Status, Advantages or Connections: § 13.1430 Government endorsement, sanction, or sponsorship. Subpart—Misrepresenting Oneself and Goods—Goods: § 13.1632 Government endorsement or recommendation; § 13.1645 Government standards or specifications; § 13.1665 Endorsements; § 13.1730 Results; § 13.1740 Scientific or other relevant facts; § 13.1755 Success, use, or standing; § 13.1757 Surveys.

Subpart—Neglecting, Unfairly or Deceptively, To Make Material Disclosure: § 13.1863 Limitations of product; § 13.1885 Qualities or properties; § 13.1895 Scientific or other relevant facts. Subpart—Offering Unfair, Improper and Deceptive Inducements To Purchase or Deal: § 13.1980 Guarantee,

in general; § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

16 CFR Part 13

[Docket No. C-2963]

International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, Local Union 959; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Modifying order.

SUMMARY: In response to recent appeals court decisions under the National Labor Relations Act (NLRA), this order reopens the proceeding and modifies the Commission's order issued on May 9, 1979 (44 FR 34923, 93 F.T.C. 739) by modifying the last proviso of the first ordering paragraph, so as to permit Local 959 to negotiate NLRA-authorized subcontracting agreements with construction industry employers.

DATE: Order issued May 9, 1979. Modifying order issued November 2, 1981.

FOR FURTHER INFORMATION CONTACT: FTC/CC, Elliot Feinberg, Washington, D.C. 20580 (202) 376-2863.

SUPPLEMENTARY INFORMATION: In the Matter of International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, Local Union 959. The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13 and appearing at 44 FR 34923, remain unchanged.

The Order is as follows:

The Commission on September 18, 1981 having issued an order against respondent to show cause why the proceeding herein should not be reopened for the purpose of modifying the first ordering paragraph of the consent order to cease and desist entered on May 9, 1979; and respondent having answered that it has no objection to the reopening of the proceeding and the modification of the consent order, as set forth in the order to show cause;

Accordingly, It is ordered that the matter is reopened and that the first ordering paragraph of the order herein is modified so that it will read:

¹ Copies of the Complaint and the Decision and Order filed with the original document.

It is ordered that respondent International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, Local Union 959, its successors and assigns, affiliated subdivisions, officers, trustees, employees, agents and members, directly or indirectly through any other form of business organization, shall forthwith cease and desist from:

1. Entering into any agreement or understanding that requires an employer engaged in the construction business to use or deal only with third party businesses who agree to perform work on the same terms and conditions as are agreed to between such employer engaged in the construction business and respondent;

2. Entering into any agreement or understanding with an employer engaged in the construction business that requires a third party business to be signatory to a collective bargaining agreement or other type of agreement that is binding between respondent and such employer engaged in the construction business;

3. Entering into any agreement or understanding with an employer engaged in the construction business that requires respondent to agree to the same terms and conditions of employment with a third party business as are binding between respondent and such employer engaged in the construction business;

4. Taking any action which would discriminate against or economically injure those employers engaged in the construction business which deal with third party businesses on terms other than those agreed to between such employer engaged in the construction business and respondent.

Provided, however, that respondent shall not be prohibited from engaging in any legal activity now or later authorized by federal labor law such as the right of respondent to engage in standards picketing, or entering into any agreement authorized by section 8(e) of the National Labor Relations Act, 29 U.S.C. 158(e).

By direction of the Commission.

[Docket No. 9142]

Lehigh Portland Cement Co., et al.; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, an Allentown, Pennsylvania corporation engaged in the production of cement to divest, in accordance with the terms of the Order, the Universal plant at Hannibal, Missouri and three Midwestern States distribution facilities. The Order also bars the company for specified time periods, from making certain acquisitions in prescribed areas, without prior Commission approval.

DATES: Complaint issued July 30, 1980. Final order issued October 30, 1981.¹

FOR FURTHER INFORMATION CONTACT: FTC/CS-7, Stephen Riddell, Washington, D.C. 20580. (202) 724-1122.

SUPPLEMENTARY INFORMATION: On Wednesday, July 29, 1981, there was published in the Federal Register, 46 FR 38707, a proposed consent agreement with analysis in the Matter of Lehigh Portland Cement Company, a corporation, and United States Steel Corporation, a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

Comments were filed and considered by the Commission. The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Acquiring Corporate Stocks or Assets: § 13.5 Acquiring corporate stocks or assets, 13.5-20 Federal Trade Commission Act. Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 240

[Release No. 34-18278; File No. S7-878]

Notice by Self-Regulatory Organizations of Proposed Admission to, or Continuance in, Membership or Participation of Certain Persons Subject to Statutory Disqualifications

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending the requirements applicable to notices and applications filed by self-regulatory organizations ("SRO's") with the Commission concerning proposed admissions to, or continuances in, membership or participation in the organization or association with a member of persons subject to statutory disqualifications. The amendments are designed to (1) provide additional specific exceptions from the notice filing requirements for SRO's in certain situations; (2) require specifically that SRO's provide certain detail in notices and applications to facilitate Commission review of the proposed SRO action; and (3) clarify certain provisions relating to notices and applications that may now be unclear, either as to their meaning or as to the proper procedures to be followed.

EFFECTIVE DATE: January 1, 1982.

FOR FURTHER INFORMATION CONTACT: H. Steven Holtzman, Esq., Officer of Legal Policy and Trading Practices, Division of Market Regulation, Securities and Exchange Commission, Washington, D.C. 20549, (202) 272-2842.

SUPPLEMENTARY INFORMATION: The Securities and Exchange Commission today announced the adoption of amendments to Rule 19h-1 (the "Rule")¹ under the Securities Exchange Act of 1934 (the "Act").² The Commission

¹ 17 CFR 240.19h-1. Rule 19h-1 was adopted on July 8, 1977 in Securities Exchange Act Release No. 13726, 42 FR 36410 (July 14, 1977).

² In accordance with section 17A(d)(3)(A)(i) of the Act, 15 U.S.C. 78q-1(d)(3)(A)(i), at least fifteen days

Continued

announced its proposal to amend the Rule in its March 1981 release (the "Proposal Release")³ concerning the requirements applicable to notices and applications filed by SRO's with the Commission concerning proposed admissions to, or continuances in, membership or participation or association with a member of persons - subject to statutory disqualifications under the Act. The amendments are intended primarily to reduce the number of full notices that must be filed with the Commission by SRO's and to facilitate the review of notices and applications filed with the Commission by SRO's and persons subject to statutory disqualifications.⁴

The Commission has carefully considered the comments submitted in response to the Proposal Release by six commentators.⁵ The Commission's views and actions taken in response to the comments, including a number of revisions in the Rule made pursuant to the comments, are discussed in Section II of this release. Other significant amendments to the rule that were first reflected in the Proposal Release and that have not been commented upon and further revised are also described in that section of the release.⁶

The Commission's actions are discussed in detail in the following sections of this release:

- I. Background
- II. Discussion of Amendments to the Rule
- III. Statutory Basis
- IV. Text of Rule

I. Background.

Passage of the Securities Act Amendments of 1975 (the "1975 Amendments")⁷ to the Act gave the Commission enhanced oversight responsibilities as to SRO activities. In particular, sections 6(c)(2), 15A(g)(2) and 17A(b)(4)(A) of the amended Act provide, among other things, that a

before this announcement, the Commission consulted and requested the views of the Board of Governors of the Federal Reserve System, the "appropriate regulatory agency" for four bank clearing agencies.

³ Securities Exchange Act Release No. 17615 (March 10, 1981), 46 FR 17219 (March 18, 1981).

⁴ See Section 3(a)(39) of the Act.

⁵ The Commission received comments from the American Stock Exchange, Inc. ("Amex Response"), National Association of Securities Dealers, Inc. ("NASD Response"), National Securities Clearing Corporation ("NSCC Response"), New York Stock Exchange, Inc. ("NYSE Response"), Philadelphia Stock Exchange, Inc. ("Phlx Response"), and Securities Industry Association ("SIA Response"). The full texts of these comments may be found in Securities and Exchange Commission File No. S7-878.

⁶ See the Proposal Release for a more detailed explanation of such changes.

⁷ Pub. L. No. 94-29 (June 4, 1975).

national securities exchange, national securities association or registered clearing agency must file with the Commission a notice, whose form and content is prescribed by the Commission, not less than thirty days before approving the application of a person to become a member or participant in the organization or associated with a member firm when the SRO knows, or in the exercise of reasonable care should have known, that such person is subject to a statutory disqualification. Those sections also grant the Commission authority to direct that the SRO deny membership or participation and to bar the association with a member of the person who is subject to a statutory disqualification.⁸

The rule was adopted in response to the changes made by the 1975 Amendments and in order to codify procedures for Commission resolution of issues relating to readmission to, or continuation of disqualified persons in, the securities business. The Rule provides for Commission review of notices filed by SRO's proposing, conditionally or unconditionally, to admit to, or continue any person in, membership, participation or association with a member, notwithstanding a statutory disqualification where the SRO and the parties involved, including the person subject to the statutory disqualification and his prospective employer, have agreed on employment conditions or limitations. Rule 19h-1 establishes the review mechanism and contemplates the immediate submission, as part of the notice, of the full record in the proceeding before the SRO.

Prior to the adoption of the 1975 Amendments, proposals for admission to, or continuance in, the securities business of disqualified persons were submitted by only one SRO, the NASD, with respect to its members and persons associated with its members.⁹ Since the Commission has been given specific statutory responsibility for oversight of the exchanges and clearing agencies in this area by the 1975 Amendments and as a result of other factors, including growth in the securities industry, the volume of such notices submitted to the Commission has increased substantially.¹⁰ Both the Commission's experience in administering Rule 19h-1 and the increased level of filings have

⁸ This authority is sometimes referred to in this release as the "veto power" or "veto authority."

⁹ See former Rule 15Ab-1 under the Act. That rule was superseded by Rule 19h-1.

¹⁰ In 1978, the Commission reviewed approximately 45 SRO notices. Since the beginning of 1979, the Commission has reviewed approximately 180 SRO notices.

demonstrated that certain changes in the Rule are desirable. Certain of these changes will reduce significantly the volume of filings required to be made with the Commission. This will lessen the burdens on the SRO's, firms, and individuals concerned and better enable the Commission to devote its limited resources to those filings that raise important issues of investor protection. Moreover, the Rule sets forth revised procedures that will facilitate both compliance with the Rule by SRO's and its administration by the Commission.

II. Discussion of Amendments to The Rule

A. Additional Exceptions to Filing Requirements.

Under an amendment to paragraph (a)(3) of the rule, proposed in the Proposal Release, a formal notice would not have to be filed with the Commission by an SRO for an individual who changes employment if the new position is essentially on the same terms and conditions as were imposed pursuant to a prior Commission order in connection with an earlier admission or continuance of employment for that individual, notwithstanding the same disqualifying circumstances.¹¹ Commentators suggested that this exception also should be available in situations where an equivalent no-action or other letter, as well as an order, previously has been issued by the Commission.¹² It appears that the commentators are referring to the practice under which the Commission staff may advise an SRO, which has submitted a notice under the Rule not accompanied by a request for an order under paragraph (d),¹³ that the staff does not intend to recommend that the Commission exercise its veto authority under section 6(c)(2), 15A(g)(2) or 17A(b)(4)(A) of the Act. The Commission has determined that it is appropriate to amend the Rule so as to afford equivalent treatment to such prior staff communications with Commission orders under paragraph (d) of the Rule.¹⁴

¹¹ See new paragraph (a)(3)(ii) of the rule.

¹² NASD, NYSE and Amex Responses.

¹³ Procedures for obtaining such orders will continue to be available under the Rule.

¹⁴ Commentators also suggested that present paragraph (a)(3)(i) of the rule be similarly amended. Paragraph (a)(3)(i) currently provides that a further notice need not be filed with the Commission if a person subject to a statutory disqualification is, pursuant to an order of the Commission, a participant in, member of, or a person associated with a member of an SRO, and the SRO member or participant then joins another SRO. The Commission has determined that a no-action letter or other written determination issued by the Commission to an SRO should be a sufficient basis

Continued

Under the exception from the formal notice filing requirement for employment changes that has been adopted, an SRO will nevertheless be required, instead of preparing and submitting a full notice, to file with the Commission a brief report, in the form of a letter, no later than 14 days after its final determination to permit the admission to, or continuance in, membership, participation, or association.¹⁵ The report would set forth the individual's name, contemplated place of employment, name of his proposed new supervisor(s), and the SRO's finding that, after reasonable inquiry, the disqualified applicant is being employed under substantially the same terms and conditions as his/her previous, identified employment and that there is no intervening conduct or other circumstance that would cause the employment to be inconsistent with the public interest or the protection of investors.¹⁶

Commentators suggested that a statement be inserted in paragraph (a)(4) of the rule codifying the legal conclusion set forth in the Proposal Release that, where an exception from the full notice provisions is available, an SRO may determine whether and when a disqualified person may be permitted to engage in or continue his employment prior to transmission of the short form notification to the Commission.¹⁷ The rule has been amended to provide that, in the case of an SRO required to file a short-form notification with the Commission for an admission to membership or association with a member, an SRO may determine, without a waiting period and pending Commission review, when the new employment could commence.¹⁸

One commentator stated that an SRO should be able to use its discretion as to the interim employment status of a person when a disqualification, such as an injunction or conviction, first occurs

during the course of a person's employment or first becomes evident in the course of an employment transfer.¹⁹ The Commission believes, however, that both the SRO and the Commission should have an opportunity, where a person's future status in the business has not yet been fully adjudicated, to review his employment, even if on a temporary basis, when a disqualification first occurs. In such situations, the Commission may have an investigation underway or there may be risks to continued employment that the Commission would like to consider.

Nevertheless, the firm, the associated person or an SRO may seek a no-action position from the Commission (e.g., under paragraph (d) of the rule) in the case of a disqualification that occurs during the course of employment. If a disqualification occurs prior to a transfer and an exemption (e.g., prior Commission consideration of the conduct without any limitation on future employment)²⁰ from the rule is not available, the SRO should not readmit the applicant without filing a notice with the Commission. Sections 6(c)(2) and 15A(g)(2) of the Act so contemplate.

Another amendment to paragraph (a)(3) of the rule, which has been adopted as proposed, will also remove from the filing requirement cases where the sole operative statutory disqualification consists of an injunction²¹ that was entered ten or more years prior to the proposed admission or continuance. The Commission believes that it is unlikely that an injunction issued more than ten years prior to reentry would, by itself, be an appropriate impediment to reentry.

One commentator suggested that, where the disqualification consists of any injunction that is not followed by administrative proceedings, the admission or continuance should be subject to an abbreviated notification under the rule.²² Federal Register and another commentator suggested that the Commission provide such relief with respect to all injunctions that do not raise "important issues of investor protection."²³ In the absence of more clearly defined criteria for affording exemptive relief for additional classes of injunctive actions, the Commission believes that it should not adopt the commentators' recommendations. In the Commission's experience, there have been a variety of situations where, for

appropriate reasons, administrative proceedings did not immediately follow the issuance of an injunction but the Commission nevertheless wished to retain full and final authority to pass upon the future status of the subject firm or individual in the securities business. Further investigations of the underlying facts may still have been in progress, or there may not have been an immediate need to institute administrative proceedings where, for example, an enjoined person had left the securities business or an enjoined firm had become inactive. In such cases, the Commission may conclude that, because of the presence of the injunction as itself a potential bar to future reentry, administrative action should be withheld in order to better utilize currently available resources. Adoption of the commentators' suggestions could readily open up the possibility for unduly diminishing the Commission's desired role in reviewing the future participation of such persons in the business, as and when the question arises.

A further exception from the full filing requirements is being adopted, under paragraph (a)(3)(iv) of the rule, for certain reentry situations where a person's statutory disqualification was the subject of prior Commission consideration during an administrative proceeding (e.g., pursuant to section 15(b) of the Act). The amendment will apply where, on the prior occasion, (1) the Commission concluded that it would not restrict or limit the future employment of the disqualified person in the securities industry on the basis of that disqualifying circumstance or (2) the Commission set forth restrictions or limitations on the person's employment in the securities industry for a specified time period and that time period has elapsed. An additional exemption is included in paragraph (a)(3)(v) of the rule to cover those situations where the same kinds of determinations respecting a person's future participation in the securities business were incorporated in the judgment or decision entered in a court enforcement action. In order to permit the Commission to oversee use by the SRO's of these exceptions, however, the Commission proposed that SRO's be required to advise the Commission, by letter, of those instances where it takes an admission or continuance action in reliance on those provisions.²⁴

or which to permit admission into another SRO without the filing of a notice with the Commission. Accordingly, the Commission has amended paragraph (a)(3)(i) as suggested by the commentators.

¹⁵ An abbreviated format will also be applicable to certain other exceptions to the full notice requirement. See *infra* and paragraph (a)(4) of the rule.

¹⁶ The Commission does not anticipate that it will routinely issue a response to such reports.

¹⁷ NYSE and Amex Responses. The SIA also appeared to adopt a similar position.

¹⁸ The Commission would, however, still not be foreclosed from instituting administrative proceedings (e.g., under section 15(b) or 19(h), as applicable) based on the disqualification if it later appears that the SRO finding was in error because, for example, the employment conditions have been materially misrepresented to it or there has been a failure to comply with the approved employment conditions.

¹⁹ NYSE Response.

²⁰ See paragraphs (a)(3)(iv) and (v) of the rule.

²¹ See Sections 8(a)(39) and 15(b)(4)(C) of the Act.

²² NASD Response.

²³ Amex Response.

²⁴ These conditional exceptions to the notice requirement would not act in any way to remove the disqualification. Therefore, among other things, the disqualification would still be required to be

Continued

Commentators suggested that the short form notification requirement not be applicable for excepted entries under paragraphs (a)(3)(iv) and (a)(3)(v) of the rule.²⁵ Two commentators also believed that the short form notification should not be required for entries under paragraph (a)(3)(v) of the rule if a person remains with the same firm he was with prior to the statutory disqualification, as the court would have made its decision with the full knowledge of the person's then current employment.²⁶ The Commission believes, however, that the short form notification should be used in the foregoing situations since it will assist the Commission in overseeing how the exceptions are being applied and interpreted by SRO's and would not impose a substantial burden upon SRO's.

Two commentators suggested that, in paragraph (a)(3)(iv) of the rule, the category of administrative proceedings under the Act that provides the basis for a short form notification be broadened to encompass administrative proceedings under other securities laws administered by the Commission.²⁷ Since it is possible that the broker-dealer status of persons and firms would be addressed in administrative proceedings under federal securities laws other than the Securities Exchange Act—as, for example, in connection with the settlement of such a proceeding under the Investment Advisers Act of 1940—the rule has been amended to provide for this possibility.

Finally, an exemption from the full notice requirements has been adopted to cover situations where the Commission has previously consented, pursuant to section 15(b)(6) or 15B(c)(4) of the Act, to a particular proposed association of a person who is subject to a Commission order under one or both of those sections barring the person from being or becoming associated with a broker or dealer or municipal securities dealer.²⁸ Since the Commission would already have been directly informed of and would have approved the particular proposed employment, the filing of a notice under the Rule would serve no useful purpose in those situations.

B. SRO Records Filed with the Commission

Paragraphs (c) and (e) of the amended rule formally require the inclusion in

disclosed on Form BD and in registration filings with the SRO(s).

²⁵ NYSE and Amex Responses.

²⁶ NASD and Amex Responses.

²⁷ NYSE and Amex Responses.

²⁸ See "Clarifications," subsection C, *infra*, for a discussion of certain of the circumstances under which such prior Commission action on the proposed association may arise.

SRO notices and applications of the following additional information that the Commission, through experience, has found helpful in reviewing and making determinations with respect to notices and applications filed under the rule and has previously requested that the SRO's supply:²⁹

1. *Information Relating to Supervisors.* The rule has been amended to require that information be provided in the recitation of the proposed supervisory procedures concerning the pertinent qualifications of the supervisors, including prior disciplinary and enforcement actions against them and the relationship of any of the supervisors to the disqualified person.³⁰

2. *Terms of Employment and Supervision.* Under the rule as amended, a statement by the proposed employer setting forth the terms and conditions of the prospective employment and supervision will be required by this provision.³¹ As proposed, an affidavit by the proposed employer attesting to the accuracy of the statement would have also been required by this provision. Several commentators stated that the affidavit requirement was unnecessary.³² Two commentators observed that the applicant and employer are already under an obligation to provide truthful information to SRO's and that failure to do so would itself constitute a statutory disqualification.³³ The same two commentators also stated that witnesses are not sworn in their disciplinary or disqualifications proceedings.³⁴ In response to these comments, including their recognition of the importance of assuring accuracy in the representations made to SRO's that are contained in the notices filed with the Commission, the Commission has not adopted the proposed affidavit requirement.³⁵

²⁹ The NYSE observed that paragraphs (c) and (e) contain requests for duplicative material. Although there are important distinctions between those provisions, many of the requirements set forth in paragraph (c) for contents of notices have been repeated in paragraph (e) for contents of applications for no-action orders or consents to avoid excessive cross-references in the text of the rule. If both a notice and application are filed with the Commission, however, only one set of the materials or information required by both (c) and (e) must be included in the combined filing.

³⁰ Paragraph (c)(4)(i) of the rule.

³¹ Paragraph (c)(4) of the rule.

³² NASD, NYSE, Amex and Phlx Responses.

³³ NASD and Amex Responses.

³⁴ One commentator was also concerned that obtaining the affidavits could impose a substantial cost burden on member firms. Phlx Response.

³⁵ The Commission has also determined not to include in the amended rule the proposed affidavit requirement for certain written materials not included in a certified hearing record that are furnished by persons other than an SRO or the Commission. See paragraphs (c)(6) and (c)(7) of the

3. *Other Disqualified Persons Employed by the Firm.* As amended, the Rule requires that the names and locations of other disqualified persons employed by the firm be included in a notice or application. One commentator suggested that such information would be of little relevance to the Commission.³⁶ The Commission believes, however, that such information is useful in permitting it and the SRO's to evaluate the adequacy of the proposed supervisory procedures. Those procedures may be expected to vary depending upon, among other factors, the number of disqualified persons within a firm or under the immediate supervision of a particular office or supervisor. For example, the presence of disqualified persons at offices other than the one at which an applicant is to be employed may affect the degree of secondary (e.g., home office) supervision that an applicant may receive and therefore should be considered in reviewing a reentry or continuance notice or application. Accordingly, no change has been made in this provision, which has been adopted as proposed.

4. *Examinations.* The Rule as amended will require that notices and applications include a summary of the findings and disposition of the examinations that were conducted, within the prior two-year period, by all SRO's of the main office and any branch office of the proposed employer where an applicant would be employed or supervised.

Commentators criticized as unduly burdensome the proposed requirement for inclusion of results of all examinations of the firm completed by all SRO's during the previous three years.³⁷ They expressed concern that the examination results for an entire multi-office firm would not be pertinent for evaluating the adequacy of a firm's supervisory procedures. One SRO suggested that examination results for the main office and branch office where the individual will be employed would provide sufficient information to make an informed judgment about the firm's ability to supervise.³⁸ Another recommended that the examination information be limited to the branch office where the disqualified person is proposed to be employed.³⁹ A third SRO suggested that the statement of the filing SRO be confined to the results of the

rule as set forth in the Proposal Release. The same commentators made similar comments with respect to that proposed affidavit requirement.

³⁶ SIA Response.

³⁷ NASD, NYSE, Amex and the Phlx Responses.

³⁸ NASD Response.

³⁹ Amex Response.

most recent examination conducted by the SRO and only those results of that examination pertaining to problems uncovered by it in regard to related supervisory procedures.⁴⁰ Another SRO stated that the examination results may not be needed if the Rule were amended to require that firms include in notice filings any disciplinary actions taken against the firm.⁴¹

Two commentators suggested that a summary of examination results of other SRO's should not be required since they will generally have concurred with the filing, thereby indicating that there are not serious problems with the member firm.⁴² One commentator was also concerned that SRO's should not have to make independent findings with respect to examinations conducted by other SRO's.⁴³

In light of the comments, the Commission has determined that notices and applications should include a summary of all SRO inspections of the firm's main and applicable branch offices for two years prior to the filing. The Commission concurs with the commentators that inspection information concerning unaffected branch offices should not be required. It believes, however, that all recent examination information from each examining SRO is necessary to obtain a more complete basis for assessing the firm's ability to supervise. A filing SRO, as in the past, is not generally required to make independent findings with respect to examinations conducted by other SRO's. Nonetheless, it should consider the reported results in its review of a proposed reentry or continuance.

5. Form U-4 and certification. The Rule as amended will require inclusion of a completed Form U-4⁴⁴ and a certification by the SRO that the disqualified person currently meets all applicable qualifications requirements

⁴⁰ NYSE Response.

⁴¹ Phlx Response. Since disciplinary actions against member firms would already be a part of the Commission's official records, the Commission does not believe that it is necessary for such actions to be included as part of the SRO record in filings under the Rule. The Commission expects that such actions will be considered by SRO's in connection with reentry and continuance matters and, where relevant, will be discussed in the filings. The rule does require, however, that a copy of the disqualifying order forming the basis of the reentry or continuance proceeding accompany the SRO filing.

⁴² NASD and NYSE Responses.

⁴³ Amex Response.

⁴⁴ Form U-4 is a uniform form for registration of individuals with the Commission, SRO's and state securities commissions that contains, among other things, information concerning the prior employment and disciplinary history of the individuals.

with respect to the proposed employment. Commentators questioned whether the certification requirement would serve a useful purpose.⁴⁵ One commentator stated that the system of cooperative regulation between the Commission and SRO's presupposes that all statements made by an SRO will be made in good faith and that the certification requirement should therefore be deleted.⁴⁶

The latter requirement reflects the procedures now followed under the Rule. The Commission understands that an SRO now verifies an applicant's qualifications prior to reviewing the merits of a proposed reentry or continuance. Under present practice, for example, an SRO normally ascertains whether an applicant has passed the appropriate qualifying examination by reference to its own files or by consultation with the SRO that administered the examination. The Commission is aware of at least one instance, however, where considerable effort was expended in preparing and reviewing a reentry application prior to discovery of the fact that the applicant had not passed the applicable examination. The required certification, which imposes no significant new burden, is designed merely to help the industry and the Commission avoid such unnecessary costs in the future.

6. Materials supplied by Commission staff. The Rule as amended will also require that any written information supplied by the Commission staff for consideration by the SRO in its disposition of the matter be (1) included as part of the notice or application or (2) incorporated by reference in the notice or application. The SRO is also required to include a statement of its views on the information supplied.

One commentator stated that the reason for the proposed "return" of materials to the Commission was not apparent. As explained in the Proposal Release, the Commission is especially concerned that existing relevant information in its files, of which the SRO initially may be unaware, be a part of the record before the SRO in reentry proceedings so that the SRO and affected persons may have an opportunity to address that information.⁴⁷ The Commission further

⁴⁵ NASD, NYSE and Amex Responses.

⁴⁶ NYSE Response.

⁴⁷ The Rule contemplates a hearing before the SRO in which the SRO gives the applicant an opportunity to support the proposed employment. In addition, an SRO favorably disposed to the application may supplement the information supplied to it by the applicant so as to present a record to the Commission supporting its proposal. There is not, however, a requirement that the

believes that, in reviewing notices and applications filed under the Rule, it should have before it the full record that was before the SRO. The Commission nevertheless believes that the same objectives would be achieved if the materials in question were incorporated by reference in the SRO filing and has amended the Rule to so provide.

7. Materials not part of hearing record. The Rule as amended requires that all materials not included in a certified oral hearing record before the SRO that were considered by the SRO in its disposition of the matter be included in the notice.⁴⁸ As discussed above, the proposed requirement that such additional statements, if furnished by persons other than an SRO or the Commission, be accompanied by an affidavit has not been adopted.⁴⁹

The Rule has contained corresponding provisions for supplemental materials that are submitted to the Commission as part of a notice or application but which were not a matter of record before the SRO and therefore were not considered by the SRO in reaching its decision on the merits.⁵⁰ One commentator suggested that these provisions be revised to clarify their meaning.⁵¹ The current provisions were intended to recognize the Commission's practice of permitting the organization, firm, or associated person concerned to supplement the SRO record by including additional factual materials in the notice or application filed with the Commission. But in view of the unusual nature of such a submission and because the facts contained in it would not have been subject to the normal SRO hearing and deliberative process,⁵² the Rule requires that the person or organization offering such facts for the Commission's consideration do so in affidavit form. Under the circumstances, the Commission has determined to retain these provisions with the addition of some clarifying language relating to the responsibility for the completion of the required affidavit.

8. Notification to the Commission. The Rule has been amended to require that, promptly after receipt by an SRO of an application for admission to, or continuance in, membership, participation or association with a member with respect to a person subject

hearing before the SRO be a formal evidentiary hearing.

⁴⁸ Paragraphs (c)(6) and (e)(7) of the Rule.

⁴⁹ See note 35, *supra*, and accompanying text.

⁵⁰ See the last subparagraphs of paragraphs (c) and (e) of the current Rule and the proposed revised rule, respectively.

⁵¹ NYSE Response.

⁵² See note 35, *supra*.

to a statutory disqualification, the SRO notify the Commission staff of such receipt. This brief notification is only required in cases where the SRO would, if it later approves the admission or continuance, be required to file a full notice pursuant to paragraph (a)(1) of the rule. The notification will enable the Commission staff to alert the SRO to the possible existence of relevant information in its files, of which the SRO may be unaware, and, in appropriate circumstances, to make such information available to the SRO in time to permit its consideration in the SRO's processing of entry or continuance applications.

C. Clarifications

1. *Categories of Persons Subject to the Rule.* Several commentators were concerned that notices would have to be filed under the Rule for all clerical and ministerial employees who are subject to statutory disqualifications and requested clarification of the Rule in that regard.⁵³ The Commission is clarifying the Rule to provide that member employees subject to the notice filing requirements of the Rule include only (a) employees engaged in or supervising other employees engaged in advertising, public relations, research, sales, trading, and training, except clerical and ministerial persons engaged in such activities and (b) all employees (including clerical and ministerial persons) with access to funds or securities or firm books and records.⁵⁴

2. *Continuances in Membership or Association with a Member.* Section 6(c)(2), 15A(g)(2) and 17A(b)(4)(A) of the Act specifically require that notice be given (at least 30 days in advance) to the Commission by SRO's with respect to "admitting" any disqualified person or registered broker-dealer to membership or participation, or "permitting any [such] person to become associated with a member." Paragraph (a) of the Rule provides, however, that the filing of a notice is required not only where the SRO has determined to admit a disqualified person seeking entry or reentry but also where the SRO proposes to continue in membership or association a person who becomes subject to a disqualification while a member or associated with a member.⁵⁵

One commentator questioned whether the Commission should require continuance notices.⁵⁶ The principal reason for the inclusion of continuance situations is that the Commission has independent authority under sections 15(b) or 19(h) of the Act⁵⁷ effectively to prevent the continuance (as well as an admission) and will need to have before it the same kinds of information in order to determine whether it wishes to exercise that authority or its authority to deny membership, participation or association under sections 6(c)(2), 15A(g)(2) and 17A(b)(4)(A).⁵⁸

3. *Sections 15(b)(6) and 15B(c)(4) Consents.* Sections 15(b)(6) and 15B(c)(4) of the Act make it unlawful for any person barred under those sections to become, or to be, associated with a broker-dealer or municipal securities dealer and for any such broker, dealer or municipal securities dealer to permit such a person to become, or remain, a person associated with the firm without the consent of the Commission. Therefore, persons under such bars who are the subject of a notice filed by an SRO under the rule need such consent to make the proposed association lawful. Such consent can take the form of a declaratory order under paragraph (d) of the rule. Since there has been some uncertainty in this area, an amendment to paragraph (d) of the rule specifically clarifies that such consent can and, if

needed when the notice is filed, should be sought under that paragraph.

At the same time, it has been the Commission's practice to permit an individual to apply directly to the Commission for reentry in cases where the Commission has barred that person from association with a broker-dealer in a proceeding under section 15(b)(6) of the Act and, as part of that sanction, has explicitly afforded the person a right to apply for reassociation, under appropriate conditions, at a future time.⁵⁹ A proviso has therefore been added to the new provision discussed in the preceding paragraph making it clear that that provision does not affect the individual's ability to choose to apply directly.⁶⁰

Commentators were concerned that existence of the alternative procedure permitting persons to apply directly to the Commission may result in confusion and "forum shopping" by disqualified persons.⁶¹ The commentators suggested that the disqualified person should be required to apply directly to the Commission for reentry in all such situations.

The Commission believes, however, that either procedure is compatible with the Act. The Commission has not found that the degree of uncertainty created by offering an election, which has been available since at least 1977, has resulted in undue confusion for affected persons or organizations. The Commission's experience also has not indicated that, as a practical matter, there is any inherent difficulty in providing disqualified persons alternative procedures.

The Commission has historically expressed a general preference, where both it and SRO's have exclusionary authority, for having reentry matters first presented to the SRO (or SRO's) concerned.⁶² The Commission, however, has recognized exceptions for cases of the type described in the new proviso to paragraph (d) of the rule where it has imposed the disqualification in the form of a bar or suspension from association under section 15(b)(6) of the Act and where the Commission specifically granted the person the right to apply for reentry in the future.⁶³ The Commission

⁵³ NSCC Response. NSCC also raised questions concerning the burdens of the present rule on clearing agencies, the relevance of the filing requirements to clearing agency functions and their capability to appropriately process continuance and reentry applications. With regard to reentries, NSCC recommends that the processing function be centralized in the participant's designated examining authority. The Commission notes that, while the Act requires each SRO that approves a reentry to file a notice with the Commission, the rule permits interested SRO's to coordinate their activities in this area in order to achieve the most efficient use of their collective resources. See the Proposal Release and paragraphs (a)(3)(f) and (a)(5) of the rule. The Commission understands that inter-SRO arrangements for such purposes have been established and expects that they would be available to all interested SRO's, including clearing agencies.

⁵⁴ Section 15(b) of the Act empowers the Commission to impose exclusionary sanctions, including revocation of broker-dealer registration, on any person who has been found to have committed certain offenses (as set forth in paragraphs (4) and (6) of the section), which findings and sanctions are included within those constituting a "statutory disqualification" (as defined in section 3(a)(39)) from SRO membership, participation or association. In addition, section 19(h) empowers the Commission directly to suspend or bar persons from SRO membership, participation or association based on similar findings.

⁵⁵ See the second sentence of paragraph (d) of the rule. See also *In the Matter of NASD and Fliederbaum and Mooradian*, Securities Exchange Act Release No. 15563 (February 13, 1979), 16 SEC Docket 1105.

⁵⁶ See Securities Exchange Act Release No. 11267, (February 20, 1975), 6 SEC Docket 346 (1975).

⁵⁷ Since the same principles seem to apply to bars from association with a municipal securities dealer under section 15B(c)(4) of the Act, a reference to that section has also been included in the proviso.

⁵⁸ NASD and Amex Responses.

⁵⁹ See the Proposal Release.

⁶⁰ Usually these are settled cases where, since the Commission itself negotiated the settlement with the disqualified person and took the disqualifying

⁵⁴ Paragraph (a)(2)(i) of the rule as amended herein.

⁵⁵ Some types of disqualifications automatically terminate membership, participation or association. Others do not. See Section 3(a)(39) of the Act. Under section 17(a) of the Act, of course, the Commission has authority to require SRO's to furnish it such reports as the Commission "prescribes as necessary or appropriate in the public interest, . . ."

believes that the equities in favor of the person having a choice of two avenues for obtaining relief in such cases outweigh any disadvantages.

4. *Other Requests for Relief by Municipal Securities Firms.* Under sections 15B(a)(2) and 15B(c)(2) of the Act, the Commission has authority to exclude from registration as a municipal securities dealer any person that would be subject to denial, revocation or suspension of its broker-dealer registration if it were so registered or if it were seeking such registration under Section 15(b). For example, if a bank municipal securities dealer⁶⁴ that was seeking registration under section 15B(a)(2) were the subject of a conviction or injunction of a type described in section 15(b)(4) of the Act, the Commission could deny that registration. Thus, if that bank dealer were also seeking participation in a registered clearing agency and the clearing agency, as required by Section 17A(b)(4)(A) of the Act, filed a notice of that proposed participation under Rule 19h-1, the clearing agency (or bank dealer) might also wish to apply to the Commission for a determination that the Commission would not institute a denial proceeding against the bank dealer under section 15B(a)(2) on the basis of the conviction or injunction. Since paragraph (d) of the Rule, which permits applications for such Commission determinations in other, similar situations,⁶⁵ does not now provide explicitly for such applications by or on behalf of municipal securities dealers, paragraph (d) has been amended to so provide.

In addition, under rule G-4 of the Municipal Securities Rulemaking Board, a municipal securities broker or municipal securities dealer that is subject to certain disqualifications is considered to be unqualified to engage in the municipal securities business unless the Commission (or in some cases the NASD or appropriate bank regulatory agency), on application, finds to the contrary. Rule 19h-1 has been amended⁶⁶ to permit such applications, when required to be submitted to the Commission, to be filed at the time a notice of a proposed admission or

action, the latter often may assume that, if and when he sought relief pursuant to the disqualifying order, his reentry conditions would also be primarily in the Commission's hands.

⁶⁴Banks or separately identifiable departments or divisions of banks doing business as dealers in municipal securities are excluded from the broker-dealer registration requirements of section 15(b) but are required to register as municipal securities dealers under Section 15B. See Sections 3(a)(5) and 3(a)(30) of the Act.

⁶⁵See section entitled "Background," *supra*.

⁶⁶See paragraph (d)(3) of the rule.

continuance with respect to the disqualified person is filed under that rule.

5. *Standards for Issuing Declaratory Orders.* Paragraph (d) of the rule currently provides that the Commission may issue a declaratory order, upon application at the time of the filing of a notice, with respect to the membership, participation or association of any person subject to an applicable disqualification if "it finds it appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act." These standards, which are not required by the Act in this context, have been deleted and the paragraph has been amended to permit the Commission to issue such an order "should the Commission determine not to object to the position of the SRO set forth in the notice or application." This language more accurately reflects the nature of the Commission's decision-making process with respect to the issuance of such orders, which orders are, in substance, similar to traditional determinations of the Commission not to institute enforcement proceedings under the federal securities laws.

6. *Procedures to be Used by the Commission in Reviewing Notices.* Under another amendment, the Commission has set forth in paragraph (g) of the rule the procedures that it will follow in determining whether to direct, pursuant to sections 6(c)(2), 15A(g)(2), or 17A(b)(4)(A) of the Act, that a proposed admission covered by a notice be denied or an order barring association issue where the notice is filed under paragraph (a) of the rule and is not accompanied by an application for a declaratory order under paragraph (d) of the rule. These procedures parallel those for determining Commission action on an application filed under paragraph (d) of the rule.

A second revision of paragraph (g) of the rule provides that the Commission may grant or deny an application for a declaratory order on the basis of the notice or application filed by the SRO, by the person subject to the disqualification or by another applicant, such as the proposed employer, on behalf of such person. Paragraph (g) of the Rule formerly provided that the Commission could grant or deny an application under paragraph (d) on the basis of the papers filed by the "parties." Since the term "parties" was not defined in the Rule and therefore could have created some uncertainty, the Commission believes that it would be preferable to spell out its intention more clearly in this respect.

Finally, the Act does not address whether the Commission may exercise its veto authority under sections 6(c)(2), 15A(g)(2) and 17A(b)(4)(A) of the Act after expiration of the thirty day period following the Commission's receipt of notice from an SRO of a proposal to admit a disqualified person to membership, participation, or association with a member.⁶⁷ In addition, those provisions do not specify when, following the expiration of the minimum thirty day period, an SRO may admit such a person. Therefore, and in order to allow ample time for the Commission to consider the merits of a proposed admission when circumstances require a longer period of deliberation, the rule has been amended to provide that the Commission could, by written notice to the SRO, extend for up to sixty days beyond the initial minimum thirty day period, its consideration of the SRO's proposal. However, in the interests of fairness to the person seeking entry, the amendment also provides that during the Commission's extended consideration of whether to veto the SRO's proposal, the person may, if the SRO consents, temporarily commence his membership, participation or association with a member.⁶⁸ Such membership, participation or association would, of course, be required to terminate if the Commission determines to exercise its veto power during the extension period.

7. *Definition of "Control."* The Rule currently provides that notices need to be filed with the Commission with respect to a person associated with an exchange or securities association member if such person is in a control relationship with such member or controls an unregistered broker-dealer affiliated with the member. Commentators suggested that the definition of the term "control" should be changed so that the current presumption in the Rule based on a 10% voting or participation interest conforms with the 25% test in rule 19g2-1 under the Act.⁶⁹ The commentators expressed concern that the rule's 10% standard was unduly restrictive.⁷⁰ One commentator also suggested that there may be some conflict or ambiguity in the relationship between paragraph (a)(2)(ii) of the rule, which includes within the SRO's duties to file notices with the Commission unregistered non-member broker-dealers that are affiliated with

⁶⁷See Background section and n. 8, *supra*.

⁶⁸See paragraph (a)(7) of the rule.

⁶⁹NYSE and Amex Responses.

⁷⁰See paragraph (a)(2) of the rule.

SRO members and have statutory disqualifications, and rule 19g2-1, which (among other things) relieves the SRO's of their general enforcement obligations with respect to such broker-dealers.⁷¹

The Commission believes, however, that there are important distinctions between the policies underlying the two rules that merit different treatment. Rule 19g2-1 is intended to relieve SRO's of certain of their broad obligations to enforce the Act and the rules thereunder with respect to various classes of persons associated with members whether or not such persons are previously adjudicated offenders.⁷² Rule 19h-1, on the other hand, only imposes on an SRO a limited duty—to report to the Commission an entry into the securities business—and that duty relates only to those who have found to have committed one or more significant violations of law or standards of business conduct. Because of the importance to the industry and public investors of the SRO's and the Commission's retaining close regulatory oversight concerning prior violators' participation in the securities business, and in light of the relatively small regulatory burdens that will be imposed on the Commission, SRO's and the industry, the Commission has taken the different approaches in Rule 19h-1 referred to by the commentators.

One Commentator suggested that, since the concepts of "associated persons"⁷³ and "control" have wide application, SRO's should be permitted to employ "realistic guideposts" in determining the applicability of the rule.⁷⁴ Under the Rule, the 10% criterion merely establishes a presumption of control that may be rebutted. Accordingly, in determining whether the presumption has been rebutted, or where the presumption is not applicable, the SRO's would be expected to employ realistic guideposts in reaching conclusions on the issue of control in specific cases.

Regulatory Flexibility Act Considerations

The Chairman has certified that the Rule amendments, if promulgated, will not have a significant economic impact on a substantial number of small entities. There were not any comments concerning the Chairman's certification that were received following publication of the Proposal Release.

Statutory Basis

On the basis of the foregoing analysis and discussion and the Proposal Release, the Commission finds that the amendments to rule 19h-1 adopted hereby are consistent with the public interests, the protection of investors and the purposes of the Act. Overall, it is expected that the amendments to rule 19h-1 will reduce the barriers to entry or continuance in the securities industry and will result in a corresponding increase in competition in the industry. To the extent that the burdens on gaining entry or continuance in the securities industry may increase for certain individuals as a result of the amendments, such burdens on competition are necessary and appropriate in furtherance of the purposes of the Act.

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

The amendments to rule 19h-1 are promulgated under the Act, and particularly Sections 6, 15, 15A, 15B, 17, 17A, 19 and 23 thereof (15 U.S.C. 78f, 78o, 78o-3, 78o-4, 78q, 78q-1, 78s, and 78w). Therefore, the Commission is amending Part 240 of Chapter II of Title 17 of the Code of Federal Regulations by revising § 240.19h-1 to read as follows:

§ 240.19h-1 Notice by a self-regulatory organization of proposed admission to or continuance in membership or participation or association with a member of any person subject to a statutory disqualification, and applications to the Commission for relief therefrom.

(a) *Notice of admission or continuance notwithstanding a statutory disqualification.*

(1) Any self-regulatory organization proposing, conditionally or unconditionally, to admit to, or continue any person in, membership or participation or (in the case of a national securities exchange or registered securities association) association with a member, notwithstanding a statutory disqualification, as defined in section 3(a)(39) of the Act, with respect to such person, shall file a notice with the Commission of such proposed admission or continuance. If such disqualified person has not consented to the terms of such proposal, notice of the organization's action shall be filed pursuant to rule 19d-1 under the Act and not this rule.

(2) With respect to a person associated with a member of a national securities exchange or registered securities association, notices need be

filed with the Commission pursuant to this rule only if such person:

(i) Controls such member, is a general partner or officer (or person occupying a similar status or performing similar functions) of such member, is an employee who, on behalf of such member, is engaged in securities advertising, public relations, research, sales, trading, or training or supervision of other employees who engage or propose to engage in such activities, except clerical and ministerial persons engaged in such activities, or is an employee with access to funds, securities or books and records, or

(ii) Is a broker or dealer not registered with the Commission, or controls such (unregistered) broker or dealer or is a general partner or officer (or person occupying a similar status or performing similar functions) of such broker or dealer.

(3) A notice need not be filed with the Commission pursuant to this rule if:

(i) The person subject to the statutory disqualification is already a participant in, a member of, or a person associated with a member of, a self-regulatory organization, and the terms and conditions of the proposed admission by another self-regulatory organization are the same in all material respects as those imposed or not disapproved in connection with such person's prior admission or continuance pursuant to an order of the Commission under paragraph (d) of this section or other substantially equivalent written communication.

(ii) The self-regulatory organization finds, after reasonable inquiry, that except for the identity of the employer concerned, the terms and conditions of the proposed admission or continuance are the same in all material respects as those imposed or not disapproved in connection with a prior admission or continuance of the person subject to the statutory disqualification pursuant to an order of the Commission under paragraph (d) of this section or other substantially equivalent written communication and that there is no intervening conduct or other circumstance that would cause the employment to be inconsistent with the public interest or the protection of investors;

(iii) The disqualification consists of (A) an injunction from engaging in any action, conduct, or practice specified in section 15(b)(4)(C) of the Act, which injunction was entered 10 or more years prior to the proposed admission or continuance—*Provided, however*, That in the case of a final or permanent injunction which was preceded by a

⁷³ NYSE Response.

⁷⁴ See also discussion in section C. 1., *supra*, concerning associated persons.

preliminary injunction against the same person in the same court proceeding, such ten-year period shall begin to run from the date of such preliminary injunction—and/or (B) a finding by the Commission or a self-regulatory organization of a willful violation of the Act, the Securities Act of 1933, the Investment Advisers Act of 1940, the Investment Company Act of 1940, or a rule or regulation under one or more of such Acts and the sanction for such violation is no longer in effect;

(iv) The disqualification previously (A) was a basis for the institution of an administrative proceeding pursuant to a provision of the federal securities laws, and (B) was considered by the Commission in determining a sanction against such person in the proceeding; and the Commission concluded in such proceeding that it would not restrict or limit the future securities activities of such person in the capacity now proposed or, if it imposed any such restrictions or limitations for a specified time period, such time period has elapsed;

(v) The disqualification consists of a court order or judgment of injunction or conviction, and such order or judgment (A) expressly includes a provision that, on the basis of such order or judgment, the Commission will not institute a proceeding against such person pursuant to section 15(b) or 15B of the Act or that the future securities activities of such persons in the capacity now proposed will not be restricted or limited or (B) includes such restrictions or limitations for a specified time period and such time period has elapsed; or

(vi) In the case of a person seeking to become associated with a broker or dealer or municipal securities dealer, the Commission has previously consented to such proposed association pursuant to section 15(b)(6) or 15B(c)(4) of the Act.

In the case of an admission to membership, participation, or association, if an exception provided for in this paragraph (a)(3) is applicable, the self-regulatory organization shall, pursuant to its rules, determine when the admission to membership, participation, or association shall become effective.

(4) If a self-regulatory organization determines to admit to, or continue any person in, membership, participation, or association with a member pursuant to an exception from the notice requirements provided in paragraphs (a)(3)(ii), (iv) or (v) of this section, such organization shall, within 14 calendar days of its making of such determination, furnish to the

Commission, by letter, a notification setting forth, as appropriate:

(i) The name of the person subject to the statutory disqualification;

(ii) The name of the person's prospective and immediately preceding employers who are (were) brokers or dealers or municipal securities dealers;

(iii) The name of the person's prospective supervisor(s);

(iv) The respective places of such employments as reflected on the records of the self-regulatory organization;

(v) If applicable, the findings of the self-regulatory organization referred to in paragraph (a)(3)(ii) of this section and the nature (including relevant dates) of the previous Commission or court determination referred to in paragraph (a)(3)(iv) or (v) of this section; and

(vi) An identification of any other self-regulatory organization which has indicated its agreement with the terms and conditions of the proposed admission or continuance;

(5) If a notice or notification has been previously filed or furnished pursuant to this rule by a self-regulatory organization, any other such organization need not file or furnish a separate notice or notification pursuant to this rule with respect to the same matter if such other organization agrees with the terms and conditions of the membership, participation or association reflected in the notice or notification so filed or furnished, and such agreement is set forth in the notice or notification.

(6) The notice requirements of sections 6(c)(2), 15A(g)(2), and 17A(b)(4)(A) of the Act concerning an action of a self-regulatory organization subject to one (or more) of such sections and this paragraph (a) shall be satisfied by a notice with respect to such action filed in accordance with paragraph (c) of this section.

(7) The Commission, by written notice to a self-regulatory organization on or before the thirtieth day after receipt of a notice under this Rule, may direct that such organization not admit to membership, participation, or association with a member any person who is subject to a statutory disqualification for a period not to exceed an additional 60 days beyond the initial 30 day notice period in order that the Commission may extend its consideration of the proposal; *Provided, however,* That during such extended period of consideration, the Commission will not direct the self-regulatory organization to bar the proposed admission to membership, participation or association with a member pursuant to section 6(c)(2), 15A(g)(2), or 17A(b)(4)(A) of the Act, and the

Commission will not institute proceedings pursuant to section 15(b) or 15B of the Act on the basis of such disqualification if the self-regulatory organization has permitted the admission to membership, participation or association with a member, on a temporary basis, pending a final Commission determination.

(b) *Preliminary notifications.*

Promptly after receiving an application for admission to, or continuance in, participation or membership in, or association with a member of, a self-regulatory organization which would be required to file with the Commission a notice thereof pursuant to paragraph (a) of this section if such admission or continuance is ultimately proposed by such organization, the organization shall file with the Commission a notification of such receipt. Such notification shall include, as appropriate:

(1) The date of such receipt;

(2) The names of the person subject to the statutory disqualification and the prospective employer concerned together with their respective last known places of residence or business as reflected on the records of the organization;

(3) The basis for any such disqualification including (if based on a prior adjudication) a copy of the order or decision of the court, the Commission, or the self-regulatory organization which adjudicated the matter giving rise to the disqualification; and

(4) The capacity in which the person concerned is proposed to be employed.

(c) *Contents of notice of admission or continuance.* A notice filed with the Commission pursuant to paragraph (a) of this section shall contain the following, as appropriate:

(1) The name of the person concerned together with his last known place of residence or business as reflected on the records of the self-regulatory organization;

(2) The basis for any such disqualification from membership, participation or association including (if based on a prior adjudication) a copy of the order or decision of the court, the Commission or the self-regulatory organization which adjudicated the matter giving rise to such disqualification;

(3) In the case of an admission, the date upon which it is proposed by the organization that such membership, participation or association shall become effective, which shall be not less than 30 days from the date upon which the Commission receives the notice;

(4) A description by or on behalf of the person concerned of the activities engaged in by the person since the disqualification arose, the prospective business or employment in which the person plans to engage and the manner and extent of supervision to be exercised over and by such person. This description shall be accompanied by a written statement submitted to the self-regulatory organization by the proposed employer setting forth the terms and conditions of such employment and supervision. The description also shall include (i) the qualifications, experience and disciplinary records of the proposed supervisors of the person and their family relationship (if any) to that person; (ii) the findings and results of all examinations conducted, during the two years preceding the filing of the notice, by self-regulatory organizations of the main office of the proposed employer and of the branch office(s) in which the employment will occur or be subject to supervisory controls; (iii) a copy of a completed Form U-4 with respect to the proposed association of such person and a certification by the self-regulatory organization that such person is fully qualified under all applicable requirements to engage in the proposed activities; and (iv) the name and place of employment of any other associated person of the proposed employer who is subject to a statutory disqualification (other than a disqualification specified in paragraph (a)(3)(iii) of this section);

(5) If a hearing on the matter has been held by the organization, a certified record of the hearing together with copies of any exhibits introduced therein;

(6) All written submissions not included in a certified oral hearing record which were considered by the organization in its disposition of the matter;

(7) An identification of any other self-regulatory organization which has indicated its agreement with the terms and conditions of the proposed admission or continuance;

(8) All information furnished in writing to the self-regulatory organization by the staff of the Commission for consideration by the organization in its disposition of the matter or the incorporation by reference of such information, and a statement of the organization's views thereon; and

(9) Such other matters as the organization or person deems relevant. If the notice contains assertions of material facts not a matter of record before the self-regulatory organization, such facts shall be sworn to by affidavit of the person or organization offering

such facts for Commission consideration. The notice may be accompanied by a brief.

(d) *Application to the Commission for relief from certain statutory disqualifications.* The filing of a notice pursuant to paragraph (a) of this section shall neither affect nor foreclose any action which the Commission may take with respect to such person pursuant to the provisions of section 15(b), 15B or 19(h) of the Act or any rule thereunder. Accordingly, a notice filed pursuant to paragraph (a) of this section with respect to the membership, participation, or association of any person subject to an "applicable disqualification," as defined in paragraph (f) of this section, may be accompanied by an application by or on behalf of the person concerned to the Commission for an order declaring, as applicable, that notwithstanding such disqualification, the Commission:

(1) Will not institute proceedings pursuant to section 15(b)(1)(B), 15(b)(4), 15(b)(6), 15B(a)(2), 15B(c)(2), 19(h)(2) or 19(h)(3) of the Act if such person seeks to obtain or continue registration as a broker or dealer or municipal securities dealer or association with a broker or dealer or municipal securities dealer so registered, or membership or participation in a self-regulatory organization;

(2) Will not direct otherwise, as provided in section 6(c)(2), 15A(g)(2) or 17A(b)(4)(A) of the Act; and

(3) Will deem such person qualified pursuant to Rule 15b8-2 under the Act or rule G-4 of the Municipal Securities Rulemaking Board under the Act.

If a Commission consent is required in order to render a proposed association lawful under section 15(b)(6) or 15B(c)(4) of the Act, an application by or on behalf of the person seeking such consent shall accompany the notice of the proposed association filed pursuant to paragraph (a) of this section. The Commission may, in its discretion and subject to such terms and conditions as it deems necessary, issue such an order and consent should the Commission determine not to object to the position of the self-regulatory organization set forth in the notice or application; *Provided, however,* That nothing herein shall foreclose the right of any person, at his election, to apply directly to the Commission for such consent, if he makes such application pursuant to the terms of an existing order of the Commission under section 15(b)(6) or 15B(c)(4) of the Act limiting his association with a broker or dealer or municipal securities dealer but explicitly

granting him such a right to apply for entry or reentry at a later time.

(e) *Contents of application to the Commission.* An application to the Commission pursuant to paragraph (d) of this section shall consist of the following, as appropriate:

(1) The name of the person subject to the disqualification together with his last known place of residence or business as reflected on the records of the self-regulatory organization;

(2) A copy of the order or decision of the court, the Commission or the self-regulatory organization which adjudicated the matter giving rise to such "applicable disqualification";

(3) The nature of the relief sought and the reasons therefor;

(4) A description of the activities engaged in by the person since the disqualification arose;

(5) A description of the prospective business or employment in which the person plans to engage and the manner and extent of supervision to be exercised over and by such person. This description shall be accompanied by a written statement submitted to the self-regulatory organization by the proposed employer setting forth the terms and conditions of such employment and supervision. The description also shall include (i) the qualifications, experience, and disciplinary records of the proposed supervisors of the person and their family relationship (if any) to that person; (ii) the findings and results of all examinations conducted, during the two years preceding the filing of the application, by self-regulatory organizations of the main office of the proposed employer and of the branch office(s) in which the employment will occur or be subject to supervisory controls; (iii) a copy of a completed Form U-4 with respect to the proposed association of such person and a certification by the self-regulatory organization that such person is fully qualified under all applicable requirements to engage in the proposed activities; and (iv) the name and place of employment of any other associated person of the proposed employer who is subject to a statutory disqualification (other than a disqualification specified in paragraph (a)(3)(iii) of this section);

(6) If a hearing on the matter has been held by the organization, a certified copy of the hearing record, together with copies of any exhibits introduced therein;

(7) All written submissions not included in a certified oral hearing record which were considered by the organization in its disposition of the matter;

(8) All information furnished in writing to the self-regulatory organization by the staff of the Commission for consideration by the organization in its disposition of the matter or the incorporation by reference of such information, and a statement of the organization's views thereon; and

(9) Such other matters as the organization or person deems relevant. If the application contains assertions of material facts not a matter of record before the organization, such facts shall be sworn to by affidavit of the person or organization offering such facts for Commission consideration. The application may be accompanied by a brief. If any information called for in this paragraph (e) of this section is already contained in an application filed with the Commission in accordance with paragraph (b) of rule 15b8-2 under the Act concerning the same proposed employment, such information may be incorporated by reference in the application pursuant to this rule.

(f) **Definitions.** For purposes of this rule:

(1) The term "applicable disqualification" shall mean:

(i) Any effective order of the Commission pursuant to section 15(b) (4) or (6), 15B(c) (2) or (4) or 19(h) (2) or (3) of the Act—

(A) Revoking, suspending or placing limitations on the registration, activities, functions, or operations of a broker or dealer;

(B) Suspending, barring, or placing limitations on the association, activities, or functions of an associated person of a broker or dealer;

(C) Suspending or expelling any person from membership or participation in a self-regulatory organization; or

(D) Suspending or barring any person from being associated with a member of a national securities exchange or registered securities association;

(ii) Any conviction of injunction of a type described in section 15(b)(4) (B) or (C) of the Act; or

(iii) A failure under the provisions of Rule 15b8-2 under the Act or rule G-4 of the Municipal Securities Rulemaking Board under the Act, to meet qualifications standards, and such failure may be remedied by a finding or determination by the Commission pursuant to such rule(s) that the person affected nevertheless meets such standards.

(2) The term "control" shall mean the power to direct or cause the direction of the management or policies of a company whether through ownership of securities, by contract or otherwise; *Provided, however, That*

(i) Any person who, directly or indirectly, (A) has the right to vote 10 percent or more of the voting securities, (B) is entitled to receive 10 percent or more of the net profits, or (C) is a director (or person occupying a similar status or performing similar functions) of a company shall be presumed to be a person who controls such company;

(ii) Any person not covered by paragraph (i) shall be presumed not to be a person who controls such company; and

(iii) Any presumption may be rebutted on an appropriate showing.

(g) Where it deems appropriate to do so, the Commission may determine whether to (1) direct, pursuant to section 6(c)(2), 15A(g)(2) or 17A(b)(4)(A) of the Act, that a proposed admission covered by a notice filed pursuant to paragraph (a) of this section shall be denied or an order barring a proposed association issued or (2) grant or deny an application filed pursuant to paragraph (d) of this section on the basis of the notice or application filed by the self-regulatory organization, the person subject to the disqualification, or other applicant (such as the proposed employer) on behalf of such person, without oral hearing. Any request for oral hearing or argument should be submitted with the notice or application.

(h) The Rules of Practice [17 CFR 201] shall apply to proceedings under this rule to the extent what they are not inconsistent with this rule.

By the Commission.

George A. Fitzsimmons,
Secretary.

November 20, 1981.

BILLING CODE 8010-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

20 CFR Part 416

Supplemental Security Income for the Aged, Blind, and Disabled

AGENCY: Social Security Administration, HHS.

ACTION: Final rule.

SUMMARY: This regulation will afford States for which SSA administers State supplementation payments under the Supplemental Security Income (SSI) program, the use of a regression formula in the computation of Federal fiscal liability (FFL) rates. Under the FFL concept, the Federal government assumes responsibility for Federal

errors is State optional and mandatory supplementary payments discovered by its quality assurance system, which exceed the 4 percent tolerance for error established in the regulations. The regression formula is a mathematical means of determining the relationship between our original quality assurance findings and the results of an independent State review of a subsample of these same cases. The extent of differences derived from studying the subsample is projected to adjust the error rate in our total sample of cases. This is an alternative to the current method of correcting only the differences noted in the State's subsample, before we compute the FFL error rates. Use of the regression formula is at the option of the State, and is available beginning with 6-month sample periods beginning October 1, 1980.

EFFECTIVE DATE: This final regulation is effective December 3, 1981, but States may start applying it for 6-month sample periods beginning as early as October 1, 1980.

FOR FURTHER INFORMATION CONTACT:

Willie H. Dow, Room 3226 Annex Building, 6401 Security Boulevard, Baltimore, Maryland 21235, (301) 597-2516.

SUPPLEMENTARY INFORMATION: We published the interim rule providing for the use of the regression formula in the Federal Register on January 23, 1981 (46 FR 7269) with a 60-day comment period. Two comments were received and are discussed under the heading Discussion of Comments.

Background Information

Some States have entered into agreements with the Secretary for us to administer their mandatory and optional supplementary payments in the SSI program. Part of our responsibility is to review a valid sample of cases for each 6-month period beginning in April and October of each year, and to compute our FFL if our error rate based on the review exceeds a prescribed standard (currently 4 percent). Additionally, a State may rereview a subsample of the cases we select. Traditionally, the States have chosen to rereview a small subsample of these cases. If we agree with a State's review findings, we revise our data base and compute our FFL by treating the State's findings as if they were our own on a case-by-case basis.

Recently the States, through the National Council of State Public Welfare Administrators (NCSPWA), have proposed the use of a mathematical regression formula to weight the value

of errors detected by a State in its subsample review. A regression methodology estimates the extent of differences in the full sample; whereas the present case-by-case methodology corrects only differences noted in the State's subsample of our sample. The regression formula produces a statistically valid error rate for the total sample without having to subject to rereview every case in the quality assurance sample. The effect of using the regression formula in any particular FFL determination will be to raise, lower, or not change original error rate projections.

Historically, the quality assurance systems in SSI and in AFDC have been similar. The regression formula has been used for some time in the AFDC program. The States have requested that the use of the regression formula be an available option in the SSI program. Accordingly, we have amended § 416.2086(h)(2) to allow a State, at its option, to use the regression formula for 6-month sample periods beginning October 1, 1980.

Discussion of Comments

We received two comments on the interim rule published on January 27, 1981 (46 FR 7269). One comment was entirely favorable and requires no response. That commenter stated that he is pleased to see the publication of the regulation on the regression formula because it resulted from negotiations between NCSPWA and SSA.

The other commenter stated that there is no documentation in any Department of Health and Human Services publication supporting our statement that use of the regression formula will increase accuracy of the payment error rate finding used for the Federal fiscal liability determination.

Experience in using the regression formula in the AFDC program demonstrates the formula to be a statistically proper method for taking into account, and adjusting for fallibility and possible bias that may occur in the initial review. However, to avoid misunderstanding, we have made minor editorial changes in the interim regulation as published to clarify our definition of the regression formula.

Use of the regression formula is not mandatory, but rather at the option of the State. A State is free to exercise its option to use the regression formula in any 6-month sample period. Any State which believes that the formula does not suit its needs or budget conditions, or will not adequately reflect the differences detected in rereview may refrain from exercising the option. The State then may have its Federal fiscal

liability determined under the present case-by-case methodology if it chooses to rereview cases at all.

Certification under Executive Order 12291, the Regulatory Flexibility Act, and the Paperwork Reduction Act

We have determined that this regulation does not meet the criteria specified in Executive Order 12291 for a major regulation. In addition, we certify that this regulation does not have a significant economic impact on small entities because its use is optional by States and it affects only HHS error rates. There are no recordkeeping or reporting requirements requiring OMB clearance.

Accordingly, this regulation is adopted with minor editorial changes as set forth below.

(Secs. 1102 and 1631 of the Social Security Act, as amended; 49 Stat. 647, as amended, 80 Stat. 1745, as amended; 42 U.S.C. 1302 and 1383)

(Catalog of Federal Domestic Assistance Program No. 13.807, Supplemental Security Income Program)

Dated: September 16, 1981.

John A. Svahn,

Commissioner of Social Security.

Approved: November 13, 1981.

Richard S. Schweiker,

Secretary of Health and Human Services.

PART 416—SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Part 416 of Chapter III of Title 20 of the Code of Federal Regulations is amended at § 416.2086 by revising paragraph (h)(2) to read as follows:

§ 416.2086 Federal liability when error rate in payment of federally administered State supplementation exceeds national standard.

(h) * * *

(2) *Adjustment to liability.* If a State's finding in a case differs from ours and if we agree that the State is correct, we will use this revised finding in computing FFL. We will then determine our liability—

(i) By treating the State's findings on cases that we agree upon as if they were the findings of our sample review; or

(ii) At the State's option, through the use of a regression formula as specified in the Federal-State agreement. For purposes of this section, a regression formula is a mathematical means of determining the relationship between the original findings of the Federal quality review and the results of an independent State rereview of a subsample of the same cases. The extent

of differences derived from the subsample is projected to adjust the error rates in the total sample of cases selected for quality review. This option is available for 6-month sample periods beginning on or after October 1, 1980.

BILLING CODE 4190-11-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD 75-237]

Drawbridge Operation Regulations; Opening Signals for Drawbridges

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is amending its regulations governing the operation of drawbridges by establishing standard opening and acknowledging signals for most of the drawbridges throughout the country. A diverse range of opening and acknowledging signals has been employed for many of these drawbridges. By eliminating this potential source of uncertainty and confusion for the mariner, these regulations should contribute to safer conditions on the nation's waterways. In addition, these amendments consolidate into a general section certain provisions that apply to a large number of drawbridges, such as those allowing the use of radiotelephone communication in lieu of sound and visual signals, and those prohibiting a vessel from attempting to pass through the draws of a bridge unless an opening signal has been received.

DATES: This amendment is effective on February 8, 1982.

Comments on revisions made in this final rule that were not discussed in the notice of proposed rulemaking must be received on or before January 18, 1982.

ADDRESS: Comments should be mailed to Commandant (G-CMC/44) (CGD 75-237), U.S. Coast Guard, Washington, D.C. 20593. Between the hours of 7:00 a.m. and 5:00 p.m., Monday through Thursday, comments may be delivered to, and are available for inspection and copying at the Marine Safety Council (G-CMC/44), Room 4402, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, D.C. 20593.

FOR FURTHER INFORMATION CONTACT: Frank L. Teuton, Jr., Chief, Drawbridge Regulations Branch (G-NBR/14), Room 1420, Department of Transportation, Coast Guard Headquarters, 2100 Second

Street, SW., Washington, D.C. 20593 (202-426-0942).

SUPPLEMENTARY INFORMATION: The Coast Guard published a Notice of Proposed Rulemaking concerning this amendment on June 26, 1980 (45 FR 43226). The public was invited to submit comments on the proposal by September 1, 1980. Sixty-one comments were received. Twenty-four of these either agreed with the proposal in all particulars, or expressed no objection to it. The remaining comments generally favored the proposal, but recommended certain revisions. These comments are discussed below in the same order as the sections of the rule to which they pertain.

One comment included a request that a public hearing be held on this rulemaking. In light of the substantial information that has been provided through written comments, the Coast Guard did not consider it necessary to hold a public hearing, as it could not be expected to generate significant additional information. *Drafting Information:* The principal persons involved in drafting this rule are: Frank L. Teuton, Jr., Project Manager, Office of Navigation, and Coleman Sachs, Project Attorney, Office of the Chief Counsel.

Discussion of Comments

§ 117.b Signals.

(a) Sound signals. Several comments recommended substitution of the expression "prolonged blast" for "long blast" in paragraph (a). A long blast was defined in the proposal as being of three seconds duration. The comments noted that "long blast" is not found in the Navigation Rules, but that "prolonged blast" is defined in these rules as a blast of four to six seconds duration. Because there is no official definition of "long blast," the Coast Guard has adopted "prolonged blast" in these final rules, giving it the same definition that it has in the Navigation Rules.

Several comments recommended that megaphones and bells be eliminated from the list of permissible signaling devices in paragraph (a). Some contended that drawtenders may have difficulty hearing signals given on these devices. Others questioned how a distinct long or short blast could be produced by them. The final rules have been changed to eliminate bells in order to preserve their uniqueness as fog signaling devices. Megaphones have not been eliminated from the list of permissible devices, as they are useful in times of emergency when other signaling devices are unavailable or malfunctioning.

One comment recommended that only signaling devices that are capable of producing 120 decibels of sound at the source be permitted. Another recommended that devices with an audible range of three miles be required. These characteristics for sound producing devices are specified in the Navigation Rules. The requirements vary according to vessel size. It would be inadvisable to include these details in the drawbridge operation regulations in order to keep them as simple as possible. The recommendations have therefore not been adopted.

One comment objected to the proposed requirement that signaling devices other than those specified be capable of "producing sound that can be clearly heard." This was felt to be too subjective a standard. The Coast Guard would be reluctant to phrase the audibility requirement with any greater specificity in the drawbridge operation regulations, as it is a subject that is treated, and properly belongs, in the Navigation Rules. The proposed language has therefore been retained.

Several comments objected to the proposed opening signal of one long blast followed by one short blast. One stated that this signal is presently used between vessels and tugs to maneuver. No confirmation of this could be found in the Navigation Rules. Others stated that one long and one short blast resembles the towing signal. Article 15(e) of the Inland Rules defines the signals for vessels towing or in tow as one prolonged and two short blasts. There should be no difficulty distinguishing this from the proposed opening signal. Several parties recommended the adoption of alternate signals presently used in their parts of the country. The Coast Guard has decided to retain the opening signal originally proposed, modified by the substitution of prolonged blast for long blast, as previously discussed. As stated in the Notice of Proposed Rulemaking, the uniqueness of this signal, and its suitability for its intended function justify its adoption nationwide.

One comment, suggesting that the interval between the long and short blast of the opening signal should be better defined, recommended that it be expressed as "one long blast followed immediately by one short blast." This recommendation has not been adopted. The Coast Guard is unaware of any problems with the proposed signal on those bridges where it is already used. The fact that the short blast should immediately follow the long blast is implied in the identification of these sounds as part of the same signal.

Several comments recommended that drawtenders be required to immediately acknowledge opening signals. It was felt that this would reduce the need for vessels to circle or take other evasive maneuvers while awaiting a response from the bridge. This would allow them to promptly pass through the draw when the bridge is opened, minimizing the disruption to land traffic. The Coast Guard recognizes the need for the drawtender to provide a prompt response, and has therefore adopted in these final rules a requirement that acknowledging signals be given not more than 30 seconds after the receipt of opening signals.

One comment suggested that the acknowledging signal should differ from the opening signal to allow drawtenders on consecutive bridges to distinguish vessel from bridge signals. This has not been adopted, as it would unduly complicate signalling procedures to benefit a relatively small number of bridges.

One comment recommended the addition of a provision specifying that vessels may pass through the draws of open, unmanned bridges without receiving an acknowledging signal. The final rules have been so amended.

Several comments recommended that five short blasts be substituted for four short blasts as the acknowledging signal when the draw cannot be opened immediately or is open and must be closed immediately. Four blasts were originally proposed to conform to the danger signal in Article 17, Rule III of the Inland Rules. These have since been amended and placed in substantial conformity with the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), which, in rule 34(d) prescribes five or more short blasts as a danger signal. The new rules are to take effect in December, 1981. In anticipation of this development, the recommended change in being adopted in these final rules.

One comment questioned whether four blasts must be given by the drawtender whenever a bridge is closed. This signal need only be given in response to an opening signal from a vessel if the draw cannot open immediately or is open and must close immediately.

One comment recommended that the word "immediately" be eliminated from the heading of paragraphs (a)(2)(i), (a)(2)(ii), (b)(2)(i), and (b)(2)(ii), which prescribe acknowledging signals for drawbridges. It was felt that this terminology would require immediate openings, and would not take proper account of the time lag needed for land

traffic to clear the bridge. The phrase "as soon as possible" was suggested as an alternative. This terminology has not been adopted, as it does not provide sufficient guidance to vessel operators and bridge tenders. However, the word "promptly" has been substituted for "immediately" to imply that some delay would be tolerated.

Another comment recommended that a provision be added requiring drawbridges to open immediately upon signal to maintain waterway navigability. This recommendation has not been adopted. As noted above, immediate openings cannot be provided in all instances, as some allowance must be made for vehicular traffic to clear the bridge. Occasionally, openings must also be delayed to allow emergency vehicles to pass.

Several comments recommended that vessels be required to signal when they have cleared a draw in order to avoid premature closings. The Coast Guard considers it unnecessary to impose this additional signalling requirement. The drawtender's visual observations should provide sufficient precaution against premature closings.

A number of comments recommended the adoption of signals that differ from those originally proposed. With the two exceptions noted above, the Coast Guard has retained the proposed signals, as they are felt to offer the least likelihood of confusion with signals given different meaning under the Navigation Rules.

(b) Visual signals. One comment recommended that visual signals be allowed whenever their use would be appropriate. It was noted that the proposal would only allow the use of visual signals when adverse weather conditions prevent sound signals from being heard, or when sound producing devices are malfunctioning. Other situations were described that might warrant the use of visual signals, such as when ambient noise levels are high, or when occupied vessels are moored close by at night. Paragraph (b) has been revised to broaden the range of situations that are cited as making the use of visual signals appropriate.

One comment recommended that the minimum range of visibility for visual signals be expanded from one-half mile to two miles. This recommendation has not been adopted, as the benefits that could be derived from added visibility are not considered sufficient to justify the expense for altering structures and installing more powerful lights.

One comment noted that some bridges presently use cylinders, balls, or other devices instead of lights and flags to give visual signals, and recommended

that these still be allowed. The Coast Guard is willing to allow the use of devices other than flags and lights that are capable of rendering the same signal, especially where these have been previously used. The parenthetical note in paragraphs (b)(1) and (b)(2)(ii) has been revised to reflect this.

One comment recommended that flashing lights be principally used on bridges as signalling devices, and that the manual display of flags or lights only be allowed in the case of equipment failure. This recommendation has not been adopted. It would impose an unreasonable expense on bridge owners, especially on those whose bridges cross waterways that carry only occasional vessel traffic.

One comment recommended that visual signals be given only through the use of revolving lights with interchangeable lenses in three standard colors. This recommendation has not been adopted. The Coast Guard wishes to provide vessel and bridge owners with greater flexibility in the procurement and use of signalling devices and limit the expenses necessary to comply with these regulations.

One comment opposed the substitution of visual signals for sound signals, citing the dangers drawtenders incur in manually displaying visual signals during inclement weather. The Coast Guard has found that visual signals must be allowed. As discussed above, sound signals are ineffective or inappropriate in some situations. Bridges can be equipped with mechanical devices to eliminate the need for drawtenders to display visual signals manually. If this is not possible, drawtenders should be instructed to exercise sufficient caution to reduce the likelihood of mishaps.

One comment recommended that visual signals not apply to automated bridges. These are bridges that are not continually manned, but are equipped with opening mechanisms that are activated through a sound signal. The Coast Guard recognizes that an exception must be made for these bridges, not only in regard to visual signals, but sound signals as well. This is because they may be activated by signals that differ from those under consideration. As a consequence, signalling provisions have been retained within the individual operation regulations for all automated bridges.

One comment objected to the proposed use of a white light as an opening signal at night. It was felt that the drawtender could confuse this with other lights on the water. The Coast Guard is unaware of any problems with

white lights at the numerous bridges where they are presently required. The majority of vessels that are equipped with lights for signalling purposes are most likely to have white lights. This is also the color light that is probably most readily available. The Coast Guard would be reluctant to impose a requirement for different equipment without a clearer showing that a problem exists.

One comment recommended that two green lights flashing alternately should be substituted for a white light as the acknowledging signal when the draw will be opened. It was noted that this signal is familiar to many users of United States waterways. Paragraph (b)(1) has been revised to allow the acknowledging signal to be given with a white or green light.

Several comments recommended a change in the provision in paragraph (b)(2)(ii) requiring vessels to acknowledge visual signals from the bridge "with the same signal." Some felt this could be misinterpreted as requiring vessels to be equipped with the same signalling devices, such as elaborate arrays of flashing lights. Others noted that pleasure craft might not be equipped with red flags, lanterns, or other devices employed on the bridge. Paragraph (b)(2)(ii), as well as paragraph (a)(2)(ii) containing a parallel provision on sound signals, have been revised to allow a vessel to acknowledge a bridge signal with "a signal that carries the same meaning." This would clarify the fact that similar devices need not be used, and would permit visual signals to be acknowledged with sound signals if conditions so allow, thus affording vessel operators maximum flexibility.

(c) Draw will not open. One comment stated that this paragraph's prohibition on vessel passage should not restrict a vessel from moving into fenderings or other bridge protection structures to await bridge openings under safe conditions. The paragraph has been revised to allow such maneuvers.

(d) Radiotelephones. Two comments recommended that all drawbridges be required to have radiotelephones. This recommendation has not been adopted. Many bridges do not have sufficient vessel traffic passing through them to warrant the use of radiotelephones. Nearly all of the bridges that could benefit from radiotelephones already have them installed. It should be noted that the Commandant of the Coast Guard need only require the installation of radiotelephones under 33 CFR 117.1(e) upon a finding that their use

would be essential for navigation or safety.

One comment stated the substitution of radiotelephone communication for sound and visual signals should not be permitted. Signals were considered less likely to be misunderstood than oral communication. It was also noted that the extended range afforded by radiotelephone communication may result in premature drawbridge openings disrupting vehicular traffic. Because it is less formal than exchanging signals, it was also felt that radiotelephone communication would cause the vessel operator to be less cautious in navigating through the draw. The Coast Guard has not adopted this recommendation, as it has no evidence that problems have been found on the numerous bridges that have been equipped with radiotelephones. In fact, radiotelephones have enhanced safety on waterways crossed by bridges where they are in use.

A number of comments objected to the proposed requirement for vessels to monitor the radiotelephone channel selected for communication with the drawtender until they have cleared the draw. Some contended that there is no need to communicate with the drawtender once the bridge has been opened. Others noted that masters must monitor other channels simultaneously in some locations. The monitoring requirement has been retained in these final rules. It is felt that the majority of transits are so short that this requirement is not unreasonable. Monitoring allows vessel operators and drawtenders to make rapid changes in the transiting sequence if unforeseen developments arise.

A number of comments recommended that specific channels be assigned for radiotelephone communication between vessel and bridge. The Coast Guard has no authority to do this, as it is a function that is only exercised by the Federal Communications Commission. Furthermore, in light of regional variations in the use of certain channels, it would be ill advised to designate these nationwide.

One comment requested publication of VHF channel numbers used to request bridge openings. As this is general information that is not regulatory in nature, it would be an unnecessary addition to the Code of Federal Regulations. This information could be more effectively disseminated at the Coast Guard District level through the Local Notice to Mariners.

One comment recommended that a prescribed format be adopted for radiotelephone communications. This would require that specific language be

used to request or acknowledge an opening. The Coast Guard considers this unnecessary in light of its interest in keeping these regulations as simple as possible. It would also disregard regional variations that might exist in the format of radiotelephone communications.

One comment recommended that if paragraph (d) is adopted, allowing radiotelephone communications to be substituted for sound and visual signals, 33 CFR 117.1(e) should be amended. This provision describes radiotelephone communication as serving a supplementary role. It has been amended as suggested.

(e) Contiguous drawbridges. One comment recommended that a "progressive numeric" system of signalling be adopted for bridges in close proximity to one another. Presumably, this would require an increasing or decreasing number of blasts for successive bridges. A similar method of signalling is already employed on a number of contiguous drawbridges. The Coast Guard does not consider this change necessary for the small number of bridges that employ other techniques.

One comment recommended that once an opening signal has been given for a bridge, it should be eliminated for subsequent bridges in close proximity. It was felt that drawtenders should be able to provide openings on the basis of their visual observations. By eliminating excessive noise, the recommended change was described as being beneficial to shoreline residents and occupants of neighboring vessels at anchor. This recommendation has not been adopted. It is necessary for communications to be established between the vessel and each drawtender, as vehicular traffic conditions on subsequent bridges may delay their openings. The recommended change might also result in unnecessary openings for vessels intending to anchor between bridges.

Miscellaneous comments. Two comments questioned the need for nationwide uniformity in drawbridge signals, and requested that the Great Lakes region be excluded from this scheme. As stated in the Notice of Proposed Rulemaking, uniform signals will eliminate one source of confusion for mariners, thus contributing to safer conditions on the nation's waterways. Wide support for this aspect of the proposal was expressed by those submitting comments.

One comment recommended that the uniform signals apply to all drawbridges in the country. The Coast Guard does not agree with this recommendation for

two reasons. First, there are a number of close proximity drawbridges in several metropolitan areas. If all of these bridges were required to open on the same signal, this could be quite confusing, and the Coast Guard's position is that different signals should be used for each bridge. The second group of drawbridges that should not require standard signals are those that are automated. Several of these bridges have been programmed to open on different signals. The Coast Guard feels that reprogramming these bridges would be an unnecessary expense to the bridge owner. The operation of these bridges is governed by the following sections, in all of which signalling provisions have been retained:

§ 117.75 Boston Harbor.
 § 117.78 Cape Cod Canal.
 § 117.130 Pequonnock River, et al.
 § 117.429 St. Johns River.
 § 117.432 Matanzas River.
 § 117.435 Indian River.
 § 117.436a Loxahatchee River.
 § 117.491 Mobile River.
 § 117.550 Cedar Bayou.
 § 117.554 Victoria Channel.
 § 117.556 Ark and White River.
 § 117.604 Illinois River.
 § 117.640a Duluth Superior Harbor.
 § 117.650 Manitowoc River.
 § 117.655 Milwaukee River, et al.
 § 117.660 Root River.
 § 117.663 Chicago River.
 § 117.670 Calumet River.
 § 117.711 Cerritos Channel.
 § 117.740 Youngs Bay.
 § 117.750 Willamette River, et al.
 § 117.760 Columbia and Snake Rivers.
 § 117.770 Willapa Harbor.
 § 117.775 Grays Harbor.
 § 117.785 Tacoma Harbor.
 § 117.790 Duwamish Slough.
 § 117.805 Snohomish River.
 § 117.900 Honolulu.

Several comments recommended that additional signalling provisions in the operation regulations for individual bridges be deleted with the adoption of these rules. As a result of these comments, and its own review of the existing regulations, the Coast Guard is deleting the following provisions that were not included in the notice of proposed rulemaking:

§ 117.156(d)
 § 117.310(c)
 § 117.706(b)(2)
 § 117.706a (a)(4) (5), and (b)(3)
 § 117.761(b)

As none of the bridges governed by these sections are automated or in close proximity to other bridges, they should properly be subject to the standard signals being established. However, since prior notice of these revisions has not been provided, the Coast Guard

invites the public to comment upon them on or before February 1, 1982. All comments submitted will be reviewed to determine whether any further modifications are necessary.

In addition, § 117.555(b) is being revised to eliminate a cross reference to paragraph (d), which is being deleted under these rules. A similar revision is being made to eliminate the cross reference to paragraph (i) in § 117.50(b), the cross reference to paragraph (d) in § 117.555(b) and the cross reference to paragraph (c)(2)(ii) in § 117.690(e).

The following provisions proposed for revision or deletion in the Notice of Proposed Rulemaking will not be modified under these final rules because they pertain to bridges which are either in close proximity to other bridges, or which would have difficulty adopting the standard signals being established:

§ 117.432 (c)(1)(i) and (c)(2)(i)
 § 117.670 (d) and (e)
 § 117.770(a) (2), (3) and (4)
 § 117.775 (a) (2) and (3)
 § 117.790 (b), (c), and (d)
 § 117.805 (b)(1)(i), (b)(1)(ii), and (b)(2)

One comment recommended a delay in the implementation of these rules so that the public can become accustomed to them. As stated above, they will not become effective until January 1, 1982, which is beyond the close of the present boating season. This will afford all Coast Guard Districts ample opportunity to inform the public of these changes through the Local Notice to Mariners, mailings, and radio broadcasts. This will also afford bridge owners or operators ample time to modify or augment their signalling devices if this is necessary.

This amendment has been reviewed and determined to be neither a major rule under Executive Order 12291, nor significant under the Department of Transportation's Policies and Procedures for Simplification, Review and Analysis of Regulations (DOT Order 2100.5). A final evaluation has been prepared and included in the public docket. This may be obtained from the Marine Safety Council (G-CMC/44), Room 4402, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, D.C. 20593. As the notice of proposed rulemaking was issued before January 1, 1981, this rulemaking is exempt from the Regulatory Flexibility Act (94 Stat. 1164). However, the requirements of the Act were taken into consideration, and these rules are not expected to have a significant effect on small entities.

In consideration of the foregoing, Part 117 of Title 33, Code of Federal Regulations is amended as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. By removing and reserving paragraph (d) of § 117.1.

§ 117.1 [Amended]

* * * * *

(d) [Reserved].

2. By revising the introductory paragraph and paragraph (4) of § 117.1(e) to read as follows:

§ 117.1 General.

* * * * *

(e) The Commandant may require the owner or operator to install and operate one or more radiotelephone stations of appropriate characteristics on a drawbridge upon finding that for navigation or safety it is essential that a means other than sound or visual signals be available to request openings of the draw.

(1) * * *

(4) The provisions of this section are not intended to restrict the voluntary installation and operation of radiotelephone stations on drawbridges.

3. By adding a new § 117.1b to read as follows:

§ 117.1b Signals.

(a) *Sound signals.* Sound signals shall be the primary signals to be used if weather conditions will permit sound signals to be heard by the drawtender and by the vessel operator. A prolonged blast shall be of four to six seconds duration and a short blast shall be of approximately one second duration. These signals may be made by a whistle, or horn, by shouting through a megaphone, or by other similar devices producing sound that can be clearly heard. If a drawbridge does not have sound signals individually specified in this Part, the following signals shall be used:

(1) Signal to request opening of draw. One prolonged blast followed by one short blast.

(2) Acknowledging signal by the drawtender.

(i) When the draw will be opened immediately. One prolonged blast followed by one short blast, sounded not more than 30 seconds after the opening signal.

(ii) When the draw cannot be opened promptly or is open and must be closed promptly. Five short blasts, sounded in rapid succession not more than 30 seconds after the opening signal, repeated at regular intervals until acknowledged by a signal which has the same meaning from the vessel. As soon as the draw can be opened the drawtender shall sound the opening

signal and open the draw for any vessel waiting to pass.

(b) *Visual signals.* These signals shall be used if weather, noise, or other conditions may prevent sound signals from being heard or if sound producing devices are not properly functioning. Sound signals may be used in conjunction with visual signals. If a drawbridge does not have visual signals individually specified in this Part, the following shall be used:

(1) Signal to request opening of draw. A white flag of sufficient size to be readily visible for a distance of one-half mile by day or a white or green light of sufficient intensity to be readily visible for a distance of one-half mile by night, raised and lowered vertically in full sight of the drawtender, repeated until acknowledged by the drawtender (mechanical devices or other objects using fixed or flashing lights which produce essentially the same signal, are permitted).

(2) Acknowledging signal by the drawtender.

(i) When the draw will open promptly. Same as signal to request opening, displayed not more than 30 seconds after the opening signal.

(ii) When the draw cannot open promptly or is open and must be closed promptly. A red flag of sufficient size to be readily visible for a distance of one-half mile by day or a red light of sufficient intensity to be readily visible by night, swung back and forth horizontally in full sight of the vessel not more than 30 seconds after the opening signal is observed, and repeated until acknowledged by the vessel with a signal which carries the same meaning (mechanical devices or other objects using fixed or flashing lights which produce essentially the same signal, are acceptable). As soon as the draw can open, the drawtender shall give the opening signal and open the draw for any vessels waiting to pass.

(c) *Draw will not open.* When the signal from the bridge indicates that the draw will not open, the vessel shall not attempt to pass the closed draw until an opening signal is received from the bridge. However, if there is sufficient room, the vessel may advance into the fender system until the draw opens.

(d) *Radiotelephones.* When the request for draw opening and the answering acknowledgement is given by radiotelephone, sound or visual signals need not be used. Both vessel and bridge must continue to monitor the selected channel until the vessel has cleared the draw. If radiotelephone contact cannot be maintained, sound or visual signals shall be used.

(e) *Contiguous drawbridges.* When a vessel wishes to pass two or more drawbridges close together, the opening signal shall be given for the first bridge. After acknowledgement from the first bridge that it will open promptly, the opening signal shall be given for the second bridge and so on until all bridges that the vessel desires to pass have been given the opening signal and have acknowledged that they will open promptly.

(f) *Vessels approaching a drawbridge.* When two or more vessels are approaching the same drawbridge at nearly the same time from the same or opposite directions with the draw open or closed, each of these vessels shall signal independently for the opening of the draw, and the drawtender shall reply in turn to the signal of each vessel.

(g) When a vessel approaches a drawbridge in the open position, the vessel shall sound the opening signal. If no response is received, the vessel may proceed through the draw.

4. By removing and reserving the following paragraphs:

§ 117.8(b)
 § 117.10(c)
 § 117.20(c)
 § 117.25 (b), (c), and (f)
 § 117.35(a) (1), (2), and (3)
 § 117.50(i)
 § 117.55(a)(5)
 § 117.60(i)
 § 117.65 (d) and (e)
 § 117.80(c)
 § 117.81(d)
 § 117.85(b)
 § 117.87(a)
 § 117.90(e)
 § 117.95 (a)(2), (b)(7) and (b)(8)
 § 117.100(b)
 § 117.105(e)
 § 117.110(c)
 § 117.115(a)
 § 117.125 (a)(2) and (b)(4)
 § 117.135 (b) and (c)
 § 117.145(c)
 § 117.150 (a) and (b)
 § 117.155(c)
 § 117.156(d)
 § 117.160(d)
 § 117.165(c)
 § 117.175(f)
 § 117.180(h)
 § 117.185(g)
 § 117.200(d)
 § 117.210(c)
 § 117.215(c)
 § 117.220(e)
 § 117.227 (a) and (b)
 § 117.235(c)
 § 117.235a (a) and (b)
 § 117.240 (b), (c) and (h)
 § 117.270(c)
 § 117.280(b)
 § 117.285(b)
 § 117.310(c)
 § 117.340 (b), (c) and (h)
 § 117.349 (a) and (b)
 § 117.555(d)

§ 117.605(b)
 § 117.642(c)
 § 117.643(d)(2)
 § 117.644a(b)
 § 117.645(b)
 § 117.652(c)
 § 117.676(d)
 § 117.690(c)
 § 117.692(e)
 § 117.695 (b), (c) and (d)
 § 117.696 (c) and (d)
 § 117.697(d)
 § 117.700 (c) and (d)
 § 117.702(c)
 § 117.703(c)
 § 117.705(d)
 § 117.705a(c)
 § 117.705b(c)
 § 117.706(a) (2), (3), (4), and (b)(2)
 § 117.706a (4), (5), and (b)(3)
 § 117.707a (c), (d), (e) and (f)
 § 117.709(d)
 § 117.710(b)
 § 117.715(a)
 § 117.716 (a)(1)(iv) and (b)(1)
 § 117.759a(b)
 § 117.759b(e)
 § 117.761(b)
 § 117.765(a) (2) and (3)
 § 117.776(b)
 § 117.784 (b)(2) and (d)(2)
 § 117.795(c)
 § 117.800(b)
 § 117.801(b)(2)

§ 117.5 [Amended]

5. In § 117.5(a) by replacing the colon after the word "minutes" with a period and removing all the remaining language in the paragraph.

§ 117.15 [Amended]

6. In § 117.15 by removing the last sentence.

§ 117.50 [Amended]

7. In § 117.50(b) by removing the words "when the signal prescribed in paragraph (i) of this section for the opening of the draw is received" and inserting in their place "upon signal."

§ 117.55 [Amended]

8. In § 117.55(a)(1) by removing the words "upon receipt of the signal prescribed in paragraph (a)(5) of this section" and inserting in their place "upon signal."

§ 117.65 [Amended]

9. In § 117.65(b) by removing the words, "upon the signal prescribed in paragraphs (d) and (e) of this section being given."

§ 117.135 [Amended]

10. In § 117.135(a) by removing the words "upon a signal given by three short blasts (each of about two seconds duration) of a horn or steam whistle" and inserting in their place "upon signal."

§ 117.156 [Amended]

11. In § 117.156(c) by removing the words "after giving a signal of three distinct blasts of a horn, whistle or megaphone, repeated at intervals when necessary until answered from the bridges" and inserting in their place "on signal."

§ 117.220 [Amended]

12. In § 117.220(c) by removing the first sentence.

§ 117.230 [Amended]

13. In § 117.230(a)(2) by replacing the comma after the word "draw" with a period, and removing all the remaining language in the paragraph.

§ 117.305 [Amended]

14. By revising paragraph (a) of § 117.305 to read as follows:

(a) From 5 a.m. to 6:30 a.m., 9:30 a.m. to 4 p.m., and 6 p.m. to 9 p.m., the draw shall open on signal.

§ 117.442 [Amended]

15. In § 117.442(a) by removing the words "need open on signal of three blasts of a whistle, horn or by shouting" and inserting in their place "need only open on signal."

§ 117.442 [Amended]

16. In § 117.442(b) by removing the last sentence.

§ 117.442(a) [Amended]

17. In § 117.442a(a) by removing the words "of three blasts of a whistle, horn or by shouting."

18. In § 117.442a(b) by removing the last sentence.

§ 117.443 [Amended]

19. In § 117.443(a) by removing the words "of three blasts of a whistle, horn or by shouting."

20. In § 117.443(b) by removing the last sentence.

§ 117.555 [Amended]

21. In § 117.555(b) by removing the words "prescribed in paragraph (d) of this section."

22. In § 117.555 (e) and (f) by removing the words "as prescribed in paragraph (d) of this section."

§ 117.643 [Amended]

23. In § 117.643(b)(3) by inserting a period after the word "season" and removing all the remaining language in the paragraph.

§ 117.690 [Amended]

24. In § 117.690(e) by removing the last sentence.

§ 117.725 [Amended]

25. In § 117.725(a)(1) by removing all language after the word "upon" and inserting in its place the word "signal" followed by a period.

§ 117.755 [Amended]

26. In § 117.755(a)(1) by removing all language after the word "upon" and inserting in its place the word "signal" followed by a period.

§ 117.765 [Amended]

27. In § 117.765(a)(4) by removing the words "(paragraphs (a)(2)(ii), (2)(iv), (3)(ii), and (3)(iv) of this section)."

§ 117.801 [Amended]

28. In § 117.801(c) by removing the last sentence.

§ 117.805 [Amended]

29. In § 117.805(b)(1)(i) by capitalizing the first letter of the word "distinctive" and removing all preceding language in the paragraph.

(33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5))

Peter J. Rots,
Captain, U.S. Coast Guard, Acting Chief,
Office of Navigation.

[FR Doc. 81-34777 Filed 12-2-81; 8:45 am]

BILLING CODE 4910-14-M

LIBRARY OF CONGRESS**Copyright Office****37 CFR Part 202**

[Docket RM 77-17A]

Registration of Claims to Renewal of Copyright

AGENCY: Copyright Office, Library of Congress.

ACTION: Final rule.

SUMMARY: The Copyright Office of the Library of Congress is adopting a final rule with respect to renewal registration practices and procedures under section 304(a) of the Copyright Act of 1976, title 17 of the United States Code. That section pertains to claims to renewal copyright in works for which first term copyright subsisted on January 1, 1978. The effect of the proposed regulation is to prescribe conditions for the registration of such claims to renewal copyright.

EFFECTIVE DATE: December 3, 1981.

FOR FURTHER INFORMATION CONTACT: Dorothy Schrader, General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559, (202) 287-8380.

On October 6, 1981, there was published in the Federal Register (46 FR 49145) a notice of a proposed rule governing registration of claims to renewal copyright under section 304(a) of the Copyright Act of 1976, title 17 of the United States Code. Interested persons were given 30 days in which to comment on the proposed rule.

One comment letter was received, which opposed adoption of that portion of the proposed rule governing renewal registration for works eligible for United States copyright under the Universal Copyright Convention (U.C.C.), as implemented in title 17 of the United States Code in effect on December 31, 1977. Specifically, the comment suggested that original term registration should be required for U.C.C. works as a condition for securing renewal term registration. The comment also objected to the provision for renewal registration for U.C.C. works without deposit of a complete copy, under certain circumstances.

The Copyright Office agrees that original term registration could be required for U.C.C. works, consistent with our U.C.C. obligations, as a condition precedent for renewal registration (not, of course, as a condition of protection for the original term itself). However, a comment submitted during an earlier phase of this rulemaking proceeding (Federal Register notice of January 5, 1978, 43 FR 904; see the discussion of this point at 46 FR 49146) argued that original term registration should not be required of any renewal claimant. While the Copyright Office rejected and continues to reject that contention, we concluded that some accommodation for U.C.C. works would be appropriate in view of the history and spirit of the U.C.C. and the unfamiliarity of foreigners with our registration requirements.

The Copyright Office notes that the proposed rule clearly requires deposit of one complete copy, if available, to accompany a renewal claim for a U.C.C. work not registered for the original term. It is only if the deposit copy is *unavailable* that resort can be had to alternative forms of submission to substantiate the existence of the copyright. Rather than deal with such cases under the special relief provision of 37 CFR 202.20(d), the Office has proposed a specific rule as part of this renewal registration regulation. It is anticipated that the provision for alternative forms of submission will be invoked rarely.

The comment also suggested that the Office provide by regulation for acceptance of renewal applications by hand-delivery until twelve midnight on

December 31. The Office in fact does make special arrangements for Library of Congress special police to accept renewal applications until midnight on December 31. However, these arrangements require the cooperation of staff not under the control of the Copyright Office, and we have decided not to specify such arrangements in a Copyright Office regulation.

Accordingly, the proposed rule is hereby adopted without change and is set forth below.

(17 U.S.C. 304, 205, 702, and 708)

Dated: November 16, 1981.

David Ladd,
Register of Copyrights.

Approved:
Daniel J. Boorstin,
The Librarian of Congress.

PART 202—REGISTRATION OF CLAIMS TO COPYRIGHT

Part 202 of 37 CFR, Chapter II, is amended by revising 202.17 to read as follows:

§ 202.17 Renewals.

(a) *General.* This section prescribes rules pertaining to the application for renewal copyright under section 304(a) of title 17 of the United States Code, as amended by Pub. L. 94-553.

(b) *Definition.* For purposes of this section, the term "posthumous work" means a work that was unpublished on the date of the death of the author and with respect to which no copyright assignment or other contract for exploitation of the work occurred during the author's lifetime.

(c) *Renewal Time-Limits.* (1) For works originally copyrighted between January 1, 1950 and December 31, 1977, claims to renewal copyright must be registered within the last year of the original copyright term, which begins on December 31 of the 27th year of the copyright, and runs through December 31, of the 28th year of the copyright. The original copyright term for a published work is computed from the date of first publication; the term for a work originally registered in unpublished form is computed from the date of registration in the Copyright Office. Unless the required application and fee are received in the Copyright Office during the prescribed period before the first term of copyright expires, the copyright in the unrenewed work terminates at the expiration of twenty-eight years from the end of the calendar year in which copyright was originally secured. The Copyright Office has no discretion to extend the renewal time limits.

(2) The provisions of paragraph (c)(1) of this section are subject to the following qualification: In any case where the year date in the notice on copies distributed by authority of the copyright owner is earlier than the year of first publication, claims to renewal copyright must be registered within the last year of the original copyright term, which begins on December 31 of the 27th year from the year contained in the notice, and runs through December 31 of the 28th year from the year contained in the notice.

(3) Whenever a renewal applicant has cause to believe that a formal application for renewal (Form RE), and in the case of works under paragraph (d)(2) of this section, an accompanying affidavit and submission relating to the subsistence of first-term copyright, if sent to the Copyright Office by mail, might not be received in the Copyright Office before expiration of the time limits provided by 17 U.S.C., section 304(a), he or she may apply for renewal registration by telegraphic or similar unsigned written communication. An application made by this method only will be accepted if: (i) The message is received in the Copyright Office within the specified time limits; (ii) the applicant adequately identifies the work involved, the date of first publication or original registration, the name and address of the renewal claimant, and the statutory basis of the renewal claim; (iii) the fee for renewal registration, if not already on deposit, is received in the Copyright Office before the time for renewal registration has expired; and (iv) a formal application for renewal (Form RE), and in the case of works under paragraph (d)(2) of this section, an accompanying affidavit and submission relating to subsistence of the first-term copyright are also received in the Copyright Office before February 1 of the following year.

(d) *Original Registration.* (1) Except as provided by paragraph (d)(2) of this section, copyright in a work will not be registered for a renewal term unless an original registration for the work has been made in the Copyright Office.

(2) An original registration in the Copyright Office is not a condition precedent for renewal registration in the case of a work in which United States copyright subsists by virtue of section 9(c) of title 17 of the United States Code, in effect on December 31, 1977 (which implemented the Universal Copyright Convention) provided, however, that the application for renewal registration is accompanied by:

(i) An affidavit identified as "Renewal Affidavit for a U.C.C. Work" and containing the following information:

(A) The date of first publication of the work;

(B) The place of first publication of the work;

(C) The citizenship of the author on the date of first publication of the work;

(D) The domicile of the author on the date of first publication of the work;

(E) An averment that, at the time of first publication, all the copies of the work published under the authority of the author or other copyright proprietor bore the symbol © accompanied by the name of the copyright proprietor and the year of first publication, and that United States copyright subsists in the work;

(F) The handwritten signature of the renewal claimant or the duly authorized agent of the renewal claimant. The signature shall (1) be accompanied by the printed or typewritten name of the person signing the affidavit and by the date of the signature; and (2) shall be immediately preceded by the following printed or typewritten statement in accordance with section 1746 of title 28 of the United States Code: I certify under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

(ii) A submission relating to the notice of copyright and copyrightable content which shall be, in descending order of preference, comprised of:

(A) One complete copy of the work as first published; or

(B) (1) A photocopy of the title page of the work as first published, and

(2) A photocopy of the page of the work as first published bearing the copyright notice, and

(3) A specification as to the location, relative to each other, of the title and notice pages of the work as first published, if the pages are different, and

(4) A brief description of the copyrightable content of the work, and

(5) An explanation of the inability to submit one complete copy of the work as first published; or

(C) A statement describing the position and contents of the copyright notice as it appeared on the work as first published, and a brief description of the copyrightable content. The statement shall be made and signed in accordance with paragraph (d)(2)(i)(F) of this section and shall also include an explanation of the inability to submit either one complete copy of the work as first published or photocopies of the title and notice pages of the work as first published.

(e) *Application for Renewal*

Registration. (1) Each application for renewal registration submitted on or after January 1, 1978 shall be furnished on Form RE. Copies of Form RE are available free upon request to the Public

Information Office, United States Copyright Office, Library of Congress, Washington, D.C. 20559.

(2) (i) An application for renewal registration may be submitted by any eligible renewal claimant as specified in paragraph (f) of this section or by the duly authorized agent of any such claimant.

(ii) An application for renewal registration shall be accompanied by a fee of \$6. The application shall contain the information required by the form and its accompanying instructions, and shall include a certification. The certification shall consist of: (A) A designation of whether the applicant is the renewal claimant, or the duly authorized agent of such claimant (whose identity shall also be given); (B) the handwritten signature of such claimant or agent, accompanied by the typewritten or printed name of that person; (C) a declaration that the statements made in the application are correct to the best of that person's knowledge; and (D) the date of certification.

(iii) In the case of an application for renewal registration for a foreign work protected under the U.C.C. which has not been the subject of an original copyright registration, the application shall be accompanied by a "Renewal Affidavit for a U.C.C. Work" and a submission relating to the notice of copyright and the copyrightable content in accordance with paragraph (d)(2) of this section.

(3) Once a renewal registration has been made, the Copyright Office will not accept a duplicate application for renewal registration on behalf of the same renewal claimant.

(f) *Renewal Claimants.* (1) Except as otherwise provided by paragraphs (f)(2) and (3) of this section, renewal claims may be registered only in the name(s) of the eligible person(s) falling within one of the following classes of renewal claimants specified in section 304(a) of the copyright law. If the work was a new version of a previous work, renewal may be claimed only in the new matter.

(i) In the case of any posthumous work or of any periodical, cyclopedic, or other composite work upon which the copyright was originally secured by the proprietor thereof, the renewal claim may be registered in the name of the proprietor;

(ii) In the case of any work copyrighted by a corporate body (otherwise than as assignees or licensees of the individual author) or by an employer for whom such work is made for hire, the renewal claim may be

registered in the name of the proprietor; and

(iii) In the case of any other copyrighted work, including a contribution by an individual author to a periodical or to a cyclopedic or other composite work, the renewal claim may be registered in the name(s) of the following person(s) in descending order of eligibility:

(A) the author of the work, if still living;

(B) the widow, widower, or children of the author, if the author is not living;

(C) the author's executors, if there is a will and neither the author nor any widow, widower, or child of the author is living;

(D) the author's next of kin, in the absence of a will and if neither the author nor any widow, widower, or child of the author is living.

(2) The provisions of paragraph (f)(1) are subject to the following qualification: Notwithstanding the definition of "posthumous work" in paragraph (b) of this section, a renewal claim may be registered in the name of the proprietor of the work, as well as in the name of the appropriate claimant under paragraph (f)(1)(iii), in any case where a contract for exploitation of the work but no copyright assignment in the work has occurred during the author's lifetime. However, registration by the Copyright Office in this case should not be interpreted as evidencing the validity of the claim.

(3) The provisions of paragraphs (f)(1)(iii)(C) and (D) of this section are subject to the following qualifications:

(i) In any case where: (A) the author has left a will which names no executor; (B) the author has left a will which names an executor who cannot or will not serve in that capacity; or (C) the author has left a will which names an executor who has been discharged upon settlement of the estate or removed before the estate has been completely administered, the renewal claim may be registered either in the name of an administrator cum testamento annexo (administrator c.t.a.) or an administrator de bonis non cum testamento annexo (administrator d.b.n.c.t.a.) so appointed by a court of competent jurisdiction;

(ii) In any case described in paragraph (f)(3)(i) of this section, except in the case where the author has left a will without naming an executor and a court appointed administrator c.t.a. or administrator d.b.n.c.t.a. is in existence at the time of renewal registration, the renewal claim also may be registered in the name of the author's next of kin. However, registration by the Copyright Office of the conflicting renewal claims in these cases should not be interpreted

as evidencing the validity of either claim.

BILLING CODE 1410-03-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-5-FRL 1969-5]

State and Federal Administrative Orders Revising Michigan State Implementation Plan

AGENCY: U.S. Environmental Protection Agency.

ACTION: Notice of final rulemaking.

SUMMARY: The U.S. Environmental Protection Agency (EPA) approves the Michigan Air Pollution Control Commission's (Commission) request for a revision to the Michigan State Implementation Plan (SIP). The revision is contained in a Final Order issued by the Commission replacing the federally approved Final Order (APC No. 08-1979) for the Dundee Cement Company.

On August 11, 1980 (45 FR 53137), EPA approved a site-specific revision to Michigan's SIP for Total Suspended Particulates (TSP) for the Dundee Cement Company (Company) in Monroe County, Michigan. On January 14, 1981, the Michigan Department of Natural Resources (MDNR) submitted a new Stipulation for Entry of Consent Order and Final Order, APC No. 16-1980. The new Order replaces the previous order's compliance date of December 31, 1983 with earlier final compliance dates of December 31, 1980 for reducing the particulate matter emissions to 0.20 pounds per 1,000 pounds of exhaust gases and December 31, 1981 for visible emission reductions from the Company's cement kilns. The purpose of today's rulemaking is to announce approval of the new order providing an earlier compliance schedule. This action will be effective on February 1, 1982, unless notice is received within 30 days that someone wishes to submit critical or adverse comments.

DATE: This action is effective February 1, 1982.

ADDRESSES: Copies of the SIP revision available for review at the following places.

U.S. Environmental Protection Agency,
Region V, Air Programs Branch, 230
South Dearborn Street, Chicago,
Illinois 60604
Environmental Protection Agency,
Public Information Reference Unit, 401

M Street, S.W., Washington, D.C.
20460

Michigan Department of Natural Resources, Air Quality Division, State Secondary Government Complex, General Office Building, 7150 Harris Drive, Lansing, Michigan 48917.

Written comments on this action should be sent to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, Region V, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Toni Lesser, Regulatory Analysis Section, Air Programs Branch, Region 5, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604 (312) 886-6037.

SUPPLEMENTARY INFORMATION: The Dundee Cement plant is located on Day Road, Monroe County, in a designated attainment area for TSP (45 FR 45993). The nearest primary particulate nonattainment areas are approximately 35 km northeast and south of the plant, with the closest secondary particulate nonattainment area being approximately 6 km east.

The new order APC No. 16-1980, replaces APC No. 08-1979, the Previous Stipulation for Entry of Consent Order and Final Order, and changes Paragraphs 4, 6, 8, 9, 10, 11, and 12.

The Commission's Rules R 336.1301 and R 336.1331 set forth the visible particulate matter emission limitations for cement kilns in the State of Michigan. The new order, paragraph 5(h), states that after December 31, 1980, particulate matter emissions from the Company's two cement kilns shall not exceed 0.20 pounds per 1,000 pounds of exhaust gases. Paragraph 5(i) of the order provides that after December 31, 1981 visible emissions (excluding water vapor) from the Company's cement kilns shall not exceed 20 percent opacity except that visible emissions of not more than 40 percent opacity (excluding water vapor) are allowed for not more than three minutes in any 60-minute period, but such emissions shall not be allowed on more than three occasions during any 24-hour period. The revision does not relax the TSP emission limits, or opacity requirements of Michigan's federally approved SIP as established by the requirements of APC 08-1979.

EPA takes action today to approve APC No. 16-1980, as a revision to the Michigan SIP. EPA believes that this action is a noncontroversial rulemaking, since the new order requires earlier compliance with Michigan's TSP mass emission and opacity SIP requirements

than the previous order and provides for attainment and maintenance of the TSP National Ambient Air Quality Standards.

This action will be effective 60 days from the date of this Federal Register notice. However, if EPA is notified within 30 days that someone wishes to submit adverse or critical comments, this action will be withdrawn and a new rulemaking will propose this action and establish a comment period.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator certified on January 27, 1981, (46 FR 8709) that approvals or conditional approvals of SIPs under Sections 110 and 172 of the Clean Air Act and revisions of attainment status designations under Section 107(d) would not, if promulgated, have a significant economic impact on a substantial number of small entities. Today's action approves an action submitted pursuant to the provisions of Section 110 of the Act. It imposes no new requirements beyond those which the State has already imposed.

Under Executive Order 12291, (46 FR 13193) EPA must also judge whether a regulation is "major" and therefore subject to the requirements of a Regulatory Impact Analysis. Today's action does not constitute a major regulation since it merely approves a State action for one source. This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of (date of publication). Under Section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceeding brought by EPA to enforce these requirements.

(Sec. 110, Clean Air Act (42 U.S.C. Section 7410))

Dated: November 19, 1981.

Anne M. Gorsuch,
Administrator.

Part 52 of Chapter 1, Title 40 Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Subpart X—Michigan

Section 52.1170 is amended by adding paragraph (c)(40) as follows:

§ 52.1170 Identification of plan.

(c) * * *

(40) Revised compliance schedules were submitted by the State of Michigan, Department of Natural Resources (MDNR) to EPA on January 14, 1981, for the Dundee Cement Company, Monroe County (Michigan Final Order, APC No. 16—1980, adopted November 19, 1980). The revised Order provides an earlier final compliance date of December 31, 1980 for reducing

the particulate matter emissions to 0.20 pounds per 1,000 pounds of exhaust gases and December 31, 1981 for visible emission reductions from the Company's cement kilns.

2. In § 52.1175(e), the entry in the table for "Dundee Cement Company" is revised to read as follows:

§ 52.1175 Compliance schedules.

(e) * * *

BILLING CODE 6560-38-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

42 CFR Part 52

Grants to for-Profit Organizations; Implementing Amendments

AGENCY: Public Health Service, HHS.

ACTION: Final rule.

SUMMARY: This issuance amends 42 CFR Part 52 applicable to grants made for research projects under sections 301 and 356 of the Public Health Service Act to delete the prohibition on eligibility for research awards to entities that are organized or operated for profit. Elsewhere in this issue of the Federal Register is a final rule which, among other things, amends 42 CFR Part 87 to allow for-profit organizations to apply for health research and demonstration grants under section 20 of the Occupational Safety and Health Act and section 501 of the Federal Mine Safety and Health Act.

EFFECTIVE DATE: January 4, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas D. Shoe, Director, Division of Grants and Contracts, Office of Resource Management, OM, Room 18A-19, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, Telephone (301-443-6630).

SUPPLEMENTARY INFORMATION: On February 28, 1980 the Public Health Service (PHS) published in the Federal

Register (45 FR 13200) a notice inviting public comment on whether to change the PHS policy which precluded organizations operated for profit from applying for and receiving financial assistance awards (grants and cooperative agreements) for research activities under the following authorities: sections 301, 340, 356, and 404 of the PHS Act (42 U.S.C. 241, 256, 263d, and 285), section 20 of the Occupational Safety and Health Act (29 U.S.C. 669), and section 501 of the Federal Mine Safety and Health Act (30 U.S.C. 951).

After consideration of all comments received, the PHS published a notice in the Federal Register of April 6, 1981 (46 FR 20603) that eligibility would be extended to for-profit organizations, but that this eligibility would not become effective until existing regulations precluding awards to for-profit organizations were amended. This notice also prescribed special conditions under which assistance awards would be made to for-profit organizations. In terms of public reaction to the special conditions, the only concern related to the proposed rights-in-data requirement from the standpoint of the Government's access to data developed under an award. Upon further consideration, the Secretary has determined that for-profit organizations will be subject to the same administrative policies on this issue that are currently applicable to nonprofit institutions—as set forth in 45 CFR Part 74, Administration of Grants.

Except for rights-in-data, the remaining special conditions from the April 6 notice are now being proposed for use throughout HHS and will be included in an NPRM amending 45 CFR Part 74.

Until such time as 45 CFR Part 74 is amended, the remaining conditions in the April 6 notice, repeated below, will be applied to individual award notices. Office of Management and Budget Circular FMC 73-3 (A-100) Cost Sharing on Federal Research has been rescinded; therefore, reference to it has been deleted from the cost sharing condition. However, the legal requirement for cost sharing remains in the Department's appropriation act.

For-profit organizations will be subject to the same administrative requirements currently applicable to nonprofit institutions, with five exceptions. They are described briefly below. A more complete explanation of these exceptions and their effects is contained in a Notice of Proposed Rulemaking published elsewhere in this issue of the Federal Register.

a. *Cost Principles*—There are no cost principles applicable to for-profit organizations receiving financial assistance awards. Therefore, the cost principles for Contracts with Commercial Organizations set forth in 41 CFR Subpart 1-15.2 will be used. PHS has elected the option provided in 41 CFR Subpart 1-15.102 of not authorizing independent research and development costs. For hospitals, cost principles referenced in 45 CFR 74.173 will apply.

b. *Property*—Title to real property, equipment, and supplies acquired by a for-profit recipient under a financial assistance award or subaward shall vest upon acquisition in the Federal Government. The transfer, sale or other disposition of the property will be determined by the awarding office. Recipients will also be required to comply with the equipment management requirements of § 74.140 of Subpart O of 45 CFR Part 74.

c. *Cost Sharing*—The legal requirements for cost sharing will be met through separate cost sharing agreements negotiated for each research project. Cost sharing amounts will be determined in accordance with Department of Health and Human Services policy.

d. *Patents and Inventions*—The requirements set forth in 45 CFR Parts 6 and 8 as implemented by PHS govern the development and reporting of patents and inventions. Disposition of royalties or equivalent income earned on patents and inventions arising out of activities developed under financial assistance awards or subawards shall

be governed by determinations made or agreements entered into under 45 CFR Parts 6 and 8 on a case-by-case basis only.

e. *General Program Income*—The additional costs alternative described in 45 CFR 74.42(e) is not an allowable alternative.

Amendments to the affected regulations are described briefly as follows:

Part 52 of Title 42, Code of Federal Regulations, which implements sections 301 and 356 of the PHS Act, is amended to remove the prohibition in § 52.3 that excepts for-profit organizations from eligibility for grant awards. In addition, in view of the promulgation of Department-wide regulations governing debarment and suspension (45 CFR Part 76), a pre-existing provision dealing with disqualification of more limited scope has been deleted from § 52.3.

Section 340 of the PHS Act does not have implementing regulations to amend. Legislative authority for this section has been extended for one year, to expire September 30, 1982. Applicant eligibility will be provided for when regulations are published.

Section 404 of the PHS Act does not have implementing regulations for the research listed under this authority and no research awards are made that use this authority. Unless and until such time as implementing regulations for research are issued for section 404, applicant eligibility is not an issue.

Elsewhere in this issue of the Federal Register is a final rule which, among other things, amends 42 CFR Part 87 to allow for-profit organizations to apply for health research and demonstration grants under section 20 of the Occupational Safety and Health Act and section 501 of the Federal Mine Safety and Health Act.

Because both the number of small businesses able to take advantage of this new eligibility and the impact on existing grantees are likely to be small, the Department of Health and Human Services has determined that this final rule will not significantly impact a substantial number of small entities and therefore does not require preparation of a regulatory flexibility analysis under the Regulatory Flexibility Act.

The Department has also determined that this final rule is not a "major rule" under Executive Order 12291, because it will not have an annual effect on the economy of \$100 million or more, result in significant adverse effects in competition, or otherwise meet the thresholds established in the Executive Order. Therefore, preparation of a regulatory impact analysis is not required.

Accordingly, Title 42 of the Code of Federal Regulations is amended as set forth below:

Dated: October 5, 1981.

Edward N. Brandt, Jr.,
Assistant Secretary for Health.

Approved: November 10, 1981.

Richard S. Schweiker,
Secretary.

PART 52—GRANTS FOR RESEARCH PROJECTS

Section 52.3 is amended by revising the introductory text of paragraph (a), (a)(1), and (a)(2) to read as follows:

§ 52.3 Who is eligible to apply for a grant?

(a) *Persons eligible*. Any individual, corporation, public or private institution or agency, or other legal entity shall be eligible for a grant award except:

(1) An individual or entity which is otherwise ineligible for an award under applicable law or regulation, and

(2) Federal agencies or institutions unless specifically authorized by law to receive the grant.

(Sec. 215, 58 Stat. 690, as amended, 63 Stat. 835 (42 U.S.C. 216))

[FR Doc. 81-34718 Filed 12-2-81; 8:45 am]

BILLING CODE 4160-17-M

Centers for Disease Control

42 CFR Parts 55, 86, and 87

National Institute for Occupational Safety and Health; Revision of Grant Regulations

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control, Public Health Service, HHS.

ACTION: Final rule.

SUMMARY: This rule (1) revises the research and demonstration grant regulations of NIOSH to conform them to HHS's general grants administration regulation (45 CFR Part 74), and (2) implements NIOSH's authority to award grants for health research in all types of mining. This rule also reflects the Secretary's decision to change the policy which precluded organizations operated for profit from applying for and receiving PHS grants. This particular amendment is published elsewhere in this issue of the Federal Register along with similar amendments to various other parts of Title 42. Editorial changes have been made to delete duplicative administrative provisions and to consolidate NIOSH research and

demonstration project grant regulations into a single regulation. This rule is part of HHS's commitment to reduce the size of its program grant regulations and to bring about greater uniformity in the rules that govern the rights and obligations of the HHS granting agencies and their grantees.

DATE: Effective date: January 4, 1982.

FOR FURTHER INFORMATION CONTACT: Mr. Roger A. Nelson, Grants Administration and Review Branch, NIOSH, Rockville, MD 20857. Phone: (301) 443-4493.

SUPPLEMENTARY INFORMATION: On August 2, 1978 (43 FR 34076), HHS revised its general grants administration regulation (45 CFR Part 74) to provide uniform basic administrative provisions for virtually all HHS grants. Since that time, the Department has been systematically purging its program grant regulations of provisions that duplicate or conflict with 45 CFR Part 74. On March 13, 1980 (45 FR 16209), NIOSH proposed to revise the grant regulations affecting its programs as follows:

1. *42 CFR Part 55, Grants for Advancement of Health in Coal Mining*—NIOSH proposed to revoke Part 55 and combine the provisions pertaining to grants for health research in coal mining with the provisions of 42 CFR Part 87 (see below).

2. *42 CFR Part 86, Grants for Education Programs in Occupational Safety and Health*—All provisions that duplicate or conflict with 45 CFR Part 74 were deleted. The provisions pertaining to grantee eligibility, applications, program requirements, evaluation criteria, restrictions on use of grant funds, and applicable regulations were rewritten in updated language and standardized format.

3. *42 CFR Part 87, Grants for Research and Demonstrations Relating to Occupational Safety and Health*—The provisions in Part 87 pertaining to grantee eligibility, applications, program requirements, evaluation criteria, restrictions on use of grant funds, and applicable regulations were combined with those similar provisions from Part 55 in a revised Part 87 entitled "National Institute for Occupational Safety and Health Research and Demonstration Grants." In addition, provisions for awarding grants for health research in all types of mining were included. All provisions that duplicate or conflict with 45 CFR Part 74 were deleted.

A 45-day period was provided for the public to comment on the proposal, and no comments were received. The revisions to Parts 55 and 87 are being adopted as proposed with minor editorial changes for clarification. The

reporting requirements contained in these parts have been reviewed and approved by the Office of Management and Budget (OMB Approval No. 0925-0001). This program is not subject to OMB Circular A-95 (revised) nor Health Systems Agency review.

It has been determined that the training grant application requirements as proposed in Part 86 would require approval by the Office of Management and Budget (OMB). In addition, NIOSH recently reported on the effectiveness of its Educational Resource Center (ERC) grant program. Evaluation findings indicate that modifications to the structure of the ERC program are needed. However, any modifications and subsequent OMB clearances must await evaluation of the NIOSH report. Therefore, the revisions proposed to 42 CFR Part 86 on March 13, 1980 (45 FR 6209), are not being adopted at this time.

The Department of Health and Human Services has determined that this document will not significantly impact on small entities and therefore does not require preparation of a Regulatory Flexibility Analysis under the Regulatory Flexibility Act, Pub. L. 96-354.

PART 55 [Removed]

Accordingly, Part 55 of Title 42, Code of Federal Regulations, is hereby removed, and Part 87 of Title 42 is retitled and revised as set forth below:

(Catalog of Federal Domestic Assistance Program No. 13.262, Occupational Safety and Health Research Grants)

Dated: June 30, 1981.

Edward N. Brandt, Jr.,
Assistant Secretary for Health.

Approved: November 10, 1981.

Richard S. Schweiker,
Secretary.

PART 87—NATIONAL INSTITUTE FOR OCCUPATIONAL SAFETY AND HEALTH RESEARCH AND DEMONSTRATION GRANTS

Sec.

87.1 To which programs does this regulation apply?

87.2 Definitions.

87.3 Who is eligible to apply for a grant under this part?

87.4 For what purposes may grants be awarded?

87.5 What information must be included in the grant application?

87.6 How will grant applications be evaluated and the grants awarded?

87.7 For what period of time will grants be awarded?

87.8 How may a grantee use grant funds?

87.9 Which other HHS regulations apply?

Authority: Sec. 8(g), 84 Stat. 1600 (29 U.S.C. 657(g)), sec. 508, 83 Stat. 803 (30 U.S.C. 957).

§ 87.1 To which programs does this regulation apply?

This regulation applies to research and demonstration project grants under: (a) Section 20(a)(1) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(1)) for the support of studies related to occupational safety and health, and (b) section 501 of the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 951) for the support of health research in mining. These grants are awarded and administered by the National Institute for Occupational Safety and Health, Centers for Disease Control, of the Public Health Service.

§ 87.2 Definitions.

As used in this regulation:

"Demonstration project grant" means an award of funds to an eligible applicant to assist in meeting the cost of conducting a demonstration, either on a pilot or full-scale basis, of the technical or economic feasibility or application of a new or improved procedure, method, technique, or approach that will further the research purposes described in § 87.4.

"Principal investigator" for a research project, or "project director" for a demonstration project, means a single individual who is responsible for the scientific and technical direction of the project.

"Research project grant" means an award of funds to an eligible applicant to assist in meeting the costs of conducting an identified research activity or program, study, or experiment that will further the research purposes described in § 87.4.

"Secretary" means the Secretary of Health and Human Services and any other officer or employee of the Department of Health and Human Services to whom the authority involved has been delegated.

§ 87.3 Who is eligible to apply for a grant under this part?

Any public or private agency or institution is eligible to apply for a grant under this part, except Federal agencies or institutions not specifically authorized by law to receive such a grant.

§ 87.4 For what purposes may grants be awarded?

(a) The Occupational Safety and Health Act authorizes grants for research, experiments, and demonstrations relating to occupational safety and health, including studies of the psychological factors involved. This authority includes projects to develop innovative methods, techniques, and approaches for dealing with

occupational safety and health problems.

(b) The Federal Mine Safety and Health Act authorizes grants for research projects designed to:

(1) Improve working conditions and practices affecting health in coal or other mines and to prevent occupational diseases originating in the mining industry.

(2) Develop epidemiological information to (i) identify and define positive factors involved in occupational diseases of miners, (ii) provide information on the incidence and prevalence of pneumoconiosis and other respiratory ailments of miners, and (iii) improve health standards.

(3) Develop techniques for the prevention and control of occupational diseases of miners, including tests for hypersusceptibility and early detection.

(4) Evaluate the effect on bodily impairment and occupational disability of miners afflicted with an occupational disease.

(5) Study the relationship between coal or other mine environments and occupational diseases of miners.

(6) Study matters involving the protection of life and the prevention of diseases in connection with persons who, although not miners, work with or around the products of coal or other mines in areas outside of such mines and under conditions which may adversely affect the health and well-being of such persons.

(7) Develop effective respiratory equipment.

§ 87.5 What information must be included in the grant application?

The application must contain a complete description of the objective of the project and the plan for carrying out the research or demonstration, the name and qualifications of the principal investigator or project director and principal staff members, the total resources and facilities that will be available, and a justification of the amount of grant funds requested.

§ 87.6 How will grant applications be evaluated and the grants awarded?

(a) The Secretary may award grants to those applicants whose approved projects will best promote the purposes of either the Occupational Safety and Health Act or the Federal Mine Safety and Health Act on the basis of an evaluation conducted by experts or consultants engaged for this purpose.

(b) This evaluation will take into account the scientific merit and significance of the project, the competency of the proposed staff in relation to the type of research or

demonstration involved, the feasibility of the project, the likelihood of its producing meaningful results, the proposed project period, the adequacy of the applicant's resources available for the project, the amount of grant funds necessary for completion, and for mining grant applications, the recommendations of the Mine Health Research Advisory Committee.

(c) The Secretary may evaluate and approve two or more concurrent applications, each dealing with one or more specified aspects of the project, and make two or more concurrent grant awards for the project. This may be necessary when a project involves a number of different but related problems, activities, or disciplines which would require evaluation by different groups, or when support for a project could be more effectively administered by separate handling of various aspects of the project.

§ 87.7 For what period of time will grants be awarded?

(a) The notice of grant award specifies how long the Secretary intends to support the project without requiring the project to re compete for funds. This period, called the project period, will usually be for 3-5 years.

(b) Generally, the grant will initially be for 1 year and subsequent continuation awards will also be for 1 year at a time. A grantee must submit a separate application to have the support continued for each subsequent year. Decisions regarding continuation awards and the funding level of such awards will be of such factors as the grantee's progress and management practices, and the availability of funds. In all cases, continuation awards require a determination by the Secretary that continued funding is in the best interest of the Federal Government.

(c) Neither the approval of any application, nor the award of any grant commits or obligates the Federal Government in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

§ 87.8 How may a grantee use grant funds?

A grantee shall only spend funds it receives under this part according to the approved application and budget, the authorizing legislation, the terms and conditions of the grant award, the applicable cost principles specified in Subpart Q of 45 CFR Part 74, and the regulations of this part.

§ 87.9 Which other HHS regulations apply?

Several other regulations apply to grants under this part. These include, but are not limited to:

- 42 CFR Part 50—Subpart D—PHS grant appeals procedure.
- 45 CFR Part 16—Department grant appeals process.
- 45 CFR Part 46—Protection of human subjects.
- 45 CFR Part 74—Administration of grants.
- 45 CFR Part 75—Informal grant appeals procedures (indirect cost rates and other cost allocations).
- 45 CFR Part 80—Nondiscrimination under programs receiving Federal assistance through the Department of Health and Human Services—Effectuation of Title VI of the Civil Rights Act of 1964.
- 45 CFR Part 81—Practice and procedure for hearings under Part 80.
- 45 CFR Part 84—Nondiscrimination on the basis of handicap in federally assisted programs.
- 45 CFR Part 91¹—Nondiscrimination on the basis of age in programs or activities receiving Federal financial assistance from HHS.

BILLING CODE 4160-19-M

Health Care Financing Administration

42 CFR Part 447

Medicaid Program; Public Notice of Changes in Method or Level of Reimbursement

AGENCY: Health Care Financing Administration (HCFA), HHS.

ACTION: Interim final rule with comment period.

SUMMARY: Current regulations require that Medicaid State agencies give 60 days public notice of certain proposed changes in the Statewide method or level of reimbursement for Medicaid services. These amended rules eliminate reference to a set waiting period between the date of public notice and the proposed effective date of the change. In addition, the regulations clarify that the public notice provision applies only to significant changes in methods and standards for setting payment rates.

We expect this revision in the regulations will reduce the regulatory burden on the States and allow them greater flexibility in developing reimbursement methodologies and in adjusting reimbursement rates in response to changing fiscal situations. At the same time, it retains a public notice requirement to assure that

¹ Refer to 45 CFR Part 90 until Part 91 is issued.

interested parties are informed of Medicaid reimbursement changes.

EFFECTIVE DATE: December 3, 1981. Although these regulations are final, we will consider any written comments received by March 3, 1982 and will revise the regulations if necessary.

ADDRESS: Address comments in writing to: Administrator, Department of Health and Human Services, Health Care Financing Administration, P.O. Box 17076, Baltimore, Maryland 21235.

If you prefer, you may deliver your comments to Room 309-G Hubert H. Humphrey Building, 200 Independence Ave. SW., Washington, D.C., or to Room 789, East High Rise Building, 6325 Security Boulevard, Baltimore, Maryland.

In commenting, please refer to BPO-25-FC. Agencies and organizations are requested to submit comments in duplicate.

Comments will be available for public inspection, beginning approximately two weeks after publication, in Room 309-G of the Department's office at 200 Independence Ave., SW., Washington, D.C., 20201 on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (202-245-7890).

FOR FURTHER INFORMATION CONTACT: William Hickman, 301-594-9101.

SUPPLEMENTARY INFORMATION:

I. Background

On April 6, 1979, we issued final regulations that require Medicaid agencies to give public notice at least 60 days before certain proposed changes in Medicaid reimbursement levels or methods are effective (see 44 FR 20693). These regulations are authorized under sections 1902(a)(4)(A) and 1902(a)(30) of the Social Security Act and are codified at 42 CFR 447.205.

The 60-day public notice is required for proposed reimbursement changes that:

1. Would either:
 - a. Affect the general method of payment to all providers of a particular service; or
 - b. Affect the level of payments for a particular service; for example, a change in the maximum allowable rate under a Statewide schedule of usual and customary charges due to an adjustment of the percentile ceiling; and
2. Would be projected to affect a State's Medicaid expenditures for a particular service by one percent or more during the 12 months following the effective date of change.

The notice must describe the change, give an estimate of the expected annual increase or decrease in expenditures, and explain why the agency is changing

its reimbursement methodology or level. The location, date, and time of any public hearings must also be included. Public comments must be solicited and an address given where the comments may be viewed by the public. A local agency in each county must have a copy of the proposed change for public review.

The notice must be published by the Medicaid agency in a State register similar to the Federal Register or in the newspaper of widest circulation in each city with a population of 50,000 or more. If there is no city with a population of 50,000 or more, the notice must be published in the newspaper of widest circulation in the State. At the time of publication, the proposed change must be sent to the HCFA Regional office.

The current regulations were intended to help restrain the rapid increase in health care costs and to give the public an opportunity to comment on proposed changes in order to bring new ideas, concerns, and information to the attention of the State Medicaid agency.

II. Problems Identified Through Public Comments

When the current regulations were published as a notice of proposed rulemaking (NPRM) on May 12, 1978 (43 FR 20516), a majority of the States responded unfavorably. Their main concerns were that the 60-day public notice provision limits States' abilities to make timely changes, duplicates requirements of State administrative procedure acts, and is administratively burdensome.

The States believe that the current regulations are inflexible because they make no provision for legislatively mandated reimbursement changes that must be implemented immediately. Also, the States are unable to change rapidly their reimbursement levels in response to crises, thus causing budgetary complications.

Of the 34 States that commented on the NPRM, 26 stated that they already had procedures in place to notify the public of reimbursement changes. Often these procedures are codified in State administrative procedure acts. The requirements imposed by the 60-day public notice regulations are duplicative, overlapping, and sometimes in conflict with these State procedural requirements.

The States also cited the increased administrative costs associated with implementing these regulations. The detailed requirements (publication of the notice and analyzing and responding to public comments) may force States to hire additional professional and clerical staff. A further expense is the actual

cost of preparing and publishing the public notice. The States also commented on how broadly the regulations are written, requiring the States to publish notices on a large number of routine reimbursement changes.

Several States contend that the regulations do not really help contain health care costs (the justification for the regulations). They suggest that no State operating under the tight fiscal constraints that exist today is interested in increasing unnecessarily Medicaid provider fees. In fact, the 60-day public notice requirement could very well promote increased Medicaid costs by delaying proposed reimbursement decreases and imposing unnecessary administrative costs.

We also received comments on the NPRM from providers, health care provider organizations, and beneficiary and welfare rights organizations. Many of the providers responded unfavorably because they believed the regulations impose a needless obstacle to increasing provider reimbursement rates. They contend that providers are rarely reimbursed the full amount of their costs and these regulations only delay much needed reimbursement increases.

On the other hand, health care provider organizations such as the American Medical Association and the American Hospital Association supported the regulations as giving a public forum for discussion of Medicaid reimbursement levels. In addition, beneficiary groups and welfare rights organizations favored the 60-day public notice provision because it allows Medicaid beneficiaries and their advocates a chance to comment on proposed reimbursement changes.

Decision To Proposed Revocation of the Current Regulations

These current regulations have been criticized by States as an example of Federal requirements that impose a regulatory burden on the States without a comparable return in the form of decreased health care costs. There is no statutory requirement that a 60-day public notice provision be imposed on the States. Therefore, in an NPRM published September 16, 1981 in the Federal Register (46 FR 45964), we proposed to delete these regulations. Generally, this action would not deprive the public of an opportunity for input into reimbursement decisions since more States have their own procedures in effect that allow for public participation. We expected that rescission of these regulations would ease the States' regulatory burden and

allow them the flexibility to respond timely to both legislative and fiscal mandates concerning Medicaid reimbursement levels.

III. Discussion of Public Comments

We received 149 comments from health care providers and provider organizations, Medicaid agencies, beneficiary organizations and legal services, health care consultants, Members of Congress, the State Medicaid Directors Association, and the National Governors Association. Approximately 20 commenters favored the proposed rescission while the remainder opposed the changes or suggested revision of the regulation instead of revocation. A discussion of the recommendations and comments follows.

1. *Comment:* Almost two-thirds of the commenters believed that revocation of the public notice regulations would deprive providers and beneficiaries of adequate notice of program changes and their right to comment on those changes. They are concerned that in this period of cutbacks and transition in State Medicaid programs, a safeguard is needed to ensure that proposed changes in Medicaid reimbursement methods are logical and carefully considered. Without the protection of the 60-day notice regulations, these commenters fear that State reimbursement decisions will be made with little or no input from those individuals and groups that are most affected by them.

Response: The large number of comments from providers and beneficiary groups indicates that there is serious concern about the future of State Medicaid programs in a period of fiscal crisis. The Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97-35) imposes a Federal funding reduction on State Medicaid programs effective October 1, 1981. It also provides the States with additional flexibility, including flexibility in setting reimbursement methods, to enable them to modify their programs to be more cost effective.

Since publication of the NPRM proposing to rescind the 60-day notice regulations, we have published interim final regulations that implement the two recent statutory provisions that deal with increased State flexibility in setting reimbursement rates for long term care facility and inpatient hospital services (section 962 of the Omnibus Reconciliation Act of 1980 and section 2173 of the Omnibus Budget Reconciliation Act of 1981). A public notice provision was incorporated in these interim final regulations (46 FR 47972, September 30, 1981). Extending

procedural protection to providers and beneficiaries is a method for ensuring that rate changes are fair and equitable and conform with statutory mandates. These mandates are that reimbursement rates must be reasonable and adequate to meet the costs that must be incurred by efficiently and economically operated facilities to provide care in conformity with Federal and State requirements and must assure reasonable beneficiary access to inpatient hospital services of adequate quality.

Since we do not believe that institutional and noninstitutional providers should be subject to differing public notice requirements, we have revised these regulations to conform with the interim final regulations pertaining to institutional providers, published on September 30, 1981 and codified at 42 CFR 447.254. This decision is based on the expectation that rates developed through a public process will represent an appropriate balance among provider concerns, beneficiary concerns, and State budget limitations. We are retaining a Federal rule to guarantee that rates will continue to be developed in a public process.

Significant changes in a State's methods and standards for setting payment rates for inpatient hospital and long term care facility services are governed by the requirements of 42 CFR 447.254. Changes in the methods and standards for all other services must meet the requirements of 42 CFR 447.205.

2. *Comment:* A few commenters suggested that the problems and complaints of States with regard to the 60-day public notice requirement could be overcome by revision of the regulations rather than by their removal.

Response: We agree with this comment and have revised the current regulations to allow States greater flexibility while retaining a public notice process. We have accomplished this by (1) eliminating reference to a set comment period; (2) clarifying that the rules apply only to significant changes in methods or standards for setting payment rates; and (3) eliminating a specific expenditure threshold above which public notice is required. These changes conform these regulations to those applicable to institutional providers, as mentioned above.

3. *Comment:* Many commenters opposed revocation of the 60-day notice regulations because they believe the 60-day waiting period allows providers an adequate transition period to plan effectively and make needed rate adjustments.

Response: We agree that a guaranteed two-month prior notice may be

advantageous to providers in making financial plans. However, we do not think a set 60-day waiting period is a critical element of these regulations for several reasons. First, many States have their own procedures that allow for various other lengths of comment periods. The formal waiting periods contained in State procedural codes are sufficient to fulfill the intent of a public notice and comment regulation. Second, a set two-month waiting period for all reimbursement changes is too inflexible. It does not allow States to respond timely to legislatively mandated changes. Changes that are a direct result of legislative action have already gone through a public process and should not need a further prolonged notice period before finalization. We believe that specifying that a public notice must appear before the effective date of the proposed changes, without prescribing a definite comment period, is an adequate Federal requirement.

4. *Comment:* Several commenters complained that State administrative procedures are inadequate to protect the public comment process and are sometimes ignored or bypassed by Medicaid agencies.

Response: In this interim final rule, we have retained a Federal public notice requirement applicable to all States. We share the concern of commenters that State reimbursement decisions continue to be made through a public process.

5. *Comment:* A large number of commenters protested the 15-day comment period of the NPRM. They complained that such a short period of time was inadequate to permit interested parties to develop, present, and transmit their views. Several commenters requested that the comment period be extended.

Response: Although the NPRM stated that comments should be received by September 30, 1981 to assure consideration, we continued to entertain and weigh comments beyond that date. In fact, we received a substantial volume of the public comments discussed in this document after September 30. Because we realize there is considerable interest in these regulations, we are publishing an interim final rule with comment period on this subject. This will allow the public another opportunity to comment on these regulations and give us the flexibility to revise the rule further if necessary. We do not believe that extension of the NPRM comment period is in the public interest. Such an extension would delay the date on which States would know with certainty

what our policy is and therefore postpone their planning.

IV. Provisions of the Final Regulations

1. *When notice is required.* These regulations alter the requirements of the 60-day notice provision in several areas. Public notice under these rules is required for any significant proposed change in a Medicaid agency's methods and standards for setting payment rates for a service. We have deleted the requirement that any change that is expected to increase or decrease Medicaid payments for a service by one percent or more in the 12 months following the change must be published. This deletion is in the interest of promoting State flexibility. We do not believe it is necessary to set an explicit expenditure threshold above which public notice is required. A requirement that all significant changes be published will be effective in guaranteeing public notice of major changes in reimbursement.

The original intention of the 60-day notice regulation in referring to changes in level of reimbursement for a service was to cover situations such as "a change in the maximum allowable rate under a State-wide schedule of usual and customary charges due to an adjustment of the percentile ceiling". (44 FR 20693, April 6, 1979) We intend that these percentile ceiling adjustments will continue to be covered by these regulations. Any change in rate setting made by the Medicaid agency is considered a change in either the method or standard for setting payment rates and is subject to these regulations.

2. *Publication of notice.* We have made two changes related to the publication of the notice. First, in the interest of State flexibility, we have eliminated the mandatory length of the comment period. The final regulations require that the notice be published before the proposed effective date of the change.

We have also made a technical change in 42 CFR 447.205(d)(2). The current regulations require that the notice be published in a State register similar to the Federal Register, the newspaper of widest circulation in each city with a population of 50,000 or more, or the newspaper of widest circulation in the State, if there is no city with a population of 50,000 or more. This provision has been misinterpreted to mean that a notice must be published in both a State register and one of the newspaper options. These final regulations are revised to clarify the original intent that the notice must appear as a public announcement in one of those publications.

V. Regulatory Analysis

Executive Order 12291

We have determined that this rule does not meet the criteria for a major rule as defined by section 1(b) of Executive Order 12291. That is, this rule will not have an annual effect on the economy of \$100 million or more or otherwise meet threshold criteria of the Executive Order. We believe that these regulations neither cause any increase in expenditures nor result in any appreciable savings, but allow States the flexibility they need to make appropriate reimbursement changes quickly in response to State needs.

Regulatory Flexibility Act

Section 603(a) of Pub. L. 96-354 (the Regulatory Flexibility Act of 1980) requires Federal agencies to prepare and make public a regulatory flexibility analysis when regulations have a significant economic impact on a substantial number of small businesses or small governmental jurisdictions. Because the economic impact of these regulations is not significant, we believe a regulatory analysis is not required. Therefore, the Secretary certifies, under section 605(b) of Pub. L. 96-354, that this rule will not have a significant economic impact on a substantial number of small entities.

VI. Response to Comments

Because of the large number of comments we receive, we cannot acknowledge or respond to them individually. However, if as a result of comments we believe that changes are needed in these regulations, we will publish the changes in the Federal Register and respond to the comments in the preamble of that document.

42 CFR Part 447 is amended as set forth below:

PART 447—PAYMENTS FOR SERVICES

1. The table of contents is amended by revising the title of § 447.205 to read as follows:

* * * * *

447.205 Public notice of changes in
Statewide methods and standards for
setting payment rates..

* * * * *

Authority: Section 1102 of the Social Security Act, (42 U.S.C. 1302), unless otherwise noted.

2. In § 447.205, paragraph (b) is reprinted and the section is amended by revising the title and paragraphs (a), (c), and (d).

§ 447.205 Public notice of changes in Statewide methods and standards for setting payment rates.

(a) *When notice is required.* For services other than those covered by § 447.254, and except as specified in paragraph (b) of this section, the agency must provide public notice of any significant proposed change in its methods and standards for setting payment rates for services.

(b) *When notice is not required.* Notice is not required if—

(1) The change is being made to conform to Medicare methods or levels of reimbursement;

(2) The change is required by court order; or

(3) The change is based on changes in wholesalers' or manufacturers' prices of drugs or materials, if the agency's reimbursement system is based on material cost plus a professional fee.

(c) *Content of notice.* The notice must—

(1) Describe the proposed change in methods and standards;

(2) Give an estimate of any expected increase or decrease in annual aggregate expenditures;

(3) Explain why the agency is changing its methods and standards;

(4) Identify a local agency in each county (such as the social services agency or health department) where copies of the proposed changes are available for public review;

(5) Give an address where written comments may be sent and reviewed by the public; and

(6) If there are public hearings, give the location, date and time for hearings or tell how this information may be obtained.

(d) *Publication of notice.* The notice must—

(1) Be published before the proposed effective date of the change;

(2) Appear as a public announcement in one of the following publications:

(i) A State register similar to the Federal Register.

(ii) The newspaper of widest circulation in each city with a population of 50,000 or more.

(iii) The newspaper of widest circulation in the State, if there is no city with a population of 50,000 or more.

(Catalog of Federal Domestic Assistance Program No. 13.714; Medical Assistance Program).

Dated: November 1, 1981.

Carolyn K. Davis,
Administrator, Health Care Financing
Administration.

Approved: November 13, 1981.

Richard S. Schweiker,
Secretary.

[FR Doc. 81-34778 Filed 12-2-81; 8:45 am]
BILLING CODE 4120-03-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 0 and 1

[FCC 81-526]

Delegation of Authority to Review Board

AGENCY: Federal Communications
Commission.

ACTION: Final rule.

SUMMARY: The FCC is revising its rules pertaining to the delegation of authority to the Review Board in order to help achieve the Commission's objective of providing speedier service to the public.

Three major changes are being made. First, in addition to its other duties, the Board is authorized to review decisions of Administrative Law Judges in cases involving renewal or revocation of broadcast and common carrier licenses. Second, the Board is given a firm 180-day deadline by which it will have to issue a decision in each case or otherwise any party may request certification to the Commission. Third, the present rule requiring three Board Members to participate in each decision is changed to allow two members to adopt a decision in cases of emergency or necessity where a third member is unavailable.

DATES: Effective: January 1, 1982.

FOR FURTHER INFORMATION CONTACT:
Allan Sacks, Review Board, Federal
Communications Commission, (202) 632-
7180.

SUPPLEMENTARY INFORMATION:

Adopted: November 12, 1981.

Released: November 20, 1981.

By the Commission: Commissioner Fogarty
dissenting; Commissioner Jones concurring
and issuing a statement; Commissioner
Dawson not participating.

1. Section 0.361, 0.365 and 0.367 of the Commission's Rules contain the delegation of authority to the Review Board. These Rules have been reviewed to make those changes necessary to insure that the public receives service in the most efficient and expeditious manner possible. To achieve that objective several changes have been made in the Board's authority, and the

rules have been rewritten in simpler and more direct language. See Appendix to this Order, especially, §§ 0.361 (a) and (c), 0.362(b), and 1.301(c)(6).

2. Authority for the adoption of the foregoing revisions is contained in Section 4(f)(1), 4(i), 4(j), 5(b), 5(d), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(f)(1), 154(i), 154(j), 155(b), and 303(r).

3. In view of the fact that the proposed revision involves rules of agency organization, prior publication of a *Notice of Proposed Rule Making* under the provisions of Section 4 of the Administrative Procedure Act, 5 U.S.C. 553, is unnecessary. Since the revisions are necessary to prevent undue delay in adjudicatory proceedings, delay in its implementation would be contrary to the public interest.

4. Accordingly, it is ordered, that effective January 1, 1982, Parts 0 and 1 of the Commission's Rules are amended as set forth in the attached Appendix.

(Secs. 4, 303, 307, 48 Stat., as amended, 1909, 1082, 1083; 47 U.S.C. 154, 303, 507)

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix

PART 0—COMMISSION ORGANIZATION

Chapter 1 of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 0.361 is revised to read as follows:

§ 0.361 General authority.

(a) The Review Board is constituted pursuant to section 5(d)(1) of the Communications Act of 1934, as amended, to review decisions of the Administrative Law Judges in all adjudicative proceedings unless at the time of designation, the Commission specifies otherwise. The Board shall also perform those functions set forth in §§ 0.362 through 0.365 of this Part and any additional duties assigned by the Commission not inconsistent with these functions.

(b) The Board is composed of three or more Commission employees. Members of the Board are designated by the Commission, serve indefinitely on a full-time basis, and are responsible only to the Commission. Neither the Commission nor any of its members will discuss the merits of any matter pending before the Board with the Board or any of its members.

(c) Two members of the Board shall constitute a quorum. The Board may sit in panels of two members. Any member

assigned to a case who is not present at oral argument may, after reading the transcript of oral argument, participate in the Board's decision. However, so far as practicable, all of the members of the Board assigned to a case shall hear oral argument. In the case of a tie vote, a member of the Board not recused may review the record and vote; if a third member is not available, the case shall be certified to the Commission for decision.

(d) The member of the Board designated as Chairman by the Commission shall assign panels and cases on a rotational basis to the extent practicable. Each opinion of the Review Board will be signed by one of its members, who shall be responsible for its preparation.

2. A new § 0.362 is added, to read as follows:

§ 0.362 Action on initial decisions.

(a) The Review Board shall decide each matter before it by majority vote in accordance with the Communications Act of 1934, as amended, rules and regulations, case precedent, and established policies of the Commission. In reviewing initial decisions referred to it, the Review Board is authorized to perform all of the review functions which would otherwise have been performed by the Commission under §§ 1.273 through 1.282 of this chapter.

(b) The Board shall adopt a decision within 180 days after the release date of an Initial Decision to which exceptions are taken; provided, however, that where, for good cause shown, extensions of time are requested by the parties and granted, the 180 days shall be extended likewise. If the Board does not adopt a decision before the appropriate date, any party may file a motion with the Commission for certification of the case for decision.

3. A new § 0.363 is added, to read as follows:

§ 0.363 Certification of matters to the Commission.

(a) The Review Board, on its own motion or upon motion to the Board by any party, may in its discretion certify any matter to the Commission with a request that the Commission act upon the matter. The Commission may act upon the matter or remand it to the Board for decision.

(b) Whenever the Commission determines that a matter pending before the Board involves a novel issue of law or policy, it may, on its own motion, direct that the matter before the Board be certified to the Commission for

decision. However, no petition requesting the Commission to take such action will be entertained.

4. Section 0.365 is revised to read as follows:

§ 0.365 Authority delegated.

(a) The Review Board is delegated general authority to take such action as may be necessary to perform those duties specified in §§ 0.361 through 0.363 of this Part.

(b) The Review Board is delegated specific authority in all adjudicative cases to act on exceptions to initial or summary decisions, appeals from other rulings of Administrative Law Judges pursuant to §§ 1.301 and 1.302 of this chapter, and all related pleadings filed in cases or matters which are before the Board.

5. Section 0.367 is revised to read as follows:

§ 367 Record of actions taken.

The official record of all actions taken by the Review Board pursuant to §§ 0.361-0.365 is contained in the original docket folder, which is maintained by the Secretary in the Dockets Branch.

PART 1.—PRACTICE AND PROCEDURE

6. Section 1.301(c)(6) is revised to read as follows:

§ 1.301 Appeal from presiding officer's interlocutory ruling; effective date of ruling.

* * * * *

(c) * * *

(6) Appeals are acted on by the Review Board.

* * * * *

November 12, 1981.

Concurring Statement of Commissioner Anne P. Jones

In Re: Amendment to Parts 0 and 1 of the Commission's Rules to revise the Review Board's authority

I concur in these amendments because of the hope they offer of increased expedition in the Commission's adjudicatory processes. I would prefer, however, that the newly established quorum of two Board members be limited to cases of emergency or necessity when a third Board member is unavailable.

It seems to me that in cases considered and decided by only two Board members there may be too much incentive for compromise and consensus. I believe it preferable, where there is no emergency and a third member is available to have three members decide each case, so they will be free to vote strictly on their view of the merits of the case without

any pressure to reach a consensus to avoid a tie vote.

BILLING CODE 6712-01-M

47 CFR Part 63

[CC Docket No. 80-767; FCC 81-520]

Elimination of the Telephone Company—Cable Television Cross-Ownership Rules for Rural Areas

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Federal Communications Commission prohibits telephone companies from providing cable television service within their telephone service areas. It allows waivers for those areas where independent cable television service demonstrably cannot exist, or upon other showing of good cause. On January 22, 1981, the FCC adopted a Notice of Proposed Rulemaking to establish an exemption which would allow telephone companies to provide cable television service to rural areas without a waiver. 46 FR 9138 (January 28, 1981). The FCC hoped the exemption would facilitate cable television service to unserved rural areas. This order exempts rural areas from the prohibition. A rural area is any area outside of (a) any place, incorporated or unincorporated, with 2500 or more inhabitants; and (b) any urbanized area. This exemption will allow cable television service in rural areas which might otherwise go unserved.

EFFECTIVE DATE: December 4, 1981.

FOR FURTHER INFORMATION CONTACT: Linda M. Goodman, Common Carrier Bureau, (202) 632-6920.

In the matter of elimination of the Telephone Company—Cable Television Cross-Ownership Rules, §§ 63.54-63.56, for Rural Areas, CC Docket No. 80-767.

Report and Order

Adopted: November 5, 1981.

Released: November 27, 1981.

By the Commission: Commissioner Fogarty concurring and issuing a statement.

1. In a *Notice of Proposed Rulemaking* adopted December 19, 1980,¹ we announced an intention to create an exemption from the telephone company—cable television cross-ownership rules² in rural areas. We

¹ Notice of Proposed Rulemaking in the Elimination of the Telephone Company—Cable Television Cross-Ownership Rules for Rural Areas, 64 FCC 2d 335 (1981) (hereinafter cited as NPRM).

² Sections 63.54-63.56 of the Commission's rules, 47 CFR 63.54-63.56. Previously, the caption in this

found, upon initial analysis, that requiring waivers for rural areas appeared to be imposing costs which exceeded benefits. We proposed several alternative definitions of rural areas and requested interested parties to submit their comments on those definitions, as well as to submit additional proposals.

2. We find herein that our initial analysis was correct. Accordingly, we are supplementing our waiver policy with an exemption for rural areas. We adopt the definition of rural area used by the U.S. Department of Commerce, Bureau of the Census.

I. Background

3. The telephone company—cable television cross-ownership rules generally prohibit telephone common carriers from furnishing directly, or through affiliates, cable television service within their telephone service areas. Provisions exist for waiver of the rules

[i]n those areas where cable television service demonstrably could not exist except through a cable television system owned by, operated by, controlled by, or affiliated with the local telephone common carrier, or upon other showing of good cause * * *.³

4. Since adoption of the cross-ownership rules in 1970,⁴ the Commission has instituted several proceedings designed to ensure that the rules not impose unreasonable barriers to the growth of desired cable services. The Commission has attempted to better define "those areas where cable television service demonstrably could not exist," and to streamline the procedures pursuant to which petitioners might seek waivers of the cross-ownership prohibition. Nevertheless, many rural areas have remained unserved by cable television.

5. A number of rural telephone companies have filed for waivers to provide cable television service in their telephone service areas.⁵ Most petitions have been unopposed and have been

docket included § 63.57. However, that section is only applicable to certain Section 214 applications in which the telephone company is constructing and leasing the cable system to an independent cable operator. Therefore, the caption of this proceeding has been amended to read "§§ 63.54-63.56."

³ Section 63.56(a) of the Commission's rules, 47 CFR 63.56(a).

⁴ Applications of Telephone Companies for Section 214 Certificates for Channel Facilities Furnished to Affiliated Community Antenna Television Systems, 21 FCC 2d 307 (1970) (hereinafter cited as *Section 214 Certificates*), *recons. in part*, 22 FCC 2d 740 (1970), *aff'd sub nom. General Telephone Company of the Southwest v. U.S.*, 449 F. 2d 840 (5th Cir. 1971).

⁵ NPRM, *supra* note 1, at 338.

granted routinely. However, action on some opposed petitions has taken longer than 18 months. Service has been denied to the public while the matters were being resolved by the Commission.

6. This proceeding was undertaken to determine whether the benefits of the cross-ownership rules in rural areas continued to outweigh the costs. We sought comment on whether the policies underlying the rules remained relevant in such areas. Our initial analysis indicated that the restrictions were not working to the public benefit in rural areas, and therefore we proposed to eliminate the requirement of waivers for rural areas. We proposed several definitions of "rural areas" and also invited other proposals. The definitions we proposed for comment were:

a. *Less than 30 Homes per Route Mile, Franchise Area.* This was the level (measured within a franchise area) established in CC Docket No. 78-219. We found that independent cable television systems generally were not viable in franchise areas with populations at this level.⁶

b. *Less than 30 Homes per Route Mile, Service Area.* This standard was broader than the preceding one because a telephone company could determine the density of the entire area it proposed to serve with cable television, regardless of franchise area boundaries. Although we had rejected this approach in the *First Reconsideration in CC 78-219*, *supra* note 6, we believed it appropriate to reevaluate the standard and propose it for comment.

c. *No Community of Greater than 1500 Persons.* The Rural Electrification Administration (REA) administers financing for cable television services and facilities. The REA gives priority consideration to:

low density rural areas, particularly those outside the boundaries of incorporated or unincorporated cities, villages, or boroughs having a population in excess of 1500 inhabitants.⁷

⁶This franchise area standard was incorporated in the provision for obtaining waiver of the cross-ownership rules. See Section 63.56 of the Commission's rules, 47 CFR 63.56. Memorandum Opinion and Order in Revision of the Processing Policies for Waivers of the Telephone Company—Cable Television "Cross Ownership Rules," 82 FCC 2d 254, 258 (1980) (hereinafter cited as *First Reconsideration in CC 78-219*). However, subsequent to the filing dates for comments in this proceeding, the standard was modified to apply the presumption on a cable television service area basis (proposal b). Memorandum Opinion and Order in the Revision of the Processing Policies for Waivers of the Telephone Company—Cable Television "Cross Ownership Rules," 86 FCC 2d 933 (1981) (hereinafter cited as *Second Reconsideration in CC 78-219*).

⁷Interim REA Bulletin 328-1, Sec. VI.A.1., page 5, June 28, 1979.

d. *Areas Outside the Top 100 Major Television Markets.* For administrative ease, we proposed using the specified zone and major market concepts found in our cable television rules, 47 CFR 76.5(f), 76.51. Thus, any area more than 35 miles from the center of a city to which stations in the top 100 television markets are licensed would have been considered rural. We speculated that areas outside these 35 mile zones would generally be rural and not prime candidates for independent cable television operations. The standard also would be convenient to administer.

e. *Areas Outside the Top 200 Television Markets.* This standard would exclude the second 100 television markets' 35 mile zones from the definition of rural.

f. *Combined Measure.* We asked comment on any combination of the above. We asked if it would be appropriate to eliminate the rules for those areas outside the specified zones of all major markets where the community size was less than 1500 or where there were fewer than 30 homes per mile.

II. Summary of Pleadings

7. The formal comments filed in this proceeding were received from the cable television industry,⁸ the telephone industry,⁹ government agencies¹⁰ and a

⁸The cable television group consisted of American Cable Television, Inc.; Arizona Cable Television Association, Cablecom-General, Inc., Coaxial Communications, Inc., Essex Communications Corporation, Horizon Communications Corporation, McCaw Communications Companies, Inc., Mid-America Cable TV Association, New England Cable Television Association, North Carolina CATV Association, Tele-Media Corporation, Vision Cable Communications, Inc., Whitney Communications Corporation, and W.W. Communications, Inc. (filing consolidated comments) (Arizona Group); CATV Service, Inc.; Colonial Cablevision of Revere, Inc.; Community Antenna Television Association, Inc.; National Cable Television Association, Inc. (NCTA); New York State Cable Television Association; Palmer Communications, Inc.; Multimedia Cablevision, Inc., and Nor Cal Cablevision, Inc. (filing consolidated comments); Storer Broadcasting Company; Tele-Communications, Inc.; Teleprompter Corporation; and Times Mirror Cable Television, Inc.

⁹The telephone company group consisted of Ardmore Telephone Company, Inc. (Ardmore); Continental Telephone Companies (Continental); GTE Service Corporation and its affiliated domestic telephone companies (GTE); Missouri Telephone Company, North-West Telephone Company, and Platteville Telephone Company (filing consolidated comments) (Missouri Group); National REA Telephone Association (NREATA); National Telephone Cooperative Association (NCTA); Organization for the Protection and Advancement of Small Telephone Companies (OPASTCO); Telephone and Data Systems, Inc. (TDS); United States Independent Telephone Association (USITA); and United Telephone Systems, Inc. (UTS).

¹⁰This group was made up of the New York Public Service Commission (NYPS), the Rural

not-for-profit organization unaffiliated with either industry (the National Citizens Committee for Broadcasting (NCCB)).

8. The cable television group, except for CATV Service, Inc., unanimously rejected the proposed exemption from the telephone company-cable television cross-ownership rules. Their arguments consisted for the most part of a reiteration of the policies underlying the adoption of the cross-ownership rules. For example, they claimed that concerns about control over the media and anticompetitive abuses are still warranted, and that cable is a potential alternative to the telephone local distribution monopoly. Furthermore, they asserted that the waiver procedure has sufficiently reduced the administrative burden caused by the rules, and that the Commission's burden is now "more ministerial than substantive." They argued that the relatively few opposed petitions demonstrate that the independent cable industry is as interested as the telephone industry in getting service to rural areas. They also stated that furtherance of the Commission's national communications policies is sufficient reason to overrule local franchising authorities who might prefer the local telephone company to an independent operator, and that the Commission need not worry about frustrating REA policies, because REA's budget has been reduced severely. The comments made little distinction between the application of the rules in rural and nonrural areas. Furthermore, they offered but few suggestions or comments concerning an appropriate definition of "rural area" for purposes of the exemption.

9. Times Mirror Cable Television, Inc., while rejecting the proposed exemption, included an alternative position in its comments. In lieu of the exemption, it proposed that unopposed waiver petitions be granted automatically. However, if an exemption were to be adopted, it suggested that the exemption apply only to areas more than 35 miles from any community which has a licensed television station, so long as the area has a population of less than 1500 or a density of less than 30 households per route mile measured on a franchise area basis. It argued that its alternative to an exemption—the automatic grant of unopposed petitions—would expedite the waiver process and the commencement of cable

Electrification Administration (REA), and the United States Department of Justice (Department of Justice).

television service. Its proposal for a rural definition allegedly reflects the built-up nature of television markets and the threshold levels at which independent cable television service is presumptively unattractive.

10. CATV Service, Inc., limited its comments to whether a waiver should be required for a telephone company to compete with an existing cable television operator at franchise renewal time. It argued in favor of such a waiver requirement. It stated that to permit telephone companies to serve areas where there are operating cable systems would undermine the rationale on which the present cross-ownership restrictions are based.

11. The comments received from the telephone interests were more diverse. GTE, NREATA, Ardmore, and UTS were joined by NYPSC in arguing that the cross-ownership rules should be eliminated for all areas. They reiterated the reasoning in the *NPRM*, *supra* note 1, and professed that it could be applied generally. GTE and UTS did not propose any definition of rural area to be used in the event that the Commission decided against their broader proposal. Ardmore and NREATA suggested exemption of proposed cable television systems with less than 10,000 actual subscribers or 20,000 potential subscribers measured on a headend basis. They claimed that the use of that measure would ensure the provision of cable television service by telephone companies only in areas of insubstantial population.

12. Continental and TDS proposed that rural areas be defined as those areas having less than 30 households per cable route mile measured on a cable television service area basis. This definition was one of those proposed for comments in the *NPRM*, *supra* note 1. They pointed out that this was the density level below which independent cable television operation generally is not viable.

13. Two parties proposed that telephone companies be allowed several alternative definitions under which to claim an exemption. The Missouri Group proposed the following alternatives: (i) Areas having less than 30 households per route mile measured on a service area basis; (ii) areas containing no municipality with a population greater than 10,000; or (iii) areas outside the municipal boundaries of the nation's 100 largest cities. NTCA's alternatives included (i) and (ii) above, and added an exemption for cooperatively-owned telephone companies and an exemption for areas outside of the cities of license of the top 100 television markets. The Missouri Group argued that (ii) is found in the only federal law which authorizes

loans for cable television service, and that it includes most towns and small cities in the telephone service areas of independent telephone companies. It further argued that (iii) was more appropriate than using the top 100 television markets, because those markets bear no relationship to the problems of encouraging cable television service, to the concept of "rural," or to the availability of other cable entertainment and services. NTCA argued for exempting areas outside of the cities of license of the top 100 television markets for the same reason, *i.e.*, that the entire "markets" exclude too large an area.

14. OPASTCO suggested that the entire United States be defined as rural except the cities of license of the top 100 television markets, and adjacent cities with populations exceeding 10,000. It argued that this standard would be easy to administer and would exclude those cities containing licensed full-service television stations.

15. USITA, along with REA, argued for an exemption for all areas that do not include a municipality with a population of over 10,000. Its reasons were similar to those of other parties espousing the same viewpoint. USITA would also exempt areas containing less than 40 households per route mile measured on a service area basis. It proposed this standard based on "current economic conditions and the prospects for the future," stating that a density of 30 households per route mile is no longer realistic.

16. NCCB proposed that an exemption be created for cooperatively-owned telephone companies. It, along with NTCA, argued that cooperative ownership of the media is in the public interest.

17. The Department of Justice noted that in franchise areas containing less than thirty households per cable route mile, independent cable television service is presumably infeasible.¹¹ It requested that the rural exemption apply only to places where independent cable television service is unquestionably infeasible. Although it made no concrete suggestion, the Department of Justice proposed that the definition of rural area be narrower than the 30 households per route mile standard.

18. Reply comments were filed by the Arizona Group, the Missouri Group, NCTA, NTCA, the New England Cable Television Association (filing separately from the Arizona group), OPASTCO, TDS, USITA, UTS, and Teleprompter Corporation. The reply comments

largely reiterated the positions taken in the initial comments.

19. Reply comments also were received from two parties who had not participated in the initial round of filings. Cascade Utilities, Inc., voiced general support for the adoption of a rural exemption. The New York State Commission on Cable Television expressed general disapproval of the creation of a rural exemption. It expressed particular concern that any federal deregulation in the cross-ownership area not preempt the states' right to retain cross-ownership prohibitions.

20. We also received a number of informal comments. Most of these expressed views similar to those expressed in various formal comments. A few, however, suggested an exemption for all independent telephone companies. One suggested an exemption for any telephone company proposing to serve its entire telephone service area, so long as the overall density was less than 10 or 12 households per route mile. These informal comments were brief and usually contained little hard evidence to justify the proposals.

21. Many of the parties also responded to the questions we raised in paragraph 21 of the *NPRM*.¹² The first question asked whether a waiver should be required for a telephone company to compete with an existing independent cable company at franchise renewal time. Cable interests stated that such waivers should be required, while telephone interests, joined by REA and NYPSC, argued against such waivers. Similar responses by those groups were submitted as to whether waivers should be required for telephone company acquisitions of existing independent systems.

22. All parties agreed that divestiture should not be required of a telephone company when a formerly exempt area grows to be nonrural. The cable interests did suggest a requirement that leaseback arrangements be offered. All parties also agreed that cooperatively-owned telephone companies make up only a small number of the independent telephone companies interested in serving rural areas. Furthermore, all parties agreed that cable television service offered by telephone companies should be treated the same as independent cable television service with respect to rules concerning access to the cable, channel capacity, etc.

23. The cable interests feared that the provision of cable services by telephone companies might retard the provision of

¹¹ See note 6, *supra*.

¹² *NPRM*, *supra* note 1, at 342.

nonvoice, nonvideo communications services in rural areas. Conversely, the telephone interests, along with REA and NYPSC, felt that cross-ownership would enhance the possibilities of such services.

24. Finally, the cable interests proffered that REA policies afford the telephone companies a competitive advantage in providing cable television service in rural areas. The telephone interests, REA and NYPSC claimed that REA policies treat everyone equally.

III. Discussion

A. General Considerations and Conclusions

25. Before discussing the merits of the alternatives before us, we believe it would be helpful to outline the reasons that led us to propose an exemption from the cross-ownership rules. The Commission has long been concerned that its rules not deprive rural Americans of cable television service.¹³ Indeed, the waiver mechanism was created for those situations in which the local telephone company or its affiliate might be the only feasible provider of cable television service.¹⁴

26. We revisited the waiver question in a proceeding initiated in 1978.¹⁵ Ultimately, we refined the waiver process¹⁶ to reduce the impediments to the development of rural cable television service caused by the cross-ownership prohibition.¹⁷ In promulgating that refinement,¹⁸ we acknowledged that our waiver procedures may have discouraged the initiation of new rural cable television service by needlessly requiring complicated and expensive presentations by rural telephone

companies.¹⁹ As a result of the easing of the impediments, there has been a marked increase in the number of waiver petitions filed.²⁰ It is our hope that even more service to rural areas will follow the elimination of the rules for those areas.

27. The cost of applying these rules to rural areas has been high. The majority of the waiver petitions we have received for rural areas have been unopposed. In such cases, when it appeared that service would not otherwise be provided, waivers were usually granted. Yet, the filing of these petitions has placed a considerable burden upon both the rural telephone companies and the Commission. Furthermore, service to communities has been delayed, and that is especially unfortunate in the many cases in which a franchise was obtained prior to the filing of the waiver petition.

28. The major benefit supporting the cross-ownership prohibition in 1970 was the preservation of an environment for the unhindered development of wideband services. Eleven years later, the benefit to be gained from continuation of the prohibition in rural areas is, at best, illusory. Our concerns must seem ironic to residents of rural areas without any wideband service.

29. Nor have the general comments submitted by the cable interests demonstrated that the analysis proffered in the *NPRM* was incorrect. While we are aware of the problems that can arise from telephone company provision of cable television service, we find that an exemption for rural areas is important to ensure that such areas have an opportunity to enjoy the same benefits associated with broadband services which urban areas are already experiencing or are more likely to experience sooner. Many small telephone companies, not familiar with our waiver procedures, may be discouraged from implementing broadband services in rural areas by the mere presence of the Commission's prohibition. Furthermore, the expense of acquiring legal, engineering and other assistance to obtain a waiver may be an additional impediment. In a rural area where the profitability of providing broadband services may be slim, these considerations may be real barriers to initiation of new cable service. Moreover, since we have not observed rapid or significant penetration into rural areas by independent cable operators even under the prohibition, we

believe that its costs to the rural public have far exceeded its benefits.²¹

30. Accordingly, we reject the proposals made by the cable television interests that the rules remain intact. We see the more immediate availability of cable television service to rural areas, that an exemption should bring to fruition, as outweighing our earlier expressed concerns supporting the prohibition. Therefore, we will exempt "rural areas" from the telephone company—cable television cross-ownership rules.

31. We similarly believe that proposals to eliminate the cross-ownership rules entirely, or to eliminate their applicability to independent or cooperatively-owned telephone companies, are inappropriate in this proceeding. In the *NPRM*, *supra* note 1, we stated that "the policies our rules are designed to promote no longer outweigh the burdens imposed on rural areas."²² We are not rejecting the policies underlying the cross-ownership rules. We merely find them to be overly costly in rural areas. Complete elimination of the cross-ownership rules is beyond the contemplation of this proceeding.²³ We also reject a blanket exemption for independent or cooperative telephone companies. No evidence has been presented to show that the rationale behind the cross-ownership rules is any less applicable to cooperative telephone companies, or that independents or cooperatives operate only in rural areas. We now turn to the question of what is a rural area.

B. Proposals Based on the Number of Households per Route Mile

32. Although two of the standards we proposed for identifying rural areas were based on population density (the number of households per route mile), further reflection and the comments convince us that such a definition is too difficult to implement. Under an exemption, a telephone company that

¹³ From the inception of the cross-ownership rules, the Commission has sought to ensure that no substantial segment of the public would be without the opportunity of having cable television service. See Notice of Proposed Rulemaking and Notice of Inquiry in the Applications of Telephone Companies for Section 214 Certificates For Channel Facilities Furnished to Affiliated Community Antenna Television Systems, 34 FR 6290, 6292 (1969).

¹⁴ Section 214 Certificates, *supra* note 4, at 326.

¹⁵ Clarification and Notice of Proposed Rulemaking in Revision of the Processing Policies for Waivers of the Telephone Company—Cable Television "Cross Ownership Rules," 69 FCC 2d 1097 (1978) (hereinafter cited as *NPRM in CC 78-219*).

¹⁶ The refinement was the adoption of the rebuttable presumption that independent cable operation is not economically feasible in areas having a density of fewer than thirty households per cable route mile. See § 63.56(b) of the Commission's rules, 47 CFR 63.56(b).

¹⁷ Report and Order in Revision of the Processing Policies for Waiver of the Telephone Company—Cable Television "Cross Ownership Rules," 82 FCC 2d 233 (1979) (hereinafter cited as *Report and Order in CC 78-219*).

¹⁸ Second Reconsideration in *CC 78-219*, *supra* note 6.

¹⁹ *NPRM in CC 78-219*, *supra* note 15, 1113-14.

²⁰ *NPRM*, *supra* note 1, at 338.

²¹ The cable interests also argue that the process is not administratively burdensome to the Commission. However, we anticipate that elimination of the rules in rural areas will permit the reallocation of at least two workyears time annually. Such a reallocation, given the Commission's current budgetary constraints, is not insignificant.

²² *NPRM*, *supra* note 1, at 341.

²³ The Commission's staff has completed a study of all cable television cross-ownership rules. We invite all interested parties to comment on whether the reasons for the telephone company—cable television cross-ownership rules have continued viability or whether other valid reasons exist for the continuation of the prohibition. See Staff Report on FCC Policy on Cable Ownership, released November 17, 1981 (hereinafter cited as *Staff Report*).

decides to provide cable television service to an area defined as rural does so with no need to come before the Commission for a waiver. Therefore, the status of the area as rural must be readily apparent. Unfortunately, household density is not apparent. It requires engineering studies and surveying techniques. Even then, the results are not irrefutable. In our experience with waiver petitions, we have seen a number of disputes as to actual household density. Such uncertainty renders any household density standard administratively impractical, since the exemption must be based on a definition of rural area that is easily identifiable and verifiable.

C. Proposals To Exempt Areas Outside Certain Television Markets

33. Unlike the household density proposals, an exemption granted to areas outside certain television markets would be easy to administer. However, the number and signal strength of the television outlets in an area are not necessarily determinative of whether the area is urban or rural. Those facts may be indicative of other aspects of the area, e.g., size, proximity to major urban centers, and growth trends, which might be relevant to a classification of the area as urban or rural. But many areas not well served by television are not rural areas, and have proved very attractive to independent cable operators. We believe that the standard discussed below gives a more accurate definition of rural—one which is related to size and population density of an area.

D. Proposals To Exempt Areas Which Do Not Contain a Sizeable Community

34. An exemption standard based upon the population in the area has the benefit of being precise and easily enforceable. If we establish that an exemption is warranted for those areas that do not include population centers exceeding a specific size, we could use publicly available census data to determine eligibility. Some commenters suggested that an area should not be considered rural if it contains a community with a population in excess of 1500. We had proposed that figure for comment, since it was utilized by REA. However, several parties pointed out that even truly rural areas can contain towns much larger than 1500.

35. REA argued against making 1500 the standard. It urged the adoption of a community population of 10,000 persons. Although several good reasons were given for adopting that standard, most of the commenters admitted that at populations close to 10,000, independent

cable television service often becomes feasible. We also recognize the Department of Justice's concerns that our exemption only be applicable in areas where independent cable television service is truly infeasible. Therefore, it is our belief that a population figure of 10,000 is too high.

36. We believe the most appropriate and administratively manageable definition of "rural area" is that used by the U.S. Department of Commerce, Bureau of the Census. The Census Bureau began utilizing a rural/urban dichotomy over one hundred years ago.²⁴ It has been refining its definitions ever since.²⁵ The definition of rural is related to the population density and overall size of an area. Our experience shows that this definition adequately describes those areas in which cable operators have been reluctant to initiate service. We, therefore, are adopting an exemption for areas which are defined as rural by the Census Bureau.

37. The Census Bureau defines as rural all areas outside of:

- (a) Places of 2500 inhabitants or more, incorporated or unincorporated;²⁶ and
- (b) Other territory, incorporated or unincorporated, included in urbanized areas.

We want to emphasize that the telephone company's entire cable television service area must be rural in order to qualify for the exemption. The exemption will be inapplicable if the area includes even a portion of a place defined as nonrural in subparagraph (a) or (b) above.²⁷

38. The most easily identifiable determinant leading to classification of an area as "nonrural" is whether it contains any incorporated places having 2500 inhabitants or more. However, a definition of urban territory restricted to such places would exclude a number of large and densely settled places merely because they are not incorporated.

²⁴ See, Statistical Atlas of the United States, 1874.

²⁵ U.S. Department of Commerce, Bureau of the Census, Series P-23, No. 1, The Development of the Urban—Rural Classification in the United States: 1874-1949, Aug. 5, 1949.

²⁶ The first publication in which the population of places having 2500 inhabitants or more was officially designated as urban was the Supplementary Analysis of the Twelfth Census (1900), published in 1906. *Id.* Since that time, the Census Bureau has used this definition with minor modifications. See U.S. Department of Commerce, Bureau of the Census, Number of Inhabitants, 1970, Series PC(1)-A (hereinafter cited as *Number of Inhabitants, 1970*).

²⁷ The Census Bureau has defined some incorporated places of 2500 inhabitants or more as "extended cities." Such cities consist of a rural part and an urban part. The rural part of such "extended cities" will qualify for the exemption from the telephone company—cable television cross-ownership rules.

Therefore, in 1950, the Census Bureau adopted the urbanized area concept and delineated boundaries for unincorporated places.²⁸

39. For purposes of the 1980 census, an urbanized area is composed of an incorporated place and surrounding densely settled areas that together have a combined population of at least 50,000. There is no minimum size for the incorporated place that forms the central city of the area. Areas surrounding the central city are included in the urbanized area only if they are sufficiently densely populated. This population density factor is used so that the physical extent of a city or cities can be clearly delineated.²⁹

40. According to the 1980 census, 26.3 percent of the U.S. population live in rural areas. State population census volumes for 1980 will list the number of inhabitants of each incorporated or unincorporated place and will contain maps and other information relating to each urbanized area. The Census Bureau will release each volume as it is published. In the meantime, such information is available from the Census Bureau by telephone.

41. We expect that only the most recent U.S. Census Bureau statistics will be used in qualifying for the rural exemption. We realize there will be times when all available Census Bureau statistics seem out of date. However, we cannot involve ourselves in determinations as to the accuracy of conflicting statistics. If we were to get involved in these determinations, we would be thwarting one of the reasons for eliminating these areas from the prohibition—elimination of unnecessary delay caused by resolution of issues by this Commission. Therefore, administrative finality requires that statistics from other sources be rejected.

E. Requirement of Waiver for Acquisitions and for Oppositions to Franchise Renewals

42. In rural areas, we have determined that the costs of imposing the cross-ownership rules outweigh their benefits. Those costs include foreclosure or delay of cable television service to rural residents and wasted administrative resources at the Commission. Neither of these costs is substantial in the case of acquisitions, or oppositions to franchise

²⁸ The introduction of the concept of "extended cities" in 1970 has had very little impact on the numbers of areas classified as either urban or rural. *Number of Inhabitants, 1970*, *supra* note 26.

²⁹ U.S. Department of Commerce, Bureau of the Census, Release No. 81-125, Large Increase in Number of Urbanized Areas Shown by Census Figures, July 27, 1981.

renewals. In these instances, an independent cable operator continues to provide service to the community. Furthermore, such waiver petitions have been few. We therefore find that a continuation of the waiver requirement in these situations is not overly burdensome to either the rural areas or the Commission. We will continue to require waivers of telephone companies who propose cable television service in any area where a competing cable television system is under construction or in existence.

F. Other Matters

43. In order to distinguish those telephone company applications which propose cable television service in exempted areas from those which do not, we will require telephone companies to state in their applications for authority under Section 214 of the Act that they are relying upon the rural exemption. We are therefore adding to our rules a new § 63.01(r) that will describe this requirement.

44. We wish to make it clear that any party filing an opposition to a Section 214 application to which the exemption may apply must confine its arguments to issues relevant to whether the "public convenience and necessity" will be served by the applicant's proposal. For example, an opposition may contain current Census Bureau figures showing that an exemption claimed pursuant to § 63.01(r) is inapplicable. However, considering the years that many rural areas have gone without cable service while we have precluded telephone company involvement, we believe it would be inappropriate and counterproductive for us to continue to take into account naked assertions that independent cable television service is feasible in these areas.

45. Telephone companies will still need waivers to provide cable television service within their telephone service areas if any part of the area to be served is not rural. We are retaining our present waiver standards for this purpose. A telephone company must show, pursuant to § 63.56, that service otherwise would not exist or, alternatively, that other good cause warrants waiver. Telephone companies will continue to enjoy a rebuttable evidentiary presumption that service would not otherwise exist where the proposed cable television service area has fewer than 30 households per cable route mile. This standard is based on our findings in the *Report and Order in CC 78-219*, *supra* note 17, that cable television systems generally are not profitable when density is below that level. Unaffiliated cable television

systems may, of course, rebut the presumption by demonstrating an intent to offer essentially the same service as proposed by the telephone company within the same time frame.

46. The exemption will relieve petitioners, the Commission and the public of the costs and burdens associated with the waiver process where the benefits of the process are least apparent—in rural areas. Permitting telephone companies located outside these areas to continue to seek waiver under our present standards will provide a means by which to evaluate the public interest aspects of individual situations on a case-by-case basis. Moreover, comments on the *Staff Report, supra* note 23, may indicate that further refinements in our telephone company-cable television cross-ownership rules and policies are necessary. Until that record is compiled, we believe continuing our present policies, with the exemption for rural areas adopted today, is the most administratively sound way of proceeding.

47. It is not our intention to preempt the rights of the states to adopt cross-ownership prohibitions as they see fit. In this proceeding, we do not reject the policies underlying the cross-ownership rules. We merely wish to eliminate any barriers to rural cable television service stemming from our rules. Therefore, state and local officials may continue to assess the effects of cross-ownership within their jurisdictions, and may make any rules or judgments that seem appropriate to them. Thus, our action in no way affects local requirements that the telephone company first obtain a cable television franchise.

48. We want to assure any telephone companies contemplating service to rural areas that divestiture will not be required solely because an area becomes nonrural at some future time. Also, any telephone company providing cable television service must comply with the same Commission rules with which independent cable television operators must comply. *See* Parts 76 and 78 of the Commission's rules, 47 CFR Parts 76 and 78.

49. Finally, a number of petitions for waiver are pending. Review of several of these petitions reveals that in many situations waivers will no longer be necessary. On or before the effective date of this order, the staff will notify parties to those waiver petitions of the determination that the telephone company's proposed cable television service area is rural. Those parties will then have 10 working days from the effective date of this order to rebut that

determination with recent census data that shows the area is not rural. Absent that showing, those waiver petitions will be dismissed and the requirement of the new § 63.01(r) will be waived to facilitate processing of the corresponding Section 214 applications.

50. In light of the above, any delay in the effectiveness of this order would be contrary to the public interest. Accordingly, pursuant to Section 553(d)(1) and (3) of the Administrative Procedure Act, 5 U.S.C. 553 (d)(1) and (3), the new rules will be effective December 3, 1981.

Ordering Clauses

51. Accordingly, it is ordered that, pursuant to Sections 2, 3, 4 (i) and (j), 205, 214, 303, 307, 308, 309, and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 152, 153, 154(i) and (j), 205, 214, 303, 307, 308, 309, and 403, Part 63 of the Commission's rules is amended as set forth in the attached Appendix below, effective December 3, 1981.

52. It is further ordered that, parties who receive the notification outlined in paragraph 49 above, may file, within 10 working days after the effective date of this order, any response thereto.

(Sec. 2, 3, 4, 5, 301, 303, 307, 308, 309, 315, 317, 48 Stat., as amended, 1064, 1065, 1066, 1068, 1081, 1082, 1083, 1084, 1085, 1088, 1089; (47 U.S.C. 152, 153, 154, 155, 301, 303, 307, 308, 309, 315, 317))

Federal Communications Commission.
William J. Tricarico,
Secretary.

Appendix

PART 63—EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS

Part 63 of Chapter I of Title 47 of the Code of Federal Regulations is amended as set forth below.

1. By adding a new paragraph (r) to § 63.01 to read as follows:

§ 63.01 Contents of applications.

* * * * *

(r) A statement as to whether the applicant is relying upon the exemption found in § 63.58, if the proposed facilities are to be used to provide a communication service prohibited by § 63.54.

2. By adding a new § 63.58 to Part 63 to read as follows:

§ 63.58 Exemption.

(a) A telephone common carrier shall be exempt from the provisions of §§ 63.54–63.56 if no cable television system is under construction or in

existence within the proposed cable television service area, and that area contains none of the following:

- (1) Any incorporated place of 2,500 inhabitants or more, or any part thereof;
- (2) Any unincorporated place of 2,500 inhabitants or more, or any part thereof; or

- (3) Any other territory, incorporated or unincorporated, included in an urbanized area.

(b) All population statistics and definitions used in qualifying for this exemption shall be the most recent available from the U.S. Department of Commerce, Bureau of the Census. In no event shall any statistics resulting from censuses prior to 1980 be used.

Note.—The Census Bureau has defined some incorporated places of 2,500 inhabitants or more as "extended cities." Such cities consist of an urban part and a rural part. If the proposed cable television service area includes a rural part of an extended city, but otherwise includes no territory described in paragraphs (a) (1), (2), or (3) of this section, the exemption shall apply.

Concurring Statement of Commissioner Joseph R. Fogarty

In Re: Elimination of the Telephone Company-Cable Television Cross-Ownership Rules, §§ 63.54-63.56, for Rural Areas.

I have repeatedly called for a complete exemption from the cable/telco cross-ownership prohibition for rural areas of the United States,¹ and I am therefore pleased to have this *Report and Order* approved by the Commission. Cable service that could have been provided to rural America by telephone companies has been too long denied in favor of protecting a vague future possibility of service from independent operators. As this decision so correctly emphasizes:

(C) Considering the years that many rural areas have gone without cable service while we have precluded telephone company involvement, we believe it would be inappropriate and counterproductive for us to continue to take into account naked assertions that independent cable television service is feasible in these areas.

I do question, however, the assertion in this *Report and Order* that there is no

evidence indicating that the rationale of the cross-ownership prohibition is any less applicable to telephone cooperatives. The existing cross-ownership prohibition is heavily predicated on the spectre of cross-subsidization between basic telephone service and cable television service. In the context of a telephone cooperative—where the subscribers are also the owners—it is either ludicrously mindless or diabolically paternalistic to worry about any "danger" of cross-subsidy. I note that the Commission will soon have the opportunity to address this matter, as well as the issue of whether the cable/telco cross-ownership prohibition should be completely rescinded, in considering the Office of Plans & Policy Staff Report on cable television ownership issues and public comment thereon.

[BC Docket No. 81-154; RM-3692]

FM Broadcast Station in Ansley, Alabama; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein denies a petition to assign FM Channel 261A to Ansley, Alabama, in response to a petition from Reid Spann. Petitioner failed to establish community status for Ansley.

DATES: Effective: Non-Applicable.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order

(Proceeding Terminated)

Adopted: November 16, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division:

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Ansley, Alabama) BC Docket No. 81-154 RM-3692.

1. The Commission has before it for consideration a *Notice of Proposed Rule Making*, 46 Fed. Reg. 17809, published March 20, 1981, proposing the assignment of FM Channel 261A to Ansley, Alabama, as its first FM

allocation, in response to a petition filed by Reid Spann ("petitioner"). Comments in opposition were filed by Tulton Broadcasting Company ("TBC"), licensee of FM broadcast Station WTUN, Selma, Alabama, to which the petitioner responded.

2. The *Notice* indicated that the Commission was prepared to consider assigning Channel 216A to Ansley, Alabama, as its first FM assignment, contingent upon the petitioner's submission of economic and demographic information to demonstrate that Ansley is a community for assignment purposes. His petition asserted that Ansley's population consists of approximately 600 persons, 30% of which are Black, and that the nucleus of its social and entertainment activities is provided by the nearby communities of Troy and Montgomery. Further, petitioner stated that Ansley is in need of a station that will relate to its needs, although it is dependent on the support of larger cities. Petitioner was therefore requested to submit a recent population estimate for Ansley, and furnish additional data to demonstrate the need for the proposed FM assignment. Additionally, petitioner was requested to make a showing of his present intent to apply for the channel, if assigned.

3. Ansley (not listed in the U.S. Census), is located approximately 50 kilometers (35 miles) south of Montgomery, Alabama. It currently has no local aural broadcast service.

4. In its opposition, TBC challenges petitioner's showing of Ansley as a community for assignment purposes. It cites such factors as petitioner's admission of dependence on the nearby urban areas of Troy and Montgomery as the focal points of Ansley's employment and social activities, as precluding a finding of an independent and distinct community, citing *Musical Heights*, 19 RR 49, 50 (1959). Further, it disputes petitioner's allegation that Ansley has a population of approximately 600 persons. TBC states that not only is Ansley not listed in the U.S. Census Reports, but neither is it attributed any population by state or local sources. It adds that Ansley does not appear on the 1980 Alabama road map, and has no identifiable boundaries. Further, it claims that according to Rand-McNally 1980 (p. 564), Ansley has a population of 50 persons. It also points out the total absence of a business district, as precluding the attainment of community status, citing *Musical Heights*, *supra*, and *Risner Broadcasting, Inc.*, 20 FCC 2d 790 at 791 (1969). Also, TBC alleges that it was unable to locate any social

¹ *Revision of Processing Policies for Waivers of Telephone Company-Cable Television "Cross-Ownership Rules," On Reconsideration*, Separate Statement of Commissioner Joseph R. Fogarty, 82 FCC 2d 266 (1980); *Sugar Land Telephone Company*, Concurring Statement of Commissioner Joseph R. Fogarty, 76 FCC 2d 237 (1980); *Elimination of the Telephone Company-Cable Television Cross-Ownership Rules for Rural Areas, Notice of Proposed Rule Making*, Separate Statement of Commissioner Joseph R. Fogarty, 84 FCC 2d 344 (1980); *Concord Telephone Exchange, Inc.*, Concurring Statement of Commissioner Joseph R. Fogarty, 78 FCC 2d 683 (1980).

organizations in Ansley, which is another recognized community component, as established in such cases as *Naples, Florida*, 41 RR 2d 1549 at 1553 (1977), *Hymen Lake*, 22 RR 2d 1553 (1974), *Mercer Broadcasting Co.*, 13 RR 891 at 909 (1957), and *Coker, Alabama*, 43 RR 2d 190 at 193 (1978). It notes also that Ansley does not have an individual telephone exchange or post office, but that these services are provided to it by the nearby community of Troy.

5. As a final matter, TBC contends that an assignment to Ansley will cause objectionable interference to the secondary services of nearby co-channel stations. The distance between the proposed Ansley site 7 kilometers (4.4 miles) northwest of the community and WTUN is approximately 66 miles, whereas 65 miles is required for co-channel Class A assignments. It recognizes that the Commission does not protect such co-channel stations beyond the normally predicted 1 mV/m contour. However, it states that the Commission plainly acknowledges secondary service (§ 73.315(b)) which, in the absence of interference, will provide a listenable signal to rural areas. It states that an Ansley assignment would curtail service to a significant portion of such a rural area. TBC is correct in stating that the Commission does not protect a station's "secondary service," and, in any event, because of our disposition herein, this will not be discussed further.

6. In his reply comments, in response to the *Notice*, petitioner merely states that even though the Census does not reflect population data for Ansley, that it does have a population, albeit small. He adds that "[a]ccording to the residents . . . the Ansley area is a community, consisting of Ansley, Shell Horn and Shady Grove." And that "[o]ne resident . . . thought the community consisted of over 500 persons." (emphasis added) As to the area's business concerns, petitioner states that four (unidentified) businesses serve the residents with goods and services and that automotive services, supplies and groceries are available from two identified groceries, both of which it states are within five miles of each other in the "general community."

7. After a careful review and consideration of the comments, we do not find that petitioner has submitted sufficient information in response to our *Notice* to establish that Ansley, Alabama, qualifies as a community for assignment purposes. We are not inferring that Ansley could not be identified as a community, but merely that based upon the information

submitted by petitioner, a sufficient showing has not been made to establish it as such under the Commission's criteria. Petitioner has not demonstrated that Ansley contains any of the components which are considered in determining community status, such as banks, post office, library, schools, shopping centers, churches, social and/or civic organizations, newspapers, or other indicia. As the Commission has consistently held, ". . . the term community means a specific locality, with defined boundaries, where the residents share common interests." See, *Naples, Florida*, *supra*. And, as we held in *Coker, Alabama*, *supra*, absent other evidence ". . . which demonstrates that the [local] businesses, organizations or services meet the needs of a recognizable group with common interests," we will not make an FM assignment.

8. In view of the above, it is ordered, That the petition of Reid Spann, requesting the assignment of Channel 261A to Ansley, Alabama, is denied.

9. It is further ordered, That this proceeding is terminated.

10. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

[BC Docket No. 81-405; RM-3775]

FM Broadcast Stations In St. Johns, Arizona; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns Class C FM Channel 239 to St. Johns, Arizona, in response to a petition filed by Plateau Communications, Inc. The assignment could provide St. Johns with a first local aural service.

DATE: Effective January 4, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: Report and Order

Adopted; November 18, 1981.

Released; November 19, 1981.

By the Acting Chief, Policy and Rules Division:

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (St. Johns, Arizona) BC Docket No. 81-405 RM-3775.

1. The Commission has before it for consideration a *Notice of Proposed Rule Making*, 46 Fed. Reg. 34603, published July 2, 1981, proposing the assignment of Class C FM Channel 239 to St. Johns, Arizona, as that community's first FM allocation, in response to a request filed by Plateau Communications, Inc. ("petitioner"). Supporting comments were filed by the petitioner in which it reaffirmed its intention to apply for the channel, if assigned. No oppositions to the proposal were received.

2. St. Johns (population 3,343),¹ the seat of Apache County (population 52,083), is located approximately 272 kilometers (170 miles) northeast of Phoenix, Arizona. It presently has no local aural service. Channel 239 could be assigned to St. Johns consistent with the minimum distance separation requirements of § 73.207 of the Commission's rules.

3. In supporting comments, petitioner incorporated by reference the information contained in the *Notice* which demonstrated the need for a first FM assignment to St. Johns, Arizona.

4. As stated in the *Notice*, the assignment of Channel 239 to St. Johns will cause preclusion on Channels 236, 237A, 238, 239, 240A, 241, and 242. However, petitioner stated that alternate channels are available to those precluded communities which contain a population in excess of 1,000.

5. In view of the above, we believe that the public interest would be served by the assignment of Channel 239 to St. Johns, Arizona. An interest has been shown for its use and such an assignment could provide the community with a first local aural broadcast service, as well as render service to surrounding areas and populations.²

6. Mexican concurrence in the assignment has been obtained.

¹Population figures are extracted from the 1980 U.S. Census.

²In our *Notice*, we pointed out that when a community of St. Johns size requests a Class C assignment, a *Roanoke Rapids/Anamosa* showing is required. However, since it appeared that a Class C assignment to St. Johns would provide a substantial first and/or second service based on its isolated location, we waived the necessity for such a study.

7. In view of the foregoing and pursuant to the authority contained in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules, IT IS ORDERED, That effective January 4, 1982, the FM Table of Assignments, § 73.202(b) of the Commission's rules, is amended with respect to St. Johns, Arizona, as follows:

City	Channel No.
St. Johns, Ariz	239

8. It is further ordered, That this proceeding is terminated.

9. For further information concerning the above, contact, Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 303, 48 stat., as amended, 1068, 1082; 47 U.S.C. 154, 303.)

47 CFR Part 73

[BC Docket No. 81-322; RM-3722 and RM-3935]

FM Broadcast Station Coxsackie and Rotterdam, New York; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns FM Channel 252A to Rotterdam, New York, in response to a proposal filed by John D. Flanders. The assignment would provide Rotterdam with a first local aural broadcast service. It also denies the request of Catskill Communications, Inc. to assign the same channel to Coxsackie, New York, as that community's first local aural broadcast service.

DATE: Effective January 4, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Report and Order

Adopted: November 16, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division:

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Coxsackie and Rotterdam,¹ New York) BC Docket No. 81-322, RM-3722, RM-3935.

1. On May 1, 1981, the Commission issued a *Notice of Proposed Rule Making*, 46 Fed. Reg. 26513, published May 13, 1981, in RM-3722, proposing the assignment of FM Channel 252A to Coxsackie, New York, as that community's first local aural service, in response to a petition filed by Catskill Communications, Inc. ("petitioner").² In response to our *Notice*, comments and a counterproposal were filed by John D. Flanders ("Flanders")³ seeking assignment of Channel 252A to Rotterdam, New York, as that community's first local aural service, to which petitioner responded. Reply comments were filed by both proponents.⁴ Appended to the petitioner's comments were letters from several of Coxsackie's community leaders in support of the proposal.

2. Since the distance between Coxsackie and Rotterdam is approximately 46 kilometers (29 miles), whereas the required mileage separation for co-channel Class A assignments is 104 kilometers (65 miles), the proposals are mutually exclusive. No other channels are available for assignment to either community.

3. Coxsackie (population 2,786),⁵ in Greene County (population 40,861), is located approximately 32 kilometers (20 miles) south of Albany, New York. It currently has no local aural broadcast service. In the *Notice*, we set forth information submitted by petitioner which we believed merited exploration of the need for a first FM assignment to the community.

4. Rotterdam (population 29,451), in Schenectady County (population 149,946), is located approximately 18 kilometers (11 miles) northwest of Albany, New York. This community, like Coxsackie, is devoid of any local aural service, nor does it have any local newspaper available to its residents.

¹ This community has been added to the caption.

² Petitioner is the licensee of Station WCKL (AM), Catskill, New York.

³ Public Notice of the petition was given July 17, 1981, Report No. 1239.

⁴ The reply of petitioner was filed late and petitioner requested that the pleading be accepted on that basis. We have considered the pleading herein since it would aid us in making a comparative determination of the merits of assigning the channel to Coxsackie as requested. Flanders also submitted a reply to petitioner's reply comments. However, the Commission's procedures do not contemplate such a filing (see § 1.415 of the Commission's rules) and we do not find sufficient justification to give consideration to that filing.

⁵ All population figures herein are extracted from the 1980 U.S. Census.

5. In support of its proposal, Flanders states that Rotterdam has its own government unit, schools, civic organizations, churches, and retail outlets. It adds that the principal economy of the community is derived from industrial and retail elements, as well as truck farming. Further, it states that a portion of the General Electric Company complex is located within its town boundaries. Channel 252A could be assigned to Rotterdam in compliance with the minimum distance separation requirements of § 73.207 of the Commission's rules.

6. Flanders states in its comments that neither assignment will provide any first or second service, and that both proposals would have only slight preclusive effects. It adds that each community is served by fulltime AM Station WGY, Schenectady, New York, as well as the following six commercial FM stations:

Coxsackie	Rotterdam
WGNA (Albany)	WGNA (Albany)
WPYX (Albany)	WPYX (Albany)
WROW-FM (Albany)	WROW-FM (Albany)
WGFM (Schenectady)	WWOM (Albany)
WFLY (Troy)	WGFM (Schenectady)
WHUC-FM (Hudson)	WFLY (Troy)

7. Flanders urges the Commission to consider its suggestion that Channel 272A be assigned to Saugerties, New York, in an attempt to satisfy petitioner's request for a Class A assignment to its proposed service area. It states that the terrain in that area is such as to permit 1 mV/m service to the Catskill area as well as Coxsackie. We do not have a commitment from any party that the channel would be utilized in Saugerties but would entertain such a request, if properly made.

8. Petitioner did not file supporting comments reaffirming its intention to apply for the channel if assigned to Coxsackie. However, the Commission does not have reason to believe otherwise since its late-filed reply pleading implies its continuing interest, although such is not clearly stated. In any event, this factor is not controlling in our determination of the community to be preferred for assignment purposes.

9. Our finding herein rests solely on satisfying one of the most important assignment priorities, which is to provide a first FM service to as much of the population of the United States as possible. Each proposal would provide a first local service but, in keeping with our assignment priorities, Rotterdam must be preferred since it is significantly more populous. See, *Theodore and Chickasaw, Alabama*, 39 RR 2d 412 (Broadcast Bureau, 1976).

10. The assignment of Channel 252A is made to Rotterdam consistent with the minimum distance separation requirements of § 73.207 of the Commission's rules. Canadian concurrence in the assignment has been obtained.

11. In view of the foregoing and pursuant to authority contained in Sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules, it is ordered, That effective January 4, 1982, the FM Table of Assignments, § 73.202(b) of the Commission's rules, is amended, as follows:

City	Channel No.
Rotterdam, NY	252A

12. It is further ordered, That the petition of Catskill Communications, Inc. (RM-3722), proposing the assignment of FM Channel 252A to Cossackie, New York, is hereby denied.

13. It is further ordered, That this proceeding is terminated.

14. For further information concerning the above, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

[BC Docket No. 81-401; RM-3733]

FM Broadcast Station in Midland, Texas; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns FM Channel 294 to Midland, Texas, in response to a petition filed by Stephen L. Wood and D. Lloyd Henderson. The assigned channel could provide a fourth FM service to Midland.

DATE: Effective January 4, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION: Report and order

Adopted: November 16, 1981.

Released: November 19, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Midland, Texas) BC docket No. 81-401, RM-3733.

1. The Commission has under consideration a *Notice of Proposed Rule Making*, 46 Fed. Reg. 35133, published July 7, 1981, proposing the assignment of Class C FM Channel 294 to Midland, Texas, as that community's fourth FM assignment in response to a request from Stephen L. Wood and D. Lloyd Henderson ("petitioners"). Comments in support of the proposal were filed by Albert C. Hajny, by Richard L. and Ladona L. Moore, and by the petitioners, each stating their intent to apply for the channel; if assigned.

2. Midland (population 70,525),¹ seat of Midland County (population 82,636) is located approximately 496 kilometers (310 miles) west-southwest of Dallas, Texas. It is served locally by one fulltime AM station, three daytime-only AM stations, and three FM stations.

3. In its comments, the petitioners incorporated by reference the information contained in the *Notice* demonstrating the need for a fourth FM assignment.

4. As stated in the *Notice*, the proposed assignment would provide no new first or second service to Midland. The petitioners have stated that alternate channels are available to the communities precluded by the assignment. Since alternate channels are available to the communities precluded by the assignment, we consider the preclusion impact minimal. On the basis of the interest expressed and the apparent need for a fourth FM station at this growing community, we find the proposal justified. The transmitter site is restricted to 11.2 kilometers (7 miles) southeast of the city, to avoid short spacing to Channel 296A, Jal, New Mexico.

5. Mexican concurrence has been obtained in the assignment of Channel 294 to Midland, Texas.

6. Accordingly, pursuant to authority contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules, it is ordered, That effective January 4, 1982, the FM Table of Assignments, § 73.202(b) of the rules,

¹ Population figures are taken from the 1970 U.S. Census.

is amended with respect to the community listed below:

City	Channel No.
Midland, Texas	222, 227, 277, 294

7. It is further ordered, That this proceeding is terminated.

8. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

Talk-Around in Private Land Mobile Radio Services on Shared Channels Above Certain Frequency

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The FCC adopts revisions to its rules which permit "talk-around" on a primary basis in the private land mobile radio services on conventional and trunked channels above 806 MHz thereby allowing mobile-to-mobile intercommunication in areas in which it is difficult or unnecessary to access the mobile relay station.

DATE: Effective December 30, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Lewis H. Goldman, Private Radio Bureau, (202) 632-6497.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of the Commission's rules and regulations to permit Talk-around in the private land mobile radio services on shared channels above 806 MHz, Report and Order.

Adopted: November 12, 1981.

Released: November 27, 1981.

1. We initiated this proceeding on March 26, 1981, in response to a petition from the Special Industrial Radio Service Association Inc. (SIRSA),¹

¹ SIRSA's August 18, 1980 petition (RM-3742) was subsequently supported, prior to any Commission action, in comments received from the Central

Continued

which sought the institution of rule making looking towards an amendment of Subpart M of Part 90 of our rules to permit mobile stations operating in the private land mobile radio services on shared conventional channels above 806 MHz to transmit mobile-to-mobile by employing the assigned paired base station frequency, thereby avoiding the associated mobile relay or "repeater" station.² This change would permit mobile units to talk directly to each other in situations when they had no need to talk through the mobile relay or where this was not feasible (at the fringes of the mobile relay's signal or in hilly terrain).

2. By way of explanation, channels in the 800 MHz band are assigned in pairs, as is also the case in the 450-470 MHz and 470-512 MHz bands. Ordinarily mobile units and control stations transmit on frequency A and receive on frequency B; base stations transmit on frequency B and receive on frequency A. In the 800 MHz band this channel pair operation is prescribed by 47 CFR 90.365(a)(3).

3. In a mobile relay system, the relay is the base station. Hence, all communications between mobile units or between a mobile unit and a control station must ordinarily go through the mobile relay (commonly known as the "repeater"), because the only frequency the mobile or control station can receive is the repeater transmit frequency. The operating technique termed "talk-around" permits a mobile unit in a paired frequency operation to communicate with another mobile unit without going through the mobile relay. This is accomplished by the mobile unit using the base or mobile relay channel to transmit. (We noted in the *Notice* initiating this proceeding that although talk around capability primarily benefits users of mobile relay systems, it can also be employed in two-frequency simplex systems.)³

Committee on Telecommunications of the American Petroleum Institute, the Manufacturers Radio Advisory Committee, Forest Industries Telecommunications, and Motorola, Inc. SIRSA and the National Association of Business and Educational Radio, Inc., filed supporting reply comments.

² The proceeding was commenced by *Notice of Proposed Rule Making, PR Docket No. 81-215*, (FCC 81-120), adopted March 26, 1981, released April 9, 1981, 46 FR 22624, April 20, 1981.

³ Two frequency simplex is a system where the mobile transmits on one frequency and the base on a different frequency; neither the base nor the mobiles may both transmit and receive simultaneously because each station's receiver is muted when its associated transmitter is activated. This is contrasted to two frequency duplex, where either the base or mobile, or both, may transmit and receive simultaneously.

4. In proposing to amend the rules to permit talk-around, we explained that under existing rules talk-around is permitted below 806 MHz.⁴ With respect to the 800 MHz band, however, an implicit prohibition of this mode is contained in 47 CFR 90.365(a)(3). In contrast, 47 CFR 90.385(c) permits—again by implication—the employment of talk-around where a licensee has exclusive use of an 800 MHz conventional channel pair. The purpose of the restriction upon talk-around in the case of shared systems was to permit the other sharing users of the same frequency pair to operate free from mobile station interference.⁵

5. We commenced this proceeding because SIRSA and the parties supporting its petition expressed confidence that talk-around at 800 MHz would not create a significant interference problem for sharing users of the co-channel base frequency while providing concomitant benefits to licensees needing mobile-to-mobile communications in situations where use of the repeater would not be feasible or desirable.⁶

6. However, our *Notice* differed from that which was sought in the SIRSA petition in two respects. First, we proposed to authorize talk-around above 806 MHz only on a secondary basis to the usual mobile relay mode of operation. In addition, we invited comments on whether talk-around should be authorized on trunked frequencies, a point not raised by SIRSA or any other party which supported its petition. We asked whether special problems might be encountered in trunked operations.

7. Comments were received from Charley Murray, Inc. (Murray), the Central Committee on Telecommunications of the American Petroleum Institute (API), the Manufacturers Radio Frequency Advisory Committee (MRFAC), Motorola, Inc., the National Association of Business and Educational Radio, Inc. (NABER), as well as SIRSA, the original petitioner. These parties, most of whom also commented in favor SIRSA's initial rule making submission, are unanimous in support of talk-around at 800 MHz. However, none support limiting talk-around to a secondary use. Talk-around on trunked facilities also meets with

approval from all who address that point.

8. Murray, an equipment hauling firm, noted that it is often outside or on the edge of repeater range. Murray urges adoption of talk-around at 800 MHz. NABER reiterates its earlier firm support of 800 MHz band talk-around, but criticizes our proposal to authorize it only on a secondary basis. Pointing out that neither SIRSA nor any other interested party supported secondary use, NABER contends that there is no record to justify that limitation.

9. API's experience with talk-around, it asserts, does not support the secondary use restriction. Moreover, API states, there is no reason to preclude talk-around on trunked facilities, even if currently available trunked equipment does not have that capability. We should allow it now, API reasons, so that it may be implemented as soon as suitable trunked equipment is on the market. SIRSA, the original petitioner, notes that talk-around is not relegated to secondary status below 512 MHz, and the petitioner finds no rationale offered by us to support that limitation. SIRSA also approves of talk-around on trunked systems barring any serious engineering considerations. MRFAC, while not addressing the issue of secondary use, believes that talk-around on trunked facilities should be encouraged unless technical difficulties are foreseen.

10. Motorola, the only equipment manufacturer to comment, strongly opposes secondary use, saying it is unaware of interference complaints arising from talk-around operation in the lower frequency bands. It takes note of the Commission's occasional grant of waivers to permit talk-around at 800 MHz. Those given waivers, Motorola stresses, have been authorized operation on a primary basis. It would make no sense, Motorola submits, to accord waiver recipients primary status while those using talk-around pursuant to a rule amendment permitting it must do so on a secondary basis. The latter would be justifiable, Motorola contends, only where there is demonstrable evidence of or a legitimate question concerning interference. Motorola does support its use on trunked systems. It is technically feasible, Motorola says, and it will not precipitate co-channel interference problems. Many potential talk-around users, e.g., construction crews and quarry workers, now use 800 MHz trunked facilities, and these types of operations, Motorola asserts, are good candidates for talk-around operation.

⁴ Talk-around is explicitly authorized in the 350-470 MHz and 450-512 MHz bands, 47 CFR 90.173(f), and has been permitted as a matter of administrative policy in the bands below 450 MHz.

⁵ See *Land Mobile Service, Docket No. 18262, Memorandum Opinion and Order*, 51 FCC 2d 945, 981 (1975).

⁶ See *Notice of Proposed Rule Making, PR Docket No. 81-215*, f.n. 2, *supra*, at paras. 4-5.

11. We have carefully considered all of the comments and are persuaded not only that talk-around on shared channels above 806 MHz should be authorized, but that we should permit its use on a primary basis with both conventional and trunked shared facilities, so that when trunked equipment which can be employed in the talk-around mode becomes available, its use need not await further rule making proceedings. There have been no allegations that primary operation in the talk-around mode, whether on conventional or trunked shared channel pairs, would create a significant interference hazard or present any other problems. We have already noted, in issuing the *Notice*, that mobile transmissions on the base transmit frequency are unlikely to overpower mobile relay or base transmissions because the maximum effective radiated power of mobile units is normally much less than that of base stations.⁷ The only interference would be to other users operating on the same channel pair in the talk-around mode. Yet talk-around permits mobiles to communicate with each other in areas where it is difficult to access the repeater, e.g., at the fringe of the mobile relay's signal or in hilly terrain. Moreover, because talk-around transmission at a single site eliminates the need to use the repeater, mobile relay congestion will thus be alleviated.

12. For the foregoing reasons, we conclude that authorization of talk-around operation on a primary basis on shared 800 MHz conventional or trunked frequency pairs is in the public interest. Accordingly, pursuant to the authority contained in Sections 4(i) and 303(r) of the Communication Act of 1934, as amended, it is ordered, that effective December 30, 1981, Part 90 of the Commission's rules, 47 CFR Part 90, is amended as set forth in the Appendix.

13. It is further ordered that this proceeding is terminated.

14. It is further ordered that the Secretary of the Commission shall cause this Report and Order to be published in the Federal Register.

15. For further information concerning this document, contact Lewis H. Goldman, Room 5120, Private Radio Bureau, Federal Communications Commission, Washington, D.C. 20554, (202) 632-6497.

(Secs., 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307.)

Federal Communications Commission.

William J. Tricarico,
Secretary.

Appendix

PART 90—PRIVATE LAND MOBILE RADIO SERVICES

Part 90 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

Section 90.365(a) (1)(i) and (a)(3) are revised to read as follows:

§ 90.365 Selection and assignments of frequencies.

(a) * * *

(1) * * *

(i) All Mobile and control station frequencies will be chosen from those allocated in the 806-821 MHz band. Mobile station transmitting frequencies will commence with Channel No. 1 at 820.9875 MHz, followed by Channel No. 2 at 820.9625 MHz, and proceed to the band end with uniform 25 kHz channeling; and base station transmitting frequencies will be selected by the Commission and assigned from those allocated in the 851-866 MHz band, commencing with Channel No. 1 at 865.9875 MHz, followed by Channel No. 2 at 865.9625 MHz, and proceed to the band end with uniform 25 kHz channeling. A mobile station is authorized to transmit on any frequency assigned to its associated base station.

* * * * *

(3) For conventional systems, mobile station transmitting frequencies, as well as those for use by control stations, will be selected from those allocated in the 806-821 MHz band. Mobile and control station transmitting frequencies will commence with Channel No. 1 at 806.0125 MHz, followed by Channel No. 2 at 806.0375 MHz, and proceed to the band end with uniform 25 kHz channeling. Base station transmitting frequencies will be selected and assigned from those allocated in the 851-866 MHz band, with Channel No. 1 commencing at 851.0125 MHz, followed by Channel No. 2 at 851.0375 MHz, and proceed to the band end with uniform 25 kHz channeling. The spacing between associated mobile and base station frequencies shall be, uniformly, 45 MHz. A mobile station is authorized to transmit on any frequency assigned to its associated base station.

BILLING CODE 6712-01-M

DEPARTMENT OF TRANSPORTATION

Research and Special Programs
Administration

49 CFR Parts 172, 173, 175, 176, and 178

[Docket HM-139D; Amdt. Nos. 172-72, 173-151, 175-21, 176-14, and 178-68]

Conversion of Individual Exemptions to Regulations of General Applicability

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT.

ACTION: Final rule.

SUMMARY: This action is being taken to incorporate into the Department's Hazardous Materials Regulations a number of changes based on the data and analyses supplied in selected exemption applications or from existing exemptions. The need for this action has been created by the public demand to make available new packagings and shipping alternatives that have proven themselves safe under the Department's exemptions program. The intended effect of these amendments is to provide wider access to the benefits of transportation innovations recognized and shown to be effective and safe.

EFFECTIVE DATE: These amendments are effective January 4, 1982. However, compliance with the regulations as amended herein is authorized immediately.

FOR FURTHER INFORMATION CONTACT: Darrell L. Raines, Chief, Exemptions and Regulations Termination Branch, Office of Hazardous Materials Regulation, Materials Transportation Bureau, Washington, D.C. 20590 (202-472-2726).

SUPPLEMENTARY INFORMATION: On June 4, 1981 the MTB published Notice No. 81-3 (46 FR 29973) under Docket HM-139D which proposed to amend the Hazardous Materials Regulations by incorporating the provisions of certain DOT exemptions and applications for exemptions into the general regulations. The public comment period ended July 20, 1981. A total of ten comments were received which referenced Docket HM-139D.

Two commenters requested that MTB consider including their exemption(s) into the next HM-139 rulemaking. One commenter requested that the mandatory compliance date for calcium silicon (powder) be at least six months after publication in the Federal Register. As a matter of information, holders of exemptions that are terminated by Docket HM-139 are given approximately six months to deplete their existing

⁷ See 47 CFR § 90.379 (a) and (d).

stock before the exemption number has to be removed from the containers and shipping papers.

One comment received which was undated and unsigned recommended that MTB publish an amended notice so as to include such data as the number of units/carload commodities handled under each of the subject exemptions; the accident experience, if any, under each of the subject exemptions; and the types and characteristics of commodities handled under each of the exemptions. Apparently, this commenter is not familiar with the rulemakings under Docket HM-139. Approximately 300 exemptions have been terminated under HM-139 since November 15, 1976. Any exemption that has a questionable shipping experience is not considered for rulemaking under this docket.

A couple of changes have been made regarding the use of Specification 56 and 57 tanks that were not fully addressed in the notice.

First, for transportation by water in the Specification 57 tanks, frangible devices are not authorized in §§ 173.119(b)(6), 173.128(a)(3), 173.132(a)(2), 173.245(a)(38), 173.256(b)(1), 173.263(a)(8), 173.276(a)(12), and 173.277(c). These changes are necessary in order to provide a package that will not leak during transportation by water. Second, the authorized use of the Specification 56 tank has been expanded to include flammable solids (including water reactive materials) and dry oxidizers. During the past several years commodities such as calcium carbide, sodium nitrate, sodium hydrosulfite, phosphorous pentasulfide, magnesium powder, ammonium perchlorate, and others, have been transported in Specification 56 tanks or nonspecification portable tanks equivalent to Specification 56 tanks under the terms of a DOT exemption without incident. In view of the above, § 173.154 has been revised accordingly.

Other than minor editorial changes, the only other change of any significance is the revision of § 176.340. Because of the change being made in § 173.119, it is necessary to amend § 176.340; otherwise, combustible liquids not having any other hazards would not be allowed in the same portable tanks as authorized for flammable liquids.

In consideration of the foregoing, 49 CFR Parts 172, 173, 175, 176, and 178 are amended as follows:

PART 172—HAZARDOUS MATERIALS TABLE AND HAZARDOUS MATERIALS COMMUNICATIONS REGULATIONS

1. In § 172.101, the Hazardous Materials Table is amended by adding Calcium silicon (powder) and Magnesium, granules, coated. The entry Magnesium metal (*powdered, pellets, turnings, or ribbons*) is revised to read as follows:

§ 172.101 Hazardous materials table.

* * * * *

(1) +I/E/A/W	(2) Hazardous materials descriptions and proper shipping names	(3) Hazard class	(3A) Identification No.	(4) Label(s) required (if not excepted)	(5) Packaging		(6) Maximum net quantity in 1 package (pounds)		(7) Water shipments		
					(a) Excep- tions	(b) Specific require- ments	(a) Pas- senger carry- ing air- craft or railcar	(b) Cargo only air- craft	(a) Cargo ves- sel	(b) Pas- senger vessel	(c) Other requirements
	Calcium-silicon (<i>powder</i>).....	Flammable solid...	UN1406.....	Flammable solid and Dangerous when wet.	173.153	173.178	Forbidden	25	1,2		4 Segregation same as for flammable solids labeled Dangerous when wet.
	Magnesium granules coated, particle size not less than 149 microns.	Flammable solid...	UN2950.....	Flammable solid and Dangerous when wet.	173.153	173.178	25	100	1,2	1,2	Segregation same as for flammable solids labeled Dangerous when wet.
	Magnesium metal (<i>powder, pellets, turnings, or ribbon</i>) or Magnesium aluminum powder.	Flammable solid...	UN1869.....	Flammable solid and Dangerous when wet.	173.153	173.220	25	100	1,2	1,2	Segregation same as for flammable solids labeled Dangerous when wet.

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

2. In § 173.119, paragraph (b)(6) is added to read as follows:

§ 173.119 Flammable liquids not specifically provided for.

* * * * *

(b) * * *

(6) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253-4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig.

Authorized for liquids with flash points above 20° F and a vapor pressure not over 16 psia at 100° F.

* * * * *

3. In § 173.128, paragraph (a)(3) is revised to read as follows:

§ 173.128 Paints and related materials (flammable liquids).

(a) * * *

(3) Specification 52¹ or 57 (§§ 178.251, 178.253 of this subchapter). Metal portable tank. Not authorized for transportation by water except as prescribed in § 173.119(b)(6) of this subchapter.

* * * * *

4. In § 173.131, paragraph (a)(2) is revised to read as follows:

§ 173.131 Road asphalt, or tar, liquid.

(a) * * *

(2) In cargo tanks that are at least equivalent in design and construction to Specification MC-306 (§§ 178.340, 178.341 of this subchapter) except for the requirements of §§ 178.340-10, 178.341-3, 178.341-4, and 178.341-5.

* * * * *

5. In § 173.132, paragraph (a)(2) is revised to read as follows:

§ 173.132 Cement liquid, n.o.s.; container cement; linoleum cement; pyroxylin cement; rubber cement; tile cement; wallboard cement; coating solution (flammable liquids).

(a) * * *

(2) Specification 52¹ or 57 (§§ 178.251, 178.253 of this subchapter). Metal portable tank. Not authorized for transportation by water except as prescribed in § 173.119(b)(6) of this subchapter.

6. In § 173.154, paragraph (a)(5) is added to read as follows:

§ 173.154 Flammable solids, organic peroxide solids and oxidizers not specifically provided for.

(a) ***

(5) Specification 56 (§ 178.252 of this subchapter). Metal portable tank. Authorized only for flammable solids (including water reactive materials) and dry oxidizers.

7. In § 173.164, paragraph (a)(7) is added to read as follows:

§ 173.164 Chromic acid or chromic acid mixture, dry.

(a) ***

(7) Specification 56 (§ 178.252 of this subchapter). Steel portable tank.

8. In § 173.178, the heading and the introductory text of paragraph (a) are revised to read as follows:

§ 173.178 Calcium carbide, calcium silicon powder, and magnesium granules, coated.

(a) Calcium carbide, calcium silicon powder, and magnesium granules, coated must be packed as follows:

9. In § 173.182 the last sentence of paragraph (b)(6)(ii) is revised to read as follows:

§ 173.182 Nitrates.

(b) ***

(6) ***

(i) ***

(ii) *** Authorized only for ammonium nitrate (no organic coating), ammonium nitrate fertilizer, and potassium nitrate; or

10. In § 173.220, the heading and the introductory texts of paragraphs (b) and (b)(2) are revised to read as follows:

§ 173.220 Magnesium or zirconium scrap consisting of borings, clippings, shavings, sheets, turnings, or scalings, and magnesium metallic (other than scrap), powder, pellets, turnings, or ribbon; magnesium aluminum powder.

(b) Magnesium metallic (other than scrap), powder, pellets, turnings or ribbon, magnesium aluminum powder, must be packed in containers as prescribed in § 173.154.

(2) Specification 56 (§ 178.252 of this subchapter). Portable tank. Not authorized for transportation by water. For magnesium powder or magnesium aluminum powder, the following additional requirements must also be met:

11. In § 173.245, paragraph (a)(38) is added to read as follows:

§ 173.245 Corrosive liquids not specifically provided for.

(a) ***

(38) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized only for acetic acid, glacial; acetic acid solutions; compound, cleaning liquid; compound, lacquer, paint, or varnish removing, liquid; compound, rust preventing or compound, rust removing; *orthochlorophenol*; and phosphoric acid not exceeding 85 percent strength. For acid solutions, tanks constructed of a steel other than stainless steel must have a polyethylene liner impervious to the solution. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253-4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig.

12. In § 173.256, paragraph (b) is added to read as follows:

§ 173.256 Compounds, cleaning, liquid.

(b) Compounds, cleaning, liquid containing not more than 20 percent hydrofluoric acid, by weight, may also be shipped in specification containers as follows:

(1) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253-4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig. Tanks must have a polyethylene liner impervious to the solution.

13. In § 173.263, paragraph (a)(8) is added to read as follows:

§ 173.263 Hydrochloric (muriatic) acid; hydrochloric (muriatic) acid mixtures; hydrochloric (muriatic) acid solution, inhibited; sodium chlorite solution (not exceeding 42 percent sodium chlorite); and cleaning compounds, liquids, containing hydrochloric (muriatic) acid.

(a) ***

(8) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized only for cleaning compounds, liquid, containing hydrochloric (muriatic) acid of not over 20 percent total acid by weight. Tank must have a polyethylene liner impervious to the solution. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253-4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig.

14. In § 173.276, paragraph (a)(12) is added to read as follows:

§ 173.276 Anhydrous hydrazine and hydrazine solution.

(a) ***

(12) Specification 57 (§ 178.253 of this subchapter). Stainless steel portable tank. Authorized for hydrazine, aqueous solution only. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253-4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig.

15. In § 173.277, paragraph (c) is added to read as follows:

§ 173.277 Hypochlorite solutions.

(c) Specification 57 (§ 178.253 of this subchapter). Steel portable tank. Authorized for not over 15 percent solutions of sodium hypochlorite only. Authorized for transportation by water when having a minimum design pressure of 9 psig and equipped in accordance with § 178.253-4, except that frangible devices are not authorized. Also, for water transportation, no pressure relief device may open at less than 5 psig. Tanks constructed of a steel other than stainless steel must have a polyethylene liner impervious to the solution. Vented closures are authorized.

16. In § 173.301, paragraph (k) is amended by revising (k) introductory text as follows:

§ 173.301 General requirements for shipment of compressed gases in cylinders.¹

(k) *Outside packagings.* Specification 2P, 2Q, 3E, 3HT, 4BA spherical type, 4D, 4DA, 4DS, 9¹, 39, 40¹, and 41¹ must be shipped in strong outside packagings, except that the 4BA spherical type may

be securely mounted on pallets to provide protection for the spheres and any attachments.

17. In § 173.357, paragraph (b)(3) is revised to read as follows:

§ 173.357 Chloropicrin and chloropicrin mixtures containing no compressed gas or Poison A liquid.

(b) * * *

(3) Specification 17C or 17E (§§ 178.115, 178.116 of this subchapter). Metal drums (single-trip) with openings not over 2.3 inches in diameter. Capacity not to exceed 55 gallons for Spec. 17C nor 30 gallons for Spec. 17E. Authorized only for chloropicrin mixtures containing not over 15 percent chloropicrin by weight or 15 percent by volume chloropicrin, 85 percent by volume dichloropropene technical, and only authorized for such mixtures not classed as flammable under these regulations.

18. In § 173.365, paragraph (a)(11) is added to read as follows:

§ 173.365 Poison B solids not specifically provided for.

(a) * * *

(11) Specification 56 (§ 178.252 of this subchapter). Metal portable tank. Authorized only for *p*-nitrobenzyl bromide.

19. In § 173.375, paragraph (a)(3) is added to read as follows:

§ 173.375 Sodium azide.

(a) * * *

(3) Specification 56 (§ 178.252 of this subchapter). Stainless steel portable tank designed for top loading and unloading only. Tanks may be equipped with a bottom clean out plug. No part of the tank or fittings that come in contact with the sodium azide may contain any metal such as copper, lead, silver or mercury which can form explosive azide compounds. Each transport vehicle must be loaded by the consignor and unloaded by the consignee or by persons trained by the consignor. Not authorized for transportation by water.

20. In § 173.505, paragraph (b) is revised to read as follows:

§ 173.505 Exceptions for Other Regulated Material (ORM).

(b) Strong outside packagings as specified in § 173.1200 of this subchapter are not required for materials classed as ORM-D when unitized in cages, carts, or

similar overpacks and when shipped by a private or contract motor carrier from a distribution center to a retail outlet.

PART 175—CARRIAGE BY AIRCRAFT

21. In § 175.310, paragraph (c)(1) is revised to read as follows:

§ 175.310 Transportation of flammable liquid fuel in small, passenger-carrying aircraft.

(c) * * *

(1) In strong tight metal containers of not more than 5 gallons capacity, each packed inside a DOT Specification 12B fiberboard box or each packed inside a DOT Specification 15A, 15B, 15C, 16A, 19A or 19B wooden box, or in the case of a small aircraft in Alaska, each packed inside a wooden box of at least one-half inch thickness;

PART 176—CARRIAGE BY VESSEL

22. In § 176.340, the entire section is revised to read as follows:

§ 176.340 Combustible liquids in portable tanks.

(a) Combustible liquids may be transported by vessel in portable tanks only as specified below:

(1) Portable tanks authorized in § 173.119 of this subchapter.

(2) Portable tanks approved and maintained in accordance with 46 CFR 98.35, constructed prior to October 1, 1974. Such tanks may continue in service only until October 1, 1984.

(3) Portable tanks approved by the Commandant of the Coast Guard (G-MHM).

PART 178—SHIPPING CONTAINER SPECIFICATIONS

23. In § 178.51, §§ 178.51-2, 178.51-10 ((b) and (c) revised and (d) added), 178.51-12, 178.51-13 (heading and paragraph (a)) and 178.51-19 ((c) revised) are revised to read as follows:

§ 178.51-2 Type, size, and service pressure.

(a) *Type*. Cylinders may be spherical or cylindrical in shape. Closures made by the spinning process are not authorized.

(1) Spherical type cylinders must be made from two seamless hemispheres joined by the welding of one circumferential seam.

(2) Cylindrical type cylinders must be of circumferentially welded or brazed construction.

(b) *Size*. The capacity of the cylinder must be 1,000 pounds water capacity or less.

(c) *Service pressure*. The service

pressure must be at least 225 and not over 500 pounds per square inch gauge.

§ 178.51-10 is amended by revising (b) and (c) and adding (d) to read as follows:

§ 178.51-10 Wall thickness.

(a) * * *

(b) Cylinders that are cylindrical in shape must have the wall stress calculated by the formula:

$$S = [P(1.3D^2 + 0.4d^2)] / (D^2 - d^2)$$

Where:

S=wall stress in pounds per square inch;

P=minimum test pressure prescribed for water jacket test;

D=outside diameter in inches;

d=inside diameter in inches.

(c) Cylinders that are spherical in shape must have the wall stress calculated by the formula:

$$S = PD/4tE$$

Where:

S=wall stress in pounds per square inch;

P=minimum test pressure prescribed for water jacket test;

D=outside diameter in inches;

t=minimum wall thickness in inches;

E=0.85 (provides 85 percent weld efficiency factor which must be applied in the girth weld area and heat affected zones which zone shall extend a distance of 6 times wall thickness from center line of weld);

E=1.0 (for all other areas).

(d) For cylinders with wall thickness less than 0.100 inch, the ratio of tangential length to outside diameter shall not exceed 4.0.

§ 178.51-12 is revised to read as follows:

§ 178.51-12 Openings in cylinders.

(a) Any opening must be placed on other than a cylindrical surface.

(b) Each opening in a spherical type cylinder must be provided with a fitting, boss, or pad of weldable steel securely attached to the container by fusion welding.

(c) Each opening in a cylindrical type cylinder must be provided with a fitting, boss, or pad, securely attached to container by brazing or by welding.

(d) If threads are used, they must comply with the following:

(1) Threads must be clean-cut, even, without checks and tapped to gauge.

(2) Taper threads to be of length not less than as specified for American Standard taper pipe threads.

(3) Straight threads, having at least 4 engaged threads, to have tight fit and calculated shear strength at least 10 times the test pressure of the cylinder; gaskets required; adequate to prevent leakage.

§ 178.51-13 is revised to read as follows:

§ 178.51-13 Pressure relief devices and protection for valves, safety devices, and other connections, if applied.

(a) Must be as required by the Department of Transportation's regulations that apply (see §§ 173.34(d), 173.124(a), 173.301(g), and 173.301(k) of this subchapter).

§ 178.51-19 is amended by revising (c) to read as follows:

§ 178.51-19 Marking.

(c) Location of markings. Markings may be stamped plainly and permanently in the following locations on the cylinder:

(1) On shoulders and top heads not less than 0.087 inch thick.

(2) On side wall adjacent to top head for side walls not less than 0.090 inch thick.

(3) On a cylindrical portion of the shell which extends beyond the recessed bottom of the cylinder constituting an integral and non-pressure part of the cylinder.

(4) On a plate attached to the top of the cylinder or permanent part thereof; sufficient space must be left on the plate to provide for stamping at least six retest dates; the plate must be at least 1/16 inch thick and must be attached by welding, or by brazing at a temperature of at least 1100°F., throughout all edges of the plate.

24. In § 178.118, the introductory text of § 178.118-10(a) introductory text is revised to read as follows:

§ 178.118-10 Marking.

(a) Marking requirements for new or altered drums are as follows: *New drums.* Marking on each drum by embossing on the permanent head, with raised marks, or by embossing or die stamping on footring, (if equipped), or on metal plates securely attached to drum by brazing or welding not less than 20 percent of the perimeter. *Altered drums.* Drums which have been altered to Specification 17H from an all 18-gauge tight head drum may be embossed on the body of the drum, no more than six inches from top curl.

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53, App. A to Part 1).

Note.—The Materials Transportation Bureau has determined that this document will not result in a "major rule" under the terms of E.O. 12291 and is not a significant regulation under DOT's regulatory policy and procedures, (44 FR 11034), nor require an environmental impact statement under the National Environmental Policy Act (49 U.S.C.

4321, et seq.) A regulatory evaluation and an environmental assessment are available for review in the docket. I certify that this final rule will not have a significant economic impact on a substantial number of small entities.

Issued in Washington, D.C. on November 25, 1981.

L. D. Santman,

Director, Materials Transportation Bureau.

BILLING CODE 4910-60-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1033

[S.O. No. 1499]

Chicago and North Western Transportation Company Authorized To Use Tracks and/or Facilities of Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee)

AGENCY: Interstate Commerce Commission.

ACTION: Service Order No. 1499.

SUMMARY: Service Order No. 1499, authorizes Chicago and North Western Transportation Company (CNW) to use tracks and/or facilities of Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee) (MILW). This order permits CNW, under agreement with the Trustee, to operate MILW lines between Jefferson and Herndon, Iowa, as part of a program to provide access to lines under purchase agreement which are in need of refurbishing.

EFFECTIVE DATES: 12:01 a.m., December 1, 1981, and continuing in effect until 11:59 p.m., March 31, 1982, unless modified, amended or vacated by order of this Commission.

FOR FURTHER INFORMATION CONTACT: M. F. Clemens, Jr., (202) 275-7840.

SUPPLEMENTARY INFORMATION:

Decided: November 27, 1981.

Pursuant to section 122 of the Rock Island Transition and Employee Assistance Act, Pub. L. 96-254, the Commission is authorizing the Chicago and North Western Transportation Company (CNW) to provide interim service over Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee), (MILW) and to use such tracks and facilities as are necessary for that operation.

This order permits CNW, under agreement with the Trustee, to operate MILW lines between Jefferson and Herndon, Iowa, as part of a program to provide access to lines under purchase agreement which are in need of

refurbishing. This order is issued separately from Service Order No. 1474 due to the extended period of time agreed to by the Trustee.

It is the opinion of the Commission that an emergency exists requiring that the CNW be authorized to conduct operations, identified in the appendix, using MILW tracks and/or facilities; that notice and public procedure are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered,

§ 1033.1499 Service Order No. 1499.

(a) *Chicago and North Western Transportation Company authorized to use tracks and/or facilities of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor (Richard B. Ogilvie, Trustee).* Chicago and North Western Transportation Company (CNW) is authorized to use tracks and/or facilities of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company (MILW), as listed in Appendix A to this order, to provide interim service over the MILW as agreed to by the Trustee.

(b) The Trustee shall permit the CNW to enter upon the property of the MILW to conduct service essential to these interim operations.

(c) The Trustee will be compensated on terms established between the Trustee and the affected carrier(s); or upon failure of the parties to agree as hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by section 122(a) Pub. L. 96-254.

(d) The interim operator, authorized in Appendix A to this order, shall, within fifteen (15) days of its effective date, notify the Railroad Service Board of the date on which interim operations were commenced or the expected commencement date of those operations.

(e) The interim operator, authorized in Appendix A to this order, shall, within thirty days of commencing operations under authority of this order, notify the MILW Trustee of those facilities they believe are necessary or reasonably related to the authorized operations.

(f) During the period of this operation over the MILW lines, the interim operator shall be responsible for preserving the value of the lines, associated with this interim operation, to the MILW estate, and for performing necessary maintenance to avoid undue deterioration of lines and associated facilities.

(g) Any operational or other difficulty associated with the authorized

operations shall be resolved through agreement between the affected parties or, failing agreement, by the Commission's Railroad Service Board.

(h) Any rehabilitation, operational, or other costs related to the authorized operations shall be the sole responsibility of the interim operator incurring the costs, and shall not in any way be deemed a liability of the United States Government.

(i) *Application.* The provisions of this order shall apply to intrastate, interstate and foreign traffic.

(j) *Rate applicable.* Inasmuch as this operation by an interim operator over tracks previously operated by the MILW is deemed to be due to carrier's disability, the rates applicable to traffic moved over these lines shall be the rates applicable to traffic routed to, from, or via these lines which were formerly in effect on such traffic when routed via MILW, until tariffs naming rates and routes specifically applicable become effective.

(k) In transporting traffic over these lines, the interim operator involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to that traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between the carriers; or upon failure of the carriers to so agree, the divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(l) *Employees*—In providing service under this order the interim operator, to the maximum extent practicable, shall use the employees who normally would have performed work in connection with the traffic moving over the lines subject to this Service Order.

(m) *Effective date.* This order shall become effective at 12:01 a.m., December 1, 1981.

(n) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., March 31, 1982, unless otherwise modified, amended, or vacated by order of this Commission.

(49 U.S.C. 10304-10305 and sec. 122, Pub. L. 96-254)

This order shall be served upon the Association of American Railroads, Transportation Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association. Notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of

the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members John H. O'Brien, William F. Sibbald, Jr. and Ray G. Atherton, Jr. William F. Sibbald, Jr. not participating.
Agatha L. Mergenovich,
Secretary.

Appendix A—MILW Lines Authorized To Be Operated By Interim Operator

1. Chicago and North Western Transportation Company (CNW):

A. Between Jefferson (milepost 67.2) and Herndon (milepost 54.2), Iowa, a distance of approximately 13 miles.

[FR Docket 81-34775 Filed 12-2-81, 8:45 am]

BILLING CODE 7035-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 611

Foreign Fishing

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This action increases the total allowable level of foreign fishing (TALFF) of Pacific whiting in the fishery conservation zone off the Washington, Oregon, and California coasts by releasing the reserve of Pacific whiting for allocation by the Department of State. Regulations require the Regional Director to release any part of the whiting reserve to TALFF in excess of domestic needs as soon after August 1 as practical.

EFFECTIVE DATE: December 2, 1981.

FOR FURTHER INFORMATION CONTACT:

H. A. Larkins, Director, Northwest Region, National Marine Fisheries Service, 7600 Sand Point Way N.E., BIN C15700, Seattle, Washington 98115, 206-527-6150.

SUPPLEMENTARY INFORMATION: On February 10, 1977, a preliminary fishery management plan (PMP) prepared by the Secretary of Commerce was published in the Federal Register (42 FR 8578). The PMP established conservation and management measures for the foreign trawl fisheries of the Washington, Oregon, and California region under authority of Section 201(h) of the Magnuson Fishery Conservation and Management Act (Magnuson Act), 16 U.S.C. 1801 *et seq.* The fourth amendment to the PMP, published in the

Federal Register on May 20, 1981 (46 FR 27483), established an optimum yield of 175,000 metric tons (mt), a domestic annual harvest (DAH) of 80,000 mt, and a total allowable level of foreign fishing (TALFF) of 60,000 mt. Because of uncertainties in stock abundance and DAH, 35,000 mt of the optimum yield were held in reserve until better information could be obtained. Provisions in the fourth amendment required the Regional Director to release to TALFF any part of the whiting reserve and DAH in excess of domestic needs as soon as practical after August 1 if domestic fishery performance and other available data justified such action. A 15-day comment period followed publication of the proposal on September 15, 1981, in 46 FR 45056 to allow for public review of the proposal to release any part of the whiting reserves or DAH. All pertinent statistics were available for public review in the Regional Office during this time. No comments were received on the proposed action.

The Regional Director may supplement TALFF with all part of the Pacific whiting reserve and DAH in excess of domestic needs if, as of July 1:

(1) The results of the spring larval whiting assessment support the optimum yield (OY) estimate; and

(2) The part of the Pacific whiting reserve and DAH to be added to TALFF will not be harvested by domestic vessels during the rest of the fishing year, as determined by U.S. catch and effort statistics compared to previously projected U.S. catch and effort for the rest of the fishing year.

These statistics indicate that, by July 1, the criteria for release of the whiting reserve were met:

(1) The 1981 whiting larvae survey showed no significant changes in spawning biomass, and thereby supports the 1981 estimate of OY; and

(2) The unharvested balance of the initial DAH estimate of 80,000 mt represents domestic needs and intentions for the remainder of 1981.

The inseason survey of shore-based processors reaffirmed the accuracy of the initial domestic annual processing (DAP) estimate of 5,000 mt of whiting. Although one foreign processor (joint venture) ceased processing U.S.-harvested whiting in June, demand from other joint venture participants increased and compensated for this withdrawal. The initial estimate for joint venture processing (JVP) of 75,000 mt remains the same. Consequently, no part of the DAH is available for TALFF and domestic intentions are not to harvest

any part of the whiting reserve of 35,000 mt.

Based on the above information, the Regional Director has determined that the 35,000 mt reserve should be added to TALFF, raising TALFF to 95,000 mt. The DAH (80,000 mt), DAP (5,000 mt), and JVP (75,000 mt) estimates are unchanged.

This action is prescribed by the regulations which implemented Amendment 4 to the PMP. These regulations at 50 CFR 611.70 were determined then to be consistent with the national standards, other provisions of the Magnuson Act and other applicable law; to be non-significant under E.O. 12291; and not to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

This action does not change any existing collection of information requirements, and is in compliance with the Paperwork Reduction Act.

Dated: November 24, 1981.

Robert K. Crowell,
Deputy Executive Director, National Marine
Fisheries Service.

50 CFR Part 611 is amended as follows:

PART 611—FOREIGN FISHING

1. The authority citation for 50 CFR Part 611 reads as follows:

§ 611.20. Total allowable level of foreign fishing.

APPENDIX 1.—OPTIMUM YIELD (OY), ESTIMATED DOMESTIC ANNUAL HARVEST (DAH), ESTIMATED DOMESTIC ANNUAL PROCESSING (DAP), JOINT VENTURE PROCESSING (JVP), DOMESTIC NON-PROCESSED FISH (DNP), RESERVE, AND TOTAL ALLOWABLE LEVEL OF FOREIGN FISHING (TALFF), ALL IN METRIC TONS

Species	Species code	OY	DAH	DAP	JVP	DNP	Reserve	TALFF
5. Northeast Pacific Ocean Fishery: Washington, Oregon and California fisheries.								
Pacific whiting	704	175,000	80,000	5,000	1375,000		0	95,000
Shortbelly rockfish	850	10,000	10,000	7,500	142,500		0	0
Flounders	123	33,400	33,400	33,400	140		0	0
Jack mackerel	203	55,000	55,000	55,000	140		0	0
Rockfishes, excluding Pacific ocean perch	849	43,300	43,300	43,300	140		0	0
Pacific ocean perch	780	1,000	1,000	1,000	140		0	0
Sablefish	703	13,400	13,400	13,400	140		0	0
Other species	453	26,100	26,100	26,100	140		0	0

¹³ Includes 200 mt taken incidentally in shortbelly joint venture.
¹⁴ See § 611.70(b)(1)(i) for incidental catch allowances.

[FR Doc. 81-34520 Filed 12-2-81; 8:45 am]
BILLING CODE 3510-22-M

50 CFR Part 671

Tanner Crab off Alaska; Opening Season Dates

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: The Secretary of Commerce issues a final rule which delays the opening season dates in five districts of Registration Area J for U.S. Tanner crab fishing. Regulations allow the Secretary to adjust opening and closing dates of fishing seasons for the Federal registration areas under certain specified conditions met in this action. The intended effects are to maintain orderly, uniform fisheries management in contiguous State and Federal waters, and to safeguard stock conditions.

EFFECTIVE DATES: December 1, 1981. Public comments are invited until December 16, 1981.

ADDRESSES: Comments may be sent to Robert W. McVey, Director, Alaska

Region, National Marine Fisheries Service, P.O. Box 1668, Juneau, Alaska 99802.

FOR FURTHER INFORMATION CONTACT: Robert W. McVey, 907-586-7221.

SUPPLEMENTARY INFORMATION: Regulations implementing the fishery management plan (FMP) for the Commercial Tanner Crab Fishery Off the Coast of Alaska provide for inseason adjustments to season dates and are a openings and closures. Rules specify in 50 CFR 671.27(b) that these decisions shall be made by the Secretary under criteria set out in that section. The Tanner crab fishery is conducted simultaneously in the fishery conservation zone (FCZ) and contiguous State waters. The Alaska Board of Fisheries altered the opening dates of the 1981-82 Tanner crab fishery in State waters within Registration Area J as follows:

Kodiak—from January 22 to February 10.

South Peninsula—from December 1 to December 15.

Authority: 16 U.S.C. 1821 and 1855.

2. In § 611.20, Appendix I, Entry 5 is revised to read as follows:

Chignik—From November 1 to December 15.

Aleutians—from January 15 to February 15 east of 172° W. longitude. In that part of the Aleutians west of 172° W. longitude the opening date shall remain January 15.

Bering Sea—from January 15 to February 15.

These opening date changes are conservation measures intended to safeguard stock condition by allowing the harvest of crab during the period of their prime physical condition, thereby minimizing handling mortality of female and sublegal male crab which must be returned to the sea and minimizing dead loss of legal male crab which are retained. This rule changes the opening dates of the Tanner crab fishery in the FCZ within Registration Area J to coincide with those of State waters. This action follows consultation with the Alaska Department of Fish and Game and is taken to extend the stock condition safeguards to the FCZ and to provide for a uniform fishing season to

preclude the overharvest of Tanner crab in the FCZ.

Rapid implementation of this rule is in the public interest to prevent conflicts between State and Federal enforcement of the Tanner crab fishery that could occur because of different season opening dates. Under present Federal rules, the first district opening date is November 1, 1981, but the State's first opening date is December 15, 1981. For these reasons, the Secretary finds, under 50 CFR 671.27(b)(4)(i), that there is good cause for not providing opportunity for public comment on this rule prior to its promulgation, and for not allowing the passage of the normal 30-day period before it goes into effect. Therefore, under 50 CFR 671.27(a)(2) and 5 U.S.C. 553 (b)(3) and (d)(3), this rule shall become effective immediately following its filing for publication in the Federal Register and publication for 48 hours through Alaska Department of Fish and Game (ADF&G) procedures.

Under 50 CFR 671.27(b)(4)(iii), public comments on this field order (rule) may be submitted to the Regional Director at the address stated above for 15 days following the effective date. During the 15-day comment period, the data upon which this field order is based will be available for public inspection during business hours (8:00 a.m.-4:30 p.m.) at the NMFS Kodiak field office, ADF&G Building, at Kashevaroff and Mission Roads, Kodiak, Alaska. If comments are received, the Secretary will reconsider the necessity of this rule, and subsequently publish in the Federal Register a notice either extending, modifying, or rescinding this rule.

A final environmental impact statement was prepared for implementation of the FMP under section 102(2)(C) of the National Environmental Policy Act and is on file with the Environmental Protection Agency. The notice of availability for § 671.27 was published in the Federal Register on October 28, 1977 at 42 FR 56772.

The Administrator of NOAA (Administrator) has determined that this is not a "major rule" requiring a regulatory impact analysis under Executive Order 12291.

Because this rule implements a field order, which does not have a general notice of proposed rulemaking, it is exempt from the requirements of the Regulatory Flexibility Act and a determination on the need for a regulatory flexibility analysis is unnecessary.

Finally, this rule does not contain a collection of information requirement or involve any agency in the collection of information. Therefore, the Paperwork Reduction Act of 1980 does not apply.

Dated: November 30, 1981.

Robert K. Crowell,
Deputy Executive Director, National Marine
Fisheries Service.

50 CFR Part 671 is amended as follows:

PART 671—TANNER CRAB OFF ALASKA

1. The authority citation for Part 671 reads as follows:

Authority: 16 U.S.C. 1801 et seq.

2. In § 671.26 paragraphs (f)(2) (i), (ii), (iii), (iv) and (v) are revised to read as follows:

§ 671.26 Season and gear restrictions.

* * * * *

(f) Registration area J.

* * * * *

(2) * * *

(i) In all sections of the Kodiak District from 12:00 noon February 10, through 12:00 noon April 30 only, except that in the Semidi Island section Tanner crab may be taken from 12:00 noon February 10 through 12:00 noon May 15 only.

(ii) In the South Peninsula District from 12:00 noon December 15 through 12:00 noon, May 15 only.

(iii) In the Chignik District from 12:00 noon December 15 through 12:00 noon May 15 only.

(iv) In the Aleutians District from 12:00 noon February 15 through 12:00 noon June 15 only east of 172° W. longitude and from 12:00 noon January 15 through 12:00 noon June 15 only west of 172° W. longitude.

(v) In the Bering Sea District from 12:00 noon February 15 through 12:00 noon June 15 only, except that Tanner crab other than *C. bairdi* may be taken or possessed from 12:00 noon January 15 until closed by field order under § 671.27.

BILLING CODE 3510-22-M

Proposed Rules

Federal Register

Vol. 48, No. 232

Thursday, December 3, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

SMALL BUSINESS ADMINISTRATION

13 CFR Part 122

Business Loans; Export Revolving Line of Credit Loans

AGENCY: Small Business Administration.

ACTION: Proposed rule.

SUMMARY: These proposed regulations outline the standards and guidelines to implement the new financial assistance authority in the Small Business Export Expansion Act of 1980, Part B of Pub. L. 96-481 (94 Stat. 2321). They incorporate normal criteria and cite any special criteria relating to eligibility, maturity, collateral or special loan conditions. The SBA proposes to limit this expanded Section 7(a) authority to guarantee loans, to provide extensions or revolving lines of credit to enable small businesses to develop foreign markets and for pre-export expense.

DATE: Comments are to be received on or before January 4, 1982.

ADDRESS: Written comments are to be submitted in duplicate to the Director, Office of Business Loans, Small Business Administration, 1441 L Street, NW, Washington, D.C. 20416.

FOR FURTHER INFORMATION CONTACT: Questions regarding this proposed rule may be directed to: Richard L. Wray, Financial Analyst, (202) 653-6470.

SUPPLEMENTARY INFORMATION: In 1980, SBA administratively authorized a pilot Export Revolving Line of Credit program in four states. The six month pilot period was to expire August 31, 1980, to be followed with an evaluation period. Before the evaluation was completed, the new legislation was enacted on October 21, 1980.

While there was only limited interest expressed in the pilot program these proposed regulations would carry out the legislative purpose to provide limited financial assistance, as necessary, to promote the competitive viability of small business in export.

The financial requirements of the applicant should be established by the participating lender based on its full understanding of the applicant's financial capability and management ability and the requirements for domestic and international trade and finance. For example, the lender's commercial loan officer with the advice of an international division's loan officer (or with the help of its correspondent) will determine whether a term loan, a seasonal or contract line of credit loan, a revolving line of credit loan or a combination of two or more of these Section 7(a) plans is needed to achieve the optimum lending plan for the applicant. These proposed regulations deal only with the revolving line of credit plan.

A monthly cash flow projection is a vital tool in this analysis and should be examined to see that the extent and length of the financial needs correspond to the loan request. The cash flow projection should clearly show the status of the credit line at the end of each month. This can be a valuable guide to monitor a borrower's progress and, if properly used, can anticipate problems before they become insoluble.

In the final analysis our position will rest on management's ability and its financial capacity and we shall depend to the greatest extent on the lender's analysis. SBA will make the final credit decision based on a review of the credit analysis submitted by the lender.

The legislation also provided that participating lenders may charge a rate of interest that is both legal and reasonable. We believe that the existing regulations (§ 120.3(b)(2) of this Chapter) that cover our interest rate policy adequately define what is considered reasonable.

SBA has determined that this proposal does not constitute a major rule for the purposes of Executive Order 12291. In this regard we are certain that the annual effect of this rule of the economy will be less than \$100 million. In addition this proposed rule, if promulgated as final, will not result in a major increase in costs or price for consumers, individual industries, Federal, State or local government agencies or geographic regions, and will not have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based

enterprises to compete with foreign-based enterprises in domestic or export markets. In addition, for the purpose of compliance with the Regulatory Flexibility Act, P.L. 96-354, effective January 1, 1981, SBA hereby certifies that this proposed rule, if promulgated in final form, will not have a significant economic impact on a substantial number of small entities. Our own estimate, based upon this agency's experience with the pilot program referred to above, and budgetary resources available for the program, indicates that we may expect to make perhaps one hundred loans averaging \$95,000, or a total of less than \$10 million available to qualified applicants in Fiscal Year 1982, and that we may indeed expect to service a relatively small number of qualified applicants.

This action is being proposed in order to implement the specific statutory authority contained in Pub. L. 96-481. This statute authorized a revolving line of credit for export subject to the conditions in this proposal. This rule would be applicable to any small business involved in export trade, but still contemplates that guaranteed business loan applicants are subject to all other relevant eligibility criteria for receipt of SBA assistance. In addition, no additional appropriations for this type of loan are available to SBA. The loans, if any, will be funded from part of our overall business loan guarantee authority. Thus, these proposed rules, if promulgated in final form do not of themselves create additional benefits for a class of small businesses. Finally, these proposed regulations, if promulgated in final form would not impose any special reporting or record keeping requirements on the small businesses that avail themselves of this assistance.

Accordingly, pursuant to the authority in section 5(b)(6) of the Small Business Act (15 U.S.C. 631 et seq.), Part 122, Chapter 1, Title 13 of Code of Federal Regulations would be amended by designating Subpart A as "General" and adding a new Subpart D to read as follows:

PART 122—BUSINESS LOANS

* * * * *

Subpart D—Export Revolving Line of Credit

Sec.

122.400 General.

Sec.

- 122.401 Eligibility.
 122.402 Use of Proceeds.
 122.403 Fees.
 122.404 Maturity.
 122.405 Collateral.
 122.406 Additional Loan Conditions.
 Authority: Sec. 5(b)(6), Small Business Act,
 15 U.S.C. 631 et seq.

Subpart D—Export Revolving Line of Credit**§ 122.400 General.**

The statute authorizes the use of Sec. 7(a) regular business loans to finance export assistance, and specifically authorizes extensions and revolving lines of credit for export purposes, to develop foreign markets and for pre-export financing. The interest rates, allowable fees, size limitations and other standards or guidelines that are applicable to all 7(a) loans (see Subpart A of this Part and Part 120 of this Chapter) also apply to these loans unless modified by this subpart. A small business may have other 7(a) loans in addition to an Export Revolving Line of Credit loan, so long as the total outstanding balance of all such loans will not exceed the \$500,000 (SBA share) Statutory ceiling. This Subpart deals only with Export Revolving Line of Credit (ERLC) loans which are available only as an SBA guaranteed loan.

§ 122.401 Eligibility.

Applicants for an ERLC, in addition to meeting the eligibility criteria applicable to all 7(a) loans, must have been in operation for at least 12 full months prior to filing an application.

§ 122.402 Use of Proceeds.

Proceeds of an ERLC loan can be used only to penetrate or develop a foreign market and to finance labor and materials for pre-export production. Professional export marketing advice or services, foreign business travel or participation in trade shows are examples of eligible expenses to develop or penetrate a foreign market. The cost of acquiring or renting office or commercial space in a foreign country, equipping such an office or wages for a staff in such an office are examples of ineligible uses of proceeds, since these funds should be provided through equity capital or a term loan.

§ 122.403 Fees.

In addition to fees permitted under § 120.3(b) of this Chapter and § 122.18 of this part, the participant in an ERLC loan is permitted to charge the borrower a commitment fee equal to one-fourth of one percent of the loan or \$200.00 dollar minimum. This fee cannot be charged

until the SBA has approved the lender's request for guarantee.

§ 122.404 Maturity.

The maturity of an ERLC loan, together with all extensions and renewals, cannot exceed eighteen (18) months.

§ 122.405 Collateral.

Only collateral that is located in the United States, its territories and possessions will be acceptable security for these loans.

§ 122.406 Additional Loan Conditions.

(a) *Projected Cash Flow Statement.* All ERLC loan applications must include a projected cash flow that supports the need for the funds and that evidences repayment ability. The projection must cover the applicant's total operation and clearly identify the use(s) of the loan proceeds and source(s) of repayment. The projection must cover 12 months or the term of the loan, whichever is greater.

(b) *Monthly Progress Reports.* The ERLC borrowers must submit monthly progress reports to the lender and explain discrepancies between the projected cash flow and the progress report.

(c) *Withholding Taxes.* Applicants must be current on all payroll taxes and have in operation a depository plan for the payment of future withholding taxes.

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 25****Advisory Circular for Airplane System Design Analysis****Correction**

In FR Doc. 81-32031, appearing at page 54958, in the issue of Thursday, November 5, 1981, make the following changes:

On page 54958, in the third column, paragraph "3. a.", the tenth line; insert (between considered and section.

On page 54959, in the first column, paragraph "4.b.", the fourth line should read "occurrence of a hazardous failure condition is".

On page 54959, in the third column, paragraph "5.m.", in the eighth line, change "even" to "event".

On page 54960, in the first column, paragraph "5.o.1." change 10^9 to 10^{-9} .

On page 54960, in the first column, paragraph "5.o.2." change 10^9 to 10^{-9} and change 10^9 to 10^{-9} .

On page 54960, in the first column, paragraph "5.o.3." change 10^9 to 10^{-9} .

On page 54960, in the first column, in the Note subsection (b) change 50 in the third line to read 50 and change "reliability" in the sixth line of the same paragraph to read "reliability".

BILLING CODE 1505-01-M

CONSUMER PRODUCT SAFETY COMMISSION**16 CFR Part 1145****Withdrawal of Proposed Rule and Reproposal of Rule To Regulate Under the CPSA Risk of Injury That May Be Presented by Certain Stuffed Toys**

AGENCY: Consumer Product Safety Commission.

ACTION: Withdrawal of proposed rule and reproposal.

SUMMARY: The Commission has reason to believe that a potential strangulation hazard may be presented by certain stuffed toys suspended from one or more strings, elastic, springs, or other cords, which form a loop in conjunction with the toy to which they are attached. The Commission proposes to use the procedures of the Consumer Product Safety Act rather than those of the Federal Hazardous Substances Act should regulatory action become necessary regarding this potential risk of injury. The Commission preliminarily determines that this transfer of procedures is necessary because, if the Commission finds that the products present a strangulation hazard, public notification and remedial action can be accomplished more expeditiously under the CPSA than under the FHSA. The Commission also withdraws the proposed regulation published at 45 FR 75685, November 17, 1980, and publishes a new proposed regulation to include some products which were not covered in the proposed rule of November 17, 1980.

DATE: Comments concerning this proposal must be received in the Office of the Secretary by January 4, 1982.

ADDRESS: Comments should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, (202) 634-7700.

FOR FURTHER INFORMATION CONTACT: William J. Moore, Jr., Administrative Litigation Division, Consumer Product Safety Commission, 5401 Westbard Avenue, Bethesda, Maryland (mailing address: Washington, D.C. 20207), telephone: (301) 492-6626.

SUPPLEMENTARY INFORMATION: In the Federal Register of November 17, 1980 (45 FR 75685), the Commission proposed to regulate a risk of injury associated with certain stuffed animal toys under the Consumer Product Safety Act (CPSA, 15 U.S.C. 2051 *et seq.*) rather than under the Federal Hazardous Substances Act (FHSA, 15 U.S.C. 1261 *et seq.*). The risk which the Commission proposed to regulate under the CPSA was one of strangulation which may be presented by stuffed animal toys suspended from two or more cords (strings, elastic, springs or other types of cord) when such cords, in conjunction with the product, form a loop. The proposal was limited to products manufactured before the effective date of any final rule based on the proposal. See 45 FR 75685 at 75686.

The proposal to regulate under the CPSA was made in accordance with section 30(d) of that act (15 U.S.C. 2079(d)), which provides:

A risk of injury which is associated with a consumer product and which could be eliminated or reduced to a sufficient extent by action under the Federal Hazardous Substances Act . . . may be regulated under [the CPSA] only if the Commission by rule finds that it is in the public interest to regulate such risk of injury under this Act.

Although the risk of injury presented by the products which were the subject of the proposal of November 17, 1980, could have been eliminated or reduced to a sufficient extent under the FHSA, the Commission proposed to regulate these products under the CPSA because it had preliminarily determined that it would be in the public interest to regulate that risk of injury under the CPSA. This preliminary determination was based on provisions of the FHSA and CPSA which in effect in 1980, and on information about the physical characteristics of the products available to the Commission before it published the proposal.

Since publication of the proposal of November 17, 1980, provisions of the FHSA which were factors in the Commission's preliminary determination to regulate under the CPSA rather than the FHSA have been modified by the Consumer Product Safety Amendments of 1981 (section 1211(f)(1), Pub. L. 97-35, 95 Stat. 721), effective August 13, 1981. Additionally, after consideration of comments received in response to the

proposal, and evaluation of additional information about the products which may present the risk of injury, the Commission has decided to broaden the scope of the proposal to include some products which were not covered by the proposal of November 17, 1980.

Therefore, the Commission is withdrawing the proposal of November 17, 1980, and publishing a new proposal to regulate a risk of injury associated with certain stuffed toys under the CPSA rather than the FHSA under provisions of section 30(d) of the CPSA.

A. Background

The Commission's investigation of this hazard began in 1979, after R. Dakin and Company (Dakin) reported to the Commission staff an infant death, apparently by strangulation, involving a stuffed animal mobile that Dakin had imported. The toy had been hung from a crib corner post on the inside portion of the crib. The product was one of six models of stuffed toy animals imported by Dakin. Each product used an identical three elastic cord suspension system. One cord was attached to the body of the toy. Two other cords were attached to the toys's body parts (e.g., wings, ears). The three elastic cords met and were fastened together at a single point above the toy. The size and configuration of the openings created by the elastic cords, as well as the elastic property of the cords themselves, appeared to permit an infant to get the head and neck entangled in the cords. The Commission staff is aware of two incidents, involving two different Dakin stuffed toy animals, in which an infant allegedly became entangled in the elastic cords, strangled, and died.

After Dakin filed its report to the Commission in 1979 concerning the death associated with a stuffed animal toy it had imported, Dakin voluntarily recalled the stuffed animal products of the type involved in the report.

In the course of its investigation of the products imported by Dakin, the Commission staff learned that at least two other firms manufactured or imported products similar to those which were the subject of the investigation.

B. Proposal of November 17, 1980

After considering these facts, the Commission published its proposal of November 17, 1980, to regulate the risk of injury presented by these products under the CPSA rather than the FHSA. The notice of that proposal set forth the following reasons for the Commission's determination that regulation of that risk under the CPSA is in the public interest:

At the time the proposal was published, the FHSA authorized the Commission to issue a regulation by following the provisions of the Administrative Procedure Act (APA, 15 U.S.C. 553) to declare the products in question to be "banned hazardous substances" if the Commission determined that they were toys or other children's articles which present a mechanical hazard. (These provisions were contained in sections 2(f)(1)(D), 2(g)(1)(A), 2(s)(9), and 3(e) of the FHSA (15 U.S.C. 1261(f)(1)(D), 1261(g)(1)(A), 1261(s)(9), and 1262(e)) prior to the amendment of the FHSA by the Consumer Product Safety Amendments of 1981 (section 1211(f)(1), Pub. L. 97-35, 95 Stat. 721)).

Under the repurchase provisions of section 15 of the FHSA (15 U.S.C. 1276) and the Commission's regulations implementing that section (16 CFR 1500.202, 203) which were in effect in 1980, retail stores in the distribution chain of any "banned hazardous substance" were required to place an identification of the banned product on a "Banned Articles or Substances List," to be displayed in various store locations for not less than 120 days. No other form of notice to consumers of the hazard presented by these products and the manufacturer's or importer's duty to recall them could be required under the provisions of the FHSA and implementing regulations in 1980.

When Dakin carried out its voluntary recall effort, it notified consumers in a manner similar to that then required by the FHSA and implementing regulations, described above. Dakin also provided additional notice to consumers in the form of press releases and mailings to newspapers and television stations. Despite Dakin's efforts to notify consumers, fewer than 36,000 products were returned of the more than 422,000 that Dakin had imported; and of the products recovered, fewer than 1,500 were returned by consumers.

In contrast to the limited requirements for notification to consumers which could be imposed under the FHSA and implementing regulations, the CPSA (in 1980 and after passage of the 1981 amendments) gives the Commission several ways to seek recall of hazardous products in the possession of consumers. Section 12 of the CPSA (15 U.S.C. 2061) authorizes the Commission to file an action in a United States district court against a manufacturer, importer, distributor, or retailer of a consumer product which presents an imminent and unreasonable risk of death or severe personal injury. The court has the authority to order recall of the product,

its repair or replacement, or refund of the purchase price of the product. The court also has authority to order a firm to undertake extensive notification efforts to advise purchasers and the general public of the nature of the risk and of the firm's obligation for remedial action.

Under provisions of section 15 of the CPSA (15 U.S.C. 2064) in 1980 and after the 1981 amendments, the Commission may determine, after conducting a hearing, that a product presents a substantial product hazard and order the manufacturer, importer, distributor, or retailer to repair, replace or refund its purchase price. Additionally, the Commission may order the manufacturer, importer, distributor, or retailer of a product which has been determined to present a substantial product hazard to undertake a broad notification program to inform the public of the hazard and of the corrective action to be taken, if the Commission determines that notification is required to adequately protect the public from the hazard.

Thus, when the Commission proposed in 1980 to regulate the risk of injury associated with the products in question under the CPSA, it believed such action to be in the public interest because the Commission then had greater authority to require widespread notification of the public concerning the nature of the hazard associated with the products and to require the recall, repair, or replacement of the product, or the refund of the purchase price under the CPSA than under the FHSA.

C. Consumer Product Safety Amendments of 1981

On August 13, 1981, the Consumer Product Safety Amendments of 1981, (1981 amendments, Pub. L. 97-35, 95 Stat. 703), became law. This legislation modified both the CPSA and the FHSA. Among the changes made by the 1981 amendments is modification of section 15 of the FHSA to make its provisions regarding notification to the public and recall of "banned hazardous substances" similar to those provisions of section 15 of the CPSA regarding notification to the public and requirements for repair, replacement, or refund of the purchase price of consumer products which present a "substantial product hazard."

Consequently, many of the reasons set forth in the proposal of November 17, 1980, for the Commission's preliminary determination that it is in the public interest to regulate the risk of injury associated with the products which were the subject of that proposal are no longer valid.

The modification of section 15 was not the only change to the FHSA made by the 1981 amendments. That legislation also changed the procedures required to issue a regulation which declares a toy or children's article to be a "banned hazardous substance."

As indicated above, before the 1981 amendments, such a regulation could be issued by following the procedures set forth in the APA at 5 U.S.C. 553. Those procedures involve publication of a proposal and giving opportunity for submission of written comments; consideration of any comments received; and publication of a notice to issue the rule on a final basis.

The 1981 amendments added several steps to the procedure required to issue a regulation declaring a product to be a "banned hazardous substance." These additional steps now appear in section 3 (f), (g), (h), and (i) of the FHSA (15 U.S.C. 1262 (f), (g), (h), and (i)). They require the Commission to publish an advance notice of proposed rulemaking in the Federal Register which identifies the product and the risk of injury associated with it; summarizes regulatory alternatives being considered by the Commission; identifies any existing standards which may be relevant and states the reason why the Commission believes they may not be adequate; solicits comments on the product and risk of injury which are the subject of the notice; and invites interested parties to submit existing standards or offers to develop or modify a voluntary standard to address the risk of injury presented by the product.

If, after consideration of all information received in response to the advance notice of proposed rule making, the Commission determines that a rule declaring the product to be a "banned hazardous substance" may be needed, the 1981 amendments require the Commission to publish a notice in the Federal Register to propose the rule. The notice of proposal must also include a preliminary analysis of anticipated benefits and costs of the proposed rule; the Commission's reasons for deciding that no existing standard or offer to develop or modify a voluntary standard would be adequate to address the risk of injury; and a description of alternatives to the proposed regulation considered by the Commission, including benefits and costs of each such alternative, and an explanation of why each alternative should not be proposed as a regulation.

If, after consideration of comments received in response to the proposal, the Commission decides to issue a final regulation declaring a product to be a "banned hazardous substance," the FHSA now requires the Commission to

publish a notice in the Federal Register to issue the rule on a final basis. That notice must include an analysis of potential benefits and costs of the rule; a description of alternatives considered by the Commission and the reasons for rejecting each alternative; and a summary of significant issues raised by comments on the proposal. Additionally, the Commission must make and include in the final rule findings: that the benefits anticipated from the rule bear a reasonable relationship to its costs; that the regulation imposes the least burdensome requirements which adequately reduce the risk of injury under consideration; and, if a voluntary standard is applicable to the product which is the subject of the rule, that the voluntary standard is not expected to adequately address the risk of injury associated with the product.

Thus, while the provisions of section 15 of the FHSA have been changed to authorize the Commission to give wider notice to the public that a product is banned and subject to remedial action, the procedures now prescribed by the FHSA to declare the product to be a "banned hazardous substance" have become significantly more complex and time-consuming.

The 1981 amendments also made changes to the CPSA. However, they do not add to the complexity of the procedure set forth in section 30(d) for issuing a rule to regulate a risk of injury covered by the FHSA under the CPSA. The 1981 amendments also do not affect the authority contained in section 12 of the CPSA for a court to order notification of the public and recall, repair, replacement, or refund of the purchase price of a consumer product which presents an imminent hazard. Also unchanged are the procedures under section 15 of the CPSA for ordering notice to the public that a product presents a substantial product hazard and for ordering repair, replacement, or refund of the purchase price of a product which presents a substantial product hazard.

While section 15 of the FHSA now contains provisions for consumer notification and corrective action which are similar to those contained in section 15 of the CPSA, they would not become applicable to the toys in question until the Commission issues a regulation to declare them to be "banned hazardous substances." As indicated above, the 1981 amendments to the FHSA have added new steps to the procedure required to issue such a regulation. By increasing the complexity of the rulemaking proceeding, the 1981 amendments to the FHSA add

considerably to the length of time needed to issue a banning rule applicable to a toy under the FHSA on a final basis.

However, if a product is subject to regulation under the CPSA, no preliminary rule-making proceeding is required before the Commission may take action under section 12 of that act to deal with any imminent hazard which it may present, or under section 15 of the CPSA to require notification or corrective action of any substantial product hazard which it may pose.

Consequently, as a result of the 1981 amendments to the FSHA, the Commission has again preliminarily determined that it would be in the public interest to regulate the products which were the subject of the November 17, 1980, proposal under the CPSA rather than the FHSA. The reason for this preliminary determination is that as a result of the 1981 amendments, notification of the public and remedial action can be accomplished more expeditiously under the CPSA than under the FHSA.

Sections 7 and 9 of the CPSA (15 U.S.C. 2056, 2058) set forth procedures for issuing safety standards applicable to consumer products. The CPSA also contains authority at section 8 (15 U.S.C. 2057) for issuance of regulations to declare consumer products to be "banned hazardous products." As a result of the 1981 amendments, the procedures in the CPSA for issuance of consumer product safety standards and banning regulations are similar to those prescribed by the FHSA for issuance of a regulation to declare a toy or children's article to be a "banned hazardous substance."

If the rule proposed below is issued on a final basis and the Commission thereafter determines that a consumer product safety standard or banning regulation is needed for the products covered by the rule, such a standard or regulation will be issued by following the provisions of the CPSA rather than the FHSA.

Provisions of section 15(b) of the CPSA, which require manufacturers, distributors, and retailers of a consumer product which could create a "substantial product hazard" to notify the Commission, are applicable regardless of whether the product in question is or is not subject to a consumer product safety standard or banning rule.

D. Comments on the Proposal of November 17, 1980

In response to the proposal of November 17, 1980, the Commission received three comments. Comments

from a toy manufacturer and a trade association of toy manufacturers objected to the limitation of the proposed rule to those products manufactured prior to the effective date of any final rule based on the proposal. These comments stated that section 30(d) of the CPSA provides for the complete transfer of an entire risk of injury from the FHSA to the CPSA, and not a "piecemeal" transfer of the risk.

The Commission has reconsidered the proposal of November 17, 1980, and in view of the changes made to the FHSA by the 1981 amendments, now agrees with these comments that it would be more efficient to regulate under the CPSA the entire risk of injury posed by stuffed toys suspended by strings, elastic, springs, or other cords which may, in conjunction with the toy to which they are attached, form a loop, regardless of the date on which the toys were manufactured. Accordingly, the regulation proposed below would be applicable to any toy described in proposed § 1145.9(a), regardless of date of manufacture.

A third comment suggested that the proposed rule should be extended to include any toy of the type described in the proposal of November 17, 1980, and not limited to those in the configuration of stuffed animals. This comment suggested that the proposed rule should be applicable to any toy presenting the same risk of injury as the products which were the subject of the proposal of November 17, 1980, regardless of the material from which it is made, or its shape, if it is capable of being suspended from strings, elastic, springs, or other cords supplied with the toy, and if the cords, in conjunction with the toy, form a loop. This comment also suggested that a toy suspended from a single cord could present a strangulation hazard.

From the investigation which was initiated in response to the death reported in 1979, the Commission has learned that only stuffed toys of the type described by the commenter have been associated with incidents involving a strangulation hazard.

However, the Commission agrees with the commenter that a stuffed toy in the shape of some object other than an animal (for example, a clown or an airplane) could present the same hazard as the toys which were the subject of the proposal of November 17, 1980. The Commission also agrees with this commenter that a stuffed toy suspended by a single cord, elastic, or spring, could present a strangulation hazard, if both ends of the cord were attached to the body of the toy in such a manner as to form a loop in conjunction with the toy.

For these reasons, proposed § 1145.9 published below describes the products covered by the proposals as "stuffed toys" rather than "stuffed animal toys." Additionally, the toys which are the subject of the proposal are described in proposed § 1145.9(a) as stuffed toys suspended from "one or more strings, elastic, springs, or other cords" rather than stuffed toys suspended from "two or more" strings or cords. Of course, any subsequent action commenced under the CPSA would not necessarily be as broad as the risk of injury which is the subject of the proposal published below.

E. Impact on Small Businesses

Section 603 of the Regulatory Flexibility Act (RFA, 5 U.S.C. 603) requires agencies to prepare and make available for public comment an initial regulatory flexibility analysis of the impact of any proposed rule on small entities, including small businesses. Section 605(b) of the RFA provides that an agency is not required to prepare a regulatory flexibility analysis if the agency certifies that the rule, if issued on a final basis, will not have a significant economic impact on a substantial number of small entities.

The regulation proposed below, if issued on a final basis, will not by itself impose any legal or other obligation on any person or firm. The rule would simply announce that any action taken to eliminate or reduce the risk of injury with which it is concerned will be taken following the procedures set forth in the CPSA rather than the FHSA.

If the Commission issues a final rule based on the proposal issued below, and then determines that it should act to eliminate or reduce the risk of injury which is the subject of the rule, the Commission will be required to initiate and follow through to completion appropriate judicial or administrative proceedings under one or more sections of the CPSA before it can impose any obligation on any person or firm.

Since a final rule based on the proposal imposes no obligation on any person or firm, the Commission hereby certifies that it will not have a significant economic impact on a substantial number of small businesses.

F. Environmental Considerations

The regulation proposed below falls within the categories of Commission actions described in 16 CFR 1021.5(c), that have little or no potential for affecting the human environment. For this reason, neither an environmental assessment nor an environmental impact statement is required.

G. Withdrawal and Reproposal

After consideration of the information set forth above, changes to the FHSA made by the Consumer Product Safety Amendments of 1981 (Pub. L. 97-35), and comments received, the Commission hereby withdraws the proposal published in the Federal Register of November 17, 1980 (45 FR 75685). Until issuance of any final regulation under section 30(d) of the CPSA, the Commission has authority to regulate the products described in the proposal of November 17, 1980, and in this notice, under provisions of the FHSA.

PART 1145—REGULATION OF PRODUCTS SUBJECT TO OTHER ACTS UNDER THE CONSUMER PRODUCT SAFETY ACT

Under provisions of the Consumer Product Safety Act (section 30(d), Pub. L. 92-573, 86 Stat. 1231, as amended Pub. L. 94-284, 90 Stat. 3472, Pub. L. 97-35, 95 Stat. 703; 15 U.S.C. 2079(d)), the Commission proposes to amend the Code of Federal Regulations, Title 16, Chapter II, Subchapter B, Part 1145, by adding a new § 1145.9, as follows:

§ 1145.9 Certain stuffed toys; risk of strangulation injury.

(a) The Commission finds that it is in the public interest to regulate under the Consumer Product Safety Act, rather than under the Federal Hazardous Substances Act, the risk of strangulation that may be presented by stuffed toys suspended from one or more strings, elastic, springs, or other cords when such cords, in conjunction with the product, form a loop.

(b) Therefore, if the Commission finds regulation necessary, any such toys shall be regulated only under one or more provisions of the Consumer Product Safety Act.

Interested persons are invited to submit written comments by January 4, 1982. Comments may be accompanied by written data, views, and arguments and should be addressed to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207.

Received comments may be seen in the Office of the Secretary, Third floor, 1111 18th Street, N.W., Washington, D.C. between 8:30 a.m. and 5:00 p.m., Monday through Friday.

(Sec. 30(d) Pub. L. 92-573, 86 Stat. 1231, as amended Pub. L. 94-284, 90 Stat. 3472, Pub. L. 97-35, 95 Stat. 703; 15 U.S.C. 2079(d))

Dated: November 24, 1981.

Sadye E. Dunn,
Secretary, Consumer Product Safety
Commission.

BILLING CODE 6355-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Public Health Service

Office of Human Development Services

42 CFR Parts 52d and 86

45 CFR Parts 74 and 1336

Grants and Subgrants to For-Profit Organizations

AGENCY: Department of Health and Human Services (HHS).

ACTION: Proposed rules.

SUMMARY: This rule proposed to remove regulatory bars to grants to for-profit organizations under three HHS grant programs in which the for-profit organizations are not barred by statute from receiving grants.

It also proposes (1) to make HHS's Department-wide grants administration regulations, 45 CFR Part 74, apply automatically to grants and subgrants to for-profit organizations and (2) to add to those regulations additional provisions for grants and subgrants to for-profit organizations.

These actions reflect a reversal of the Department's generally policy of not making for-profit organizations eligible for grants in those few programs where they are not statutorily barred from receiving grants.

DATE: Comments must be received on or before February 1, 1982.

ADDRESS: Send comments to: Matthias Lasker, Department of Health and Human Services, Room 513D, Hubert H. Humphrey Building, 200 Independence Avenue, S.W., Washington, D.C. 20201. The public may see the comments received in Room 517D from 9 a.m. to 5:30 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Matthias Lasker, Director, Division of Grants Policy and Regulations Development, 202-245-7565.

SUPPLEMENTARY INFORMATION:

Background: Eligibility of For-Profit Organizations for HHS Grants

Under a few HHS discretionary grant programs, for-profit organizations are

not barred by the authorizing statute from receiving grants. However, for many years HHS policy has been not to award grants to for-profit organizations. These organizations have been eligible for procurement contracts but not grants.

With the passage of the Federal Grant and Cooperative Agreement Act (Pub. L. 95-224, 41 U.S.C. 501-509) and the issuance of OMB guidance for implementing the Act (43 FR 30860, August 18, 1978), the policy is no longer appropriate. That Act makes choice of funding instrument—grant, cooperative agreement or contract—dependent upon factors other than kind of recipient. The OMB guidance states that grants may be made to for-profit organizations when deemed by the agency to be consistent with legislative intent and program purposes.

Accordingly, the Department now intends to make for-profit organizations eligible for grants in those grant programs where the OMB criteria are met.

When for-profit organizations are made eligible under a discretionary program, their applications will normally compete on equal terms with other applications and be evaluated according to the same priorities and criteria.

We believe the public will benefit from this new approach. The HHS grant programs affected will likely have more projects or activities to select from. The programs will be able to choose the best of those projects or activities, without regard to the kinds of organizations that will receive the grants except to the extent that that factor bears upon program objectives.

Note.—The Federal Grant and Cooperative Agreement Act provides that, if substantial Federal involvement is anticipated during performance of what would otherwise be a grant, the instrument is to be designated a "cooperative agreement." Please take all statements we make in this preamble on grants as applying equally to cooperative agreements. The Department's grants administration regulations in 45 CFR Part 74, which are discussed later in this preamble, define "grant" broadly enough to include cooperative agreements, and in this preamble we are using "grant" in that broad sense.

As a first step in exploring and adopting the new approach, on February 28, 1980, HHS's Public Health Service (PHS) published a notice in the Federal Register (at 45 FR 13200) inviting comments on a proposal to begin permitting grants (including cooperative agreements) to for-profit organizations under certain PHS research programs.

In a Federal Register notice on April 6, 1981, (at 46 FR 20603), PHS responded to the comments and announced its decision to amend its regulations to remove bars to grants to for-profit organizations in the research programs identified in the earlier notice.

Extending Eligibility to For-Profits in additional Grant Programs

After reviewing its statutory authorities and its regulations, the Department has identified four additional HHS grant programs which have no statutory bars to grants to for-profit organizations but do have regulations containing such bars.

The regulations for one of these programs (Health Care Technologies Research) are the same as those which apply to some of the programs PHS listed in its April 6, 1981 announcement on grants to for-profit organizations. Elsewhere in this issue of the Federal Register the Department is issuing final amendments to those regulations to remove the non-statutory bars.

This notice proposes to remove the non-statutory bars from the regulations of the other three programs and so make for-profit organizations eligible for grants under those programs. The programs are: National Cancer Institute Clinical Cancer Education Program (Secs. 404(a)(4) and 404(b)(7) of the Public Health Service Act, 42 U.S.C. 285(a)(4) and (b)(7), 42 CFR Part 52d) (Amendments A below.)

(Grants for Educational Programs in Occupational Safety and Health (Sec. 21(a)(1) of the Occupational Safety and Health Act of 1970, 29 U.S.C. 670, 42 CFR Part 86) (Amendment B below))

Native American Programs—Research, Demonstrations, and Pilot Projects (Sec. 805 of the Native American Programs Act of 1974, 42 U.S.C. 2991d, Subpart E of 45 CFR Part 1336) (Amendment D below).

The Department has also identified additional programs under which grants to for-profit organizations are statutorily authorized. However, these programs either have no regulations or have regulations that contain no bars to grants to for-profit organizations. The programs are:

Substances and Living Organisms for Biomedical and Behavioral Research (Sec. 301(a) of the PHS Act, 42 U.S.C. 241(a)) (Grants of property)

Health Statistics Research and Epidemiological Research (Secs. 306(b) (2) and (3) of the PHS Act, 42 U.S.C. 242k(b) (2) and (3))

Biological Products (Sec. 352(b) of the PHS Act, 42 U.S.C. 263(b)) (Grants of property)

National Cancer Program (the rest of the program besides the Clinical Cancer Education subprogram, whose regulations this notice proposes to amend, as explained above) (Sec. 404(b)(7) of the PHS Act, 42 U.S.C. 285(b)(7))

National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program (Sec. 413(c)(3) of the PHS Act, 42 U.S.C. 287b(c)(3))

Experiments and Demonstration Projects Under Titles XVIII and XIX of the Social Security Act (Medicare and Medicaid) (Sec. 222(a) of Pub. L. 92-603, 42 U.S.C. 1395b-1 (note))

Grants to "Alternate" Professional Standards Review Organizations (Sec. 1152 of the Social Security Act, 42 U.S.C. 1320c-1)

National Impact Demonstrations Under Title IV of the Older Americans Act (Sec. 424 of the Act, 42 U.S.C. 3035e)

Projects to Relieve Older Individuals from High Utility and Home Heating Costs (Sec. 425 of the Older Americans Act, 42 U.S.C. 3035f)

Evaluation of Projects Assisted by the Native American Programs Act of 1974 (Sec. 810 of the Act, 42 U.S.C. 2992)

Research, Demonstration, and Pilot Projects under Headstart (formerly Sec. 552 of the Economic Opportunity Act, now Sec. 649 of Pub. L. 97-35, the Omnibus Budget Reconciliation Act of 1981)

As explained above, PHS has already invited comments on a proposal to begin permitting grants to for-profit organizations under certain programs. Any future invitations for grant applications in those programs will not preclude applications from for-profit organizations unless there are exceptional circumstances. We now propose, and seek comments on, following the same policy for the programs identified in this preamble. These programs are the Health Care Technologies Research program (Sec. 309(b) of the PHS Act, 42 U.S.C. 242n, 42 CFR Part 52), the three programs listed above whose regulations are to be amended, and the programs listed above that have neither statutory nor regulatory bars.

Making 45 CFR Part 74 Apply to Grants and Subgrants to For-Profit Organizations

HHS's Department-wide grants administration regulations, 45 CFR Part 74, presently do not apply to grants and subgrants to for-profit organizations.

There is currently no body of government-wide or HHS-wide guidance or rules on the administration of grants or subgrants to for-profit organizations.

OMB has been studying the question, but it may be some time before government-wide guidance is issued. In the meantime, to assure orderly administration of any HHS grants or subgrants awarded to for-profit organizations, we propose to make Part 74 apply to those awards. (Amendment C.3 below.)

Adding Provisions to 45 CFR Part 74 for Grants and Subgrants to For-Profit Organizations

In making 45 CFR Part 74 apply to grants and subgrants to for-profit organizations, we also propose to add some provisions to Part 74 to deal specifically with the administration of these grants and subgrants. The proposed provisions are similar to those special conditions listed in the April 6, 1981 Federal Register notice for PHS grants to for-profit organizations.

When enacted the provisions will apply to all HHS grants and subgrants to for-profit organizations, including PHS grants, thus eliminating the present need for any special conditions in PHS grants to for-profit organizations.

We do not propose provisions for Federal access or rights to data, such as those described in the April 6, 1981 Federal Register notice referring to PHS grants to for-profit organizations.

After further review the Department believes that further regulation on Federal rights to data is not necessary. We have no evidence that research data are withheld in practice and in the absence of such evidence, we believe it would be arbitrary to impose special conditions for one group of grantees.

For-profit organizations will be subject to the same administrative policies as apply to non-profit institutions—as set forth in 45 CFR Part 74.

Following are descriptions of the additional provisions we are proposing for awards to for-profit organizations:

1. *Cost principles.* Some set of principles must be prescribed for determining allowable costs of for-profit organizations under grants and subgrants. We are proposing a section providing for use of the cost principles used in cost-type Federal procurement contracts awarded to for-profit organizations.

The section makes an exception for for-profit organizations that are hospitals. We believe the hospital cost principles in Appendix E to Part 74 are clearly more suitable and should apply to all hospitals, whether public, private nonprofit, or for-profit.

The section also continues a long-standing HHS policy of not allowing the

costs of independent research and development, which would otherwise be allowable as indirect costs. The exception will apply to for-profit organizations performing as contractors under grants or subgrants as well as those performing as grantees or subgrantees. (Amendment C.8 below.)

2. *Prohibition against profit.* A section will be added drawing the attention of for-profit organizations to the Part 74 rule that prohibits the payment of grant funds as profit to any grantee or subgrantee.

This prohibition is one of the fundamental features that characterize grants and distinguish them from contracts. We intend no exception for any kind of recipient.

We propose to add this section solely because for-profit organizations may not be sufficiently aware of the prohibition. (Amendment C.9 below, § 74.705.)

3. *Real property, equipment, and supplies.* A section will be added containing special rules for real property, equipment, and supplies acquired with grant financial support by a for-profit grantee or subgrantee.

The special rules provide that title to the property vests in the Federal Government rather than the recipient. When the Federally-owned property is no longer to be used for grant-supported activities, the recipient must follow disposition instructions from the granting agency.

When for-profit organizations receive HHS contracts, title to property acquired under the contracts normally vests in the Federal Government. By applying the same policy to property under grants, we will reduce the differences in rules for these organizations under these instruments. We may also enable some of these organizations to use essentially the same property control and management systems for grant property as they use for contract property.

The proposed section expands slightly upon the special condition with the same intent, described in the PHS April 6, 1981 Federal Register notice referred to above. Most of the added material describes when property disposition instructions are to be requested from the granting agency. (Amendment C.9 below, § 74.710.)

4. *General program income.* A section will be added providing that, of the three alternatives in Part 74 regarding the use of general program income earned from grant-supported activities, the "additional costs alternative" will not be used if the income is earned by a for-profit recipient.

Under this alternative, the income is used for any costs that further the objectives of the Federal statute under

which the grant was made, and the term "objectives" has been interpreted broadly. That kind of general support is not normally appropriate for for-profit organizations. (Amendment C.9 below, § 74.715.)

5. *Royalties on patents and inventions.* A section will be added on the disposition of royalties (or equivalent income) on inventions or patents arising out of the activities assisted by a grant or subgrant to a for-profit organization other than a small business firm. The section will provide that determinations or agreements on disposition of these royalties will be made or entered into on a case-by-case basis only.

Currently, with some grantee organizations, HHS enters into blanket agreements covering inventions, patents, and associated royalties arising out of any of HHS's research project grants to the organization. The agreements provide for the retention of royalties by the organization, subject to certain conditions and requirements.

It is likely that HHS will be amending its patent regulations to implement 35 U.S.C. Chapter 18, "Patent Rights in Inventions Made With Federal Assistance," added by Pub. L. 96-517. At that time, we will review the entire question of inventions developed by for-profit grantees other than small business firms and income earned on those inventions. In the meantime, we think it prudent to deal with patent and invention royalties earned by these grantees on a case-by-case basis only. (The section will not apply to inventions made by grantees or subgrantees that are small business firms. Rights to those inventions are governed by 35 U.S.C. 200-211.) (Amendment C.9 below, § 74.720.)

6. *Prohibition against institutional cost-sharing agreements.* A section will be added providing that, under research grants to for-profit organizations, HHS will implement statutory requirements for cost sharing through project-by-project cost-sharing agreements only; it will not enter into "institutional cost-sharing agreements."

Under project-by-project cost-sharing agreements, for each research project supported by a grant, HHS negotiates a percentage of cost sharing for that particular project.

Under an institutional cost-sharing agreement, a percentage is negotiated for all or some of HHS's research project grants to the grantee in the aggregate. The actual amount of cost sharing may vary among individual projects at the discretion of the grantee.

Because the number of grants to any one for-profit organization will likely be

few, an institutional cost-sharing agreement with a for-profit organization makes little sense and has no advantage. (Amendment C.9 below, § 74.725.)

Other Proposed Amendments

In addition to the amendments discussed above and associated technical conforming amendments, we proposed a few additional amendments to Part 74, as follows:

1. We propose to add a simple definition of "for-profit organization." (Amendment C.2 below.)

2. Section 74.130 of Part 74 provides that equipment or supplies acquired by a contractor under a grant or subgrant is subject to the Part 74 rules on grant property only if, by the terms of the contract, the property is to be owned by the grantee or subgrantee. However, under one of the proposed provisions (No. 3 in the above discussion of provisions), if title is not to vest in the contractor or another third party, situations will arise in which property will be owned not by the grantee or subgrantee—but by the Federal Government—and yet be subject to some property rules in Part 74.

We are proposing to change the wording of § 74.130 to eliminate the conflict with the new provision. (Amendment C.7 below.)

3. As explained above (No. 1 in the above discussion of provisions), we are proposing a new section specifying the cost principles for determining the allowable costs of for-profit organizations. The section will apply to for-profit cost-type contractors as well as to for-profit grantees and subgrantees. As a result, a paragraph now in Part 74 on cost principles for these contractors will no longer be needed and is being proposed for deletion. (Amendment C.8 below.)

Other Information

The Department has determined that this is not a major rule as defined in Executive Order 12291. Pursuant to the provisions of 5 U.S.C. Section 605(b), I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities.

Approved: November 10, 1981.

Richard S. Schweiker,
Secretary of Health and Human Services.

Accordingly, the Department of Health and Human Services proposes to amend Titles 42 and 45 of the Code of Federal Regulations as follows:

A. 42 CFR Part 52d is amended as follows:

PART 52—NATIONAL CANCER INSTITUTE CLINICAL CANCER EDUCATION PROGRAM

1. Section 52d.2 is amended to remove and reserve paragraph (c), the definition of "nonprofit."

§ 52d.2 [Amended]

(c) [Reserved]

2. Section 52d.3 is amended to revise introductory paragraph and paragraph (a) to read as follows:

§ 52d.3 Eligibility.

To be eligible for a grant under this part, an applicant must be:

(a) A public or private school of medicine, osteopathy, dentistry, or public health, affiliated teaching hospital, or specialized cancer institute; and

3. Section 52d.4 is amended to remove and reserve paragraph (b).

Authority: Sec. 215, 58 Stat. 690, as amended 63 Stat. 835 (42 U.S.C. 216); sec. 404(a)(4), 92 Stat. 3426 (42 U.S.C. 285).

§ 52d.4 [Amended]

(b) [Reserved]

B. 42 CFR Part 86 is amended as follows:

PART 86—GRANTS FOR EDUCATION PROGRAMS IN OCCUPATIONAL SAFETY AND HEALTH

1. Section 86.2 is amended to remove and reserve paragraph (b), the definition of "nonprofit agency or institution."

§ 86.2 [Amended]

(b) [Reserved]

2. Section 86.11 is amended to revise paragraph (a) to read as follows:

§ 86.11 Eligibility.

(a) *Eligible applicants.* Any public or private educational or training agency or institution located in a state is eligible to apply for a grant under this subpart.

3. Section 86.31 is amended to revise introductory paragraph and paragraph (a) to read as follows:

§ 86.31 Eligibility; minimum requirements.

In order to be eligible for an award under this subpart an applicant must:

(a) Have been accepted by a public or private institution for the purpose of the

activity for which the traineeship is sought.

Authority: 84 Stat. 1600, 29 U.S.C. 657(g); 84 Stat. 1612, 29 U.S.C. 670(a).

C. 45 CFR Part 74 is amended as follows:

1. The Table of Contents is amended to revise the entries for Subpart Q and to add entries for Subparts U through AA as follows:

PART 74—ADMINISTRATION OF GRANTS

Subpart Q—Cost Principles

Sec.

74.175 For-profit organizations other than for-profit hospitals.

74.176 Subgrants and cost-type contracts.

74.177 Costs allowable with approval.

Subparts U-Z [Reserved]

Subpart AA—Special Provisions for Grants and Subgrants to For-Profit Organizations

74.701 Scope of subpart.

74.705 Prohibition against profit.

74.710 Real property, equipment, and supplies.

74.715 General program income.

74.720 Royalties or equivalent income earned from patents or inventions.

74.725 Cost sharing under research grants.

Authority: 5 U.S.C. 301.

2. Section 74.3 is amended to add the following definition after the definition of "Federally recognized Indian tribal government":

§ 74.3 Definitions.

"For-profit" organization or institution means a corporation or other legal entity which is organized or operated for the profit or benefit of its shareholders or other owners.

3. Section 74.4 is amended to remove the words "for-profit organization" from paragraphs (a) and (b) and to add a new paragraph (d). As revised, § 74.4 reads as follows:

§ 74.4 Applicability of this part.

(a) *General.* Except where inconsistent with Federal statutes, regulations, or other terms of a grant, this part applies to all HHS grants. However, unless expressly made applicable by the granting agency, this part shall not apply when the grantee is a Federal agency, foreign government or organization, international organization such as the United Nations, or individual.

(b) *Subgrants.* For each substantive provision in this part, either the language of the provision itself or other text in the same subpart will indicate whether the provision affects only grants, only subgrants, or both. Use of the term "recipient" (as defined in § 74.3) in a provision shall be taken as referring equally to grantees and subgrantees. Similarly, use of the term "awarding party" (as defined in § 74.3) shall be taken as referring equally to granting agencies and to grantees awarding subgrants. However, unless expressly made applicable by the granting agency, this part need not be applied by the grantee to a subgrant if the subgrantee is a Federal agency, foreign government or organization, international organization such as the United Nations, or individual.

(c) *Public institutions of higher education and hospitals.* Grants and subgrants to institutions of higher education and hospitals operated by a government shall be subject only to provisions of this subpart that apply to nongovernmental organizations.

(d) *For-profit organizations.* The attention of for-profit organizations is directed to Subpart AA of this part. The special provisions in that subpart for grants and subgrants to those organizations contain exceptions to other portions of this part.

4. Section 74.22 is amended to add to paragraph (b) a cross reference to new § 74.710(e), as follows:

§ 74.22 Starting date of retention period.

(b) *Equipment records.* The retention period for the equipment records required by § 74.140(a) starts from the date of the equipment's disposition (§§ 74.139 or 74.710(e)) or replacement (§ 74.138) or transfer at the discretion of the awarding party (§ 74.136).

§ 74.101 [Amended]

5. Section 74.101 is amended by revising the reference to § 74.176 in the first sentence to § 74.177.

§ 74.105 [Amended]

6. Section 74.105 is amended by revising the reference to § 74.176 in paragraph (c) to § 74.177.

7. Section 74.130 is amended to revise paragraph (d) to read as follows:

§ 74.130 Scope and applicability of this subpart.

(d) Equipment or supplies acquired by a contractor under its contract are not subject to this subpart if, by the terms of

the contract, title to the property vests in the contractor or another third party.

8. Subpart Q is amended by adding a new § 74.175, by redesignating current §§ 74.175 and 74.176 as §§ 74.176 and 74.177 respectively, and by deleting the second paragraph in the section redesignated as § 74.176. As amended, §§ 74.175 and 74.176 read as follows:

§ 74.175 For-profit organizations other than for-profit hospitals.

(a) The principles to be used in determining the allowable costs of activities conducted by for-profit organizations (other than for-profit hospitals) are contained in the Federal Procurement regulations at 41 CFR Subpart 1-15.2. *Exception:* Independent research and development costs (including the indirect costs allocable to them) are unallowable. Independent research and development are defined in the Federal Procurement Regulations at 41 CFR 1-15.205-35.

(b) For hospitals, see § 74.173.

§ 74.176 Subgrants and cost-type contracts.

The cost principles applicable to a subgrantee or cost-type contractor under an HHS grant will not necessarily be the same as those applicable to the grantee. For example, where a State government awards a subgrant or cost-type contract to an institution of higher education, OMB Circular A-21 would apply to the costs incurred by the institution of higher education, even though OMB Circular A-87 would apply to the costs incurred by the State.

§ 74.177 Costs allowable with approval.

9. Subparts U through Z are reserved and a new Subpart AA is added as follows:

Subparts U-Z [Reserved]

Subpart AA—Special Provisions for Grants and Subgrants to For-Profit Organizations

§ 74.701 Scope of subpart.

(a) This subpart contains provisions that apply to grants and subgrants to for-profit organizations. These provisions are in addition to other portions of this part that apply to all recipients, or they make exceptions for awards to for-profit organizations from other provisions of this part.

(b) This subpart also draws attention to, or discusses, provisions elsewhere in this part that need special emphasis or clarification with respect to awards to for-profit organizations.

§ 74.705 Prohibition against profit.

Attention is directed to § 74.170 which provides, in effect, that no grant funds may be paid as profit to any recipient of a grant or subgrant, even if the recipient is a for-profit organization. Profit is any amount in excess of allowable direct and indirect costs of the recipient.

§ 74.710 Real property, equipment, and supplies.

(a) *Applicability.* (1) This section applies to real property, equipment, and supplies which, in accordance with § 74.130, would be subject to Subpart O of this part but is acquired under a grant or subgrant to a for-profit organization.

(2) A grantee that is not a for-profit organization may take title to property acquired under a subgrant to a for-profit organization. If so, the property will be considered as acquired by the grantee under its grant, and this section will not apply to the property.

(b) *Exemptions from Subpart O.* Property subject to this section is exempt from Subpart O of this part except for the definitions in § 74.132 and except, with respect to equipment, for the equipment management requirements in § 74.140.

(c) *Title.* The recipient shall vest title to the real property, equipment, and supplies in the Federal Government.

(d) *Inventory results.* The recipient shall inform the granting agency of the results of each physical inventory taken of the equipment. (Inventory requirements are in § 74.140 of this part.)

(e) *Disposition.* The recipient shall request and follow the instructions of the granting agency regarding disposition of the property as follows:

(1) For real property and equipment, whenever an item is no longer needed for the grant-supported activities.

(2) For supplies, annually during the performance of its grant or subgrant with respect to any supplies that during the preceding year ceased to be needed for the grant-supported activities.

(3) For all property, at the end of the recipient's grant or subgrant, with respect to any of the property which it still holds.

(f) *Other instructions.* The recipient shall follow any other instructions issued by the granting agency regarding use, management, or disposition of the property.

§ 74.715 General program income.

The additional costs alternative described in § 74.42(e) of this part may not be applied to general program income earned by a recipient that is a for-profit organization.

§ 74.720 Royalties or equivalent income earned from patents or inventions.

(a) As explained in § 74.45 of this part, disposition of royalties or equivalent income earned on patents or inventions arising out of activities assisted by a grant or subgrant is governed by determinations made or agreements entered into under HHS's patent regulations (45 CFR Parts 6 and 8). However, in the case of patents or inventions arising out of activities assisted by a grant or subgrant to a for-profit organization, those determinations or agreements will be made or entered into on a case-by-case basis only, and hence §§ 8.1 (b) and (c) will not apply to these awards.

(b) This section does not apply to small business firms, as defined in section 201(h) of Chapter 18 of Title 35, United States Code. For inventions made with Federal assistance by those firms, determinations of ownership and disposition of rights are made in accordance with that Chapter 18.

§ 74.725 Cost sharing under research grants.

Under research grants to for-profit organizations, HHS does not enter into institutional cost-sharing agreements that cover all or a number of its research project grants to the grantee in the aggregate. In research grants to these organizations, HHS implements statutory requirements for cost sharing through separate cost-sharing agreements negotiated for each research project.

PART 1336—NATIVE AMERICAN PROGRAMS

D. In 45 CFR Part 1336, § 1336.30 is amended to delete the word "nonprofit" in the two places that it occurs.

Authority: 88 Stat. 2324 (42 U.S.C. 2991d).

[FR Doc. 81-34719 Filed 12-2-81; 8:45 am]

BILLING CODE 4150-04-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 81-774; RM-3947]

FM Broadcast Stations in Key West, Florida; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of Class C FM Channel 254 to Key West, Florida, in response to a

petition filed by B.F.J. Timm. The proposed assignment could provide a fourth FM broadcast service to Key West.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rulemaking

Adopted: November 6, 1981.

Released: November 24, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Key West, Florida), BC Docket No. 81-774 RM-3947.

1. The Commission herein considers a petition for rule making,¹ filed by B.F.J. Timm ("petitioner"), proposing the assignment of Class C FM Channel 254 to Key West, Florida, as that community's fourth FM assignment. Petitioner stated his intent to apply for the channel, if assigned. No oppositions to the proposal were received.

2. Key West (population 24,292),² in the Key West Division (population 31,637), is located approximately 208 kilometers (130 miles) southwest of Miami, Florida. It is served locally by daytime-only AM Station WKWF, fulltime AM Station WKIZ, and three FM stations: WIIS (Channel 296A), WFTN (Channel 223) and WVFK (Channel 258).

3. According to petitioner, year-round tourism, trade and the fishing industry are the primary sources of Key West's economy. Key West is also the location of an anti-submarine and training Naval base and Navy hospital, which tends to boost the economy. Petitioner claims that approximately 48,000 people would be served by the proposed Channel 254 assignment (Key West Division 31,637, Lower Keys Division 6,353, and Middle Keys Division 10,221). It is the belief of the petitioner that the above factors contribute to an active community with a strong need for expanded communications facilities.

4. The study submitted by the petitioner shows that no community with a population greater than 1,000 will be precluded by the proposed assignment of Channel 254 to Key West.

5. This proposal exceeds the Commission's population guidelines for a fourth FM assignment. However, since we are more concerned with the efficiency of allocations, than with the total number of allocations to a community, we have analyzed the preclusive impact of the proposal. See *Waycross, Georgia*, 47 RR 2d 319 (1980). Here preclusion appears to present no obstacle to the proposed assignment since no community appears to be adversely affected.

6. In view of the foregoing, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, as follows for the listed community:

City	Channel No.	
	Present	Proposed
Key West, Florida	223, 259.	223, 254, 259, 258A

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

9. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules, 46 FR 11549, published February 9, 1981.

10. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached.

Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the Decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this

¹ Public Notice of the petition was given on July 28, 1981, Report No. 1300.

² Population figures are taken from the 1980 U.S. Census.

Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-812; RM-3941]

FM Broadcast Station in Lamoni, Iowa; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 249A to Lamoni, Iowa, in response to a petition filed by Lamoni Broadcasting Co. The assignment could provide Lamoni with a first local aural broadcast service.

DATES: Comments may be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 12, 1981.

Released: November 18, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of amendment § 73.202(b), Table of Assignments, FM Broadcast Stations. (Lamoni, Iowa) BC Docket No. 81-812 RM-3941.

1. Lamoni Broadcasting Co. ("petitioner") has filed a petition for rule

making¹ seeking assignment of FM Channel 249A to Lamoni, Iowa, as that community's first assignment. The assignment can be made in compliance with the Commission's rules, and petitioner states that it will apply for the channel, if assigned. No oppositions to the proposal were received.

2. Lamoni (population 2,705),² in Decatur County (population 9,794), is located approximately 112 kilometers (70 miles) south of Des Moines, Iowa. It presently has no local aural service.

3. Petitioner states that Lamoni, the largest city in Decatur County, is growing and has an excellent potential for development, due largely to its accessible location adjacent to an interstate and U.S. Highway. A further indicator of its growth potential is attributed to its equi-distant location between Des Moines and Kansas City. The proposed station would fill an important community need for coverage of general events and especially sports activities, for which there is considerable interest in the Lamoni area, according to petitioner.

4. In view of the fact that the proposed FM assignment could provide a first local aural broadcast service to Lamoni, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules, as follows:

City	Channel No.	
	Present	Proposed
Lamoni, Iowa		249A

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. **NOTE:** A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before January 4, 1982 and reply comments on or before January 19, 1982.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980, do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

¹ Public Notice of the petition was given on July 28, 1981, Report No. 1300.

² Population figures are extracted from the 1980 U.S. Census.

8. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

47 CFR PART 73

[BC Docket No. 81-778; RM-3946]

FM Broadcast Station in Great Bend, Kansas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of Class C Channel 300 to Great Bend, Kansas, in response to a petition filed by John E. Bozeman. The proposed assignment could provide a second commercial FM service to Great Bend.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Great Bend, Kansas) BC Docket No. 81-778 RM-3946.

1. The Commission herein considers a petition for rule making¹ filed by John E. Bozeman ("petitioner"), proposing the assignment of Class C Channel 300 to Great Bend, Kansas. The proposal could provide Great Bend with its second commercial FM assignment. Petitioner stated his intent to apply for the channel, if assigned. No oppositions to the proposal were received.

2. Great Bend (population 16,606),² seat of Barton County (population 31,343), is located approximately 144 kilometers (90 miles) northwest of Wichita, Kansas. It is served locally by fulltime AM Station KVGB, FM Station KVGB (Channel 282), and noncommercial FM Station KBJC (Channel 220A).

3. Petitioner states that the proposed assignment would provide Great Bend with a second commercial broadcast service under separate ownership. Petitioner's preclusion study indicates that nine communities³ with a population greater than 1,000 people, having no FM service, would be affected by the assignment. An alternative channel is available to each of the communities in the precluded area.

4. Comments are invited on the proposal to amend the FM Table of Assignments, § 73.202(b) of the Rules, with regard to the city of Great Bend, Kansas, as follows:

City	Channel No.	
	Present	Proposed
Great Bend, Kansas	282	282, 300

5. The Commission's authority to institute rule making proceedings.

¹ Public Notice of the petition was given on July 28, 1981, Report No. 1300.

² Population figures are taken from the 1980 U.S. Census.

³ *Oklahoma:* Buffalo (1,381). *Kansas:* Greensburg (1,885); Kinsley (2,074); St. John (1,346); Ness City (1,769); Dighton (1,390); La Crosse (1,618); Syracuse (1,654); and Leoti (1,869).

showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Montrose Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

[BC Docket No. 81-780; RM-3922]

TV Broadcast Station in Lawrence, Kansas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign UHF television Channel 38 to Lawrence, Kansas, in response to a petition filed by Telegraphics, Inc. The assignment could provide Lawrence with its first local television service.

DATES: Comments must be filed on or before January 4, 1982, and reply comments must be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division:

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Lawrence, Kansas) BC Docket No. 81-780 RM-3922.

1. A petition for rule making¹ was filed by Telegraphics, Inc. ("petitioner") proposing the assignment of UHF television Channel 38 to Lawrence, Kansas, as that community's first local commercial television broadcast service. The assignment could be made in compliance with the minimum distance separation requirements of § 73.610 of the Commission's rules. Supporting comments were filed by the petitioner in which it reaffirmed its intent to apply for the channel, if assigned. Appended to those comments were letters from citizens of the community advocating support of the proposal. No oppositions to the proposal were received.

2. Lawrence (population 52,738),² the seat of Douglas County (population 67,640), is located in the northeastern part of Kansas, approximately 60 kilometers (37 miles) southwest of

Kansas City. It presently has no local television channel assignment.³

3. Petitioner advises that Lawrence has its own government unit, municipal services, health care services, a library, schools, banks, savings and loan associations, and recreational facilities. Additionally, it is the location of the University of Kansas, as well as Haskell Indian Junior College, one of the largest Indian schools in the United States, according to petitioner. It further asserts that a substantial portion of its economy is derived from agriculture, although several major industries in Lawrence also contribute to its economic base. It adds that the community is well served by a multiplicity of transportation services, and indicates the availability of several local newspapers to its residents. Petitioner has submitted suitable data to demonstrate a need for the proposed television assignment to Lawrence.

4. In view of the foregoing, and the fact that the proposed television channel assignment could provide a first local commercial television broadcast service to Lawrence, the Commission believes it appropriate to propose amending the Television Table of Assignments, § 73.606(b) of the Rules, as follows:

City	Channel No.	
	Pres-ent	Pro-posed
Lawrence, Kans.		38

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before January 4, 1982 and reply comments on or before January 19, 1982.

7. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Assignments, § 73.606(b) of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act do not apply to rule making to amend §§ 73.202(b), 73.504 and 73.606(b) of the*

¹ Petitioner observes that Channel 11, formerly assigned to Lawrence, was reassigned to Topeka in 1962, where it is in use today by the Washburn University of Topeka. (Such reassignment was made in order to facilitate development of a state-wide educational network (Docket No. 13060).)

¹ Public Notice of the petition was given on July 8, 1981, Report No. 1296.

² Population figures are extracted from the 1980 U.S. Census.

Commission's Rules, 46 FR 11549, published February 9, 1981.

8. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.
Martin Blumenthal,
Acting Chief, Policy and Rules Division
Broadcast Bureau.

Appendix

1. Pursuant to authority found in section 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be

considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-783; RM-3939]

FM Broadcast Station in McPherson, Kansas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 240A to McPherson, Kansas, in response to a petition filed by Dean Curfman. The assignment could provide McPherson with a second FM station.

DATES: Comments must be filed on or before January 4, 1982, and reply comments must be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division:

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (McPherson, Kansas) BC Docket No. 81-783 RM-3939.

1. Dean Curfman ("petitioner") has filed a petition for rule making,¹ seeking assignment of Channel 240A to McPherson, Kansas, as that community's second FM assignment. The assignment could be made with a site restriction, as noted *infra*, to comply with the minimum distance separation requirements, and petitioner stated that he will apply for the channel, if assigned. Comments were filed by McPherson Broadcasting, Inc. ("MBI"), licensee of co-owned Stations KNEX (AM-FM), in McPherson, to which the petitioner responded.

2. McPherson (population 11,753),² in McPherson County (population 26,855), is located approximately 80 kilometers (50 miles) north of Wichita, Kansas. It is presently served locally by daytime-only AM Station KNEX and KNEX (FM) (Channel 244A).

3. Petitioner indicates that McPherson's present aural facilities are co-owned by MBI, which, in turn, is owned by the community's local newspaper. It adds that a second diverse voice is needed in the community for the presentation of new and public affairs.

4. MBI stated that petitioner's preclusion study was incomplete in that a number of Kansas communities not mentioned in the petition would be precluded by the assignment of Channel 240A to McPherson.³

5. Petitioner advises that the assignment of Channel 240A to McPherson will cause preclusion on Channels 240A and 242. Petitioner should provide a list of all precluded

¹ Public Notice of the petition was given on July 28, 1981, Report No. 1300.

² Population figures are extracted from the 1980 U.S. Census.

³ MBI also alleged that the petitioner recently passed away and attached an obituary notice. Petitioner responded that the notice pertained to his late father, Dean Curfman.

communities containing a population in excess of 1,000 persons which would sustain preclusion as a result of the assignment, and a list of alternate channels for all precluded communities without local service. This information should be supplied in its supporting comments.

6. As a final matter, it is noted that the transmitter site must be located approximately 10.6 kilometers (6.6 miles) north-northwest of McPherson to avoid short-spacing to Station KGCS in Derby, Kansas.

7. In order to give further consideration to the request, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, as follows:

City	Channel No.	
	Present	Proposed
McPherson, Kans.	244A	240A, 244A

8. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

9. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

10. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

11. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission,
Martin Blumenthal,
Acting Chief, Policy and Rules Division
Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures:* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions

by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceedings will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

TV Broadcast Station Norwell, New Bedford and Vineyard Haven, Massachusetts, and Kittery, Maine; Proposed changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of UHF television Channel 46 to Norwell, Massachusetts, substitution of Channel *34 for Channel *47 at New Bedford, Massachusetts, and substitution of Channel *39 for channel *34 at Kittery, Maine, in response to a petition filed by Mid-Shore Communications, Inc. This action also proposes the assignment of UHF television Channel 58 to Vineyard Haven, Massachusetts, in response to a petition filed by Metrovision, Inc.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rule Making

Adopted: November 6, 1981.

Released: November 25, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Norwell, New Bedford and Vineyard Haven, Massachusetts, and Kittery, Maine) BC Docket No. 81-772 RM-3871 RM-3913.

1. The Commission has before it for consideration two separate petitions for rule making. The first filed by Mid-Shore Communications, Inc. ("Mid-Shore"),¹ proposes the assignment of UHF television Channel 46 to Norwell, Massachusetts, the substitution of Channel *34 for Channel *47 at New Bedford, Massachusetts, and the substitution of Channel *39 for Channel *34 at Kittery, Maine. The second petition filed by Metrovision, Inc. ("Metrovision"),² proposes the assignment of UHF television Channel 19 to Vineyard Haven, Massachusetts. Although the requests can be resolved independently, we are consolidating them for consideration here due to the short spacing conflict between Vineyard Haven, Massachusetts (Channel 19) and New Bedford, Massachusetts (Channel *34). Both petitioners have stated their intent to apply for their respective requested channels, if assigned. The Association of Maximum Service Telecasters, Inc. ("MST") filed comments on both proposals.

2. MST in comments to the Mid Shore proposal contends that short spacing exists between the reference point proposed for Channel *39 at Kittery, Maine, and WXNE-TV (Channel 25), Boston, Massachusetts. It does not object to the proposal, provided a site restriction is imposed. With regard to the Vineyard Haven proposal (Channel 19), the transmitter site is approximately 21 miles from the proposed New Bedford, Massachusetts, Channel 34 assignment, whereas 75 miles is required. It appears impossible to comply with the mileage separation requirements for both proposals based on the engineering data submitted. MST states that it takes no position as to which proposal should be granted, provided no short spacing results.

3. Norwell (population not listed in U.S. Census) in Plymouth County (population 405,437),³ is located approximately 37 kilometers (23 miles) southeast of Boston. It has no local television service. Vineyard Haven

(population 1,600), in Dukes County (population 8,942), is located on the Island of Martha's Vineyard, approximately 105 kilometers (67 miles) south of Boston. It is also without local television service.

4. Mid-Shore states that it earlier applied for authority to construct a low-power translator station at Hanover-Norwell on Channel 46, but now feels that a full service operation with a significant orientation toward public concerns, community needs and local interests, would best serve the community. Due to Federal Aviation Administration restrictions, the antenna height of the translator would have been restricted. An alternate site would have provided excellent coverage of Massachusetts Bay but poor coverage in the areas of greatest population concentration. Both are to be considered unfavorable since restricted coverage would limit revenues and the ability to finance programming. Mid-Shore noted, in connection with the proposed changes, the short spacing of Channel *39 at Kittery to Channel 25 at Boston, but claims that little difficulty would be encountered in meeting the requirements. The proximity of the proposed assignment to Pease Air Force Base would virtually mandate a location beyond the business district of Kittery at a site north or northeast of the city. According to Mid-Shore, Norwell's growing economy and population is supportive of a first television assignment.

5. Metrovision contends that Martha's Vineyard (Dukes County) has a seasonably variable population (winter approximately 6,100; and summer approximately 54,000). It is within the Grade A contour of most Providence and New Bedford stations, yet it is still without local television, cable or radio service. Vineyard Haven does, however, have two weekly newspapers.

6. *Comments:* The proposed assignment of Channel 19 to Vineyard Haven, Massachusetts, is short spaced to the proposed assignment of Channel *39 at Kittery, Maine. A staff study shows that Channel 58 is available for assignment to Vineyard Haven. No other channel was available as a substitute at Kittery. The proposal for Kittery (Channel *39) will require a site restriction of 1.5 kilometers (0.9 miles) northeast. All other proposals can be made in compliance with the minimum distance separation requirements.

7. Canadian concurrence in the assignments and substitutions must be obtained.

8. The Commission believes that consideration of the proposals would be

in the public interest. Accordingly, it is proposed to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules, for the communities listed below:

City	Channel No.	
	Present	Proposed
Kittery, Maine	*34	*39
New Bedford, Massachusetts	6+, 28-, *47-	6+, 28-, *34
Norwell, Massachusetts		46+
Vineyard Haven, Massachusetts		58+

9. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

10. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

11. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend § 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

12. For further information concerning this proceeding, contact Montrose Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and §§ 0.281(b)(6) of the Commission's rules, it is proposed to amend the TV Table of Assignments, § 73.608(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 11.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate

pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

47 CFR Part 73

[BC Docket No. 81-775; RM-3942]

FM Broadcast Station in Leland, Mississippi and McGehee, Arkansas; Proposed changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the assignment of a Class A FM channel to Leland, Mississippi, and the substitution of one Class A channel for another at McGehee, Arkansas, in response to a petition filed by River Broadcasting Co., Inc. The proposed channel assignment at Leland could provide for a second FM service to that community.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rule Making

Adopted: November 6, 1981.

Released: November 24, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Leland, Mississippi,

and McGehee, Arkansas) BC Docket No. 81-775; RM-3942.

1. A petition for rule making¹ was filed by the River Broadcasting Co., Inc. ("petitioner"), proposing the assignment of FM Channel 272A to Leland, Mississippi,² and the substitution of FM Channel 276A for unused Channel 272A at McGehee, Arkansas. Petitioner has expressed a desire to apply for Channel 272A, if assigned.

2. Leland (population 6,667),³ in Washington County (population 72,344), is located approximately 136 kilometers (85 miles) northwest of Jackson, Mississippi. It is served locally by daytime-only AM Station WESY and FM Station WBAD (Channel 232A).

3. Petitioner asserts that Leland is only ten miles from the recreational advantages of the Mississippi River and the cultural advantages of Greenville. Although primarily an agricultural area, the economy is based largely on oil production and manufacturing. The community is said to be healthy and orderly with an expectation of future growth. There is a need for an additional assignment, based on its economy and projected growth, according to petitioner.

4. *Comments:* Petitioner did not submit a preclusion study for the proposed second FM assignment at Leland (Channel 272A) and is requested to do so in comments to this proposal, indicating alternate channels available to the communities precluded by the assignment.

5. In view of the apparent need for a second local FM broadcast service to Leland, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, as it pertains to Leland, Mississippi, and McGehee, Arkansas, as follows:

City	Channel No.	
	Present	Proposed
McGehee, Arkansas.....	272A.....	276A.
Leland, Mississippi.....	232A.....	232A, 272A.

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures,

¹ Public Notice of the petition was given on July 28, 1981, Report No. 1300.

² The assignment of Channel 272A to Leland, Mississippi, was mutually exclusive with a pending request to assign Channel 272A to Belzonia, Mississippi. Since Channel 296A is available for assignment to Belzonia, whereas there are no other channels available for assignment to Leland, we have substituted Channel 296A for consideration at Belzonia.

³ Population figures are taken from the 1980 U.S. Census.

and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the appendix before a channel will be assigned.

7. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a *Notice of Proposed Rule Making* is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.
Martin Blumenthal,
Acting Chief, Policy and Rules Division,
Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its

present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the Decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference

Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-782; RM-3937]

FM Broadcast Station Cozad, Nebr.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes two optional assignment plans regarding allocation of an FM channel to Cozad, Nebraska, in response to a petition filed by Tri-City Broadcasting, Inc. The proposal could provide Cozad with its first FM service.

DATES: Comments must be filed on or before January 4, 1982, and reply comments must be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Cozad, Nebraska). BC Docket No. 81-782, RM-3937.

1. Tri-City Broadcasting, Inc. ("petitioner"), has filed a petition for rule making¹ seeking assignment of Channel 283 to Cozad, Nebraska, as its first FM assignment. Petitioner states that it will apply for the channel, if assigned to Cozad. No oppositions to the petition have been filed, and the channel could be assigned in compliance with the minimum distance separation requirements of § 73.207 of the Commission's Rules.

2. Cozad (population 4,453),² in Dawson County (population 22,162), is located approximately 280 kilometers (175 miles) west of Lincoln, Nebraska. It is currently served by daytime-only Station KAMI.

3. Petitioner states that Cozad's principal economic base is derived from agriculture and industrial

¹ Public Notice of the petition was given on July 23, 1981, Report No. 1300.

² Population figures are extracted from the 1980 U.S. Census.

manufacturing. It also has its own government unit, municipal services, retail outlets, schools, health care accommodations, a library, churches, a post office, and recreational facilities. Further, it is stated that Cozad is served by rail and is accessible by an Interstate highway and an airport.

4. Petitioner asserts that the assignment of Channel 283 to Cozad will cause preclusion on Channels 280A, 282, 283, 284, 285A and 286. Twenty-two communities with populations over 1,000 lie within the precluded areas. Petitioner determined that eleven of these communities do not presently have FM assignments. It submitted a study for three of those communities, determined that a number of alternate channels are available for each, and assumed that the remaining eight would likewise have obtainable frequencies.

5. Normally, high-powered, wide-coverage area Class C channels are not assigned to communities as small as Cozad. Exceptions to this policy are made, however, where a Class C channel could provide a significant amount of first or second FM or aural service to surrounding areas and population. Therefore, petitioner should provide a *Roanoke Rapids/Anamosa* study to indicate whether its proposal would cover any unserved and underserved areas. See, *Roanoke Rapids, North Carolina*, 9 FCC 2d 672 (1967), and *Anamosa, Iowa*, 46 FCC 2d 520 (1974). Absent justification for the proposed Class C assignment, a Class A channel may be more appropriate for assignment. Therefore, we are proposing the alternate assignment of Channel 221A to Cozad. Interested parties should indicate whether they would be interested in applying for a Class A channel in Cozad in the event that the Commission determines that a Class C assignment is inappropriate.

6. In light of the foregoing, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with respect to Cozad, Nebraska, as follows:

City	Channel No.	
	Present	Proposed
Cozad, Nebr.....		283
Alternative II		
Cozad, Nebr.....		221A

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

10. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,
Acting Chief, Policy and Rules Division,
Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showing Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly.

Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, They will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-781; RM-3869]

TV Broadcast Station in Las Vegas, Nev.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of UHF television Channel 15 to Las Vegas, Nevada, in response to a petition filed by Doctor R. Crants, Jr. The proposed assignment could provide for a fifth commercial television service to Las Vegas.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 25, 1981.

By the Acting Chief, Policy and Rules Division:

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations. (Las Vegas, Nevada) BC Docket No. 81-778 RM-3946.

1. The Commission herein considers a petition for rule making¹ filed by Doctor R. Crants, Jr. ("petitioner"), proposing the assignment of UHF television Channel 15 to Las Vegas, Nevada, as its fifth television assignment. Petitioner stated that he will apply for the channel, if assigned. Opposing comments were filed by Carson Broadcasting Corporation,² to which the petitioner responded.

2. Las Vegas (population 164,674),³ in Clark County (population 471,816), is located at the southern tip of Nevada, approximately 370 kilometers (230 miles) northeast of Los Angeles, California. It is served locally by television Stations KVBC (Channel 3), KLAS-TV (Channel 8), KTNV-TV (Channel 13), Channel 21 (four applications for construction permits are pending) and KLVX (noncommercial educational Channel *10).

3. Petitioner states that Las Vegas is the sixth fastest growing major in city in

¹ Public Notice of the petition was given on April 7, 1981, Report No. 1279.

² Carson is licensee of Station KVVU-TV, Henderson, Nevada.

³ Population figures are taken from the 1980 U.S. Census.

the United States. The county's projected population for 1990 is approximately 668,000 persons, which, according to petitioner, is due primarily to tourism, new and expanding industry, and the city's attraction as a retirement community and convention center. Petitioner contends that Las Vegas needs and can readily support an additional television station.

4. Carson in opposing comments, argues that the proposed assignment would represent the sixth commercial television station to the Las Vegas-Henderson market, resulting in economic injury to the present licensees. According to Carson, the addition of a sixth station ignores the recognized unitary nature of the Las Vegas-Henderson market and the pending proceeding (BC Docket 80-399) in which another licensee is to be selected for a Las Vegas station.⁴ Carson claims that the addition of another television facility would impair the ability of the stations now operating to present programming in the public interest, referring to the Commission's Broadcast Financial Data for 1978 and 1979, as an indication of how the Las Vegas-Henderson market is being severely affected by slowing revenues and rapidly escalating operating costs. It also claims that other markets of comparable size have not had to support as many as six commercial television stations.⁵ Additionally, Carson claims that the petitioner has also made a commitment to apply for FM Channel 277 at Las Vegas, and if the Commission considers these commitments reliable, there must be some explanation as to how it will reconcile these commitments with the cross-ownership prohibition in § 73.636(a)(1).⁶

5. Petitioner, in reply comments, asserts that the thrust of the opposition's allegation is the alleged unwholesome economic impact on the market. It has been Commission policy not to place artificial limits on the number of channels assigned to a community, where additional channels can be made available without seriously impairing future assignments, citing *Topeka, Kansas*, 4 FCC 2d 536, 537, 7 RR 2d 1753, 1755 (1966). Petitioner contends that the economic impact argument should be resolved at the application stage.

⁴ BC Docket No. 80-399 involves four mutually exclusive applications for a construction permit to operate on Channel 21 at Las Vegas, Nevada.

⁵ As reported in the Commission's Television Channel Utilization Report, Public Notice No. 80-233, of October 30, 1980, the Las Vegas-Boulder area (Boulder assignment used at Henderson) is shown as Market 137.

⁶ Section 73.636(a)(1) is currently under review in BC Docket No. 79-233, a proceeding to delete the UHF-FM exception to the multiple ownership rule.

instead of the rule making stage. With regard to the reconciliation of his commitments to apply for an FM and television channel at Las Vegas, petitioner states that the Commission cannot assume that he will be the ultimate licensee of either of the proposed allocations.

6. The opposition's focus on the economic viability for an additional television facility in the Las Vegas-Henderson market, should be resolved at the application stage, and so should the matter of cross-ownership. In a recent proceeding at *Tullahoma, Tennessee* (BC Docket No. 79-179 (Mimeo No. 29965), 46 Fed. Reg. 43170 (published August 27, 1981)), we have refused to suspend action on requests for new assignments pending the outcome of the cited rule making in BC Docket No. 79-233. Especially since this is merely the notice stage, we do not believe that this step of the proceeding should be delayed. Therefore we shall propose to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules, as it pertains to Las Vegas, Nevada, as follows:

City	Channel No.	
	Present	Proposed
Las Vegas, Nev.	3, 8-, *10+, 13-, and 21+.	3, 8-, *10+, 13-, 15+, and 21+

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

9. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the Television Table of Assignments, § 73.606(b), of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

10. For further information concerning this proceeding, contact Montrose Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of

Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission,
Martin Blumenthal,
Acting Chief, Policy and Rules Division,
Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the TV Table of Assignments, § 73.606(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as a comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

FM Broadcast Station in Las Vegas, Nevada; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of reply comment period.

SUMMARY: Action taken herein extends the time for filing reply comments in a proceeding concerning the proposed assignment of an FM channel to Las Vegas, Nevada. Counsel states that an extension of time is needed to permit petitioner's consulting engineer to complete an evaluation of certain preclusion data.

DATE: Reply comments must be filed on or before November 23, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:
Nancy V. Joyner, Broadcast Bureau,
(202) 632-7792.

SUPPLEMENTARY INFORMATION:

Order Extending Time for Filing Reply Comments

Adopted: November 17, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Las Vegas, Nevada), BC Docket No. 81-568 RM-3861.

1. On August 11, 1981, the Commission adopted a *Notice of Proposed Rule Making*, 46 FR 43207, published August 27, 1981, in the above-referenced proceeding. Comments were filed, and reply comments were due November 9, 1981.

2. We now have before us for consideration a motion for extension of time for filing reply comments to and including November 23, 1981, filed by counsel for Doctor R. Crants ("petitioner"), noting that the request is late pursuant to the requirements of § 1.46(b) of the Rules. Counsel states that petitioner's consulting engineer has recently been summoned as a juror by a local Nashville, Tennessee, court. As a result of this unanticipated commitment, counsel states that the additional time is needed to permit him to evaluate certain preclusion considerations raised in comments filed herein by Western Cities Broadcasting, Inc. ("Western").

3. Counsel for petitioner states that counsel for Western has been contacted and advises that he will interpose no objection to this extension request.

4. We are of the view that, under the circumstances mentioned, additional time is warranted to afford petitioner a moderate period in which to formulate his reply comments. Therefore, we will waive the requirements of Section 1.46(b) since such extension will assure development of a sound and comprehensive record on which to base a decision herein.

5. Accordingly, it is ordered, That the time for filing reply comments in BC Docket No. 81-568 (RM-3861) is extended to and including November 23, 1981.

6. This action is taken pursuant to authority contained in sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Federal Communications Commission.

[BC Docket No. 81-615; RM-3897]

FM Broadcast Station in Thoreau, New Mexico; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of reply comment period.

SUMMARY: Action taken herein extends the time for filing reply comments in a proceeding involving a proposed FM channel to assignment to Thoreau, New Mexico. Counsel for petitioner states that the additional time is needed to formulate a proper response.

DATE: Reply comments must be filed on or before December 7, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 18, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the Matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Thoreau, New Mexico), BC Docket No. 81-615 RM-3897.

1. On August 25, 1981, the Commission adopted a *Notice of Proposed Rule Making*, 46 FR 45169, published September 10, 1981, in the above-entitled proceeding. Comments have been filed and reply comments are due November 23, 1981.

2. On November 16, 1981, counsel for HAL, Inc. ("petitioner") filed a motion for extension of time to and including December 7, 1981, in which to file reply comments herein. Counsel states that opposition comments have been filed by at least two parties, but that due to a change in office location, one of these comments was not received by him in time to formulate an adequate reply. Therefore, a two-week extension of time is requested to enable counsel to confer with the petitioner and prepare a proper response to the opposition comments.

3. Counsel states that counsel for the other parties have been notified of this extension request.

4. In view of the foregoing, we believe that additional time is warranted. Such extension will assure development of a sound and comprehensive record on which to base a decision in this proceeding.

5. Accordingly, it is ordered, That the motion for extension of time filed on behalf of HAL, Inc., is granted, and the time for filing reply comments is extended to and including December 7, 1981.

6. This action is taken pursuant to section 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

[BC Docket No. 81-785; RM-3940]

FM Broadcast Station in Minor Hill, Tenn.; Proposed changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign Channel 221A to Minor Hill, Tennessee, in response to a petition filed by Burwood Broadcasting Corporation. The assignment could provide Minor Hill with a first local FM service.

DATES: Comments may be filed on or before January 4, 1982, and reply comments may be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 6, 1981.

Released: November 20, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Minor Hill, Tennessee), BC Docket No. 81-785 RM-3940.

1. A petition for rulemaking¹ was filed by Burwood Broadcasting Corporation ("Petitioner"), seeking assignment of Channel 221A to Minor Hill, Tennessee,

as that community's first FM assignment. The assignment can be made with a site restriction, as noted *infra*, to conform with the minimum distance separation requirements of § 73.207 of the Commission's rules. Petitioner states that it will apply for the channel, if assigned. No oppositions to the proposal were received.

2. Minor Hill (population 564),² in Giles County (population 24,625), is located approximately 167 kilometers (104 miles) west of Chattanooga, Tennessee. It presently has no local aural service.

3. Petitioner states that Minor Hill has its own government unit, municipal services, an elementary school, civic and social organizations, a bank, and churches. Further, petitioner asserts that the community is comprised also of numerous retail and industrial concerns, and that it is the center of commerce for the surrounding portion of Giles County. In justification of its proposal, petitioner asserts that in addition to a lack of local aural service in the community, it also has no local newspaper. The nearest community to provide broadcast service, according to petitioner, is Pulaski, Tennessee, approximately 16 kilometers (10 miles) distant. Hence, petitioner has set forth sufficient data to demonstrate a need for the proposed service to Minor Hill.

4. In order to accommodate this proposal, the transmitter site must be located at least 2.9 kilometers (1.8 miles) northwest of Minor Hill to avoid short-spacing to Stations WKLN (Channel 221A), Cullman, Alabama, and WDEF (Channel 222), Chattanooga, Tennessee.

5. In view of the fact that the proposed FM channel could provide a first local aural broadcast service to Minor Hill, the Commission believes it appropriate to propose amending the FM Table of Assignments, § 73.202(b) of the Commission's Rules, as follows:

City	Channel No.	
	Present	Proposed
Minor Hill, Tennessee		221A

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

¹Public Notice of the petition was given July 23, 1981, Report No. 1300.

²Population figures are extracted from the 1980 U.S. Census.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Nancy V. Joyner, Broadcast Bureau, (202) 632-7792. However, member of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat. as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.
Martin Blumenthal,
Acting Chief, Policy and Rules Division
Broadcast Bureau.
Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly.

Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of the Commission's rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-772; RM-3938]

FM Broadcast Station in Denton, Tex.; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes the assignment of Class C Channel 256 to Denton, Texas, in response to a petition filed by New Century Broadcasting, Inc. The proposed assignment would provide for a second commercial FM broadcast service to Denton.

DATES: Comments must be filed on or before January 4, 1982, and reply comments on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 8, 1981.

Released: November 25, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations, (Denton, Texas), BC Docket No. 81-772 RM-3938.

1. The Commission herein considers a petition for rule making¹ filed by New Century Broadcasting, Inc. ("petitioner"), proposing the assignment of Class C Channel 256 to Denton, Texas, as its second commercial FM assignment. Comments were filed by the petitioner reaffirming its commitment to apply for the channel, if assigned, and by KIX Radio, Inc.²

2. Denton (population 48,063),³ seat of Denton County (population 143,120) is located approximately 50 kilometers (30 miles) northwest of Dallas. It is currently served by fulltime AM Station KDNT, FM Station KIXK (Channel 201) and noncommercial FM Station KNTU (Channel 201).

3. Petitioner states that the economy of Denton is supported by local and federal government, industrial companies and manufacturing. It claims that during the past year 155 new businesses became operational. Petitioner also claims that Denton's 1980 population figures showed an increase

¹ Public Notice of the petition was given on July 28, 1981, Report No. 1390.

² KIX Radio, Inc. is licensee of Station KIXK (FM), Denton, Texas.

³ Population figures are taken from the 1980 U.S. Census.

of 21 percent (48,063) over the 1970 population (39,874), and the projected increase for the year 1990 is (73,000) 52 percent over the 1980 figures.⁴ Based on the present population, projected future growth and the stable economy of Denton, petitioner alleges a second commercial FM assignment is warranted.

4. KIX in comments to the proposal contends that it is not opposed to the allocation of Channel 256 to Denton. It is however distressed that petitioner made certain allegations about the inadequacy of Station KIXK's programming in meeting the needs of the community. KIX asserts that it is both unfair and misleading for petitioner to make these charges, since it only assumed operation of KIXK (formerly KDDC) on January 2, 1981. It further states it has since that date planned and produced a variety of programs which service the needs of Denton. It is the opinion of KIX that today KIXK(FM) is a station the community of Denton can be proud of.

5. According to the information submitted by the petitioner, the assignment of Channel 256 to Denton will cause preclusion on Channels 255, 256 and 257. The study including communities with populations in excess of 3,000. However, it has been Commission policy to consider the impact of the proposal on the future needs of communities with population greater than 1,000. Petitioner lists only Jacksboro, Texas (population 3,554), as a community with no FM assignment precluded by the assignment of Channel 256 to Denton. Petitioner is requested to submit a list of alternate channels available to that community and to other communities over 1,000 population with no local service in comments to this proposal.

6. The proposed assignment requires a site restriction of 21.6 miles northwest of the city due to Stations KTXU in Paris, KNUS in Dallas, and KPLX in Fort Worth, Texas. Petitioner proposed locating the transmitter approximately 29 miles west-northwest of Denton, indicating that a transmitter located at such a distance would cover Denton with the required 70 dBu signal.

7. In view of the foregoing information and the fact that the assignment would provide a second commercial FM broadcast service, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, with regard to Denton, Texas, as follows:

City	Channel No.	
	Present	Proposed
Denton, Texas	291	256, 291

8. The Commission's authority to institute rule making proceedings, showing required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assignment.

9. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

10. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 Fed. Reg. 11549, published February 9, 1981.

11. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1000, 1032; 47 U.S.C. 154, 303)

Federal Communications Commission,
Martin Blumenthal,
Acting Chief, Policy and Rules Division,
Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in

the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. *Cut-off Procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. *Comments and Reply Comments; Service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission's rules.)

5. *Number of Copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or

⁴ *Population figures are estimated by the Denton Chamber of Commerce.

other documents shall be furnished the Commission.

6. *Public Inspection of Filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW, Washington, D.C.

[BC Docket No. 81-816; RM-3948]

FM Broadcast Station in Mathis and Robstown, Texas; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: Action taken herein proposes the deletion of FM Channel 252A from Mathis, Texas, and its reassignment to Robstown, Texas, in response to a petition filed by Humberto Lozano Lopez. The proposed assignment could provide a second local broadcast service to Robstown.

DATES: Comments must be filed on or before January 4, 1982, and reply comments must be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 16, 1981.

Released: November 23, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Mathis and Robstown, Texas), BC Docket No. 81-816, RM-3948.

1. The Commission herein considers a petition for rule making,¹ filed by Humberto Lozano Lopez ("petitioner"), requesting the deletion of FM Channel 252A from Mathis, Texas, and its reassignment to Robstown, Texas. Petitioner expressed an interest in applying for the channel, if assigned to Robstown. No oppositions to the proposal were received.

2. Mathis (population 5,667),² in San Patricio County (population 58,013), is

located approximately 48 kilometers (30 miles) northwest of Corpus Christi, Texas. Mathis has no local broadcast service. Channel 252A is assigned but unoccupied at Mathis. Robstown (population 12,100), in Nueces County (population 268,215), is located approximately 24 kilometers (15 miles) west of Corpus Christi. It is served locally by Stations KROB (AM) and KROB-FM, Channel 260.

3. Petitioner asserts that there are no other FM frequencies available for assignment to Robstown. The proposed assignment (to a community somewhat larger than Mathis) would provide an additional programming source for the Hispanic community, resulting in a fair and equitable use of spectrum space, according to the petitioner.

4. The petitioner did not submit a preclusion study, and is requested to do so in comments to this proposal, listing the communities with a population greater than 1,000 precluded by the proposed assignment and whether alternate channels are available to those communities.

5. We are satisfied from the information submitted by the petitioner, that a sufficient showing has been made to justify proposing a second FM assignment to Robstown, Texas. However, we are reluctant to delete a channel from Mathis which represents the opportunity for a first local service at that community. Since no interest has been expressed for the use of Channel 252A at Mathis, we have decided to seek comments on the proposal. As we indicated in *Greenfield and Springfield, Mo.* (Docket 81-503) 46 FR 42703, published August 24, 1981, the public interest may be better served by putting to use a vacant frequency if there is no interest in its use at the place of assignment. Here Channel 252A was assigned to Mathis in 1973 not in response to an expression of interest but to conform to the Mexican-U.S. agreement. In view of that fact, we believe it may not be in the public interest to continue to reserve the channel for future use at Mathis.

6. The assignment to Robstown would result in an intermixture of a Class A and a Class C channel (260). The Commission has a policy of permitting such intermixture where no other Class C channels are available for assignment and where, as here, the petitioner is willing to apply for the Class A channel in spite of the unfavorable competitive situation.

7. In view of the foregoing information, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the rules, with regard to the following communities:

City	Channel No.	
	Present	Proposed
Mathis, Texas.....	252A.....	
Robstown, Texas.....	260.....	252A, 260.

8. That Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. NOTE: A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

9. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

10. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules. See, *Certification that sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's Rules*, 46 FR 11549, published February 9, 1981.

11. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792. However, members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message (spoken or written) concerning the merits of a pending rule making other than comments officially filed at the Commission or oral presentation required by the Commission.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Martin Blumenthal,

Acting Chief, Policy and Rules Division, Broadcast Bureau.

Appendix

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached.

2. *Showings Required.* Comments are invited on the proposal(s) discussed in

¹ Public Notice of the petition was given on July 28, 1981, Report No. 1300.

² Population figures are taken from the 1980 U.S. Census.

the *Notice of Proposed Rule Making* to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. Cut-off Procedures. The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See Section 1.420(d) of the Commission's Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this *Notice*, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to assign a different channel than was requested for any of the communities involved.

4. Comments and Reply Comments; Service. Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission's rules.)

5. Number of Copies. In accordance with the provisions of § 1.420 of the Commission's rules and regulations, and original and four copies of all comments, reply comments, pleadings, briefs, or

other documents shall be furnished the Commission.

6. Public Inspection of Filings. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[BC Docket No. 81-811; RM-3944]

FM Broadcast Station in Raymond, Washington; Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This action proposes to assign FM Channel 249A to Raymond, Washington, in response to a petition filed by David E. Gauger. The assignment could provide Raymond with a first local FM and second nighttime aural broadcast service.

DATES: Comments may be filed on or before January 4, 1982 and reply comments may be filed on or before January 19, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Nancy V. Joyner, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: November 12, 1981.

Released: November 19, 1981.

By the Acting Chief, Policy and Rules Division.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Raymond, Washington), BC Docket No. 81-811 RM-3944.

1. David E. Gauger ("petitioner") has filed a petition for rule making¹ seeking assignment of Channel 249A to Raymond, Washington, as that community's first FM assignment. The assignment can be made in compliance with the minimum distance separation requirements of Section 73.207 of the Commission's Rules, and petitioner states that he will apply for the channel, if assigned. No oppositions to the proposal were received.

¹ Public Notice of the petition was given on July 28, 1981. Report No. 1300.

2. Raymond (population 2,991),² in Pacific County (population 17,237), is located approximately 80 kilometers (50 miles) southwest of Olympia, Washington. It is currently served locally by full-time AM Station KAPA.

3. According to petitioner, the area's economic base is derived primarily from the lumber and fishing industries, although tourism, recreation and agriculture also lend support to its economy. Additionally, petitioner indicates that Raymond has its own governmental structure, municipal services, educational institutions, library, health care and recreational facilities.

4. Since Raymond is located within 400 kilometers (250 miles) of the U.S.-Canada border, the proposed assignment of Channel 249A to that community requires coordination with the Canadian Government.

5. In view of the fact that the proposed FM channel assignment would provide Raymond with a first local FM and second nighttime aural broadcast service, the Commission believes it appropriate to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules, as follows:

City	Channel No.	
	Present	Proposed
Raymond, Washington		249A

6. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

Note.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before January 4, 1982, and reply comments on or before January 19, 1982.

8. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980, do not apply to rule making proceedings to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules. See, *Certification that Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend §§ 73.202(b), 73.504 and 73.606(b) of the Commission's rules*, 46 FR 11549, published February 9, 1981.

9. For further information concerning this proceeding, contact Nancy V.

² Population figures are extracted from the 1980 U.S. Census.

Joyner, Broadcast Bureau, (202) 632-7792. Release of 800 MHz Reserve Channels; Order Extending Reply Comment Period

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of reply comment period.

SUMMARY: This order extends by 45 days the time for filing reply comments to the Further Notice of Proposed Rule Making in PR Docket 79-191 concerning the release of the remaining 250 channels in the 800 MHz land mobile reserve band. This action is taken in response to a request for a time extension filed by the Land Mobile

Communications Council who indicated that the analysis of the Comments submitted in this proceeding will require this additional time in order for them to provide comprehensive and responsive reply comments.

DATES: Reply Comments are now due by January 15, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Eugene Thomson, Private Radio Bureau, (202) 632-6497.

SUPPLEMENTARY INFORMATION:

Adopted: November 16, 1981.

Released: November 20, 1981.

By the Chief, Private Radio Bureau.

In the matter of amendment of Part 90 of the Commission's rules to designate frequencies in the 806-821 and 851-860 Mhz bands for Slow-Growth Land Mobile Radio Systems of utilities and public safety Agencies, PR Docket No. 79-191, RM-3380; Amendment of Part 90 of the Commission's rules to allocate frequencies in the 806-821 and 851-860 MHz bands for Public Safety/Special Emergency, Industrial/Land Transportation, Business Radio Service and SMRS/CR Frequency Pools; Amendment of Part 90 of the Commission's rules to facilitate authorization of Wide-Area Mobile Radio Communications Systems on frequencies allocated for Trunked Systems, PR Docket No. 79-334; Amendment of Part 90 of the Commission's rules to allocate additional frequencies from the 800 MHz Spectrum Reserve to Loaded Specialized Mobile Radio-Trunked Systems in markets having all presently-allocated SMR-Trunked frequencies assigned, RM-3691.

1. A Further Notice of Proposed Rule Making in the above-captioned matter was released July 14, 1981. The deadline for filing comments was October 30, 1981, and for filing Reply Comments is November 30, 1981. On November 12, 1981, the Land Mobile Communications Council (LMCC) requested that the date for filing Reply Comments in this proceeding be extended by 45 days.

2. The LMCC states that since over 20 major sets of comments were filed, in addition to numerous smaller filings by other parties, extensive Reply Comments will be required on the part of the LMCC and its constituent members. They estimate it will take until the end of December 1981 to complete the work on their reply comments, and that an additional 15 days will be necessary for review and approval by the LMCC Directors.

3. Due to the importance of this proceeding to the private land mobile community, and because of the Commission's desire to have the most definitive and complete responses possible, an additional forty-five (45) days for filing Reply Comments will be allowed.

4. Accordingly, it is ordered, pursuant to §§ 0.331 and 1.46 of the Commission's rules and regulations, that the time for filing Reply Comments in the above-captioned proceeding is extended from November 30, 1981 to January 15, 1982.

Federal Communications Commission.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 180]

Resolution and Order Approving Application of Maryland Department of Transportation for Foreign-Trade Zone at Baltimore/Washington International Airport, Maryland

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter, hereby orders:

After consideration of the application of the Maryland Department of Transportation, filed with the Foreign-Trade Zones Board (the Board) on May 14, 1981, requesting a grant of authority for establishing, operating, and maintaining a general-purpose foreign-trade zone at the Baltimore/Washington International Airport, Maryland, with the Baltimore Customs port of entry, the Board, finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

As the proposal involves open space on which buildings may be constructed by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to Section 400.815 of the Board's regulations, as are necessary to carry out the zone proposal, providing that prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the U.S. Army District Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Board's Executive Secretary for approval prior to the commencement

of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board Order.

GRANT TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE AT BALTIMORE-WASHINGTON INTERNATIONAL AIRPORT, MARYLAND

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Maryland Department of Transportation (the Grantee) has made application (filed May 14, 1981) in due and proper form to the Board, requesting the establishment, operation, and maintenance of a foreign-trade zone at the Baltimore/Washington International Airport, within the Baltimore Customs port of entry;

Whereas, notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and,

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 73 at the location mentioned above and more particularly described on the maps and drawings accompanying the application in Exhibits IX and X, subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations:

Operation of the foreign-trade zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone site in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any other manufacturing operations within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefor.

The grant is further subject to settlement locally by the District Director of Customs and the Army District Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer at Washington, D.C. this 19th day of November 1981, pursuant to Order of the Board.

Foreign-Trade Zones Board.

Malcolm Baldrige,
Chairman and Executive Officer.

Attest:

John J. Da Ponte, Jr.,
Executive Secretary.

BILLING CODE 3510-25-M

International Trade Administration

Louisiana World Exposition Public Hearing; Environmental Impact

AGENCY: International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: The International Trade Administration (ITA) announces a public hearing on a draft Environmental Impact Statement regarding the proposed 1984 International Exposition in New Orleans, Louisiana.

DATE: The hearing will be held at 6:30 p.m., January 6, 1982.

ADDRESS: The hearing will be held at the City of New Orleans Council Chambers, City Hall, New Orleans, Louisiana.

FOR FURTHER INFORMATION CONTACT: Ed Wilczynski, Department of Commerce, Room 7614, Washington, D.C. 20230, (202) 377-2938.

SUPPLEMENTARY INFORMATION: The purpose of the hearing is to solicit views of all interested and affected parties on matters concerning, among other things, the major site, design, and transportation features for the proposed Louisiana World Exposition (May through October, 1984), New Orleans, Louisiana. The proposed action consists of the development and operation of a

Special Category International Exposition to be held in the City of New Orleans, Louisiana in 1984. The Exposition is proposed for an area along the Mississippi River immediately adjacent to the City's Warehouse District.

Oral statements will be received. However, in order that all persons desiring to present statements have an equal opportunity to express their views, it is requested that all persons limit their oral comments to approximately ten (10) minutes. The cooperation and assistance of persons in conforming to this request will be appreciated. Written statements and exhibits will be accepted by the Department of Commerce official conducting the hearing, or they may be mailed to Mr. Wilczynski at the above address, postmarked within ten (10) calendar days following the hearing.

Copies of the Draft Environmental Impact Statement are available for review at the following locations:

(1) City Planning Commission, Room 9W, City Hall, 1300 Perdido Street, New Orleans, Louisiana 70130.

(2) New Orleans Central Library, 219 Loyola Avenue, New Orleans, Louisiana 70112.

(3) Algiers Regional Library, 3014 Holiday Drive, New Orleans, Louisiana 70114.

(4) East New Orleans Regional Library, 5641 Read Boulevard, New Orleans, Louisiana 70127.

(5) Gentilly Branch Library, 3000 Foy Street, New Orleans, Louisiana 70122.

(6) Milton Latter Branch Library, 5120 St. Charles Avenue, New Orleans, Louisiana 70115.

(7) Broadmoor Branch Library, 3841 Washington Avenue, New Orleans, Louisiana 70125.

(8) Nix Branch Library, 1401 South Carrollton Avenue, New Orleans, Louisiana 70118.

(9) Special Collections Earl K. Long Library, University of New Orleans, Lakefront, New Orleans, Louisiana 70122.

(10) International Expositions Staff, Room 4225, U.S. Department of Commerce, Washington, D.C. 20230.

(11) Louisiana Exposition Authority, 1575 Riverside North, Suite 230, Baton Rouge, Louisiana 70802.

W. H. Morris, Jr.,

*Assistant Secretary for Trade Development,
International Trade Administration, United
States Department of Commerce.*

BILLING CODE 3510-25-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjusting the Import Restraint Level for Certain Man-Made Fiber Apparel From the Republic of Korea

November 30, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Increasing from 1,838,541 dozen to 2,188,541 dozen the level of restraint established for man-made fiber shirts, other than dress shirts, in Category 640, produced or manufactured in the Republic of Korea and exported during the twelve-month period which began on January 1, 1981.¹

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48963) and October 27, 1981 (46 FR 52409)).

SUMMARY: Pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and the Republic of Korea, consultations have been held between representatives of the two governments concerning, among other things, man-made fiber textile products in Category 640. Agreement has been reached to increase the 1981 level for man-made fiber shirts, other than dress shirts, in Category 640 by 350,000 dozen; a decrease of an equivalent amount will be made in the 1982 level for man-made fiber dress shirts in Category 640.

EFFECTIVE DATE: December 3, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Boyd, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-4212).

SUPPLEMENTARY INFORMATION: On December 30, 1980, there was published in the Federal Register (45 FR 85811) a letter dated December 23, 1980 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, which established levels of restraint for certain specified categories of cotton, wool and man-made fiber textile products, including man-made fiber textile products in Category 640, produced or manufactured in the Republic of Korea, which may be entered into the United States for consumption, or withdrawn from warehouse for consumption, during the twelve-month period which began

on January 1, 1981 and extends through December 31, 1981. In the letter published below, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to adjust the level of restraint established for man-made fiber textile products in Category 640pt. (man-made fiber shirts, other than dress shirts) during the agreement year which began on January 1, 1981.

Arthur Garel,

*Acting Chairman, Committee for the
Implementation of Textile Agreements.*

November 30, 1981.

Commissioner of Customs,
*Department of the Treasury, Washington,
D.C.*

Dear Mr. Commissioner: On December 23, 1980, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry for consumption, or withdrawal from warehouse for consumption, of cotton, wool and man-made fiber textile products in certain specific categories, produced or manufactured in the Republic of Korea and exported to the United States during the agreement year which began on January 1, 1981, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.¹

Under the terms of the Arrangement Regarding International Trade in Textile done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1978, as amended; between the Governments of the United States and the Republic of Korea; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on December 3, 1981, and for the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981, entry into the United States for consumption and withdrawal from warehouse for consumption of man-made fiber textile products in Category 640pt.² in excess of 2,188,541 dozen.³

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of man-made fiber textile products from the Republic of Korea

¹ The term "adjustment" refers to those provisions of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and Republic of Korea, which provide, in part, that: (1) Within the aggregate and applicable group limits, specific levels or restraint may be adjusted by designated percentages; (2) these same levels may be adjusted for carryover and carryforward up to 11 percent of the applicable category limit; and (3) administrative arrangements or adjustments may be made to resolve problems arising in the implementation of the agreement.

² In Category 640, all T.S.U.S.A. numbers except 380.0455, 380.8431 and 380.8433.

³ The level of restraints has not been adjusted to account for any imports after December 31, 1980.

have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Arthur Garel,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

DEPARTMENT OF ENERGY

Office of Conservation and Renewable Energy

[Case No. F-003]

Energy Conservation Program for Consumer Products; Petition of Energy Kinetics Incorporated for Waiver of DOE Furnace Test Procedures

AGENCY: Department of Energy.

ACTION: Decision and order.

SUMMARY: Today's Decision and Order denies in part and grants in part the petition of Energy Kinetics Incorporated for a waiver from the existing DOE test procedures for furnaces. The use of the alternate test procedures recommended by petitioner to determine the energy efficiency or consumption of its "purgeable low thermal mass" boiler is denied. Today's Decision and Order modifies the existing DOE test procedures to permit testing of petitioner's purgeable-type boiler.

EFFECTIVE DATE: November 18, 1981.

Expiration Date: November 18, 1982.

FOR FURTHER INFORMATION CONTACT:

James A. Smith, U.S. Department of Energy, Office of Conservation and Renewable Energy, Room GH-065, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585, (202) 252-9127, Eugene Margolis, Esq., U.S. Department of Energy, Office of General Counsel, Room 6B-128, Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585, (202) 252-9510.

SUPPLEMENTARY INFORMATION: The Energy Conservation Program for Consumer Products was established pursuant to the Energy Policy and Conservation Act, Pub. L. 94-163, as amended by the National Energy Conservation Policy Act, Pub. L. 95-619, which requires the Department of Energy (DOE) to prescribe standardized

test procedures to measure the energy consumption of certain consumer products, including furnaces. The intent of the test procedures is to provide a comparable measure of energy consumption that will assist consumers in making purchase decisions. These test procedures appear at 10 CFR Part 430, Subpart B.

The Department of Energy, on September 18, 1980 (45 FR 64108, Sept. 26, 1980), amended the prescribed test procedure regulations to allow the Assistant Secretary for Conservation and Renewable Energy to waive temporarily test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics which either prevent testing of the basic model according to the prescribed test procedures or the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption characteristics as to provide materially inaccurate comparative data.

On December 27, 1980, Energy Kinetics Incorporated filed a Petition for Waiver from the DOE test procedure requirements for measuring the energy consumption of furnaces. In accordance with the provisions of Part 430.27(b) of Chapter II of Title 10, Code of Federal Regulations, DOE published in the Federal Register on February 23, 1981 the Energy Kinetics petition and thereby solicited comments, data, and information respecting the content of the petition (46 FR 13566). By letters dated February 24, 1981, Energy Kinetics notified all known manufacturers of domestically marketed furnaces of similar design. Comments were received from the Hydronics Institute, Hydrotherm, Incorporated, Lawrence D. Spielvogel, Incorporated, and Weil-McLain, Incorporated. The first three comments were sent to the petitioner on April 6, 1981, and Energy Kinetics responded by letter to DOE on April 23, 1981. The comments of Weil-McLain were received late by DOE but nevertheless were sent to the petitioner on April 16, 1981. The petitioner's rebuttal comments to Weil-McLain were contained in its April 23 response. The commenters recommended that DOE deny the petition on the grounds that the test procedures do give representative results; to grant otherwise would give unfair advantage to petitioner because other manufacturers also may deserve some additional credits for their boiler designs. DOE consulted with the Federal Trade Commission on August 20, 1981 concerning the petition from Energy Kinetics, Inc.

The Energy Kinetics's petition contends that the low mass purgeable boiler manufactured by the company has design characteristics which prevent testing in accordance with the prescribed DOE test procedures. The petitioner adds further that even if the test procedures were modified to allow testing of the model, the results obtained from the test procedures would provide materially inaccurate comparative data. Specifically, the petitioner asserts that since the boiler has low mass and low water volume, the temperature rise range of 120°F specified in the existing DOE test procedures (Appendix N, § 2.5.4) will create an inadequate flow rate through the boiler such that the water would flash to steam during the test causing damage to the test unit. The temperature rise range has been the subject of past "applications for exception" filed by manufacturers of finned tube boilers and resulted in amendments to test procedure section 2.5.4. Today's decision and order modifies the test procedures to allow Energy Kinetics "purgeable boiler" to be tested in accordance with the provisions heretofore applicable only to finned tube boilers. Since the problem for both types of boilers is attributable to low thermal mass, similar testing provisions are appropriate, i.e., the water temperature rise is to be 20°F to 40°F. The modification will allow petitioner to test in accordance with existing DOE test procedures.

Even with granting of the above-mentioned modifications, petitioner believes the test procedure still will provide inaccurate information because credits for energy savings attributable to "purgeable features" are not allowed. Thus, petitioner requests a waiver from the DOE test procedures. Petitioner requests that it be allowed to use other test procedures (for instance, Brookhaven National Laboratory) which give additional credits to designs with "purgeable features," i.e., low thermal mass, low standby temperatures, circulating pump delay, to obtain boiler efficiency. DOE rejects, at this time, the contention of Energy Kinetics. DOE and National Bureau of Standards are studying the various designs of purgeable boilers to determine what, if any, test procedure modifications are justified, and will address the issue in a forthcoming rulemaking to amend the DOE furnace test procedures. The rulemaking process will allow all interested parties to participate in determining what changes, if any, are necessary to accurately evaluate these designs.

In consideration of the foregoing, it is therefore ordered that: (1) The "Petition for Waiver" filed by Energy Kinetics Incorporated on December 27, 1980 is hereby denied except as set forth in paragraph (2) below, subject to the provisions of paragraphs (3), (4) and (5).

(2) Notwithstanding any contrary provisions of 10 CFR, Part 430, Energy Kinetics shall be permitted to test its "purgeable type boiler" with the provisions allowed finned tube boilers in § 2.5.4 of Appendix N.

The Energy Kinetics "purgeable boiler" shall be allowed to have a water flow rate adjusted to produce a temperature rise during steady state operation of 20°F to 40°F and outlet water temperature of 200°F ± 5°F. The maximum permissible temperature variation of the return water is limited to 50°F.

(3) With the exception of the modifications set forth in paragraph (2) above, Energy Kinetics shall comply in all respects with the test procedures specified in 10 CFR, Part 430, Appendix N.

(4) The waiver shall remain in effect only until the Department of Energy issues test procedures appropriate to the type of purgeable boiler manufactured by Energy Kinetics and shall in any event expire (one year from issuance).

(5) The decision is based upon the presumed validity of statements, allegations, and documentary materials submitted by the petitioner and commenters. The decision may be revoked or modified at any time upon a determination that the factual basis underlying the petition is incorrect.

Issued in Washington, D.C., November 18, 1981.

Joseph J. Tribble,
Assistant Secretary Conservation and Renewable Energy.

[FR Doc. 81-34675 Filed 11-2-81; 8:45 am]

BILLING CODE 6450-01-M

Economic Regulatory Administration

Pioneer Corp.; Proposed Consent Order

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of Proposed Consent Order and opportunity for comment.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces a proposed Consent Order and provides an opportunity for public comment on the proposed Consent Order.

DATE: Comments by: January 4, 1982.

ADDRESS: Send comments to: Wayne I. Tucker, Southwest District Manager for Enforcement, Economic Regulatory Administration, Department of Energy, P.O. Box 35228, Dallas, Texas 75235, Phone: 214/767-7745.

FOR FURTHER INFORMATION CONTACT: Wayne I. Tucker, Southwest District Manager for Enforcement, Economic Regulatory Administration, P.O. Box 35228, Dallas, Texas 75235, phone: 214/767-7745.

SUPPLEMENTARY INFORMATION: On November 19, 1981 the Office of Enforcement of the ERA executed a proposed Consent Order with Pioneer Corporation of Amarillo, Texas. Under 10 CFR 205.199(b) a proposed Consent Order which involves a sum of \$500,000 or more, excluding interest and penalties, becomes effective no sooner than thirty days after publication in the Federal Register requesting comments concerning the proposed Consent Order. Although the ERA has signed and tentatively accepted the proposed Consent Order, the ERA may, after consideration of the comments it receives, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative Consent Order.

I. THE CONSENT ORDER

Pioneer Corporation, with its home office located in Amarillo, Texas, is a firm engaged in the processing of natural gas and sale of natural gas liquids, natural gas liquid products and plant condensate, and was subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR Parts 210, 211, and 212 during the period covered by this Consent Order ("settlement period"). To resolve certain potential civil liability arising out of the Mandatory Petroleum Allocation and Pricing Regulations and related regulations, 10 CFR Parts 205, 210, 211, 212, in connection with Pioneer Corporation's transactions involving natural gas liquids, natural gas liquid products and plant condensate during the period September 1, 1973 through January 28, 1981, the Office of Enforcement, ERA, and Pioneer Corporation entered into a Consent Order, the significant terms of which are as follows:

A. Pioneer Corporation did not apply in a manner acceptable to the DOE the provisions of 6 CFR Part 150, Subpart I, and 10 CFR Part 212, Subparts D, E and K, when determining the prices to be charged for its natural gas liquid products and plant condensate and, as a consequence, charged prices in excess of the maximum lawful sales prices resulting in overcharges to its customers.

B. The period covered by the Consent was September 1, 1973 through January 28, 1981, and it included all sales of natural gas liquids, natural gas liquid products and plant condensate which were made during that period.

C. The Consent Order constitutes neither an admission by Pioneer Corporation that ERA regulations have been violated nor a finding by the ERA that Pioneer Corporation has violated ERA regulations.

D. The provisions of 10 CFR 205.199j, including those regarding the publication of this Notice, are applicable to the Consent Order.

II. REFUNDS

In this Consent Order, Pioneer Corporation will pay the sum of \$14,907,060 including interest in 24 equal monthly installments commencing on or before 30 days after the effective date of this Consent Order, plus installment interest. Pioneer Corporation may accelerate payment at its election without penalty. Upon full satisfaction of the terms and conditions of this Consent Order by Pioneer Corporation, the DOE releases Pioneer Corporation from any civil claims that the DOE may have arising out of the specified transaction during the settlement period. The Director, Office of Enforcement, ERA, shall direct that these monies be deposited in a suitable account for ultimate disposition by DOE.

III. SUBMISSION OF WRITTEN COMMENTS

The ERA invites interested persons to comment on the terms, conditions, or procedural aspects of this Consent Order.

You should send your comments to Wayne I. Tucker, District Manager for Enforcement, Southwest District Office, Department of Energy, P.O. Box 35228, Dallas, Texas 75235. You may obtain a free copy of this Consent Order by writing to the same address or by calling (214) 767-7745.

You should identify your comments on the outside of your envelope and on the documents you submit with the designation, "Comments on Pioneer Corporation Consent Order." We will consider all comments we receive by 4:30 p.m., local time on January 4, 1982. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Dallas, Texas on the 24th day of November, 1981.

Robert D. Gerring,
Director, Program Operations Division, Office of Enforcement, Economic Regulatory Administration.

ENVIRONMENTAL PROTECTION AGENCY

[RD-FRL-1997-4]

PCI Ozone Corp.; Ambient Air Monitoring Reference and Equivalent Methods; Receipt of Application for Equivalent Method Determination

Notice is hereby given that on October 19, 1981, the Environmental Protection Agency received an application from PCI Ozone Corporation, West Caldwell, New Jersey, to determine if its Model LC-12 Ozone Analyzer should be designated by the Administrator of the EPA as an equivalent method under 40 CFR Part 53 (40 FR 7049, February 18, 1975, 41 FR 11255, March 17, 1976). If, after appropriate technical study, the Administrator determines that this method should be so designated, notice thereof will be given in a subsequent issue of the Federal Register.

Andrew P. Jovanovich,

Acting Assistant Administrator for Research and Development.

[OPTS-51359; TSH-FRL-1997-3]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the Federal Register of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). This notice announces receipt of three PMN's and provides a summary of each.

DATE: Written comments by: January 19, 1982; PMN 81-599, 81-600 and 81-601.

ADDRESS: Written comments, identified by the document control number "[OPTS-51359]" and the specific PMN number should be sent to: Document Control Officer (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-409, 401 M St., SW., Washington, D.C. 20460 (202-755-5687).

FOR FURTHER INFORMATION CONTACT: David Dull, Acting Chief, Notice Review Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-216, 401 M St., SW., Washington, D.C. 20460 (202-426-2601).

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on the PMNs received by EPA:

PMN 81-599

Close of Review Period. February 18, 1982.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Substituted benzenesulfonic acid salt.

Use. The manufacturer states that the PMN substance will be used as a site-limited intermediate.

PRODUCTION ESTIMATES

	Maximum kilograms per year
1 year	3,000
2 year	4,000
3 year	5,000

Physical/Chemical Properties

Melting point—270° C with decomposition.

Solubility: water—0.1-1%.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that during manufacture and use 15 workers may experience dermal and inhalation exposure up to 2 hrs/day, up to 2 days/yr during manual transfer operations.

Environmental Release/Disposal. The manufacturer states that release to the environment will be negligible. Disposal is by incineration.

PMN 81-600

Close of Review Period. February 18, 1982.

Manufacturer's Identity. Claimed confidential business information.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Dichroic tetra-azo ester dye.

Use. Claimed confidential business information.

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on the PMNs received by EPA:

PMN 81-602

Close of Review Period. February 23, 1982.

Manufacturer's Identity. Minnesota Mining and Manufacturing Company, 3M Center, Building 220-3N-02, St. Paul, MN 55144.

Specific Chemical Identity. Decanoic acid, decyl ester.

Use. The manufacturer states that the PMN substance will be used in industrial and commercial temperature indicating devices for perishable products.

PRODUCTION ESTIMATES

	Maximum kilograms per year
1st year	3
2d year	5
3d year	5

Physical/Chemical Properties

Appearance—Oily liquid.
Specific gravity @ 20° C—0.84.
Boiling point—164–170/1 mm.
Flash point COC—350° F.
% volatile by volume—0.5%.
Freezing point—20° C.
Evaporation rate—< 1.
Solubility: water % by wt. @ 20° C—Insoluble.
Vapor pressure @ 20° C—< 1 mm Hg.

Toxicity Data

Acute oral toxicity LD₅₀—> 5.0 ml/kg.
Skin irritation—Very slight irritation.
Eye irritation—Non-irritant.
Exposure. The manufacturer states that during manufacture and use 2 workers may experience dermal exposure up to 0.5 hr/day, up to 20 days/yr during transfer and clean up.

Environmental Release/Disposal. The manufacturer states that less than 10 kg/yr will be released to land and water. Disposal is to a publicly owned treatment works (POTW) and by landfill.

PMN 81-603

Close of Review Period. February 23, 1982.

Manufacturer's Identity. Claimed confidential business information.
Organization information provided:

Annual sales—Over 500 million.
Manufacturing site—Middle Atlantic and East South Central regions.
Standard Industrial Classification Code—282.

Specific Chemical Identity. Claimed confidential business information.
Generic name provided: A modified polymer of substituted and unsubstituted alkyl methacrylates, a substituted alkane, an alkenoic acid and an alkyl acrylate.

Use. Claimed confidential business information. Generic use information provided: The manufacturer states that the PMN substance will be used in a contained use.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties

Appearance—Clear liquid, amber solution.
Specific gravity—1.0–1.1.
Flash point (SFCC)—151° F.
Viscosity for solids @ 25° C—3,000–100,000 cps.
Solvent—60/40.
Residual monomer—< .50%.

Toxicity Data

Acute oral toxicity LD₅₀ (rat)—> 5 g/kg.
Acute dermal toxicity LD₅₀ (rat)—> 5 g/kg.

Skin irritation—Slight.

Eye irritation—Moderate.

Exposure. The manufacturer states that during manufacture a total of 8 workers may experience dermal and ocular exposure up to 8 hrs/day, up to 116 days/yr during sampling, analytical, equipment cleaning, filtration replacement or drumming.

Environmental Release/Disposal. The manufacturer states that no release to the environment is anticipated. Disposal is by landfill and incineration.

Dated: November 30, 1981.

Woodson W. Bercaw,
Acting Director, Management Support Division.

BILLING CODE 6560-31-M

[PP 1G2511/T336; PH-FRL-1997-2]

Pendimethalin; Establishment of Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established temporary tolerances for the combined residues of the herbicide pendimethalin [N-(1-ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzenamine and its metabolite 4-[(1-ethylpropyl)amino]-2-methyl-3,5-dinitrobenzyl alcohol in or on the raw agricultural commodities, sweet corn grain, fodder and forage at 0.1 part per million (ppm).

DATE: These temporary tolerances expire April 1, 1983.

FOR FURTHER INFORMATION CONTACT: Robert Taylor, Product Manager (PM) 25, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 245, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202 (703-557-1800).

SUPPLEMENTARY INFORMATION: American Cyanamid Co., PO Box 400, Princeton, NJ 08540, has requested the establishment of temporary tolerances for the combined residues of the herbicide pendimethalin [N-(1-ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzenamine and its metabolite 4-[(1-ethylpropyl)amino]-2-methyl-3,5-dinitrobenzyl alcohol in or on the raw agricultural commodities, sweet corn grain, fodder and forage at 0.1 ppm.

These temporary tolerances will permit the continued marketing of the above raw agricultural commodities when treated in accordance with the provisions of the experimental use permit 241-EUP-98 which is being

issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, (92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and all other relevant material were evaluated, and it was determined that establishment of the temporary tolerances will protect the public health. Therefore, the temporary tolerances have been established on the condition that the herbicide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active herbicide to be used must not exceed the quantity authorized by the experimental use permit.

2. American Cyanamid Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These tolerances expire April 1, 1983. Residues in excess of these amounts remaining in or on the raw agricultural commodities after this expiration date will not be considered actionable if the herbicide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These tolerances may be revoked if the experimental use permit is revoked or if any experience or scientific data with this herbicide indicate that such revocation is necessary to protect the public health.

As required by Executive Order 12291, EPA has determined that these temporary tolerances are not a "Major" rule and therefore do not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted these temporary tolerances from the OMB review requirements of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 610-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

(Sec. 408(j), 68 Stat. 516, (21 U.S.C. 346a(j)))

Dated: November 20, 1981.

Douglas D. Camp,
Director, Registration Division, Office of
Pesticide Programs.

BILLING CODE 6560-32-M

FEDERAL COMMUNICATIONS COMMISSION

[BC Docket No. 81-788 et al.; File No.
BPCT-790130LI et al.]

*Bay Television Inc., et al.; Hearing
Designation Order*

Adopted: November 9, 1981.

Released: November 24, 1981.

In re applications of: Bay Television, Inc., St. Petersburg, Florida, BC Docket No. 81-788 File No. BPCT-790130LI; Home TV, Incorporated, St. Petersburg, Florida, BC Docket No. 81-789 File No. BPCT-790803KF; Oak Television of Tampa Bay Inc., St. Petersburg, Florida, BC Docket No. 81-790 File No. BPCT-790615KH for construction permit.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it the above-captioned mutually exclusive applications of Bay Television, Inc. (Bay), Home TV, Inc. (Home), and Oak Television of Tampa Bay, Inc. (Oak) for authority to construct a new commercial television broadcast station on Channel 38, St. Petersburg, Florida.

2. Home and Oak contemplate operating subscription television (STV) over their proposed facilities. STV is essentially an entertainment format comparable to other entertainment packages except that it is supported directly by viewers' subscriptions rather than by advertising revenues. In the *Second Report and Order in Docket 21502*, FCC 81-13 (released March 25, 1981) The Commission decided not to consolidate STV authorization requests with applications designated for hearing, where some propose STV operation and others conventional facilities. Accordingly, the STV authorization requests will not be consolidated for hearing in this proceeding.

3. Minority Broadcasters of Florida, Inc. (Minority), filed four oppositions against Oak's November 21, 1980, February 23, March 20, and August 31, 1981 amendments. Minority was an applicant for a construction permit on Channel 38, St. Petersburg, Florida when it filed its oppositions. However, on October 29, 1981 Minority's application was dismissed.¹ Although Minority is no

longer a party to this proceeding, the objections raised by their oppositions are a matter of record and will be discussed.

4. Oak's amendment of November 21, 1980 notified the Commission that Oak's 95% shareholder, Oak Industries, Inc. (OIC), had applied for consent to transfer negative control of KBSC-TV, Corona, California. By its February 23, 1981 amendment, Oak informed the Commission that OIC had effectuated the transfer of control. Oak's March 20, July 20, and August 31, 1981 amendments contain revised exhibits of OIC's broadcast interests which reflected OIC's transfer of control of KBSC-TV to a voting trustee. Each of these amendments states that the information provided is being submitted pursuant to §§ 1.65 and 73.3522, that acceptance of the amendment would not disrupt processing of the applications, and that the other applicants would not be prejudiced by the acceptance of the amendment.

5. Minority proposes that Oak's amendments referring to the transfer of its stock in KBSC-TV be accepted for § 1.65 purposes only. They point out that the transfer of control was a voluntary action taken and reported after the period for amendment as a matter of right had expired. In addition, they contend that this action would improve Oak's comparative posture by improving its diversification showing.

6. The Commission does not allow applicants to amend their applications after the pre-hearing period for filing amendments as a matter of right has passed, in a manner which would improve their comparative posture. *Mid-Florida Television Corporation*, 70 FCC 2d, 158, 46 RR 2d 1503 (1980). The divestiture of an applicant's broadcast interests improves its comparative posture. See, *Azalea Corporation*, 38 FCC 2d 95, 104; 25 RR 2d 975, 980-87 (Rev. Bd. 1972). OIC's transfer of negative control of KBSC-TV took place, and was reported, after the period to amend as of right had passed. Since OIC owns 95% of Oak's stock, Oak's comparative posture would be improved by an unconditional acceptance of the amendments. In light of Commission policy prohibiting applicants from accruing a comparative advantage from post cut-off amendments and Oak's repeated assurance that the other applicants would not be prejudiced by the amendments' acceptance, Oak's four

which required Minority to dismiss its application. Under the terms of the agreement Minority's principals would each be offered a one-thirtieth interest in Home.

¹ On October 29, 1981 the Commission approved the merger agreement between Home and Minority

amendments will be accepted on the condition that its comparative posture will not be improved by their acceptance.

7. Bay Television, Inc. (Bay)²
Applicant estimates that \$692,140 will be required to construct the proposed station and operate it for three months, itemized as follows:

Equipment downpayment	None
Equipment lease (5 months)	\$139,140
Land	100,000
Building	85,000
Miscellaneous	150,000
Operating Costs	218,000
Total	692,140

Applicant plans to finance construction and operation with the following funds: a bank loan of up to \$1,775,000 to Chesapeake Television, Inc. and \$1,000 existing capital.

8. Applicant relies on a bank loan to Chesapeake Television, Inc. which was originally applicant's parent corporation. However, in its amendment of August 15, 1979, applicant notified the Commission of its reorganization. Chesapeake Television, Inc. terminated its involvement with the applicant. Chesapeake's seven shareholders acquired shares of the applicant corporation in direct proportion to their holdings in Chesapeake. Since Chesapeake has terminated its relationship with the applicant, Bay cannot rely on the \$1,775,000 bank loan to Chesapeake to finance its proposed station. However, applicant has demonstrated that it has \$1,000 existing capital. Accordingly, an issue will be designated to determine whether applicant can obtain the \$691,140 it needs to construct and operate its proposed station.

9. Bay proposes a transmitter site which is 1 mile short-spaced to an existing station, WXLTV-TV, Sarasota,

²Bay Television, Inc. is 39.1% owned by the Commercial Radio Institute, Inc. (CRI). David D. Smith is a 4.8% shareholder of CRI. CRI has ownership interests in:

WPTT-TV, Pittsburgh, Pennsylvania
WBFF-TV, Baltimore, Maryland
Channel 28, Columbus, Ohio (construction permit granted)

Channel 38, St. Petersburg, Florida (application)
Channel 61, Wilmington, Delaware (application)
Channel 61, Hartford, Connecticut (application)
In addition, David Smith owns 33% of Comark Television, Inc., the applicant for television stations in:

Channel 26, Daytona Beach, Florida
Channel 38, New Orleans, Louisiana
Channel 18, San Juan, Puerto Rico
Channel 15, Portland, Maine
Channel 62, Syracuse, New York

Section 73.636(a)(2) of the Commission's Rules limits a party to direct or indirect interest in no more than seven television stations.

Florida.³ Applicant has not requested waiver § 73.610(d) of the Rules. Accordingly, an issue with respect to the short-spacing of Bay's proposed transmitter site will also be specified.

10. Home TV, Inc. (Home). Home estimates that \$920,259 will be required to construct the proposed station and operate for three months, itemized as follows:

Equipment downpayment	\$100,000
Equipment payments	104,859
Building	45,000
Miscellaneous	62,000
Operating Costs, three months ⁴	143,000
Total	654,859

⁴ Includes land.

Home plans to finance construction and operation with the following funds:⁴ \$1,580,000 from its STV franchisee, Suncoast STV, Inc. (Suncoast); either \$200,000 from the sale of air time to Suncoast or 6% of the gross monthly program receipts from Suncoast's STV operation, whichever is greater; \$15,000 is existing capital; and \$1,000 from its stock subscription agreements.

11. Applicant relies on the proceeds of a \$5,000,000 bank loan which will be made to Subscription Television of America, Inc. (STA). STA will then make available the portion of these funds that its subsidiary, Suncoast, requires to meet its commitment to Home. Suncoast states in a letter of intent that it will make up to \$1,580,000 of the funds it receives from STA available to the applicant. Suncoast conditions the availability of these funds on both the grant of the construction permit and STV authorization. Since STV authorization is granted independently of the grant of the construction permit, the applicant cannot rely on the \$1,580,000.

12. Applicant also relies on payment of the greater sum: either \$200,000⁵ from the sale of its air time to Suncoast, or 6% of the gross monthly program receipts of Suncoast's STV operation. Since payment of either amount is conditioned upon STV authorization, and STV authorization is granted independently from the grant of the construction permit, applicant cannot rely on either the \$200,000 or a percentage of the

³ Applicant submitted an FAA Determination of No Hazard to Air Navigation for a site with different co-ordinates from the site mentioned in its application. Applicant has never amended its application to reflect a change of location of its transmitter site.

⁴ Applicant's source of funding was assigned to applicant by MBF as a product of their merger. See, footnote 1 supra.

⁵ Suncoast has agreed to pay \$800,000 to Home for air time. Applicant then divided that figure by four to determine what it would receive for the first three months of operation.

proceeds from Suncoast's STV operation. Further, Suncoast is not required to pay applicant the \$200,000 until STV operations commence. Payment of percentage of gross receipts would not occur until 30 days after the close of the quarterly account period. Therefore, applicant would not receive the funds in time for it to be used for the construction and operation of the station during the first three months. For the reasons discussed above, applicant may not rely on either the \$200,000 or a percentage of the proceeds from Suncoast's STV operation.

13. Applicant relies on \$15,000 in existing capital and \$1,000 to be raised by stock subscriptions. Home has demonstrated that it has \$15,000 in existing capital to finance and construct the proposed station. According to the merger agreement between Home and Minority Broadcasters of Tampa Bay, each of the thirteen principals will receive 769 shares of the merged entity. The shares will be purchased for \$0.10 each. Home will receive approximately \$1,000 from these subscriptions. In light of the nominal amount raised by the subscriptions, the Commission will not require the submission of thirteen separate subscription agreements or inquire into the principals' ability to meet their commitments. Therefore, applicant may rely on the \$1,000 it will raise by its stock subscriptions. Accordingly, an issue will be designated to determine whether Home has the additional \$904,259 necessary to construct and operate its proposed station.

14. Section 73.636(a)(1) sets forth a policy against granting television construction permits to applicants who directly or indirectly own, operate or control the radio station licensed to a community which is completely encompassed by the predicted Grade A contour of their proposed television station. Since Home filed its application before September 13, 1979, its application is subject to Note 8 of the Rule. Note 8 exempts UHF applicants from the blanket prohibition of § 73.636(a)(1) and, instead, requires case-by-case analysis to determine whether common ownership, operation, or control of the stations in question would be in the public interest. *Notice of Proposed Rule Making in BC Docket 79-233*, 44 FR 5603 (1979). Two of Home's principals, Robert L. Gilder, and J. Eugene Danzey, have broadcast interests in radio stations which would raise Note 8 issues if Home's application were granted. Robert L. Gilder, 7.69% shareholder of the applicant, is the President of WTMP (AM), Tampa,

Florida. Since Home's proposed station's Grade A contour would envelop Tampa, a one-to-a-market issue will be designated regarding Mr. Gilder's broadcast interests. J. Eugene Danzey, Director, Vice-President Sales and 7.69% shareholder of Home, is the Vice-President, General Manager and fifty percent shareholder of WRXB (AM), St. Petersburg Beach, Florida. If Home's application were granted, the predicted Grade A contour would completely encompass the community of license of WRXB. However, Mr. Danzey has agreed to divest himself of all interest in WRXB upon grant of a construction permit for Home's proposed station. Accordingly, no issue will be specified regarding Mr. Danzey's broadcast interests, but any grant of Home's construction permit will be conditioned on Mr. Danzey severing his association with WRXB (AM).

15. On June 15, 1981, Home amended its application to reflect the results of election of officers held during its annual stockholders meeting of May 25, 1981. Several officers changed position within the applicant's corporation. In addition, a new officer, Beverly Ann Kennard, was elected Assistant Secretary.⁶ On August 3, 1981, Home further amended its application to provide the information required by Form 301, Section II, Tables I and II for Ms. Kennard. In its August 3, 1981, amendment, Home renounced any comparative advantage which might accrue by virtue of its amendment.

16. Bay filed an opposition to Home's June 15, 1981 amendment. Bay contends that the applicant was attempting to accrue an improper comparative advantage by virtue of its post cut-off amendment. Bay objects to Ms. Miller's elevation from Secretary to Vice-President and Mr. Rahall's advancement from Comptroller to Secretary-Treasurer. In addition, Bay objects to the inclusion of Ms. Kennard's name as an officer, and Home's failure to include Table I and II data on her. While Bay does not object to the acceptance of the June 15, 1981, amendment, it advocates barring Home from receiving any comparative advantage by its acceptance.

17. Since Home's June 15, 1981 and August 3, 1981, amendments were timely filed and their acceptance would not disrupt the proceeding, these two amendments will be accepted for § 1.65

⁶ Home's June 15, 1981 amendment states that the election results do not alter the previously filed integration proposal with respect to full time participation of its officers. In addition, in its petition for leave to amend, Home states that acceptance of the amendment would not prejudice any party, or prove disruptive of the proceeding.

purposes. In light of Home's renunciation of any comparative advantage arising from the acceptance of its August 3rd amendment and its statement that acceptance of its June 15, 1981, amendment will not prejudice any other parties to the proceeding, these two amendments are accepted on the condition Home's comparative posture will not be improved by their acceptance. Accordingly, Bay's opposition will be denied.

18. *Oak Television of Tampa Bay, Incorporated* (Oak). We have not received a determination from the Federal Aviation Administration that Oak's proposed tower height and location would not constitute a hazard to air navigation. Accordingly, an issue regarding this matter will be specified.

19. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place before an Administrative Law Judge to be specified in a subsequent order, upon the following issues:

1. To determine with respect to Bay Television, Inc.:

(a) whether it has the additional \$691,140 available to finance the construction and operation expenses;

(b) whether the proposal of the applicant is consistent with the minimum mileage separation requirements of Section 73.610 and if not, whether circumstances exist which would warrant a waiver of that rule.

(c) whether, in light of the evidence adduced pursuant to (a) and (b), applicant is financially and technically qualified.

2. To determine with respect to Home TV, Inc.:

(a) whether Home has the additional \$904,259 available to finance the construction and operation expenses;

(b) whether, in light of Mr. Gilder's interest in WTMP(AM), Tampa, Florida, grant of Home TV, Inc.'s application would be in the public interest.

(c) whether, in light of the evidence adduced pursuant to (a) and (b) applicant is financially and legally qualified.

3. To determine, with respect to Oak Television of Tampa Bay, Incorporated: Whether there is a reasonable

possibility that the tower height and location proposed would constitute a hazard to air navigation.

4. To determine which of the proposals would, on a comparative basis, best serve the public interest.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

21. It is further ordered, That, grant of a construction permit to Home TV Inc., will be subject to the following condition: Prior to the commencement of operation, Mr. Danzey shall certify to the Commission that he severed all interest in and connection with WRXB (AM), St. Petersburg Beach, Florida.

22. It is further ordered, That, Bay Television, Inc.'s Opposition to Home's June 15, 1981 amendment is denied.

23. It is further ordered, That, the Federal Aviation Administration is made a party respondent with respect to issue three.

24. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and the party respondent herein shall, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

25. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the rules.

Federal Communications Commission.

BILLING CODE 6712-01-M

Radio Technical Commission for Marine Services (RTCM) Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," the schedule of future Radio Technical Commission for Marine Services (RTCM) meetings is as follows:

Special Committee No. 79

"Universal Marine Radiotelephone Compatibility"

Notice of 4th Meeting: Wednesday, December 16, 1981—9:30 a.m., Conference Room A-106, FCC Annex, 1229 20th Street, N.W., Washington, D.C.

Agenda

1. Administrative Matters.
2. Discussion concerning tasks and organization.

3. Report of Working Groups.
T. B. Miller, Chairman SC-79, WJC Telephone Company, P.O. Box 9363, Memphis, TN 38109, Phone: (901) 789-3800

Special Committee No. 81

"Review of FCC Rules Applicable to VHF-FM Maritime Frequencies"

Notice of 3rd Meeting: Wednesday, December 16, 1981—1:00 p.m., Conference Room A-106, FCC Annex, 1229 20th Street, N.W., Washington, D.C.

Agenda

1. Administrative Matters.
2. Review of FCC Rules, Parts 81 and 83.

Carl Gray, Chairman SC-81, Consultant, American Waterways Operators, Inc., 1055 Dalebrook Drive, Alexandria, VA 22308, Phone: (703) 360-4625

Executive Committee Meeting

Notice of December Meeting: Thursday, December 17, 1981—9:30 a.m., Conference Room A-110, 1229 20th Street, N.W., Washington, D.C.

Agenda

1. Administrative Matters.
2. Consideration of Terms of Reference for new Special Committees:
 - a. Minimum Performance Standards (MPS) for Automated Vessel Reporting Systems.
 - b. Update of RTCM SC-65 final report concerning "Ship Radar and Related Matters".

Special Committee No. 80

"FCC Rules Review as Required by Regulatory Flexibility Act of 1980"

Notice of 1st Meeting: Thursday, December 17, 1981—1:30 p.m., Conference Room A-110, FCC Annex, 1229 20th Street, N.W., Washington, D.C.

Agenda

1. Administrative Matters.
2. Discussion concerning tasks and organization.
3. Working group assignments.

Charles S. Carney, Chairman SC-80, Nav-Com, Inc., 711 Grand Blvd., Deer Park, NY 11729, Phone: (516) 667-7710

The RTCM has acted as a coordinator for maritime telecommunications since

its establishment in 1947. All RTCM meetings are open to the public. Written statements are preferred, but by previous arrangement, oral presentations will be permitted within time and space limitations.

Those desiring additional information concerning the above meeting(s) may contact either the designated chairman or the RTCM Secretariat (phone: (202) 632-6490).

Federal Communications Commission,
William J. Tricarico,
Secretary.

[FR Doc. 81-34632 Filed 12-3-81; 8:45 am]
BILLING CODE 6712-01-M

[BC Docket No. 81-824 and 81-825; File Nos. BPET-558 and 595]

Public Communication Foundation for North Texas and Denton Channel Two Foundation, Inc.; Hearing Designation Order

Adopted: November 24, 1981.
Released: December 1, 1981.

In the matter of Public Communication Foundation for North Texas, Flower Mound, Texas; BC Docket No. 81-824, File No. BPET-558, and Denton Channel Two Foundation, Inc., Denton, Texas, BC Docket No. 81-825, File No. BPET-595, For a Television construction permit.

1. The Commission has before it (a) above-captioned mutually exclusive applications of Public Communication Foundation for North Texas (PCF) and Denton Channel Two Foundation, Inc. (Denton Foundation) for a new noncommercial educational television station to operate on Channel 2, allocated to Denton, Texas;¹ (b) petitions to deny filed by each applicant against the other;² and (c) related pleadings.

2. PCF and Denton Foundation specify Flower Mound and Denton, respectively, as their communities of license. Consequently, it will be necessary to determine, pursuant to section 307(b) of the Communications Act of 1934, as amended, whether a new station in Flower Mound or Denton would better provide a fair, efficient, and equitable distribution of radio service. If the section 307(b) issue is not determinative (the applicants would serve substantial areas in common), the applications can

¹ Pursuant to § 73.607(b) of the Commission's Rules, PCF proposes Flower Mound, Texas, as its community of license.

² The petitions are, in essence, pre-declaration petitions to specify issues. Since such petitions are no longer permitted, they will be dismissed. *Processing of Contested Broadcasting Applications*, 72 F.C.C. 2d 202 (1979).

be considered under the comparative issue.

Public Communication Foundation for North Texas

3. PCF's proposal embodies several factors identified by the United States Court of Appeals for the District of Columbia Circuit as relevant to a determination as to whether an applicant realistically proposes to serve another (usually larger) community rather than the one specified as its proposed community of license (*de facto* reallocation). *Communications Investment Corporation v. Federal Communications Commission*, 641 F.2d 954 (1981). PCF plans to locate its transmitter near Cedar Hill, Texas, approximately 12 miles southwest of Dallas, Texas, and 28 miles south of Flower Mound. This represents a distance ratio of approximately 2:1. The site is within two miles of the sites of 12 radio and television stations licensed to Dallas and/or Fort Worth. From the proposed site, PCF would encompass all of Dallas, Fort Worth, and Flower Mound within its predicted city grade contour (74 dBu). Flower Mound is a rural community of 4,402 persons with no major industry and only one public elementary school. The 1980 Census indicates that Dallas has a population of 904,078 and Fort Worth has a population of 385,141. PCF, the licensee of KERA-TV and KERA-FM, Dallas, proposes to locate its main studio in Dallas and share staff and facilities with its Dallas stations. PCF's administrative offices are located in Dallas and 52 of its 54 officers and directors reside in either Dallas or Fort Worth; no members of the governing board or officers or directors are residents of Flower Mound. These factors raise a substantial question as to whether PCF realistically intends to serve Dallas and Fort Worth, rather than Flower Mound, and an appropriate issue will, therefore, be specified.

4. Section 73.1125 of the Commission's rules requires that the main studio of a television station be located within the city of license but that, on a showing of good cause, the main studio may be located outside that community. As stated in paragraph 3 above, PCF proposes to locate its main studio in Dallas. Since the main studio location is

³ The Commission recently has indicated that it intends to revisit its current *de facto* reallocation policy. The staff has been directed to prepare an item for the Commission's consideration for the purpose of reexamining that policy. *Son Broadcasting, Inc.*, FCC 81-542 (released November 19, 1981). If and when the Commission's *de facto* reallocation policy is changed, the new policy will be applied to all pending applications, including any then in hearing.

a factor to be considered in a determination of the *de facto* reallocation question of Channel 2 to Dallas or Fort Worth, we are unable to determine that good cause exists or that locating the main studio in Dallas would be consistent with operation of the station in the public interest. Accordingly, an appropriate issue will be specified.

5. PCF estimates that \$2,840,445 will be required to construct its proposed station and to operate it for three months, itemized as follows:

Equipment	\$2,162,695
Land	400,000
Building	125,000
Other Costs	105,000
Total construction costs	2,742,695
Operating costs (three months)	97,750

To meet its construction expenses, PCF intends to rely upon \$2,946,795 from a fund-raising drive and upon a loan of \$500,000 from the First National Bank in Dallas, and to meet its operating costs for three months, the applicant relies on annual project income of \$491,400 from the Dallas County Community College District (DCCCD). Section 73.821(d) of the Commission's Rules prohibits the sale of time by a noncommercial educational television station and limits consideration to be received to the costs incidental to the production and broadcasting of programs. In any case, the agreement with DCCCD is too speculative, since DCCCD states only that it "... would almost certainly be interested in negotiating an agreement with (PCF) for the use of some of the additional time which would be available." With respect to a planned fund-raising campaign, in the absence of a showing that nearly \$3,000,000 can be raised from the public, we also find this source of funds too speculative to rely upon. Consequently, it appears that the applicant will have only \$500,000 upon which it can rely, and an appropriate financial issue will be specified.

6. As stated in Paragraph 3 above, Dallas is the community of license of KERA-TV and KERA-FM, and PCF's predicted city grade contour for its proposed Flower Mound facility would encompass the entire city of Dallas. The Commission has under consideration a proposal which would extend our multiple ownership rules to include noncommercial stations. *Notice of Proposed Rule Making in BC Docket No. 78-165*, 43 F.R. 31047 (July 19, 1978). Accordingly, in the event of a grant of PCF's application, the construction permit will be subject to the outcome of that proceeding.

Denton Channel Two Foundation, Inc.

7. Denton Foundation estimates that \$1,821,550 will be required to construct its proposed station and to operate it for three months, itemized as follows:

Equipment	\$1,488,850
Building	115,000
Other (including earth station, engineering equipment, miscellaneous and pre-operation expenses)	100,660
Operating Costs (three months)	117,040
Total	1,821,550

The applicant does not indicate the costs it will incur in acquiring a tower site. Accordingly, as appropriate financial issue will be specified.

8. To meet its expenses, Denton Foundation intends to rely on \$393,500 in existing capital, a \$1,191,833 grant from the National Telecommunications and Information Administration (NTIA), an anticipated \$318,000 from unnamed universities, \$138,777 in anticipated donations, \$65,200 from project income, and an anticipated community service grant of \$150,000 from the Corporation for Public Broadcasting (CPB). Although NTIA will not commit funds to an applicant in hearing, we have no reason to suppose that, in the event of a grant of its application, Denton Foundation will not receive the full \$1,191,833 which it has requested. Nevertheless, we cannot find that the applicant will have available any of the other funds upon which it relies. Since the applicant has failed to submit a balance sheet, as required by FCC Form 340, Section III, Question 2(b), we cannot determine the availability of any existing capital. No university, corporation, or individual has committed any other funds, and it is unclear what the \$65,200 from "project income" represents. Finally, credit cannot be given for a prospective CPB grant, since grants are not awarded until after a station is operational. Consequently, even with a full grant from NTIA, Denton Foundation would require an additional \$629,717 plus the cost of acquiring a transmitter site, and an appropriate financial issue will be specified.

9. On August 18, 1978, counsel for PCF advised the Commission that Roy Appleton, the president of Denton Foundation, may have improperly solicited or encouraged another person to make an improper *ex parte* presentation in support of its application. In June, 1978, Appleton contacted Congressman Ray Roberts about the delayed acceptance of its application for filing. Roberts brought the matter to the attention of Congressman Lionel Van Deerlin, then-Chairman of the House Communications

Subcommittee, who, in turn, wrote then-Chairman Charles Ferris. Van Deerlin's letter primarily focused on the status of Denton Foundation's application. It did not go to the merits of this case and was essentially a request for expeditious processing. Consequently, we find no improper *ex parte* presentation.

10. On July 27, 1978, Appleton wrote then Chairman Ferris expressing his views in favor of the proposed rule making which would extend the multiple ownership rules to include noncommercial educational FM and TV stations. *Notice of Proposed Rule Making in BC Docket No. 78-165*, 43 FR 31047 (July 19, 1978). The outcome of that proceeding could affect the grant of PCF's application. (See Paragraph 8 above). Since Appleton's letter did not speak to the merits of PCF's application, we find no improper *ex parte* presentation.

11. In February, 1980, the General Investigating Committee of the Texas House of Representatives issued a report regarding the alleged misappropriation of funds by North Texas State University and Texas Women's University. The report alleges that, contrary to state law, some of Denton Foundation's legal and travel expenses and the cost of postage and aerial photographs were paid by the universities. This matter was referred to the State Auditor and, ultimately, to the District Attorney; however, no formal charges have been made. Consequently, no further inquiry is warranted.

Conclusion and Order

12. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. Since the applications are mutually exclusive, the Commission is unable to make the statutory finding that their grant will serve the public interest, convenience, and necessity. Therefore, the applications must be designated for hearing in a consolidated proceeding on the issues set out below.

13. Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding to be held before an Administrative Law Judge at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to Public Communication Foundation for North Texas:

(a) Whether the proposal is realistically one to serve Dallas and/or Fort Worth, Texas, rather than Flower

Mound, Texas, and, if so, the effect thereof on the applicant's basic qualifications;

(b) Whether, in the light of the evidence adduced pursuant to (a) above, the applicant has demonstrated good cause for locating its main studio outside its community of license and whether to do so would be consistent with operation of the station in public interest;

(c) Whether the applicant has available an additional \$2,340,445 for its construction and three months operating costs;

(d) Whether, in light of the evidence adduced pursuant to (c) above, the applicant is financially qualified.

2. To determine, with respect to Denton Channel Two Foundation, Inc.:

(a) The cost of purchasing or leasing its proposed tower site for five months;

(b) Whether the applicant has available an additional \$629,717 plus the cost of purchasing or leasing its proposed tower site;

(c) Whether, in light of the evidence adduced pursuant to (a) and (b) above, the applicant is financially qualified.

3. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of television service.

4. In the event that it is concluded that a choice between the applications should not be based solely on considerations relating to section 307(b), to determine which of the proposals would, on a comparative basis, better serve the public interest.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

14. It is further ordered, That, in the event of a grant of the application of Public Communication Foundation for North Texas, the grant shall be made subject to the outcome of the rule making proceeding in Docket No. 78-165.

15. It is further ordered, That the petitions to deny filed by PCF and Denton Foundation against each other are dismissed.

16. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein shall, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for hearing and to present evidence on the issues specified in this Order.

17. It is further ordered, That the applicants herein shall pursuant to section 311(a)(2) of the Communications Act and § 73.3594 of the Commission's rules give notice of the hearing, within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 73.3594(g) of the rules.

Federal Communications Commission.

William J. Tricarico,
Secretary.

BILLING CODE 6210-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources Administration

National Council on Health Planning and Development; Steering Subcommittee; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to meet during the month of December 1981:

Name: Steering Subcommittee of the National Council on Health Planning and Development.

Date and Time: Friday, December 11, 1981; 9:30 a.m. – 3:00 p.m.

Place: Conference Room 525-529A, Hubert H. Humphrey Building, 200 Independence Avenue, S.W., Washington, D.C. 20201.

Open for entire meeting.

Purpose: The objectives of the Agenda Planning Subcommittee are to (1) assist the Chairperson in planning the order and timing of agenda topics for full Council consideration and action to assure that the Secretary will receive advice and/or recommendations on each of its three areas of functional responsibilities under section 1503(a) in an appropriate time and manner; (2) coordinate information about and among subcommittee activities and plans; and (3) provide preliminary review of proposed changes in Council operations.

Agenda: The Subcommittee will review status reports from HRA officials and plan two FY 1982 plenary sessions for the National Council on Health Planning and Development.

Anyone requiring information regarding the subject Subcommittee should contact Mrs. S. Judy Silsbee, Executive Secretary, National Council on Health Planning and Development, Room 10-27, Center Building, 3700 East-West Highway, Hyattsville, Maryland, 20782. Telephone (301) 436-7175.

Agenda items are subject to change as priorities dictate.

Dated: November 23, 1981.

Jackie E. Nylen,

Advisory Committee Management Officer, HRA.

BILLING CODE 4160-15-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Environmental Quality

[Docket No. NI-87]

Intended Environmental Impact Statement; Rochester, N.Y.

The Department of Housing and Urban Development gives notice that an Environmental Impact Statement (EIS) is intended to be prepared by the City of Rochester, New York, for the following project under HUD programs as described in the appendix to this Notice: Convention Center. This Notice is required by the Council on Environmental Quality under its rules (40 CFR Part 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person or address indicated in the appropriate part of the appendix.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, issues and data which the EIS should consider, recommended mitigating measures and alternatives, and major issues associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

Each Notice shall be effective for one year. If one year after the publication of a Notice in the Federal Register a Draft EIS has not been filed on a project, then the Notice for that project shall be cancelled. If a Draft EIS is expected more than one year after the publication of the Notice in the Federal Register, then a new and updated Notice of Intent will be published.

Issued at Washington, D.C., November 23, 1981.

Francis G. Haas,
Deputy Director, Office of Environmental Quality.

Appendix—EIS on the Convention Center Project

The City of Rochester, New York intends to prepare an Environmental Impact Statement on the project described below and solicits information and comments for consideration in the EIS.

Description: The proposed Convention Center will have a 5,000 to 7,000 person seating capacity and be approximately 205,000 square feet in size. The project will be located in

downtown Rochester, New York in the area bounded on the north by East Main Street, on the east by South Avenue, on the south by Broad Street and on the west by the East Bank of the Genesee River. The estimated cost of the project is \$40,000,000. The proposed project is being developed in accordance with the city's Urban Renewal Plan and may be assisted under the Department of Housing and Urban Development's Community Development Block Grant program.

Need: The City of Rochester determined to prepare an EIS due to the large-scale nature of the project in a dense urban setting and the possible impact on traffic. The EIS will be published and distributed on or about January, 1982. Copies will be on file for public inspection or may be obtained at the address given below.

Alternatives: Alternatives to be considered are: Accept project as proposed; accept smaller project; and no project.

Scoping: The responses to this Notice will assist in identifying data sources and significant environmental issues which the EIS should address, and will help to identify cooperating agencies.

Comments: Comments should be sent by December 24, 1981 to: Peter A. Korn, City Manager, 30 Church Street, Rochester, New York 14614 (or call (716) 428-6924).

[FR Doc. 81-34691 Filed 12-2-81; 8:43 am]

BILLING CODE 4210-01-M

[Docket No. NI-88]

Intended Environmental Impact Statement; Rich County, Utah

The Department of Housing and Urban Development gives notice that an Environmental Impact Statement (EIS) is intended to be prepared for the following project under HUD programs as described in the appendix to this Notice: Eagle Springs planned development, Rich County, Utah. This Notice is required by the Council on Environmental Quality under its rules (40 CFR 1500).

Interested individuals, governmental agencies, and private organizations are invited to submit information and comments concerning the project to the specific person or address indicated in the appropriate part of the appendix.

Particularly solicited is information on reports or other environmental studies planned or completed in the project area, issues and data which the EIS should consider, recommended mitigating measures and alternatives,

and major issues associated with the proposed project. Federal agencies having jurisdiction by law, special expertise or other special interests should report their interests and indicate their readiness to aid the EIS effort as a "cooperating agency."

Each Notice shall be effective for one year. If one year after the publication of a Notice in the Federal Register a Draft EIS has not been filed on a project, then the Notice for that project shall be cancelled. If a Draft EIS is expected more than one year after the publication of the Notice in the Federal Register, then a new and updated Notice of Intent will be published.

Issued at Washington, D.C., November 24, 1981.

Francis G. Haas,
Deputy Director, Office of Environmental Quality.

Appendix—Environmental Impact Statement on the Eagle Springs Planned Development, Rich County, Utah

The HUD Area Office in Denver, Colorado intends to prepare an EIS on the Eagle Springs development as described below, and requests information and comments for consideration in the EIS.

Description: Approximately 2,750 dwelling units will be constructed on 1,800 acres in Rich County, Utah. Eagle Springs is located approximately 1½ miles south of Woodruff, Utah on County Road. A potential 1,892 additional units could be built on 520 acres of land under the developer's option.

Need: An EIS is required because the total number of dwelling units exceeds a HUD established threshold.

Alternatives: The alternatives are HUD participation in the development as proposed by the developer; participation in the development provided that HUD required modifications are implemented by the developer, or rejection of participation in the development.

Scoping: A scoping meeting will not be held. HUD will request input from the appropriate government agencies and service organizations. This notice will also appear in a paper of local circulation in Evanston, Wyoming.

Comments: Comments should be forwarded by December 24, 1981 to: Mr. Carroll F. Goodwin, Area Environmental Officer, U.S. Department of Housing and Urban Development, 1405 Curtis Street, Denver, Colorado 80202. Telephone Number (303) 837-3103, FTS 327-3103.

BILLING CODE 4210-01-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[AR-031177; A-17378]

Arizona; Non-Competitive Sale; Public Land in Greenlee County, Arizona, and Termination of Recreation and Public Purposes Classification

The following described land has been examined and identified for disposal by sale under Section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750; 43 U.S.C. 1713):

Gila and Salt River Meridian

T. 8S., R. 32E.,
Sec. 30, E½NW¼SE¼.

The offering of the subject land for sale will terminate the Recreation and Public Purposes classification AR-031177 on the subject land.

The above described land, comprising 20 acres, is being offered as a direct, non-competitive sale at no less than fair market value, to Rural Housing Development Association, Incorporated. Purchase price will be \$24,000.

Rural Housing Development Association, Incorporated would acquire the land for development of a senior citizen housing complex for southern Greenlee County. The senior citizen complex is a part of the flood relocation project for the Town of Duncan.

Disposal will serve the public interest. The sale is consistent with the Bureau's planning for the land.

The land will be offered for sale within 60 days after the date of this Notice.

Patent when issued, will contain the following reservations:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States, Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

2. All mineral deposits in the lands so patented, and to it, or persons authorized by it, the right to prospect, mine, and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

And will be subject to:

1. A right-of-way for the road which traverses section 30.

2. A 20' wide right-of-way for a natural gas pipeline for City Utilities Company which traverses the E½NW¼SE¼, section 30.

Detailed information concerning the sale is available for review at the Safford District Office, 425 E. 4th Street, Safford, Arizona.

For a period of 45 days, interested parties may submit comments to the Safford District Manager, 425 E. 4th

Street, Safford, Arizona 85546. Any adverse comments will be evaluated by the District Manager, who may vacate or modify this realty action and issue a final determination. In the absence of any action by the District Manager, this realty action will become the final determination of the Department of Interior.

Dated: November 25, 1981.

Kurt J. Kotter,

Acting District Manager:

BILLING CODE 4310-84-M

[U-2924; U-3057]

Utah; Termination of Classification for Multiple Use Management

1. Pursuant to the authority delegated by Bureau Order No. 701 dated July 23, 1964 (29 FR 10526), the Bureau of Land Management Multiple-Use Classification Orders dated August 16, 1967 and October 4, 1967, Serial No's: U-2924 and U-3057 published in the Federal Register August 17, 1967, Vol. 32, No. 159, Pages 11894 and 11895, and October 5, 1967, Vol. 32, No. 193, Pages 13876 and 13877 respectively, are hereby terminated.

The public lands involved aggregate 312,609 acres in Daggett, Duchesne, and Uintah Counties.

2. The classification orders segregated the public lands from appropriation under the agricultural land laws (43 U.S.C. Pts. 7 and 9; 25 U.S.C. 334), from sale under Section 2455 of the Revised Statutes (43 U.S.C. 1171), and from disposition through State and private exchanges under Section 8 of the Act of June 28, 1934 (48 Stat. 1272), as amended by Section 3 of the Act of June 26, 1936 (49 Stat. 1976; 43 U.S.C. 315g) at 10:00 a.m. on December 31, 1981, the lands shall be open to the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

Dated: November 23, 1981.

Roland G. Robison Jr.,

State Director.

[FR Doc. 81-34683 Filed 12-2-81; 8:45 am]

BILLING CODE 4310-84-M

Oklahoma; Intention To Amend Southeast Oklahoma Management Framework Plan**AGENCY:** Bureau of Land Management; Interior.**ACTION:** Notice of intent to amend southeast Oklahoma management framework plan.

SUMMARY: This notice is to advise the public that the Albuquerque, New Mexico District Office of the Bureau of Land Management (BLM) is reviewing and will amend a portion of the Southeast Oklahoma Management Framework Plan (MFP). The review and amendment are in response to an application for competitive lease sale submitted by HFCO, Inc. (NM-50410 (OK)). During the amendment process, the application area will be evaluated to identify areas acceptable for further consideration for leasing.

FOR FURTHER INFORMATION CONTACT: Srinivas Rao, (405) 231-4481, Oklahoma Resource Area Office, Bureau of Land Management, Room 548, 200 NW. Fifth Street, Oklahoma City, Oklahoma 73102.

SUPPLEMENTARY INFORMATION: The Oklahoma Subregion of the Western Interior Coal Production Region was cancelled August 6, 1981 and the six-county Southeast Oklahoma Planning Unit opened to lease by application. The background for this action is contained in the Federal Register, Vol. 46, No. 157, 41218-41219 of August 14, 1981. The MFP Amendment, planned for completion in March, 1982, will incorporate the 170-acre coal Lease Application Area (LAA) into the land use planning process. The LAA was not included in the existing Southeast Oklahoma MFP. The potential for leasing interest was considered low due to the small size of the tract and limited amount of recoverable coal reserves. HFCO, Inc. is now interested in surface mining the Stigler coal bed. HFCO, Inc. is currently mining a private coal lease adjacent to the lease application area on the north. The decision to offer the area at a competitive coal lease sale will be based on the following criteria: The application of unsuitability criteria (43 CFR Part 3461), the resolution of conflicts with existing MFP decisions, the results of public participation and review, surface owner consultation, coordination with other state and federal agencies, and analysis of those values that could be impacted by coal development (for example but not limited to rights-of-way, residences, and socio-economic values).

The application area is located approximately 7 miles northwest of the town of Spiro, in LeFlore County,

Oklahoma. The application includes the following described lands:

Indian Meridian, Oklahoma

T. 9 N., R. 24 E.,
Sec. 3, NE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$,
SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$,
NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$,
N $\frac{1}{2}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$.

Background standards and procedures for MFP Amendment preparation are contained in 43 CFR Part 3400 and 43 CFR Part 1600. The standards for this review are also discussed in the Final Environmental Statement—Federal Coal Management Program, describing the Secretary of the Interior's preferred coal program and alternatives, released in April 1979.

An interdisciplinary team of specialists in the Oklahoma Resource Area Office will conduct the amendment process. Disciplines to be represented include cultural resources, geology, hydrology, land uses, socioeconomic, soils, vegetation, and wildlife.

Public participation opportunities will be provided in the following ways: (1) A notice of intent to amend the MFP will be sent to federal, state, and local governments that would be concerned with the plan or have land use regulatory authority in the vicinity of the proposed amendment, asking them to identify issues and concerns; (2) A news release will appear in local newspapers, asking interested parties to identify issues of concern and impacts that should be addressed; (3) A draft MFP amendment will be distributed for a 30-day public review and comment period in January, 1982; (4) A public meeting will be held during the 30-day review and comment period and will be announced by a news release to appear in local newspapers; (5) Public comments will be considered in the preparation of the final amendment which will be completed and made available to the public in March, 1982. On publication of the final amendment a 30-day protest period will be in effect before a decision can be implemented.

Documents relevant to the planning process are available for public inspection at the BLM Oklahoma Resource Area Office in Oklahoma City at the address provided above.

Dated: November 25, 1981.

L. Paul Applegate,
Albuquerque District Manager, New Mexico State Office.

BILLING CODE 4310-84-M

California; Application To Renew Airport Lease Los Angeles 0165216

Notice is hereby given that pursuant to the Act of May 24, 1928, as amended (49 U.S.C. 211-214), the County of San Bernardino, California, has filed an application to renew its airport lease Los Angeles 0165216 for the following described land:

San Bernardino Meridian, California

T. 14 N., R. 8 E.,
Sec. 24, W $\frac{1}{2}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$.

The purpose of this notice is to inform the public that the filing of this application segregates the described land from all other forms of use of disposal under the public land laws.

Interested persons may submit comments to the District Manager, Bureau of Land Management, 1695 Spruce Street, Riverside, California 92507.

Dated: November 24, 1981.

Joan B. Russell,
Chief, Lands Section, Branch of Lands and Minerals Operations.

New Mexico Redeflegation of Authority

November 27, 1981.

SUMMARY: Section 1.1(a)(2) of Bureau Order No. 701 dated July 23, 1964, as amended by notice published at 45 FR 6177 on Friday, January 25, 1980 (FR Doc. 80-2428 filed 1-24-80; 8:45 a.m.), authorizes the Bureau of Land Management State Directors the opportunity to redelegate the authority to grant, renew, reassign or revoke rights-of-way under Title I, Section 28 of the Mineral Leasing Act of 1920, as amended, and under the Federal Land Policy and Management Act of 1976 to Bureau of Land Management District and Area Managers.

That authority is hereby redelegated to the Albuquerque District Manager.

This notice has no other effect on the provisions of FR Doc. 80-2428.

EFFECTIVE DATE: This redelegation will become effective January 4, 1982.

FOR FURTHER INFORMATION CONTACT: New Mexico State Office, Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501.

Billy M. Brady,

Acting State Director.

BILLING CODE 4310-84-M

[U-45943]

Salt Lake District, Utah; Realty Action-Land Exchange

AGENCY: Bureau of Land Management, Salt Lake District.

ACTION: Notice.

SUMMARY: The following described public lands have been determined to be suitable for disposal by exchange under section 206 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1716:

SELECTED (PUBLIC LAND)

6 N. 18 W. 14, all	640
6 N. 18 W. 26, all	640
7 N. 18 W. 4, SW 1/4	160
7 N. 18 W. 8, all	640

SELECTED (PUBLIC LAND)—Continued

7 N. 18 W. 10, E 1/2 NE 1/4, NW 1/4 SW 1/4, SW 1/4 SE 1/4	240
7 N. 18 W. 14, all	640
7 N. 18 W. 22, all	640
7 N. 18 W. 26, all	640
Total	1,240

In exchange for these lands the Federal Government will acquire the following privately-owned land from Monte Tipton, c/o Herbert H. Halleday, trustee:

OFFERED (PRIVATELY-OWNED LAND)

4 N. 19 W. 23, E 1/2	320.00
4 N. 19 W. 27, E 1/2	320.00
4 N. 19 W. 35, all	320.00
5 N. 19 W. 5, Lots 1-4	41.44
5 N. 19 W. 27, all	320.00
6 N. 19 W. 3, Lot 4, SW 1/4 NW 1/4, NW 1/4 SW 1/4	152.00
6 N. 19 W. 5, Lots 1-4	321.17
6 N. 19 W. 9, Lot 1, NE 1/4 NW 1/4, NW 1/4 NE 1/4, NW 1/4 SE 1/4	320.05
6 N. 19 W. 17, Lots 1-4	37.40
6 N. 19 W. 27, W 1/2	320.00
7 N. 19 W. 17, Lots 1-4	32.02
7 N. 19 W. 17, Lots 1-4	12.20
7 N. 19 W. 21, all	320.00
7 N. 19 W. 29, Lots 1-4	32.04
7 N. 19 W. 33, all	320.00
Total	4,001.65

The exchange will involve the surface estates only, of the above described lands. All of the lands, both public and private, are hereby segregated from the workings of the land laws and from mining claim locations.

DATE: For a period of 45 days interested parties may submit comments to the District Manager, BLM, Salt Lake District, 2370 South 2300 West, Salt Lake City, UT 84119. Any adverse comments will be evaluated by the District Manager who may vacate or modify this realty action and issue a final determination.

FOR FURTHER INFORMATION CONTACT: Detailed information concerning the exchange, including the environmental assessment, is available for review at the Salt Lake District Office, 2370 South 2300 West, Salt Lake City, Utah 84119, or call Evan N. Rudd at 524-5348.

SUPPLEMENTARY INFORMATION: The purpose of the exchange is to acquire non-federal lands valuable for wildlife management purposes and to dispose of public lands designed for agricultural purposes. The exchange has been discussed with Box Elder County officials and is consistent with planning. The public interest will be well served by making this exchange.

The value of the lands to be exchanged are approximately equal and the acreage will be adjusted or money will be used to equalize the values, upon completion of the final appraisal of the lands. The terms and conditions

applicable to the exchange will be as follows:

(1) Ditches and canals reservation on the selected land.

(2) All minerals, together with the rights of ingress and egress to prospect for, mine and remove the same under applicable law, on the offered and the selected land.

(3) Right-of-way for the county roads which pass through the selected land.

(4) Oil and gas leases numbered U-31579, U-31580, U-3582, U-3583 and U-3584, issued to Sue Hartley, Suite 1520, United Bank Center Bldg., Denver, CO 80202.

Frank W. Snell,

District Manager.

BILLING CODE 4310-84-M

[W-52857 and W-73129]

Wyoming; Termination of Segregation

November 20, 1981.

Two proposals for exchange under the authority of the General Exchange Act of March 20, 1922 (42 Stat. 465) were filed with the Regional Forester and serialized and noted to the records of the Wyoming State Office of the Bureau of Land Management. The selected lands were segregated from entry under the General Mining Law. The lands involved are described as:

Sixth Principal Meridian, Wyoming

(W-52857)

T. 41 N., R. 116 W.,

Sec. 33: N 1/2 NE 1/4 SE 1/4 SW 1/4, NW 1/4 SE 1/4 SW 1/4, N 1/2 SW 1/4 SW 1/4.

Containing 35.00 acres.

(W-73129)

T. 35 N., R. 118 W.,

Sec. 30: Lots 4, 5, 8, 9, 10 and 11.

Containing 81.23 acres.

The lands are within the Teton and Bridger National Forests respectively.

These exchange proposals no longer being viable, the notation of the applications is being removed. Accordingly, pursuant to 43 CFR 2091.2-3, the lands shall be opened to operation of the mining laws at 7:45 a.m. on January 4, 1981, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 1828,

2515 Warren Avenue, Cheyenne, Wyoming 82001.

Harold G. Stinchcomb,
Chief, Branch of Lands and Minerals
Operations.

BILLING CODE 4310-84-M

Craig District, Little Snake Resource Area, Colo.; Amendment to Management Framework Plan

In accordance with 43 CFR Part 1601 and Pub. L. 94-579, section 603, the Bureau of Land Management, Craig District, Colorado, is in the process of amending the Williams Fork Management Framework Plan. The purpose of the MFP amendment is to identify areas of high to moderate coal development potential that are suitable for further consideration for competitive coal leasing.

In addition to studying the area listed in the Williams Fork MFP coal amendment announced in the notice published in the Federal Register, Volume 46, Number 191, Friday, October 2, 1981, the areas previously found unsuitable for further consideration for coal development will be reviewed. Any corrections or additions to legal descriptions or stipulations which may be found to be needed will be proposed in the draft environmental assessment for the Williams Fork MFP coal amendment.

BLM Contacts

Comments or requests for further information should be addressed to Duane Johnson, Team Leader, Little Snake Resource Area Office, P.O. Box 1136, Craig, Colorado 81626; or telephone (303) 824-4441.

Dan Martin,

Acting District Manager.

BILLING CODE 4310-84-M

Montana and North Dakota; Regional Coal Team Meeting for Final Tract Ranking, Final Tract Selection, and Final Selection of Alternatives for the Fort Union Regional EIS

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Regional Coal Team Meeting.

SUMMARY: Pursuant to the responsibilities set forth in 43 CFR Part 3400, the Montana State Office is issuing this notice to announce a Fort Union Regional Coal Team meeting January 6 and 7, 1982, in the large conference room

(6th floor) of the Granite Tower Building, 222 North 32nd Street, Billings, Montana. On January 6 the meeting will begin at 10:00 a.m. and on January 7 at 8:15 a.m.

The Fort Union Coal Team agenda includes: (1) Final tract ranking; (2) final tract selection; and (3) final selection of alternatives for the regional EIS.

FOR FURTHER INFORMATION CONTACT:

Bill Frey, Assistant Project Manager, Bureau of Land Management, Montana State Office, P.O. Box 30157, Billings, Montana 59107, (406) 657-6632/FTS 585-6632.

SUPPLEMENTARY INFORMATION: At its November 2-4 meeting, the Fort Union Regional Coal Team made preliminary tract rankings, preliminary tract selections, and preliminary selections of alternatives for the Fort Union Regional EIS. The Regional Coal Team also extended the public comment period for the Site-Specific Analyses and the Preliminary Facility Evaluation Reports until December 15, 1981. The Regional Coal Team invites public comment until this date.

The following describes the federal coal being considered for leasing in each of the 24 tracts.

Kannon Richards,
Acting State Director.[FR Doc. 81-34749 Filed 12-2-81; 8:45 am]
BILLING CODE 4310-84-M**Rock Springs District; Final
Management Decisions, Coal,
Wyoming**

November 24, 1981.

AGENCY: Bureau of Land Management,
Department of the Interior.**ACTION:** Notice of Final Coal
Management Decisions, Rock Springs
District.**SUMMARY:** The Rock Springs, Wyoming
District Office of the Bureau of Land
Management has reviewed and made
final decisions for federal coal

management in the Big Sandy and Salt Wells Resource Areas. The purpose for the review was to update the Management Framework Plans (MFPs) for the two areas and to make certain that the MFPs reflect current statutory requirements and policies to continue carrying out the requirements of Section 522 of the Surface Mining Control and Reclamation Act of 1977. The decisions affect the Rock Springs Known Recoverable Coal Resource Area (KRCRA) which is located in both the Big Sandy and Salt Wells Resource Areas. The KRCRA extends approximately 30 miles north, 30 miles south, and 30 miles to the east of Rock Springs.

Public participation opportunities were provided by Federal Register notice of June 22, 1981; by an open house conducted in Rock Springs on July 8 to discuss the proposed decisions; by a public hearing on the evening of July 8 in Rock Springs; by public review of the proposed decisions brochure of June 19, 1981; and by informal public contacts in the process of reviewing the area. Public comments were carefully considered and the final coal decisions contained in the Management Framework Plans reflect those considerations.

Two brochures summarizing these final coal decisions will be available about December 7, 1981 in the Rock Springs District Office, the Big Sandy Resource Area Office, and the Salt Wells Resource Area Office. Those who attended the public hearing or requested that their name be placed on the coal mailing list will be mailed a copy of each brochure.

DATES: The two brochures will be available to the public on about December 7, 1981.**ADDRESSES:** The Rock Springs District, Big Sandy Resource Area, and Salt Wells Resource Area are all located at: Highway 187 North—Box 1869, Rock Springs, Wyoming 82901.**FOR FURTHER INFORMATION:**

For further information please contact the appropriate Area Manager or the District Geologist at the above address; or call (307) 382-5350. Big Sandy Resource Area Manager: Clint Hanson. Salt Wells Resource Area Manager: Bob Bierer. District Geologist: Steve Ellis.

Maxwell T. Lieurance,
State Director.[FR Doc. 81-34750 Filed 12-2-81; 8:45 am]
BILLING CODE 4310-84-M

Geological Survey**Oil and Gas Sulphur Operations, Outer Continental Shelf; Conoco, Inc.**

AGENCY: U.S. Geological Survey, Department of the Interior.

ACTION: Notice of the receipt of a proposed development and production plan.

SUMMARY: Notice is hereby given that Conoco Inc. has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS 0146, Block 58, West Delta Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Geological Survey is considering approval of the Plan and that it is available for public review at the Office of the Conservation Manager, Gulf of Mexico OCS Region, U.S. Geological Survey, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Public Records, Room 147, open weekdays, 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837-4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the U.S. Geological Survey makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: November 25, 1981.

Lowell G. Hammons,
Conservation Manager, Gulf of Mexico OCS Region.

BILLING CODE 4310-31-M

Oil and Gas and Sulphur Operations, Outer Continental Shelf; Marathon Oil Co.

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of the receipt of a proposed development and production plan.

SUMMARY: Notice is hereby given that Marathon Oil Company has submitted a Development and Production Plan describing the activities it proposes to

conduct on Leases OCS-G 2601, 2894, and 2895, Blocks 57, 38, and 58, respectively, Eugene Island Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Geological Survey is considering approval of the Plan and that it is available for public review at the Office of the Conservation Manager, Gulf of Mexico OCS Region, U.S. Geological Survey, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837-4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the U.S. Geological Survey makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: November 25, 1981.

Lowell G. Hammons,
Conservation Manager, Gulf of Mexico OCS Region.

BILLING CODE 4310-70-M

National Register of Historic Places; Pending Nominations

Nominations for the following properties being considered for listing in the National Register were received by the National Park Service before November 27, 1981. Waiver of the 15-day public commenting period following

this publication is necessary for the Oregon nominations listed below in order for listing of eligible properties to be accomplished before December 31, 1981. Listing in the National Register by this date will enable property owners to take advantage of Oregon's Historic Property Tax Law of 1975 (ORS 358.475), which provides that owners of properties entered into the National Register of Historic Places, including those properties which have been designated as contributing features of historic districts, may apply for special assessment status—a freeze of the assessed valuation for a 15-year period. Waiver of the public commenting period will allow timely listing which is necessary to aid in the preservation of these properties.

Carol D. Shull,
Acting Keeper of the National Register.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the Federal Register on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of \$10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major

regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Fisher, Williams, Agatha L Mergenovich,
Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Please direct status inquiries to the Ombudsman's Office, (202) 275-7326.

Volume No. OPY-4-457

Decided: November 20, 1981.

MC 159277, filed November 13, 1981. Applicant: WALLACE JACKSON TRUCKING CO., P.O. Box 6003, 751 S. Orange Ave., Newark, NJ 07108. Representative: Wallace Jackson (same address as applicant), (201) 374-3871. Transporting *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs), *agricultural limestone and fertilizers, and other soil conditioners* by the owner of the motor vehicle in such vehicle, between points in the U.S.

MC 159287, filed November 16, 1981. Applicant: PAUL WORTH SALMON, Rt. 2, Box 551, Lillington, NC 27546. Representative: Paul Worth Salmon (same address as applicant), (919) 893-3962. Transporting (1) *food and other edible products and byproducts intended for human consumption* (except alcoholic beverages and drugs),

agricultural limestone and fertilizer, and other soil conditioners, by the owner of the motor vehicle in such vehicle, and (2) shipments weighing 100 pounds or less if transported in a motor vehicle in which no one package exceeds 100 pounds, between points in the U.S.

Volume No. OPY-4-459

Decided: November 25, 1981.

MC 148086 (Sub-1), filed November 12, 1981. Applicant: NATIONAL BOOK CONSOLIDATORS, INC., 1227 Madison Avenue, Paterson, NJ 07053. Representative: Morton E. Kiel, Suite 1832, Two World Trade Center, New York, NY 10048-0640, (212) 466-0220. BILLING CODE 7035-01-M

[Volume No. 203]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: November 25, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the Federal Register of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of \$10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Ewing, and Shaffer. Agatha L. Mergenovich, Secretary.

MC 65802 (Sub-78X), filed November 16, 1981. Applicant: LYNDEN TRANSPORT, INC., 5615 West Marginal Way, S.W., Seattle, WA 98106. Representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425-13th Street, NW., Washington, DC 20004. Lead and Sub-Nos. 15 and 21: Broaden (1) general commodities (with exceptions) to "general commodities (except classes A and B explosives)", in the lead and Sub 21, and general commodities (except those of unusual value and household goods as defined by the Commission) to "general commodities" in Sub 15; (2) in Sub 21 ports of entry on the United States-Canada Boundary line at or Seattle, Blaine, Lynden, Oroville, and Sumas, WA to "Snohomish, King, Pierce, Thurston, Mason, Jefferson, Clallam, Skagit, Whatcom, and Okanogan Counties, WA", Eastport, ID to "Boundary County, ID", on AK Hwy 2 between and including the port of entry at or near Northway Junction, AK, and Fairbanks, AK, points within 5 miles of said hwy and points within 85 miles of Fairbanks, and on AK Hwy 3 between and including Tok Junction, AK, and Anchorage, AK and points within 10 miles of Anchorage, AK, to "Third and Fourth Judicial Districts of AK" (3) to allow service at all intermediate points, in the lead (4) remove the restriction precluding joint line service with other carriers in MC-65802; (5) to radial service in the lead.

 BILLING CODE 7035-01-M

[Finance Docket No. 29772]

Guilford Transportation Industries, Inc.; Control; Delaware and Hudson Railway Co.; Intent To File

Guilford Transportation Industries, Inc. (GTI), hereby gives notice that it will file with the Interstate Commerce Commission on or about December 15, 1981, an application under 49 U.S.C. 11343 seeking authorization to acquire control of Delaware and Hudson Railway Company (D&H), a class I rail carrier, through stock ownership.

GTI, a non-carrier, currently controls Maine Central Railroad Company (MEC), and has filed an application in Finance Docket No. 29720 (Sub-No. 1) for authority to control the Boston & Maine Corporation (B&M).

GTI has agreed to purchase, from a subsidiary of Norfolk and Western Railway Company (N&W), all of the outstanding common stock of D&H. GTI's agreement is conditioned on its obtaining Commission approval of its acquisition of control of both D&H and B&M.

GTI and D&H will prepare a traffic study based on traffic for the 1980 calendar year. Because GTI will not acquire control of D&H unless it also can acquire B&M, GTI's traffic study must be prepared as if GTI controlled B&M.

This application will be filed under the requirements of 49 CFR Part 1111 relating to major transactions.

The Commission has waived the 3 to 6 month advance notice requirement (49 CFR 1111.4(b)) for the filing of this application.

Because this case must be decided within 180 days of its receipt under section 1164 of the Northeast Rail Service Act of 1981, the Commission cannot follow the procedural schedule of 49 CFR 1111.4. Upon receipt of the application an expedited procedural schedule will be issued.

Dated: November 20, 1981.

By the Commission, Chairman Taylor,
 Vice-Chairman Clapp, Commissioners
 Gresham and Gilliam.
 Agatha L. Mergenovich,
 Secretary.

 BILLING CODE 7035-01-M

[Ex Parte No. 387 (Sub-66)]

Louisville and Nashville Railroad Company Exemption for Contract Tariff ICC-L&N-C-0005

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Provisional Exemption.

SUMMARY: Petitioner is granted a provisional exemption under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e) and its contract and contract tariff to be filed may be made effective on one day's notice. This exemption may be revoked if protests are filed within 15 days of publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Jane F. Mackall, (202) 275-7656.

SUPPLEMENTARY INFORMATION: The Louisville and Nashville Railroad Company (L&N) filed on November 17, 1981, a petition for exemption under 49 U.S.C. 10505 from the statutory notice provisions of 49 U.S.C. 10713(e). It requests that we permit it to make tariff ICC-L&N-C-0005 effective on one day's notice. The contract involves the movement of coal over the lines of the L&N from Scotia, KY to Mobile, AL. The duration of the contract is five months and renewal options are available. The contract and contract tariff were filed with the Commission on November 17, 1981, and bear the statutorily required effective date of December 18, 1981.

Under 49 U.S.C. 10713(e) contracts must be filed to become effective on not less than 30 nor more than 60 days' notice. There is no provision for waiving this requirement. Cf. former section 10762(d)(1). However, the Commission has granted relief under section 10505 exemption authority in exceptional situations.

The petition shall be granted. Based on the development of a requirement to ship test coal, shipper and petitioner have negotiated in emergency sessions and have agreed to an interim short-term contract to cover the experimental, or test, shipments of coal to begin immediately and to end no later than April 30, 1982. It is imperative that this contract be made effective as soon as possible in order for the shipper to fulfill its requirements and to avoid placing a multi-year contract, scheduled to be in

place in April, 1982, in jeopardy. Petitioners state that there has been no procrastination on the part of any of the parties involved in the contractual process. We find that this is the type of exceptional circumstance which warrants an exemption. Contract tariff ICC-L&N-C-0005 may become effective on one day's notice.

We will apply the following conditions which have been imposed in similar exemption proceedings:

If the Commission permits the contract to become effective on one day's notice, this fact neither shall be construed to mean that this is a Commission approved contract for purposes of 49 U.S.C. 10713(g) nor shall it serve to deprive the Commission of jurisdiction to institute a proceeding, on its own initiative or on complaint, to review this contract and to disapprove it.

Subject to compliance with these conditions, under 49 U.S.C. 10505(a) we find that the 30 day notice requirement in these instances is not necessary to carry out the transportation policy of 49 U.S.C. 10101a and is not needed to protect shippers from abuse of market power. Further, we will consider revoking this exemption under 49 U.S.C. 10505(c) if protests are filed within 15 days of publication in the Federal Register.

This action will not significantly affect the quality of the human environment or the conservation of energy resources.

Dated: November 24, 1981.

By the Commission, Division 2,
 Commissioners Gresham, Gilliam, and
 Taylor. Commissioner Taylor did not
 participate.

Agatha L. Mergenovich,
 Secretary.

[FR Doc. 81-34754 Filed 12-2-81; 8:45 am]
 BILLING CODE 7035-01-M

Service of Decisions Upon Tariff Bureaus and Members in Rate Cases; Procedural Change

AGENCY: Interstate Commerce Commission.

ACTION: Notice of adoption of procedural change.

SUMMARY: The Commission is adopting the procedure of serving decisions in certain rate cases involving tariffs filed by the tariff bureau on behalf of its members only on the agent, who filed the tariff. Also, bureau members who are participating formally in the proceeding will be served. This procedural change does not apply to independent action filings or formal complaints.

EFFECTIVE DATE: This procedural change is effective upon publication in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Darlene Proctor, (202) 275-7233.

SUPPLEMENTARY INFORMATION: By notice published at 46 FR 41639 (08-17-81), the Commission informed the public that it was considering changing its procedure regarding service of certain rate decisions. The Commission proposed that it would serve such decisions on the agent for the tariff bureau and upon those members of the tariff bureau who were formally participating in the proceeding, rather than serve all bureau members. The agent for the tariff bureau would be responsible for notification of the bureau members, who were not formally participating in the proceeding, if the agent deemed such notification necessary.

Comments were received from the Eastern Central Motor Carriers Association, Inc., Central States Motor Freight Bureau, Inc., Rocky Mountain Motor Tariff Bureau, Inc., and Waterways Freight Bureau. The comments were generally favorable. Misunderstanding arose, however, regarding the scope of the proposal.

In response to those comments, we want to clarify that this procedural change will only affect those proceedings in which the tariff bureau has made a collective filing on behalf of its members. Primarily, this would involve a rate investigation and suspension case set for modified procedure. In those cases the Commission will serve only the agent who filed the tariff, and any members who are formally participating in the proceeding. It will be the agent's responsibility to notify the bureau members, if the agent finds that such notification is necessary.

This procedure will not apply to rate cases which involve independent actions of bureau members. We will continue to serve the bureau member or members involved. It will not apply to formal complaints. We will serve all defendants individually.

Accordingly, the Commission adopts the procedural change as discussed above, to become effective upon publication of this notice in the Federal Register.

Decided: November 25, 1981.

By the Commission, Chairman Taylor, Vice Chairman Clapp, and Commissioners Gresham and Gilliam.

Agatha L. Mergenovich,
Secretary.

BILLING CODE 7035-01-M

DEPARTMENT OF JUSTICE

Attorney General

Proposed Consent Decree in Action To Require Compliance With Particulate Emission Regulations at Boise Cascade's Paper Mill, Beaver Falls, New York

In accordance with Departmental policy, 28 CFR § 50.7, 38 FR 19029, notice is hereby given that on November 16, 1981 a proposed consent decree in *United States of America v. Boise Cascade Corporation*, Civil No. 81-CZ-1242 was lodged with the United States District Court for the Northern District of New York.

The proposed consent decree requires the Boise Cascade Corporation to achieve compliance by January 15, 1983 with particulate emissions regulations pertaining to a boiler at the Lewis Mill portion of its Beaver Falls, New York facility.

The proposed consent decree may be examined at the Office of the United States Attorney, 369 Federal Building, 100 South Clinton Street, Syracuse, New York 13260; at the Region II Office of the Environmental Protection Agency, 26 Federal Plaza, New York, New York 10278; and at the Office of the Environmental Enforcement Section, Land and Natural Resources Division of the U.S. Department of Justice, Room 1252, Tenth and Pennsylvania Avenue, N.W., Washington, D.C. 20530. A copy of the proposed consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. In requesting a copy, please enclose a check in the amount of \$1.30 (10 cents per page reproduction charge) payable to the Treasurer of the United States.

The Department of Justice will receive written comments relating to the proposed consent decree for a period of thirty days from the date of this notice. Comments should be directed to the Assistant Attorney General for the Land and Natural Resources Division of the Department of Justice, Tenth and Pennsylvania Avenue, N.W., Washington, D.C. 20530 and should refer to *United States of America v. Boise Cascade Corporation*, D.J. Ref. 90-5-2-1-486.

Carol E. Dinkins,
Assistant Attorney General.

[FR Doc. 81-34635 Filed 12-2-81; 8:45 am]

BILLING CODE 4410-01-M

Proposed Consent Decree in Action; Abatement of Pollution by Vertac Chemical Corporation and Hercules, Inc.

In accordance with Departmental Policy, 28 CFR 50.7, 38 FR 19029, notice is hereby given that on November 18, 1981, a proposed consent decree in *United States of America v. Vertac Chemical Corporation and Hercules, Inc.*, Civil Action No. LR-C-80-109, and *Arkansas Department of Pollution Control and Ecology v. Vertac Chemical Corporation and Hercules Inc.*, Civil Action No. LR-C-80-110, was lodged in the United States District Court for the Eastern District of Arkansas.

The consent decree concerns the Jacksonville, Arkansas facility owned and operated by the defendants. The decree provides for the conduct of studies regarding contamination, proposals for remedial action as appropriate, management of drummed waste, interim pretreatment requirements on discharges into the City of Jacksonville sewage treatment facility and for maintenance of remedial measures. A separate letter confirms that the case does not involve conditions at the Jacksonville sewage treatment plant or its system lines. The Department of Justice will receive until January 4, 1981 written comments related to the proposed judgment. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and refer to *United States v. Vertac Chemical Corporation and Hercules, Inc.*, D.J. Ref. 90-7-1-18.

The proposed consent decree may be examined at the office of the United States Attorney, Room 327, 600 W. Capitol Street, Little Rock, Arkansas 72201, at the Region VI Office of the Environmental Protection Agency, 1201 Elm Street, Dallas, Texas 75270, and at the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice, Room 1254, 10th and Pennsylvania Avenue, N.W., Washington, D.C. 20530. A copy of the proposed decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division, Department of Justice. All requests for copies must be accompanied by a check covering reproduction costs (\$0.10 per page) in the amount of \$2.60 (decree without plan of study) or \$21.20 (decree

with plan of study) made payable to the Treasurer of the United States.

Anthony C. Liotta,
Deputy Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

MOTOR CARRIER RATEMAKING STUDY COMMISSION

Public Hearing; Collective Ratemaking.

Date: December 10, 1981.

Place: Conference Room 1013, Federal Building, 230 North First Avenue, Phoenix, Arizona.

Time: 9:00 a.m.

Purpose: To receive testimony from various parties on collective ratemaking.

The Motor Carrier Act of 1980, Pub. L. 96-296, directs the Motor Carrier Ratemaking Study Commission (Commission) to make a full and complete investigation and study of the collective ratemaking process for all rates of motor common carriers and of the need or lack of need for continued antitrust immunity thereof. The Commission is specifically directed to estimate the impact of the elimination of such immunity upon the rate levels and rate structures and to describe the impact of such on the Interstate Commerce Commission and its staff. Also, the Commission has been directed to give special consideration to the impact of the elimination of such immunity upon rural areas and small communities.

The Commission, through its Hearings Committee, calls for this regional hearing for the purpose of receiving testimony from representatives of key communities of interest which shall focus on:

1. Motor Carrier Regulation: the Arizona Experience;
2. Small Communities and Rural Areas; and
3. Clarifying the Terminology

Anyone who is interested in submitting written testimony for the record of the Commission may do so by sending same to: Larry F. Darby, Executive Director, Motor Carrier Ratemaking Study Commission, 214 Massachusetts Avenue, NE., Washington, D.C. 20002.

For further information contact: J. Dent Jarrell, General Counsel, (202) 724-9600.

This notice is being submitted late due to the uncertainty of the availability of Congressional members due to recent changes in the Congressional calendar.

Submitted this, the 30th day of November 1981

Larry F. Darby,
Executive Director.

[FR Doc. 81-34720 Filed 12-2-81; 8:45 am]

BILLING CODE 6820-80-M

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

Meeting Addendum

November 30, 1981.

Changes have been made to the Agenda for the December 8-9, 1981 Meeting of the National Advisory Committee on Oceans and Atmosphere (NACOA), published in the Federal Register of November 23, 1981 (Page 57376). The agenda has been revised as follows:

Note.—Please note that the swear-in ceremony will be held at the Department of Commerce in Room 5843. The remaining sessions of the agenda will be held at the Page Complex, Page Building #1 at 2001 Wisconsin Avenue, NW.

Tuesday, December 8, 1981

8:45 a.m.—10:30 a.m.

Plenary

8:45 a.m.—9:00 a.m.

• Announcements

9:00 a.m.—10:30 a.m.

• Swear-In Ceremony for New Members
Guest Speakers

Honorable Ted Stevens, Committee on Commerce, Science, and Transportation,
U.S. Senate

Honorable Don Fuqua, Chairman,
Committee on Science and Technology,
U.S. House of Representatives (Invited)

Honorable Norman E. D'Amours,
Chairman, Subcommittee on Oceanography, Committee on Merchant Marine and Fisheries, U.S. House of Representatives (Invited)

10:30 a.m.—11:00 a.m.

Break

Page Building #1, Rooms B-100 and 418, 2001 Wisconsin Avenue, NW., Washington, D.C.

11:00 a.m.—12:00 Noon

• Briefings to New NACOA Members
NACOA Staff, Room 418

12:00 Noon—1:00 p.m.

Lunch

1:00 p.m.—5:00 p.m.

Panel Meetings

1:00 p.m.—5:00 p.m.

• Environment and Regulations
Co-Chairmen: Sylvia A. Earle Michael R. Naess

Room B-100

Topic: Clean Water Act—Section 404 (Permits)

Speakers: Corps of Engineers (TBA);
Environmental Defense Fund James Tripp, Counsel; American Petroleum Institute David Lindgren, Assistant General Counsel

Topic: Offshore Diving Regulations
Scientific Exemption

1:00 p.m.—5:00 p.m.

• Hydrology

Chairman: Paul Bock

Worksession: Review of Draft Report

5:00 p.m.

Recess

Page Building #1, Room 418, 2001 Wisconsin Avenue, NW., Washington, D.C.

Wednesday, December 9, 1981

8:15 a.m.—11:15 a.m.

Panel Meeting

• Weather Services

Chairman: Warren M. Washington Room 418

Topic: Provision of Weather Services to the Nation

U.S. Dept. of Agriculture (TBA)

Environmental Data and Information

Service, National Oceanic and

Atmospheric Administration (TBA)

Federal Aviation Administration (TBA)

Aircraft Owners and Pilots Association (TBA)

11:15 a.m.—12:00 Noon

Plenary

• User Fees

Speaker: Dr. Steve Hanke, Senior Economist, President's Council of Economic Advisers

12:00 Noon—1:00 p.m.

Lunch

1:00 p.m.—3:00 p.m.

Plenary

• Panel Reports

• Discussion of Preliminary Trends

Marine Transportation: Don Walsh

3:00 p.m.

Adjourn Regular NACOA Meeting

3:00 p.m.—6:00 p.m.

Panel Meeting (continued)

• Hydrology

Chairman: Paul Bock

Worksession: Review of Draft Report

Adjourn

Additional information concerning this portion of the meeting may be obtained through the Committee's Executive Director, Steven N. Anastasion, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, 3300 Whitehaven Street, NW., (Page Building #1, Room 438), Washington, DC 20235. The telephone number is 202/653-7818.

Dated: November 30, 1981.

James A. Almazan,

Staff Physical Scientist.

BILLING CODE 3510-12-M

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Humanities Panel; Meeting

AGENCY: National Endowment for the Humanities, NFAH.

ACTION: Notice of Meeting.

SUMMARY: Pursuant to the provision of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that the following meeting of the Humanities Panel will be held at 806 15th Street, N.W., Washington, DC 20506:

Date: December 17-18, 1981.

Time: 9:00 a.m. to 5:30 p.m.

Room: 1134.

Program: This meeting will review applications submitted for Research Materials Program: Translations Western Languages Panel, Division of Research Programs, for projects beginning after April 1, 1982.

The proposed meeting is for the purpose of Panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended including discussion of information given in confidence to the agency by grant applicants. Because the proposed meeting will consider information that is likely to disclose, (1) Trade secrets and commercial or financial information obtained from a person and privileged or confidential; (2) Information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and (3) Information the disclosure of which would significantly frustrate implementation of proposed agency action; pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated January 15, 1978, I have determined that this meeting will be closed to the public pursuant to subsections (c)(4), (6) and (9)(B) of section 552b of Title 5, United States Code.

Further information about this meeting can be obtained from Mr. Stephen J. McCleary, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, DC 20506, or call 202-724-0367.

Stephen J. McCleary,
Advisory Committee Management Officer.

NATIONAL TRANSPORTATION SAFETY BOARD

Reports, Recommendations, Responses; Availability

Railroad Accident Report: Deraiment of Amtrak Train No. 97 on Seaboard Coast Line Railroad Track, Lochloosa, Fla., May 26, 1981 (NTSB-RAR-81-9).—Related recommendations sent Oct. 21 to—

The Family Lines Rail System, R-81-99 through -101: compliance with Federal railway signal regulations; confirmation of signal system operation after equipment/circuitry change; resolution of conflicting operating department instructions to signal maintainers, unsafe acts to avoid train delays.

Association of American Railroads, R-81-102: inform membership of subject accident, need to check signal systems, maintenance procedures.

Recommendation Responses from—

Federal Aviation Administration: Nov. 10, A-81-19 and -20: ground proximity warning system alarms, Change 24 to Handbook 8430.17. **Nov. 16, A-81-24:** Part 135 operators' training in handling takeoff emergencies, Change 3 to Handbook 8430.1B. **Nov. 10, A-81-33:** emergency/park brake light "out" before taxi/takeoff, Change 25 to Handbook 8440.5A. **Nov. 16, A-81-45:** Airworthiness Directive 81-16-04 revises Bellanca Decathlon flight manual re competition harness. **Nov. 16, A-81-70:** design of flanges and fasteners on fan case of JT9D turbofan engines reviewed. **Nov. 16, A-81-83 through -91:** nonconcurrence in changing terminal air traffic control accident notification procedures, training, supervision, performance monitoring; nonconcurrence in maintenance of current standardized search area maps; nonconcurrence in installing kit 101-3082-1 on all Beech aircraft having remote ELT switch; General Aviation Airworthiness Alert issued re updated owner's manual, Document 950012, for ELT Model CIR-11-2. **Nov. 10, A-81-94 and -95:** FAA will audio-record and retain all weather briefings provided by flight service station personnel; compliance with weather briefing procedures in Flight Services Handbook 7110.10.

United States Coast Guard: Nov. 9, M-73-73 and -74: 26th session, subcommittee on Safety of Navigation (SUBNAV) set for Feb. 15-19, 1982, vessel traffic service Strait of Gibraltar; report to Maritime Safety Committee, 25th Session, SUBNAV re worldwide VHF navigational channel. **Nov. 10, M-78-88 through -95:** nonconcurrence in combining an Engine Order Telegraph with sound-powered telephone system at local control stations; publication of final rule on CGD 74-125A not expected before Dec. 1981, thrust indicator standards; U.S. position paper to Intergovernmental Maritime Consultative Organization pending; awaiting completion, July 1983, of upgrade of automated systems of Sealift Pacific class vessels by Military Sealift Command.

Note.—Single copies of reports, recommendation letters and responses are free on written request, identified by recommendation or report number, to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594. (Multiple copies of reports are available from National Technical Information Service, U.S.

Department of Commerce, Springfield, Va. 22161.)

Margaret L. Fisher,
Federal Register Liaison Officer.

BILLING CODE 4910-58-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8771]

**Arizona Public Service Co.; for
Operation of R&D in Situ Leach
Project, Converse County, Wyoming**

The U.S. Nuclear Regulatory Commission (the Commission) is issuing a Source Material and Byproduct Material License to Arizona Public Service Company authorizing R&D-scale uranium solution mining operations at their South Powder River Basin Peterson Project Site in Converse County, Wyoming.

The Commission's Division of Waste Management has prepared an environmental impact appraisal for the proposed action. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for this particular action is not warranted for there will be no significant environmental impact attributable to the action. The environmental impact appraisal is available for public inspection and copying at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

Dated at Silver Spring, Maryland, this 29th day of October 1981.

For the Nuclear Regulatory Commission.
Ross A. Scarano,
Chief, Uranium Recovery Licensing Branch,
Division of Waste Management.

[FR Doc. 81-34761 Filed 12-2-81; 8:45 am]

BILLING CODE 7590-01-M

[Byproduct Material License No. 34-06943-01; EA 81-65]

**Dayton X-Ray Co.; Order To Show
Cause**

I

Dayton X-Ray Company 1150 West Second Street, Dayton, OH 45407, (the "licensee") holds Byproduct Material License No. 34-06943-01, (the "license") which authorizes the licensee to possess and use byproduct material for industrial radiography. The license was originally issued on December 20, 1960, and will expire on April 30, 1985.

II

On November 27, 1974, the Commission imposed a civil penalty of \$2,350 on the licensee for failure to provide adequate training to individuals acting as radiographers. On April 21, 1978, the Commission imposed a civil penalty of \$6,000 on the licensee for again failing to provide adequate training to individuals acting as radiographers. A January 1979 inspection disclosed numerous deficiencies in the licensee's training program. On July 20, 1979, the licensee attended an enforcement conference at the NRC office in Bethesda, Maryland. The enforcement conference resulted in the licensee making several commitments to the NRC. These commitments were confirmed by telephone on July 23, 1979, and in an Immediate Action Letter dated July 23, 1979. One of these commitments as described in the Immediate Action Letter was that the licensee would:

"Permit no individual, other than Mr. Dennis Taylor, to act as Radiographer as defined in 10 CFR 34.2(b), nor permit any individual to act as Radiographer's Assistant as defined in 10 CFR 34.2(c), until such time as Dayton X-Ray Company's program for training and qualification of Radiographers and Radiographer's Assistants has been upgraded, and approved by the Commission, and License No. 34-06943-01 has been amended accordingly."

Amendment No. 22, dated May 1, 1980, amended the license in its entirety. License Condition 12 of that amendment designated Taylor as the only individual authorized to perform radiography. Amendment No. 23, dated June 13, 1980, changed License Condition 12 to permit radiography to be performed by individuals who had completed the licensee's training program which was described in letters dated September 26, 1979, February 18, 1980, and May 14, 1980.

An investigation was conducted on October 20, 21 and 28, November 5 and December 3, 1980, and January 20-22 and March 2, 1981, in response to an allegation that unauthorized personnel were permitted to perform radiography.

During the investigation it was determined that from July 23, 1979, (the date of the Immediate Action Letter) to June 13, 1980, (the date of License Amendment No. 23 which lifted the named radiographer restriction) four individuals other than Taylor acted as radiographers. This included the period May 1-June 13, 1980, when Amendment No. 22 to the license authorized only Taylor to act as a radiographer. It was also determined that, contrary to the

licensee's training program approved by the NRC, personnel were permitted to act as radiographers and radiographer's assistants before they demonstrated their competence to do so through written and practical examinations.

During the inspection that was conducted concurrent with the investigation described above, a total of nine violations were discovered. Another inspection was conducted on September 22-23, 1981. During that inspection five violations were discovered.

From the foregoing, it is apparent that despite the NRC's identification of serious inadequacies in the licensee's program and demand for appropriate corrective action through two civil penalties, a license modification, an Immediate Action Letter and several enforcement conferences, including at least two with NRC Headquarters staff, the licensee has not demonstrated the capacity to conduct its industrial radiography program in accordance with NRC regulatory requirements. Particularly, the licensee has demonstrated an inability and unwillingness over a period of almost six years to assure that radiographic procedures were performed only by authorized personnel. This has occurred even though the licensee assured the NRC that effective corrective actions had been implemented, and more recently, in direct contradiction of specific commitments by the licensee and a license condition.

III

Accordingly, pursuant to section 161b and section 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Parts 2, 20, 30 and 34, it is hereby ordered that:

The licensee show cause, as specified in section IV of this order, why License No. 34-06943-01 should not be revoked.

IV

The licensee may, in accordance with 10 CFR 2.202, show cause within 30 days of the date of this order by filing a written answer under oath or affirmation which sets forth matters of fact and law on which the licensee relies. Upon failure of the licensee to file an answer within the specified time, the Director of the Office of Inspection and Enforcement may issue without further notice an Order revoking the license as described in section III above.

V

The licensee or any other person who has an interest affected by this Order may request a hearing within 30 days of

the date of this Order. Any answer to this Order or any request for hearing shall be submitted to the Director, Office of Inspection and Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Copies shall also be sent to the Secretary of the Commission and the Executive Legal Director at the same address. If a person other than the licensee requests a hearing, that person shall describe specifically, in accordance with 10 CFR 2.714(a)(2), the person's interest and the manner in which that interest is affected by this Order.

If a hearing is requested by the licensee or other person who has an interest affected by this Order, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be:

Whether, on the basis of the matters set forth in section II of this Order, License No. 34-06943-01 should be revoked as provided in section III of this Order.

Dated at Bethesda, Maryland this 27th day of November 1981.

For the Nuclear Regulatory Commission.

Richard C. DeYoung,

Director, Office of Inspection and Enforcement.

BILLING CODE 7590-01-M

[Docket No. 50-302]

Florida Power Corp., et al.; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 44 to Facility Operating License No. DPR-72, issued to the Florida Power Corporation, City of Alachua, City of Bushnell, City of Gainesville, City of Kissimmee, City of Leesburg, City of New Smyrna Beach and Utilities Commission, City of New Smyrna Beach, City of Ocala, Orlando Utilities Commission and City of Orlando, Sebring Utilities Commission, Seminole Electric Cooperative, Inc., and the City of Tallahassee (the licensees) which revised the Technical specifications for operation for the Crystal River Unit No. 3 Nuclear Generating Plant (the facility) located in Citrus County, Florida. The amendment is effective as of the date of issuance.

This amendment revises the Technical Specification requirements for testing of Radiation Monitor RM-A5 to be consistent with Standard Technical Specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated February 15, 1980, (2) Amendment No. 44 to License No. DPR-72, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Crystal River Public Library, 668 N.W. First Avenue, Crystal River, Florida. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 24th day of November 1981.

For the Nuclear Regulatory Commission.

John F. Stolz,
Chief, Operating Reactors Branch No. 4,
Division of Licensing.

[FR Doc. 81-34766 Filed 12-2-81; 8:45 am]
BILLING CODE 7590-01-M

[Docket No. 50-259]

Tennessee Valley Authority (Browns Ferry Nuclear Plant, Unit 1); Modification of Order

I

The Tennessee Valley Authority (the licensee) is the holder of Facility Operating License No. DPR-33 which authorizes the operation of the Browns Ferry Nuclear Plant, Unit 1 at steady state reactor power levels not in excess of 3293 megawatts thermal rated power. The facility consists of a boiling water

reactor located at the licensee's site in Limestone County, Alabama.

II

On January 13, 1981 the Commission issued an Order modifying the license requiring: 1) the licensee to promptly assess the suppression pool hydrodynamic loads in accordance with NEDO-24583-1 and the Acceptance Criteria contained in Appendix A to NUREG-061; and 2) design and install any plant modifications needed to assure that the facility conforms to the Acceptance Criteria contained in Appendix A to NUREG-0661. The Order, published in the Federal Register on January 28, 1981 (46 FR 9318) required installation of any plant modifications needed to provide compliance with the Acceptance Criteria in Appendix A to NUREG-0661 be completed not later than October 31, 1981, or, if the plant is shutdown on that date, before the resumption of power thereafter. In addition, the Order provided for extending, up to that same date, an exemption from General Design Criteria 50 of Appendix A to 10 CFR Part 50.

III

On October 31, 1979, the staff issued an initial version of its acceptance criteria to the affected licensees. These criteria were subsequently revised in February 1980 to reflect acceptable alternative assessment techniques which would enhance the implementation of this program. Throughout the development of these acceptance criteria, the staff has worked closely with the Mark I Owners Group in order to encourage partial plant-unique assessments where necessary and modifications to be undertaken.

Since the development of these acceptance criteria significant progress has been made by the licensee in meeting the Order requirements. However, by letter May 22, 1981 the licensee stated that unforeseen difficulties and delays have been encountered primarily related to torus and torus attached piping analyses, equipment delivery, outage scheduling at a three unit site, and personnel safety concerns associated with prolonged overtime during extended outages that has necessitated revision of the Order date(s).

Browns Ferry Unit 1 was shutdown for six months (April 11 to October 1, 1981) primarily for torus modifications. During that outage most of the major modifications, which are those associated with the torus, vent system, internal structures and safety relief

valve piping were completed. These modifications comprise a significant portion of the total program effort. Consequently substantial improvements have already been made in the margins of safety of the containment systems. The major delays in program completion are primarily associated with the torus attached piping modifications.

The staff currently has under review a generic proposal to extend the completion dates for the Mark I containment long term program modifications for all affected licensees. In light of the above, the Director has determined that there is good cause for modifying the Order and granting an extension of 45 days from the date of this Order.

IV

Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, including sections 103 and 161i, and the Commission's rules and regulations in 10 CFR Parts 2 and 50, it is ordered that the completion date specified in section V of the January 13, 1981 "Order for Modification of License", is extended to 45 days following the effective date of this Order. The Order of January 13, 1981, except as modified herein remains in effect in accordance with its terms.

Dated at Bethesda, Maryland, this 25th day of November 1981.

For the Nuclear Regulatory Commission.

Robert A. Purple,
Deputy Director, Division of Licensing, Office
of Nuclear Reactor Regulation.

[FR Doc. 81-34763 Filed 12-2-81; 8:43 am]
BILLING CODE 7590-01-M

[Docket No. 40-8786]

Uranium Resources, Inc.; Negative Declaration Regarding Issuance of Source and Byproduct License for Operation of R&D In Situ Leach Project, Converse County, Wyoming

The U.S. Nuclear Regulatory Commission (the Commission) is issuing a Source Material and Byproduct Material License to Uranium Resources Inc. authorizing R&D-scale uranium solution mining operations at their South Powder River Basin North Platte Project Site in Converse County, Wyoming.

The Commission's Division of Waste Management has prepared an environmental impact appraisal for the proposed action. On the basis of this appraisal, the Commission has concluded that an environmental impact

statement for this particular action is not warranted for there will be no significant environmental impact attributable to the action. The environmental impact appraisal is available for public inspection and copying at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

Dated at Silver Spring, Maryland, this 30th day of October 1981.

For the Nuclear Regulatory Commission.

 BILLING CODE 7590-01-M

[Docket No. 50-271]

Vermont Yankee Nuclear Power Corp. (Vermont Yankee Nuclear Power Plant); Modification of Order

I

The Vermont Yankee Nuclear Power Corporation (the licensee) is the holder of Facility Operating License No. DPR-28 which authorizes the operation of the Vermont Yankee Nuclear Power Plant at steady state reactor power levels not in excess of 1593 megawatts thermal (rated power). The facility consists of a boiling water reactor located at the licensee's site in Windham County, Vermont.

II

On January 13, 1981 the Commission issued an Order modifying the license requiring: 1) the licensee to promptly assess the suppression pool hydrodynamic loads in accordance with NEDO-24583-1 and the Acceptance Criteria contained in Appendix A to NUREG-0661; and 2) design and install any plant modifications needed to assure that the facility conforms to the Acceptance Criteria contained in Appendix A to NUREG-0661. The order, published in the Federal Register on January 28, 1981 (46 FR 9323) required installation of any plant modifications needed to provide compliance with the Acceptance Criteria in Appendix A to NUREG-0661 be completed not later than November 30, 1981, or, if the plant is shut down on that date, before the resumption of power thereafter. In addition, the Order provided for extending, up to that same date, an exemption from General Design Criteria 50 of Appendix A to 10 CFR Part 50.

III

On October 31, 1979, the staff issued an initial version of its acceptance criteria to the affected licensees. These criteria were subsequently revised in

February 1980 to reflect acceptable alternative assessment techniques which would enhance the implementation of this program. Throughout the development of these acceptance criteria, the staff has worked closely with the Mark I Owners Group in order to encourage plant-unique assessments where necessary and modifications to be undertaken.

Since the development of these acceptance criteria significant progress has been made by the licensee in meeting the Order requirements. However, by letter dated February 23, 1981 the licensee stated that unforeseen difficulties and delays have been encountered primarily related to torus and torus attached piping analysis, and equipment delivery that has necessitated revision of the Order date.

The major modifications, which are those associated with the torus, vent system, internal structures and safety relief value piping, which comprise approximately 75% of the total program effort, have been completed. Consequently substantial improvements have already been made in the margins of safety of the containment systems. The delays in program completion are primarily associated with the torus attached piping modifications.

The staff currently has under review a generic proposal to extend the completion dates for the Mark I long term program containment modifications for all affected licensees. In light of the above, the Director has determined that there is good cause for modifying the Order and granting an extension of 45 days from the date specified in Section V of the January 13, 1981 Order.

IV

Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, including sections 103 and 161i, and the Commission's rules and regulations in 10 CFR Parts 2 and 50, it is ordered that the November 30, 1981 completion date specified in Section V of the January 13, 1981 "Order for Modification of License", is extended to January 14, 1982. The Order of January 13, 1981, except as modified herein remains in effect in accordance with its terms.

Dated at Bethesda, Maryland this 25th day of November 1981.

For the Nuclear Regulatory Commission.
 Robert A. Purple,
*Deputy Director, Division of Licensing, Office
 of Nuclear Reactor Regulation.*

 BILLING CODE 7590-01-M

OFFICE OF MANAGEMENT AND BUDGET

Agency Forms Under Review

November 30, 1981.

Background

When executive departments and agencies propose public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Paperwork Reduction Act (44 U.S.C. chapter 35). Departments and agencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibility under the act also considers comments on the forms and recordkeeping requirements that will affect the public.

List of Forms Under Review

Every Monday and Thursday OMB publishes a list of the agency forms received for review since the last list was published. The list has all the entries for one agency together and grouped into new forms, revisions, extensions (burden change), extensions (no change), or reinstatements. The agency clearance officer can tell you the nature of any particular revision you are interested in. Each entry contains the following information:

- The name and telephone number of the agency clearance officer (from whom a copy of the form and supporting documents is available)
- The office of the agency issuing this form
- The title of the form
- The agency form number, if applicable
- How often the form must be filled out
- Who will be required or asked to report
- The standard industrial classification (SIC) codes, referring to specific respondent groups that are affected
- Whether small businesses or organizations are affected
- A description of the Federal budget functional category that covers the information collection
- An estimate of the number of responses
- An estimate of the total number of hours needed to fill out the form
- An estimate of the cost to the Federal Government
- An estimate of the cost to the public
- The number of forms in the request for approval
- An indication of whether section 3504(h) of Pub. L. 96-511 applies

The name and telephone number of the person or office responsible for OMB review and

An abstract describing the need for and uses of the information collection.

Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. Our usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the Federal Register, but occasionally the public interest requires more rapid action.

Comments and Questions

Copies of the proposed forms and supporting documents may be obtained from the agency clearance officer whose name and telephone number appear under the agency name. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review. If you experience difficulty in obtaining the information you need in reasonable time, please advise the OMB reviewer to whom the report is assigned. Comments and questions about the items on this list should be directed to the OMB reviewer or office listed at the end of each entry.

If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the reviewer of your intent as early as possible.

The timing and format of this notice have been changed to make the publication of the notice predictable and to give a clearer explanation of this process to the public. If you have comments and suggestions for further improvements to this notice, please send them to Jim J. Tozzi, Deputy Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place, Northwest, Washington, D.C. 20503.

DEPARTMENT OF AGRICULTURE

(Agency Clearance Officer—Richard J. Schrimper—202-447-6201)

Extensions (Burden Change)

• Federal Crop Insurance Corporation Application (Multi-Crop) For Insurance FCI-12

On occasion
Individuals or households/farms
Individual farmers

SIC: 011 013 016 017

Farm income stabilization: 50,000 responses; 4,000 hours; \$0 Federal

cost; 1 form; not applicable under 3504(h)

Charles A. Ellett, 202-395-7340

The FCI-12 Application is a revision of the former named crop application, however, the proposed form is a multi-crop application. The form is used to apply for crop insurance protection. The information is used to compute coverage and premium rate.

DEPARTMENT OF COMMERCE

(Agency Clearance Officer—Edward Michals—202-377-3627)

Revisions

• National Oceanic and Atmospheric Administration
Application For Federal Fisheries Permit NOAA 88-155
On occasion/annually
Individuals or households/businesses or other institutions
US fishermen

SIC: 091

Other Advancement and regulation of commerce: 10,000 responses; 5,000 hours; \$11,625 Federal cost; 2 forms; not applicable under 3504(h)
William T. Adams, 202-395-4814

The application provides information required for issuance of permit to domestic fishermen engaged in fishing in the U.S. fisheries conservation zone. The permit is used to enumerate the participants in individual fisheries and to determine the level or fishing effort.

• National Oceanic and Atmospheric Administration

Logbook Family of Forms
NOAA 88-176 88-59 88-140 88-153

On occasion/weekly/monthly
Businesses or other institutions
Captains of fishing craft

SIC: 091

Small Businesses or organizations
Other advancement and regulation of commerce: 225,028 responses; 8,978 hours; \$25,100 Federal cost; 2 forms; not applicable under 3504(h)

William T. Adams, 202-395-4814

Data are needed to monitor fisheries managed under fishery management plans and to update these plans.

DEPARTMENT OF ENERGY

(Agency Clearance Officer—John Gross—202-633-9770)

Extensions (Burden Change)

• Energy Information Administration
Weekly Pipeline Stocks of Finished Products

EIA-163

Weekly

Businesses or other institutions
Pipeline product operators

SIC: 461

Small businesses or organizations

Energy information, policy, and regulation: 392 responses; 14,398 hours; \$721,000 Federal cost; 1 form; not applicable under 3504(h)
Jefferson B. Hill, 202-395-7340.

Data are used as input to "weekly petroleum status report." Data are used to project energy supplies and provide early warning of potential shortages.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

(Agency Clearance Officer—Joseph Strnad—202-245-7488)

New

• Health Care Financing Administration
Contractors' Information Collection
Supplemental Desk Review¹
HCFA-9021

Annually

Businesses or other institutions
Hospitals, skilled nursing fac., home health agencies

SIC: 806 808

Small businesses or organizations
Health: 14,300 responses; 114,400 hours; \$0 Federal cost; 1 form; not applicable under 3504(h)

Richard Eisinger, 202-395-6880

Supplemental desk review forms are used to obtain pertinent information from providers. Desk reviews are performed on all cost reports. This enables intermediaries to cut down on full scale field audits, and to pinpoint areas to be examined during audits.

• Health Care Financing Administration
Contractors' Information Collections—
Extended¹ Repayment Schedule
9004

Annually

Businesses or other institutions
Facilities participating in the medicare program

SIC: 805, 806, 808, 809

Small businesses or organizations
Health: 5,000 responses; 25,000 hours; \$0 Federal cost; 1 form; not applicable under 3504(h)

Richard Eisinger, 202-395-6880

Forms are used by intermediaries to recover and return to the medicare trust fund overpayments made to providers.

¹These reporting forms have been approved for interim use by OMB for one year in order to continue operation of the Medicare Program. However, OMB will continue its reviews of these forms, and will accept comments from health care providers and others based on their experience with these forms through this approval period. Health care providers and recipients, who are respondents to these Medicare contractor forms, are invited to send comments to Joseph Strnad at the above address, and to the OMB reviewers listed.

Providers requesting extended repayment schedules are requested to submit a variety of financial statements documenting their current financial status. It is then determined if an extended repayment schedule will be granted.

• Health Care Financing Administration
Contractor Information Collection—
Home Office Cost ¹

9018
Annually
Businesses or other institutions
Chain organizations which participate in
medicare

SIC: 805, 806, 807, 808, 809
Health: 900 responses; 900,000 hours; \$0
Federal cost; \$9,000,000 public cost; 1
form; not applicable under 3504(h)
Richard Eisinger, 202-395-6880

These intermediary forms gather
information on home office costs and
equity capital of chain organizations.

• Health Care Financing Administration
Contractors' Information Collections—
Collateral Contacts ¹

9007
On occasion
Individuals or households/businesses or
other institutions

Financial institutions, insurance
companies, employers, etc.

SIC: 919
Small businesses or organizations
Health: 3,051 responses; 3,051 hours; \$0
Federal cost; 1 form; not applicable
under 3504(h)

Richard Eisinger, 202-395-6880

State and medicaid agencies conduct
quality control reviews of their
eligibility claims processing, and third
party liability findings. HCFA's regional
office (RO) may need to make collateral
contacts to substantiate State medicaid
determinations. This clearance is for RO
collateral contact forms sent to financial
institutions, employers, etc.

• Health Care Financing Administration
Contractors Information Collection—
HCFA Program Integrity ¹ Forms to
Verify Services

9011
On occasion
Individuals or households
Medicare beneficiaries and medicaid
beneficiaries

Health: 1,400 responses; 700 hours; \$0
Federal cost; 1 form; not applicable
under 3504(h)

Richard Eisinger, 202-395-6880

HCFA's regional offices investigate
allegations of fraud and abuse against
suppliers and physicians. These RO
forms verify services rendered to
medicare beneficiaries and medicaid
recipients by the supplier/physician.

Revisions

• Health Care Financing Administration
Contractor Information Collection
Interim Payment Adjustment ¹ Forms
for Hospitals/SNFs

9019, 91
Quarterly
Businesses or other institutions
Hospitals and SNFs which receive
periodic interim payments

SIC: 805, 806
Small businesses or organizations
Health: 17,400 responses; 174,000 hours;
\$0 Federal cost; 1 form; not applicable
under 3504(h)

Richard Eisinger, 202-395-6880

These intermediary forms collect cost
and medicare utilization data from
hospitals and skilled nursing facilities.
The data allows adjustments of interim
payments, if necessary.

Reinstatements

• Health Care Financing Administration
Contractors' Information Collections—
Admission and Open ¹ Item Forms

9003, 292
On occasion
Businesses or other institutions
Facilities which participate in the
medicare program

SIC: 805, 806
Small businesses or organizations
Health: 513,600 responses; 128,400 hours;
\$0 Federal cost; \$52,000 public cost; 1
form; not applicable under 3504(h)

Richard Eisinger, 202-395-6880

These forms were developed by
intermediaries to collect admission
information from hospitals and skilled
nursing facilities (SNFs). They are used
when a medicare beneficiary enters a
hospital or SNF before a final bill has
been submitted for a prior stay in a
hospital or SNF.

State or local governments

Towns, cities, counties and other local govts

SIC: 911

Disaster relief and insurance: 300 responses; 1,200 hours; \$1,725 Federal cost; 1 form; not applicable under 3504(h)

Robert Veeder, 202-395-4814

To provide communities the opportunity to become eligible to participate in the National Flood Insurance Program

FEDERAL RESERVE SYSTEM

(Agency Clearance Officer—William Jones—202-452-2983)

New

- Quarterly Reports of International Banking Facilities

FR 2073A B, C, 2074 2075

Quarterly

Businesses or other institutions

International banking facilities

SIC: 602 605

General government: 1,264 responses; 1,436 hours; \$110,464 Federal cost; 5 forms; \$28,720 public cost; not applicable under 3504(h)

Richard S. Stavneak, 202-395-6880

The reports provide information needed by the Federal Reserve to monitor international banking facilities (IBF). These reports enable the user to adjust report of condition information for IBF assets and liabilities. Among other things these data will be used in interpreting monetary aggregates and bank credit measures.

INTERNATIONAL DEVELOPMENT ASSISTANCE

(Agency Clearance Officer—Ms. Melita Yearwood—202-632-0084)

New

- Registration of Agencies for Voluntary Foreign Aid (Regulation 3)

Annually

Businesses or other institutions

U.S. and foreign private, nonprofit voluntary organizations

SIC: Multiple

Foreign economic and financial assistance: 155 responses; 310 hours; \$223,300 Federal cost; 1 form; NPRM under 3504(h)

Phillip T. Balazs, 202-395-4814.

Aid uses this regulation and the registration process described therein for the purposes of identifying which U.S. and foreign organizations are private and voluntary organizations (PVO's) and therefore eligible to seek AID/PVO type grants and/or subventions. AID, pursuant to statutory authority, is responsible for registering, as PVO's organizations meeting the conditions. Thus the regulation is used both by AID, U.S. nonprofit, voluntary organizations and foreign nonprofit.

INTERSTATE COMMERCE COMMISSION

(Agency Clearance Officer—Carroll Stearns—202-633-0204)

Chief, Reports Management.

[FR Doc. 81-34785 Filed 12-2-81; 8:45 am]

BILLING CODE 3110-01-M

SMALL BUSINESS ADMINISTRATION

[Proposed License No. 06/06-0253]

Business Capital Corp. of Arlington; Application for License To Operate as a Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration pursuant to § 107.102 of the regulations governing small business investment companies (13 CFR 107.102 (1981)), under the name of Business Capital Corporation of Arlington, Suite 100, 711 E. Lamar Blvd., Arlington, Texas 76011, for a license to operate as a small business investment company (SBIC) under the provisions of the Small Business Investment Act of 1958, as amended (the Act), (15 U.S.C. 661 *et seq.*), and the rules and regulations promulgated thereunder.

The proposed officers, directors and shareholders of the Applicant are as follows:

Chairman of the Board, President, Director
James E. Sowell, 3600 Drexel, Dallas, Texas 75205

Vice President, Director

Keith D. Martin, 6705 Elvedon, Dallas, Texas 75248

Secretary, Treasurer Director

Elizabeth F. Sowell, 3600 Drexel, Dallas, Texas 75205

Sole Stockholder

Quoin Corporation, Suite 100, 711 E. Lamar Blvd., Arlington, Texas 76011

Mr. Sowell beneficially owns all of the outstanding capital stock of Quoin Corporation, a Texas corporation.

There will be one class of stock authorized: five million shares of common stock. Initially only five hundred thousand shares will be issued with a resultant private capital of \$510,000. Applicant proposes to conduct its operations principally in the State of Texas.

Matters involved in SBA's consideration of the application include the general reputation and character of shareholder and management, and the probability of successful operation of the new company in accordance with the Act and Regulations.

Notice is further given that any person may, not later than December 18, 1981, submit to SBA, in writing, comments on the proposed licensing of this company. Any such communications should be addressed to: Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published by the Applicant in a newspaper of general circulation in Arlington, Texas.

BILLING CODE 8025-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD-81-09]

Intent To Prepare an Environmental Impact Statement for Proposed South Bronx-Oak Point Link Project, Harlem River, Bronx County, N.Y.

AGENCY: U.S. Coast Guard.

ACTION: Notice of intent to prepare an Environmental Impact Statement.

SUMMARY: The U.S. Coast Guard is preparing an Environmental Impact Statement (EIS) for the Oak Point Link Railroad project which involves the permitting of new railroad bridge(s) and the amending of permits for existing highway bridges. The proposed project is located along the east side of the Harlem River, between Highbridge and Oak Point Yard, The Bronx, New York.

FOR FURTHER INFORMATION CONTACT:

Mr. William C. Heming, Bridge Administrator or Mr. John G. Waffenschmidt, Environmental Protection Specialist, Commander (oan-br), Third Coast Guard District, Governors Island, New York 10004, Telephone (212) 668-7994.

SUPPLEMENTARY INFORMATION: The U.S. Coast Guard is the lead federal agency with the U.S. Corps of Engineers as a cooperating agency. The New York State Department of Transportation (NYSDOT) is the lead state agency as well as the applicant for the bridge project.

The proposed project involves the construction of a new rail freight connection between Highbridge and the Oak Point Yard as part of the New York State "Full Freight Access Program". Various alternatives are being evaluated. All of the alternatives except the no build alternative require the construction of bridge structures.

The project's various build alternatives could deny waterway access to up to 1.7 miles of the shoreline, and cut off various slips and docks. In addition, the bridge structure(s) could increase the likelihood of a vessel collision on the waterway. The overall length of this project is approximately 1.7 miles. The primary reason for the project is to reverse the ongoing decline of rail freight service to New York City and Long Island by creating a freight only route capable of handling trailer on-flat-car and container on-flat-car traffic requiring clearances of 17'6". The "Full Freight Access Program" is intended to provide and increase full service rail accessibility into and within the New York metropolitan area.

Significant issues to be evaluated, based upon the ongoing scoping process, are social and economic impacts, intermodal conflicts, land use planning, aquatic ecology, noise and air quality and impacts on cultural resources and navigation. Alternatives being considered are no-build, Shore Route, Market West Route and the Offshore Route which would be outside the pierhead and bulkhead line.

The applicant, NYSDOT, has prepared and submitted an environmental assessment to the Third Coast Guard District. The development of this document has been the result of the scoping process which has been and will continue to be conducted in accordance with 40 CFR 1501.7. Many scoping meetings have been held with various groups. The need for a final scoping meeting has not yet been determined.

The Coast Guard invites the participation of Federal, State, local

agencies and other interested parties in determining the scope of issues to be addressed and the need for a final scoping meeting.

Peter J. Rots,
*Captain, U.S. Coast Guard, Acting Chief,
Office of Navigation.*

November 18, 1981.

BILLING CODE 4910-14-M

Federal Aviation Administration**Aircraft Microphones (Except Carbon), Headsets and Speakers, Audio Selector Panels, and Amplifiers**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Request for comments on draft Technical Standard Order (TSO).

SUMMARY: The draft TSO-C58a/C57a/C50c prescribes the minimum performance standard that aircraft microphones (except carbon), headsets and speakers, audio selector panels, and amplifiers must meet in order to be identified with the TCO marking "TSO-C58a/C57a/C50c."

DATE: Comments must identify the TSO file number and be received on or before March 1, 1982.

ADDRESS: Send all comments on the draft Technical Standard Order to:

Federal Aviation Administration,
Systems Branch, AWS-130, Aircraft Engineering Division, Office of Airworthiness—File No. TSO-C58a/C57a/C50c, 800 Independence Avenue, S.W., Washington, D.C. 20591.

Or deliver comments to:

Room 335, 800 Independence Avenue, S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Ms. Bobbie J. Smith, Systems Branch, ASW-130, Aircraft Engineering Division, Office of Airworthiness, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591, Telephone (202) 426-8395.

Comments received on the draft Technical Standard Order may be inspected, before and after the closing date for comments, at Room 335, FAA Headquarters Building (FOB-10A), 800 Independence Avenue, S.W., Washington, D.C. 20591, between 8:30 a.m. and 5:00 p.m.

SUPPLEMENTARY INFORMATION:**Comments Invited**

Interested persons are invited to comment on the proposed TSO listed in this notice by submitting such written

data, views, or arguments as they may desire. Communications should identify the TSO file number and be submitted to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Director of Airworthiness before issuing the final TSO.

How to Obtain Copies

A copy of the proposed draft TSO may be obtained by contacting the person under "For Further Information Contact." TSO-C58a/C57a/C50c references Radio Technical Commission for Aeronautics (RTCA) Document No. DO-170 dated February 28, 1975, for the minimum performance standard and either RTCA Document No. DO-160 dated February 28, 1975, or DO-160A dated January 1980 for the environmental conditions and test procedures. RTCA Document Nos. DO-170 and DO-160A may be purchased from the Radio Technical Commission for Aeronautics Secretariat, 1717 H. Street, N.W., Washington, D.C. 20006. A copy of RTCA Document No. DO-160 is available for inspection at any FAA regional office, in the Engineering and Manufacturing Branch Standards Division (or in the Northwest-Mountain Region, the Aircraft Certification Division).

Issued in Washington, D.C., on November 17, 1981.

M. C. Beard,

Director, Office of Airworthiness.

BILLING CODE 4910-13-M

Temporary Airman Certificates; Effective Period

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of extension of the effective period of temporary airman certificates.

SUMMARY: This notice announces the extension of the effective period from 120 to 180 days for temporary airman certificates. These certificates are issued to applicants for certificates and ratings pending FAA review of their applications and supplementary documents, and the issue of the certificate and rating applied for. This extension is necessary because administrative workload has prevented the timely issuance of some permanent certificates. It is intended to relieve applicants of the burden of possibly having to obtain a second temporary certificate.

DATE: This extension is effective immediately.

FOR FURTHER INFORMATION CONTACT:

Joseph Brennan, Aeronautical Center Counsel (AAC-7), Federal Aviation Administration, Aeronautical Center, Oklahoma City, Oklahoma 73123. Telephone: (405) 686-2296.

SUPPLEMENTARY INFORMATION: Sections 61.17, 63.13, and 65.13 of the Federal Aviation Regulations state that a temporary airman certificate or rating, effective for a period of not more than 120 days, is issued to a qualified applicant pending a review of his or her application and the issuance of a permanent certificate or rating.

A notice was published in the Federal Register of March 26, 1981, at 46 FR 18845, stating that from that date until June 30, 1981, the effective period of temporary airman certificates was extended to 180 days.

At that time it was anticipated that with the acquisition in April 1981 of direct access from terminals in the Airmen Certification Branch to the computers printing the permanent certificates, the present backlog could be reduced and the 120-day deadline met later in the calendar year 1981. However, it now appears that it will take until the end of 1982 to reduce the continuing backlog and again meet the 120-day deadline. In the meantime, to relieve the burden on those receiving temporary airman certificates the FAA is again extending the effective period of these temporary certificates to 180 days. Instructions are being issued to all persons authorized to issue temporary airman certificates, directing them to amend all temporary certificates issued between the date of this notice and December 31, 1982, by a pen and ink change, so that the effective period of the certificate is 180 days.

Issued in Washington, D.C., on November 20, 1981.

Bernard A. Geier,

Chief, General Aviation and Commercial Division, Office of Flight Operations.

[Summary Notice No. PE-81-31]

Petitions for Exemption; Summary of Petitions Received and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR Part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR Chapter I) and of dispositions of certain petitions previously received. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATE: Comments on petitions received must identify the petition docket number involved and must be received on or before: December 23, 1981.

ADDRESS: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-204), Petition Docket No. , 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION: The petition, any comments received and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-204), Room 916, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-3644.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of Part 11 of the Federal Aviation Regulations (14 CFR Part 11).

Issued in Washington, D.C., on November 27, 1981.

John H. Cassidy,

Deputy Assistant Chief Counsel Regulations and Enforcement Division.

PETITIONS FOR EXEMPTION

Docket No.	Petitioner	Regulations affected	Description of relief sought
22417	Ozark Air Lines.....	14 CFR § 121.311(f).....	Extension of the March 6, 1982, compliance date for each flight attendant to have a seat in the passenger compartment for takeoff and landing with a combined safety belt and shoulder harness for petitioner's DC-9 aircraft.
19310	Canadian Warplane, Heritage Inc.....	14 CFR § 91.27(a)(1).....	Extension of Exemption No. 2478c which permits certain Canadian-registered aircraft currently operating in Canada on a valid flight permit to attend various airshows in the United States during calendar year 1982.
22418	Air Transport Association of America.....	14 CFR § 63.39(b)(2).....	To allow petitioner's members to conduct flight engineer training and certification in normal procedures in an airplane simulator rather than in flight.
22436	American Airlines.....	14 CFR §§ 121.351(a) and 121.99.....	To permit operation of petitioner's turbojet aircraft on routes in the New York Oceanic Control Area between the east coast and Bermuda with one of two installed HF communications systems inoperative at the time of departure and without maintaining two-way radio communications between each aircraft and the dispatch office along the named route.
22168	Executive Air Fleet Corporation.....	14 CFR § 135.297(a).....	Extension of Exemption No. 3203 which permits petitioner to use as pilots in command persons who have within the past 12 months completed an instrument proficiency check and, in addition, within the past 6 months have either completed an instrument proficiency check or trained to proficiency in an approved simulator.
22435	Northern Air Cargo, Inc.....	14 CFR § 121.185(a).....	To allow petitioner's DC-6 aircraft to use 100 percent of the effective length of all the runways it serves within Alaska in determining gross landing weight.
22434	Chalk's International Airline, Inc.....	14 CFR § 61.151(a).....	To permit Mr. James W. Tarr to obtain an airline transport pilot certificate before reaching his 23rd birthday.
22348	Steven S. Fern.....	14 CFR § 61.65(e)(1).....	To permit petitioner to apply for an instrument-helicopter rating even though he does not have the required 50 hours of cross-country flight experience in helicopters.
22444	Transamerica Airlines.....	14 CFR § 121.311(e).....	Extension of the March 6, 1982 compliance date to September 15, 1982, for the shoulder harness requirement for petitioner's Lockheed L-302 aircraft.
22442	Air Exec, Inc.....	14 CFR §§ 135.85(c) 135.91.....	To permit petitioner to carry on its helicopters the personnel and equipment of the IT Corp. required to respond to incidents of hazardous materials spills within the State of California.
22441	United Airlines, Inc.....	14 CFR §§ 121.433, 121.441 and Appendix F of Part 121.	To permit the line check required for pilots in command to be administered in the sixth calendar month subsequent to an annual combined training and proficiency check session, except that a line check given the month before or the month after the sixth calendar month subsequent to such a combined restructured training session would be considered to have been accomplished in the sixth calendar month subsequent to such session. In addition, in lieu of the proficiency check described in Appendix F, petitioner would be permitted to use a check concept designed for a particular crew position, aircraft type, and line operation.
22445	Southwest Airlines.....	14 CFR § 121.391.....	To permit petitioner to use only two flight attendants aboard its B-737-200 aircraft configured with 118 or more passenger seats when all seats over 100 are blocked from use and when a third flight attendant is not available or cannot be made available without undue delay or flight cancellation.
22359	Kenn-Air.....	14 CFR § 135.261.....	To permit petitioner to operate on a 48-hour on/48-hour off duty cycle while ensuring that the pilot on duty will receive at least 10 consecutive hours of rest.
22440	Florida Dept. of Law.....	14 CFR §§ 91.65(b), 91.73(a), 91.79(c), 91.85(b), and 91.109(a).	To carry out law enforcement air support without complying with the cited sections.
22437	Trans World Airlines.....	14 CFR § 25.853(b).....	To permit the use of Typé A Temperfoam on B-747 and L-1011 captain, first officer, and flight engineer's crew seat bottom cushions.
22328	Flying Tiger Line.....	14 CFR § 121.578.....	To extend for 6 months the February 20, 1982, compliance date for installation of cabin ozone catalytic converter.
13416	Sierra Academy of.....	14 CFR § 63.39(b)(2).....	To extend Exemption No. 2095C which permits flight engineer applicants being trained by petitioner to show that they can satisfactorily perform the normal duties and procedures in an airplane simulator rather than in flight.
22409	Interstate Airlines.....	14 CFR § 91.305.....	To allow petitioner to temporarily operate B-707 aircraft in the U.S. without the required 50 percent fleet compliance with the noise standards.
22282	Commuter Airline Association of America.....	14 CFR § 135.261(b).....	To permit petitioner's members to assign a flight crewmember and for flight crewmembers to accept flight duty time without having had at least 10 consecutive hours of rest during that 24-hour period preceding the planned completion of the flight assignment. <i>Note: This petition was previously published. The comment period is reopened and extended until December 15, 1981, at the request of ALPA to allow additional study and response.</i>

DISPOSITION OF PETITIONS FOR EXEMPTION

Docket No.	Petitioner	Regulations affected	Description of relief sought—Disposition
22141	Royal American Airways, Inc.....	14 CFR § 121.291(a)(1).....	To permit petitioner to increase the seating capacity of Viscount 745D aircraft from 43 seats to 47 seats and introduce the aircraft into service without first conducting an emergency evacuation demonstration of the full-passenger-seating capacity. <i>Denied 11/10/81.</i>
189125	Virgin Air, Inc.....	14 CFR § 135.243.....	To permit petitioner to use pilots in command, who do not hold airline transport pilot certificates, for flights under day VFR on direct routes between St. Thomas and St. Bartholomew and St. Thomas and St. Croix. <i>Granted 11/9/81.</i>
21678	Los Angeles Dodgers, Inc.....	14 CFR Portions of Parts 21 and 91.....	To permit use of an FAA-approved minimum equipment list and configuration deviation list for one B-720B aircraft in Part 91 operations. <i>Granted 11/9/81.</i>

DISPOSITION OF PETITIONS FOR EXEMPTION—Continued

Docket No.	Petitioner	Regulations affected	Description of relief sought—Disposition
22080	Midway Airlines, Inc.	14 CFR § 121.811(f)	To permit petitioner to operate their newly acquired or soon to be acquired Douglas DC-9-31 aircraft in Part 121 operations without having installed the required approved shoulder harnesses for all flight attendant seats. <i>Granted 11/2/81.</i>
22121	Southwest Forest Industries	14 CFR § 91.32(b)(1)(3)	To permit petitioner to operate the Gates Learjet Model 35A aircraft above flight level 410 without the use of oxygen masks. <i>Denied 11/12/81.</i>
22277	Horizon Air	14 CFR § 121.81	To permit petitioner to employ Mr. Ray G. Kagle as its Chief Inspector with 3 years of experience as an engineering aide for a Part 121 air carrier substituted as equivalent experience for the required 1-year experience as a maintenance inspector. <i>Granted 11/10/81.</i>
22423	Aerovias Nacionales, De Colombia, S.A.	14 CFR §§ 61.77 and 63.23	To permit petitioner's airmen who possess current U.S. special purpose airmen certificates with appropriate pilot and flight engineer ratings to serve as flight crewmembers of one-time ferry flights of three U.S.-registered Boeing 727 aircraft not under lease to Avianca from Georgetown, Grand Cayman Island, to Phoenix, Arizona, on or about November 9, 12 and 17, 1981. <i>Granted 11/10/81.</i>
22414	Nomads, Inc.	14 CFR § 121.291(a)(b)	To allow petitioner to introduce its B-727 aircraft into passenger-carrying operations without first conducting a full-seating capacity emergency evacuation and ditching demonstration. <i>Granted 11/10/81.</i>
21903	Dale Logsdon	14 CFR § 65.91(c)(1)	To permit petitioner to become eligible for an Inspection Authorization without meeting the three year waiting period requirement after acquiring airplane and powerplant ratings. <i>Denied 11/10/81.</i>
21737	Alan Kappmeier	14 CFR § 141.33(b)	To permit petitioner to be designated to serve as chief flight instructor for more than one pilot school. <i>Denied 11/10/81.</i>
22096	United Air Lines, Inc.	14 CFR § 121.291(a)(2)	To allow petitioner to increase the seating capacity of its Boeing B-747-100 series aircraft from 424 to 429 passenger seats and in the future to 437 passenger seats without first conducting an emergency evacuation demonstration of the full-passenger-seating capacity. <i>Granted 11/16/81.</i>
18243	Seenic Airlines, Inc.	14 CFR § 135.113	To the extend Exemption 2631A which presently permits passenger seating in the co-pilot seat of petitioner's Cessna 404 airplanes. <i>Denied 11/16/81.</i>
22040	Ball Brothers, Inc.	14 CFR § 91.31(a)	To permit petitioner to operate their McDonnell Douglas DC-6 aircraft at a 5-percent increase in zero fuel and landing weight. <i>Granted 11/12/81.</i>
21817	Robert Wood	14 CFR § 121.383(c)	To permit petitioner to serve as a pilot on an airplane engaged in air carrier operations after his 60th birthday. <i>Denied 11/19/81.</i>
22191	American Airlines	14 CFR § 121.434	To permit 50 percent of the operating experience requirements to be accomplished in a simulated flight of at least 2.5 hours duration on a state airplane in lieu of actual aircraft operating experience. <i>Withdrawn 11/12/81.</i>
22408	Cascade Airways, Inc.	14 CFR Portions of Parts 61 and 121	To allow petitioner to utilize a British Aerospace instructor, Captain Peter Henley, to conduct flight training for petitioner's pilots at Cascade's facilities even though Mr. Henley does not have a U.S. Airline Transport Pilot Certificate. <i>Withdrawn 11/16/81.</i>
22319	Commerical Airlines, Inc.	14 CFR § 121.291(a)	To permit petitioner to introduce its DC-9-30 series aircraft into passenger-carrying service in a 120-seating configuration without first conducting a full-seating capacity emergency evacuation demonstration. <i>Granted 11/12/81.</i>
21824	Pan American World Airways	14 CFR § 121.318(b)(2)	To permit petitioner to operate its B-727-100 and L-1011-385 airplanes after December 1, 1981 and until March 6, 1982 and April 1, 1983, respectively, without having the required public address system microphone installed for each flight attendant seated near a floor-level exit. <i>Granted 11/18/81.</i>
22143	Airwest Offshore, Inc.	14 CFR § 43.3(h)	To permit petitioner's pilots to remove, check, and reinstall magnetic chip detector plugs on Allison 250C series engines used on Bell 206 helicopters. <i>Granted 11/20/81.</i>
17397	Delta Air Lines, Inc.	14 CFR § 121.291 and Appendix D to Part 121	Amendment to Exemption No. 2450 to permit petitioner to increase the passenger-seating capacity of the DC-8-61 airplane to 212 without complying with limitation No. 1 of the exemption. That limitation states a demonstration must be conducted in which line flight attendants open 50 percent of the exits and deploy 50 percent of the slides on the DC-8-61 airplanes in a 244 passenger-seat configuration. <i>Denied 11/20/81.</i>
22129	Chaparral Airlines	14 CFR § 121.61(e)	To permit Mr. Frank Eddy to serve as Director of Operations without the required 3 years of experience as pilot in command of a large aircraft or as Director of Operations of an operation using large aircraft. <i>Granted 11/23/81.</i>
21992	Earth Space Transport Systems, Corporation	14 CFR §§ 91.55 and 125	To operate two Conqorda aircraft for limited periods, at supersonic speeds, within segments of U.S. airspace. The proposed flight would follow this route: Heathrow, London; JFK, New York; Orlando, Florida; Johnson Space Center, Houston; Dryden Flight Research Center, California; Everett, Washington; and back to New York and/or Dulles, Washington, D.C. <i>Denied 11/3/81.</i>
15818	United Airlines	14 CFR § 121.285	Extension of Exemption No. 2343A which permits the carriage of organ transplant modules in any passenger seat, subject to the condition that the modules be carried in accordance with the requirements of § 121.285(c)(1) through (5). <i>Granted 11/20/81.</i>
21961	Deere and Company	14 CFR § 91.45	To permit petitioner's pilots to perform ferry flights with one engine inoperative from time to time as the necessity arises without obtaining a ferry permit for each flight. <i>Denied 11/20/81.</i>
22146	Transamerica Airlines	14 CFR § 121.318	To permit petitioner to operate DC-8 aircraft after December 1, 1981, without having a public address system at each floor-level exit in a passenger compartment which is readily accessible to a flight attendant seated in a seat adjacent to that exit. <i>Granted 11/23/81.</i>
22275	Comair, Inc.	14 CFR § 61.31	To permit petitioner's pilots to serve as pilots in command of Embraer Bandeirante EMB-110 aircraft without possessing the appropriate type rating for that aircraft. <i>Granted 11/25/81.</i>
19504	Lineas Aereas, Costarricenses, S.A.	14 CFR Parts 21, 61, 63, and 91	To allow petitioner to continue to operate leased U.S.-registered B-727 aircraft using an FAA-approved master minimum equipment list and continuous airworthiness maintenance program. <i>Granted 11/24/81.</i>

Federal Highway Administration**Establishment of National Motor Carrier Advisory Committee**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: The FHWA announces establishment of a National Motor Carrier Advisory Committee. The Committee will consult with and make recommendations to the Federal Highway Administrator on matters relating to the activities and functions of the FHWA in areas affecting commercial motor vehicles. Meetings of the Committee will be open to the public and announced in the Federal Register. Copies of the Committee charter are available on request.

FOR FURTHER INFORMATION CONTACT:

Mr. Thomas P. Holian, Attorney-Adviser, Office of the Chief Counsel, Federal Highway Administration, HCC-10, Room 4223, 400 Seventh Street, SW., Washington, D.C. 20590, (202) 426-0761. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

Issued on: November 23, 1981.

R. A. Barnhart,

Federal Highway Administrator.

Federal Railroad Administration

[FRA Docket No. AM-80-1]

National Railroad Passenger Corp. v. Grand Trunk Western Railroad Co.; Hearing

ACTION: Notice of hearing.

SUMMARY: This notice is of the Presiding Officer's Order dated November 18, 1981 setting for hearing the National Railroad Passenger Corporation's (Amtrak) application, pursuant to 45 U.S.C. 562(f), for an order requiring Grand Trunk Western Railroad Company to accelerate the speeds at which it operates Amtrak's passenger trains between Battle Creek and Port Huron, Michigan. The Order is attached as the Appendix.

DATE: The hearing will begin at 10:00 a.m. on February 3-5, 1982.

ADDRESS: U.S. Court of Claims, Courtroom 3, Room 309, 717 Madison Place, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Mr. Gregory B. McBride, Office of Chief Counsel, Federal Railroad

Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202/472-5438).

Michael T. Haley,
Deputy Chief Counsel.

November 23, 1981.

Appendix

U.S. Department of Transportation

Federal Railroad Administration

National Railroad Passenger Corporation, Petitioner, v. Grand Trunk Western Railroad Company, Respondent.

FRA Docket No. AM-80-1.

Notice of Hearing Order

1. *Nature of hearing.* The purpose of the hearing is to determine whether the petitioner's application of June 17, 1980, pursuant to 45 U.S.C. 562(f), for an order requiring the respondent to operate the petitioner's passenger trains at an accelerated speed of 79 miles per hour on the respondent's Flint subdivision between Battle Creek and Port Huron, Michigan, should be granted. The petitioner represents that its application applies to all segments of the rail line on which the respondent operates freight trains in excess of 40 miles per hour, except:

a. On curved sections of the rail line where the respondent contends that the combination of degree of curvature and elevation of the outer rail indicates slower maximum allowable speeds computed in accordance with Federal Railroad Administration track safety regulations, 49 CFR Part 213, Appendix A;

b. On sections of the rail line where the respondent contends that crossing protection is inadequate for 79 miles per hour operations under the laws of the State of Michigan; and

c. On sections of the rail line on which the respondent has from time to time imposed temporary slow orders to accomplish track maintenance or for other safety-related reasons.

The petitioner also represents that the application does not extend to improvements necessary to render rail line facilities safe and practicable if it is determined that the accelerated speed requested would be unsafe or otherwise impracticable as to any portion of the rail line.

2. *Place and date of hearing.* The hearing will commence at 10:00 a.m. on February 3-5, 1982, at the U.S. Court of Claims, Courtroom 3, Room 309, 717 Madison Place, N.W., Washington, D.C.

3. *Legal authority.* The hearing is to be conducted pursuant to 5 U.S.C. 556 and 557, 45 U.S.C. 562(f), and the Federal Railroad Administration's Formal Rules of Practice for Passenger Service, 46 FR 2613-2618 (1981).

4. *Issues of fact.* The principal issues in controversy are whether an increase in speed to 79 miles per hour will create any unsafe condition or otherwise be impracticable. The following ancillary issues appear to be in issue:

a. Whether the track is a Class 4 level track. See 49 CFR 213.9(a) and (b).

b. Whether crossing protection is inadequate for an accelerated speed of 79

miles per hour under laws of the State of Michigan or for other reasons and, if so, where.

c. Whether an accelerated speed of 79 miles per hour will be safe or materially lessen the quality of freight service provided to shippers because of inadequate facilities for passing and meeting other trains.

d. Whether an appreciable reduction in travel time will result if the petitioner's application is granted.

5. *Final date for intervention and submission of direct testimony.* Any party desiring to intervene in these proceedings should file by December 15, 1981, a notice of intent to participate in the hearing. The final date for submitting direct testimony in written documents is also December 15, 1981. The final date for submitting direct testimony in written documents to rebut testimony previously submitted is January 11, 1982. The original copy of notices to intervene and of direct testimony should be filed with: George O. Taylor, Jr., Administrative Law Judge, Occupational Safety and Health Review Commission, Presidential Building, 6525 Belcrest Road, Suite 1005, Hyattsville, Maryland 20782, Telephone: (301) 430-8870.

6. *Additional copies of documents.* An intervenor shall provide one copy of his notice to intervene and of direct testimony submissions to:

Roderick C. Dennehy, Jr. Esq., Deputy General Counsel, National Railroad Passenger Corporation, 400 North Capitol Street, N.W., Washington, D.C. 20001
John C. Danielson, Esq., Law Department, Grand Trunk Railroad Company, 131 West Lafayette Boulevard, Detroit, Michigan 48226

At the hearing, the parties shall provide the original and four copies of each document and exhibit offered into evidence.

7. *Inspection of record and direct testimony.* The case record and submitted direct testimony will be available for public inspection from 8:30 a.m. to 5:00 p.m. on weekdays, except federal holidays, at the office specified in paragraph 5, above.

8. *Prehearing conference.* No prehearing conference is contemplated.

9. *Potential witnesses.* a. By virtue of an affidavit contained in the record, the following person appears to be a potential witness for the petitioner: James L. Larson, Assistant Vice President—Contracts, National Railroad Passenger Corporation, 400 North Capitol Street, N.W., Washington, D.C. 20001.

b. By virtue of affidavits contained in the record, the following persons appear to be potential witnesses for the respondent:

William G. Liftin, NRPC Operations Officer, Grand Trunk Western Railroad Company, 131 West Lafayette Boulevard, Detroit, Michigan 48226
Joseph M. Letro, Chief Engineer, Grand Trunk Western Railroad Company, 131 West Lafayette Boulevard, Detroit, Michigan 48226

James L. McNutt, General Superintendent of Transportation, Grand Trunk Western

Railroad Company, 131 West Lafayette Boulevard, Detroit, Michigan 48226

10. *Parties.* At present, the only parties to the proceedings are the respondent, who opposes the petitioner's application, and the petitioner.

11. *Conduct of the hearing.* The hearing shall be conducted in accordance with §§ 201.18 through 201.21, Formal Rules of Practice for Passenger Service, *supra*. Following presentation of evidence by the petitioner in support of its application, evidence will be presented by any intervenors who support the application. Therefore, evidence will be presented by the respondent and any intervenors who oppose the application. Rebuttal evidence will be received in the same order.

12. *Final agenda.* This order constitutes the final agenda for the hearing unless direct testimony submitted pursuant to this order raised other issues. In that event, appropriate notice of the additional issues shall be provided. Any person who submits direct testimony in written documents shall be considered as a potential witness, and the petitioner, the respondent, and any intervenors shall be provided appropriate notice of the submission of such testimony.

13. *Discovery.* The discovery provisions in the Federal Rules of Civil Procedure shall be used as a guide on discovery matters, except that the presiding officer will impose time restraints more stringent than those prescribed in the Federal Rules of Civil Procedure.

Dated: November 18, 1981, Hyattsville, Maryland.

George O. Taylor, Jr.,
Presiding Officer.

BILLING CODE 4910-06-M

Urban Mass Transportation Administration

Seattle, Washington; Intent To Prepare Environmental Impact Statement

Pursuant to the National Environmental Policy Act (83 Stat. 852), the Council on Environmental Quality's implementing regulations (40 CFR Parts 1500-1508), and UMTA/FHWA Regulations (49 CFR Part 622), the Urban Mass Transportation Administration (UMTA) gives notice that an environmental impact statement is being prepared for alternative transit circulation options for downtown Seattle, Washington.

The Municipality of Metropolitan Seattle (Metro) and the City of Seattle are investigating alternatives that would provide transit operating capacity commensurate with the level of demand projected for 1990. Metro's 1990 Comprehensive Plan for Public Transportation calls for an alternative that would meet the capacity needs, as well as the environmental and urban design goals of downtown Seattle. To

achieve these goals, four alternatives are being considered. These include: A Do Nothing (or Null) Alternative; a Transportation Systems Management (TSM) Alternative; a Transit Mall Alternative; and a Transit Mall with Intercept Terminals Alternative. Diesel and electric trolley buses would be the vehicles used.

Scoping meetings for the proposed project are scheduled for Monday, December 14, 1981 at 3:00 p.m. in the Federal Office Building, room 2809, 915 2nd Avenue, Seattle, Washington 98174 and at 7:00 p.m. in the third floor conference room of the Seattle First Bank Building, 1001 Fourth Avenue, Seattle, Washington. The Urban Mass Transportation Administration invites the participation of agencies and individuals with expertise or interest to comment on the scope of the environmental impact statement that will be prepared for this project.

Comments and questions regarding the proposed action and environmental impact statement should be referred to Sue C. Kaminsky, Office of Program Analysis, Urban Mass Transportation Administration, Washington, D.C. 20590, telephone (202) 472-7100.

Dated: November 17, 1981.
Franz K. Gimmmler,
Associate Administrator for Transit Assistance.

BILLING CODE 4820-02-M

DEPARTMENT OF LABOR

Pension and Welfare Benefit Programs

[Applications D-1937, D-2004]

Proposed Class Exemption for Transactions Involving Certain Residential Mortgage Financing Arrangements

AGENCY: Department of Labor.

ACTION: Notice of proposed class exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed class exemption from certain prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (ERISA) and from certain taxes imposed by the Internal Revenue Code of 1954 (the Code). The proposed class exemption would exempt transactions related to the issuance by an employee benefit plan of a commitment to provide mortgage financing to purchasers of certain residential construction and to the provision of loans pursuant to such commitments. The proposed exemption, if granted, would affect participants and beneficiaries of employee benefit plans involved in such transactions, certain employers who contribute to such plans, and other persons engaging in the described transactions.

DATES: Written comments must be received by the Department of Labor on or before January 4, 1982.

EFFECTIVE DATE: It is proposed to make the exemption effective as of January 1, 1975.

ADDRESSES: All written comments (preferably at least three copies) should be sent to: Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, Attention: Applications D-1937, and D-2004. The applications for exemptions and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Jay S. Neuman, Esq., Plan Benefits Security Division, Office of the Solicitor,

U.S. Department of Labor, (202) 523-8658. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of a proposed class exemption from the restrictions of section 408(a) of ERISA and from certain taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c)(1) of the Code. Exemptive relief for transactions described herein was requested in applications filed by the National Coordinating Committee for Multiemployer Plans (NCCMP) (D-1937), and by the National Association of Home Builders (NAHB) (D-2004) (collectively referred to herein as the applicants) pursuant to section 408(a) of ERISA and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975).

It should be noted that the applicants have requested retroactive and prospective relief for transactions which are described below. Since it appears that transactions of the general types described are customary for the residential mortgage financing industry, the Department proposes, in accordance with the applicants' requests, that the exemption be granted retroactively as well as prospectively.

A. Summary of the Applications

The facts and representations contained in these applications are summarized below. Interested persons are referred to the applications on file with the Department for the complete representations of the applicants.

1. *Background.* Residential building projects generally proceed with two types of financing: short-term loans to the project developer to pay for the cost of construction; and long-term (mortgage) loans to the purchasers of the residential units, the proceeds of which are used as partial payment to the developer for those units. The developer pays off the construction loan with the proceeds from the sales of the units.

Before a lender will make a construction loan, it must generally be satisfied that mortgage financing for purchasers of the units will be available when the units are ready for sale. Generally, such a lender, if it does not intend to provide the mortgage financing itself, will require a commitment from another lender obligating the second lender to make such mortgage financing available. Once a satisfactory commitment has been obtained, the construction loan will be made.

Often a developer seeking a short-term construction loan will contact a company that specializes in providing or

obtaining commitments for mortgage financing, such as a state or federally chartered bank or savings and loan association, an insurance company, or similar entity (financial institution).

The financial institution first typically makes a determination as to the feasibility of the proposed project. If that determination is favorable, it may agree to provide or attempt to obtain a commitment for long-term financing. It charges the developer a fee for this service, usually a percentage of the total long-term financing obtained. The financial institution usually looks to institutional investors, including employee benefit plans, for such commitments.

A commitment to provide mortgage financing may take several forms. One typical arrangement obligates the lender to make loans up to a specific aggregate amount directly to purchasers of particular new dwelling units who qualify under guidelines set forth in the commitment.

Another common arrangement obligates the lender to purchase loans up to a specific aggregate amount that are originally made by the financial institution to the purchasers of the units, provided that the mortgages meet requirements set forth in the commitment. In this case, the financial institution itself will make a mortgage financing commitment to the short-term lender, and will rely on the commitment of the lender to purchase the resulting mortgages from it.

A typical commitment might contain requirements concerning, among other things, the type and quality of the underlying real estate security, the credit worthiness of the prospective borrowers, and the terms of the individual loans.

When a commitment is issued by a lender, a loan fee is normally paid to it by the financial institution. Part of the fee may be refundable if loans are made or mortgages are tendered and purchased pursuant to the commitment. It is the Department's understanding that this type of fee is designed to cover the lender's administrative and other expenses in connection with considering and issuing the commitment, and to compensate the lender in part for its having arranged to have funds available to meet its obligations under the commitment.

2. *Request for relief.* The applicants have requested relief which would enable employee benefit plans to issue written commitments to provide mortgage financing to purchasers of certain residential construction and, after the units are completed, to honor the commitments by making mortgage

loans to purchasers of the units (or by buying mortgage loans on such units which have been originated by another financial institution) under the following circumstances.

Financing would be provided only for owner-occupied, single family dwelling units. These may consist of detached houses, town houses, condominiums or units in a multi-unit subdivision restricted by recorded documents which limit the use of the property to residential purposes and provide for maintenance of common facilities (planned unit development). A developer or builder of the units might be an employer of employees who are covered by the plan making the commitment, but in such a case the commitment and financing could only be made if the developer or builder (or any affiliate thereof) does not act as a plan fiduciary with respect to the issuance of the commitment or the provision of the financing. Similarly, the applicant have proposed that no financial institution or construction lender associated with the financial arrangement or origination of mortgages to be purchased pursuant to the exemption (or any affiliate thereof) would be a plan fiduciary with respect to the issuance of the commitment or the provision of the financing by the plan.

Commitments issued by a plan would be in writing, and the loans made by a plan would be evidenced by a written note secured by a first lien on the new dwelling unit. The terms of the commitments, and of the loans, would be at least as favorable to the plan as similar commitments and loans involving unrelated parties, and would be consistent with customary practices in the residential mortgage industry. The commitments would set forth specific requirements for the loans regarding such matters as borrower qualification, fair market value appraisals of the units to be used as collateral, loan-to-value ratios, and insurance requirements. The loans would be made through an established financial institution which would select the recipient of the loan on behalf of the plan and make the loan on terms which are consistent with customary practices in the residential mortgage industry. A person may be retained to service the loans for the plan, which would include such duties as collecting and remitting payments to the plan, assuring payment of taxes and insurance premiums, and making decisions regarding foreclosures.

The applicants propose that loans be available to persons who are parties in interest with respect to the plan under section 3(14) of ERISA, but only if they are parties in interest solely by reason

of being an employee of: an employer any of whose employees are covered by the plan; a person providing services to the plan; an employee organization any of whose members are covered by the plan; or any affiliate of the above. The exemption would not be available for loans from a plan to a person who would be a disqualified person with respect to the plan under section 4975(e)(2) of the Code.¹

Finally, applicants propose that the plan would maintain, for the duration of any loan made under the exemption, records necessary to enable interested persons to determine whether the conditions of the exemption have been met.

Applicants represent that investments of this type are expected to provide a consistent high rate of return as well as the security and stability of income which is desirable for effective plan administration. They also represent that the requested exemption would help plans to achieve a better diversification of plan investments. Additionally, applicants believe that significant protections are inherent in mortgage lending because the lender can look to the credit worthiness of each individual borrower, backed by the security of the property as collateral. In this regard, they represent, and have submitted data to substantiate, that losses on loans of the type involved in this request have historically been minimal, and suggest that loans made pursuant to the requested exemption would be at least as secure due to the requirement that these loans and commitments be made only in the circumstances described above.

3. Prohibited Transactions. Applicants indicate that the above described transactions might violate the prohibited transactions provisions of ERISA and the Code² as a result of the following relationships. The financial institution to which the plan makes a commitment in exchange for a fee, or which sells loans to a plan, or selects loan recipients or services loans on behalf of the plan, may have a pre-existing relationship with the plan so as to make it a party in interest with respect to the plan as defined in section 3(14) (A) or (B) of ERISA. A developer of a project or a

builder involved in the construction of the dwelling units who employs persons covered by the plan would be a party in interest under section 3(14)(C) and, perhaps, section 3(14)(A). A mortgage loan might be made to a person who is a party in interest under section 3(14)(H) solely by reason of being an employee of an employer, a service provider, or an employee organization that is related to the plan.

Based on the above relationships, applicants represent that the following prohibited transactions might occur.

The receipt of a fee in exchange for a loan commitment between a plan and a financial institution which, for example, already services mortgages for the plan, might violate section 406(a)(1)(A) (which prohibits the sale or exchange or leasing of property between a plan and a party in interest) or section 406(a)(1)(D) (which prohibits a transfer to, or use by or for the benefit of, a party in interest of any assets of the plan). A commitment by a plan to make loans or purchase mortgages (or the making of such loans or purchasing of such mortgages), the proceeds of which will be used to purchase units developed or built, in whole or in part, by an employer who contributes to the plan, might give rise to a violation of section 406(a)(1)(B) (which prohibits a lending of money or other extension of credit between a plan and a party in interest) or section 406(a)(1)(D). If such a contributing employer is a fiduciary with respect to the plan, applicants suggest that the mere involvement of the builder might, in itself, constitute a violation of section 406(b)(1) (which prohibits a fiduciary from dealing with the assets of the plan in his own interest or for his own account), or section 406(b)(2) (which prohibits a plan fiduciary from acting in any transaction involving the plan on behalf of a party (or representing a party) whose interests are adverse to the interests of the plan or its participants and beneficiaries), or section 406(b)(3) (which prohibits a plan fiduciary from receiving any consideration for his own personal account from any party dealing with the plan in connection with a transaction involving plan assets).

The purchase of a mortgage by a plan from a financial institution providing services to the plan, or a direct loan by a plan, the proceeds of which are used to purchase a dwelling unit where the purchase results in the repayment of a construction loan made by such financial institution, might give rise to a violation of section 406(a)(1) (A) and (D).

A direct or indirect (through the purchase of a mortgage) loan by a plan to a purchaser of a dwelling unit who is an employee of a contributing employer, service provider, or related union might give rise to a violation of section 406(a)(1) (B) and (D).

Applicants also express concern that the provision of additional loan administration services by a financial institution already providing services to the plan might violate section 406(a)(1)(C) (which prohibits a furnishing of goods, services or facilities between the plan and a party in interest) or 406(a)(1)(D).

B. Description of the Proposed Exemption

On the basis of the applications for class relief filed by the NAHB and the NCCMP, and in view of the individual exemption requests for similar relief already received and acted upon by the Department,³ and the expectation that similar individual requests would continue to be filed, the Department has determined to propose for public comment a class exemption along the lines suggested by the applicants, as described above. However, as explained below, the class exemption proposed herein does not provide all the relief requested by the applicants, and includes a number of conditions, in addition to those suggested by the applicants, which the Department believes would be necessary in order to make the findings required by section 408(a).

1. Applicants request that the Department grant relief from the prohibitions against fiduciary self-dealing and conflict of interest contained in section 406(b) for acts in connection with the above described transactions. The applications, however, were not specific enough to afford a sufficient basis for proposing such relief. Moreover, the Department is concerned that provision of such relief would not be in the interests of plans, and their participants and beneficiaries, or protective of the rights of participants and beneficiaries, because it appears that the decision to commit a plan to making or purchasing mortgages for a given project could be subject to certain abuses of the types which section 406(b) is designed specifically to guard against. The Department is proposing to require that such commitments be made on behalf of the plan by a financial institution which is not subject to the

¹ Under section 3(14) of ERISA, all employees of certain parties in interest with respect to a plan (for example, contributing employers, or unions covering plan members) are themselves parties in interest with respect to the plan. Under section 4975(e)(2) of the Code, relatively few of such employees would be disqualified persons. Accordingly, the exemption would include loans to "rank and file" employees, but would not cover loans to, for example, corporate directors or union officers.

² References herein to sections of ERISA also include the corresponding sections of the Code.

³ See, for example, Prohibited Transaction Exemption (PTE) 80-78, 45 FR 63065, October 17, 1980; PTE 80-37, 45 FR 41069, June 17, 1980; and PTE 79-34, 44 FR 40350, July 13, 1979.

controlling influence of certain interested persons. The Department believes that this requirement should make unnecessary the granting of relief from section 408(b) by sufficiently insulating plan fiduciaries who might have an interest in the transaction from the decision making process. In addition, this requirement will help assure that conditions suggested by the applicants (for example, that such commitments must be no less favorable to the plan than commitments involving unrelated persons) would be met. This position is consistent with the position the Department has taken on matters involving very similar transactions.⁴

2. The NAHB application requested special relief to permit a non-profit corporation, which would be established by a regional, state or local home building association affiliated with NAHB, to amalgamate small loan commitments from employee benefit plans for presentation to financial institutions. According to the NAHB, such corporation would not actually place loans or handle loan servicing, but would arrange loan commitments working through plans and financial institutions. After amalgamating small commitments from plans, the corporation would take them to a financial institution for actual placement of the loan. As in the case of loans placed directly through a financial institution, certain general criteria might be established by the non-profit organization or the plans concerning the types of loans that would be acceptable. It is anticipated that the corporation may receive a fee for its loan placement activities, which the NAHB estimated "might be approximately 1/8 of one point."

⁴ See, PTE 76-1, Part B, 41 FR 12740, 12742, March 26, 1976; and the matters cited in footnote 3 above.

In this regard, the Department has given serious consideration to an alternative method of providing adequate safeguards. This would involve setting forth in the exemption very detailed standards (such as a variety of percentage limitations, specific requirements as to the content of commitments, etc.) which would help to decrease the possibility that the interests and rights of plan participants and beneficiaries would suffer as a result of issuing a commitment to a party in interest. The Department has used this type of approach in the area of individual exemptions, where it is possible to tailor the conditions and scope of relief to fit a particular situation. In the context of a request for relief for a large and varied class of persons, however, such an approach would deprive parties of desirable flexibility in establishing and maintaining a program which best suits them and which could be adapted to developments in the mortgage financing industry. Accordingly, it is the Department's view that this would not be a desirable approach. However, the Department continues to be willing to explore viable alternatives to an "independent fiduciary" requirements, and specifically requests public comment on this aspect of the proposed exemption.

In this regard, it does not appear to the Department that the NAHB has demonstrated that the inclusion of relief of this nature in the class exemption would be necessary in order to achieve the purposes for which the exemption was requested. Additionally, it appears that, to the extent an exemption would be required, plans wishing to avail themselves of this type of service might be able to do so under section 408(b)(2) of ERISA and 29 CFR 2550.408b-2 which, if certain conditions are met, exempt provision of services to plans from the prohibitions of section 408(a). For this reason, the Department is also not proposing relief under the class exemption for other transactions which involve solely the provision of services to a plan.

3. In addition to the above-described conditions suggested by the applicants, the Department believes that the following safeguards would be appropriate.

Under the proposed exemption, the financial institution which approves loans on behalf of the plan must be one which commonly makes mortgage loans on similar terms and conditions from its own funds. This condition will help assure that such institution has the expertise required, for example, to make competent selections of borrowers, and that the representations (that these transactions will be consistent with customary lending practices and at least as favorable to the plan as transactions involving unrelated parties) will be met. The Department has added a condition which will help assure that, in those instances where the plan will service the loans made pursuant to the exemption, such servicing will be carried on in a commercially reasonable manner, pursuant to appropriate procedures. Finally, as discussed above, the Department has conditioned relief on the making of the commitment by an independent financial institution.

Notice to Interested Persons

Because all plan participants and beneficiaries whose plans might invest in mortgages could conceivably be considered interested persons, the Department has determined that the only practical form of notice is publication in the Federal Register.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of ERISA and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified

person from certain other provisions of ERISA and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of ERISA which require, among other things, that a fiduciary discharge his duties respecting the plan solely in the interests of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of ERISA; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of ERISA and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of ERISA and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemption, if granted, will not extend to transactions prohibited under section 408(b) of ERISA and section 4975(c)(1)(E) and (F) of the Code.

Written Comments

All interested persons are invited to submit written comments on the proposed exemption to the address and within the time period set forth above. All comments will be made a part of the record. Comments should state the reasons for the writer's interest in the proposed exemption. Comments received will be available for public inspection with the applications for exemption at the address set forth above.

Proposed Exemption

On the basis of the facts and representations set forth in the applications, the Department is considering granting the following class exemption under the authority of section 408(a) of ERISA and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75-1:

I. Transactions

Effective January 1, 1975, the restrictions of section 406(a) of the Employee Retirement Income Security Act of 1974 (ERISA) and the taxes imposed by section 4975(a) and (b) of the Internal Revenue Code of 1954 (Code) by reason of section 4975(c)(1)(A) through (D) of the Code shall not apply to the following transactions if the conditions set forth in part II below are met:

A. The issuance of a commitment by an employee benefit plan to provide mortgage financing to purchasers of new single-family residential dwelling units, either by making loans directly to purchasers or by purchasing mortgages originated by a third party;

B. The receipt by the plan of a fee in exchange for issuing such commitment; and

C. The actual making or purchase of a mortgage loan by the plan pursuant to such commitment.

II. Conditions

The following conditions apply to the transactions described in part I above:

A. The commitment must be in writing and must be at least as favorable to the plan as a commitment involving unrelated parties and consistent with customary practices in the residential financing industry;

B. The commitment must set forth customary guidelines concerning the loans that will be made pursuant to the commitment, including (but not limited to) appropriate requirements concerning the income levels and credit worthiness of borrowers, fair market value appraisals of the collateral, loan to value ratios, and title, hazard and private mortgage insurance;

C. The decision to issue the commitment must be made on behalf of the plan by an established financial institution, as to which neither the plan, an employer or group of employers contributing to the plan, nor an employee organization any of whose members are covered by the plan, has the power to exercise a controlling influence over the management or policies of such established financial institution;

D. The financing must be provided through an established financial institution which selects the recipient

and makes (or, on behalf of the plan, purchases) the loan based on criteria that are consistent with customary practices in the residential mortgage industry, and which commonly makes mortgage loans on similar terms and conditions from its own funds;

E. The loan must be evidenced by a written note, the terms of which are (1) at least as favorable to the plan as the terms of a loan involving unrelated parties and (2) consistent with customary practices in the residential mortgage industry; and must be secured by a duly recorded first lien on the unit;

F. No person who is a developer or a builder involved in the development or construction of the units, or a lender who is associated with the construction financing arrangement for the units, or who is the originator of a mortgage which may be purchased by the plan pursuant to the commitment (or any affiliate of such person) shall have exercised any discretionary authority or control or rendered any investment advice that would make that person a fiduciary with respect to the decision to issue a commitment, setting the terms thereof, or the decision to make (or purchase) any loan pursuant thereto;

G. No loan may be made to a disqualified person as defined in section 4975(e)(2) of the Code, and, if the loan is made to a party in interest (as defined in section 3(14) of ERISA), that person is a party in interest solely by reason of being an employee of a person described in section 3(14)(B), (C), (D), (E) or (G) of ERISA;

H. If the loans are to be serviced by the plan, the plan shall have adopted in writing reasonable procedures, consistent with customary practices in the residential mortgage industry, designed to ensure that the loans will be serviced in a diligent and systematic manner (servicing a loan includes such duties as, for example, collecting mortgage payments, assuring that taxes and insurance premiums for the units are paid, and making all decisions relating to, and handling, foreclosures); and

I. (1) The plan shall maintain for the duration of any loan made pursuant to this exemption records necessary to enable the persons described in paragraph (2) of this section to determine whether the conditions of this

exemption have been met, except that (a) a prohibited transaction will not be deemed to have occurred, if, due to circumstances beyond the control of the fiduciaries of the plan, records are lost or destroyed prior to the termination of the loan and, (b) no party in interest shall be subject to the civil penalty which may be assessed under section 502(i) of ERISA, or to the taxes imposed by section 4975 (a) and (b) of the Code, if the records are not maintained or are not available for examination as required by paragraph (2) below.

(2) Notwithstanding any provisions of subsections (a)(2) and (b) of section 504 of ERISA, the records referred to in paragraph (1) of this section must be unconditionally available at their customary location for examination during normal business hours by: any trustee, investment manager, participant or beneficiary of the plan, or any duly authorized employee or representative of such person or of the Department of Labor or the Internal Revenue Service.

III. Definitions

For purposes of this exemption—

A. An "affiliate" of a person means a person defined in 29 CFR § 2510.3-21(e).

B. An "established financial institution" means an investment manager described in section 3(38) of ERISA with respect to the plan, or a savings and loan association subject to regulation by the Federal Home Loan Bank Board, which, in the normal course of its business, engages in transactions of the types described in part I of this exemption.

C. A "residential dwelling unit" or "unit" means an owner-occupied, detached house, townhouse, condominium, or unit in a multi-unit subdivision (planned unit development) restricted by recorded documents which limit the use of the property to residential purposes and provide for maintenance of common facilities.

Signed at Washington, D.C., this 2d day of December, 1981.

Ian D. Lanoff,
Administrator, Pension and Welfare Benefit
Programs, Labor-Management Services
Administration, U.S. Department of Labor.

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors will meet in open session at 2:00 p.m. on Monday, December 7, 1981, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Disposition of minutes of previous meetings.

Recommendations regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 44,977-L—The Hamilton Bank & Trust Company, Atlanta, Georgia
Memorandum and Resolution re: Watkins Banking Company, Faunsdale, Alabama
Memorandum and Resolution re: City Bank of Philadelphia, Philadelphia, Pennsylvania

Recommendations with respect to payment for legal services rendered and expenses incurred in connection with receivership and liquidation activities:

Morrison, Hecker, Curtis, Kuder & Parrish, Kansas City, Missouri, in connection with the liquidation of The Mission State Bank and Trust Company, Mission, Kansas.

Memorandum and Resolution re: Proposed amendments to Part 309 of the

Corporation's rules and regulations, entitled "Disclosure of Information," which would permit banks to disclose their examination reports to majority shareholders under certain conditions.

Memorandum and Resolution re: Amendments to Part 329 of the Corporation's rules and regulations, entitled "Interest on Deposits," which would include stock savings banks within the definition of "mutual savings banks."

Reports of committees and officers:

Minutes of the actions approved by the Committee on Liquidations, Loans and Purchases of Assets pursuant to authority delegated by the Board of Directors.

Reports of the Director of the Division of Bank Supervision with respect to applications or requests approved by him and the various Regional Directors pursuant to authority delegated by the Board of Directors.

Report of the Director, Office of Corporate Audits:

Audit Report re: Liquidation Audits, dated September 3, 1981.

Discussion Agenda:

No matters scheduled.

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: November 30, 1981.

Federal Deposit Insurance Corporation.

Hoyle L. Robinson,
Executive Secretary.

BILLING CODE 6714-01-M

2

FEDERAL DEPOSIT INSURANCE CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:30 p.m. on Monday, December 7, 1981, the Federal Deposit Insurance Corporation's Board of Directors will meet in closed session, by vote of the Board of Directors pursuant to sections 552b(c)(2), (c)(6), (c)(8), and (c)(9)(A)(ii) of Title 5, United States Code, to consider the following matters:

Summary Agenda: No substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board of Directors requests that an item be moved to the discussion agenda.

Requests for relief from adjustment for violations of Regulation Z:

Names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(8) and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8) and (c)(9)(A)(ii)).

Note: Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Recommendations with respect to the initiation, termination, or conduct of administrative enforcement proceedings (cease-and-desist proceedings, termination-of-insurance proceedings, suspension or removal proceedings, or assessment of civil money penalties) against certain insured banks or officers, directors, employees, agents, or other persons participating in the conduct of the affairs thereof:

Names of persons and names and locations of banks authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(8), (c)(9), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(8), (c)(9), and (c)(9)(A)(ii)).

Note: Some matters falling within this category may be placed on the discussion agenda without further public notice if it becomes likely that substantive discussion of those matters will occur at the meeting.

Discussion Agenda:

Request for relief from a previously imposed condition of an order issued pursuant to Section 18(c) of the Federal Deposit Insurance Act:

Peoples Westchester Savings Bank, Tarrytown, New York, in connection with its application to merge with Peekskill Savings Bank, Peekskill, New York and the Greenburgh Savings Bank, Dobbs Ferry, New York.

Recommendation regarding the liquidation of a bank's assets acquired by the Corporation in its capacity as receiver, liquidator, or liquidating agent of those assets:

Case No. 45,005-L—American Bank & Trust, Orangeburg, South Carolina

Personnel actions regarding appointments, promotions, administrative pay increases, reassignments, retirements, separations, removals, etc.:

Names of employees authorized to be exempt from disclosure pursuant to the provisions of subsections (c)(2) and (c)(6) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2) and (c)(6)).

The meeting will be held in the Board Room on the sixth floor of the FDIC Building located at 550 17th Street, N.W., Washington, D.C.

Requests for information concerning the meeting may be directed to Mr. Hoyle L. Robinson, Executive Secretary of the Corporation, at (202) 389-4425.

Dated: November 30, 1981.
Federal Deposit Insurance Corporation.

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

November 24, 1981.

TIME AND DATE: 10 a.m., Wednesday, December 2, 1981.

PLACE: Room 600, 1730 K Street, NW., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will consider and act upon the following:

1. Oliver M. Elam, Jr., Company, Inc., VINC 78-447-P, etc. (Issues include whether commercial dock facility is within the jurisdiction of MSHA under the 1977 Mine Act.)

2. Sam Kennedy, d.b.a. Energy Salvage Company, VINC 78-11, etc., IBMA 78-4. (Issues include whether the company's coal slurry reclamation activities constituted "mining" under the 1969 Coal Act.)

3. William A. Haro v. Magma Copper Company, WEST 79-49-DM, WEST 80-116-DM; Petition for Discretionary Review. (Issues include whether judge erred in finding illegal discrimination under the 1977 Mine Act.)

4. Joseph A. Campbell v. The Anaconda Company, WEST 80-221-DM; Petition for Discretionary Review. (Issues include whether judge erred in finding illegal discrimination under the 1977 Mine Act.)

5. Juan Munoz v. Summit Minerals, Inc., CENT 80-331-DM; Petition for Discretionary Review. (Issues include whether judge erred in failing to find illegal discrimination under the 1977 Mine Act.)

CONTACT PERSON FOR MORE INFORMATION: Jean Ellen (202) 653-5632.

7

PAROLE COMMISSION

TIME AND DATE: 2:30-5:30 p.m., Tuesday, December 8, 1981.

PLACE: Rm. 420 F, One North Park Bldg., 5550 Friendship Blvd., Bethesda, Maryland.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Consideration of budget reductions for balance of fiscal year 1982 and related budgetary issues.
2. Consideration of revision of the agency's personnel rules and/or practices, and related personnel matters.

CONTACT PERSON FOR MORE INFORMATION: Ms. Billie L. Richards, Chairman's Office (301) 492-5990.

SYNTHETIC FUELS CORPORATION

Meeting of the Board of Directors

ACTION: Notice of meeting.

SUMMARY: Interested members of the public are invited to attend and observe a meeting of the Board of Directors of the United States Synthetic Fuels Corporation to be held at the time, date and place specified below. This public announcement is made pursuant to the open meeting requirements of section 116(f)(1) of the Energy Security Act (9

Stat. 811, 637; 42 U.S.C. 8701, 8712(f)(1)) and section 4 of the Corporation's Statement of Policy on Public Access to Board Meetings. During the meeting, the Board of Directors may consider a resolution to close a portion of the meeting pursuant to Article II section 4 of the Corporation's By-laws, section 116(f) of the said Act and sections 4 and 5 of the said policy.

MEETING OPEN TO THE PUBLIC: 8:30 a.m.

1. Approval of minutes of prior meeting.
2. Meeting with Advisory Committee to the Board of Directors.
3. Consideration of Supplement to Initial Solicitation for Proposals and Second Solicitation for Synthetic Fuel Projects.
4. Transfer of Department of Energy Projects.
5. Audit Committee Functions.
6. Report of independent auditor.

7. Annual Report of the Inspector General.
8. Resource, Maturity Criteria, and Project Briefings.

In addition, the Board of Directors will consider such other matters as may be properly brought before the meeting.

TIME AND DATE: 8:30 a.m., December 11, 1981.

PLACE: Hotel Utah, Salt Lake City, Utah.

PERSON TO CONTACT FOR MORE

INFORMATION: If you have any questions regarding this meeting, please contact Mr. Owen J. Malone, Office of General Counsel (202) 653-4230.

December 1, 1981.

Edward E. Noble,
Chairman of the Board.

December 3, 1981

Part II

**Department of
Commerce**

**National Oceanic and Atmospheric
Administration**

Fishermen's Protective Act; Final Rule

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 258

Fishermen's Protective Act

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Final rule.

SUMMARY: This final rulemaking implements amendments to section 10 of the Fishermen's Protective Act effected by the American Fisheries Promotion Act (Pub. L. 96-561, enacted December 22, 1980). The amendments (1) eliminate compensation for fishing gear casualties attributable to an "act of God"; (2) provide a rebuttable presumption that fishing gear casualties are attributable to other vessels; and (3) provide compensation for up to 25 percent of the gross income lost because of not being able to fish or having to fish at a reduced level of effort as a result of a fishing gear or vessel casualty. These statutory amendments became effective on the date of enactment of the American Fisheries Promotion Act.

Because of the additional time and administrative cost required to process claims for economic loss, the following fee changes have been made. The filing fee has been changed from 1 percent of the lower of two estimates for the repair or replacement cost to a flat fee of \$75 per claim, regardless of the amount claimed. The 4 percent approval fee, currently deducted only from compensation for property loss, shall now be deducted from the total amount compensable for both economic loss and property loss. In addition, the limit on the combined total of the filing fee and the approval fee is raised from \$1,000 to \$2,000.

Two other minor changes are made. The 90-day filing requirement may be satisfied by the submission of an incomplete application; and the previously nonrefundable filing fee shall be refunded when the claim is withdrawn because the applicant has received or will receive compensation from another source.

Because of the number of changes required by the statutory amendments, this final rulemaking is in the form of a complete set of regulations, as amended.

EFFECTIVE DATE: December 3, 1981, except for amendments to the filing and approval fees which will be effective January 4, 1982.

FOR FURTHER INFORMATION CONTACT: Michael L. Grable, Chief, Financial

Services Division; National Marine Fisheries Service, 3300 Whitehaven St., NW., Washington, D.C. 20235, Telephone (202) 634-1900.

SUPPLEMENTARY INFORMATION: Final rules implementing section 10 of the Fishermen's Protective Act of 1967, as amended by Pub. L. 95-376, were published on October 25, 1979 (44 FR 61546). These were amended on March 17, 1980, September 15, 1980, and November 3, 1980.

On August 7, 1981 (46 FR 40228), NOAA published proposed rulemaking and invited comments for 45 days (ending September 21, 1981). The following summarizes the comments received and the Agency's responses.

Section 258.34(c)(1)

Rebuttal of presumption. The proposed rulemaking provides that weather and sea conditions greater than one standard deviation from the historical mean for the time and place of an unobserved casualty shall constitute sufficient evidence to rebut the presumption that the casualty was caused by another vessel.

Comment: Under certain conditions, properly deployed gear will withstand weather and sea conditions much greater than one standard deviation from the historical mean. Consequently, the one standard deviation test does not constitute proper and sufficient evidence to rebut the presumption.

Response: After conferring with the Oceanic Services Branch of the National Oceanic Data Center, we have determined that the one standard deviation test may be too severe and might result in the denial of claims for unobserved casualties which were, in fact, caused by other vessels. Experience to date with the section 10 program shows that wind velocities meeting the one standard deviation test are generally within the range of gale force intensity (i.e., 34 to 47 knots), but may be significantly lower depending on the geographical area. In one area of the Gulf of Mexico, for example, winds of 18 knots or more and waves of 7 feet or higher constitute conditions greater than one standard deviation from the historical mean.

Since radically different weather conditions in different geographical areas (the Gulf of Mexico versus the Bering Sea, for example) will constitute one standard deviation from the historical mean for the particular time and place, the Agency has determined that a standard more reliable than the one standard deviation test is required to rebut the presumption. Weather and sea conditions meeting the definition of a "storm" (winds of 48 knots or greater), provide a reliable basis for rebuttal. Use of the "storm" conditions standard is

reasonable since mobile fishing operations (the source of most conflicts with fixed gear) are not generally conducted during weather of storm intensity. Consequently, under storm conditions, there is a reduced probability that casualties will be attributable to other vessels and an increased probability that they will be attributable to weather and sea conditions. However, use of the "storm" conditions standard for rebuttal of the presumption of causation does not affect the possibility that a loss may be attributable to other environmental phenomena (e.g. ice floes) which would make the loss ineligible.

Section 258.40(b)

Approval fee. The proposed rulemaking provides for (1) the deduction of a 4 percent approval fee from the total amount compensable for both property loss and economic loss and (2) raising the limit on the combined total of the filing fee and the approval fee from \$1,000 to \$2,000.

Comment: The 4 percent approval fee should not be deducted from amounts compensable for economic loss because the deduction will reduce the benefit to the fisherman and "deteriorate the value of the Act."

Response: The program's authorizing legislation, Pub. L. 95-376, provides for the payment of a reasonable administrative fee. The purpose of this fee is to cover the approximate costs of administering the Fishing Vessel and Gear Damage Compensation Fund. To date, administrative costs have been greater than revenues received from filing and approval fees. It is anticipated that the 4 percent approval fee to be deducted from amounts compensable for economic loss will make up the shortfall. The extension of the approval fee to economic loss will reduce compensation for economic loss by one twenty-fifth. We do not believe this small amount (\$40 out of each \$1,000) will impose a hardship or constitute a burden which can be fairly described as a deterioration of the value of the Act.

Comment: Raising the limit on the total of the two fees would constitute an additional burden on fishermen who are already experiencing economic difficulties and would reduce the value of the section 10 program.

Response: The average amount claimed for compensation from the Fund is approximately \$7,500. The 4 percent approval fee on this amount is \$300. Only for claims in amounts greater than \$23,125 will the combined filing and approval fees exceed \$1,000. The \$2,000 limit will be reached only with claims for \$48,125. The increased limit of the filing and approval fees will, thus, affect

only a small minority of claimants. Moreover, because processing time increases with claims for larger amounts and because the computation of economic loss will impose additional administrative costs, deductions exceeding \$1,000, but limited to \$2,000, will not result in a greater revenue than is needed to offset administrative expenses.

Section 258.36 Compensation for Resulting Economic Loss

The proposed rulemaking provided for compensation for resulting economic loss sustained (1) on the vessel trip of the discovery of the casualty and (2) on subsequent vessel trips which are made at a reduced level of effort or, if fishing is discontinued, which would have been made at full operational capacity between the dates of order and receipt of replacement gear or the dates when repair begins and ends, whichever is appropriate.

Since fixed gear is seldom replaced or repaired at the time of the discovery of the casualty, fishermen will generally sustain a loss of income on the next vessel trip after the one on which they discover the casualty, regardless of whether they have ordered replacement gear or begun repair. Generally, fishermen will replace fixed gear on the next vessel trip after the casualty; so the economic loss on this trip will be sustained even if a fisherman has a reserve inventory of gear from which to replace that involved in the casualty. We have, consequently, added a provision in this rulemaking for payment of compensation for resulting economic loss sustained on the next vessel trip after the trip on which the casualty was discovered if repair or replacement could not be made between the time of the discovery of the casualty and the next vessel trip afterward, regardless of whether replacement gear has been ordered or repair begun.

Having reviewed this final rulemaking in accordance with the specifications of Executive Order 12291, "Federal Regulation," and the Departmental guidelines implementing that order, the Agency has determined that it is not "major" because it has no significant effect on the economy, cost or prices, and no impact on competition, employment, investment, or productivity. Accordingly, no regulatory impact analysis is required.

Since this final rulemaking relates only to benefits, it is exempt from the notice and comment provisions of the Administrative Procedure Act and, thus, from the Regulatory Flexibility Act requirement of regulatory flexibility analysis.

The statutory amendments will necessitate the collection of additional information from claim applicants to document and establish the amount of resulting economic loss. This collection is necessary for the proper performance of the Agency in determining both the eligibility of claims and the amounts to be paid for compensation of resulting economic loss. The collection of information request has been approved by OMB (#0648-0094) in accordance with the Paperwork Reduction Act of 1980.

Because the final rulemaking will affect only fishing vessel owners or operators who may suffer casualties eligible for compensation from the Fishing Vessel and Gear Damage Compensation Fund, it will not have a significant economic impact on a substantial number of small entities. The Administrator of NOAA has certified that these regulations do not require the preparation of an environmental impact statement under the National Environmental Policy Act.

Dated: November 27, 1981.

Robert K. Crowell,
Deputy Executive Director, National Marine Fisheries Service.

PART 258—FISHERMEN'S PROTECTIVE ACT PROCEDURES

Accordingly, the present 50 CFR Part 258 Subpart C is revised to read as follows:

Subpart C—Compensation for Fishing Vessel or Fishing Gear Damage Attributable to Other Vessels in a U.S. Fishery

- Sec.
- 258.30 Purpose and scope.
 - 258.31 Definitions.
 - 258.32 Eligibility.
 - 258.33 Applications.
 - 258.34 Rebuttable presumption of causation and proof of casualty.
 - 258.35 Amount of compensation for actual damage, loss, or destruction.
 - 258.36 Compensation for resulting economic loss.
 - 258.37 Initial determination.
 - 258.38 Final determination.
 - 258.39 Subrogation.
 - 258.40 Payments.
 - 258.41 Penalties.

Authority: Pub. L. 95-376 Pub. L. 98-269, and Pub. L. 98-561; 92 Stat. 715 (22 U.S.C. 1980).

Subpart C—Compensation for Fishing Vessel or Fishing Gear Damage Attributable to Other Vessels in a U.S. Fishery

§ 258.30 Purpose and scope.

(a) This subpart contains the regulations for compensating the owners or operators of United States

commercial fishing vessels or fishing gear for casualties occurring on or after December 22, 1980. Eligible vessel casualties are those which are attributable to any foreign vessel (or its crew or fishing gear). Eligible fishing gear casualties are those which are attributable to any other vessel (of its crew or fishing gear), whether or not such vessel is a vessel of the United States.

(b) For regulations governing casualties occurring before January 1, 1979, see Subpart B.

§ 258.31 Definitions.

Unless the context otherwise requires, in this subpart:

(a) "Assistant Administrator" means the Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration.

(b) "Casualty(ies)" means loss, damage, or destruction of fishing vessels which is attributable to foreign vessels (or their crew or fishing gear) or loss, damage, or destruction of fishing gear which is attributable to any other vessels (or their crew or fishing gear).

(c) "Chief, FSD", means Chief, Financial Services Division, National Marine Fisheries Service.

(d) "Commercial shipping lane" means any area designated for commercial shipping traffic by vessel tracklines shown on pilot charts published by the U.S. Defense Mapping Agency Hydrographic Center or vessel traffic separation lanes as depicted on U.S. National Ocean Survey nautical charts.

(e) "Compensable period" means that period after the discovery of the casualty between the date of order and receipt of replacement gear, or the date repair begins and ends (whichever is appropriate), or such other period as the Chief, FSD, determines to be reasonable.

(f) "Fishery" means: one or more stocks of fish which can be treated as a unit for purposes of conservation, management, and utilization and which are identified on the basis of geographical, scientific, technical, recreational, and economic characteristics.

(g) "Fishery Conservation Zone" means the fishery conservation zone established by section 101 of the Magnuson Fishery Conservation and Management Act of 1976, as amended.

(h) "Fishing" means:

(1) The commercial catching, taking, or harvesting of fish; and

(2) Any operations at sea in support of, or in preparation for, any activity described in paragraph (h)(1) of this section. Fishing does not include any

scientific research activity conducted by a scientific research vessel.

(i) "Fishing gear" means any equipment or appurtenance which is:

(1) Used for, or of a type which is normally used for, fishing by a fishing vessel, whether or not attached to the vessel; and

(2) Not considered a part of the fishing vessel for the purpose of recovery under a commercial policy of full hull and machinery and protection and indemnity insurance.

(j) "Fishing vessel" means any vessel, boat, ship, or other craft which is used for, equipped to be used for, or of a type which is normally used for:

(1) Fishing; or

(2) Aiding or assisting one or more vessels at sea in the performance of any activity relating to fishing including, but not limited to, preparation, supply, storage, refrigeration, transportation, or processing.

(k) "Foreign vessel" means a vessel other than a vessel of the United States, regardless of such vessel's trade or use.

(l) "Rebuttable presumption" means a presumption which may be overcome by additional evidence which may be available.

(m) "Resulting economic loss" means the gross income that an eligible fishing vessel owner or operator will lose, as a direct result of the casualty with respect to which a claim is filed, (1) on the vessel trip during which the casualty was discovered; (2) if appropriate under § 258.36(a)(2), on the next vessel trip after that during which the casualty was discovered; and (3) on later vessel trips which would normally have been made at full operational capacity during the compensable period (as defined under paragraph (e) of this section) because of not being able to fish or having to fish at a reduced level of effort.

(n) "Trip ticket" means a receipt documenting the amount and value of fish sold from the catch of a fishing vessel.

(o) "United States fishery" means any fishery subject to the exclusive fishery management authority of the United States under the Magnuson Fishery Conservation and Management Act of 1976, as amended.

(p) "United States fishing vessel" means any fishing vessel which is a vessel of the United States.

(q) "Unobserved fishing gear casualty" means a fishing gear casualty which was not observed by the applicant or any other witness known to the applicant.

(r) "Vessel of the United States" means any vessel documented under the laws of the United States or registered

under the laws of any State, regardless of such vessel's trade or use.

§ 258.32 Eligibility.

(a) *Applicants.* Only the owner or operator of a United States fishing vessel or fishing gear is eligible for compensation under this subpart.

(b) *Dates.* Casualties occurring on or after December 22, 1980, are eligible for compensation under this subpart. Casualties occurring on or after January 1, 1979, and before December 22, 1980, are governed by program regulations published October 25, 1979, and subsequent amendments published before December 22, 1980. See Subpart B of this part for regulations governing casualties occurring before January 1, 1979.

(c) *Casualty to fishing vessels.* A casualty to a United States fishing vessel is eligible for compensation under this subpart if it occurred in a United States fishery and is attributable to any foreign vessel (or its crew or fishing gear).

(d) *Casualty to fishing gear.* A casualty to fishing gear is eligible for compensation under this subpart if it occurred in a United States fishery and is attributable to any other vessel (or its crew or fishing gear, even if such gear was not attached to the vessel), whether or not such vessel is a foreign vessel.

(e) *Reporting requirement.* A casualty to fixed fishing gear attributable to any other vessel is not eligible for compensation unless the claimant has met all mandatory reporting requirements regarding gear deployment set forth in any applicable Fishery Management Plan or other Federal regulation. Fishermen are encouraged to participate in voluntary gear reporting programs. A record of gear deployment broadcast to other vessels may be considered evidence of prudent care on the part of a fisherman to notify other vessels in a particular area of the presence of that fisherman's gear.

(f) *Insurance.* Compensation for property loss under this subpart will not be made for any part of a casualty which would have been recoverable under a commercial policy of full hull and machinery and protection and indemnity insurance, regardless of whether or not such insurance was in effect. The Fund will, however, compensate for United States fishing vessel casualties caused by foreign vessels (or their crew or fishing gear) to the extent of a reasonable deductible under full hull and machinery and protection and indemnity insurances even if such insurances were not in effect. It will also compensate for

economic loss resulting from fishing vessel casualties.

(g) *Commercial Shipping Lanes.* No casualty incurred in a commercial shipping lane caused by a vessel transiting such lane is eligible for compensation under this subpart.

§ 258.33 Applications.

(a) *Who may apply.* Applications under this subpart shall be submitted by the owner or operator whose United States fishing vessel or fishing gear suffered the casualty and the resulting economic loss for which compensation is sought.

(b) *Where to apply.* Applications shall be submitted to the Financial Services Division, National Marine Fisheries Service, Washington, D.C. 20235.

(c) *Time requirement.* After June 30, 1980, applications must be submitted to the Financial Services Division within 90 calendar days of the date the owner or operator became aware of the casualty. Applications sent by mail must be postmarked during that 90-day period. Applications made later than 90 days are not eligible. The 90-day filing requirement is satisfied by the filing of an improperly completed or incomplete application.

(d) *Contents.* (1) Applications may be submitted on forms provided by the Financial Services Division when such forms are available. Until such forms are available, applications shall include the information required by paragraphs (d) through (l) of this section.

(2) Each application shall be signed by the applicant and shall state the applicant is the owner or operator of the United States fishing vessel or fishing gear involved in the casualty.

(3) Each application shall include as attachments the affidavits and supporting documentation required by this section. For the purposes of this section, an affidavit is a written statement sworn to or affirmed before a notary public or other official empowered to administer oaths.

(e) *Affidavit of vessel master.* Each application shall include an affidavit of the master of the United States fishing vessel which suffered, or whose fishing gear suffered, the casualty and the resulting economic loss for which compensation is sought. If more than one master was involved at any material time before, during, or after the casualty, the application shall include an affidavit from each master. The affidavit shall set forth a full statement of all facts and circumstances before, during, and after the incident resulting in the casualty and the resulting

economic loss for which compensation is sought, including:

(1) A full description of the nature of the fishing operations engaged in prior to the casualty. The description of casualties to fixed fishing gear shall ordinarily include a diagram and accompanying explanation showing the various components of the gear involved in the casualty and how they were arranged while operating.

Example. The description for a casualty to fixed fishing gear should explain:

- (i) How the gear was fixed, anchored, or otherwise prevented from drifting and with what size, weight, type, construction material, and number of anchors or other means of fixation;
- (ii) How many pots, traps, or other units of gear of what size, weight, type, and construction material were fixed to the gear; how they were fixed; and at what intervals;
- (iii) How the gear was buoyed with what size, shape, type, and construction material buoys, and how many buoys were used at what intervals on the gear set;
- (iv) What size, weight, type, grade, and construction material lines, ropes, or cables were used;
- (v) What provisions were made to ensure the gear could be seen by other vessels;
- (vi) What provisions were made to ensure the gear could be located and retrieved;
- (vii) At what depth the gear operated, its length, and what area it covered;
- (viii) What weather or sea conditions the gear was designed to withstand; and
- (ix) Any other relevant details of the casualty.

(2) A full description of the nature and extent of loss, damage, or destruction involved in the casualty, including photographs of the damage where possible.

(3) The time, date, and location (in latitude and longitude coordinates or Loran C readings) of the incident resulting in the casualty.

(4) If the casualty was not observed at the time it happened, include:

- (i) The time, date, and location when the gear was first deployed;
- (ii) The time, date, and location when the gear was last observed to be in a sound state (if different from the time and date of its deployment);
- (iii) The time, date, and location when the casualty first became known; and
- (iv) A full statement (to the best of applicant's knowledge) of the weather and sea conditions which existed during the period after deployment and before first knowledge of the casualty.

(5) If the casualty was observed, a full description of the vessel which caused the casualty (for instance, the vessel's size, type, flag, name, number, color of house or hull, and other identifying

characteristics) and a full description of such vessel's and/or its crew's action before, during, and after the casualty.

(6) A full description of the actions of the applicant's fishing vessel and its crew before, during, and after the casualty, including all circumstances involving deployment of any fishing gear involved in the casualty and locating and retrieving it, or all attempts at locating and retrieving it.

(7) A full statement of the reasons for believing the casualty was caused by another vessel (or its crew or gear) rather than by weather and sea conditions or by other ineligible causes (for example, defective deployment, defective retrieval, or other circumstances which constitute normal operating contingencies);

(8) A full inventory of all property involved in the casualty, including: the number of all components lost, damaged, or destroyed; their size, type, grade and construction material; their age; their useful economic life; whether the damage was total or repairable (and, if a combination of both, what components were totally damaged or lost and what components were retrieved in what condition, etc.).

(f) *Affidavit of the owner.* Each application shall also include an affidavit of the owner of the United States fishing vessel or fishing gear involved in the casualty. A single affidavit of the vessel master and owner may be submitted if the vessel master is also the owner of the property concerned. Each affidavit shall include:

(1) A complete inventory of all fishing gear owned by the applicant of a type similar to any fishing gear involved in the casualty for which a claim for compensation is being made. The inventory shall be current as of the date of the casualty and must include the lost, damaged, or destroyed fishing gear. The age and remaining useful economic life of each unit of fishing gear in the inventory shall be specified.

(2) The date, place, and cost of acquisition of all fishing gear and components lost, damaged, or destroyed in the casualty. Purchase invoices or other acceptable proof of ownership for such gear shall be submitted.

(g) *Estimates.* Each application shall include two estimates (or one estimate and one purchase invoice or receipt) from commercial sources, acceptable to the Chief, FDS, of the replacement cost of the property lost, damaged, or destroyed or its repair cost if it is repairable.

(h) *Documentation of resulting economic loss.* Each application shall include proper and complete documentation of all facts necessary to substantiate the resulting economic loss as defined in § 258.31(m).

(1) In support of any claim for economic loss sustained on the vessel trip during which the casualty was discovered, the claimant shall submit:

(i) Copies of trip tickets (or other suitable documentation of gross income) for the three vessel trips immediately before that during which the casualty was discovered or, if these are not available, documentation of gross income for three other vessel trips nearest in time to that during which the casualty was discovered;

(ii) A statement of the number of gear units (traps, longlines, pots, gillnets, etc.) hauled on each of the three vessel trips; or if the casualty involves mobile gear, a statement of fishing time involved on each of the three vessel trips; and

(iii) If available, documentation (such as copies of relevant pages from the vessel's log book) supporting the statement of the number of gear units hauled or time involved on each of the three vessel trips.

(2) In support of any claim for resulting economic loss sustained on the next vessel trip after that on which the casualty was discovered, the applicant shall submit:

(i) A copy of a trip ticket (or other suitable documentation of gross income) for the vessel trip; and

(ii) A statement of the number of operable gear units in the applicant's total inventory.

(3) To establish the compensable period for resulting economic loss sustained following the next vessel trip after that during which the casualty was discovered, the claimant shall submit documentation establishing the date of order of the replacement gear and the date of its receipt, or the date repair began and ended (whichever is appropriate). Appropriate documentation may consist of purchase orders, bills of lading, or statements from commercial repair or supply sources.

(4) In support of any claim for resulting economic loss sustained during the compensable period, the applicant shall submit:

(i) If fishing is continued at a reduced level, copies of trip tickets (or other suitable documentation of gross income) for vessel trips made during the compensable period, along with a statement of the number of gear units

(traps, longlines, pots, gillnets, etc.) deployed and hauled during each trip, and any available documentation (such as copies of relevant pages from the vessel's log book) supporting the statement of the number of gear units deployed and hauled during each trip;

(ii) If fishing is discontinued because of the casualty, copies of trip tickets (or other suitable documentation of gross income) for vessel trips made the previous year during the period corresponding to the compensable period, along with a statement of the number of gear units (traps, longlines, pots, gillnets, etc.) deployed during each trip and the number hauled during each trip, and any available documentation (such as copies of relevant pages from the vessel's log book) supporting the statement of the number of gear units deployed and hauled during each trip.

(i) *Witnesses.* Each application shall include:

(1) The name, address, and telephone number of each known witness to the casualty; and

(2) An affidavit from any material witness to the casualty setting forth material information possessed by such witness.

(j) *Efforts to retrieve fishing gear.* A full description of the actions taken to retrieve the fishing gear involved in the casualty must accompany the claim. The applicant is responsible for reporting any fishing gear retrieved to the Chief, FSD, whether retrieved before or after a decision is made on a claim.

(k) *Other evidence.* The Chief, FSD, may require an applicant to submit affidavits, information, explanations, or estimates in addition to those specified in this section.

(l) *Filing fee.* Each application for each casualty shall include a check or money order made payable to the National Marine Fisheries Service for a filing fee of \$75. The filing fee is nonrefundable, except when the claim is withdrawn because the applicant has received or will receive compensation from another source.

(m) *Incomplete and abandoned applications.* All applications for compensation for property loss or for resulting economic loss under this subpart must be filed within 90 days after the date of discovery of the casualty. When necessary, however, additional time, as determined reasonable by the Chief, FSD, will be allowed to enable applicants to submit information and documentation required for the computation of resulting economic loss. As soon as practicable after receipt of an incomplete or improperly completed application, the Chief, FSD, shall so notify the applicant.

(1) If the application is incomplete or improperly completed with regard to the claim for compensation for actual loss, damage, or destruction, the Chief, FSD, shall notify the applicant, and the applicant shall have 60 calendar days following the date of notification to correct the deficiency. If the applicant without good cause fails to correct the deficiency within such 60-day period, the application will be considered abandoned.

(2) If the application is incomplete or improperly completed with regard to the claim for compensation for resulting economic loss, the Chief, FSD, may grant the applicant additional time as is deemed reasonable to correct the deficiency. If the applicant without good cause fails to correct the deficiency of the claim for resulting economic loss within the additional time allowed, the application will be considered abandoned.

(3) If a claim is considered abandoned because of the failure of the applicant to correct a deficiency after notice from the Chief, FSD, the claim shall not be eligible for compensation under this subpart.

(4) An application may be amended at any time before issuance of the initial determination specified in § 258.37. The Chief, FSD, will then make an initial determination on the application, as amended.

§ 258.34 Rebuttable presumption of causation and proof of casualty.

(a) *Proof of casualty.* An applicant seeking compensation for a fishing vessel or gear casualty must submit evidence:

(1) That a casualty actually occurred; evidence of the occurrence may consist of affidavits of material witnesses (affidavits should be submitted by the vessel's Master and its crew);

(2) Of ownership of the vessel or gear involved in the casualty; evidence of gear ownership may consist of receipts, itemized income tax statements, cancelled checks, or affidavits of sellers; and

(3) That the gear involved in the casualty was deployed in conformity with customary usage and practice.

(b) *Rebuttable presumption.* Claims for unobserved casualties to fishing gear shall be afforded a rebuttable presumption that the damage, loss, or destruction is attributable to another vessel, its crew, or its gear. The presumption of causation for unobserved fishing gear casualties shall not apply to observed fishing vessel or fishing gear casualties.

(c) *Rebuttal of presumption.* In the case of an unobserved casualty, the

Chief, FSD, may rebut the presumption that any damage, loss, or destruction of fishing gear is attributable to another vessel if there is sufficient evidence that:

(1) The casualty was caused by weather and sea conditions or other natural causes. Weather and sea conditions of storm intensity or greater (i.e., wind velocities of 48 knots or more) for the time and place of an unobserved casualty shall constitute sufficient evidence to rebut the presumption that the casualty was caused by another vessel. The Office of Oceanic and Atmospheric Services of the National Oceanic and Atmospheric Administration will provide data on weather and sea conditions for the general location and time of the casualty.

(2) The casualty resulted from the negligence or fault of the claimant or from a normal operating contingency; or

(3) The casualty resulted from some other cause unassociated with other vessels.

(d) *Proof after rebuttal of presumption.* Once the presumption of causation has been rebutted, the burden rests with the applicant to provide sufficient evidence that the damage, loss, or destruction of the fishing gear was in fact caused by other vessels.

§ 258.35 Amount of compensation for actual damage, loss, or destruction.

(a) *General.* The amount of compensation under this section is the amount determined in accordance with paragraph (b) of this section minus the sum of any deduction for the negligence of the applicant determined under paragraph (e) of this section and minus any deduction for insurance proceeds under paragraph (f) of this section.

(b) *Amount of compensation.* If the property concerned is determined by the Chief, FSD, to be repairable at a cost less than its depreciated replacement cost, the compensable amount is the repair cost. The compensable amount for property which is totally (actually or constructively) lost or destroyed is its depreciated replacement cost.

(c) *Depreciated replacement cost.* For purposes of this section the depreciated replacement cost is the present replacement cost of the property (at the time the claim is submitted) involved in the casualty, depreciated (on a straightline basis over the property's economically useful life) so as to exclude from the replacement cost the value of the property's economically useful life which is already expired. The present replacement cost is the lower of the two submitted estimates required to be submitted under § 258.33(g).

(d) *Economically useful life remaining.* (1) If the age, condition, and value of individual units of fishing gear involved in the casualty cannot be established to the satisfaction of the Chief, FSD, the Chief, FSD, shall use the average remaining economically useful life for all units identified in the inventory required by § 258.33 in calculating the depreciated replacement cost.

(2) If the average remaining economically useful life of fishing gear involved in the casualty is less than the average remaining economically useful life of all the property in the inventory required by § 258.33, the average remaining economically useful life of the fishing gear in the casualty will be used as the basis for calculating the depreciated replacement cost.

Example No. 1

(i) Applicant claims to have lost 100 crab pots with various remaining economically useful lives averaging 2.5 years. The applicant's fishing gear inventory shows that the applicant owns 500 crab pots (including the 100 involved in the casualty) with various remaining economically useful lives averaging 3.5 years.

(ii) The replacement cost of the 100 pots involved in the casualty will be depreciated as if they each had a remaining economically useful life of 2.5 years.

(iii) If the present replacement cost of the pots is \$500 each and they have an economically useful life when new of 5 years, the depreciated replacement cost of each pot will be \$250 (or 50 percent of the replacement cost), since 2.5 years (or 50 percent of their new economically useful life) was regarded as remaining at the time of the casualty.

(iv) Thus, the compensation would be 100 pots at a depreciated replacement cost of \$250 each, for a total of \$25,000.

(3) If the average remaining economically useful life of the fishing gear involved in the casualty is more than the average remaining economically useful life of all the fishing gear in the inventory required by § 258.33, the average remaining economically useful life of all the fishing gear in the inventory will be used as the basis for calculating the depreciated replacement cost.

Example No. 2

If the 100 crab pots described in Example No. 1 above, had an average remaining economically useful life of 4 years (instead of 2.5 years), then the 3.5-year average remaining economically useful life of all the fishing gear in the inventory would be used as the basis for depreciating the cost of the replacement pots. Since 3.5 years is 70 percent of the new economically useful life (5 years) of the pots, the compensation would be \$35,000 (70 percent of \$500 equals \$350 times 100 pots equals \$35,000).

(e) *Comparative negligence.* In calculating the amount of compensation under this section, the compensable amount determined under paragraph (b) of this section will be reduced proportionally to the extent that any negligence of the applicant (or the applicant's agents) contributed to the cause or extent of the casualty.

Example

If the applicant's total damages (property and resulting economic loss) were \$25,000 and 10 percent of the damages were the result of the applicant's negligence, the applicant would receive \$22,500 in compensation. If the negligence of the applicant had caused 90 percent of the loss, \$2,500 in compensation would be paid.

(f) *Insurance proceeds.* For purposes of calculating the amount of compensation under this section, the amount of compensation determined under paragraph (b) of this section will be reduced by the amount the applicant has, or reasonably would have, received under a commercial policy of full hull and machinery and protection and indemnity insurance, whether or not such insurance was in effect at the time the casualty occurred. Recovery will be allowed for a reasonable deductible as set forth in § 258.32(f).

§ 258.36 Compensation for resulting economic loss.

(a) *General.* Applicants shall be eligible to receive compensation for up to 25 percent of the gross income lost as a direct result of the casualty with respect to which the claim is filed. The amount of compensation will be reduced proportionally to the extent that any negligence of the applicant (or applicant's agents) contributed to the cause or extent of the casualty. (See example of proportionate reduction under § 258.35(e)). No compensation will be paid for economic loss resulting from a gear or vessel casualty for which a vessel owner or operator is not otherwise entitled to compensation for property loss under this subpart. Compensation will be made for up to 25 percent of:

(1) Gross income lost on the vessel trip during which the casualty was discovered; and

(2) Gross income lost on the next vessel trip which was made or, if fishing is discontinued because of the casualty, would have been made after the vessel trip of the casualty, if the gear involved in the casualty was not replaced or repaired between the vessel trip of the discovery of the casualty and the next vessel trip; and

(3) Gross income lost within the compensable period specified in paragraph (b) of this section on vessel

trips made at a reduced level of effort because of the casualty or, if fishing is discontinued because of the casualty, on vessel trips which would normally have been made at full operational capacity.

(b) *Compensable period.* Except as specified in paragraph (a)(2) of this section, applicants will be eligible for compensation for income lost after the vessel trip on which the casualty was discovered only during the period between the dates of order and receipt of replacement gear or the dates repair begins and ends (whichever is appropriate), or such other period as the Chief, FSD, determines to be reasonable.

(c) *Calculation of economic loss for the vessel trip of discovery of casualty.* Compensation for economic loss on the vessel trip during which the casualty was discovered shall be determined as follows:

(1) For casualties involving fixed gear by:

(i) Totaling the dollar value of the catch for the three vessel trips immediately before the trip of the casualty, or the three trips nearest in time to that of the casualty, if the former is unavailable;

(ii) Dividing this total value by the total number of gear units hauled during these three trips;

(iii) Multiplying this average dollar value per gear unit times the number of units lost or damaged; and

(iv) Computing 25 percent of the result.

(2) For casualties involving mobile gear by:

(i) Totaling the dollar value of the catch for the three vessels trips immediately before the trip of the casualty, or the three trips nearest in time to that of the casualty if the former is unavailable;

(ii) Dividing this total value by the total number of units (hours, days) of fishing time during these three trips;

(iii) Multiplying this average dollar value per unit of fishing time times the number of units of fishing time lost as a result of the casualty; and

(iv) Computing 25 percent of the result.

(d) *Calculation of economic loss on the next vessel trip after the discovery of the casualty.* (1) If fishing is continued at a reduced level of effort because of the casualty, compensation for resulting economic loss on the next vessel trip made after the discovery of the casualty shall be computed by dividing the value of the catch by the number of operable gear units (units in the total inventory minus those involved in the casualty); multiplying this average value per gear unit times the number of units involved

in the casualty; and computing 25 percent of the result.

(2) If fishing is discontinued because of the casualty, the compensation for economic loss on the next vessel trip which would normally have been made shall be the same as the amount computed under paragraph (c)(1) of this section.

(e) *Calculation of economic loss during the compensable period.* Resulting economic loss suffered during the compensable period may result from an inability to fish or from fishing at a reduced level of effort because of the casualty. In either case, the calculation of the amount of the loss shall be based upon:

(1) The number of gear units lost, or damaged, or destroyed in the casualty or, in the case of mobile gear, the amount of fishing time lost;

(2) The length of the compensable period;

(3) The number of gear units hauled on each vessel trip made during the compensable period or during the corresponding period of the previous year;

(4) Information, such as amount and value of catch, available from trip tickets, or other suitable documentation, for the vessel trips made during the compensable period or the corresponding period of the previous year; and

(5) The number of operable gear units in the claimant's complete inventory under § 258.33(f)(1).

§ 258.37 Initial determination.

After receipt of an application which is properly completed as to claims for actual loss, damage, or destruction, the Chief, FSD, will make an initial determination of the amount of any compensation to be paid the applicant for such loss, damage, or destruction. After receipt of all required information and documentation of resulting

economic loss, the Chief, FSD, will make an initial determination of the amount of any compensation to be paid to the applicant for resulting economic loss.

(a) *Contents.* An initial determination shall state:

(1) If the application is disapproved, the reasons therefore; or

(2) If the application is approved, the amount of compensation and the basis upon which the amount was determined.

(b) *Notice.* The initial determination, along with the subrogation agreement (where applicable) provided for in § 258.38, shall be mailed to the applicant.

§ 258.38 Final determination.

(a) *Final determination.* Unless appealed under subsection (b) the initial determination of the Chief, FSD, shall become final 30 days after its issuance under § 258.37.

(b) *Appeal.* Any applicant may, within 30 days after the date of issuance of an initial determination under § 258.37, file with the Assistant Administrator at 3300 Whitehaven Street, Washington, D.C. 20235 a written request for review of the initial determination.

(c) *Additional evidence.* The applicant may submit to the Assistant Administrator written data relating to the initial determination no later than 30 calendar days after the filing of a petition under paragraph (b) of this section.

(d) *Appellate determination.* The Assistant Administrator shall issue a final determination on an appealed application within 60 days of the submission of any written data by the applicant under paragraph (c) of this section. A copy of the final determination shall be mailed to the applicant.

§ 258.39 Subrogation.

(a) After approval of an applicant's claim, but before compensation is

disbursed, the applicant shall execute a subrogation agreement in a form satisfactory to the Chief, FSD, which:

(1) Assigns to the United States all rights which the applicant may have to proceed against any party who may be liable for damages with respect to any part of a casualty for which compensation is being made hereunder, and;

(2) Requires, as a condition of continuing to retain any compensation, that the applicant assist the Chief, FSD, in any reasonable way to pursue collection of the subrogated rights.

§ 258.40 Payments.

(a) *Amount.* The Chief, FSD, shall compensate the applicant in the amount calculated under §§ 258.35 and 258.36 minus the approval fee as determined according to the paragraph (b) of this section. Payment shall be made to the applicant upon receipt of a properly executed subrogation agreement under § 258.39.

(b) *Approval fee.* The approval fee is 4 percent (4%) of the amount of compensation calculated under §§ 258.35 and 258.36, but in no case shall the sum of the approval fee and the filing fee under § 258.33(l) exceed \$2,000.

§ 258.41 Penalties.

Persons who willfully make any false or misleading statement or representation for the purpose of obtaining compensation under this subpart are subject to criminal prosecution pursuant to the provisions of 22 U.S.C. 1980(g), which provides penalties, upon conviction, of a fine of not more than \$25,000, or imprisonment for not more than one year, or both. Any evidence of false or misleading statements or representations will be promptly forwarded to the U.S. Department of Justice for action.

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday. Comments on this program are still invited.

Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

List of Public Laws

Last Listing November 27, 1981

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the Federal Register but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (telephone 202-275-3030).

S. 815 / Pub. L. 97-86 Department of Defense Authorization Act, 1982, (Dec. 1, 1981; 95 Stat. 1099) Price: \$2.50.

S. 1133 / Pub. L. 97-87 To amend the National Advisory Committee on Oceans and Atmosphere Act of 1977 to authorize appropriations to carry out the provisions of such Act for fiscal year 1982, and for other purposes. (Dec. 1, 1981; 95 Stat. 1134) Price: \$1.50.

Part III

Department of Education

National Defense Student Loan
Program and National Direct
Student Loan Program; Cancellation of
Loan for Teaching Service

DEPARTMENT OF EDUCATION**Office of Postsecondary Education****National Defense Student Loan Program and National Direct Student Loan Program; Cancellation of Loan for Teaching Service****AGENCY:** Department of Education.**ACTION:** Notice of cancellation of loan for teaching service.

SUMMARY: The Secretary of Education is publishing the list of schools which the Secretary has determined to have a high concentration of students from low-income families. The list identifies schools in which the enrollment of students from low-income families exceeds thirty percent of the total enrollment of students.

FOR FURTHER INFORMATION CONTACT:

Inquires concerning these lists may be made to the appropriate State educational agency or to Ronald Allen, Campus and State Grants Branch, Division of Program Operations, Office of Student Financial Assistance, U.S. Department of Education, Washington, D.C. 20202, Telephone (202) 245-9640.

SUPPLEMENTARY INFORMATION:**Defense Loans**

Borrowers under the National Defense Student Loan Program may cancel the entire amount of their loan plus interest, if they teach full-time in one of the schools listed. For each complete year of full-time teaching a borrower may cancel 15 percent of his or her loan and the interest on that amount.

The procedures used for selecting schools are described in the National Defense Student Loan Program regulations (34 CFR 674.53).

The Secretary has determined that for the 1981-82 academic year teaching service in the schools set forth below qualifies for cancellation in accordance with the above provision.

Direct Loans

Borrowers under the National Direct Student Loan Program may cancel the entire amount of their loan plus interest, if they teach full-time in one of the schools listed. For the first two complete years of full-time teaching, the cancellation rate is 15 percent; for the

third and fourth complete years of fulltime teaching, the cancellation rate is 20 percent; for the fifth complete year, the cancellation rate is 30 percent.

The procedures used for selecting schools are described in the National Direct Student Loan Program regulations (34 CFR 674.54).

The Secretary has determined that for the 1981-82 academic year teaching service in the schools set forth below qualifies for cancellation in accordance with the above provision.

The schools are listed alphabetically under county and/or school district designation, by State. The entries for American Samoa, Commonwealth of the Northern Mariana Islands, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands appear following the list for the State of Wyoming. The District of Columbia is included in the alphabetical sequence.

(Catalog of Federal Domestic Assistance Number 84.037: Higher Education—National Defense/Direct Student Loan Cancellations)

Dated: November 24, 1981.

T. H. Bell,
Secretary of Education.
