STATUT DE LA COUR INTERNATIONALE DE JUSTICE

Article 1
La Cour internationale de justice instituée par la Charte des Nations Unies comme organe judiciaire principal de l'Organisation sera constituée et fonctionnera conformément aux dispositions du présent Statut.

CHAPITRE I
ORGANISATION DE LA COUR

Article 2
La Cour est un corps de magistrats indépendants, élus, sans égard à leur nationalité, parmi les personnes jouissant de la plus haute considération morale, et qui réunissent les conditions requises pour l'exercice, dans leurs pays respectifs, des plus hautes fonctions judiciaires, ou qui sont des jurisconsultes possédant une compétence notoire en matière de droit international.

Article 3
1. La Cour se compose de quinze membres. Elle ne pourra comprendre plus d'un ressortissant du même État.
2. A cet égard celui qui pourrait être considéré comme le ressortissant de plus d'un État, sera censé être ressortissant de celui où il exerce habituellement ses droits civils et politiques.

Article 4
1. Les membres de la Cour sont élus par l'Assemblée Générale et par le Conseil de Sécurité sur une liste de personnes présentées par les groupes nationaux de la Cour Permanente d'Arbitrage, conformément aux dispositions suivantes.
2. En ce qui concerne les Membres des Nations Unies qui ne sont pas représentés à la Cour Permanente d'Arbitrage, les candidats seront présentés par des groupes nationaux, désignés à cet effet par leurs gouvernements, dans les mêmes conditions que celles stipulées pour les membres de la Cour Permanente d'Arbitrage par l'article 44 de la Convention de La Haye de 1907 sur le règlement pacifique des conflits internationaux.
3. En l'absence d'accord spécial, l'Assemblée Générale, par la recommandation du Conseil de Sécurité, réglera les conditions auxquelles peut participer à l'élection des membres de la Cour un État qui, tout en étant partie au présent Statut, n'est pas Membre des Nations Unies.

Article 5
1. Trois mois au moins avant la date de l'élection, le Secrétaire Général des Nations Unies invite par écrit les membres de la Cour Permanente d'Arbitrage appartenant aux États qui sont parties au présent Statut, ainsi que les membres des groupes nationaux désignés conformément au paragraphe 2 de l'article 4, à procéder dans un délai déterminé, par groupes nationaux, à la présentation de personnes en situation de remplir les fonctions de membre de la Cour.
2. Chaque groupe ne peut, en aucun cas, présenter plus de quatre personnes dont deux au plus de sa nationalité. En aucun cas, il ne peut être présenté un nombre de candidats plus élevé que le double des sièges à pourvoir.

Article 6
Avant de procéder à cette désignation, il est recommandé à chaque groupe national de consulter la plus haute cour de justice, les facultés et écoles de droit, les académies nationales et les sections nationales d'académies internationales, vouées à l'étude du droit.
Article 7

1. Le Secrétaire Général dresse, par ordre alphabétique, une liste de toutes les personnes ainsi désignées; seules ces personnes sont éligibles, sauf le cas prévu à l'article 12, paragraphe 2.

2. Le Secrétaire Général communique cette liste à l'Assemblée Générale et au Conseil de Sécurité.

Article 8

L'Assemblée Générale et le Conseil de Sécurité procèdent indépendamment l'un de l'autre à l'élection des membres de la Cour.

Article 9

Dans toute élection, les électeurs auront en vue que les personnes appelées à faire partie de la Cour, non seulement réunissent individuellement les conditions requises, mais assurent dans l'ensemble la représentation des grandes formes de civilisation et des principaux systèmes juridiques du monde.

Article 10

1. Sont élus ceux qui ont réuni la majorité absolue des voix dans l'Assemblée Générale et dans le Conseil de Sécurité.

2. Le vote au Conseil de Sécurité, soit pour l'élection des juges, soit pour la nomination des membres de la commission visée à l'article 12 ci-après, ne comportera aucune distinction entre membres permanents et membres non-permanents du Conseil de Sécurité.

3. Au cas où le double scrutin de l'Assemblée Générale et du Conseil de Sécurité se porterait sur plus d'un ressortissant du même État, le plus âgé est seul élu.

Article 11

Si, après la première séance d'élection, il reste encore des sièges à pourvoir, il est procédé, de la même manière, à une seconde et, s'il est nécessaire, à une troisième.

Article 12

1. Si, après la troisième séance d'élection, il reste encore des sièges à pourvoir, il peut être à tout moment formé sur la demande, soit de l'Assemblée Générale, soit du Conseil de Sécurité, une Commission médiateuse de six membres, nommés trois par l'Assemblée Générale, trois par le Conseil de Sécurité, en vue de choisir par un vote à la majorité absolue, pour chaque siège non pourvu, un nom à présenter à l'adoption séparée de l'Assemblée Générale et du Conseil de Sécurité.

2. La Commission médiateuse peut porter sur sa liste le nom de toute personne satisfaisant aux conditions requises et qui recueille l'unanimité de ses suffrages, lors même qu'il n'aurait pas figuré sur la liste de présentation visée à l'article 7.

3. Si la Commission médiateuse constate qu'elle ne peut réussir à assurer l'élection, les membres de la Cour déjà nommés pourvoiront aux sièges vacants, dans un délai à fixer par le Conseil de Sécurité, en choisissant parmi les personnes qui ont obtenu des suffrages soit dans l'Assemblée Générale, soit dans le Conseil de Sécurité.

4. Si, parmi les juges, il y a partage égal des voix, la voix du juge le plus âgé l'emporte.

Article 13

1. Les membres de la Cour sont élus pour neuf ans et ils sont rééligibles; toutefois, en ce qui concerne les juges nommés à la première élection de la Cour, les fonctions de cinq juges prendront fin au bout de trois ans, et celles de cinq autres juges prendront fin au bout de six ans.

2. Les juges dont les fonctions prendront fin au terme des périodes initiales de trois et six ans mentionnées ci-dessus seront désignés par tirage au sort effectué par le Secrétaire Général, immédiatement après qu'il aura été procédé à la première élection.

3. Les membres de la Cour restent en fonction jusqu'à leur remplacement. Après ce remplace-
ment, ils continuent de connaître des affaires dont ils sont déjà saisis.

4. En cas de démission d’un membre de la Cour, la démission sera adressée au Président de la Cour, pour être transmise au Secrétaire Général. Cette dernière notification emporte vacance de siège.

Article 14
Il est prévu aux sièges devenus vacants selon la méthode suivie pour la première élection, sous réserve de la disposition ci-après: dans le mois qui suivra la vacance, le Secrétaire Général procédera à l’invitation prescrite par l’article 5, et la date d’élection sera fixée par le Conseil de Sécurité.

Article 15
Le membre de la Cour élu en remplacement d’un membre dont le mandat n’est pas expiré achève le terme du mandat de son prédécesseur.

Article 16
1. Les membres de la Cour ne peuvent exercer aucune fonction politique ou administrative, ni se livrer à aucune autre occupation de caractère professionnel.
2. En cas de doute, la Cour décide.

Article 17
1. Les membres de la Cour ne peuvent exercer les fonctions d’agent, de conseil ou d’avocat dans aucune affaire.
2. Ils ne peuvent participer au règlement d’aucune affaire dans laquelle ils sont antérieurement intervenus comme agents, conseils ou avocats de l’une des parties, membres d’un tribunal national ou international, d’une commission d’enquête, ou à tout autre titre.
3. En cas de doute, la Cour décide.

Article 18
1. Les membres de la Cour ne peuvent être relevés de leurs fonctions que si, au jugement unanime des autres membres, ils ont cessé de répondre aux conditions requises.
2. Le Secrétaire Général en est officiellement informé par le Greffier.
3. Cette communication emporte vacance de siège.

Article 19
Les membres de la Cour jouissent, dans l’exercice de leurs fonctions, des privilèges et immunités diplomatiques.

Article 20
Tout membre de la Cour doit, avant d’entrer en fonction, en séance publique, prendre l’engagement solennel d’exercer ses attributions en pleine impartialité et en toute conscience.

Article 21
1. La Cour nomme, pour trois ans, son Président et son Vice-Président; ils sont rééligibles.
2. Elle nomme son Greffier et peut pourvoir à la nomination de tels autres fonctionnaires qui seraient nécessaires.

Article 22
1. Le siège de la Cour est fixé à La Haye. La Cour peut toutefois siéger et exercer ses fonctions ailleurs lorsqu’elle le juge désirable.
2. Le Président et le Greffier résident au siège de la Cour.

Article 23
1. La Cour reste toujours en fonction, excepté pendant les vacances judiciaires, dont les périodes et la durée sont fixées par la Cour.
2. Les membres de la Cour ont droit à des congés périodiques dont la date et la durée seront fixées par la Cour, en tenant compte de la distance qui sépare La Haye de leurs foyers.
3. Les membres de la Cour sont tenus, à moins de congé, d’empêchement pour cause de maladie ou autre motif grave dûment justifié auprès du Président, d’être à tout moment à la disposition de la Cour.
Article 24
1. Si, pour une raison spéciale, l'un des membres de la Cour estime devoir ne pas participer au jugement d'une affaire déterminée, il en fait part au Président.
2. Si le Président estime qu'un des membres de la Cour ne doit pas, pour une raison spéciale, siéger dans une affaire déterminée, il en avertit celui-ci.
3. Si, en pareil cas, le membre de la Cour et le Président sont en désaccord, la Cour décide.

Article 25
1. Sauf exception expressément prévue par le présent Statut, la Cour exerce ses attributions en séance plénière.
2. Sous la condition que le nombre des juges disponibles pour constituer la Cour ne soit pas réduit à moins de onze, le Règlement de la Cour pourra prévoir que, selon les circonstances et à tour de rôle, un ou plusieurs juges pourront être dispensés de siéger.
3. Le quorum de neuf est suffisant pour constituer la Cour.

Article 26
1. La Cour peut, à toute époque, constituer une ou plusieurs chambres composées de trois juges au moins selon ce qu'elle décidera, pour connaître de catégories déterminées d'affaires, par exemple d'affaires de travail et d'affaires concernant le transit et les communications.
2. La Cour peut, à toute époque, constituer une chambre pour connaître d'une affaire déterminée. Le nombre des juges de cette chambre sera fixé par la Cour avec l'assentiment des parties.
3. Les chambres prévues au présent article statueront, si les parties le demandent.

Article 27
Tout arrêt rendu par l'une des chambres prévues aux articles 26 et 29 sera considéré comme rendu par la Cour.

Article 28
Les chambres prévues aux articles 26 et 29 peuvent, avec le consentement des parties, siéger et exercer leurs fonctions ailleurs qu'à La Haye.

Article 29
En vue de la prompte expédition des affaires, la Cour compose annuellement une chambre de cinq juges, appelés à statuer en procédure sommaire lorsque les parties le demandent. Deux juges seront, en outre, désignés pour remplacer celui des juges qui se trouverait dans l'impossibilité de siéger.

Article 30
1. La Cour détermine par un règlement le mode suivant lequel elle exerce ses attributions. Elle règle notamment sa procédure.
2. Le Règlement de la Cour peut prévoir des assesseurs siégeant à la Cour ou dans ses chambres, sans droit de vote.

Article 31
1. Les juges de la nationalité de chacune des parties conservent le droit de siéger dans l'affaire dont la Cour est saisie.
2. Si la Cour compte sur le siège un juge de la nationalité d'une des parties, toute autre partie peut désigner une personne de son choix pour siéger en qualité de juge. Celle-ci devra être prise de préférence parmi les personnes qui ont été l'objet d'une présentation en conformité des articles 4 et 5.
3. Si la Cour ne compte sur le siège aucun juge de la nationalité des parties, chacune de ces parties peut procéder à la désignation d'un juge de la même manière qu'au paragraphe précédent.
4. Le présent article s'applique dans le cas des articles 26 et 29. En pareil cas, le Président priera un, ou, s'il y a lieu, deux des membres de la Cour
composant la chambre, de céder leur place aux membres de la Cour de la nationalité des parties intéressées et, à défaut ou en cas d'empêchement, aux juges spécialement désignés par les parties.

5. Lorsque plusieurs parties font cause commune, elles ne comptent, pour l'application des dispositions qui précédent, que pour une seule. En cas de doute, la Cour décide.

6. Les juges désignés, comme il est dit aux paragraphes 2, 3 et 4 du présent article, doivent satisfaire aux prescriptions des articles 2, 17, paragraphe 2, 20 et 24 du présent Statut. Ils participent à la décision dans des conditions de complète égalité avec leurs collègues.

5. Ces traitements, allocations et indemnités sont fixés par l'Assemblée Générale. Ils ne peuvent être diminués pendant la durée des fonctions.

7. Un règlement adopté par l'Assemblée Générale fixe les conditions dans lesquelles des pensions sont allouées aux membres de la Cour et au Greffier, ainsi que les conditions dans lesquelles les membres de la Cour et le Greffier reçoivent le remboursement de leurs frais de voyage.

8. Les traitements, allocations et indemnités sont exempts de tout impôt.

Article 33

Les frais de la Cour sont supportés par les Nations Unies de la manière que l'Assemblée Générale décide.

Article 34

1. Seuls les États ont qualité pour se présenter devant la Cour.

2. La Cour, dans les conditions prescrites par son Règlement, pourra demander aux organisations internationales publiques des renseignements relatifs aux affaires portées devant elle, et recevra également les dits renseignements qui lui seraient présentés par ces organisations de leur propre initiative.

3. Lorsque l'interprétation de l'acte constitutif d'une organisation internationale publique ou celle d'une convention internationale adoptée en vertu de cet acte est mise en question dans une affaire soumise à la Cour, le Greffier en avise cette organisation et lui communique toute la procédure écrite.

Article 35

1. La Cour est ouverte aux États parties au présent Statut.

2. Les conditions auxquelles elle est ouverte aux autres États sont, sous réserve des dispositions particulières des traités en vigueur, réglées par le Conseil de Sécurité, et, dans tous les cas, sans qu'il puisse en résulter pour les parties aucune inégalité devant la Cour.

3. Lorsqu'un Etat, qui n'est pas Membre des Nations Unies, est partie en cause, la Cour fixera la contribution aux frais de la Cour que cette partie devra supporter. Toutefois, cette disposition ne s'appliquera pas, si cet État participe aux dépenses de la Cour.

   a. l'interprétation d'un traité ;
   b. tout point de droit international ;
   c. la réalité de tout fait qui, s'il était établi, constituerait la violation d'un engagement international ;
   d. la nature ou l'étendue de la réparation due pour la rupture d'un engagement international.

3. Les déclarations ci-dessus visées pourront être faites purement et simplement ou sous condition de réciprocité de la part de plusieurs ou de certains États, ou pour un délai déterminé.

5. Les déclarations faites en application de l'article 36 du Statut de la Cour Permanente de Justice Internationale pour une durée qui n'est pas encore expirée seront considérées, dans les rapports entre parties au présent Statut, comme comportant acceptation de la juridiction obligatoire de la Cour Internationale de Justice pour la durée restant à courir d'après ces déclarations et conformément à leurs termes.

6. En cas de contestation sur le point de savoir si la Cour est compétente, la Cour décide.

Article 37

Si les parties sont d'accord pour que toute la procédure ait lieu en anglais, le jugement sera prononcé en cette langue.
2. A défaut d’un accord fixant la langue dont il sera fait usage, les parties pourront employer pour les plaïdoiries celle des deux langues qu’elles préféreront, et l’arrêt de la Cour sera rendu en français et en anglais. En ce cas, la Cour désignera en même temps celui des deux textes qui fera foi.

Article 45
Les débats sont dirigés par le Président et, à défaut de celui-ci, par le Vice-Président; en cas d’empêchement, par le plus ancien des juges présents.

Article 46
L’audience est publique, à moins qu’il n’en soit autrement décidé par la Cour ou que les deux parties ne demandent que le public ne soit pas admis.

**Article 53**

1. Lorsqu'une des parties ne se présente pas, ou s'abstient de faire valoir ses moyens, l'autre partie peut demander à la Cour de lui adjuger ses conclusions.

2. La Cour, avant d'y faire droit, doit s'assurer non seulement qu'elle a compétence aux termes des articles 36 et 37, mais que les conclusions sont fondées en fait et en droit.

CHAPITRE IV
AVIS CONSULTATIFS

Article 65

1. La Cour peut donner un avis consultatif sur toute question juridique, à la demande de tout organisme ou institution qui aura été autorisé par la Charte des Nations Unies ou conformément à ses dispositions, à demander cet avis.

2. Les questions sur lesquelles l'avis consultatif de la Cour est demandé sont exposées à la Cour par une requête écrite qui formule, en termes précis, la question sur laquelle l'avis de la Cour est demandé. Il y est joint tout document pouvant servir à éclairer la question.

Article 66

1. Le Greffier notifie immédiatement la requête demandant l'avis consultatif à tous les Etats admis à ester en justice devant la Cour.

2. En outre, à tout Etat admis à ester devant la Cour et à toute organisation internationale jugée, par la Cour ou par le Président si elle ne siège pas, susceptibles de fournir des renseignements sur la question, le Greffier fait connaître, par communication spéciale et directe, que la Cour est disposée à recevoir des exposés écrits dans un délai à fixer par le Président, ou à entendre des exposés oraux au cours d'une audience publique tenue à cet effet.

3. Si un de ces Etats, n'ayant pas été l'objet de la communication spéciale visée au paragraphe 2 du présent article, exprime le désir de soumettre un exposé écrit ou d'être entendu, la Cour statue.

4. Les Etats ou organisations qui ont présenté des exposés écrits ou oraux sont admis à discuter les exposés faits par d'autres Etats et organisations dans les formes, mesures et délais fixés, dans chaque cas d'espèce, par la Cour ou, si elle ne siège pas, par le Président. À cet effet, le Greffier communique, en temps voulu, les exposés écrits aux Etats ou organisations qui en ont eux-mêmes présenté.

Article 67

La Cour prononcera ses avis consultatifs en audience publique, le Secrétaire Général et les représentants des Membres des Nations Unies.
des autres États et des organisations internationales directement intéressés étant prévenus.

CHAPITRE V

Article 69
Les amendements au présent Statut seront effectués par le même procédure que celle prévue pour les amendements à la Charte des Nations Unies, sous réserve des dispositions qu'adopterait l'Assemblée Générale, sur la recommandation du Conseil de Sécurité, pour régler la participation à cette procédure des États qui, tout en ayant accepté le présent Statut de la Cour, ne sont pas Membres des Nations Unies.

Article 70
La Cour pourra proposer les amendements qu'elle jugera nécessaire d'apporter au présent Statut, par la voie de communications écrites adressées au Secrétaire Général, aux fins d'examen conformément aux dispositions de l'article 69.

Статья 79

Условия оценки для каждой территории, подлежащей включению в систему оценки, в том числе все изменения и поправки, определяются соглашениями непосредственно заинтересованных государств, включая страны-мандатарии, в том случае, если территории находятся под мандатом одного из Членов Организации, и утверждаются, как предусмотрено в статьях 83 и 85.

Если согласительная комиссия придет к убеждению, что выборы не могут состояться, тогда члены Суда, уже избранные, приступают в срок, определяемый Советом Безопасности, к заполнению свободных мест путем избрания членов Суда из числа кандидатов, за которых были поданы голоса, либо в Генеральной Ассамблее, либо в Совете Безопасности.
4. В случае равенства голосов судей, голос старшего по возрасту дает перевес.

Статья 13

2. En el caso de los Miembros de las Naciones Unidas que no estén representados en la Corte Permanente de Arbitraje, los candidatos serán propuestos por grupos nacionales que designen a este efecto sus respectivos gobiernos, en condiciones iguales a las estipuladas para los miembros de la Corte Permanente de Arbitraje por el Artículo 44 de la Convención de La Haya de 1907 sobre arreglo pacífico de las controversias internacionales.

3. A falta de acuerdo especial, la Asamblea General fijará, previa recomendación del Consejo de Seguridad, las condiciones en que pueda participar en la elección de los miembros de la Corte un Estado que sea parte en el presente Estatuto sin ser Miembro de las Naciones Unidas.

Artículo 5

1. Por lo menos tres meses antes de la fecha de la elección, el Secretario General de las Naciones Unidas invitará por escrito a los miembros de la Corte Permanente de Arbitraje pertenecientes a los Estados partes en este Estatuto y a los miembros de los grupos nacionales designados según el párrafo 2 del Artículo 4 a que, dentro de un plazo determinado y por grupos nacionales, propongan como candidatos a personas que estén en condiciones de desempeñar las funciones de miembro de la Corte.

La Comisión y cada una de las Secciones que la constituyen podrán emplear a los auxiliares y consejeros técnicos, de ingeniería y legales, que estimen necesarios. Cada Gobierno reconocerá carácter diplomático al Comisionado del otro, y el Comisionado, dos ingenieros principales, un consejero legal y un secretario, designados por el otro Gobierno como miembros de su Sección de la Comisión, tendrán derecho a todos los privilegios e inmunidades pertenecientes a funcionarios diplomáticos. La Comisión y su personal podrán llevar a cabo, con toda libertad, sus observaciones,
their observations, studies and field work in the territory of either country.

The jurisdiction of the Commission shall extend to the limitrophe parts of the Rio Grande (Rio Bravo) and the Colorado River, to the land boundary between the two countries, and to works located upon their common boundary, each Section of the Commission retaining jurisdiction over that part of the works located within the limits of its own country. Neither Section shall assume jurisdiction or control over works located within the limits of the country of the other without the express consent of the Government of the latter. The works constructed, acquired or used in fulfillment of the provisions of this Treaty and located wholly within the territorial limits of either country, although these works may be international in character, shall remain, except as herein otherwise specifically provided, under the exclusive jurisdiction and control of the Section of the Commission in whose country the works may be situated.

The duties and powers vested in the Commission by this Treaty shall be in addition to those vested in the International Boundary Commission by the Convention of March 1, 1889 and other pertinent treaties and agreements in force between the two countries except as the provisions of any of them may be modified by the present Treaty.

Each Government shall bear the expenses incurred in the maintenance of its Section of the Commission. The joint expenses, which may be incurred as agreed upon by the Commission, shall be

La jurisdicción de la Comisión se ejercerá sobre los tramos limitrofes del río Bravo (Grande) y del río Colorado, sobre la línea divisoria terrestre entre los dos países y sobre las obras construidas en aquellos y en ésta. Cada una de las Secciones tendrá jurisdicción sobre la parte de las obras situadas dentro de los límites de su nación y ninguna de ellas ejercerá jurisdicción o control sobre obras construidas o situadas dentro de los límites del país de la otra Sección sin el expreso consentimiento del Gobierno de esta última. Las obras construidas, adquiridas o usadas en cumplimiento de las disposiciones de este Tratado y que se encuentren ubicadas totalmente dentro de los límites territoriales de cualquiera de los dos países, aunque de carácter internacional, quedarán, con las excepciones expresamente señaladas en este Tratado, bajo la exclusiva jurisdicción y control de la Sección de la Comisión en cuyo país se encuentren dichas obras.

Las facultades y obligaciones que impone a la Comisión este Tratado serán adicionales a las conferidas a la Comisión Internacional de Límites por la Convención del primero de marzo de 1889 y los demás tratados y convenios pertinentes en vigor entre los dos países, con excepción de aquellas estipulaciones de cualquiera de ellos que este Tratado modifica.

Los gastos que demande el sostenimiento de cada Sección de la Comisión serán sufragados por cuenta del Gobierno del cual dependa. Los gastos comunes que acuerde la Comisión serán cubier-
borne equally by the two Governments.

**Article 3**

In matters in which the Commission may be called upon to make provision for the joint use of international waters, the following order of preferences shall serve as a guide:

1. Domestic and municipal uses.
2. Agriculture and stock-raising.
3. Electric power.
4. Other industrial uses.
6. Fishing and hunting.
7. Any other beneficial uses which may be determined by the Commission.

All of the foregoing uses shall be subject to any sanitary measures or works which may be mutually agreed upon by the two Governments, which hereby agree to give preferential attention to the solution of all border sanitation problems.

**II—Rio Grande (Rio Bravo)**

**Article 4**

The waters of the Rio Grande (Rio Bravo) between Fort Quitman, Texas and the Gulf of Mexico are hereby allotted to the two countries in the following manner:

**A. To Mexico:**

(a) All of the waters reaching the main channel of the Rio Grande (Rio Bravo) from the San Juan and Alamo Rivers, including the return flow from the lands irrigated from the latter two rivers.

(b) One-half of the flow in the main channel of the Rio Grande (Rio Bravo) below the lowest major international storage dam, so far as said flow is

**ARTÍCULO 3**

En los asuntos referentes al uso común de las aguas internacionales, acerca de los cuales deba resolver la Comisión, servirá de guía el siguiente orden de preferencias:

1°.— Usos domésticos y municipales.
2°.— Agricultura y ganadería.
3°.— Energía eléctrica.
4°.— Otros usos industriales.
5°.— Navegación.
6°.— Pesca y caza.
7°.— Cualquier otro uso beneficioso determinado por la Comisión.

Todos los usos anteriores estarán sujetos a las medidas y obras sanitarias que convengan de común acuerdo los dos Gobiernos, los cuales se obligan a resolver preferentemente los problemas fronterizos de saneamiento.

**II—Rio Bravo (Grande)**

**Article 4**

Las aguas del río Bravo (Grande) entre Fort Quitman, Texas, y el Golfo de México se asignan a los dos países de la siguiente manera:

**A. A México:**

a) La totalidad de las aguas que lleguen a la corriente principal del río Bravo (Grande), de los ríos San Juan y Alamo; comprendiendo los retornos procedentes de los terrenos que rieguen estos dos últimos ríos.

b) La mitad del escurremiento del cauce principal del río Bravo (Grande) abajo de la presa inferior principal internacional de almacenamiento, si-
not specifically allotted under this Treaty to either of the two countries.

(c) Two-thirds of the flow reaching the main channel of the Rio Grande (Rio Bravo) from the Conchos, San Diego, San Rodrigo, Escondido and Salado Rivers and the Las Vacas Arroyo, subject to the provisions of subparagraph (c) of paragraph B of this Article.

an average amount in cycles of five consecutive years, than 350,-
000 acre-feet (431,721,000 cubic
meters) annually. The United States shall not acquire any
right by the use of the waters of the
tributaries named in this
subparagraph, in excess of the
said 350,000 acre-feet (431,721,-
000 cubic meters) annually, ex-

third may be in excess of that
amount.

Article occurring in the main
channel of the Rio Grande
(Rio Bravo), including the con-
tributions from all the un-
measured tributaries, which are
those not named in this Article,

drought or serious accident to the
hydraulic systems on the measured
Mexican tributaries, making it
difficult for Mexico to make avail-
able the run-off of 350,000 acre-
feet (431,721,000 cubic meters)

**ARTICLE 5**

The two Governments agree to construct jointly, through their respective Sections of the Commission, the following works in the main channel of the Rio Grande (Rio Bravo):

I. The dams required for the conservation, storage and regulation of the greatest quantity of the annual flow of the river in a way to ensure the continuance of existing uses and the development of the greatest number of feasible projects, within the limits imposed by the water allotments specified.

II. The dams and other joint works required for the diversion of the flow of the Rio Grande (Rio Bravo).

One of the storage dams shall be constructed in the section between Santa Helena Canyon and the mouth of the Pecos River; one in the section between Eagle Pass and Laredo, Texas (Piedras Negras and Nuevo Laredo in Mexico); and a third in the section between Laredo and Roma, Texas (Nuevo Laredo and San Pedro de Roma in Mexico). One or more of the stipulated dams may be omitted, and others than those enumerated may be built, in either case as may be determined by the Commission, subject to the approval of the two Governments.

In planning the construction of such dams the Commission shall determine:

Los dos Gobiernos se comprometen a construir conjuntamente, por conducto de sus respectivas Secciones de la Comisión, las siguientes obras en el cauce principal del río Bravo (Grande):

I. - Las presas que se requieran para el almacenamiento y regularización de la mayor parte que sea posible del escurrimiento anual del río en forma de asegurar los aprovechamientos existentes y llevar a cabo el mayor número de proyectos factibles, dentro de los límites impuestos por las asignaciones estipuladas de agua.

II. - Las presas y las otras obras comunes que se requieran para la derivación de las aguas del río Bravo (Grande).

Una de las presas de almacenamiento se construirá en el tramo entre el Cañón de Santa Elena y la desembocadura del río Pecos; otra, en el tramo comprendido entre Piedras Negras, Coahuila y Nuevo Laredo, Tamaulipas (Eagle Pass y Laredo en los Estados Unidos) y una tercera, en el tramo entre Nuevo Laredo, Tamaulipas y San Pedro de Roma, Tamaulipas (Laredo y Roma en los Estados Unidos). A juicio de la Comisión, sujeto a la aprobación de los dos Gobiernos, podrán omitirse una o más de las presas estipuladas y, en cambio, podrán construirse otras que no sean de las enumeradas.

Al planear la construcción de dichas presas, la Comisión determinará:
(a) The most feasible sites;
(b) The maximum feasible reservoir capacity at each site;
(c) The conservation capacity required by each country at each site, taking into consideration the amount and regimen of its allotment of water and its contemplated uses;
(d) The capacity required for retention of silt;
(e) The capacity required for flood control.

The conservation and silt capacities of each reservoir shall be assigned to each country in the same proportion as the capacities required by each country in such reservoir for conservation purposes. Each country shall have an undivided interest in the flood control capacity of each reservoir.

The construction of the international storage dams shall start within two years following the approval of the respective plans by the two Governments. The works shall begin with the construction of the lowest major international storage dam, but works in the upper reaches of the river may be constructed simultaneously. The lowest major international storage dam shall be completed within a period of eight years from the date of the entry into force of this Treaty.

The construction of the dams and other joint works required for the diversion of the flows of the river shall be initiated on the dates recommended by the Commission and approved by the two Governments.

The cost of construction, operation and maintenance of each of the international storage dams

Las presas internacionales de almacenamiento

El costo de construcción de cada una de las presas internacionales de almacenamiento y los costos
shall be prorated between the two Governments in proportion to the capacity allotted to each country for conservation purposes in the reservoir at such dam.

The cost of construction, operation and maintenance of each of the dams and other joint works required for the diversion of the flows of the river shall be prorated between the two Governments in proportion to the benefits which the respective countries receive therefrom, as determined by the Commission and approved by the two Governments.

**ARTICLE 6**

The Commission shall study, investigate, and prepare plans for flood control works, where and when necessary, other than those referred to in Article 5 of this Treaty, on the Rio Grande (Rio Bravo) from Fort Quitman, Texas to the Gulf of Mexico. These works may include levees along the river, floodways and grade-control structures, and works for the canalization, rectification and artificial channeling of reaches of the river. The Commission shall report to the two Governments the works which should be built, the estimated cost thereof, the part of the works to be constructed by each Government, and the part of the works to be operated and maintained by each Section of the Commission. Each Government agrees to construct, through its Section of the Commission, such works as may be recommended by the Commission and approved by the two Governments. Each Government shall pay the costs of the works constructed by it and the costs of operation and mainte-

**ARTICULO 6**

Siempre que sea necesario, la Comisión estudiará, investigará y preparará los proyectos para las obras—distintas de aquellas a que se refiere el Artículo 5 de este Tratado—de control de las avenidas del río Bravo (Grande) desde Fort Quitman, Texas, hasta el Golfo de México. Estas obras podrán incluir bordos a lo largo del río, causces de alivio, estructuras de control de pendiente y la canalización, rectificación o encauzamiento de algunos tramos del río. La Comisión informará a los dos Gobiernos acerca de las obras que deberán construirse, de la estimación de sus costos, de la parte de aquéllas que deberá quedar a cargo de cada uno de ellos y de la parte de las obras que deberá ser operada y mantenida por cada Sección de la Comisión. Cada Gobierno conviene en construir, por medio de su Sección de la Comisión, las obras que recomiende la Comisión y que aprueben los dos Gobiernos. Cada Gobierno pagará los costos de las obras que construya y los costos de operación.
nance of the part of the works assigned to it for such purpose. y mantenimiento de la parte de las obras que se le asigne con tal objeto.

**Article 7**

The Commission shall study, investigate and prepare plans for plants for generating hydro-electric energy which it may be feasible to construct at the international storage dams on the Río Grande (Río Bravo). The Commission shall report to the two Governments in a Minute the works which should be built, the estimated cost thereof, and the part of the works to be constructed by each Government. Each Government agrees to construct, through its Section of the Commission, such works as may be recommended by the Commission and approved by the two Governments. Both Governments, through their respective Sections of the Commission, shall operate and maintain jointly such hydro-electric plants. Each Government shall pay half the cost of the construction, operation and maintenance of such plants, and the energy generated shall be assigned to each country in like proportion.

**Artículo 7**

La Comisión estudiará, investigará y preparará los proyectos para las plantas de generación de energía hidroeléctrica que fuere factible construir en las presas internacionales de almacenamiento en el río Bravo (Grande). La Comisión informará a los dos Gobiernos, mediante un acta, acerca de las obras que deberá construirse, de la estimación de sus costos y de la parte de aquéllas que deberá quedar a cargo de cada uno de ellos. Cada Gobierno conviene en construir, por medio de su Sección de la Comisión, las obras que le recomiende la Comisión y que aprueben los dos Gobiernos. Las plantas hidroeléctricas serán operadas y mantenidas conjuntamente por ambos Gobiernos por conducto de sus respectivas Secciones de la Comisión. Cada Gobierno pagará la mitad del costo de construcción, operación y mantenimiento de estas plantas y en la misma proporción será asignada a cada uno de los dos países la energía hidroeléctrica generada.

**Article 8**

The two Governments recognize that both countries have a common interest in the conservation and storage of waters in the international reservoirs and in the maximum use of these structures for the purpose of obtaining the most beneficial, regular and constant use of the waters belonging to them. Accordingly, within the year following the placing in operation of the first of the major international storage dams which is constructed, the Commission

**Artículo 8**

Los dos Gobiernos reconocen que ambos países tienen un interés común en la conservación y en el almacenamiento de las aguas en las presas internacionales y en el mejor uso de dichas presas, con objeto de obtener el más benéfico, regular y constante aprovechamiento de las aguas que les corresponden. Con tal fin, la Comisión, dentro del año siguiente de haber sido puesta en operación la primera de las presas principales internacionales que se construya,
shall submit to each Government for its approval, regulations for the storage, conveyance and delivery of the waters of the Río Grande (Río Bravo) from Fort Quitman, Texas to the Gulf of Mexico. Such regulations may be modified, amended or supplemented when necessary by the Commission, subject to the approval of the two Governments. The following general rules shall severally govern until modified or amended by agreement of the Commission, with the approval of the two Governments:

(a) Storage in all major international reservoirs above the lowest shall be maintained at the maximum possible water level, consistent with flood control, irrigation use and power requirements.

(b) Inflows to each reservoir shall be credited to each country in accordance with the ownership of such inflows.

(c) In any reservoir the ownership of water belonging to the country whose conservation capacity therein is filled, and in excess of that needed to keep it filled, shall pass to the other country to the extent that such country may have unfilled conservation capacity, except that one country may at its option temporarily use the conservation capacity of the other country not currently being used in any of the upper reservoirs; provided that in the event of flood discharge or spill occurring while one country is using the conservation capacity of the other, all of such flood discharge or spill shall be charged to the country using the other's capacity, and all inflow shall be credited to the other.

Dicha reglamentación podrá ser modificada, adicionada o complementada, cuando sea necesario, por la Comisión, con la aprobación de los dos Gobiernos. Cada una de las siguientes reglas generales regirá hasta que sean modificadas por acuerdo de la Comisión con la aprobación de los dos Gobiernos:

a) El almacenamiento de aguas en todas las presas superiores principales internacionales se mantendrá al más alto nivel que sea compatible con el control de avenidas, las extracciones normales para irrigación y los requerimientos de generación de energía eléctrica.

b) Las entradas de agua a cada presa se acreditarán al país a quien pertenezca dicha agua.

c) En cualquier vaso de almacenamiento la propiedad del agua perteneciente al país que tenga agua en exceso de la necesaria para mantener llena la capacidad útil que le corresponda, pasará al otro país, hasta que se llene la capacidad útil asignada a éste. Sin embargo, en todos los vasos de almacenamiento superiores, un país, al llenarse la capacidad útil que le pertenezca, podrá usar transitoriamente la capacidad útil del segundo país y que éste no use, siempre que, en ese momento ocurrieren derrames y desfogues, la totalidad de éstos se cargue al primero y todas las entradas a la presa se consideren propiedad del segundo, hasta que cesen los derrames o desfogues o hasta que
country until the flood discharge or spill ceases or until the capacity of the other country becomes filled with its own water.

(d) Reservoir losses shall be charged in proportion to the ownership of water in storage. Releases from any reservoir shall be charged to the country requesting them, except that releases for the generation of electrical energy, or other common purpose, shall be charged in proportion to the ownership of water in storage.

(e) Flood discharges and spills from the upper reservoirs shall be divided in the same proportion as the ownership of the inflows occurring at the time of such flood discharges and spills, except as provided in subparagraph (c) of this Article. Flood discharges and spills from the lower reservoir shall be divided equally, except that one country, with the consent of the Commission, may use such part of the share of the other country as is not used by the latter country.

(f) Either of the two countries may avail itself, whenever it so desires, of any water belonging to it and stored in the international reservoirs, provided that the water so taken is for direct beneficial use or for storage in other reservoirs. For this purpose the Commissioner of the respective country shall give appropriate notice to the Commission, which shall prescribe the proper measures for the opportune furnishing of the water.

la capacidad útil del segundo se llene con aguas que le pertenezcan.

(d) Las pérdidas que ocurran en los vasos de almacenamiento se cargarán a los dos países en proporción de los respectivos volúmenes almacenados que les pertenezcan. Las extracciones de cualquiera de los vasos se cargarán al país que las solicite, excepto las efectuadas para la generación de energía eléctrica u otro propósito común que se cargarán a cada uno de los dos países en proporción de los respectivos volúmenes almacenados que les pertenezcan.

(e) Los derrames y desfogues de los vasos superiores de almacenamiento se dividirán entre los dos países en la misma proporción que guarden los volúmenes pertenecientes a cada uno de ellos de las aguas que entren a los almacenamientos durante el tiempo en que ocurran los citados derrames y desfogues, con excepción del caso previsto en el inciso c) de este Artículo. Los derrames y desfogues de la presa inferior de almacenamiento se dividirán en partes iguales entre los dos países, pero uno de ellos, con el permiso de la Comisión, podrá usar las aguas correspondientes al otro país que éste no use.

(f) Cualquiera de los dos países podrá disponer, en el momento en que lo desee, del agua almacenada que le pertenezca en las presas internacionales, siempre que su extracción se efectúe para algún uso benéfico directo, o para ser almacenada en otra presa. Al efecto, el Comisionado respectivo dará el aviso correspondiente a la Comisión, la que dictará las medidas necesarias para el suministro oportun del agua.
Article 9

(a) The channel of the Rio Grande (Rio Bravo) may be used by either of the two countries to convey water belonging to it.

(b) Either of the two countries may, at any point on the main channel of the river from Fort Quitman, Texas to the Gulf of Mexico, divert and use the water belonging to it and may for this purpose construct any necessary works. However, no such diversion or use, not existing on the date this Treaty enters into force, shall be permitted in either country, nor shall works be constructed for such purpose, until the Section of the Commission in whose country the diversion or use is proposed has made a finding that the water necessary for such diversion or use is available from the share of that country, unless the Commission has agreed to a greater diversion or use as provided by paragraph (d) of this Article. The proposed use and the plans for the diversion works to be constructed in connection therewith shall be previously made known to the Commission for its information.

(c) Consumptive uses from the main stream and from the unmeasured tributaries below Fort Quitman shall be charged against the share of the country making them.

(d) The Commission shall have the power to authorize either country to divert and use water not belonging entirely to such country, when the water belonging to the other country can be diverted and used without injury to the latter and can be replaced at some other point on the river.

Article 9

(a) El cauce del río Bravo (Grande) podrá ser empleado por los dos países para conducir el agua que les pertenezca.

(b) Cualquiera de los dos países podrá derivar y usar, en cualquier lugar del cauce principal del río Bravo (Grande) desde Fort Quitman, Texas, hasta el Golfo de México, el agua que le pertenezca y podrá construir, para ello, las obras necesarias. Sin embargo, no podrá hacerse ninguna derivación o uso en cualquiera de los dos países, fuera de los existentes en la fecha en que entre en vigor este Tratado, ni construirse ninguna obras con aquel fin, hasta que la Sección de la Comisión del país en que se intente hacer la derivación o uso verifique que hay el agua necesaria para ese efecto, dentro de la asignación de ese mismo país, a menos que la Comisión haya convenido, de acuerdo con lo estipulado en el inciso d) de este Artículo, en una derivación o uso en mayor cantidad. El uso proyectado, y los planos para las correspondientes obras de derivación que deban construirse, al efecto, se darán a conocer previamente a la Comisión para su información.

c) Los consumos hechos, abajo de Fort Quitman, en la corriente principal y en los afluentes no aforados, se cargarán a cuenta de la asignación del país que los efectúe.

d) La Comisión podrá autorizar que se deriven y usen aguas que no correspondan completamente al país que pretenda hacerlo, cuando el agua que pertenezca al otro país pueda ser derivada y usada sin causarle perjuicio y le sea repuesta en algún otro lugar del río.
(e) The Commission shall have the power to authorize temporary diversion and use by one country of water belonging to the other, when the latter does not need it or is unable to use it, provided that such authorization or the use of such water shall not establish any right to continue to divert it.

(f) In case of the occurrence of an extraordinary drought in one country with an abundant supply of water in the other country, water stored in the international storage reservoirs and belonging to the country enjoying such abundant water supply may be withdrawn, with the consent of the Commission, for the use of the country undergoing the drought.

(g) Each country shall have the right to divert from the main channel of the river any amount of water, including the water belonging to the other country, for the purpose of generating hydro-electric power, provided that such diversion causes no injury to the other country and does not interfere with the international generation of power, and that the quantities not returning directly to the river are charged against the share of the country making the diversion. The feasibility of such diversions derivaciones, que no existan al no existiendo en la fecha esta Treaty enters into force shall be determined by the Commission, which shall also determine the amount of water consumed, such water to be charged against the country making the diversion.

(h) In case either of the two countries shall construct works for diverting into the main channel of the Río Grande (Río Bravo) or its tributaries waters that do not belong to the other country, the Treaty shall enter into force on the date when such works are completed.

Rio Grande (Rio Bravo) such 
water shall belong to the country 
making such diversion.

(i) Main stream channel losses 
shall be charged in proportion to 
the ownership of water being con-
voyed in the channel at the times 
and places of the losses.

(j) The Commission shall keep 
a record of the waters belonging to 
each country and of those that 
may be available at a given mo-
ment, taking into account the 
measurement of the allotments, 
the regulation of the waters in 
storage, the consumptive uses, the 
withdrawals, the diversions, and 
the losses. For this purpose the 
Commission shall construct, oper-
ate and maintain on the main 
channel of the Rio Grande (Rio 
Bravo), and each Section shall 
construct, operate and maintain 
on the measured tributaries in its 
own country, all the gaging sta-
tions and mechanical apparatus 
necessary for the purpose of mak-
ing computations and of obtaining 
the necessary data for such record. 
The information with respect to 
the diversions and consumptive 
uses on the unmeasured tributaries 
shall be furnished to the Commis-
sion by the appropriate Section. 
The cost of construction of any 
new gaging stations located on 
the main channel of the Rio 
Grande (Rio Bravo) shall be 
borne equally by the two Govern-
ments. The operation and main-
tenance of all gaging stations or 
the cost of such operation and 
maintenance shall be apportioned 
between the two Sections in ac-
cordance with determinations to 
be made by the Commission.
III - COLORADO RIVER

Article 10

Of the waters of the Colorado River, from any and all sources, there are allotted to Mexico:

(a) A guaranteed annual quantity of 1,500,000 acre-feet (1,850,234,000 cubic meters) to be delivered in accordance with the provisions of Article 15 of this Treaty.

(b) Any other quantities arriving at the Mexican points of diversion, with the understanding that in any year in which, as determined by the United States Section, there exists a surplus of waters of the Colorado River in excess of the amount necessary to supply uses in the United States and the guaranteed quantity of 1,500,000 acre-feet (1,850,234,000 cubic meters) annually to Mexico, the United States undertakes to deliver to Mexico, in the manner set out in Article 15 of this Treaty, additional waters of the Colorado River system to provide a total quantity not to exceed 1,700,000 acre-feet (2,096,931,000 cubic meters) a year. Mexico shall acquire no right beyond that provided by this subparagraph by the use of the waters of the Colorado River system, for any purpose whatsoever, in excess of 1,500,000 acre-feet (1,850,234,000 cubic meters) annually.

In the event of extraordinary drought or serious accident to the irrigation system in the United States, thereby making it difficult for the United States to deliver the guaranteed quantity of 1,500,000 acre-feet (1,850,234,000 cubic meters) a year, the water allotted to Mexico under subparagraph (a) of this Article will be reduced in proportion to the reduction in such delivery.
the same proportion as consumptive uses in the United States are reduced.

**Article 11**

(a) The United States shall deliver all waters allotted to Mexico wherever these waters may arrive in the bed of the limitrophe section of the Colorado River, with the exceptions hereinafter provided. Such waters shall be made up of the waters of the said river, whatever their origin, subject to the provisions of the following paragraphs of this Article.

(b) Of the waters of the Colorado River allotted to Mexico by subparagraph (a) of Article 10 of this Treaty, the United States shall deliver, wherever such waters may arrive in the limitrophe section of the river, 1,000,000 acre-feet (1,233,489,000 cubic meters) annually from the time the Davis dam and reservoir are placed in operation until January 1, 1980 and thereafter 1,125,000 acre-feet (1,387,675,000 cubic meters) annually, except that, should the main diversion structure referred to in subparagraph (a) of Article 12 of this Treaty be located entirely in Mexico and should Mexico so request, the United States shall deliver a quantity of water not exceeding 25,000 acre-feet (30,837,000 cubic meters) annually, unless a larger quantity may be mutually agreed upon, at a point, to be likewise mutually agreed upon, on the international land boundary near San Luis, Sonora, in which event the quantities of 1,000,000 acre-feet (1,233,489,000 cubic meters) and 1,125,000 acre-feet (1,387,675,000 cubic meters) provided hereinabove as deliverable in the limitrophe of the Colorado River, with the exceptions hereinafter provided, shall be reduced.

**Artículo 11**

a) Los Estados Unidos entregarán las aguas asignadas a México en cualquier lugar a que lleguen en el lecho del tramo limitrofe del río Colorado, con las excepciones que se citan más adelante. El volumen asignado se formará con las aguas del citado río, cualquiera que sea su fuente, con sujeción a las estipulaciones contenidas en los párrafos siguientes de este Artículo.

b) Del volumen de aguas del río Colorado asignado a México en el inciso a) del Artículo 10 de este Tratado, los Estados Unidos entregarán en cualquier lugar a que lleguen del tramo limitrofe del río, 1 233 489 000 metros cúbicos (1 000 000 de acres pies) de agua anualmente, desde la fecha en que se ponga en operación la presa Davis hasta el primero de enero de 1980 y, después de esta fecha, 1 387 675 000 metros cúbicos (1 125 000 acres pies) de agua cada año. Sin embargo, si la estructura principal de derivación a que se refiere el inciso a) del Artículo 12 de este Tratado quedare localizada totalmente en México, los Estados Unidos entregarán, a solicitud de México, en un lugar mutuamente determinado de la línea terrestre limitrofe cerca de San Luis, Sonora, un volumen de agua que no exceda de 30 837 000 metros cúbicos (25 000 acres pies) anualmente, a menos que se convenga en un volumen mayor. En este último caso, a los mencionados volúmenes de 1 233 489 000 metros cúbicos (1 000 000 de acres pies) y de 1 387 675 000 metros...
trophe section of the river shall be reduced by the quantities to be delivered in the year concerned near San Luis, Sonora.

(c) During the period from the time the Davis dam and reservoir are placed in operation until January 1, 1980, the United States shall also deliver to Mexico annually, of the water allotted to it, 500,000 acre-feet (616,745,000 cubic meters), and thereafter the United States shall deliver annually 375,000 acre-feet (462,558,000 cubic meters), at the international boundary line, by means of the All-American Canal and a canal connecting the lower end of the Pilot Knob Wasteway with the Alamo Canal or with any other Mexican canal which may be substituted for the Alamo Canal. In either event the deliveries shall be made at an operating water surface elevation not higher than that of the Alamo Canal at the point where it crossed the international boundary line in the year 1943.

(d) All the deliveries of water specified above shall be made subject to the provisions of Article 15 of this Treaty.

**ARTICLE 12**

The two Governments agree to construct the following works:

(a) Mexico shall construct at its expense, within a period of five years from the date of the entry into force of this Treaty, a main diversion structure below the point where the northernmost part of the international land boundary line intersects the Colorado River. If such diversion structure is located (1 125 000 acres pies) que deberán entregarse, como se especifica arriba, en el tramo límite de del río, se les deducirán los volúmenes que se entreguen, cada año, cerca de San Luis, Sonora.

c) En el período comprendido entre la fecha en que la Presa Davis se ponga en operación y el primero de enero de 1980, los Estados Unidos entregarán anualmente a México, además, del volumen asignado a México, 616745 000 metros cúbicos (500 000 acres pies) y, a partir de la última fecha citada, 462 558 000 metros cúbicos (375 000 acres pies) anuales, en la línea límite internacional, por conducto del Canal Todo Americano y de un canal que una al extremo inferior de la descarga de Pilot Knob con el Canal del Alamo o con cualquier otro canal mexicano que lo sustituya. En ambos casos las entregas se harán a una elevación de la superficie del agua no mayor que aquélla con la que se operaba el Canal del Alamo, en el punto en que cruzaba la línea divisoria en el año de 1943.

d) Todas las entregas de agua especificadas anteriormente se sujetarán a las estipulaciones del Artículo 15 de este Tratado.

**ARTICULO 12**

Los dos Gobiernos se comprometen a construir las siguientes obras:

a) México construirá a sus expensas, en un plazo de cinco años contados a partir de la fecha en que entre en vigor este Tratado, una estructura principal de derivación ubicada aguas abajo del punto en que la parte más al norte de la línea divisoria internacional terrestre encuentra al río Colo-
located in the limitrophe section of the river, its location, design and construction shall be subject to the approval of the Commission. The Commission shall thereafter maintain and operate the structure at the expense of Mexico. Regardless of where such diversion structure is located, there shall simultaneously be constructed such levees, interior drainage facilities and other works, or improvements to existing works, as in the opinion of the Commission shall be necessary to protect lands within the United States against damage from such floods and seepage as might result from the construction, operation and maintenance of this diversion structure. These protective works shall be constructed, operated and maintained at the expense of Mexico by the respective Sections of the Commission, or under their supervision, each within the territory of its own country.

(b) The United States, within a period of five years from the date of the entry into force of this Treaty, shall construct in its own territory and at its expense, and thereafter operate and maintain at its expense, the Davis storage dam and reservoir, a part of the capacity of which shall be used to make possible the regulation at the boundary of the waters to be delivered to Mexico in accordance with the provisions of Article 15 of this Treaty.

(c) The United States shall construct or acquire in its own territory the works that may be necessary to convey a part of the waters of the Colorado River allotted to Mexico to the Mexican
diversion points on the international land boundary line referred to in this Treaty. Among these works shall be included: the canal and other works necessary to convey water from the lower end of the Pilot Knob Wasteway to the international boundary, and, should Mexico request it, a canal to connect the main diversion structure referred to in subparagraph (a) of this Article, if this diversion structure should be built in the limitrophe section of the river, with the Mexican system of canals at a point to be agreed upon by the Commission on the international land boundary near San Luis, Sonora. Such works shall be constructed or acquired and operated and maintained by the United States Section at the expense of Mexico. Mexico shall also pay the costs of any sites or rights of way required for such works.

(d) The Commission shall construct, operate and maintain in the limitrophe section of the Colorado River, and each Section shall construct, operate and maintain in the territory of its own country on the Colorado River below Imperial Dam and on all other carrying facilities used for the delivery of water to Mexico, all necessary gaging stations and other measuring devices for the purpose of keeping a complete record of the waters delivered to Mexico and of the flows of the river. All data obtained as to such deliveries and flows shall be periodically compiled and exchanged between the two Sections.

ARTICLE 13
The Commission shall study, investigate and prepare plans for flood control on the Lower Colora-

do River between Imperial Dam and the Gulf of California, in both the United States and Mexico, and shall, in a Minute, report to the two Governments the works which should be built, the estimated cost thereof, and the part of the works to be constructed by each Government. The two Governments agree to construct, through their respective Sections of the Commission, such works as may be recommended by the Commission and approved by the two Governments, each Government to pay the costs of the works constructed by it. The Commission shall likewise recommend the parts of the works to be operated and maintained jointly by the Commission and the parts to be operated and maintained by each Section. The two Governments agree to pay in equal shares the cost of joint operation and maintenance, and each Government agrees to pay the cost of operation and maintenance of the works assigned to it for such purpose.

**ARTICLE 14**

In consideration of the use of the All-American Canal for the delivery to Mexico, in the manner provided in Articles 11 and 15 of this Treaty, of a part of its allotment of the waters of the Colorado River, Mexico shall pay to the United States:

(a) A proportion of the costs actually incurred in the construction of Imperial Dam and the Imperial Dam-Pilot Knob section of the All-American Canal, this proportion and the method and terms of repayment to be determined by the two Governments, which, for this purpose, shall take into consideration the propor-

**ARTÍCULO 14**

En consideración del uso del Canal Todo Americano para la entrega a México, en la forma establecida en los Artículos 11 y 15 de este Tratado, de una parte de su asignación a las aguas del río Colorado, México pagará a los Estados Unidos:

a) Una parte de los costos reales de la construcción de la Presa Imperial y del tramo Imperial-Pilot Knob del Canal Todo Americano; dicha parte y la forma y términos de su pago serán determinados por los dos Gobiernos, tomando en consideración la proporción en que ambos países usarán las citadas obras. Esta
tionate uses of these facilities by the two countries, these determinations to be made as soon as Davis dam and reservoir are placed in operation.

(b) Annually, a proportionate part of the total costs of maintenance and operation of such facilities, these costs to be prorated between the two countries in proportion to the amount of water delivered annually through such facilities for use in each of the two countries.

In the event that revenues from the sale of hydro-electric power which may be generated at Pilot Knob become available for the amortization of part or all of the costs of the facilities named in subparagraph (a) of this Article, the part that Mexico should pay of the costs of said facilities shall be reduced or repaid in the same proportion as the balance of the total costs are reduced or repaid. It is understood that any such revenue shall not become available until the cost of any works which may be constructed for the generation of hydro-electric power at said location has been fully amortized from the revenues derived therefrom.

**Article 15**

A. The water allotted in subparagraph (a) of Article 10 of this Treaty shall be delivered to Mexico at the points of delivery specified in Article 11, in accordance with the following two annual schedules of deliveries by months, which the Mexican Section shall formulate and present to the Com-

determinación deberá ser hecha tan pronto como sea puesta en operación la Presa Davis.

(b) Anualmente, la parte que le corresponda de los costos totales de mantenimiento y operación de aquellas obras. Dichos costos serán prorrateados entre los dos países en proporción a la cantidad de agua entregada anualmente a cada uno de ellos, para su uso, por medio de esas obras.

En el caso de que pueda disponerse de los productos de la venta de la energía hidroeléctrica que se genere en Pilot Knob para la amortización de una parte o de la totalidad de los costos de las obras enumeradas en el inciso a) de este Artículo, la parte que México deberá pagar del costo de dichas obras será reducida o reembolsada en la misma proporción en que se reduzca o reembolsé el saldo insólito de los costos totales.

Queda entendido que no podrá disponerse con ese fin de esos productos de la venta de energía eléctrica sino hasta que el costo de todas las obras construidas en ese lugar para generación de energía eléctrica, haya sido totalmente amortizado con los mencionados productos de la venta de la energía eléctrica.

**ARTICULO 15**

A. - El agua asignada en el inciso a) del Artículo 10 de este Tratado será entregada a México en los lugares especificados en el Artículo 11, de acuerdo con dos tablas anuales de entregas mensuales, que se indican a continuación, y que la Sección Mexicana formulará y presentará a la Comi-
mission before the beginning of each calendar year:

Should deliveries of water be made at a point on the land boundary near San Luis, Sonora, as provided for in Article 11, such deliveries shall be made under a sub-schedule to be formulated and furnished by the Mexican Section. The quantities and monthly rates of deliveries under such sub-schedule shall be in proportion to those specified for Schedule I, unless otherwise agreed upon by the Commission.

**SCHEDULE II**

Schedule II shall cover the delivery at the boundary line by means of the All-American Canal of 500,000 acre-feet (616,745,000 cubic meters) of water each year from the date Davis dam and reservoir are placed in operation until January 1, 1980 and the delivery of 375,000 acre-feet (462,558,000 cubic meters) of water each year thereafter. En el caso en que se hagan entregas de agua en un lugar de la línea divisoria terrestre cercano a San Luis, Sonora, de acuerdo con lo establecido en el Artículo 11, dichas entregas se sujetarán a una subtabla que formulará y proporcionará la Sección Mexicana. Los volúmenes y gastos mensuales de entrega especificados en dicha subtabla estarán en proporción a los especificados para la Tabla I, salvo que la Comisión acuerde otra cosa.

**TABLA II**

La tabla II detallará la entrega en la línea divisoria de las aguas procedentes del Canal Todo Americano, de un volumen de 616 745 000 metros cúbicos (500 000 acres pies) anuales de agua a partir de la fecha en que la Presa Davis sea puesta en operación, hasta el primero de enero de 1980, y de 462 558 000 metros cúbicos (375 000 acres pies) de agua anuales después de esa fecha. Esta tabla se formulará con sujeción a las siguientes limitaciones:

Par el volumen de 616 745 000 metros cúbicos (500 000 acres pies):

a) Durante los meses de enero, febrero, octubre, noviembre y diciembre, el gasto de entrega no será menor de 8.5 metros cúbicos (300 pies cúbicos), ni mayor de 56.6 metros cúbicos (2 000 pies cúbicos) por segundo.

(b) During the remaining months of the year the prescribed rate of delivery shall be not less than 375 cubic feet (10.6 cubic meters) nor more than 1,500 cubic feet (42.5 cubic meters) per second.

B. The United States shall be under no obligation to deliver, through the All-American Canal, more than 500,000 acre-feet (616,745,000 cubic meters) annually from the date Davis dam and reservoir are placed in operation until January 1, 1980 or more than 375,000 acre-feet (462,558,000 cubic meters) annually thereafter.

If, by mutual agreement, any part of the quantities of water specified in this paragraph are delivered to Mexico at points on the land boundary otherwise than through the All-American Canal, the above quantities of water and the rates of deliveries set out under Schedule II of this Article shall be correspondingly diminished.

C. The United States shall have the option of delivering, at the point on the land boundary men-
tioned in subparagraph (c) of Article 11, any part or all of the water to be delivered at that point under Schedule II of this Article during the months of January, February, October, November and December of each year, from any source whatsoever, with the understanding that the total specified annual quantities to be delivered through the All-American Canal shall not be reduced because of the exercise of this option, unless such reduction be requested by the Mexican Section, provided that the exercise of this option shall not have the effect of increasing the total amount of scheduled water to be delivered to Mexico.

D. In any year in which there shall exist in the river water in excess of that necessary to satisfy the requirements in the United States and the guaranteed quantity of 1,500,000 acre-feet (1,850,234,000 cubic meters) allotted to Mexico, the United States hereby declares its intention to cooperate with Mexico in attempting to supply additional quantities of water through the All-American Canal as such additional quantities are desired by Mexico, if such use of the Canal and facilities will not be detrimental to the United States, provided that the delivery of any additional quantities through the All-American Canal shall not have the effect of increasing the total scheduled deliveries to Mexico. Mexico hereby declares its intention to cooperate with the United States by attempting to curtail deliveries of water through the All-American Canal in years of limited supply, if such curtailment can be accomplished without detriment to Mex-

D. — En cualquier año en que haya agua en el río en exceso de la necesaria para satisfacer las demandas en los Estados Unidos y el volumen garantizado de 1 850 234 000 metros cúbicos (1 500 000 acres pies) asignado a México, los Estados Unidos declaran su intención de cooperar con México procurando abastecer, por el Canal Todo Americano, los volúmenes adicionales de agua que México desee, si ese uso del Canal y de las obras respectivas no resultare perjudicial a los Estados Unidos; en la inteligencia de que la entrega de los volúmenes adicionales de agua por el Canal Todo Americano no significará el aumento del volumen total de entregas de agua tabulada para México. Por su parte, México declara su intención de cooperar con los Estados Unidos durante los años de abastecimiento limitado tratando de reducir las entregas de agua por el Canal Todo Americano si dicha reducción pudiere llevarse a efecto sin perjuicio para México y si fuere
ico and is necessary to allow full
use of all available water supplies, provided that such curtailment
shall not have the effect of reduc-
ing the total scheduled deliveries
of water to Mexico.

Surplus water.

E. In any year in which there
shall exist in the river water in
excess of that necessary to satisfy
the requirements in the United
States and the guaranteed quan-
tity of 1,500,000 acre-feet (1,850,-
234,000 cubic meters) allotted to
Mexico, the United States Section
shall so inform the Mexican Sec-
tion in order that the latter may
schedule such surplus water to
complete a quantity up to a maxi-
mum of 1,700,000 acre-feet (2,096,-
931,000 cubic meters). In this
circumstance the total quantities
to be delivered under Schedules I
and II shall be increased in pro-
portion to their respective total
quantities and the two schedules
thus increased shall be subject to
the same limitations as those es-
established for each under par-
agraph A of this Article.

F. Subject to the limitations as
to rates of deliveries and total
quantities set out in Schedules I
and II, Mexico shall have the
right, upon thirty days notice in
advance to the United States Sec-
tion, to increase or decrease each
monthly quantity prescribed by
those schedules by not more than
20% of the monthly quantity.

Conditional increase
of total quantity un-
der Schedule I.

G. The total quantity of water
to be delivered under Schedule I of
paragraph A of this Article may be
increased in any year if the amount
to be delivered under Schedule II
is correspondingly reduced and if
necesaria para hacer posible el
aprovechamiento total del agua
disponible; en la inteligencia de
que dicha reducción no tendrá el
efecto de disminuir el total de
entregas de agua tabulado para
México.

E. – En cualquier año en que
haya agua en el río en exceso de la
cantidad necesaria para satisfacer
las demandas en los Estados Uni-
dos y el volumen garantizado de
1 850 234 000 metros cúbicos
(1 500 000 acres pies) asignado a
México, la Sección de los Estados
Unidos lo informará así a la Sección
Mexicana con objeto de que esta
última pueda tabular las aguas
excedentes hasta completar un
volumen máximo de 2 096 931 000
metros cúbicos (1 700 000 acres
pies). En este caso los volúmenes
totales que se entregarán de acuer-
do con las Tablas números I y II
serán aumentados en proporción
da sus respectivos volúmenes totales
y las dos tablas así incrementadas
quedarán sujetas a las mismas
limitaciones establecidas, para cada
una de ellas, en el párrafo A de
este Artículo.

F. – Con sujeción a las limita-
ciones fijadas en las Tablas I y II
por lo que toca a los gastos de
entrega y a los volúmenes totales,
México tendrá el derecho de
aumentar o disminuir, mediante
avisos dados a la Sección de los
Estados Unidos con 30 días de
anticipación, cada uno de los
volúmenes mensuales establecidos
en esas tablas, en una cantidad que
no exceda del 20% de su respectivo
monto.

G. – En cualquier año, el volu-
men total de agua que deberá
entregarse de acuerdo con la
Tabla I a que se refiere el párrafo
A de este Artículo, podrá ser
aumentado, si el volumen de agua

Increase or decrease
eof monthly quantity.
the limitations as to rates of delivery under each schedule are correspondingly increased and reduced.

**IV - TJUANA RIVER**

**ARTICLE 16**

In order to improve existing uses and to assure any feasible further development, the Commission shall study and investigate, and shall submit to the two Governments for their approval:

1. Recommendations for the equitable distribution between the two countries of the waters of the Tijuana River system;

2. Plans for storage and flood control to promote and develop domestic, irrigation and other feasible uses of the waters of this system;

3. An estimate of the cost of the proposed works and the manner in which the construction of such works or the cost thereof should be divided between the two Governments;

4. Recommendations regarding the parts of the works to be operated and maintained by the Commission and the parts to be operated and maintained by each Section.

The two Governments through their respective Sections of the Commission shall construct such of the proposed works as are approved by both Governments, and shall divide the work to be done or the cost thereof, and shall distribute between the two countries the waters of the Tijuana River system in the proportions approved by the two Governments.

**IV - RIO TJUANA**

**ARTICULO 16**

Con el objeto de mejorar los usos existentes y de asegurar cualquier desarrollo futuro factible, la Comisión estudiará, investigará y someterá a los dos Gobiernos para su aprobación:

1. Recomendaciones para la distribución equitativa entre los dos países de las aguas del sistema del río Tijuana;

2. Proyectos de almacenamiento y control de avenidas a fin de fomentar y desarrollar los usos domésticos, de irrigación y demás usos factibles de las aguas de este sistema;

3. Estimaciones de los costos de las obras propuestas y de la forma en que la construcción de dichas obras o los costos de las mismas deberán ser divididos entre los dos Gobiernos;

4. Recomendaciones respecto de las partes de las obras que deberán ser operadas y mantenidas por la Comisión y las partes de las mismas que deberán ser operadas y mantenidas por cada Sección.

Los dos Gobiernos, cada uno por conducto de sus respectivas Secciones de la Comisión, construirán las obras que propongan y aprueben ambos Gobiernos, se dividirán la cantidad de obra o su costo y se distribuirán las aguas del sistema del río Tijuana en las proporciones que ellos decidan. Los dos Gobiernos convienen en pagar por partes iguales el costo.
The two Governments agree to pay in equal shares the costs of joint operation and maintenance of the works involved, and each Government agrees to pay the cost of operation and maintenance of the works assigned to it for such purpose.

V - GENERAL PROVISIONS

ARTICLE 17

The use of the channels of the international rivers for the discharge of flood or other excess waters shall be free and not subject to limitation by either country, and neither country shall have any claim against the other in respect of any damage caused by such use. Each Government agrees to furnish the other Government, as far in advance as practicable, any information it may have in regard to such extraordinary discharges of water from reservoirs and flood flows on its own territory as may produce floods on the territory of the other.

Each Government declares its intention to operate its storage dams in such manner, consistent with the normal operations of its hydraulic systems, as to avoid, as far as feasible, material damage in the territory of the other.

ARTICLE 18

Public use of the water surface of lakes formed by international dams shall, when not harmful to the services rendered by such dams, be free and common to both countries, subject to the police regulations of each country in its territory, to such general regulations as may appropriately be prescribed and enforced by the Commission with the approval of the two Governments for the pur-
pose of the application of the provisions of this Treaty, and to such regulations as may appropriately be prescribed and enforced for the same purpose by each Section of the Commission with respect to the areas and borders of such parts of those lakes as lie within its territory. Neither Government shall use for military purposes such water surface situated within the territory of the other country except by express agreement between the two Governments.

**ARTICLE 19**

The two Governments shall conclude such special agreements as may be necessary to regulate the generation, development and disposition of electric power at international plants, including the necessary provisions for the export of electric current.

**ARTICLE 20**

The two Governments shall, through their respective Sections of the Commission, carry out the construction of works allotted to them. For this purpose the respective Sections of the Commission may make use of any competent public or private agencies in accordance with the laws of the respective countries. With respect to such works as either Section of the Commission may have to execute on the territory of the other, it shall, in the execution of such works, observe the laws of the place where such works are located or carried out, with the exceptions hereinafter stated.

All materials, implements, equipment and repair parts intended for the construction, operation and maintenance of such works shall be exempt from immigration requirements, etc.

con el fin de aplicar las disposiciones de este Tratado, y a los reglamentos pertinentes que establezca y ponga en vigor cada Sección de la Comisión, con el mismo fin, respecto a las áreas y orillas de aquellas partes de los lagos comprendidas dentro de su territorio. Ninguno de los dos Gobiernos podrá usar para fines militares las superficies de las aguas situadas dentro del territorio del otro país sin un convenio expreso entre los dos Gobiernos.

**ARTICULO 19**

Los dos Gobiernos celebrarán los convenios especiales que sean necesarios para reglamentar la generación, el desarrollo y utilización de la energía eléctrica en las plantas internacionales y los requisitos para exportar la corriente eléctrica.

**ARTICULO 20**

Los dos Gobiernos, por conducto de sus respectivas Secciones de la Comisión, llevarán a cabo los trabajos de construcción que les sean asignados, empleando, para ese fin, los organismos públicos o privados competentes de acuerdo con sus propias leyes. Respecto a las obras que cualquiera de las Secciones de la Comisión deba ejecutar en el territorio de la otra, observará en la ejecución del trabajo las leyes del lugar donde se efectúe, con las excepciones que en seguida se consignan.
port and export customs duties. The whole of the personnel employed either directly or indirectly on the construction, operation or maintenance of the works may pass freely from one country to the other for the purpose of going to and from the place of location of the works, without any immigration restrictions, passports or labor requirements. Each Government shall furnish, through its own Section of the Commission, convenient means of identification to the personnel employed by it on the aforesaid works and verification certificates covering all materials, implements, equipment and repair parts intended for the works.

Each Government shall assume responsibility for and shall adjust exclusively in accordance with its own laws all claims arising within its territory in connection with the construction, operation or maintenance of the whole or of any part of the works herein agreed upon, or of any works which may, in the execution of this Treaty, be agreed upon in the future.

**TREATIES** [59 Stat.]

**Article 21**

The construction of the international dams and the formation of artificial lakes shall produce no change in the fluvial international boundary, which shall continue to be governed by existing treaties and conventions in force between the two countries.

The Commission shall, with the approval of the two Governments, establish in the artificial lakes, by buoys or by other suitable markers, a practicable and convenient line to provide for the exercise of the jurisdiction and control vested de tributos fiscales de importación y exportación. Todo el personal empleado directamente o indirectamente en la construcción, operación y mantenimiento de las obras, podrá pasar libremente de un país al otro con objeto de ir al lugar de su trabajo, o regresar de él, sin restricciones de inmigración, pasaporte, o requisitos de trabajo. No. 274

Excellency:

I have the honor to refer to Your Excellency's courteous Note of July 15, 1944 (No. 9175) in which Your Excellency was so good as to indicate the desire of the Government of Guatemala to enter into a cooperative educational program to be undertaken jointly between the Government of Guatemala and an Agency of the Government of the United States in the Republic of Guatemala.

The Government of the United States of America is prepared to assist the Government of Guatemala with such a program by contributing the sum of One Hundred Thousand Dollars ($100,000) with the understanding that the Republic of Guatemala will contribute Fifty Thousand Quetzales (Q50,000) for the same program. The assistance of the Government of the United States of America will be rendered through its agency, the Inter-American Educational Foundation, Incorporated, a corporation of the Office of the Coordinator of Inter-American Affairs, to which it is hoped Your Excellency's Government would extend all the rights and privileges in Guatemala to which the Foundation would be entitled as an agency of the United States Government or which would facilitate its part in the cooperative educational program.

It is my understanding that the Government of Guatemala would be disposed to include among those rights and privileges the entry, free of customs duties and other taxes and charges, of the official supplies and equipment for the Inter-American Educational Foundation, Incorporated, as well as the personal effects and supplies of the employees of the Foundation who are citizens of the United States receiving compensation from any Government; and that the Foundation would be accorded every feasible facility of free communication and transportation within the limits of Guatemala and that it and its employees would be free of internal taxation.
It is also my understanding that the full details of the program will be worked out in an agreement between the appropriate officer of the Government of Guatemala and representative of the Inter-American Educational Foundations, Incorporated.

I should appreciate receiving from Your Excellency confirmation that my understanding is satisfactory to the Government of Guatemala.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

Señor Embajador:

En atención a lo que dispone el párrafo tercero del convenio celebrado el 20 de mayo en curso en la ciudad de San José, entre el Gobierno de Costa Rica y el de los Estados Unidos de América, para el suministro temporal de trabajadores costarricenses a este último país, y en el cual figuran como representantes el Señor Subsecretario de Trabajo y Previsión Social, Licdo. Hernán Bejarano Rivera, por parte de Costa Rica, y el Señor Hiram S. Phillips, por parte del Director de la Comisión de Recursos Humanos de Guerra de los Estados Unidos de América, tengo la honra de remitir a Vuestra Excelencia la presente nota de intercambio como ratificación de ese convenio por parte del Gobierno de Costa Rica.

El documento de que se habla en el párrafo anterior dice así:

"Entre nosotros, Hernán Bejarano Rivera, Subsecretario de Estado en los Despachos de Trabajo y Previsión Social por parte del Gobierno de la República de Costa Rica y debidamente autorizado al efecto por el señor Presidente de la República, e Hiram S. Phillips, representante del Director de la Comisión de Recursos Humanos de Guerra (War Manpower Commission) de los Estados Unidos de América,

Por cuanto, en la promoción del esfuerzo común de la guerra por las Naciones Unidas, el Gobierno de los Estados Unidos de América y el Gobierno de Costa Rica están de acuerdo en facilitar la migración temporal de trabajadores de Costa Rica a los Estados Unidos de América para ser empleados dentro de los límites continentales de los Estados Unidos en industrias y servicios esenciales a la preservación, venta o distribución de productos agrícolas, incluyendo las industrias madereras:

Por lo tanto, convienen en sugerir las siguientes estipulaciones generales, pudiendo este acuerdo ser formalizado mediante intercambio de notas entre la Secretaría de Relaciones Exteriores de la República de Costa Rica y la Embajada de los Estados Unidos de América en Costa Rica:

I. Estipulaciones Generales

A.—El Gobierno de Costa Rica se esforzará de la mejor manera en facilitar el reclutamiento de trabajadores de nacionalidad costarricense; en establecer centros de registro para la organización de tales trabajadores, cuando fuere necesario, y en la migración temporal de dichos trabajadores a los Estados Unidos de América de acuerdo con los arreglos hechos por medio del Director de la Comisión de Recursos Humanos de Guerra ("War Manpower Commission"), o de su representante autorizado.

B.—Los trabajadores que ingresen en los Estados Unidos de
América bajo este convenio no serán llamados a presentarse para, o someterse a, la inscripción bajo la Ley de Entrenamiento y Servicio Selectivo de 1940.

C.-Los trabajadores que ingresen en los Estados Unidos bajo este convenio, no sufrirán ninguna clase de discriminación, según las Ordenes Ejecutivas nos. 8802 y 9346 dadas en la Casa Blanca el 25 de junio de 1941 y 27 de mayo de 1943, respectivamente

D.-Los trabajadores que ingresen en los Estados Unidos bajo este convenio no serán empleados para desplazar otros trabajadores o para reducir las pagas u otras normas establecidas con anterioridad.

E.-Cualquiera de los dos Gobiernos tendrá el derecho de rescindir este convenio dando noventa días de notificación al otro Gobierno por anticipado, salvo que no obstante la terminación del convenio según la forma estipulada, en el mismo, todos los trabajadores empleados con sujeción a este convenio antes de su terminación continuarán gozando de todos los beneficios convenidos en él, hasta el momento en que sean regresados a Costa Rica.

F.-Habrá plena cooperación entre los Gobiernos de los Estados Unidos de América y de Costa Rica y entre sus agencias respectivas. El Gobierno de los Estados Unidos someterá reportes periódicos al Gobierno de Costa Rica con respecto a las condiciones de trabajo y de vida de los trabajadores llevados a los Estados Unidos bajo este convenio.

G.-La realización de este convenio dependerá de la continuación de la demanda de empleados para las industrias y servicios arriba especificados, en los Estados Unidos; la disponibilidad de transporte a los Estados Unidos y la continuada disponibilidad de trabajadores en Costa Rica para su migración temporal a los Estados Unidos.

H.-Los Gobiernos de los Estados Unidos de América y de Costa Rica, signatarios del presente convenio, no pondrán en ejecución el presente convenio hasta tanto no se resuelva de mutuo acuerdo lo relativo al seguro de vida durante el trasporte de los trabajadores costarricenses, ida y regreso.

**II. Tramitación**

**A.-Contratos**

1.-Los contratos para ejecutar los propósitos y principios de este convenio de acuerdo con los requisitos legales de los respectivos Gobiernos, incluyendo las cláusulas del Código del Trabajo de Costa Rica, serán firmados por el patrón, el trabajador, y el Gobierno de los Estados Unidos de América, que actuará por medio del Director de la Comisión de Recursos Humanos de Guerra o su representante autorizado. El Gobierno de los Estados Unidos, actuando por medio del Director de la Comisión de Recursos Humanos de Guerra o su representante autorizado,
garantiza el cumplimiento de los términos y condiciones de este convenio por parte del patrón.

2.-La palabra patron según se usa en este convenio deberá entenderse que significa el propietario o administrador de una empresa en los Estados Unidos, la cual es esencial a la preservación, venta o distribución de productos agrícolas, inclusive las industrias madereras, en las cuales será empleado el trabajador.

3.-El término trabajador según se usa en este convenio deberá entenderse que significa un ciudadano costarricense que ingresa en los Estados Unidos sujeto a este convenio para ser empleado en industrias o servicios esenciales a la preservación, venta o distribución de productos agrícolas, incluyendo las industrias madereras.

4.-Los contratos efectuados entre los patronos y trabajadores deberán estar redactados en los idiomas español e inglés.

B.-ADMISSION DE TRABAJADORES EN LOS ESTADOS UNIDOS

1.-El Servicio Público de Salud de los Estados Unidos deberá supervisar los necesarios exámenes de salud de los trabajadores para determinar si ellos reúnen las normas físicas requeridas para su admisión en los Estados Unidos y si están en condición física para desempeñar el tipo de trabajo para el cual se les emplea. Los exámenes de sanidad serán efectuados en el lugar de selección o en cualquier otro lugar de Costa Rica mutuamente convenido y sin costo para el trabajador. Las autoridades de salubridad de Costa Rica deberán ayudar con las facilidades de que dispongan para tales exámenes.

2.-La admisión estará acorde con los reglamentos del Gobierno de los Estados Unidos que actuará por medio del Servicio de Inmigración y Naturalización del Departamento de Justicia y la División de Visaciones del Departamento de Estado

III. Condiciones bajo las cuales serán contratados los trabajadores

A.-TRANSPORTACION

1.-La transportación del trabajador, (incluyendo subsistencia apropiada durante el viaje y asistencia médica en tránsito), y sus efectos personales (limitados a 75 libras), será provista sin costo para el trabajador. El Gobierno de los Estados Unidos se esforzará por todos los medios para proteger la seguridad en el tránsito de los trabajadores a los Estados de ida y regreso.

B.-JORNALES Y TRABAJO

1.-Los jornales ordinarios o extraordinarios pagados a trabajadores costarricenses bajo este convenio serán los mismos y en ningún caso inferiores a los pagados por el patron por trabajo similar a trabajadores nacionales en el mismo lugar de empleo. Los jornales ya sean por hora, por pieza o otra base, no serán inferiores a cuarenta centimos de dólar por hora.

2.-Todo trabajador será empleado exclusivamente en industrias o servicios esenciales a la preservación, venta o distribución de
productos agrícolas, incluyendo las industrias madereras, pero si a la terminación del empleo no hubiere medios de transporte disponibles para el regreso del trabajador a Costa Rica y fuere imposible continuar el empleo del trabajador en las industrias mencionadas en este convenio, el trabajador podrá ser empleado temporalmente, durante el tiempo que tuviere que esperar para su trasportación de regreso, en otras industrias o servicios que el Director de la Comisión de Recursos Humanos de Guerra (War Manpower Commission) o su representante autorizado llegare a determinar.

3.-Los jornales se deberán pagar totalmente, sin deducciones, exceptuando (a) aquellas que la ley requiera para los trabajadores nacionales que trabajan en las mismas ocupaciones y en el mismo sitio de trabajo y para el mismo patrón o (b) aquellas que se dispongan en el contrato escrito que requiere la cláusula II A-1 de este convenio, entendiéndose que la retención por la ley del impuesto sobre la renta en anticipación a las obligaciones del trabajador bajo esa ley y no como exención definitiva de la misma, será limitada a un 10% de las entradas brutas del trabajador.

4.-Bajo este convenio no se podrán emplear trabajadores menores de dieciocho años.

5.-No se obligará a los trabajadores a comprar artículos o servicios para su consumo o uso personal en cualquier parte no escogida por ellos; entendiéndose que no se obligará a los trabajadores a comprar artículos o servicios, incluyendo herramientas, no exigidas a los trabajadores nacionales del mismo patrón en el mismo lugar de empleo, y entendiéndose además que, cuando sea necesario, el patrón pondrá a la disposición del trabajador, a un precio razonable, vestuario suficiente y apropiado para las condiciones climatéricas de los Estados Unidos, y los costos de dicho vestuario serán deducidos de los subsiguientes salarios de los trabajadores.

6.-Las condiciones de vida, así como los servicios sanitarios y médicos para los trabajadores costarricenses serán de la misma calidad y no menos favorables que los de que gozan los trabajadores nacionales contratados por el patrón en la misma ocupación y lugar de empleo. La vivienda será sanitaria y cómoda para los trabajadores. Los alimentos, cuando éstos sean suministrados al trabajador por el patrón, deberán ser preparados sanitariamente y deberán ser de la misma calidad que los alimentos suministrados a los trabajadores nacionales. El costo de la alimentación y alojamiento, cuando sean suministrados por el patrón, no deberá exceder la suma de $1.40 por día y por trabajador.

7.-Los trabajadores admitidos bajo este convenio deberán disfrutar, en cuanto se refiere a enfermedades o accidentes ocupacionales, de las mismas garantías disfrutadas por los trabajadores nacionales en las mismas ocupaciones y en el mismo lugar según la Legislación Federal o Estatal de los Estados Unidos.
8.-Los trabajadores admitidos bajo este convenio tendrán la oportunidad de ser empleados durante el mismo número de horas que los trabajadores nacionales que trabajan para el patrón en las mismas ocupaciones y en el mismo lugar de trabajo; pero se entenderá que a los trabajadores costarricenses no se les obligará a trabajar el 25 de diciembre, el Jueves y Viernes Santos y la festividad de Corpus Christi; se entenderá, además, que a los trabajadores costarricenses se les concederá un día de descanso cada siete días, excepto durante períodos de emergencia cuando a todos los trabajadores se les exija trabajar sin ningún día de descanso.

9.-Los trabajadores admitidos bajo este convenio estarán sujetos a los mismos derechos y privilegios con respecto a promociones y aumentos generales de jornales, y a los mismos derechos y privilegios que surjan de convenios colectivos como los acordados a los trabajadores nacionales que trabajan para el patrón en las mismas ocupaciones y en el mismo lugar de trabajo.

10.—(1) Sujeto a las estipulaciones del párrafo (2) de esta cláusula, los trabajadores serán reclutados para trabajar por un período de ciento ochenta días, el cual podrá ser extendido con la aprobación del Director de la Comisión de Guerra o su representante autorizado, según lo dispuesto aquí. El compromiso inicial entre el trabajador y su primer patrón será por un término no menor de noventa días y al trabajador se le dará la oportunidad durante tal período de empleo, de trabajar no menos de cuatrocientas ochenta horas, pero las horas trabajadas los domingos en exceso de diez horas durante cualquier período de veinticuatro horas no serán incluidas en esta garantía de cuatrocientas ochenta horas. Al terminar este compromiso inicial, el período de empleo podrá ser renovado por convenio mutuo entre el trabajador y el patrón, sujeto a la aprobación del Director de la Oficina de Recursos Humanos de Guerra o su representante autorizado: en el entendimiento de que tal renovación o extensión será hecha sobre términos no menos favorables al trabajador que los que exige este convenio con respecto al período inicial de empleo. (2) Cuando el compromiso inicial del trabajador no sea renovado o extendido y cuando a la terminación de tal compromiso inicial, no hubiere trabajo disponible con un nuevo patrón sobre términos no menos favorables al trabajador que los exigidos por este convenio para el compromiso inicial, entonces el trabajador deberá ser devuelto a Costa Rica por el Gobierno de los Estados Unidos.

11.—Todo contrato de empleo del que sea parte el trabajador admitido bajo este convenio, deberá contener una estipulación para la deducción de sus jornales de la suma de cincuenta centímetros de dólar diarios por cada día que el trabajador reciba en jornales una suma no menor de tres dólares. Las sumas así deducidas deberán ser remitidas al Banco Nacional de Costa Rica para ser acreditadas al trabajador a su regreso a Costa Rica. Las sumas así deducidas deberán ser remitidas en las fechas y en la forma que se llegue a convenir entre el Gobierno
de Costa Rica y el Director de la Comisión de Recursos Humanos de Guerra.

12.-Los trabajadores tendrán derecho a discutir cualesquiera problemas de condiciones de vida o trabajo con sus patrones de acuerdo con los trámites que serán establecidos por el patrón. Esto no impedirá que el trabajador recurra a cualquier procedimiento de apelación que pueda ser establecido por la Comisión de Recursos Humanos de Guerra.

13.—Al expirar el contrato o alguna de sus renovaciones, las autoridades de los Estados Unidos considerarán la estada del trabajador en territorio de los Estados Unidos como ilegal desde un punto de vista de inmigración, con la excepción de casos de imposibilidad física del trabajador para su regreso a Costa Rica y en tal caso solamente mientras exista tal imposibilidad.

14.—El Gobierno de los Estados Unidos, actuando por medio del Director de la Comisión de Recursos Humanos de Guerra (War Manpower Commission) o su representante autorizado, aplicará sus mejores esfuerzos para el regreso de los trabajadores a Costa Rica prontamente al expirar los contratos o cualquiera renovación de los mismos. En el caso que las exigencias de la guerra causaren atrasos en el regreso de los trabajadores, el Gobierno de los Estados Unidos, actuando por medio del Director de la Comisión de Recursos Humanos de Guerra (War Manpower Commission) o su representante autorizado, hará uso de sus mejores esfuerzos para continuar empleando al trabajador, según lo contemplado en la Sección III, B, 2, durante el término que pueda ser necesario hasta la disponibilidad de medios de transporte, pero en ningún caso se extenderá por más de seis meses después de la terminación de la guerra actual.

En fe lo cual firmanos el presente convenio en dos tantos, uno en inglés para el Gobierno de los Estados Unidos de América y otro en español para el Gobierno de Costa Rica, en la ciudad de San José de Costa Rica a los veinte días del mes de mayo de mil novecientos cuarenta y cuatro.

Por el Gobierno de Costa Rica (f) Hernán Bejarano, Subsecretario de Estado en el Despacho de Trabajo y Previsión Social

[For English version of the agreement of May 20, 1944 see infra.]

I avail myself of the opportunity to renew to Your Excellency the assurance of my highest and most distinguished consideration.

JULIO ACOSTA

His Excellency,

FAY ALLEN DES PORTES,
Ambassador Extraordinary and Plenipotentiary
of the United States of America,
San José.

Contract

Between us, Hernán Bejarano Rivera, Under Secretary of State for Labor and Social Welfare for the Government of the Republic of Costa Rica, duly authorized for the purpose by the President of the Republic and Hiram S. Phillips, Representative of the Chairman of the War Manpower Commission of the United States,

WHEREAS, in the furtherance of the common war effort of the United Nations, the Government of the United States of America and the Government of Costa Rica are desirous of facilitating the temporary migration of workers from Costa Rica to the United States of America for employment within the continental limits of the United States with industries and services essential to the preservation, marketing, or distribution of agricultural products, including the timber and lumber industries;

Now, THEREFORE, the following general provisions are suggested and this understanding may be formalized by an exchange of notes between the Ministry of Foreign Affairs of the Republic of Costa Rica and the Embassy of the United States of America in Costa Rica:
I. General Provisions

A. The Government of Costa Rica will use its best efforts to facilitate the recruitment of workers of Costa Rican nationality, the establishment of reception centers for the assembling of said workers where needed, and the temporary migration of said workers to the United States of America in accordance with arrangements made through the Chairman of the War Manpower Commission or his authorized representative.

B. Workers who enter the United States under this agreement shall not be required to present themselves for or submit to registration under the Selective Training and Service Act of 1940.

C. Workers who enter the United States under this agreement shall not suffer discriminatory acts of any kind in accordance with Executive Orders No. 8802 and No. 9346 issued at the White House on June 25, 1941 and May 27, 1943 respectively.

D. Workers who enter the United States under this agreement shall not be employed to displace other workers or for the purpose of reducing rates of pay or other standards previously established.

E. Either Government shall have the right to renounce this agreement upon ninety days' notification to the other Government in advance thereof; provided that notwithstanding the termination of the agreement in the manner thus provided, all workers employed under this agreement prior to its being so terminated shall continue to enjoy all the benefits conferred by this agreement until such time as they are returned to Costa Rica.

F. There will be full cooperation between the Governments of the United States and Costa Rica and between their respective agencies. The Government of the United States shall submit periodic reports to the Government of Costa Rica with respect to the working and living conditions of the workers brought to the United States under this agreement.

G. The effectuation of this agreement shall be dependent on the continued need for workers in the above specified industries and services in the United States, the availability of transportation to the United States, and the continued availability of workers in Costa Rica for temporary migration to the United States.

H. The Governments of the United States of America and of Costa Rica, signatories to the present agreement, shall not enter upon performance of this agreement until a mutual understanding has been reached between them with respect to the life insurance of the Costa Rican workers in transit to and from the United States.
II. Procedure

A. Contracts

1. Contracts to effectuate the purpose and principles of this agreement in accordance with the legal requirements of the respective Governments, including the provisions of the Costa Rica Labor Code, shall be entered into between the employer, the worker, and the Government of the United States of America, acting through the Chairman of the War Manpower Commission or his authorized representative. The Government of the United States, acting through the Chairman of the War Manpower Commission or his authorized representative, guarantees the performance on the part of the employer of the terms and conditions of this agreement.

2. The word "employer" as used herein shall be understood to mean the owner or operator of an enterprise, in the United States of America essential to the preservation, marketing, or distribution of agricultural products, including the timber and lumber industries, in which the worker will be employed.

3. The word "worker" as used herein shall be understood to mean a national of Costa Rica entering the United States of America under this agreement for employment in industries or services essential to the preservation, marketing, or distribution of agricultural products, including the timber and lumber industries.

4. Contracts entered into between the employers and the workers shall be written in the Spanish and English languages.

B. Admission of Workers into the United States

1. The United States Public Health Service shall supervise the necessary health examinations of the workers to determine whether such workers meet the physical standards requisite for admission to the United States and whether such workers are in physical condition to perform the type of labor for which they are being employed. The health examinations shall be administered at the place of selection or any other place in Costa Rica mutually agreed upon and at no cost to the worker. The Costa Rica health authorities shall assist with such facilities and services for such examinations as may be available.

2. Admission shall accord with regulations of the United States Government acting through the Immigration and Naturalization Service of the
Department of Justice and the Visa Division of the Department of State.

III. Conditions Under Which Workers Shall be Contracted

A. Transportation

1. Transportation of the worker (including adequate subsistence during travel and emergency medical care enroute) and of his personal effects (limited to 75 pounds) shall be provided at no expense to the worker. The Government of the United States shall make every effort to assure safe passage for the workers travelling to and from the United States.

B. Wages and Employment

1. Wages, normal or overtime, paid to Costa Rican workers under this agreement shall be the same as, and in no case less than, those paid by the employer for similar work to domestic workers in the same occupation at the same place of employment. Wages, whether paid on an hourly, piece work, or other basis, shall be not less than forty cents per hour.

2. Each worker shall be employed exclusively in industries and services essential to the preservation, marketing, or distribution of agricultural products, including the timber and lumber industries, but if at the termination of the employment transportation for the return of the worker to Costa Rica should not be available and it would then be impossible to continue the workers' employment in industries contemplated by this agreement, the worker may be temporarily employed during such period as he may have to wait for return transportation in such other industries or services as the Chairman of the War Manpower Commission or his authorized representative may determine.

3. Wages shall be paid in full with no deductions except (a) those required by law of domestic workers engaged in the same occupations at the same place of employment by the same employer, or (b) those for which provision may be made in the written contract required by Clause II A–1 of this agreement; provided that the withholding under the income tax law in anticipation of the worker's liability thereunder and not as an extinguishment thereof shall be limited to 10% of the worker's gross earnings.

4. No workers under 18 years of age shall be employed under this agreement.

5. Workers shall not be required to purchase goods or services for their personal consumption or use at any source not of their choice; provided that the workers...
shall not be required to purchase articles or services, including tools, not required of domestic workers of the same employer at the same place of employment; provided, further, that, when necessary, the employer shall make available to the worker, at a reasonable cost, sufficient warm clothing to meet climatic conditions in the United States, and the costs of such clothing may be deducted from the subsequent earnings of the workers.

6. Living conditions and sanitary and medical services for Costa Rica workers shall be of the same kinds as, and shall not be less favorable to them than, those enjoyed by domestic workers engaged by the employer in the same occupations at the same place of employment. Housing shall be sanitary and provide reasonable comfort for the workers. Food, when furnished to the worker by the employer, shall be prepared in a sanitary manner and shall be of the same standard as the food furnished domestic labor. The cost of food and housing, when furnished by the employer, shall not exceed $1.40 per day per worker.

7. Workers admitted under this agreement shall enjoy as regards occupational diseases and accidents the same guarantee enjoyed by domestic workers engaged in the same occupations at the same place of employment under Federal or State Legislation in the United States.

8. Workers admitted under this agreement shall be afforded opportunity to be employed the same number of working hours as domestic workers engaged by the employer in the same occupations at the same place of employment; provided that Costa Rica workers shall not be required to work on December 25, Thursday and Friday of Holy Week, and Corpus Christi Day; provided further, that the Costa Rica workers shall be granted one day of rest in each seven, except during periods of emergency when all workers are required to work without a day of rest.

9. Workers admitted under this agreement shall be subject to the same rights and privileges with respect to promotions and general wage increases, and the same rights and privileges arising under applicable collective bargaining agreements as those accorded domestic workers engaged by the employer in the same occupations at the same place of employment.

10. (1) Subject to the provisions of paragraph (2) of this clause, workers shall be recruited for employment for a period of 180 days which may be extended with the approval of the Chairman of the War Manpower
Commission or his authorized representative as provided herein. The initial engagement between the worker and his first employer shall be for a period of not less than 90 days and during such period of employment, the worker shall be afforded an opportunity to work not less than 480 hours, but hours worked on Sundays or in excess of 10 hours in any 24 hour period shall not be included in this 480 hour guarantee. On the termination of this initial engagement, the period of employment may be renewed or extended by mutual agreement of the worker and the employer subject to the approval of the Chairman of the War Manpower Commission or his authorized representative; provided that such renewal or extension shall be made on terms no less favorable to the worker than those required by this agreement.

(2) Where the initial engagement of the worker is not renewed or extended and at the termination of such initial engagement, there is not available work with a new employer on terms no less favorable to the worker than those required by this agreement, then the worker shall be returned to Costa Rica by the Government of the United States.

11. Every employment contract to which a worker admitted under this agreement is a party shall contain provision for the deduction from his wages of fifty cents a day for each day for which he received in wages a sum of not less than three dollars. The sums so deducted shall be remitted to the National Bank of Costa Rica for the credit of the worker upon his return to Costa Rica. The sums so deducted shall be remitted at such times and in such manner as may be agreed upon between the Government of Costa Rica and the Chairman of the War Manpower Commission.

12. Workers shall have the right to discuss any problems of living or working conditions with their employers in accordance with procedures to be established by the employer. This shall not prevent the worker from using any appeals procedure which may be established by the War Manpower Commission.

13. At the expiration of the contract or any renewals thereof, the authorities of the United States shall consider the continued stay of the worker in the territory of the United States to be illegal from an immigration point of view, with the exception of cases of physical impossibility of the worker to return to Costa Rica and in that event only as long as such impossibility exists.
14. The Government of the United States, acting through the Chairman of the War Manpower Commission or his authorized representative, shall use its best efforts to return the workers to Costa Rica promptly upon expiration of the contracts or any renewal thereof. In the event that exigencies of the war create delays in the return of the workers, the Government of the United States acting through the Chairman of the War Manpower Commission or his authorized representative shall use its best efforts to continue the employment of the worker as provided in Section III, B, 2 of this agreement for such period as may be necessary until transportation facilities are available, but in no case longer than 6 months after the termination of the present hostilities.

IN WITNESS WHEREOF, we sign the present agreement in two originals, one in English for the Government of the United States of America and the other in Spanish for the Government of Costa Rica, in the city of San José, Costa Rica, this 20th day of May, 1944.

COSTA RICA

Agreement between the United States of America and Panama respecting general relations. Effectuated by exchange of notes signed at Washington May 18, 1942.

The Secretary of State to the Panamanian Ambassador

DEPARTMENT OF STATE
WASHINGTON
May 18, 1942

EXCELLENCY:

I have the honor to refer to the memorandum which the Ambassador of Panama left with the President of the United States on February 18, 1941[1] and to the Department's memoranda of July 8, July 18, and December 2, 1941[2] in reply thereto, regarding twelve points in the relations between Panama and the United States with respect to which positive action by this Government was requested.

Subsequent negotiations have happily led to agreement between our two Governments on all these points, I understand, in the form set forth below:

1. The Waterworks at Colón and Panama.

When the authority of the Congress of the United States shall have been obtained therefor, the Government of the United States will transfer to the Government of the Republic of Panama free of cost all of its rights, title and interest in the system of sewers and waterworks in the cities of Panama and Colon.

At that time the United States will renounce the right which it obtained in the first paragraph of Article VII of the Convention between the United States and the Republic of Panama signed at Washington, November 18, 1903, as modified by Article VI of the Treaty between the United States and Panama signed at Washington March 2, 1936, to acquire lands, buildings, water rights or other properties necessary for purposes of sanitation such as the collection or disposal of sewage and the distribution of water in the cities of Panama and Colón. The United States, likewise, will renounce the authority contained in Article VII of the above-mentioned convention of 1903 to impose and collect water rates and sewerage rates in those cities which shall be sufficient to provide for the payment of interest and amortization of the principal of the cost of said works. It is understood that there will be no refund to Panama of amortization and interest payments or charges of any kind based on the Convention of 1903 and on the contracts of September 30, 1910.

If the Panamanian Government so desires, the cities of Panama and Colon may continue to receive supplies of water from the Canal Zone

[1] [Not printed.]

33 Stat. 1817.

66347—47—Pt. 11—39
at the outlets now provided at the Canal Zone boundary at a reasonable rate to be agreed upon by both Governments.

Likewise, if the Panamanian Government so desires, the cities of Panamá and Colón may continue to use, to the extent prevailing at present and with the facilities now available, the sewage disposal services of the Canal Zone. The water rate to be agreed upon will include the cost of these services.

If at any time the Government of the Republic of Panama should desire to renounce the use in part of the water supply and sewerage facilities of the Canal Zone referred to above, the two Governments would agree upon the charges payable by the Republic of Panama for the use of such facilities as it may desire to retain.

It is understood that employees of the Panama Canal and the Panama Railroad Company residing in the Republic of Panama shall not be charged higher water rates than those charged other residents of Panamá and Colón, respectively, for similar services.

It should be pointed out that the turning over to the Government of the Republic of Panama of the physical properties of the water works and sewerage systems and the administration thereof, including the collection of the water rates does not in any way modify the existing arrangement for the responsibility of the public health services of the cities of Panamá and Colón as specified in the second paragraph of Article VII of the Convention between the United States of America and Panama, signed at Washington, November 18, 1903. Thus, the Republic of Panama will continue to pay only those costs of sanitary measures for which it has been responsible in the past.

This Government in continuing to maintain the health services in the cities of Panamá and Colón is confident that the Government of the Republic of Panama will fully cooperate with the appropriate Canal Zone officials in carrying out the agreement regarding increased participation of Panamanian personnel in sanitation activities in those cities as set forth in the exchange of notes accompanying the General Treaty of March 2, 1936, which in turn refer to the earlier proposal of October 1931.

2. *Railroad Lots in Panamá and Colón.*

The President will seek the authority of the Congress of the United States to transfer to the Republic of Panama free of cost all of its rights, title and interest to the lands belonging to or of which the Panama Railroad Company now has usufruct in the cities of Panamá and Colón which are not currently or prospectively needed for the maintenance, operation, sanitation and protection of the Panama Canal, or of its auxiliary works, or for the operation of the Panama railroad. The Panama Railroad Company will convey to the Republic of Panama those lands which it possesses within that portion of Manzanillo Island lying within the area bounded by a line described as follows: (See copy of map M 5036–3 transmitted with the Department's memorandum of July 8, 1941.)
Beginning at the point where the Canal Zone-City of Colón boundary line intersects the western shore line of the arm of Manzanillo Bay known as "Boca Chica" or "Folks River"; thence following the Canal Zone-City of Colón boundary line northerly to Eleventh Street and westerly on Eleventh Street to the Center of Front Avenue; thence northerly along the center of Front Avenue and its prolongation to the center of Second Street; thence easterly along the center of Second Street to the center of Bolivar Avenue; thence northerly along the center of Bolivar Avenue for a distance of 222 feet, more or less; thence easterly, approximately parallel to Second Street and generally following an existing sidewalk to the center of Paseo del Centenario (Central Avenue); thence southerly along the center of Paseo del Centenario (Central Avenue) for a distance of 71 feet, more or less, to a point opposite the prolongation of a cyclone fence which constitutes the southern boundary of the Cristobal School playground; thence easterly, northerly, and northeasterly, to, and along the above-mentioned fence and its prolongation to the center of Coconut Alley; thence southerly along the center of Coconut Alley to the center of Second Street; thence easterly along the center of Second Street to the center of Melendez Avenue ("G" Street); thence southerly along the center of Melendez Avenue ("G" Street) to the center of Seventh Street; thence easterly along the center of Seventh Street to the center of Avenida de Roosevelt; thence southerly along the center of Avenida de Roosevelt to the center of Ninth Street; thence easterly along the center of Ninth Street and its prolongation to the Canal Zone-City of Colón boundary at the mean low water line on the westerly shore of Manzanillo Bay; thence following along the above-mentioned boundary in a southerly and westerly direction to a point where said boundary intersects the prolongation of the face of the curb on the westerly side of Melendez Avenue ("G" Street); thence northerly along said prolongation and the face of the curb on the westerly side of Melendez Avenue ("G" Street) to its intersection with face of curb on the southerly side of Sixteenth Street prolonged; thence westerly and southerly along face of curb on southerly side of Sixteenth Street prolonged to its intersection with the center line of Domingo Diaz Avenue prolonged; thence southerly along the prolonged center line of Domingo Diaz Avenue to its intersection with the Canal Zone-City of Colón boundary at the mean low water line on the northerly shore of Folks River; thence westerly and southerly along said boundary to the point of beginning, excepting, however, lot No. 22, block No. 26 as shown on Panama Canal drawing S-6104-78, sheet 65, and lot No. 1189 as shown on Panama Canal drawing S-6104-78, sheet 16, which lie within the above-described area.

The Panama Railroad Company will retain in the city of Panamá as an area necessary for its operations those lands now occupied by
passenger and freight terminals with appurtenant tracks and yards. The remaining areas now in possession of the Panama Railroad Company in the city of Panamá will be conveyed to the Republic of Panama. (See copy of map transmitted with the Department’s memorandum of July 8, 1941.)

3. The commissaries and post exchanges.

The Government of the United States and the Government of the Republic of Panama, in accordance with the exchange of notes accompanying the Treaty between them signed at Washington on March 2, 1936, “will continue to cooperate in all proper ways . . . to prevent smuggling into territory under the jurisdiction of the Republic of goods imported into the Canal Zone” and for that purpose it is agreed that the Governor of the Panama Canal will appoint a representative to meet with a representative appointed by the Government of the Republic in order that regular and continuing opportunity may be afforded for mutual conference and helpful exchange of views bearing on this question.

4. The construction of a tunnel or bridge to allow transit under or over the Canal at Balboa.

The Government of the United States is well aware of the importance to the Government and the people of Panama of constant and rapid communication across the Panama Canal at Balboa and is willing to agree to the construction of a tunnel under or a bridge over the Canal at that point, when the present emergency has ended. Pending the carrying out of this project, the Government of the United States will give urgent attention, consistent with the exigencies of the present emergency, to improving the present ferry service.

5. Jurisdiction over roads and highways in Panamanian Territory.

The United States shall complete the construction at its own expense of the highways described below, under the conditions and with the materials specified:

Highway A-3. (Shall extend from Piifa on the Atlantic side of the Isthmus to the Canal Zone boundary at the Rio Providencia. It shall be at least ten feet in width and constructed of macadam.)

Extension of the Trans-Isthmian Highway following the line of the P-8 road. (Specifications shall be the same as for the Trans-Isthmian Highway. The extension shall start at Madrinal, by-passing Madden Dam by a bridge over the Chagres River below the Dam to connect with the P-8 road at Roque and shall extend the P-8 road from Pueblo Nuevo into Panama City. It is understood that the pavement of the bridge over the Chagres River will be located above the elevation established as the Canal Zone boundary.)

Upon the completion of these highways, the Government of the United States will assume the responsibility for any necessary post construction operations, that is, the performance of work necessary to perfect the original construction until such time as the roads become stabilized.

The Government of Panama guarantees that all roads under its jurisdiction used periodically or frequently by the armed forces of
the United States will be well and properly maintained at all times. The Government of Panama will ask for the cooperation of the Government of the United States in the performance of repair and maintenance work on the said roads whenever it deems necessary such cooperation in order to fulfill the aforesaid guarantee such as, for example, in the case of emergencies or situations which require prompt action.

The Government of the United States will bear one-third of the total annual maintenance cost of all Panamanian roads used periodically or frequently by the armed forces of the United States, such cost to cover the expense of any wear or damage to roads caused by movements related to defense activities. The amount payable by the United States will be based upon accounts presented annually by the Republic of Panama giving in detail the total annual expenditures made by it on each highway used periodically or frequently by the armed forces of the United States and upon accounts similarly presented by the Government of the United States giving in similar detail the expenditures made by that Government in response to requests from the Government of Panama as set forth above. In the event that the Government of the United States has rendered cooperation in the maintenance of the said roads, the expenses incurred by that Government in so doing will be credited toward the share of the United States in the total maintenance of the roads under the jurisdiction of Panama.

In consideration of the above obligations and responsibilities of the United States, the Government of the Republic of Panama grants the right of transit for the routine movement of the members of the armed forces of the United States, the civilian members of such forces and their families, as well as animals, animal-drawn and motor vehicles employed by the armed forces or by contractors employed by them for construction work or others whose activities are in any way related to the defense program, on roads constructed by the United States in territory under the jurisdiction of the Republic of Panama and on the other national highways which place the Canal Zone in communication with the defense areas and of the latter with each other. It should be understood that the United States will take at all times the precautions necessary to avoid, if possible, interruptions of transit in the Republic of Panama.

All roads constructed by the United States in the territory under the jurisdiction of the Republic of Panama shall be under the jurisdiction of Panama. As to those secondary roads constructed by the United States for the purpose of giving access to any defense site, Panama grants to the military authorities of the United States the right to restrict or prohibit public travel on such roads within a reasonable distance from such sites if such restriction or prohibition is necessary to the military protection of such sites. It is understood that such restriction or prohibition is without prejudice to the free access of the inhabitants established within the restricted areas to their respective properties. It is also understood that such restriction
or prohibition is not to be exercised on any part of any main highway.

The Government of the United States is aware of the immigration policies of the Republic of Panama as stated in Article XXIII of the Constitution of that Republic, promulgated on January 2, 1941 and, although jurisdiction over immigration into the Canal Zone rests solely with the Government of the United States, that Government will cooperate to the extent feasible under present circumstances in meeting the expressed policy of Panama in this matter. Specifically, the Government of the United States will endeavor so far as practical to fill the needs for labor in the Canal Zone with classes of persons whose immigration is permitted by the Republic of Panama and will forbid the entry into the territory of the Republic, except as may be necessary on brief routine official business, of those persons whom Canal Zone authorities have found or may find it necessary to introduce into the Canal Zone but whose immigration into the Republic is prohibited by the Republic of Panama. Such persons will be repatriated when their services are no longer required.

7. Desire of the Panamanian Government that our military and Zone police be armed only with billies while in the territory of Panama.
The Government of the United States agrees that only the commissioned officers of the military police and the commissioned officers of the shore patrols of the United States when on duty in the cities of Panamá and Colón may carry side arms. It agrees that members of the Canal Zone municipal police may not carry side arms of any sort while in the Republic of Panama, and similarly, the Government of the Republic of Panama will agree that members of the police of the Republic of Panama shall not carry side arms while in the Canal Zone, except when the latter pass through the Zone in transit to other territory of the Republic.

The Government of the United States agrees that electrical energy, whenever an excess beyond the needs of the United States is available in commercial quantities at the generating station of the Panama Canal at Madden Dam, will be furnished upon request of the Panamanian Government, to the cities of Panamá and Colón at a price and at points to be agreed upon between the two Governments.

The Government of the United States will, after the necessary funds have been obtained by appropriation from the Congress, liquidate the credit of $2,500,000 made available to the Republic of Panama by the Export-Import Bank for the construction of Panama's share of the Chorrera-Rio Hato road.

10. The moving of the railroad station at Panamá.
The Government of the United States agrees to comply with the wishes of the Republic of Panama regarding the removal from their present site of the terminal facilities of the Panama Railroad in
Panamá including the station, yards and other appurtenances. This agreement, however, is subject to the making available without cost to the Government of the United States by the Republic of Panama of a new site deemed suitable for the purpose by the two Governments.

11. *Desire of the Panamanian Government for an indemnity in case traffic is interrupted on account of our troop movements.*

The Government of the United States is not prepared at this time to enter into any formal agreement regarding indemnities for the interruption of traffic on the highways of the Republic of Panama. If, however, serious interruptions of traffic should occur, the Government of the United States will be pleased to examine in a friendly spirit any claims advanced by the Government of the Republic of Panama.

12. *The desire of the Panamanian Government for three gasoline or oil tanks at Balboa.*

The Government of the United States will make available to the Republic of Panama a right-of-way beginning in the port of Balboa and ending at the Canal Zone-City of Panama boundary at a point to be agreed upon by the two Governments for the construction of a petroleum pipeline. It will also agree that the facilities of the Panama Canal for discharging bulk petroleum products from ships berthed at Balboa and for the direction of such products into the pipeline above-mentioned would be made available in regular turn to the Republic of Panama at a reasonable cost. It should be understood that the Republic of Panama would bear the cost of the construction of the pipeline as well as pay for any damage which might accrue to the property of the United States as the result of the construction or maintenance thereof. The cost of pumping such petroleum products from Balboa to the Canal Zone-City of Panama boundary would be borne by the Republic of Panama which would install and maintain the necessary pumping facilities for the purpose.

I should appreciate it if Your Excellency would confirm my understanding of the agreement reached as set forth above.

Accept, Excellency, the renewed assurances of my highest consideration.

Cordell Hull

His Excellency

Señor Don Ernesto Jaén Guardia,
Ambassador of Panama.

MR. SECRETARY:

With the greatest and most honored pleasure I acknowledge receipt of Your Excellency's note dated today, May 18, 1942, with reference to the memorandum which the then Ambassador of Panama near Your Excellency's enlightened Government left with His Excellency the President of the United States on February 18, 1941 and to the memorandums of the Department of State dated July 8, July 18 and December 2, 1941, which concern the twelve points covering certain Panamanian aspirations regarding which positive action was requested of the Government of the United States.
It gives me the greatest honor to inform Your Excellency that after subsequent negotiations a mutual agreement has happily been reached between our two Governments respecting the twelve points as they were set forth in Your Excellency's note which becomes a most important document for us and for future generations since it embodies the acceptance by the Government of the United States of the equitable and just aspirations of the Government of my country and, at the same time, makes it obvious that the Government of Panama is prepared at any time to give complete and full cooperation to the Government of the United States in the defense of the inter-ocean route which has divided the Panamanian isthmus in two.

This document constitutes an eloquent and noble example to the world that our Governments walk by the path of the democratic life in close and intimate brotherhood, thus satisfying the desires of a real Pan American union expressed by the colossal figure of Simón Bolívar more than one hundred years ago and so eloquently and brilliantly renewed in this era by the eminent personality of Franklin Delano Roosevelt through his Good Neighbor policy.

Accept, Excellency, once more, the sincere testimonies of my highest consideration and esteem.

Agreement between the United States of America and Haiti respecting a health and sanitation program. Effected by exchange of notes signed at Port-au-Prince June 29 and July 12, 1944.

The American Ambassador to the Haitian Secretary of State for Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA
Port-au-Prince, Haiti
June 29, 1944.

Excellency:

I have the honor to refer to President Lescot's memorandum dated April 6, 1942,[1] left by him with the Acting Secretary of State in Washington, and to Mr. Welles' reply of April 7, relative to the initiation of a cooperative program of health and sanitation in Haiti. Your Excellency will recall that the United States Government, in contributing $350,000 toward this program and subsequently making available an additional $150,000, to be used for the anti-yaws aspect of it, was acting in accordance with Resolution XXX regarding health and sanitary conditions, adopted by the Third Meeting of the Ministers of Foreign Affairs of the American Republics at Rio in 1942.

I now have the honor to state that my Government is prepared, if Your Excellency's Government so desires, to make available, through the Institute of Inter-American Affairs, an additional sum of $300,000 for the purpose of cooperating with the Government of Haiti in extending the aforementioned program of health and sanitation on the understanding that the Government of Haiti for its part will contribute the sum of $150,000. This extension would terminate on October 1, 1947 in so far as the funds contributed by the United States are concerned.

The type of work and specific projects to be undertaken and the cost thereof and the methods and procedures to be employed in conducting the extended program are to be mutually agreed to by the appropriate official of the Government of Haiti and an appropriate official of The Institute of Inter-American Affairs.

The Government of the United States will continue to furnish such experts as are considered necessary in order to collaborate with Your Excellency's Government in extending the health and sanitation program.

All projects and property acquired in connection with the program shall be the property of the Government of Haiti.

[1] [Not printed.]
No project will be undertaken that will require supplies or materials the procurement of which would handicap any phase of the war effort.

I shall be glad if Your Excellency will be so good as to confirm to me your approval of this general proposal with the understanding that the details of the program will be a subject of further discussion and agreement as provided for herein.

Accept, Excellency, the renewed assurance of my high consideration.

Mr. Ambassador:

I have the honor to acknowledge receipt of note no. 32, of June 29 last, in which Your Excellency informs me that with a view to continuing its cooperation with the Haitian Government in the public health program undertaken in Haiti since 1942, the Government of the United States of America is prepared to make available to the Republic of Haiti an additional sum of $300,000 through the Institute of Inter-American Affairs.

GERARD LESCOT

His Excellency
Orme Wilson,
Ambassador Extraordinary and Plenipotentiary of the United States of America,
Port-au-Prince.

The American Chargé d’Affaires ad interim to the New Zealand Prime Minister

LEGATION OF
UNITED STATES OF AMERICA
Wellington, New Zealand.
November 3, 1942.

Sir:

I have the honor to refer to my note dated February 21, 1942 \[1\] and to your note dated April 13, 1942 \[2\] in reply with regard to changes under consideration by my Government concerning vessels taken as prizes by United States Naval forces in foreign waters far from a United States port.

The changes in prize court procedure proposed by my Government are contained in Public Law 704—77th Congress, an Act to facilitate the disposition of prizes captured by the United States during the present war, and for other purposes, which was approved on August 18, 1942. \[2\] A copy of the Act is enclosed.

Section 3 of the Act provides that the authority contained in the Act shall not be exercised over prizes brought into the territorial waters of a belligerent, and that prizes shall not be taken or appropriated within such territorial waters for the use of the United States unless the government having jurisdiction over such territorial waters consents thereto.

Section 5 of the Act provides for the exercise abroad by special prize commissioners of the duties prescribed for such commissioners and such additional duties as the district courts of the United States may deem necessary or proper for carrying out the purposes of the Act. The duties of prize commissioners are set out in Title 34, U.S.C., Section 1138, which reads as follows:

"§ 1138. Duties of prize commissioners. The prize commissioners, or one of them, shall receive from the prize master the documents and papers, and inventory thereof, and shall take the affidavit of the prize master required by section 1134 of this title, and shall forthwith take the testimony of the witnesses sent in, separate from each other, on interrogatories prescribed by the Court, in the manner usual in prize courts; and the witnesses

\[1\] [Not printed.]
\[2\] [See also proclamation of April 1, 1943 (57 Stat. 736).]
shall not be permitted to see the interrogatories, documents, or papers, or to consult with counsel, or with any persons interested without special authority from the court; and witnesses who have the rights of neutrals shall be discharged as soon as practicable. The prize commissioners shall also take depositions de bene esse of the prize crew and others, at the request of the district attorney, on interrogatories prescribed by the court. They shall also, as soon as any prize property comes within the district for adjudication, examine the same, and make an inventory thereof, founded on an actual examination, and report to the court whether any part of it is in a condition requiring immediate sale for the interests of all parties, and notify the district attorney thereof; and if it be necessary to the examination or making of the inventory that the cargo be unladen, they shall apply to the court for an order to the marshal to unladen the same, and shall, from time to time, report to the court anything relating to the condition of the property, or its custody or disposal, which may require any action by the court, but the custody of the property shall be in the marshal only. They shall also seasonably return into court, sealed and secured from inspection, the documents and papers which shall come to their hands, duly scheduled and numbered, and the other preparatory evidence, and the evidence taken de bene esse, and their own inventory of the prize property; and if the captured vessel, or any of its cargo or stores, are such as in their judgment may be useful to the United States in war, they shall report the same to the Secretary of the Navy."

I have been instructed by my Government to request the Government of New Zealand, in view of the above provisions of law, to give its consent to the exercise within its jurisdiction of the authority contained in the Act. Upon the receipt of such consent, appropriate measures will be taken by my Government in accordance with Section 7 of the Act to accord reciprocal privileges in prize matters to the Government of New Zealand. I would therefore be grateful to have the reply of the Government of New Zealand in this matter at as early a moment as possible for communication to my Government.

I have the honor to be, Sir

Your obedient servant,

RAYMOND E. COX,
Chargé d'Affaires a.i.

Enclosure:
Copy of Act.

PETER FRASER,
Prime Minister of the Dominion of New Zealand,
Wellington.
The New Zealand Prime Minister to the American Chargé d'Affaires 
ad interim

DOMINION OF NEW ZEALAND

Prime Minister's Office,
Wellington,
28th January, 1943.

Sir,

I have the honour to acknowledge the receipt of your note of November 3rd requesting the consent of the New Zealand Government to the exercise within its jurisdiction of the authority contained in the cited Public Law 704 - 77th Congress and offering, upon receipt of such consent, reciprocal privileges in prize matters.

I note that the cited Act is described as "an act to facilitate the disposition of prizes captured by the United States during the present war, and for other purposes". I take it that the arrangement will, therefore, apply for the period of the co-belligerency of the United States of America and of the Dominion of New Zealand, and for such period thereafter as may be necessary to conclude current cases.

I have to advise that consent is given, as requested, to the exercise in the Dominion of New Zealand and its dependencies, including Territorial Waters, of the authority contained in the Act, and to advise that the reciprocal privileges offered would be appreciated.

I have the honour to be, Sir,

Your obedient servant,

P. Fraser,

Prime Minister.

Agreements between the United States of America and France respecting mutual aid, including agreement relating to principles applying to mutual aid in the prosecution of the war against aggression and agreement relating to supplies and services, signed at Washington February 28, 1945, effective February 28, 1945; agreement relating to principles applying to the provision of aid to the armed forces of the United States, effected by exchange of notes signed at Washington February 28, 1945, effective from June 6, 1944. And accompanying memorandum and exchanges of letters, signed at Washington February 28, 1945.

PRINCIPLES APPLYING TO MUTUAL AID IN THE PROSECUTION OF THE WAR AGAINST AGGRESSION

Preliminary Agreement between the United States of America and the Provisional Government of the French Republic.

Whereas the Government of the United States of America and the Provisional Government of the French Republic declare that they are engaged in a cooperative undertaking, together with every other nation or people of like mind, to the end of laying the bases of a just and enduring world peace securing order under law to themselves and all nations;

And whereas the Government of the United States of America and the Provisional Government of the French Republic, as signatories of the Declaration by United Nations of January 1, 1942, have subscribed to a common program of purposes and principles embodied in the Joint Declaration, known as the Atlantic Charter, made on August 14, 1941, by the President of the United States of America and the Prime Minister of the United Kingdom of Great Britain and Northern Ireland;

And whereas the President of the United States of America has determined, pursuant to the Act of Congress of March 11, 1941, that the defense of any French territory not under the control of the Axis is vital to the defense of the United States of America;

And whereas the United States of America has extended and is continuing to extend to the Provisional Government of the French Republic aid in resisting aggression;

And whereas it is expedient that the final determination of the terms and conditions upon which the Provisional Government of the French Republic receives such aid and of the benefits to be received by the United States of America in return therefor should be deferred until the extent of the defense aid is known and until the progress of events makes clearer the final terms and conditions and benefits which will be in the mutual interests of the United States of America.
and France and will promote the establishment and maintenance of world peace;

And whereas the Government of the United States of America and the Provisional Government of the French Republic are mutually desirous of concluding now a preliminary agreement in regard to the provisions of defense aid and in regard to certain considerations which shall be taken into account in determining such terms and conditions and the making of such an agreement has been in all respects duly authorized, and all acts, conditions and formalities which it may have been necessary to perform, fulfill or execute prior to the making of such an agreement in conformity with the laws either of the United States of America or of France have been performed, fulfilled or executed as required;

The undersigned, being duly authorized by their respective Governments for that purpose, have agreed as follows:

**Article I**

The Government of the United States of America will continue to supply the Provisional Government of the French Republic with such defense articles, defense services, and defense information as the President of the United States of America shall authorize to be transferred or provided.

**Article II**

The Provisional Government of the French Republic will continue to contribute to the defense of the United States of America and the strengthening thereof and will provide such articles, services, facilities or information as it may be in a position to supply.

**Article III**

The Provisional Government of the French Republic will not without the consent of the President of the United States of America transfer title to, or possession of, any defense article or defense information transferred to it under the Act of March 11, 1941 of the Congress of the United States of America or permit the use thereof by anyone not an officer, employee, or agent of the Provisional Government of the French Republic.

**Article IV**

If, as a result of the transfer to the Provisional Government of the French Republic of any defense article or defense information, it becomes necessary for that Government to take any action or make any payment in order fully to protect any of the rights of a citizen of the United States of America who has patent rights in and to any such defense article or information, the Provisional Government of the French Republic will take such action or make such payment when requested to do so by the President of the United States of America.
The Provisional Government of the French Republic will return to the United States of America at the end of the present emergency, as determined by the President of the United States of America, such defense articles transferred under this Agreement as shall not have been destroyed, lost or consumed and as shall be determined by the President to be useful in the defense of the United States of America or of the Western Hemisphere or to be otherwise of use to the United States of America.

In the final determination of the benefits to be provided to the United States of America by the Provisional Government of the French Republic full cognizance shall be taken of all property, services, information, facilities, or other benefits or considerations provided by the Provisional Government of the French Republic subsequent to March 11, 1941, and accepted or acknowledged by the President on behalf of the United States of America.

In the final determination of the benefits to be provided to the United States of America by the Provisional Government of the French Republic in return for aid furnished under the Act of Congress of March 11, 1941, the terms and conditions thereof shall be such as not to burden commerce between the two countries, but to promote mutually advantageous economic relations between them and the betterment of worldwide economic relations. To that end, they shall include provision for agreed action by the United States of America and France, open to participation by all other countries of like mind, directed to the expansion, by appropriate international and domestic measures, of production, employment and the exchange and consumption of goods, which are the material foundations of the liberty and welfare of all peoples; to the elimination of all forms of discriminatory treatment in international commerce, and to the reduction of tariffs and other trade barriers; and, in general, to the attainment of all the economic objectives set forth in the Joint Declaration made on August 14, 1941, by the President of the United States of America and the Prime Minister of the United Kingdom.

At an early convenient date, conversations shall be begun between the two Governments with a view to determining, in the light of governing economic conditions, the best means of attaining the above-stated objectives by their own agreed action and of seeking the agreed action of other likeminded Governments.

This Agreement shall take effect as from this day's date. It shall continue in force until a date to be agreed upon by the two Governments.
Signed at Washington in duplicate this 28th day of February, 1945.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA:

JOSEPH C. GREW

FOR THE PROVISIONAL GOVERNMENT OF THE FRENCH REPUBLIC:

AGREEMENT

Between the United States of America and the Provisional Government of the French Republic

As parties signatory to the United Nations Declaration of January 1, 1942, the Government of the United States of America and the Provisional Government of the French Republic have pledged themselves to employ their full resources, military and economic, against those nations with which they are at war. In the preliminary agreement of February 28, 1945 between the Government of the United States of America and the Provisional Government of the French Republic, on the principles applying to mutual aid, each contracting government undertakes to provide the other with such articles, services, facilities and information useful in the prosecution of their common war undertaking as each may be in a position to supply.

The Government of the United States of America and the Provisional Government of the French Republic desire to insure the continuing provision of such articles, services, facilities or information without interruption owing to any uncertainty as to the date when the military resistance of the common enemy may cease; and desire to insure further that such articles, services, facilities or information as shall be agreed to be furnished by the United States for the purpose of providing war aid to the Provisional Government of the French Republic shall be disposed of and transferred, following a determination by the President that such aid is no longer necessary to the prosecution of the war, in an orderly manner which will best promote their mutual interests.

For the purpose of attaining the above-stated objectives, the Government of the United States of America and the Provisional Government of the French Republic agree as follows:

Article I

All aid undertaken to be provided by the United States of America under this agreement shall be for Continental France and shall be made available under the authority and subject to the terms and conditions of the Act of Congress of March 11, 1941, as amended and any appropriation acts thereunder.

Article II

The United States of America will transfer or render such of the articles and services set forth in Schedule 1 annexed hereto, to the Provisional Government of the French Republic, as the President of
the United States of America may authorize to be provided prior to a
determination by the President that such articles and services are no
longer necessary to the prosecution of the war. Any articles and
services set forth in Schedule 1 transferred or rendered to the Provi-
sional Government of the French Republic prior to such determination
shall be provided upon terms the final determination of which shall be
deferred until the extent of lend-lease aid provided by the United
States of America and of reciprocal aid provided by the Provisional
Government of the French Republic is known and until the progress
of events makes clearer the final terms, conditions and benefits which
will be in the mutual interests of the United States of America and
France, in accordance with the terms of the preliminary agreement of
February 28, 1945, and which will promote the establishment and
maintenance of world peace.

Article III

After a determination by the President of the United States of
America that any of the articles and services set forth in Schedule 1
are no longer necessary to the prosecution of the war, the United
States of America will transfer or render, within such periods of
time as may be authorized by law, and the Provisional Government
of the French Republic will accept, such articles and services as shall
not have been transferred or rendered to the Provisional Government
of the French Republic prior to said determination.

The Provisional Government of the French Republic undertakes
to pay the United States of America in dollars for the articles and
services transferred or rendered under the provisions of this Article
in accordance with the terms and conditions prescribed in Schedule 1
annexed hereto.

Article IV

The United States of America undertakes to transfer to the Provi-
sional Government of the French Republic, within such periods of
time as may be authorized by law, and the Provisional Government
of the French Republic agrees to accept, the defense articles set forth
in Schedule 2, annexed hereto. The Provisional Government of the
French Republic undertakes to pay the United States of America
in dollars for the articles transferred under the provisions of this
Article in accordance with the terms and conditions prescribed in
said Schedule 2.

Article V

Changes may be made from time to time in the items set forth
in Schedules 1 and 2 annexed hereto, by mutual agreement between
the United States of America and the Provisional Government of
the French Republic.

The Provisional Government of the French Republic shall be re-
leased from its obligation to accept articles or services, under Article
III and Article IV above, upon payment to the Government of the
United States of America of any net losses to the Government of the United States of America including contract cancellation charges resulting from the determination of the Provisional Government of the French Republic not to accept such articles or services.

Delivery of any articles or services, under the provisions of Article III and Article IV, may be withheld by the Government of the United States of America without cost to the Provisional Government of the French Republic whenever the President determines that such action is in the national interest.

**Article VI**

Any amounts paid to the Government of the United States of America pursuant to the terms of this agreement shall be deemed to be among the benefits or considerations provided by the Provisional Government of the French Republic pursuant to Article VI of the preliminary agreement of February 28, 1945.

**SCHEDULE I**

The terms and conditions upon which the articles and services listed below are to be transferred by the United States of America to the Provisional Government of the French Republic after the determination by the President of the United States that such aid is no longer necessary in the prosecution of the war, in accordance with Article III hereof, are as follows:

A. Unless otherwise provided by mutual agreements, transfers of articles shall take place, and title and risk of loss shall pass to the Provisional Government of the French Republic, immediately upon loading of the articles on board ocean vessel in a United States port, provided, that those articles which, prior to the end of the periods authorized by law, shall have been contracted for by the United States Government and shall not have been transferred to the Provisional Government of the French Republic as above set forth, shall be deemed to be transferred, and title and risk of loss shall pass to the Provisional Government of the French Republic, upon the last day of such periods.

B. The amount which the Provisional Government of the French Republic shall pay to the United States of America for articles transferred under the provisions of Article III of this Agreement, shall be the total purchase price, which shall be the sum of the following items, as determined by the President of the United States, or an officer of the United States Government designated by him:

1. The price of the articles, which shall be determined as follows:

   (a) In the case of standard supplies the price shall be the current sale price or the adjusted contract price, whichever is lower; provided, that in the event the current sale price is not determined, the price shall be the adjusted contract price less five per cent of such adjusted contract price.
In the case of non-standard supplies which shall have been delivered to the United States by the contractor prior to thirty days following the date of a determination by the President that such articles are no longer necessary in the prosecution of the war, the price shall be the current sale price or the adjusted contract price, whichever is lower; provided, that in the event the current sale price is not determined, the price shall be the adjusted contract price less five per cent of such adjusted contract price. In the case of non-standard supplies which shall have been delivered to the United States by the contractor subsequent to thirty days following the aforesaid date of the determination by the President, the price shall be the adjusted contract price.

(b) The determination of the said price of supplies by the President, or an officer of the United States Government designated by him, shall be made in accordance with the following definitions:

The term "standard supplies" shall mean those supplies which have been contracted for by the United States Government in accordance with standard United States specifications. The term "non-standard supplies" shall mean those supplies which have been contracted for by the United States Government in accordance with non-standard United States specifications. It is understood that those supplies which are standard except for minor non-standard features, attachments or adjustments shall be deemed to be standard supplies.

The term "adjusted contract price" shall mean the contract purchase price f.o.b. point of origin paid by the United States Government to the contractor, less five per cent of such contract purchase price, or, if such contract purchase price cannot be determined for the particular supplies transferred, the estimated average contract purchase price f.o.b. point of origin paid by the United States Government for similar supplies during a period of three months preceding the aforesaid date of the determination by the President of the United States, less five per cent of such average contract purchase price.

The term "current sale price" of particular standard or non-standard supplies transferred to the Provisional Government of the French Republic shall mean the price at which similar standard supplies of comparable quality and in comparable quantity have been sold by the United States Government, at or about the time of transfer of the particular supplies to the Provisional Government of the French Republic, to any foreign or domestic buyer. It is understood that "foreign or domestic buyer" shall be deemed to exclude United States Government agencies, States and political sub-divisions thereof, United States public, charitable, or educational institutions, relief organizations, and any persons or organizations which may purchase supplies on special financial terms provided by law.

2. The sum of any costs for inland transportation, storage, insurance and other charges incidental to delivery of the articles at shipside,
incurred by the United States, as determined by the President of the
United States or an officer designated by him. The United States will
inform the Provisional Government of the French Republic from time
to time of the amounts of such costs incurred and the bases on which
they have been determined.

C. Payment of the total purchase price for all articles transferred
under the provisions of Article III of this Agreement, shall be made
by the Provisional Government of the French Republic within a period
of thirty years after the execution of this agreement.

1. Payment of the total purchase price of any article so transferred
shall be made in equal annual installments the first of which shall
become due and payable on July 1, 1946, or on the first of July next
following the day on which such article shall have been transferred,
whichever is later.

2. Nothing herein shall be construed to prevent the Provisional
Government of the French Republic from anticipating the payment of
any of such installments or any part thereof.

3. If, by agreement of the Provisional Government of the French
Republic and of the United States of America, it is determined that,
because of extraordinary and adverse economic conditions arising dur-
ing the course of payment, the payment of a due installment would not
be in the joint interest of the Provisional Government of the French
Republic and the United States, payment may be postponed for an
agreed upon period.

D. Interest on the unpaid balances of the total purchase price deter-
mined under paragraph B above for any article so transferred, shall
be paid by the Provisional Government of the French Republic at the
fixed rate of two and three-eighths per cent per annum, accruing from
the first day of July, 1946 or from the first day of July next following
the day on which such article shall have been transferred, whichever
is later. Interest shall be payable annually, the first payment to be
made on the first day of July next following the first day of July on
which such interest began to accrue.

E. The Provisional Government of the French Republic shall pay
to the United States the cost of the services listed in this schedule to
the extent that such services shall be rendered to the Provisional Gov-
ernment of the French Republic following the determination by the
President that such services are no longer necessary to the prosecution
of the war. The cost of such services, so rendered, shall be determined
by the President of the United States and shall be paid by the Provi-
sional Government of the French Republic in accordance with the same
terms as provided for the payment of the total purchase price of the
articles provided hereunder, as set forth in Section C above. Interest
shall be paid on the unpaid balances of the cost of such services in
accordance with the terms of section D hereof.

The total purchase price value of all the articles and services in this
schedule I shall not exceed $1,675,000,000. Such articles and services
and their estimated cost to the Government of the United States are as follows:

2. The Provisional Government of the French Republic shall pay to the United States of America, upon transfer, an amount equivalent to twenty (20) per cent of the total purchase price, as defined in Schedule 1 above, of the articles transferred to the Provisional Government of the French Republic under the terms of Article IV of this agreement.

3. The Provisional Government of the French Republic shall pay the United States of America the balance of the total purchase price of the articles transferred under Article IV of this agreement on or before the last day of the thirtieth year following the day upon which this agreement is executed. Payment of the balance of the total purchase price with regard to each article so transferred shall be made in equal annual installments, the first of which shall become due and payable on July 1, 1946, or on the first of July next following the day on which such article shall have been transferred, whichever is later.

4. Nothing herein shall be construed to prevent the Provisional Government of the French Republic from anticipating the payment of any of such installments, or of any part thereof.

5. If by agreement of both governments it is determined that because of extraordinary adverse economic conditions arising during the course of payment, the payment of a due installment would not be in the joint interest of the Provisional Government of the French Republic and the United States of America, payment may be postponed for an agreed-upon period.

6. The cost or expenses for overseas transportation of any of the articles listed in this Schedule 2 are included in the item “Freight Charges” listed in Schedule 1 and shall be paid by the Provisional Government of the French Republic on the terms specified in that

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA:

JOSEPH C. GREE

FOR THE PROVISIONAL GOVERNMENT OF THE FRENCH REPUBLIC:

H BONNET       JEAN MONNET.

The French Ambassador and the French Commissaire en Mission to the Acting Secretary of State

WASHINGTON, February 28, 1945.

Sir:

In the United Nations' declaration of January 1, 1942, the contracting governments pledged themselves to employ their full resources, military or economic, against those nations with which they are at war; and in the Preliminary Agreement of February 28, 1945 between the Government of the United States and the Provisional Government of France on the principles applying to mutual aid, each contracting government undertakes to provide the other with such articles, services, facilities, or information useful in the prosecution of their common war effort as it might be in a position to supply. It is the understanding of the Provisional Government of France that the general principle to be followed in providing mutual aid as set forth
in the said Agreement of February 28, 1945 is that the war production and the war resources of both Nations should be used by each in ways which most effectively utilize the available materials, manpower, production facilities, shipping space, and other resources.

With a view, therefore, to supplementing the said Agreement of February 28, 1945 and the Memorandum relating to Lend-Lease and Reciprocal Aid and the Minutes attached thereto, agreed and exchanged by the United States and French representatives on August 25, 1944,[1] we have the honor to set forth below the understanding of the Provisional Government of France of the principles and procedures applicable to the provision of aid by the Provisional Government of France to the armed forces of the United States and the manner in which such aid will be correlated with the maintenance of those forces by the United States Government.

1. The Provisional Government of France, retaining the right of final decision, in the light of its own potentialities and responsibilities, will provide the United States or its armed forces with the following types of assistance as reciprocal aid, when and to the extent that it is found that they can most effectively be procured in continental France.

(A) Military equipment, munitions, and military and naval stores;

(B) Other supplies, materials, facilities, services, or information for United States forces, except for the pay, allowances, and other emoluments of such forces and the administrative expenses of American Missions;

(C) Supplies, materials, facilities, services, or information except for the wages and salaries of United States citizens, needed in the construction of military projects, tasks, and similar capital works required in the common war effort;

(D) Settlement and payment of appropriate civil claims arising in French territory against the United States and its armed forces, employees, and officers;

(E) Ship ballast, in order to assist in obtaining maximum efficiency in the use of shipping; provided, however, that any net proceeds resulting from the sale of such ballast shall be paid to the Provisional Government of France;

(F) Such other supplies, materials, facilities or services as may be agreed upon as necessary in the prosecution of the war, including materials for war production, requested by the United States to be exported from continental France to the United States of America.

2. The practical application of the principles formulated in this note, including the procedure by which requests for aid by either Government are made and acted upon, shall be worked out as occasion may require by agreement between the two Governments, acting when possible through their appropriate military or civilian administrative authorities. Requests by the United States Government for such aid will be presented by duly authorized authorities of the United States

[1] [Not printed.]
to official agencies of the Provisional Government of France which will be designated or established at convenient locations for the purpose of facilitating the provision of reciprocal aid.

3. It is the understanding of the Provisional Government of France that all such aid, as well as other aid, including information, received under Article VI of the Preliminary Agreement of February 28, 1945, accepted by the President of the United States or his authorized representatives from the Provisional Government of France will be received as a benefit to the United States under the Act of March 11, 1941. Insofar as circumstances will permit, appropriate record of aid received under this arrangement will be kept by each Government.

In order to facilitate the procurement of the supplies, materials, facilities, information and services described in Section 1 hereof by permitting their direct purchase rather than their procurement by the methods contemplated in Section 2 hereof during the period of military operation and until such time as the official agencies of the Provisional Government of France are able to provide such reciprocal aid in the manner contemplated in Section 2, the Provisional Government of France agrees to make available to designated officers of the United States Government such French currency or credits as may be needed for the purpose. The necessary arrangements will be made by the appropriate authorities of the Government of the United States and the Provisional Government of France.

If the Government of the United States concurs in the foregoing, we would suggest that the present note and your reply to that effect be regarded as placing on record the understanding of our two Governments in this matter and that for clarity and convenience of administration this understanding be considered to be effective as from June 6, 1944.

Accept, Sir, the renewed assurances of our highest consideration.

JEAN MONNET. H BONNET

Acting Secretary of State,
U. S. Department of State,

The Acting Secretary of State to the French Ambassador

DEPARTMENT OF STATE
WASHINGTON
February 28, 1945

EXCELLENCY:

I have the honor to acknowledge the receipt of the note of today's date signed by Your Excellency and M. Monnet concerning the principles and procedures applicable to the provision of aid by the Provisional Government of the French Republic to the armed forces of the United States of America.

In reply I wish to inform you that the Government of the United
States agrees with the understanding of the Provisional Government of the French Republic as expressed in that note. In accordance with the suggestion contained therein, your note and this reply will be regarded as placing on record the understanding between our two Governments in this matter.

This further integration and strengthening of our common war effort gives me great satisfaction.

Accept, Excellency, the renewed assurances of my highest consideration.

Joseph C. Grew
Acting Secretary of State

His Excellency
HENRI BONNET,
Ambassador of the Provisional Government of the French Republic.

MEMORANDUM

The Government of the United States directs the attention of the Provisional Government of the French Republic to the proposed agreement under Section 3 (c) of the Lend-Lease Act and in particular to Article V thereof. Under Article V this Government will review, from time to time, and particularly at the conclusion of hostilities in Europe, as determined by the President, articles and services set forth in Schedule 1 and Schedule 2 of the Agreement in order to determine whether the delivery of such articles or services should be withheld in the national interest of the United States. The reservation made by this Government in Article V to withhold delivery of articles and services "whenever the President determines that such action is in the national interest" constitutes a broad power to cancel or revoke procurement programs or contracts. It is not possible to predict with precision what occasions or circumstances may arise in the future which may require this Government to withhold delivery. Actual delivery will always be subject to the development of the military situation, and the changing demands of strategy, as well as to economic and financial factors which affect the national interest of this Government.

The Government of the United States expects that all articles and services transferred to the Provisional Government of the French Republic, pursuant to the Crowley-Monnet exchange of notes of September 4, 5 and 19, 1944,[1] prior to the signing of this Agreement will be paid for in dollars, and any articles and services requisitioned in accordance with the provisions of these notes but transferred following the signing of this Agreement will be regarded, if appropriate, as deliveries under the relevant schedules of the Agreement.

It is further understood that as long as supplies are furnished under the so-called Plan "A", the Provisional Government of the

1 [Not printed.]
French Republic will be obligated to pay for them currently in dollars.

It is, of course, understood that in the implementation of the provisions of the lend-lease agreements submitted to the Provisional Government of the French Republic, the Government of the United States will act in accordance with its Constitutional procedures.

AMBASSADE

Ref. 4/1/1
No 5834
February 28, 1945.

MY DEAR MR. SECRETARY,

I have just returned from France. As the American Ambassador in Paris has been advised by our Minister of Foreign Affairs, my Government is now prepared to sign the draft agreements sent to me by Mr. Clayton on February 8th, 1945.

In its concurrence, my Government has taken full cognizance of your Memorandum accompanying the draft agreements.

Before my departure for Paris I agreed with Mr. Clayton the text of a Statement, attached hereto, which clarifies certain points and draws the attention of your Government to certain policies which we shall follow in the execution of the various agreements.

Yours sincerely,

JEAN MONNET.

The Honorable Joseph C. Grew,
Acting Secretary of State,
Department of State,
Washington, D. C.

STATEMENT

28 February 1945.

I. We understand that the Master Agreement covers munitions now being or to be supplied hereafter on a straight Lend-Lease basis.

2. ARTICLE 5. We understand that in general it is not the intention of the United States Government to exercise its right to recapture any articles for which the French Government pays; if the recapture clause should be exercised in respect to any such articles, appropriate arrangements will be made for repayment to the French Government.

3. ARTICLES 6 AND 7. We understand that “benefits provided to the United States by the Provisional Government of France” includes
benefits provided by the Comite National, the Haut Commandement en Chef, and the C.F.L.N. and that in the conversations referred to in Article VII full cognizance will be taken of all such benefits as well as of all aid extended under the various operating agreements and the Master Agreement.

B. 3(c) Agreement

1. Article I. We understand that the phrase “Continental France” includes Corsica.

2. Article V. We understand that the phrase “net losses” refers to out-of-pocket expenses, such as contract cancellation, transportation and storage expenses, incurred with respect to articles covered by a requisition or other formal request filed by the French Government.

C. Reciprocal Aid Agreement

The franc account provision appears unnecessarily broad. We understand that you are prepared to substitute for it a provision which will be consistent with mutually agreeable working arrangements now in effect in France.

II.

The purchase price clauses set forth in Section B of Schedule I of the 3 (c) agreement are complex. There is some doubt in our minds that their precise operative effect can be accurately predicted now. On the other hand, we recognize that they have been drafted with the purpose of establishing a pricing method that will be fair to both parties. Accordingly we ask for no revision at the present time. If the pricing operations under these formulae appear unsatisfactory in practice, we will feel free to propose an alternative method. The adoption of such an alternative by mutual agreement would not, of course, be retroactive, unless the propriety of such retroactive action were also mutually agreed.

III.

I wish also to direct your attention to certain policies we shall follow in the execution of these various arrangements.

1. In relation to reciprocal aid, it is our intention to put forth our maximum effort. The extent of reciprocal aid which it will be possible to render will, however, necessarily depend in large measure on such factors as the availability of labor, power, and the flow of imported supplies.

2. In relation to the 3(c) agreement, it is our general intention to request and receive the articles and services in Schedules I and 2 up to the full amount of the financial limits provided for therein. However, we note our reserved right to have the programs or contracts cancelled upon paying the United States its out-of-pocket expenses; and it is our intention to review the articles and services
in the schedules from time to time and particularly at the conclusion of hostilities in Europe in order to make such adjustments in our requests and acceptances as we deem necessary in the light of the changing situation.

JEAN MONNET.

DEPARTMENT OF STATE
WASHINGTON

My dear Mr. Monnet:

I have your letter of today telling of your return from Paris and informing me that your Government is now prepared to sign the draft agreements which Mr. Clayton sent you on February 8, 1945, and that your Government has taken full cognizance of the Memorandum accompanying the draft agreement.

Правительство Венгрии также обязуется интернировать граждан Германии.

8. Правительство и Главное Командование Венгрии обязуются не допускать вывоза или экскреприации всякого рода имущества /включая ценност и валюту/, принадлежащего Германии или ее гражданам, или лицам, проживающим на ее территории, или на территориях, занятых ею, без разрешения Союзной Контрольной Комиссии. Они будут хранить это имущество в порядке, устанавливаемом Союзной Контрольной Комиссией.

17. Венгерская гражданская администрация восстанавливается во всей полосе Венгрии, отстоящей от линии фронта не менее, чем на 50-100 километров /в зависимости от условий местности/, причем венгерские административные органы обязуются выполнять в интересах восстановления мира, безопасности, инструкции и указания Советского /Советского/ Главнокомандования или Советной Контрольной Комиссии, данные им в целях обеспечения выполнения настоящих условий перемирия.

AGREEMENT

CONCERNING AN ARMISTICE BETWEEN THE UNION OF SOVIET SOCIALIST REPUBLICS, THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND, AND THE UNITED STATES OF AMERICA ON ONE HAND AND HUNGARY ON THE OTHER.

The Provisional National Government of Hungary, recognizing the fact of the defeat of Hungary in the war against the Soviet Union, the United Kingdom, the United States of America, and other United Nations, accepts the armistice terms presented by the Governments of the above-mentioned three powers, acting on behalf of all the United Nations which are in a state of war with Hungary.

On the basis of the foregoing the representative of the Allied (Soviet) High Command, Marshal of the Soviet Union K. E. Voroshilov, duly authorized thereto by the Governments of the Soviet Union, the United Kingdom, and the United States of America, acting on behalf of all the United Nations which are at war with Hungary, on the one hand and the representatives of the Provisional National Government of Hungary, Minister of Foreign Affairs Mister Gyöngyösi Janos, Minister of Defense Colonel General Vörös Janos and State Secretary of the Cabinet of Ministers Mister Balogh Istvan, on the other, holding proper full powers, have signed the following conditions:

1. (a) Hungary has withdrawn from the war against the Union of Soviet Socialist Republics and other United Nations, including Czechoslovakia, has severed all relations with Germany and has declared war on Germany.

(b) The Government of Hungary undertakes to disarm German armed forces in Hungary and to hand them over as prisoners of war.

The Government of Hungary also undertakes to intern nationals of Germany.

(c) The Government of Hungary undertakes to maintain and make available such land, sea and air forces as may be specified for service under the general direction of the Allied (Soviet) High Command. In this connection Hungary will provide not less than eight infantry divisions with corps troops. These forces must not be used on allied territory except with the prior consent of the allied government concerned.

(d) On the conclusion of hostilities against Germany, the Hungarian armed forces must be demobilized and put on a peace footing under the supervision of the Allied Control Commission. (See Annex to Article I.)

2. Hungary has accepted the obligation to evacuate all Hungarian troops and officials from the territory of Czechoslovakia, Yugoslavia, and Rumania occupied by her within the limits of the frontiers of Hungary existing on December 31, 1937, and also to repeal all legislative and administrative provisions relating to the annexation or
incorporation into Hungary of Czechoslovak, Yugoslav and Rumanian territory.

3. The Government and High Command of Hungary will ensure to the Soviet and other allied forces facilities for free movement on Hungarian territory in any direction if, in the opinion of the Allied (Soviet) High Command, the military situation requires this, the Government and High Command of Hungary giving such movement every possible assistance with their own means of communication and at their own expense on land, on water and in the air. (See Annex to Article 3).

4. The Government of Hungary will immediately release all allied prisoners of war and internees. Pending further instructions the Government of Hungary will at its own expense provide all allied prisoners of war and internees, displaced persons and refugees, including nationals of Czechoslovakia and Yugoslavia, with adequate food, clothing, medical services, and sanitary and hygienic requirements, and also with means of transportation for the return of any such persons to their own country.

5. The Government of Hungary will immediately release, regardless of citizenship and nationality, all persons held in confinement in connection with their activities in favor of the United Nations or because of their sympathies with the United Nations’ cause or for racial or religious reasons, and will repeal all discriminatory legislation and disabilities arising therefrom.

The Government of Hungary will take all necessary measures to ensure that all displaced persons or refugees within the limits of Hungarian territory, including Jews and stateless persons, are accorded at least the same measure of protection and security as its own nationals.

6. The Government of Hungary undertakes to return to the Soviet Union, and also to Czechoslovakia and Yugoslavia and to the other United Nations, by the dates specified by the Allied Control Commission, and in complete good order, all valuables and materials removed during the war to Hungary from United Nations' territory and belonging to state, public or cooperative organizations, enterprises, institutions or individual citizens, such as factory and works equipment, locomotives, rolling stock, tractors, motor vehicles, historic monuments, museum treasures and any other property.

7. The Government and High Command of Hungary undertake to hand over as booty into the hands of the Allied (Soviet) High Command all German war material located on Hungarian territory, including vessels of the fleet of Germany.

8. The Government and High Command of Hungary undertake not to permit, without the authorization of the Allied Control Commission, the export or expropriation of any form of property (including valuables and currency) belonging to Germany or her nationals or to persons resident in German territory or in territories occupied by Germany. They will safeguard such property in the manner specified by the Allied Control Commission.
9. The Government and High Command of Hungary undertake to hand over to the Allied (Soviet) High Command all vessels belonging or having belonged to the United Nations which are located in Hungarian Danubian ports, no matter at whose disposal these vessels may be, for use during the period of the war against Germany by the Allied (Soviet) High Command in the general interests of the Allies, these vessels subsequently to be returned to their owners.

The Government of Hungary will bear full material responsibility for any damage or destruction of the aforementioned property until the moment of its transfer to the Allied (Soviet) High Command.

10. Hungarian merchant vessels, whether in Hungarian or foreign waters, shall be subject to the operational control of the Allied (Soviet) High Command for use in the general interests of the Allies.

11. The Government of Hungary will make regular payments in Hungarian currency and provide commodities (fuel, foodstuffs, et cetera), facilities and services as may be required by the Allied (Soviet) High Command for the fulfillment of its functions as well as for the needs of missions and representatives of the allied states connected with the Allied Control Commission.

The Government of Hungary will also assure, in case of need, the use and regulation of the work of industrial and transport enterprises, means of communication, power stations, enterprises and installations of public utility, stores of fuel and other material, in accordance with instructions issued during the armistice by the Allied (Soviet) High Command or the Allied Control Commission. (See Annex to Article 11.)

12. Losses caused to the Soviet Union, Czechoslovakia and Yugoslavia by military operations and by the occupation by Hungary of the territories of these states will be made good by Hungary to the Soviet Union, Czechoslovakia and Yugoslavia, but taking into consideration that Hungary has not only withdrawn from the war against the United Nations but has declared war against Germany, the parties agree that compensation for the indicated losses will be made by Hungary not in full but only in part; namely, to the amount of 300 million American dollars payable over six years in commodities (machine equipment, river craft, grain, livestock, et cetera), the sum to be paid to the Soviet Union to amount to 200 million American dollars and the sum to be paid to Czechoslovakia and Yugoslavia to amount to 100 million American dollars.

Compensation will be paid by Hungary for loss and damage caused by the war to other allied states and their nationals, the amount of compensation to be fixed at a later date. (See Annex to Article 12.)

13. The Government of Hungary undertakes to restore all legal rights and interests of the United Nations and their nationals on Hungarian territory as they existed before the war and also to return their property in complete good order.

14. Hungary will cooperate in the apprehension and trial, as well as the surrender to the governments concerned, of persons accused of war crimes.
15. The Government of Hungary undertakes to dissolve immediately all pro-Hitler or other fascist political, military, para-military and other organizations on Hungarian territory conducting propaganda hostile to the United Nations and not to tolerate the existence of such organizations in future.

16. The publication, introduction and distribution in Hungary of periodical or non-periodical literature, the presentation of theatrical performances or films, the operation of wireless stations, post, telegraph and telephone services will take place in agreement with the Allied (Soviet) High Command. (See Annex to Article 16.)

17. Hungarian civil administration will be restored in the whole area of Hungary separated by not less than 50–100 kilometres (depending upon conditions of terrain) from the front line, Hungarian administrative bodies undertaking to carry out, in the interests of the reestablishment of peace and security, instructions and orders of the Allied (Soviet) High Command or Allied Control Commission issued by them for the purpose of securing the execution of these armistice terms.

18. For the whole period of the armistice there will be established in Hungary an Allied Control Commission which will regulate and supervise the execution of the armistice terms under the chairmanship of the representative of the Allied (Soviet) High Command and with the participation of representatives of the United Kingdom and the United States.

During the period between the coming into force of the armistice and the conclusion of hostilities against Germany, the Allied Control Commission will be under the general direction of the Allied (Soviet) High Command. (See Annex to Article 18.)

19. The Vienna Arbitration Award of November 2, 1938 and the Vienna Award of August 30, 1940 are hereby declared to be null and void.

20. The present terms come into force at the moment of their signing.

Done in Moscow 20 January, 1945, in one copy which will be entrusted to the safekeeping of the Government of the Union of Soviet Socialist Republics, in the Russian, English and Hungarian languages, the Russian and English texts being authentic.

Certified copies of the present agreement, with annexes, will be transmitted by the Government of the Union of Soviet Socialist Republics to each of the other governments on whose behalf the present agreement is being signed.

Agreement between the United States of America and Canada respecting air transport services. Effected by exchange of notes signed at Washington February 17, 1945.

The Canadian Ambassador to the Acting Secretary of State

CANADIAN EMBASSY
AMBASSADE DU CANADA

WASHINGTON, D. C.,

February 17, 1945.

Sir,

With reference to negotiations that have recently taken place between representatives of the Canadian and United States Governments concerning civil air transport, I have the honour to propose that an agreement be entered into between the two Governments as follows:

AGREEMENT FOR CIVIL AIR TRANSPORT BETWEEN CANADA AND THE UNITED STATES OF AMERICA.

Article I

Pending the coming into force of the International Air Services Transit Agreement done at Chicago on December 7, 1944, each Government grants to the other, in respect of its scheduled international air services, the right to fly across its territory without landing and the right to land for non-traffic purposes.

Article II

The Governments grant the rights specified in the Annex for establishing the international civil air routes and services described in the Annex, whether such services be inaugurated immediately or at a later date at the option of the Government to whom the rights are granted.

Article III

Each of the air services so described may be placed in operation when the Government to whom the rights have been granted by Article II to designate an airline or airlines for the route concerned has authorized an airline for such route, and the Government granting the rights shall, subject to Article V hereof, take the appropriate steps to permit the operation by the airline or airlines concerned; provided that the airline so designated may be required to qualify before the competent aeronautical authorities of the Government granting the rights under the laws and regulations normally applied by these authorities before being permitted to engage in the operations contemplated by this Agreement; and provided that in areas of hostilities or of military occupation, or in areas affected thereby, such inauguration shall be subject to the approval of the competent military authorities.
Article IV

In order to prevent discriminatory practices and to ensure equality of treatment, the Governments agree that:

(a) Each of them may impose or permit to be imposed on airlines of the other state just and reasonable charges for the use of public airports and other facilities on its territory provided that these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services;

(b) Fuel and oil, aircraft stores, spare parts and equipment introduced into the territory of one state by the other state or by nationals of the other state, and intended solely for use by aircraft of such other state shall be accorded national and most-favoured-nation treatment with respect to the imposition of customs and excise duties and taxes, inspection fees or other national duties or charges by the state whose territory is entered: provided, however, that such state may require that such imported materials shall be kept under customs supervision and control;

(c) The fuel and oil, aircraft stores, spare parts and equipment retained on board civil aircraft of the airlines authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other state, be exempt from the imposition of customs and excise duties and taxes, inspection fees or other national duties or charges, even though such supplies be used or consumed by such aircraft on flights in that territory;

(d) Neither of them will give a preference to its own airlines against the airlines of the other state in the application of its customs, immigration, quarantine and similar regulations or in the use of airports, airways or other facilities.

Article V

The laws and regulations of each state relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other state, and shall be complied with by such aircraft, upon entering or departing from or while within the territory of that state.

Article VI

Each Government reserves the right to withhold or revoke a certificate or permit to an airline of the other state in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of that state, or in case of failure of an airline to comply with the laws of the state over which it operates, as described in Article V, or to perform its obligations under this Agreement.
Article VII

This Agreement shall apply to the territory of the continental United States including Alaska, and to the territory of Canada including the territorial waters adjacent to each territory.

Article VIII

The aircraft operated by United States airlines shall conform at all times with the airworthiness requirements prescribed by the competent aeronautical authorities of the United States of America for aircraft employed in air transportation of the character contemplated by this Agreement.

The aircraft operated by Canadian airlines shall conform at all times with the airworthiness requirements prescribed by the competent aeronautical authorities of Canada for aircraft employed in air transportation of the character contemplated by this Agreement.

Article IX

The competent authorities of the two Governments shall enter into agreements concerning the transportation of mail on the services authorized by this Agreement.

Article X

The services authorized by this Agreement and for which rights are specified in the Annex shall be conducted in accordance with the following provisions:

(1) Pending the coming into force of the Interim Agreement on International Civil Aviation done at Chicago on December 7, 1944, they shall be subject to the applicable terms of the Air Navigation Agreement between Canada and the United States of America effected by an exchange of notes of July 28, 1938;

(2) Additional stops may be made in the territory of the state of which an airline is a national at the election of that state, provided that these stops lie in reasonable proximity to the direct route connecting the terminals indicated in the Annex, and subject to the special provisions indicated therein with respect to particular routes;

(3) Holders of through tickets travelling on a through international service may make stopovers at any point where a landing is made even though such landing is made at a point not otherwise authorized for the pick-up and discharge of traffic;

(4) Future proposals for services between any point in Alaska and any point in Canada west of the 130th meridian shall be initially considered (unless in any particular case the two Governments shall agree to follow a different course) by a representative designated by each Government, whose recommendations shall be transmitted to the two Governments for action;

(5) The routes specified in the Annex shall be open for operation by properly designated airlines at any time during the life of the Agreement. The rights shall not lapse with any failure to exercise them, or any interruption of such exercise.

The Governments whose duly authorised representatives have subscribed hereto

PROJET D'ACCORD PORTANT CRÉATION D'UN OFFICE CENTRAL DES 
TRANSPORTS INTÉRIEURS EUROPÉENS.

Considérant qu'il est opportun, lors de la libération des territoires 
des Nations Unies en Europe et de l'occupation de territoires ennemis 
en Europe, en vue de satisfaire aux besoins militaires communs des 
Nations Unies et dans l'intérêt du progrès social et économique de 
l'Europe, de concerter l'action des autorités compétentes en matière de 
mouvement du trafic et de fourniture de moyens de transport et de 
matériel et

Estimant qu'ainsi le transport du ravitaillement destiné tant aux 
armanées alliées qu'aux populations civiles sera amélioré autant que 
possible; que le retour rapide des personnes à rapatrier sera facilité; 
enfin que le mouvement normal du trafic pourra être plus rapidement 
repris,

Les Gouvernements dont les Representants dûment autorisés ont 
signé le présent accord

Sont convenus de ce qui suit:

ARTICLE I.

Il est créé par le présent accord un Office Central des Transports 
Intérieurs Européens, ci-après dénommé "l'Office," qui exercera son 
activité dans les conditions prévues par les articles qui suivent. 
L'Office est établi en qualité d'organisme de coordination et de con-

sultation. Il coordonne les efforts tendant à utiliser tous moyens de 
transport en vue de l'issue favorable de la guerre et de l'amélioration 
des transports, de manière à aider au rétablissement des conditions 
normales de la vie économique. Il aidera également les Commandants 
en Chef Alliés pendant la guerre, et les Autorités d'occupation 
etablies par les Gouvernements des Nations Unies pendant la pre-

mière période qui suivra la guerre, à maintenir et à améliorer les pos-

sibilités de transport adéquates.

ARTICLE II.—Composition.

Sont membres de l'Office les Gouvernements contractants et tels 
autres Gouvernements qui pourront y être admis par le Conseil.

choisit l'un de ses membres pour présider chacune de ses sessions. 
Le Conseil fixe ses propres règles de procédure. A moins qu'il n'en 
soit disposé autrement dans le présent accord ou par le Conseil, les 
décisions de ce dernier sont prises à la majorité simple.

3. Le Conseil est réuni en session ordinaire au moins deux fois par 
an par le Comité Exécutif. Il peut être réuni en session spéciale
session whenever the Executive Board shall deem necessary and shall be convened within thirty days after request by one-third of the members of the Council.

4. The Council shall perform the functions assigned to it under this Agreement and review the work of the Organisation generally to ensure its conformity with the broad policies determined by the Council.

The Executive Board.

5. The Executive Board shall consist of seven members who shall be appointed by the Council. It shall include one member nominated by each of the following Governments, the Provisional Government of the French Republic and the Governments of the Union of Soviet Socialist Republics, the United Kingdom of Great Britain and Northern Ireland and the United States of America. This officer shall appoint the staff at headquarters, regional and local offices, subject to the approval of the Executive Board, taking into account the exigencies of the various branches of transport concerned. The responsibilities of the chief officer and staff shall be exclusively international in character.

8. Each member Government may appoint a representative for purposes of consultation and communication with the Executive Board. Such representatives shall be fully informed by the Board of all activities of the Organisation. Each time that any important question is discussed concerning the interests of a member Government, this representative shall be entitled to take part in the discussion without right of vote.

The Organisation shall not, however, have power to own transport equipment and material, except with the unanimous consent of the Council.

2. These powers are vested in the Council. Subject to the provisions of paragraph 2 of Article V, the Council may delegate such of

4. Le Conseil remplit les fonctions qui lui sont assignées par le présent accord et exerce un contrôle d'ordre général sur l'activité de l'Office, pour en assurer la conformité avec les directives qu'il a lui-même établies.

Comité Exécutif.

7. Le Comité Exécutif désigne un haut fonctionnaire pour diriger, sous son contrôle général et en conformité des directives arrêtées par le Conseil, le travail technique et administratif de l'Office. Ce fonctionnaire nomme le personnel des services centraux, régionaux et locaux sous réserve de l'approbation du Comité Exécutif, en tenant compte des exigences des diverses catégories de transports intéressées. Ce haut fonctionnaire et son personnel sont exclusivement responsables vis-à-vis de l'Office international.

8. Chaque Gouvernement contractant peut désigner un représentant aux fins de se concerter avec le Comité Exécutif et de communiquer avec lui. Ces représentants sont tenus pleinement informés par le Comité de toutes les activités de l'Office. Chaque fois qu'une question importante concernant les intérêts d'un Gouvernement contractant est discutée, ce représentant a la faculté de prendre part à la discussion, sans droit de vote.

Article IV.

1° L'Office a le pouvoir d'accomplir tout acte juridique approprié à ses activités, y compris celui d'acquérir des biens, de les conserver et d'en disposer, de signer des contrats, d'assumer des obligations, de désigner ou de créer des organismes subordonnés et de contrôler leur activité. Toutefois, l'Office n'a pas le pouvoir de posséder des moyens de transport et du matériel, sauf avec le consentement unanime du Conseil.

2. Les pouvoirs définis ci-dessus appartiennent au Conseil. Sous réserve des dispositions du paragraphe 2 de l'article V, le Conseil peut

ARTICLE V.—Finance.

1. The Executive Board shall submit to the Council an initial budget and from time to time such supplementary budgets as may be required, covering the administrative expenses of the Organisation. Upon approval of a budget by the Council the total amount approved shall be raised in such manner or be allocated in such proportions as may be agreed between the member Governments. Each member Government undertakes, subject to the requirements of its constitutional procedure, promptly to contribute to the Organisation, in such currency or currencies as may be agreed by such Government with the Executive Board, its share of these expenses. Each member Government shall also provide such facilities as are required for the transfer into other currencies of sums so contributed and held by the Organisation in that Government's own currency.

2. The Organisation shall not incur any expenses, other than administrative expenses, except under the authority of the Council. Proposals for such expenses shall be submitted by the Executive Board to the Council, and when approved by the Council such expenses shall be met by contributions which a member Government or member Governments may agree to make or in such other manner as may be agreed between member Governments.

3. Nothing in this Agreement shall require any member Government or transport administration under its authority to perform services without remuneration.

ARTICLE VI.—Scope of the Organisation.

1. The Organisation shall exercise its functions in any territory in Continental Europe as soon as the member Government concerned becomes the effective authority for transport in that territory, provided that the Allied Commander-in-Chief concerned is satisfied that military necessity permits and under such conditions as he may deem necessary.

2. In respect of any territory in Continental Europe in which the Allied Commanders-in-Chief retain responsibility for the direction of the transport system, the Organisation shall on request give advice or assistance to the Allied Commanders-in-Chief, and, in consultation with the Allied Commander-in-Chief concerned, to any member Government or to other appropriate authorities of the United Nations, on any question with which it is empowered to deal under Article VII.

3. The Organisation shall treat with any of the Occupation Authorities set up by Governments of the United Nations in respect of any territory in Continental Europe in which such Occupation Authorities are exercising authority.
déléguer au Comité Exécutif tels de ses pouvoirs qu'il juge utile, y compris le pouvoir de sous-délégation. Le Comité Exécutif est responsable devant le Conseil de l'entretien et de l'administration de tous biens possédés par l'Office.

**Article V.—** Ressources.

1. Le Comité Exécutif soumet au Conseil un budget initial et de temps à autre, en tant que de besoin, des budgets supplémentaires couvrant les dépenses administratives de l'Office. Après l'approbation d'un budget par le Conseil, le montant total en est perçu suivant les procédures ou réparti dans les proportions qui auront pu être fixées d'accord entre les Gouvernements contractants. Chaque Gouvernement contractant s'engage, sous réserve des exigences de sa procédure constitutionnelle, à verser promptement sa part des frais de l'Office en telle monnaie dont il pourra être convenu avec le Comité Exécutif. Chaque Gouvernement contractant doit aussi faciliter, en tant que de besoin, le transfert en d'autres monnaies des sommes ainsi versées dans sa propre monnaie et détenues par l'Office.

2. L'Office n'engage aucune dépense autre que des dépenses administratives, si ce n'est par décision du Conseil. Les autres dépenses font l'objet de propositions soumises par le Comité Exécutif au Conseil et, après approbation par le Conseil, sont couvertes par les contributions qu'un ou plusieurs Gouvernements contractants pourraient consentir à fournir ou de telle autre manière dont les Gouvernements contractants pourraient convenir.

3. Aucune disposition du présent accord ne peut être interprétée comme obligeant un Gouvernement contractant, ou une administration de transport placée sous l'autorité de celui-ci, à effectuer des services sans rémunération.

**Article VI.—** Champ d'Action de l'Office.

1. L'Office exerce ses activités dans tout territoire de l'Europe Continentale aussitôt que le Gouvernement contractant intéressé devient l'autorité effective en matière de transports, à condition toutefois que le Commandant en Chef Allié intéressé le juge possible du point de vue des nécessités militaires, et sous réserve des modalités qu'il estimerait utile de fixer.

2. En ce qui concerne tout territoire de l'Europe Continentale sur lequel les Commandants en Chef Alliés conservent la responsabilité de la direction des transports et sur toutes questions de sa compétence aux termes de l'Article VII, l'Office donne, sur demande, avis ou assistance aux Commandants en Chef Alliés et, en accord avec le Commandant en Chef Allié intéressé, à tout Gouvernement contractant ou à toute autre Autorité compétente des Nations Unies.

2. In case any member Government meets with difficulties in carrying out these recommendations owing to reasons of a material and economic character, the Organisation shall investigate with the member Governments concerned means of practical help.

Information on Transport Equipment and Material.

3. The Organisation shall receive and collect information concerning the requirements of transport equipment and material for Continental Europe.

Realisation of Requirements for Transport Equipment and Material.

4. The Organisation shall assist the realisation of requirements of any member Government in Continental Europe for transport equipment and material.

Allocation and Distribution for Use of Transport Equipment and Material.

5. The Organisation shall, within the framework of the priorities determined by the appropriate authorities of the United Nations, determine the allocation or distribution for use to Governments in Continental Europe, on such conditions as it may deem necessary, of such transport equipment and material as may be made available for this purpose by the Allied Commanders-in-Chief, by Occupation Authorities, or by agencies of any one or more of the United Nations. To enable the Organisation to carry out this function effectively, it may consult with the Governments concerned on their export possibilities and import needs for transport equipment and material for Continental Europe and will receive from such Governments notification of all arrangements made in respect thereto of which they have notice.

Arrangements to make Mobile Transport Equipment and Material available.

6. In cases where temporary emergency requirements of mobile transport equipment for carrying traffic of common concern arise and normal arrangements for the interchange of such mobile transport equipment are inadequate, the Organisation shall arrange with member Governments concerned to make available mobile transport equipment for the purpose of meeting such requirements. Such mobile transport equipment shall be made available under arrangements made between the member Governments concerned, with the assistance of the Organisation.
ARTICLE VII.—Fonctions de Direction de l'Office.

Introduction.

1. L'Office procède à des études approfondies des conditions techniques et économiques affectant le trafic de caractère international et donne aux Gouvernements intéressés à ce trafic tous avis techniques et recommandations en vue de rétablir et d'augmenter la capacité des réseaux de transport de l'Europe Continentale et de coordonner les mouvements du trafic d'intérêt commun sur ces réseaux.

2. Lorsqu'un Gouvernement contractant rencontre des difficultés à appliquer ces recommandations pour des motifs d'ordre matériel et économique, l'Office recherche avec les Gouvernements contractants intéressés des moyens d'aide pratique.

Renseignements sur les Moyens de Transport et le Matériel.

3. L'Office reçoit et réunit les informations concernant les besoins en moyens de transport et en matériel de l'Europe Continentale.

 Satisfaction des Besoins en Moyens de Transport et Matériel.

4. L'Office donne son aide à tous les Gouvernements contractants en Europe Continentale en vue de la satisfaction de leurs besoins en moyens de transport et en matériel.

Attribution et Répartition des Moyens de Transport et du Matériel.

5. Dans le cadre des priorités établies par les Autorités compétentes des Nations Unies, l'Office attribue aux Gouvernements en Europe Continentale ou répartit entre ces Gouvernements, pour usage et sous telles conditions qui peuvent être jugées nécessaires, les moyens de transport et le matériau qui peuvent être rendus disponibles à cet effet par les Commandants en Chef Alliés, par les Autorités d'occupation ou par les organismes relevant d'une ou de plusieurs des Nations Unies. Pour pouvoir exercer ces fonctions avec efficacité, l'Office peut se concerter avec les Gouvernements intéressés sur leurs possibilités d'exportation et leurs besoins d'importation pour l'Europe Continentale en moyens de transport et en matériel; il est avisé par ces Gouvernements de tous arrangements faits à ce sujet dont ils auraient connaissance.

Arrangements en vue de rendre disponibles des Moyens de Transport et du Matériel.

6. S'il se présente des besoins urgents et temporaire de moyens mobiles de transport pour faire face à un trafic d'intérêt commun, et si les arrangements normaux concernant l'échange de ces moyens de transport se révèlent insuffisants, l'Office s'entend avec les Gouvernements contractants intéressés pour rendre disponibles les moyens de transport nécessaires à la satisfaction de ces besoins. De tels moyens de transport sont rendus disponibles par des arrangements entre les Gouvernements contractants intéressés, avec l'assistance de l'Office.
Restoration of Transport Equipment and Material.

7. The Organisation shall arrange, as soon as practicable, to restore to the member Government concerned transport equipment and material belonging to a member Government or to its nationals, found outside the territories under the authority of that member Government and outside its control. These arrangements shall be made in accordance with any general policies which may be determined by the appropriate authorities of the United Nations regarding restoration and restitution of property removed by the enemy. Where immediate restoration would unduly prejudice the operation of essential transport in the area, the Organisation shall work out arrangements with the Governments concerned for the temporary use of equipment pending its restoration.

Census of Transport Equipment and Material.

8. The Organisation shall at the earliest practicable time arrange through the member Governments for a census of rolling-stock in Continental Europe and of such other transport equipment and material there as may appear necessary for the proper discharge of its functions.

Traffic.

9. The Organisation may make such recommendations to the appropriate authorities as it deems necessary with respect to particulars of projected movements of traffic of common concern, having regard to the transport facilities available for the movement of such traffic.

10. The Organisation shall make recommendations to the Governments concerned in order to ensure the movement of traffic of common concern on all routes of transport in Continental Europe in accordance with the priorities determined by the appropriate authorities of the United Nations. In respect of traffic of military importance sponsored by the Allied Commanders-in-Chief, the appropriate authority for this purpose will be the Allied Commander-in-Chief concerned.

Charges.

11. The Organisation may work out the unification of tariffs, terms and conditions of transport and the like applicable to traffic of an international character. It shall recommend to the Government concerned the principles by which reasonable transport charges for traffic of common concern in Continental Europe should be fixed by them in accordance with the provisions of paragraph 9 of Article VIII. This paragraph shall not apply to military traffic under the control of the Allied Commanders-in-Chief except at their request.

Rehabilitation of Transport Systems.

12. The Organisation may study the conditions of transport affecting traffic of an international character in individual countries and make recommendations to the Governments concerned as to technical measures directed to the quickest restoration of transport facilities and their most effective use, and as to the priority in which works or projects in respect of the restoration or improvement of transport facilities shall be carried out.
Restitution des Moyens de Transport et du Matériel.

7. L’Office prend aussitôt que possible les dispositions voulues en vue de la restitution à tout Gouvernement contractant intéressé des moyens de transport et du matériel appartenant à ce Gouvernement ou à ses ressortissants et trouvés dans des territoires qui ne relèvent pas de son autorité et ne sont pas placés sous son contrôle. Ces dispositions sont prises dans le cadre de la politique générale qui pourra être déterminée par les Autorités compétentes des Nations Unies en ce qui concerne la restitution des biens enlevés par l’ennemi. Au cas où la restitution entraînerait indûment les transports essentiels dans la région considérée, l’Office négocie des accords avec les Gouvernements intéressés pour l’usage temporaire de ces moyens de transport en attendant leur restitution.

Recensement des Moyens de Transport et du Matériel.

8. L’Office fait procéder, aussitôt que possible, par l’entremise des Gouvernements contractants à un recensement du matériel roulant en Europe Continentale et de telles catégories de moyens de transport et de matériel qui paraîtraient nécessaires pour lui permettre de remplir correctement ses fonctions.

Trafic.

9. L’Office peut faire telles recommandations qu’il estime nécessaire aux Autorités compétentes au sujet des modalités des programmes concernant le trafic d’intérêt commun, en tenant compte des moyens et du matériel disponibles pour assurer ce trafic.

10. L’Office fait des recommandations aux Gouvernements intéressés en vue d’assurer le trafic d’intérêt commun sur tous les itinéraires de transport en Europe Continentale, en accord avec les priorités établies par les Autorités compétentes des Nations Unies. En ce qui concerne le trafic d’intérêt militaire relevant des Commandants en Chef Alliés, l’Autorité compétente à cet égard est le Commandant en Chef Allié intéressé.

Tarifs.

11. L’Office peut étudier l’unification des tarifs, des clauses et des conditions de transport applicables au trafic de caractère international, ainsi que les questions connexes. Il recommande au Gouvernement intéressé les principes d’après lesquels des tarifs raisonnables pour le trafic d’intérêt commun en Europe Continentale devraient être fixés par lui conformément aux dispositions du paragraphe 9 de l’Article VIII. Le présent paragraphe ne s’applique pas au trafic militaire sous le contrôle des Commandants en Chef Alliés, sauf s’ils en font la demande.

Remise en état des Réseaux de Transport.

12. L’Office peut étudier les conditions de transport intéressant le trafic de caractère international dans des pays déterminés et faire aux Gouvernements intéressés des recommandations en ce qui concerne les mesures techniques susceptibles d’assurer le rétablissement rapide des réseaux de transport, leur utilisation la plus efficace et les priorités selon lesquelles les travaux ou projets concernant la remise en état ou l’amélioration de ces réseaux devraient être exécutés.
Operation of Transport

13. While it remains the task of each member Government to provide for the efficient operation of the transport systems in Continental Europe for which it is responsible, the Organisation may exceptionally, at the request of any member Government, give any practicable assistance in the rehabilitation or operation of transport in any territory in Continental Europe under the authority of such Government on such conditions as may be agreed between such Government and the Organisation, having due regard to the rights of other member Governments.

Co-ordination of European Transport.

14. The Organisation shall work out and co-ordinate common action to secure the inauguration, maintenance, modification, resumption or, where appropriate, suppression, of international arrangements for through working of railways and exchange of rolling-stock of the Continental European countries for carrying out international transport. In particular, it shall ensure a unified clearing system for traffic operations between the different countries in Continental Europe. In general, it shall promote where necessary the establishment of appropriate machinery for co-operation between railway administrations.

15. The Organisation shall place its services at the disposal of member Governments and make recommendations with a view to ensuring the most efficient movement of international traffic on waterways.

16. The Organisation shall take such steps as may be practicable through the Governments concerned to facilitate the movement across frontiers of road transport vehicles.

17. In carrying out the functions mentioned in paragraphs 14 and 16 of this Article and in placing its services at the disposal of member Governments as described in paragraph 15 of this Article, the Organisation shall make use, to the extent practicable, of conventions in force between member Governments so as to obtain the greatest benefit therefrom for the fulfilment of its task in this respect, provided that the Organisation shall act—

(a) in accordance with any general policies which may be determined by the appropriate authorities of the United Nations; and

(b) with due respect for existing rights and obligations.

18. The Organisation shall make recommendations to the Governments concerned designed to promote adequate co-ordination of all European transport for the fulfilment of the common military needs of the United Nations or in the interests of traffic of an international character.

Relations with other Agencies.

in after referred to as the Agreement), and subject to the conditions set out therein, the member Governments signatory hereto have agreed as follows:—

**Article I.**

Every member Government signatory hereto undertakes to establish appropriate machinery necessary for the application of all the obligations assumed in paragraphs 5 and 6 of Article VIII of the Agreement to traffic on Inland Waterways and to appoint persons or organisations entitled to treat with the Organisation on questions of this nature.

**Article II.**

The member Governments signatory hereto, taking into account the geographical, technical and other peculiarities connected with traffic on inland waterways and the needs of each of them in these respects, will form committees of experts to be consulted by the chief officer on questions of traffic on inland waterways within the various areas of such traffic.

Agreement between the United States of America and Ireland respecting air transport services. Effected by exchange of notes signed at Washington February 3, 1945; effective February 15, 1945.

The Assistant Secretary of State to the Irish Minister

DEPARTMENT OF STATE
WASHINGTON
February 3, 1945

SIR:

I have the honor to refer to discussions which began at the recent International Civil Aviation Conference in Chicago, and which have since been continued, on the subject of a reciprocal air transport agreement between the Government of the United States and the Government of Ireland.

It is my understanding that these discussions and negotiations, now terminated, have resulted in the following agreement:

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND IRELAND RELATING TO AIR TRANSPORT SERVICES

Having in mind the resolution recommending a standard form of agreement for provisional air routes and services, included in the Final Act of the International Civil Aviation Conference signed at Chicago on December 7, 1944, and the desirability of mutually stimulating and promoting the sound economic development of air transportation between the United States and Ireland, the two Governments parties to this arrangement agree that the further development of air transport services between their respective territories shall be governed by the following provisions:

ARTICLE 1

The contracting parties grant the rights specified in the Annex hereto necessary for establishing the international civil air routes and services therein described, whether such services be inaugurated immediately or at a later date at the option of the contracting party to whom the rights are granted.

ARTICLE 2

(a) Each of the air services so described shall be placed in operation as soon as the contracting party to whom the rights have been granted by Article 1 to designate an airline or airlines for the route concerned has authorized an airline for such route, and the contracting party granting the rights shall, subject to Article 6 hereof, be bound to give the appropriate operating permission to the airline or airlines concerned; provided that the
airline so designated may be required to qualify before the competent aeronautical authorities of the contracting party granting the rights under the laws and regulations normally applied by these authorities before being permitted to engage in the operations contemplated by this agreement; and provided that in areas
of hostilities or of military occupation, or in areas affected thereby, such inauguration shall be subject to the approval of the
competent military authorities.

(b) It is understood that either contracting party granted
commercial rights under this agreement should exercise them at
the earliest practicable date except in the case of temporary in-
ability to do so.

**Article 3**

In order to prevent discriminatory practices and to assure
equality of treatment, both contracting parties agree that:

(a) Each of the contracting parties may impose or permit to
be imposed just and reasonable charges for the use of public air-
ports and other facilities under its control. Each of the contract-
ing parties agrees, however, that these charges shall not be higher
than would be paid for the use of such airports and facilities by
its national aircraft engaged in similar international services.

(b) Fuel, lubricating oils and spare parts introduced into the
territory of one contracting party by the other contracting party
or its nationals, and intended solely for use by aircraft of such
other contracting party shall be accorded national and most-
favored-nation treatment with respect to the imposition of cus-
toms duties, inspection fees or other national duties or charges
by the contracting party whose territory is entered.

(c) The fuel, lubricating oils, spare parts, regular equipment
and aircraft stores retained on board civil aircraft of the airlines
of one contracting party authorized to operate the routes and
services described in the Annex shall, upon arriving in or leaving
the territory of the other contracting party, be exempt from
customs, inspection fees or similar duties or charges, even though
such supplies be used or consumed by such aircraft on flights in
that territory.

**Article 4**

Certificates of airworthiness, certificates of competency and
licenses issued or rendered valid by one contracting party shall
be recognized as valid by the other contracting party for the pur-
pose of operating the routes and services described in the Annex.
Each contracting party reserves the right, however, to refuse to
recognize, for the purpose of flight above its own territory, cer-
tificates of competency and licenses granted to its own nationals
by another State.
ARTICLE 5

(a) The laws and regulations of one contracting party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other contracting party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first party.

(b) The laws and regulations of one contracting party as to the admission to or departure from its territory of passengers, crew, or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew or cargo of the other contracting party upon entrance into or departure from, or while within the territory of the first party.

ARTICLE 6

Each contracting party reserves the right to withhold or revoke a certificate or permit to an airline of the other party in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of either party to this agreement, or in case of failure of an airline to comply with the laws of the State over which it operates as described in Article 5 hereof, or to perform its obligations under this agreement.

ARTICLE 7

This agreement and all contracts connected therewith shall be registered with the Provisional International Civil Aviation Organization.

ARTICLE 8

Operating rights granted previously by either of the contracting parties shall continue in force according to their terms.

ARTICLE 9

This agreement or any of the rights for air transport services granted thereunder may, without prejudice to Article 8 above, be terminated by either contracting party upon giving one year's notice to the other contracting party.

ARTICLE 10

Except as may be modified by the present agreement, the air navigation arrangement between the two contracting parties signed September 29, 1937, and November 4, 1937, shall continue in force until superseded by a multilateral aviation convention to which Ireland and the United States become contracting parties.
ARTICLE 11

In the event either of the contracting parties considers it desirable to modify the routes or conditions set forth in the attached Annex, it may request consultation between the competent authorities of both contracting parties, such consultation to begin within a period of sixty days from the date of the request. In case the aforementioned authorities mutually agree on new or revised conditions affecting the Annex, their recommendations on the matter will come into effect after they have been confirmed by an exchange of diplomatic notes.

ANNEX TO AIR TRANSPORT AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND IRELAND

A. Airlines of the United States authorized under the present agreement are accorded in the territory of Ireland rights of transit, non-traffic stop, and commercial entry for international traffic at Shannon airport (Foynes and Rineanna), on the following routes:

The United States to Ireland and countries beyond, via intermediate points; in both directions.

It is agreed that in view of the long transoceanic flight necessary on the above routes, and considering the still limited development of aeronautical science, all eastbound aircraft on routes covered in this Annex shall stop at Shannon airport as first European port of call and all westbound aircraft on the same routes shall stop at Shannon airport.

B. Airlines of Ireland authorized under the present agreement are accorded in the territory of the United States rights of transit, non-traffic stop and commercial entry for international traffic at specific airports in connection with such route or routes as may be determined at a later date.

C. Aircraft of either contracting party availing itself of the non-traffic stops granted by this agreement may be required by the other contracting party to offer reasonable commercial services in passengers, cargo and mail, both outward and inward.

You will, of course, understand that this agreement may be affected by subsequent legislation enacted by the Congress of the United States.

I shall be glad to have you inform me whether it is the understanding of your Government that the terms of the agreement resulting from the negotiations are as above set forth. If so, it is suggested that February 15, 1945 become the effective date. If your Government

 Secrétaire d'Etat de L'Agriculture et du Travail,
 Republique d'Haiti,
 Port-au-Prince, Haiti."

"Monsieur Secrétaire:

"In recognition of the common interest of the Haitian Government and the Government of the United States in the development of rubber production in Latin America and the desirability that Haiti participate in this development, both for the purpose of developing new export crops and for developing new sources of national income, it seems possible to provide for mutually advantageous cooperation.

"Discussions between representatives of the Bureau of Plant Industry and representatives of the Haitian Government have developed a basis of understanding, which is presented in the following paragraphs for your consideration. If the statement of the project and provision for carrying out the work meet with your approval, please endorse this letter in the space provided and return it to me. A photostat copy will then be sent to you for your records.

"The object of these cooperative investigations is to develop and propagate high-yielding clones of rubber resistant to the South American leaf disease. Seed, budwood, and other plant materials
resulting from these cooperative investigations will be shared by the cooperating agencies.

"The work will be conducted at one or more stations in Haiti, preferably in the Grand'Anse valley, and at various stations of the U. S. Department of Agriculture in Central America and elsewhere.

"The Haitian Government agrees that seeds from rubber trees growing in Haiti may be collected and planted at testing gardens selected in Haiti and to send supplies of the same seed lots to stations established by the Bureau of Plant Industry of the U. S. Department of Agriculture where the seedlings will be used for tests for resistance to the South American leaf disease and for propagation of high-yielding clones. Budwood from promising seedlings will then be shared, some being sent to Haitian stations for propagation and use in Haiti and some being retained by the U. S. Department of Agriculture.

"The Haitian Government agrees to furnish land for a propagation nursery, preferably in the Grand'Anse valley, to be selected jointly by the Agricultural Adviser to the Haitian Government and representative of the U. S. Department of Agriculture, which will be used for propagation of budwood that the U. S. Department of Agriculture will furnish from time to time.

"To the extent to which it may be possible with the finances available from time to time, the Haitian Government agrees to cooperate in the expenses, labor, implements, and other necessary materials, facilities and resources in connection with the establishment and maintenance of the experimental plantings.

"The Haitian Government agrees to prohibit the redistribution of any strains of the rubber tree furnished or developed under this agreement to cooperators, companies or other governments except to those agencies and governments in the Western Hemisphere which are willing to reciprocate by furnishing such similar material as they may have in their possession; and that this restriction shall be passed on to any other agency or government receiving material to prevent controverting the purpose of this restriction.

"The Bureau of Plant Industry agrees to test the performance of seedlings derived from seeds from Haiti, to furnish the Haitian Government selected and tested budwood from time to time, to give advice and information and to furnish the services of a scientist for planning, conducting and interpreting the results of the work performed under the terms of this agreement.

"The Bureau of Plant Industry also agrees to contribute to the cost of the labor, implements and other necessary material, facilities and services in connection with the establishment and maintenance of nursery or experimental plantings, to the degree that this may be necessary to implement and make effective the contributions of the Haitian Government. It also agrees to make available records of all results obtained in tests and experiments made under the terms of this agreement.
"It is mutually agreed that publication of the results of these experiments may be by either party, provided that the cooperative nature of the work is recognized and a copy of the manuscript is furnished the cooperator for review previous to publication. It is understood that the obligations of the Haitian Government and the Bureau of Plant Industry are contingent upon appropriations by the Congresses of the respective countries.

"The Understanding will be effective upon endorsement and will continue in effect for an indefinite period, subject to appropriations being made by the Congresses of Haiti and the United States. It shall be subject to revision by mutual consent of the parties concerned, and either party is at liberty to withdraw upon due notice. Requests for any major changes or notifications of intention of withdrawing shall be submitted to the other party for consideration not less than 90 days in advance of the effective date desired.

"Very truly yours,

E. C. AUCHTER
"Chief of Bureau.

EDOUARD VOLEL
"Secrétaire d'Etat de L'Agriculture
et du Travail."

As a result of practical considerations which have arisen in connection with the operation of the regional field station for rubber experimentation in accordance with the agreement mentioned above, it has been found by the authorities of the United States Department of Agriculture to be desirable that an agreement supplementary to the agreement of January 24, 1941 be entered into for the purpose of defining more clearly certain procedures affecting the sale of products grown on the lands used by the said station and in order to facilitate the continued development of rubber investigations and demonstration plantings in Haiti.

The supplementary agreement as proposed by the United States Department of Agriculture is in terms as follows:

**Article I**

In the sale of products, surplus to the needs of the cooperative research and recognized as the property of the Government of the Republic of Haiti, which have been grown and are now on, or which are or may be developed or cultivated as a result of rubber investigations and demonstration plantings on, the lands owned by the Government of the Republic of Haiti and provided by the Government of the Republic of Haiti for the establishment and operation by the Department of Agriculture of the United States of America of a rubber experiment station, in accordance with the letter agreement for cooperative rubber investigations in Haiti, between appropriate authorities of the Government of the United States of America and the Government of the Republic of Haiti, dated January 24,
1941, the following procedures shall be followed with respect to such sales and with respect to accounting and disbursements:

(a) Any such sale shall be made by the Secretary of State for Agriculture and Labor of the Republic of Haiti and the proceeds from any such sale shall be placed in a special account with the understanding that such proceeds shall be used for the improvement and development of the rubber experiment station, the demonstration plantings, and the lands aforesaid.

(b) The system of accounting for farm receipts and disbursements will be formulated and approved by the Secretary of State for Agriculture and Labor of the Republic of Haiti and the local representatives in charge of rubber investigations for the Department of Agriculture of the United States of America.

**ARTICLE II**

This supplementary agreement shall remain in force as though it were an integral part of the aforesaid letter agreement dated January 24, 1941.

This note, together with a reply from Your Excellency indicating the approval of the Government of the Republic of Haiti, will be considered as constituting an agreement between our two Governments on the subject, it being understood that the letter agreement of January 24, 1941 became effective, in accordance with its own terms, on the date of its endorsement, and that the supplementary agreement as indicated above shall be effective as of the date of Your Excellency's reply note.

Accept, Excellency, the renewed assurances of my highest consideration.

Agreement between the United States of America and Iceland respecting air transport services. Effected by exchange of notes signed at Reykjavik January 27, 1945; effective February 1, 1945.

The American Minister to the Icelandic Minister for Foreign Affairs

LEGATION OF THE
UNITED STATES OF AMERICA

Reykjavik, January 27, 1945

EXCELLENCY:
I have the honor to refer to our negotiations for the conclusion of a reciprocal air transport agreement between the United States of America and Iceland.

It is my understanding that these negotiations, now terminated, have resulted in the following agreement:

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND ICELAND RELATING TO AIR TRANSPORT SERVICES

Having in mind the resolution signed under date of December 7, 1944, at the International Civil Aviation Conference in Chicago, Illinois, for the adoption of a standard form of agreement for provisional air routes and services, and the desirability of mutually stimulating and promoting the sound economic development of air transportation between the United States and Iceland, the two Governments parties to this arrangement agree that the establishment and development of air transport services between their respective territories shall be governed by the following provisions:

ARTICLE 1

The contracting parties grant the rights specified in the Annex hereto necessary for establishing the international civil air routes and services therein described, whether such services be inaugurated immediately or at a later date at the option of the contracting party to whom the rights are granted.

ARTICLE 2

(a) Each of the air services so described shall be placed in operation as soon as the contracting party to whom the rights have been granted by Article 1 to designate an airline or airlines for the route concerned has authorized an airline for such route, and the contracting party granting the rights shall, subject to Article 6 hereof, be bound to give the appropriate operating permission to the airline or airlines concerned; provided that the airlines so designated may be required
to qualify before the competent aeronautical authorities of the contracting party granting the rights under the laws and regulations normally applied by these authorities before being permitted to engage in the operations contemplated by this agreement; and provided that in areas of hostilities or of military occupation, or in areas affected thereby, such inauguration shall be subject to the approval of the competent military authorities.

(b) It is understood that either contracting party granted commercial rights under this agreement should exercise them at the earliest practicable date except in the case of temporary inability to do so.

ARTICLE 3

In order to prevent discriminatory practices and to assure equality of treatment, both contracting parties agree that:

(a) Each of the contracting parties may impose or permit to be imposed just and reasonable charges for the use of public airports and other facilities under its control. Each of the contracting parties agrees, however, that these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services.

(b) Fuel, lubricating oils and spare parts introduced into the territory of one contracting party by the other contracting party or its nationals, and intended solely for use by aircraft of such other contracting party shall be accorded national and most-favored-nation treatment with respect to the imposition of customs duties, inspection fees or other national duties or charges by the contracting party whose territory is entered.

(c) The fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board civil aircraft of the airlines of one contracting party authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other contracting party, be exempt from customs, inspection fees or similar duties or charges, even though such supplies be used or consumed by such aircraft on flights in that territory.

ARTICLE 4

Certificates of airworthiness, certificates of competency and licenses issued or rendered valid by one contracting party shall be recognized as valid by the other contracting party for the purpose of operating the routes and services described in the Annex. Each contracting party reserves the right, however, to refuse to recognize, for the purpose of flight above its own territory, certificates of competency and licenses granted to its own nationals by another State.

ARTICLE 5

(a) The laws and regulations of one contracting party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of
such aircraft while within its territory, shall be applied to the aircraft of the other contracting party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first party.

(b) The laws and regulations of one contracting party as to the admission to or departure from its territory of passengers, crew, or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew or cargo of the other contracting party upon entrance into or departure from, or while within the territory of the first party.

**Article 6**

Each contracting party reserves the right to withhold or revoke a certificate or permit to an airline of the other party in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of either party to this agreement, or in case of failure of an airline to comply with the laws of the State over which it operates as described in Article 5 hereof, or to perform its obligations under this agreement.

**Article 7**

This agreement and all contracts connected therewith shall be registered with the Provisional International Civil Aviation Organization.

**Article 8**

Either contracting party may terminate the rights for services granted by it under this agreement by giving one year's notice to the other contracting party.

**Article 9**

In the event either of the contracting parties considers it desirable to modify the routes or conditions set forth in the attached Annex, it may request consultation between the competent authorities of both contracting parties, such consultation to begin within a period of sixty days from the date of the request. When these authorities mutually agree on new or revised conditions affecting the Annex, their recommendations on the matter will come into effect after they have been confirmed by an exchange of diplomatic notes.

**ANNEX TO AIR TRANSPORT AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND ICELAND**

A. Airlines of the United States authorized under the present agreement are accorded rights of transit and non-traffic stop in the territory of Iceland, as well as the right to pick up and discharge international traffic in passengers, cargo and mail at Keflavik or other suitable airport, on the following route:

The United States to Iceland and points beyond, via intermediate points; in both directions.
B. Airlines of Iceland authorized under the present agreement are accorded rights of transit and non-traffic stop in the territory of the United States, as well as the right to pick up and discharge international traffic in passengers, cargo and mail at New York or Chicago, on the following route:

Iceland to New York or Chicago, via intermediate points;

in both directions.

You will, of course, understand that this agreement may be affected by subsequent legislation enacted by the Congress of the United States.

I shall be glad to have you inform me whether it is the understanding of your Government that the terms of the agreement resulting from the negotiations are as above set forth. If so, it is suggested that February 1, 1945 become the effective date. If your government concurs in this suggestion the Government of the United States will regard it as becoming effective at such time.

Accept, Excellency, the renewed assurances of my highest consideration.

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE REPUBLIC OF TURKEY ON THE PRINCIPLES APPLYING TO AID UNDER THE ACT OF MARCH 11, 1941

Whereas the Government of the Republic of Turkey is desirous of strengthening its national defenses in order that it may be in a position to protect its territorial integrity and sovereign rights in a world at war;

And whereas the President of the United States of America on November 7, 1941 determined, pursuant to the Act of Congress of March 11, 1941, that the defense of the Republic of Turkey is vital to the defense of the United States of America;

And whereas the United States of America has extended and is continuing to extend to the Republic of Turkey aid in the development of its means of defense;

And whereas it is expedient that the final determination of the terms and conditions upon which the Government of the Republic of Turkey receives such aid and of the benefits to be received by the United States of America in return therefor should be deferred until the extent of the aid is known and until the progress of events makes clearer the final terms and conditions and benefits which will be in the mutual interests of the United States of America and the Republic of Turkey and will promote the establishment and maintenance of world peace;

And whereas the Government of the United States of America and the Government of the Republic of Turkey are mutually desirous of concluding now a preliminary agreement in regard to the provision of such aid and in regard to certain considerations which shall be taken into account in determining such terms and conditions; and the making of such an agreement has been in all respects duly authorized, and all acts, conditions and formalities which it may have been necessary to perform, fulfill or execute prior to the making of such an agreement in conformity with the laws either of the United States of America or of the Republic of Turkey have been performed, fulfilled or executed as required;

The undersigned, being duly authorized by their respective Governments for that purpose, have agreed as follows:

ARTICLE I

The Government of the United States of America will continue to supply the Government of the Republic of Turkey with such defense articles, defense services, and defense information as the President
of the United States of America shall authorize to be transferred or provided.

**Article II**

The Government of the Republic of Turkey will provide to the United States of America such articles, services, facilities or information as it may be in a position to supply, and may authorize.

**Article III**

The Government of the Republic of Turkey will not without the consent of the President of the United States of America transfer title to, or possession of, any defense article or defense information transferred to it under the Act of March 11, 1941 of the Congress of the United States of America, or under that Act as amended, or permit the use thereof by anyone not an officer, employee, or agent of the Government of the Republic of Turkey.

**Article IV**

If, as a result of the transfer to the Government of the Republic of Turkey of any defense article or defense information, it becomes necessary for that Government to take any action or make any payment in order fully to protect any of the rights of a citizen of the United States of America who has patent rights in and to any such defense article or information, the Government of the Republic of Turkey will take such action or make such payment when requested to do so by the President of the United States of America.

**Article V**

The Government of the Republic of Turkey will return to the United States of America at the end of the present emergency, as determined by the President of the United States of America, such defense articles transferred under this Agreement as shall not have been destroyed, lost or consumed and as shall be determined by the President of the United States of America to be useful in the defense of the United States of America or of the Western Hemisphere or to be otherwise of use to the United States of America.

**Article VI**

In the final determination of the benefits to be provided to the United States of America by the Government of the Republic of Turkey full cognizance shall be taken of all property, services, information, facilities, or other benefits or considerations provided by the Government of the Republic of Turkey subsequent to March 11, 1941, and accepted or acknowledged by the President of the United States of America on behalf of the United States of America.

**Article VII**

In the final determination of the benefits to be provided to the United States of America by the Government of the Republic of Turkey in return for aid furnished under the Act of Congress of
March 11, 1941 and under that Act as amended, the terms and conditions thereof shall be such as not to burden commerce between the two countries, but to promote mutually advantageous economic relations between them and the betterment of world-wide economic relations. To that end, they shall include provision for agreed action by the United States of America and the Republic of Turkey, open to participation by all other countries of like mind, directed to the expansion, by appropriate international and domestic measures, of production, employment, and the exchange and consumption of goods, which are the material foundations of the liberty and welfare of all peoples; to the elimination of all forms of discriminatory treatment in international commerce; to the reduction of tariffs and other trade barriers; and, in general, to the attainment of all the economic objectives set forth in the Joint Declaration made on August 14, 1941, by the President of the United States of America and the Prime Minister of the United Kingdom.

At an early convenient date, conversations shall be begun between the two Governments with a view to determining, in the light of governing economic conditions, the best means of attaining the above-stated objectives by their own agreed action and of seeking the agreed action of other like-minded Governments.

**Article VIII**

It is understood that in the implementation of the provisions of the agreement each Government will act in accordance with its own constitutional procedures.

**Article IX**

This Agreement shall take effect as from this day’s date. It shall continue in force until a date to be agreed upon by the two Governments.

The American Ambassador to the Turkish Minister for Foreign Affairs

Embassy of the
United States of America

Excellency:

Confirming the Aide Memoire which I handed to Your Excellency on October 21, 1944, I have the honor to inform Your Excellency as follows:

"1. Since the Government of the United States cannot foresee its own future needs for material which it has transferred to other Governments under the provisions of the Lend-Lease Act, it would not want to bind itself at this time to relinquishing the right to request the return of such materials as it might find desirable to have returned to the United States for the reasons set forth in Article V. However, the Government of the United States would, at a mutually convenient time after the signing of the agreement, provide the Turkish Government every opportunity to discuss with the Government of the United States the retention of such materials as the Turkish Government might desire to purchase.

"2. In Article VII, the signatories agree to collaborate with all other countries of like mind for the economic objectives described in that article. Since it is recognized, for example, that the reduction of trade barriers is a matter for action by each country in accordance with its own constitutional procedures, provision is made for conversations to determine the best means of attaining the stated objectives of each Government by their own 'agreed' action.

"3. With respect to the inquiry of the Turkish Government as to whether the signature of the agreement would be availed of by Washington to terminate Lend-Lease aid to Turkey, the response is made that it is not the intention of the Government of the United States to use the signing of the agreement as a basis for terminating Lend-Lease aid to Turkey. The amount of aid in the future will naturally depend on the material available and upon the course of the war."

Accept, Excellency, the renewed assurances of my highest consideration.

Excellence,

En confirmation de l’Aide-Mémoire que j’ai remis à Votre Excellence, le 21 octobre 1944, j’ai l’honneur de porter à la connaissance de Votre Excellence ce qui suit:

“1. Puisque le Gouvernement des États-Unis ne peut pas prévoir ses besoins futurs de matériel qu’il a transféré à d’autres Gouvernements selon les termes de la Loi Prêt-et-Bail, il ne désirerait pas s’engager à présent à renoncer au droit de demander le retour de ces matériaux dont le renvoi aux États-Unis pourrait être avantageux pour les raisons exposées dans l’Article V. Cependant, le Gouvernement des États-Unis offrirait au Gouvernement Turc, à une date qui conviendrait, après la signature de l’accord, toutes les facilités pour délibérer avec le Gouvernement des États-Unis dans le but de garder les matériaux que le Gouvernement Turc désirerait acheter.

“2. Par l’Article VII, les signataires s’engagent à collaborer avec tous les autres pays qui sont d’accord pour poursuivre les buts économiques exposés dans cet Article. Puisqu’il est reconnu, par exemple, que la réduction d’obstacles au commerce est une question relative à laquelle chaque pays doit prendre les dispositions qui conviennent, dans le cadre de ses propres procédés constitutionnels, on a pris les mesures nécessaires pour assurer que des conversations aient lieu afin de déterminer les meilleurs moyens d’atteindre les buts énoncés par chaque Gouvernement, en réalisant les desseins sur lesquels ils se sont mis d’accord.

“3. En ce qui concerne la question posée par le Gouvernement Turc, à savoir si Washington profiterait de la signature de l’accord pour terminer l’assistance Prêt-et-Bail à la Turquie, la réponse est la suivante: Ce n’est pas l’intention du Gouvernement des États-Unis de se servir de la signature de l’accord comme base pour terminer l’assistance Prêt-et-Bail à la Turquie. Le montant de l’assistance à l’avenir dépendra naturellement du matériel disponible et du développement de la guerre.”

Veuillez agréer, Excellence, les assurances renouvelées de ma plus haute considération.

Agreement between the United States of America and Australia respecting certain problems of marine transportation and litigation. Signed at Canberra March 8, 1945; effective March 8, 1945. And exchange of notes.

AGREEMENT
BETWEEN THE AUSTRALIAN AND UNITED STATES GOVERNMENTS.

SIGNED AT CANBERRA
MARCH 1945.
AGREEMENT BETWEEN THE GOVERNMENTS OF THE COMMONWEALTH OF AUSTRALIA AND THE UNITED STATES OF AMERICA.

The Government of the Commonwealth of Australia and the Government of the United States of America being desirous of defining, in so far as certain problems of marine transportation and litigation are concerned, the manner in which shall be provided mutual aid in the conduct of the war including the aid contemplated by the Exchange of Notes between the Australian Minister at Washington and the United States of America, Secretary of State, on the 3rd September, 1942, have agreed as follows:—

**Article I**

(1) Each contracting Government agrees to waive all claims arising out of or in connection with negligent navigation or general average in respect of any cargo or freight owned by such Government and in respect of any vessel (including naval vessel) owned by such Government against the other contracting Government or any cargo, freight or vessel (including naval vessel) owned by such other Government or against any servant or agent of such other Government or in any case where such other Government represents that such claim if made would ultimately be borne by such other Government.

(2) Each contracting Government agrees on behalf of itself and of any organisation which is owned or controlled by it and operating for its account or on its behalf to waive all claims for salvage services against the other contracting Government or against any cargo, freight or vessel (including naval vessel) owned by such other Government or in any case where such other Government represents that such salvage claim if made would ultimately be borne by such other Government.

(3) Each contracting Government agrees to waive all claims for loss of or damage to cargo owned by such Government and arising out of the carriage thereof or for loss of or damage to any cargo or vessel owned by one contracting Government and caused by the shipment or carriage of cargo owned by the other contracting Government against such other Government or against any servant or agent of such other Government or against any vessel (including naval vessel) owned by such other Government or in any cases where such other Government represents that the claim if made would ultimately be borne by such other Government.
(4) Each contracting Government undertakes not to make any claim in respect of any vessel or cargo insured by it to which it may be entitled by virtue of any right of subrogation either—

(a) directly against the other contracting Government; or
(b) in any case where such other Government represents that such claim if made would ultimately be borne by such other Government.

(5) Each contracting Government agrees to extend the principles of this Agreement to such other maritime claims as may from time to time be agreed between them.

**Article II**

Where in any case claims arise which are not required to be waived by this Agreement in addition to or in conjunction with claims which are so required to be waived and it is necessary in any proceedings including proceedings for the limitation of liability that claims be marshalled or for the proper assessment of any salvage or general average that values should be estimated, the provisions of this Agreement shall not apply but claims which would otherwise be required to be waived under this Agreement shall be asserted. Any recoveries, however, shall be waived by the Government entitled to such recoveries as against the other or by mutual arrangements between the two Governments shall be dealt with in such other way as will give effect to the purposes of this Agreement.

**Article III**

(1) For the purpose of this agreement the expression “vessel owned by a contracting Government” includes a vessel on bare boat charter to a contracting Government or requisitioned by a contracting Government on bare boat terms or otherwise in the possession of a contracting Government (except to the extent that the risk of loss or liability is borne by some person other than either contracting Government).

(2) In order to carry out the full intention of the provisions of Article 1 of this Agreement each contracting Government will so arrange in connection with bare boat charters to it that the owners or persons interested through such owners shall not have or assert any claims of the character specified in Article 1.

**Article IV**

Each contracting Government upon the request of the other will provide undertakings for the release of vessels or cargo owned by the other contracting Government from judicial proceedings in Courts in the United States of America or in the Commonwealth of Australia as the case may be where such release will promote the war effort and
the requesting Government so represents, upon compliance with the following conditions:

(a) upon the tender of such request due authority will be conferred by the Government interested in such vessel or cargo upon the law officers of the Government furnishing the undertaking to appear on their behalf and to conduct the defence of such proceedings in so far as such vessel or cargo is concerned, to settle or compromise any such suit, to assert or settle and compromise any claim to which the requesting Government may be entitled in respect of the subject matter of the suit and to make and receive payments in respect thereof; and

(b) the requesting Government upon tendering such a request will assure the other Government of its full co-operation in making defence to such suit and asserting such claims including the making available of witnesses and evidence and including preparation for trial.

Unless otherwise agreed, each contracting Government will reimburse or account to the other for any payment made or received by the one Government on behalf of the other.

**Article V**

Nothing in this Agreement shall be construed as a waiver of the right of either contracting Government in appropriate cases to assert sovereign immunity.

**Article VI**

(1) This Agreement, which shall come into force on the date of signature, shall apply in respect of all claims arising before the date of this Agreement but remaining unsettled at such date or which may arise during the currency of this Agreement.

(2) This Agreement shall remain in force until the expiration of six months from the date upon which either of the contracting Governments shall have given notice in writing of their intention to terminate it.

In witness whereof the undersigned, duly authorized to that effect by their respective Governments, have signed the present Agreement and have affixed thereto their seals.

INTERIM AGREEMENT ON INTERNATIONAL CIVIL AVIATION

The undersigned, on behalf of their respective governments, agree to the following:

ARTICLE I

THE PROVISIONAL ORGANIZATION

Section 1

The signatory States hereby establish a provisional international organization of a technical and advisory nature of sovereign States for the purpose of collaboration in the field of international civil aviation. The organization shall be known as the Provisional International Civil Aviation Organization.

Section 2

The Organization shall consist of an Interim Assembly and an Interim Council, and it shall have its seat in Canada.

Section 3

The Organization is established for an interim period which shall last until a new permanent convention on international civil aviation shall have come into force or another conference on international civil aviation shall have agreed upon other arrangements: provided, however, that the interim period shall in no event exceed three years from the coming into force of the present Agreement.

Section 4

The Organization shall enjoy in the territory of each member State such legal capacity as may be necessary for the performance of its functions. Full juridical personality shall be granted wherever compatible with the constitution and laws of the State concerned.
ARTICLE II

THE INTERIM ASSEMBLY

Section 1

The Assembly shall meet annually and shall be convened by the Council at a suitable time and place. Extraordinary meetings of the Assembly may be held at any time upon call of the Council or at the request of any ten member States of the Organization addressed to the Secretary General.

All member States shall have equal right to be represented at the meetings of the Assembly and each member State shall be entitled to one vote. Delegates representing member States may be assisted by technical advisers who may participate in the meetings but shall have no vote.

A majority of the member States is required to constitute a quorum for the meetings of the Assembly. Unless otherwise provided herein, voting of the Assembly shall be by a simple majority of the member States present.

Section 2

The powers and duties of the Assembly shall be to:

1. Elect at each meeting its President and other officers.
2. Elect the member States to be represented on the Council, as provided in Article III, Section 1.
3. Examine, and take appropriate action upon, the reports of the Council and decide upon any matter referred to it by the Council.
4. Determine its own rules of procedure and establish such subsidiary commissions and committees as may be necessary or advisable.
5. Approve an annual budget and determine the financial arrangements of the Organization.
6. At its discretion, refer to the Council any specific matter for its consideration and report.
7. Delegate to the Council all the powers and authority that may be considered necessary or advisable for the discharge of the duties of the Organization. Such delegations of authority may be revoked or modified at any time by the Assembly.
8. Deal with any matter within the sphere of action of the Organization not specifically assigned to the Council.
ARTICLE III

THE INTERIM COUNCIL

Section 1

The Council shall also elect from among its members one or more Vice Presidents, who shall retain their right to vote when serving as Acting President. The President need not be selected from the members of the Council but if a member is elected, his seat shall be deemed vacant and it shall be filled by the State which he represented. The President shall convene, and preside at, the meetings of the Council; he shall act as the Council's representative; and he shall carry out such functions on behalf of the Council as may be assigned to him.

Decisions by the Council will be deemed valid only when approved by a majority of all the members of the Council.

Section 4

Any member State not a member of the Council may participate in the deliberations of the Council whenever any decision is to be taken which especially concerns such member State. Such member State, however, shall not have the right to vote; provided that, in any case in which there is a dispute between one or more member States

The procedure to govern the arbitral proceedings shall be determined in agreement between the Council and all the interested parties.

9. On direction of the Assembly, convene another conference on international civil aviation; or at such time as the Convention is ratified, convene the first Assembly under the Convention.

The first Interim Council shall be composed of the States elected for that purpose by the International Civil Aviation Conference convened in Chicago on November 1, 1944, provided that no State thus elected shall become a member of the Council until it has accepted the present Agreement and unless such acceptance has taken place within six months after December 7, 1944. In no case shall the term of office of a State as a member of the first Interim Council begin before or go beyond the period of two years, starting from the coming into force of the present Agreement.

Each State so elected to the Interim Council shall take its seat in the Council upon acceptance by that State of this Agreement or upon the entry into force of this Agreement, whichever is the later date, and it shall hold its seat until the end of the two years following the coming into force of this Agreement; provided, that any State so elected to the Council which does not accept this Agreement within six months after the above-mentioned election shall not become a member of the Council and the seat shall remain vacant until the next meeting of the Assembly.

ARTICLE XVII
SIGNATURES AND ACCEPTANCES OF AGREEMENT

The undersigned delegates to the International Civil Aviation Conference, convened in Chicago on November 1, 1944, have affixed their signatures to the present Interim Agreement with the understanding that the Government of the United States of America shall be informed at the earliest possible date by each of the governments on
whose behalf the Agreement has been signed whether signature on its behalf shall constitute an acceptance of the Agreement by that government and an obligation binding upon it.

Any State, a member of the United Nations and any State associated with them, as well as any State which remained neutral during the present world conflict, not a signatory to this Agreement, may accept the present Agreement as an obligation binding upon it by notification of its acceptance to the Government of the United States, and such acceptance shall become effective upon the date of the receipt of such notification by that Government.

The present Interim Agreement shall come into force when it has been accepted by twenty-six States. [*]

Thereafter it will become binding as to each other State indicating its acceptance to the Government of the United States on the date of the receipt of the acceptance by that Government.

The Government of the United States shall inform all governments represented at the International Civil Aviation Conference referred to of the date on which the present Interim Agreement comes into force and shall likewise notify them of all acceptances of the Agreement.

In witness whereof, the undersigned, having been duly authorized sign this Agreement on behalf of their respective governments on the dates appearing opposite their signatures.

Done at Chicago the seventh day of December 1944,

[*The agreement came into force on June 6, 1945, the date on which the twenty-sixth acceptance of the agreement was received by the Department of State. Acceptances of the agreement by the following countries were received by the Department of State on or before June 6, 1945: Afghanistan, Australia, Belgium, Brazil, Canada, Chile, China, Colombia, Czechoslovakia, Egypt, El Salvador, Ethiopia, France, Haiti, Iceland, India, Iraq, Ireland, Lebanon, Liberia, Mexico, Netherlands, New Zealand, Norway, Peru, Poland, Portugal, Turkey, the United Kingdom, and the United States of America. The United States of America accepted with the understanding "that the provisions of the second paragraph of Article V of the Interim Agreement on International Civil Aviation are, in respect of the United States of America, subject to the requirements of its constitutional processes." Afghanistan and Egypt each accepted with a statement to the effect that the expenses stipulated in paragraph 2 of Article V must be authorized by law before payment can be effected. India, New Zealand, and the United Kingdom of Great Britain and Northern Ireland accepted with the reservation that they do not consider Denmark and Thailand as being parties to the agreement nor themselves as in treaty relations with either of the two countries in respect of the agreement.]

AGREEMENT BETWEEN THE GOVERNMENTS OF THE UNITED STATES OF AMERICA AND THE KINGDOM OF IRAQ ON THE PRINCIPLES APPLYING TO AID FOR DEFENSE

Whereas the Governments of the United States of America and the Kingdom of Iraq declare that they are engaged in a cooperative undertaking, together with every other nation or people of like mind, to the end of laying the bases of a just and enduring world peace securing order under law to themselves and all nations;

And whereas the Governments of the United States of America and the Kingdom of Iraq, as signatories of the Declaration by United Nations of January 1, 1942, have subscribed to a common program of purposes and principles embodied in the Joint Declaration made on August 14, 1941 by the President of the United States of America and the Prime Minister of the United Kingdom of Great Britain and Northern Ireland, known as the Atlantic Charter;

And whereas the President of the United States of America has determined, pursuant to the Lend-Lease Act, that the defense of the Kingdom of Iraq against aggression is vital to the defense of the United States of America;

And whereas the United States of America has extended and is continuing to extend to the Kingdom of Iraq aid in resisting aggression;

And whereas it is expedient that the final determination of the terms and conditions upon which the Government of Iraq receives such aid and of the benefits to be received by the United States of America in return therefor should be deferred until the extent of the defense aid is known and until the progress of events makes clearer the final terms and conditions and benefits which will be in the mutual interests of the United States of America and the Kingdom of Iraq and will promote the establishment and maintenance of world peace;

And whereas the Governments of the United States of America and the Kingdom of Iraq are mutually desirous of concluding now a preliminary agreement in regard to the provision of defense aid and in regard to certain considerations which shall be taken into account in determining such terms and conditions and the making of such an agreement has been in all respects duly authorized, and all acts, conditions and formalities which it may have been necessary to perform, fulfill or execute prior to the making of such an agreement in conformity with the laws either of the United States of America or of
the Kingdom of Iraq have been performed, fulfilled or executed as required;

The undersigned, being duly authorized by their respective Governments for that purpose, have agreed as follows:

**Article I**

The Government of the United States of America will continue to supply the Government of Iraq with such defense articles, defense services, and defense information as the President of the United States of America shall authorize to be transferred or provided.

**Article II**

The Government of Iraq will continue to contribute to the defense of the United States of America and the strengthening thereof and will provide such articles, services, facilities or information as it may be in a position to supply.

**Article III**

The Government of Iraq will not without the consent of the President of the United States of America transfer title to, or possession of, any defense article or defense information transferred to it under the Lend-Lease Act or permit the use thereof by anyone not an officer, employee, or agent of the Government of Iraq.

**Article IV**

If, as a result of the transfer to the Government of Iraq of any defense article or defense information, it becomes necessary for that Government to take any action or make any payment in order fully to protect any of the rights of a citizen of the United States of America who has patent rights in and to any such defense article or information, the Government of Iraq will take such action or make such payment when requested to do so by the President of the United States of America.

**Article V**

The Government of Iraq will return to the United States of America at the end of the present emergency, as determined by the President of the United States of America, such defense articles transferred under this Agreement as shall not have been destroyed, lost or consumed and as shall be determined by the President to be useful in the defense of the United States of America or of the Western Hemisphere or to be otherwise of use to the United States of America.

**Article VI**

In the final determination of the benefits to be provided to the United States of America by the Government of Iraq full cognizance shall be taken of all property, services, information, facilities, or other benefits or considerations provided by the Government of Iraq subsequent to March 11, 1941, and accepted or acknowledged by the President on behalf of the United States of America.
ARTICLE VII

In the final determination of the benefits to be provided to the United States of America by the Government of Iraq in return for aid furnished under the Lend-Lease Act, the terms and conditions thereof shall be such as not to burden commerce between the two countries, but to promote mutually advantageous economic relations between them and the betterment of world-wide economic relations. To that end, they shall include provision for agreed action by the United States of America and the Kingdom of Iraq, open to participation by all other countries of like mind, directed to the expansion, by appropriate international and domestic measures, of production, employment, and the exchange and consumption of goods, which are the material foundations of the liberty and welfare of all peoples; to the elimination of all forms of discriminatory treatment in international commerce; to the reduction of tariffs and other trade barriers; and, in general, to the attainment of all the economic objectives set forth in the Joint Declaration made on August 14, 1941, by the President of the United States of America and the Prime Minister of the United Kingdom.

At an early convenient date, conversations shall be begun between the two Governments with a view to determining, in the light of governing economic conditions, the best means of attaining the above-stated objectives by their own agreed action and of seeking the agreed action of other like-minded Governments.

ARTICLE VIII

This Agreement shall take effect as from this day's date. It shall continue in force until a date to be agreed upon by the two Governments.

Signed and sealed at Washington in duplicate this thirty-first day of July, 1945.

DEPARTMENT OF STATE
WASHINGTON
July 31, 1945.

Sr:

I have the honor to refer to the conversations that have occurred between the representatives of our two Governments in connection
with the agreement signed at Washington on this day, between the Government of the United States of America and the Government of Iraq on the principles applying to aid under the Lend-Lease Act, and to set forth my understanding of the accord reached as to the application of certain provisions of the said agreement, as follows:

1. In general, foodstuffs and other supplies for the civilian population of Iraq shall continue to be furnished through regular commercial channels. However, such foodstuffs and other supplies as may be provided for the civilian population of Iraq under the Lend-Lease Act shall be furnished on the basis of current payment by the Iraqi Government, and other goods and services may be furnished on that basis by agreement from time to time. In the absence of special agreement, such payment shall be in United States dollars; however, by agreement between the two Governments prior to delivery payment may be made in Iraqi dinars or in goods or services. Articles obtained by the Iraqi Government in accordance with the provisions of this paragraph become the property of that Government and are therefore excluded from the provisions of Article V of the agreement.

2. Such payments as may be made in Iraqi dinars shall be deposited to the credit of the Government of the United States of America in a depositary in Iraq to be selected by the United States Government. These deposits may be freely drawn upon and used by the Government of the United States of America. The Government of Iraq will permit the exportation to any destination desired by the United States of America of any materials and products purchased by the United States of America with such deposits. In any transactions envisaged in this paragraph the United States Government would, of course, conform to Iraqi laws and regulations in force with respect to internal price or supply programs which are not by their nature inconsistent with the assurances of this paragraph.

3. With particular reference to Articles V and VII of the agreement, it is agreed that if substantial amounts of materials or assistance furnished or to be furnished under the Lend-Lease Act or otherwise, by any Agency of the United States Government without current payment by the Government of Iraq have been or shall be employed by either of our two Governments, during the present war, in the construction of any installations on Iraqi territory, the disposition of such installations remaining on Iraqi territory after the present war shall be governed by an agreement or agreements to which both our Governments shall be parties. Such agreement or agreements shall make appropriate provision for the future ownership and operation of the installation or installations in question, and for the payments or other benefits to be received by the Government of the United States of America on account of its contribution to their cost. The governing purpose of such agreement or agreements shall be to carry out in practice, in whatever way may then appear to be the most effective, the principles of the Joint Declaration of August 14, 1941, known as the Atlantic Charter, and in particular point Fourth thereof relating to the enjoyment by all States of access on equal terms to the trade and to the raw materials of the world. If such agreement in the
case of any installation is not reached within a reasonable time after
the end of the present emergency, as determined by the President of
the United States of America, the Government of the United States
of America may withdraw that installation, or the parts thereof which
it shall have contributed, whether located on private or on public
land, doing no unnecessary damage in the process, and leaving the
land involved in a safe condition.

4. The other obligations of our two Governments in respect of
mutual aid will be satisfied in accordance with the provisions of the
agreement signed this day. It is, of course, understood that in the
implementation of the agreement each Government will act in
accordance with its own constitutional procedures.

Accept, Sir, the renewed assurances of my highest consideration.

The Acting Secretary of State to the Norwegian Ambassador

DEPARTMENT OF STATE
WASHINGTON
May 29, 1945

EXCELLENCY:

With reference to recent communications and conversations between the Government of the United States of America and the Government of Norway in relation to the making of an agreement between the two Governments relating to certain problems of marine transportation and litigation, I have the honor to inform you that the Government of the United States of America is prepared to give effect to an agreement in the following terms:

ARTICLE 1 (1) Each contracting Government agrees to waive all claims arising out of or in connection with negligent navigation or general average in respect of any cargo or freight owned by such Government and in respect of any vessel (including naval vessel) owned by such Government against the other contracting Government or any cargo freight or vessel (including naval vessel) owned by such other Government or against any servant or agent of such other Government or in any case where such other Government represents that such claim if made would ultimately be borne by such other Government.

(2) Each contracting Government agrees on behalf of itself and of any organization which is owned or controlled by it and operating for its account or on its behalf to waive all claims for salvage services against the other contracting Government or against any cargo freight or vessel (including naval vessel) owned by such other Government or in any case where such other Government represents that such salvage claim if made would ultimately be borne by such other Government.

(3) Each contracting Government agrees to waive all claims for loss of or damage to cargo owned by such Government and arising out of the carriage thereof or for loss of or damage to any cargo or vessel owned by one contracting Government and caused by the shipment or carriage of cargo owned by the other contracting Government against such other Government or against any servant or agent of such other Government or against any vessel (including naval vessel) owned by such other Government or in any case where such other Government represents

Waiver of claims arising from negligent navigation.

Claims for salvage services.

Claims arising from loss of cargo, etc.
that the claim if made would ultimately be borne by such other Government.

(4) Each contracting Government undertakes not to make any claim in respect of any vessel or cargo insured by it to which it may be entitled by virtue of any right of subrogation either—

(a) Directly against the other contracting Government; or
(b) In any case where such other Government represents that such claim if made would ultimately be borne by such other Government.

(5) Each contracting Government agrees to extend the principles of this Agreement to such other Maritime claims as may from time to time be agreed between them.

ARTICLE 2. Where in any case claims arise which are not required to be waived by this Agreement in addition to or in conjunction with claims which are so required to be waived and it is necessary in any proceedings including proceedings for the limitation of liability that claims be marshalled or for the proper assessment of any salvage or general average that values should be estimated, the provisions of this Agreement shall not apply but claims which would otherwise be required to be waived under this Agreement shall be asserted. Any recoveries, however, shall be waived by the Government entitled to such recoveries or at the option of such Government shall be dealt with in such other way as will give effect to the purposes of this Agreement.

ARTICLE 3 (1) For the purpose of this Agreement the expression “vessel owned by a contracting Government” includes a vessel on bareboat charter to a contracting Government or requisitioned by a contracting Government on bareboat terms or time chartered to or otherwise operated by or for, a contracting Government on terms which authorize such Government to make this Agreement effective with respect to such vessel.

(2) In order to carry out the full intention of the provisions of Article 1 of this Agreement each contracting Government will so arrange in connection with bareboat charters to it that the owners or persons interested through such owners shall not have or assert any claims of the character specified in Article 1.

(3) Each Government represents that in no case in which a claim arises under any insurance that has been or will be effected on any ship or cargo owned by such Government, or by any wholly-owned agency or instrumentality of such Government, shall any rights that can be exercised against the other Government be subrogated to the insurers concerned insofar as the insurer's liability relates to claims which are required to be waived by this Agreement.

ARTICLE 4. Nothing in this Agreement shall be construed as a waiver of the right of either contracting Government in appropriate cases to assert sovereign immunity.
Article 5 (1) This Agreement shall apply in respect of all claims arising before the effective date of this Agreement but remaining unsettled at such date or which may arise during the currency of this Agreement.

(2) This Agreement shall remain in force until the expiration of one month from the date upon which either of the contracting Governments shall have given notice in writing of their intention to terminate it.

I have the honor to inform you that if an Agreement in accordance with the foregoing terms is acceptable to the Government of Norway, the Agreement shall be considered by the Government of the United States of America to have been concluded and to be in effect as of the date of a corresponding note from you indicating that the Government of Norway is prepared to give effect to the Agreement.

Accept, Excellency, the renewed assurances of my highest consideration.

Agreement between the United States of America and the French Republic, the United Kingdom of Great Britain and Northern Ireland, and the Union of Soviet Socialist Republics respecting the prosecution and punishment of the major war criminals of the European Axis. Signed at London August 8, 1945; effective August 8, 1945. And protocol signed at Berlin October 6, 1945.

WHEREAS the United Nations have from time to time made declarations of their intention that War Criminals shall be brought to justice;

AND WHEREAS the Moscow Declaration of the 30th October 1943 on German atrocities in Occupied Europe stated that those German Officers and men and members of the Nazi Party who have been responsible for or have taken a consenting part in atrocities and crimes will be sent back to the countries in which their abominable deeds were done in order that they may be judged and punished according to the laws of these liberated countries and of the free Governments that will be created therein:

AND WHEREAS this Declaration was stated to be without prejudice to the case of major criminals whose offenses have no particular geographical location and who will be punished by the joint decision of the Governments of the Allies;

NOW THEREFORE the Government of the United States of America, the Provisional Government of the French Republic, the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the Union of Soviet Socialist Republics (herein-after called "the Signatories") acting in the interests of all the United Nations and by their representatives duly authorized thereto have concluded this Agreement.

Article 1.

There shall be established after consultation with the Control Council for Germany an International Military Tribunal for the trial of war criminals whose offenses have no particular geographical location whether they be accused individually or in their capacity as members of organizations or groups or in both capacities.

Article 2.

The constitution, jurisdiction and functions of the International Military Tribunal shall be those set out in the Charter annexed to this
Agreement, which Charter shall form an integral part of this Agreement.

Article 3.
Each of the Signatories shall take the necessary steps to make available for the investigation of the charges and trial the major war criminals detained by them who are to be tried by the International Military Tribunal. The Signatories shall also use their best endeavors to make available for investigation of the charges against and the trial before the International Military Tribunal such of the major war criminals as are not in the territories of any of the Signatories.

Article 4.
Nothing in this Agreement shall prejudice the provisions established by the Moscow Declaration concerning the return of war criminals to the countries where they committed their crimes.

Article 5.
Any Government of the United Nations may adhere to this Agreement by notice given through the diplomatic channel to the Government of the United Kingdom, who shall inform the other signatory and adhering Governments of each such adherence.

Article 6.
Nothing in this Agreement shall prejudice the jurisdiction or the powers of any national or occupation court established or to be established in any allied territory or in Germany for the trial of war criminals.

Article 7.
This Agreement shall come into force on the day of signature and shall remain in force for the period of one year and shall continue thereafter, subject to the right of any Signatory to give, through the diplomatic channel, one month's notice of intention to terminate it. Such termination shall not prejudice any proceedings already taken or any findings already made in pursuance of this Agreement.

In witness whereof the Undersigned have signed the present Agreement.

CHARTER OF THE INTERNATIONAL MILITARY TRIBUNAL

I. CONSTITUTION OF THE INTERNATIONAL MILITARY TRIBUNAL

Article 1.

In pursuance of the Agreement signed on the 8th day of August 1945 by the Government of the United States of America, the Provisional Government of the French Republic, the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the Union of Soviet Socialist Republics, there shall be established an International Military Tribunal (hereinafter called "the Tribunal") for the just and prompt trial and punishment of the major war criminals of the European Axis.

Article 2.

The Tribunal shall consist of four members, each with an alternate. One member and one alternate shall be appointed by each of the Signatories. The alternates shall, so far as they are able, be present at all sessions of the Tribunal. In case of illness of any member of the Tribunal or his incapacity for some other reason to fulfill his functions, his alternate shall take his place.

Article 3.

Neither the Tribunal, its members nor their alternates can be challenged by the prosecution, or by the Defendants or their Counsel. Each Signatory may replace its member of the Tribunal or his alternate for reasons of health or for other good reasons, except that no replacement may take place during a Trial, other than by an alternate.

Article 4.

(a) The presence of all four members of the Tribunal or the alternate for any absent member shall be necessary to constitute the quorum.

(b) The members of the Tribunal shall, before any trial begins, agree among themselves upon the selection from their number of a President, and the President shall hold office during that trial, or as may otherwise be agreed by a vote of not less than three members. The principle of rotation of presidency for successive trials is agreed. ACCORD entre le Gouvernement Provisoire de la République française
et les Gouvernements des États-Unis d'Amérique, du Royaume-Uni de
Grande-Bretagne et de l'Irlande du Nord, et de l'Union des Républiques
Socialistes Soviétiques concernant la poursuite et le châtiment des
grandes criminels de guerre des Puissances Européennes de l'Axe.

CONSIDERANT que les Nations Unies ont, à diverses reprises, pro-
clamé leur intention de traduire en justice les criminels de guerre,

CONSIDERANT que la Déclaration publiée à Moscou le 30 octobre
1943 sur les atrocités allemandes en Europe occupée a spécifié que
les officiers et soldats allemands et les membres du parti nazi qui sont
responsables d'atrocités et de crimes, ou qui ont pris volontairement
part à leur accomplissement, seront renvoyés dans les pays où leurs
forfaits abominables ont été perpétrés, afin qu'ils puissent être jugés
et punis conformément aux lois de ces pays libérés et des Gouverne-
ments libres qui y seront établis;

CONSIDERANT que cette Déclaration était faite sous réserve du cas
des grands criminels, dont les crimes sont sans localisation géogra-
phique précise et qui seront punis par une décision commune des gou-
vernements alliés;

EN CONSÉQUENCE, le Gouvernement Provisoire de la République
Française et les Gouvernements des États-Unis d'Amérique, du
Royaume-Uni de Grande-Bretagne et de l'Irlande du Nord, et de
l'Union des Républiques Socialistes Soviétiques (dénommés ci-après
"les Signataires"), agissant dans l'intérêt de toutes les Nations Unies,
on, par leurs Représentants dûment autorisés, conclu le présent
Accord:

1. Un Tribunal Militaire International sera établi, après consulta-
tion avec le Conseil de Contrôle en Allemagne, pour juger les criminels
de guerre dont les crimes sont sans localisation géographique précise,
qu'ils soient accusés individuellement, ou à titre de membres d'or-
ganisations ou de groupes, ou à ce double titre.

2. La constitution, la juridiction et les fonctions du Tribunal
Militaire International sont prévus dans le statut annexé au présent
Accord, ce statut formant partie intégrale de l'Accord.

3. Chaque Signataire prendra les mesures nécessaires pour assurer
la présence aux enquêtes, et au procès, des grands criminels de guerre
qu'il détient et qui devront être jugés par le Tribunal Militaire Inter-
national. Les Signataires devront également employer tous leurs
efforts pour assurer la présence aux enquêtes et au procès devant le
Tribunal Militaire International de ceux des grands criminels qui ne
se trouvent pas sur le territoire de l'un des Signataires.

4. Aucune disposition du présent Accord ne porte atteinte aux
principes fixés par la Déclaration de Moscou en ce qui concerne le
renvoi des criminels de guerre dans les pays où ils ont commis leurs crimes.

6. Aucune disposition du présent Accord ne porte atteinte à la juridiction ou à la compétence des tribunaux nationaux ou des tribunaux d'occupation déjà établis, ou qui seront créés, dans les territoires alliés ou en Allemagne pour juger les criminels de guerre.

7. Cet Accord entrera en vigueur au jour de la signature; il restera en vigueur pendant une période d'un an et portera ensuite effet, sous réserve du droit de tout Signataire d'indiquer par la voie diplomatique, avec un préavis d'un mois, son intention d'y mettre fin. Cette résiliation ne portera pas atteinte aux mesures déjà prises ni aux décisions déjà rendues, en exécution du présent Accord.

STATUT
du Tribunal Militaire International.

I. Constitution du Tribunal Militaire International.

Article 1.

Article 2.

Le Tribunal sera composé de quatre juges, assistés chacun d'un suppléant. Chacune des puissances signataires désignera un juge et un juge suppléant. Les suppléants devront, dans la mesure du possible, assister à toutes les séances du Tribunal. En cas de maladie d'un membre du Tribunal, ou si, pour toute autre raison, il n'est pas en mesure de remplir ses fonctions, son suppléant siègera à sa place.

Article 3.

Ni le Tribunal, ni ses membres, ni leurs suppléants ne pourront être récusés par le Ministère Public, par les accusés, ou par les défenseurs. Chaque puissance signataire pourra remplacer le juge ou le suppléant désignés par elle, pour raisons de santé ou pour tout autre motif valable, mais aucun remplacement, autre que par un suppléant, ne devra être effectué pendant le cours d'un procès.

Article 4.

a) La présence des quatre membres du Tribunal ou, en l'absence de l'un d'eux, de son suppléant, sera nécessaire pour constituer le quorum.

b) Avant l'ouverture de tout procès, les membres du Tribunal s'entendront pour désigner l'un d'entre eux comme président, et le président remplira ses fonctions pendant toute la durée du procès, à moins qu'il n'en soit décidé autrement par un vote réunissant au moins trois voix. La présidence sera assurée à tour de rôle par chaque membre du Tribunal pour les procès successifs. Cependant, au cas où le Tribunal siégerait sur le territoire de l'une des quatre puissances signataires, le représentant de cette puissance assurera la présidence.

c) Sous réserve des dispositions précédentes, le Tribunal prendra ses décisions à la majorité des voix, en cas de partage égal des voix, celle du Président sera prépondérante: étant entendu toutefois que les jugements et les peines ne seront prononcés que par un vote d'au moins trois membres du Tribunal.
Article 5.

En cas de nécessité et selon le nombre de procès à juger, d’autres Tribunaux pourront être créés; la composition, la compétence et la procédure de chacun de ces tribunaux seront identiques et seront réglées par le présent Statut.

II. JURISDICTION ET PRINCIPES GÉNÉRAUX.

Article 6.

Le Tribunal établi par l’Accord mentionné à l’article 1. ci-dessus pour le jugement et le châtiment des grands criminels de guerre des pays européens de l’Axe sera compétent pour juger et punir toutes personnes qui, agissant pour le compte des pays européens de l’Axe, auront commis, individuellement ou à titre de membres d’organisations, l’un quelconque des crimes suivants.

Les actes suivants, ou l’un quelconque d’entre eux, sont des crimes soumis à la juridiction du Tribunal et entraînent une responsabilité individuelle:

a) LES CRIMES CONTRE LA PAIX: c’est à dire la direction, la préparation, le déclenchement ou la poursuite d’une guerre d’agression, ou d’une guerre en violation des traités, assurances ou accords internationaux, ou la participation à un plan concerté ou à un complot pour l’accomplissement de l’un quelconque des actes qui précèdent;

b) LES CRIMES DE GUERRE: c’est à dire les violations des lois et coutumes de la guerre. Ces violations comprennent, sans y être limitées, l’assassinat, les mauvais traitements et la déportation pour des travaux forcés, ou pour tout autre but, des populations civiles dans les territoires occupés, l’assassinat ou les mauvais traitements de prisonniers de guerre ou des personnes en mer, l’exécution des otages, le pillage des biens publics ou privés, la destruction sans motif des villes et des villages, ou la dévastation que ne justifient pas les exigences militaires;

c) LES CRIMES CONTRE L’HUMANITÉ: c’est à dire l’assassinat, l’extermination, la réduction en esclavage, la déportation, et tout autre acte inhumain commis contre toutes populations civiles, avant ou pendant la guerre; ou bien les persécutions pour des motifs politiques, raciaux ou religieux, commises à la suite de tout crime rentrant dans la compétence du Tribunal International ou s’y rattachant, que ces persécutions aient constitué ou non une violation du droit interne du pays où elles ont été perpétrées. [1]

[1] The contracting governments signed a protocol at Berlin on Oct. 6, 1945 (post, p. 1586) which provides that this part of the French text should be amended to read as follows:

(c) LES CRIMES CONTRE L’HUMANITÉ: c’est à dire l’assassinat, l’extermination, la réduction en esclavage, la déportation, et tout autre acte inhumain commis contre toutes populations civiles, avant ou pendant la guerre, ou bien les persécutions pour des motifs politiques raciaux ou religieux, lorsque ces actes ou persécutions, qu’ils aient constitué ou non une violation du droit interne du pays où ils ont été perpétrés, ont été commis à la suite de tout crime rentrant dans la compétence du Tribunal, ou en liaison avec ce crime.]
Les dirigeants, organisateurs, provocateurs ou complices qui ont pris part à l’élaboration ou à l’exécution d’un plan concerté ou d’un complot pour commettre l’un quelconque des crimes ci-dessus définis sont responsables de tous les actes accomplis par toutes personnes, en exécution de ce plan.

Article 7.
La situation officielle des accusés, soit comme chefs d’État, soit comme hauts fonctionnaires, ne sera considérée ni comme une excuse absolutoire ni comme un motif de diminution de la peine.

Article 8.
Le fait que l’accusé a agi conformément aux instructions de son gouvernement ou d’un supérieur hiérarchique ne le dégagera pas de sa responsabilité, mais pourra être considéré comme un motif de diminution de la peine, si le Tribunal décide que la justice l’exige.

Article 9.
Lors d’un procès intenté contre tout membre d’un groupe ou d’une organisation quelconque, le Tribunal pourra déclarer (à l’occasion de tout acte dont cet individu pourrait être reconnu coupable) que le groupe, ou l’organisation à laquelle il appartenait était une organisation criminelle.
Après avoir reçu l’acte d’accusation, le Tribunal devra faire connaître, de la manière qu’il jugera opportune, que le Ministère Public a l’intention de demander au Tribunal de faire une déclaration en ce sens et tout membre de l’organisation aura le droit de demander au Tribunal à être entendu par celui-ci sur la question du caractère criminel de l’organisation. Le Tribunal aura compétence pour accéder à cette demande ou la rejeter. En cas d’admission de la demande, le Tribunal pourra fixer le mode selon lequel les requérants seront représentés et entendus.

Article 10.
Dans tous les cas où le Tribunal aura proclamé le caractère criminel d’un groupe ou d’une organisation, les autorités compétentes de chaque signataire auront le droit de traduire tout individu devant les tribunaux nationaux, militaires, ou d’occupation, en raison de son affiliation à ce groupe ou à cette organisation. Dans cette hypothèse, le caractère criminel du groupe ou de l’organisation sera considéré comme établi et ne pourra plus être contesté.

Article 11.
Toute personne condamnée par le Tribunal International pourra être inculpée devant un Tribunal national, militaire, ou d’occupation, mentionnés à l’article 10 ci-dessus, d’un crime autre que son affiliation à une organisation ou à un groupe criminels, et le Tribunal saisi pourra, après l’avoir reconnu coupable, lui infliger une peine supplémentaire et indépendante de celle déjà imposée par le Tribunal International pour sa participation aux activités criminelles de ce groupe ou de cette organisation.
Article 12.
Le Tribunal sera compétent pour juger en son absence tout accusé, ayant à répondre des crimes prévus par l'article 6 du présent Statut, soit que cet accusé n'ait pu être découvert, soit que le Tribunal l'estime nécessaire pour toute autre raison dans l'intérêt de la justice.

Article 13.
Le Tribunal établira les règles de sa procédure. Ces règles ne devront en aucun cas être incompatibles avec les dispositions du présent Statut.

III. Commission d'Instruction et de Poursuite des Grands Criminels de Guerre.

Article 14.
Chaque signataire nommera un représentant du Ministère Public, en vue de recueillir les charges et d'exercer la poursuite contre les grands criminels de guerre.

Les représentants du Ministère Public formeront une commission aux fins suivantes:

a) décider d'un plan de travail individuel de chaque représentant du Ministère Public et de son personnel;
b) désigner en dernier ressort les grands criminels de guerre qui devront être traduits devant le Tribunal;
c) approuver l'acte d'accusation et les documents annexes;
d) saisir le Tribunal de l'acte d'accusation et des documents joints;
e) rédiger et recommander à l'approbation du Tribunal les projets de règles de procédure prévus par l'article 13 du présent Statut.

Le Tribunal sera compétent pour accepter, avec ou sans amendements, ou pour rejeter les règles qui lui seront proposées.

La Commission devra se prononcer sur tous les points ci-dessus spécifiés par un vote émis à la majorité et désignera un président en cas de besoin, en observant le principe du roulement; il est entendu que, en cas de partage égal de voix en ce qui concerne la désignation d'un accusé à traduire devant le Tribunal ou les crimes dont il sera accusé, sera adoptée la proposition du Ministère Public qui a demandé que cet accusé soit traduit devant le Tribunal ou qui a soumis les chefs d'accusation contre lui.

Article 15.
Les membres du Ministère Public, agissant individuellement et en collaboration les uns avec les autres, auront également les fonctions suivantes:

a) recherche, réunion et présentation de toutes les preuves nécessaires, avant et au cours du procès;
b) préparation de l'acte d'accusation en vue de son approbation par la Commission, conformément au paragraphe (c) de l'article 14;
c) interrogatoire préliminaire de tous les témoins jugés nécessaires et des accusés;
d) exercice des fonctions du Ministère Public au procès;
d) désignation de représentants pour exercer telles fonctions qui pourront leur être assignées;
f) poursuite de toute autre activité qui pourra leur apparaître nécessaire en vue de la préparation et de la conduite du procès.

Il est entendu qu'aucun témoin ou accusé détenus par l'un des signataires ne pourra être retiré de sa garde sans son consentement.

IV. Procès équitable des accusés.

Article 16.
Afin d'assurer que les accusés soient jugés avec équité, la procédure suivante sera adoptée:

a) l'acte d'accusation comportera les éléments complets spécifiant en détail les charges relevées à l'encontre des accusés. Une copie de l'acte d'accusation et de tous les documents annexes, traduits dans une langue qu'il comprend, sera remise à l'accusé dans un délai raisonnable avant le jugement;
b) au cours de tout interrogatoire préliminaire ou du procès d'un accusé, celui-ci aura le droit de donner toutes explications se rapportant aux charges relevées contre lui;
c) les interrogatoires préliminaires et le procès des accusés devront être conduits dans une langue que l'accusé comprend ou traduits dans cette langue;
d) les accusés auront le droit d'assurer eux-mêmes leur défense devant le Tribunal, ou de se faire assister d'un avocat.
e) les accusés auront le droit d'apporter, au cours du procès, soit personnellement, soit par l'intermédiaire de leur avocat, toutes preuves à l'appui de leur défense, et de poser des questions à tous les témoins produits par l'accusation.

V. Compétence du Tribunal et conduite des débats.

Article 17.
Le Tribunal sera compétent:
a) pour convoquer les témoins au procès, requérir leur présence et leur témoignage, et les interroger;
b) pour interroger les accusés;
c) pour requérir la production de documents et d'autres moyens de preuve;
d) pour faire prêter serment aux témoins;
e) pour nommer des mandataires officiels pour remplir toute mission qui sera fixée par le Tribunal, et notamment pour faire recueillir des preuves par délégation.

Article 18.
Le Tribunal devra:
a) limiter strictement le procès à un examen rapide des questions soulevées par les charges;
b) prendre des mesures strictes pour éviter toute action qui entrainerait un retard non justifié, et écarter toutes questions et déclarations étrangères au procès de quelque nature qu'elles soient;

c) agir sommairement en ce qui concerne les perturbateurs en leur infligeant une juste sanction, y compris l’exclusion d’un accusé ou de son défenseur de certaines phases de la procédure ou de toutes les phases ultérieures, mais sans que cela empêche de décider sur les charges.

Article 19.

Le Tribunal ne sera pas lié par les règles techniques relatives à l’administration des preuves. Il adoptera et appliquera autant que possible une procédure rapide et non formaliste et admettra tout moyen qu’il estimera avoir une valeur probante.

Article 20.

Le Tribunal pourra exiger d’être informé du caractère de tout moyen de preuve avant qu’il ne soit présenté, afin de pouvoir statuer sur sa pertinence.

Article 21.

Le Tribunal n’exigera pas que soit rapportée la preuve de faits de notoriété publique mais les tiendra pour acquis. Il considérera également comme preuves authentiques les documents et rapports officiels des Gouvernements des Nations Unies y compris ceux dressés par les Commissions établies dans les divers pays alliés pour les enquêtes sur les crimes de guerre, ainsi que les procès-verbaux des audiences et les décisions des tribunaux militaires ou autres tribunaux de l’une quelconque des Nations Unies.

Article 22.

Le siège permanent du Tribunal sera à Berlin. La première réunion des membres du Tribunal, ainsi que celle des représentants du Ministère Public, se tiendra à Berlin, en un lieu qui sera fixé par le Conseil de Contrôle en Allemagne. Le premier procès se déroulera à Nuremberg et tous procès ultérieurs auront lieu aux endroits choisis par le Tribunal.

Article 23.

Les fonctions de défenseur peuvent être remplies sur la demande de l’accusé par tout avocat régulièrement qualifié pour plaider dans son propre pays ou par toute autre personne spécialement autorisée à cet effet par le Tribunal.
Article 24.
Le procès se déroulera dans l’ordre suivant:

a) l’acte d’accusation sera lu à l’audience;
b) le Tribunal demandera à chaque accusé s’il plaide “coupable” ou non;
c) Le Ministère Public fera une déclaration préliminaire;
d) le Tribunal demandera à l’accusation et à la défense quelles preuves elles entendent soumettre au Tribunal et se prononcera sur l’admissibilité de ces preuves;
e) les témoins produits par l’accusation seront entendus et il sera procédé ensuite à l’audition des témoins de la défense. Après quoi, tout moyen de réfutation qui sera admis par le Tribunal sera produit par l’accusation ou par la défense;
f) le Tribunal pourra poser toute question qu’il jugera utile, à tout témoin, à tout accusé, et à tout moment;
g) l’accusation et la défense pourront interroger tout témoin et tout accusé qui porte témoignage;
h) la défense plaidera;
i) le Ministère Public soutiendra l’accusation;
j) chaque accusé pourra faire une déclaration au Tribunal;
k) le Tribunal rendra son jugement et fixera la peine.

Article 25.
Tous les documents officiels seront produits et toute la procédure sera conduite devant la cour en français, en anglais, en russe et dans la langue de l’accusé. Le compte-rendu des débats pourra aussi être traduit dans la langue du pays où siégera le Tribunal, dans la mesure où celui-ci le considérera désirable dans l’intérêt de la justice et pour éclairer l’opinion publique.

VI. Jugement et peine.

Article 26.
La décision du Tribunal relative à la culpabilité ou à l’innocence de tout accusé devra être motivée et sera définitive et non susceptible de révision.

Article 27.
Le Tribunal pourra prononcer contre les accusés convaincus de culpabilité la peine de mort ou tout autre châtiment qu’il estimera être juste.

Article 28.
En plus de toute peine qu’il aura infligée, le Tribunal aura le droit d’ordonner à l’encontre du condamné la confiscation de tous biens volés et leur remise au Conseil de Contrôle en Allemagne.

Article 29.
En cas de culpabilité, les décisions seront exécutées conformément aux ordres du Conseil de Contrôle en Allemagne et ce dernier aura
le droit, à tout moment, de réduire ou de modifier d’autre manière les décisions, sans toutefois pouvoir en aggraver la sévérité. Si, après qu’un accusé a été reconnu coupable et condamné, le Conseil de Contrôle en Allemagne découvre de nouvelles preuves qu’il juge de nature à constituer une charge nouvelle contre l’accusé, il en informera la Commission prévue par l’article 14 du présent Statut, afin que celle-ci prenne telle mesure qu’elle estimera appropriée dans l’intérêt de la justice.

VII. Dépenses.

Les dépenses du Tribunal et les frais de procès seront imputés par les signataires sur les fonds affectés au Conseil de Contrôle en Allemagne.
СОГЛАШЕНИЕ
МЕЖДУ ПРАВИТЕЛЬСТВАМИ СОЮЗА СОВЕТСКИХ СОЦИАЛИСТИЧЕСКИХ РЕСПУБЛИК, СОЕДИНЕННЫХ ШТАТОВ АМЕРИКИ И СОЕДИНЕННОГО КОРОЛЕВСТВА ВЕЛИКОБРИТАНИИ И СЕВЕРНОЙ ИРЛАНДИИ И ВРЕМЕННЫМ ПРАВИТЕЛЬСТВОМ ФРАНЦУЗСКОЙ РЕСПУБЛИКИ О СУДЕБНОМ ПРЕСЛЕДОВАНИИ И НАКАЗАНИИ ГЛАВНЫХ ВОЕННЫХ ПРЕСТУПНИКОВ ЕВРОПЕЙСКИХ СТРАН ООН.

Принимая во внимание, что Объединенные Нации неоднократно заявляли о своем намерении совершить правосудие над военными преступниками;

И принимая во внимание, что в Московской Декларации от 30 октября 1943 года об ответственности гитлеровцев за совершаемые зверства было заявлено, что те немецкие офицеры и солдаты и члены нацистской партии, которые были ответственны за зверства и преступления или добровольно принимали в них участие, будут отосланы в страны, в которых были совершены их отвратительные действия, для того, чтобы они могли быть судимы и наказаны в соответствии с законами этих освобожденных стран и свободных правительств, которые будут там созданы;

И принимая во внимание, что было заявлено, что эта Декларация не затрагивает вопроса о главных преступниках, преступления которых не связаны с определенным географическим местом, и которые будут наказаны совместным решением правительств союзников;

В настоящее время Правительства Союза Советских Социалистических Республик, Соединенных Штатов Америки и Соединенного Королевства Великобритании и Северной Ирландии и Временное Правительство Французской Республики (в дальнейшем именуемые "Подписавшимися Сторонами"), действуя в интересах всех Объединенных Наций и в лице своих должны образом уполномочен-
2.

Вступление.

Статья 1.

Учредить после консультации с Контрольным Советом в Германии Международный Военный Трибунал для суда над военными преступниками, преступления которых не связаны с определенным географическим местом, независимо от того, будут ли они обвиняться индивидуально, или в качестве членов организаций или групп, или в том и другом качестве.

Статья 2.

Организация, юрисдикция и функции Международного Военного Трибунала определяются в прилагаемом к настоящему Соглашению Уставе, который составляет неотъемлемую часть этого Соглашения.

Статья 3.

Каждая из Подписавшихся Сторон предпримет необходимые меры, чтобы предоставить для расследования обвинений и суда главных военных преступников, содержащихся у них под стражей и подлежащих суду Международного Военного Трибунала. Подписавшиеся Стороны также предпримут максимальные усилия, чтобы предоставить для расследования обвинений и суда Международного Военного Трибунала тех главных военных преступников, которые не находятся на территории какой-либо из Подписавшихся Сторон.

Статья 4.

Ничто в настоящем Соглашении не умаляет установленных Московской Декларацией положений о возвращении военных преступников в страны, где ими были совершены преступления.

Статья 5.

Любое из Правительств Объединенных Наций может присоединиться к настоящему Соглашению, оповестив дипломатическим путем Правительство Соединенного Королевства, которое в каж-
дом отдельном случае сообщит об этом другим Подписавшимся и 
Присоединившимся правительствам.

Статья 6.

Ничто в настоящем Соглашении не умаляет компетенции и не ограничивает прав национальных или оккупационных судов, которые уже созданы или будут созданы на любой союзной тер- 
ритории или в Германии для суда над военными преступниками.

Статья 7.

Настоящее Соглашение вступает в силу в день его подписа- 
ния и остается в силе в течение года, а затем продолжает 
действовать при условии, что любая из Подписавшихся Сторон 
имеет право за месяц сообщить дипломатическим путем о своем 
намерении прекратить Соглашение. Такое прекращение Соглаше- 
ния не умаляет значения любых действий, уже совершенных, или 
любых решений, уже принятых в соответствии с настоящим Согла- 
шением.

В удостоверение чего нижеподписавшиеся подписали на-
стоящее Соглашение.

Составлено в Лондоне 8 августа 1945 года, в 4 экземпляр- 
рах, каждый на русском, английском и французском языках. Каж- 
дый текст имеет одинаковую силу.

УСТАВ
МЕЖДУНАРОДНОГО ВОЕННОГО ТРИБУНАЛА

I.
ОРГАНИЗАЦИЯ МЕЖДУНАРОДНОГО ВОЕННОГО ТРИБУНАЛА

Статья 1. В соответствии с Соглашением, заключенным 8 августа 1945 года между Правительствами Союза Советских Социалистических Республик, Соединенных Штатов Америки и Соединенного Королевства Великобритании и Северной Ирландии и Временным Правительством Французской Республики, учреждается Международный Военный Трибунал (в дальнейшем именуемый "Трибунал") для справедливого и быстрого суда и наказания главных военных преступников европейских стран оси.

Статья 2. Трибунал состоит из 4 членов и их заместителей. Каждая из Подписавшихся Сторон назначает по одному члену и одному заместителю. Заместители будут, поскольку они могут, присутствовать на всех заседаниях Трибунала. В случае болезни кого-либо из членов Трибунала или невозможности для него нести свои обязанности по какой-либо другой причине, его место занимает его заместитель.

Статья 3. Ни Трибунал, ни его члены, ни их заместители не могут быть отведены обвинителем, подсудимым или защитой. Каждая из Подписавшихся Сторон может заменить назначенного ею члена Трибунала или его заместителя по болезни или по другим уважительным причинам. Во время судебного процесса член Трибунала может быть заменен только его заместителем.

Статья 4. а) Для наличия кворума необходимо присутствие всех четырех членов Трибунала или заместителей, заменяющих отсутствующих членов Трибунала.
2.

б) Члены Трибунала до начала судебного процесса дого-варяются между собой о выборе одного из их числа председателем; председатель выполняет свои обязанности в течение этого судебного процесса или так, как будет решено голосами не менее трех членов Трибунала. Устанавливается принцип очередности председательствования на последующих судебных процессах. Однако, если заседание Трибунала происходит на территории одной из четырех Подписавшихся Сторон, то председательствует представитель этой Стороны в Трибунале.

c) За исключением вышеуказанного, решения принимаются Трибуналом большинством голосов, а при разделении голосов голос председательствующего является решающим; однако, признание виновности и определение наказания выносятся всегда большинством голосов не менее 3 членов Трибунала.

Статья 5. В случае необходимости и в зависимости от количества требующих рассмотрения дел могут быть учреждены другие трибуналы; порядок учреждения, функции и процедура каждого из трибуналов будут тождественны и будут регулироваться настоящим Уставом.

II.

ЮРИСДИКЦИЯ И ОБЩИЕ ПРИНЦИПЫ

Статья 6. Трибунал, учрежденный Соглашением, упомянутым в ст.1 настоящего Устава для суда и наказания главных военных преступников европейских стран оси, имеет право судить и наказывать лиц, которые, действуя в интересах европейских стран оси индивидуально или в качестве членов организации, совершили любое из следующих преступлений.

Следующие действия или любые из них являются преступлениями, подлежащими юрисдикции Трибунала и влекущими за собой индивидуальную ответственность:
3.

a) **ПРЕСТУПЛЕНИЯ ПРОТИВ МИРА**, а именно: планирование, подготовка, развешивание или ведение агрессивной войны или войны в нарушение международных договоров, соглашений или заверений, или участие в общем плане или заговоре, направленных к осуществлению любого из вышеназванных действий;

b) **ВОЙНУЕ ПРЕСТУПЛЕНИЯ**, а именно: нарушение законов или обычаев войны, к этим нарушениям относятся убийства, истязания или увод в рабство или для других целей гражданского населения оккупированной территории; убийства или истязания военнопленных или лиц, находящихся в море; убийства заложников; ограбление общественной или частной собственности; бессмысленное разрушение городов или деревень; разорение, неправданное военной необходимостью и другие преступления;

c) **ПРЕСТУПЛЕНИЯ ПРОТИВ ЧЕЛОВЕЧНОСТИ**, а именно: убийства, истязания, порабощение, ссылка и другие жестокости, совершенные в отношении гражданского населения до или во время войны, или преследования по политическим, расовым или религиозным мотивам с целью осуществления или в связи с любым преступлением, подлежащим криминации Трибунала, независимо от того, являлись ли эти действия нарушением внутреннего права страны, где они были совершены, или нет.

Руководители, организаторы, подстрекатели и пособники, участвовавшие в составлении или в осуществлении общего плана или заговора, направленного к совершению любых из вышепомянутых преступлений, несут ответственность за все действия, совершенные любыми лицами с целью осуществления такого плана.

Статья 7. Должностное положение подсудимых, их подлож- ние в качестве глав государств или ответственных чиновников различных правительственных ведомств не должно рассматривать-ся как основание к освобождению от ответственности или смяг-чению наказания.
Статья 8. Тот факт, что подсудимый действовал по распоряжению правительства или приказу начальника, не освобождает его от ответственности, но может рассматриваться как довод для смягчения наказания, если Трибунал признает, что этого требуют интересы правосудия.

Статья 9. При рассмотрении дела о любом отдельном члене той или иной группы или организации Трибунал может (в связи с любым действием, за которое это лицо будет осуждено) признать, что группа или организация, членом которой подсудимый являлся, была преступной организацией.

После получения обвинительного акта Трибунал сделает такое обявление, какое он найдет нужным, о том, что обвинение наносит вред подписным перед Трибуналом с вынесением определения о принятии организации преступной. Любой член организации будет вправе обратиться в Трибунал за разрешением быть выслушанным Трибуналом по вопросу о преступном характере организации. Трибунал будет вправе удовлетворить или отклонить эту просьбу. В случае удовлетворения такой просьбы Трибунал может определить, каким образом эти лица будут представлены и выслушаны.

Статья 10. Если Трибунал признает ту или иную группу или организацию преступной, компетентные национальные власти каждой из Подписавшихся Сторон имеют право привлекать к суду национальных, военных или оккупационных трибуналов за принадлежность к этой группе или организации. В этих случаях преступный характер группы или организации считается доказанным и не может подвергаться оспариванию.

Статья 11. Любое лицо, осужденное Международным Военным Трибуналом, может обвиняться на суде национального, военного или оккупационного трибунала, упомянутого в статте 10 настоящего Устава, в совершении другого преступления, помимо
5.

принадлежности к преступной группе или организации; по осу
деню такой трибунал может наложить на это лицо новое наказа
ние в дополнение к тому, которое было наложено Международным
Боенными Трибуналом за участие в преступной деятельности этой
группы или организации.

Статья 12. Трибунал вправе рассматривать дела лиц, об
виняемых в преступлениях, предусмотренных статьей 6 настояще
го Устава, в отсутствие обвиняемых, если обвиняемый не разъяс
нен, или если Трибунал по любым основаниям признает необходи
мым в интересах правосудия слушать дело заочно.

Статья 13. Трибунал устанавливает регламент своей ра
боты. Этот регламент не должен противоречить положениям на
стоящего Устава.

III.

КОМИТЕТ ПО РАССЛЕДОВАНИЮ ДЕЛ И
ОБВЕНЕНИЮ ГЛАВНЫХ ВОЕННЫХ ПРЕСТУПНИКОВ

Статья 14. Каждая из подписавшихся Сторон назначит
главного обвинителя для расследования дел и обвинения глав
ных военных преступников.

Главные обвинители будут действовать в качестве Коми
тета для следующих целей:

а) согласования плана индивидуальной работы каждого из
главных обвинителей и их штата;

б) окончательного определения лиц, подлежащих суду Три
буналам;

c) утверждения обвинительного акта и передаваемых с
им документов;

d) передачи обвинительного акта и прилагаемых докумен
тов в Трибунал;

e) составления и рекомендации Трибуналу для его утвер
ждения проекта регламента его работы, предусмотренного ста
тьей 13 настоящего Устава. Трибунал вправе утвердить с поправ
6.
коми или без поправок или вовсе отвергнуть этот регламент.

Во всех вышеуказанных случаях Комитет принимает решения
большинством голосов; Комитет выделяет из своего состава пред-
седателя, как это будет удобно и в соответствии с принципом
очередности. Однако, при разделении голосов по вопросу об
определении лиц, подлежащих суду Трибунала, или преступлений,
в которых они будут обвиняться, будет принято предложение той
стороны, которая предложила предать обвиняемого суду или
пред'явить ему определенные обвинения.

Статья 15. Главные обвинители, действуя индивидуально и
в сотрудничестве друг с другом, выполняют следующие обязан-
ности:

а) расследуют, собирают и представляют до или во время
судебного процесса все необходимые доказательства;

б) готовят обвинительный акт для утверждения Коми-
тета в соответствии с п."с" ст.14;

c) производят предварительный допрос всех необходимых
свидетелей и подсудимых;

д) выступают в качестве обвинителей на суде;

е) назначают уполномоченных для выполнения таких обязан-
ностей, какие будут им поручены;

г) производят другие действия, которые окажутся необхо-
dымными в целях подготовки дела и производства суда.

Устанавливается, что ни один свидетель или подсудимый,
содержащийся под стражей какой-либо из Подписавшихся Сторон,
не будет взят из-под власти этой Стороны без ее согласия.

IV.

ПРОЦЕССУАЛЬНЫЕ ГАРАНТИИ ДЛЯ ПОДСУДИМЫХ

Статья 16. Для обеспечения справедливого суда над под-
судимым устанавливается следующий порядок:
7.

б) допрашивать подсудимого;

c) требовать предъявления документов и других материалов, используемых как доказательства;

д) приводить к присяге свидетелей;

е) назначать должностных лиц для выполнения указанных Трибуналом задач, включая собирание доказательства по полномочию Трибунала.
6.

Статья 18. Трибунал должен:

а) строго ограничивать судебное разбирательство быстрым рассмотрением вопросов, связанных с обвинением;

б) принимать строгие меры для предотвращения любых выступлений, которые могут вызвать неоправданную задержку процесса, исключать какие бы то ни было не относящиеся к делу вопросы и заявления;

в) принимать решительные меры во всех случаях неподчинения требованиям суда и налагать надлежащие взыскания, включая лишение любого подсудимого или его защитника права присутствовать на всех или некоторых заседаниях, однако без ущерба для расследования обвинений.

Статья 19. Трибунал не должен быть связан формальностями в использовании доказательств. Он устанавливает и применяет возможно более быструю и несложенную формальностями процедуру и допускает любые доказательства, которые, по его мнению, имеют доказательную силу.

Статья 20. Трибунал может потребовать, чтобы ему сообщили о характере любых доказательств перед тем, как они будут представлены, с тем, чтобы Трибунал мог определить, относятся ли они к делу.

Статья 21. Трибунал не будет требовать доказательств общеизвестных фактов и будет считать их доказанными. Трибунал также будет принимать без доказательств официальные правительственные документы и доклады Об'единенных Наций, включая акты и документы комитетов, созданных в различных союзных странах для расследования военных преступлений, протоколы и приговоры военных или других трибуналов каждой из Об'единенных Наций.

Статья 22. Постоянное местонахождение Трибунала - Берлин. Первые заседания членов Трибунала и Главных Обвинителей
состоятся также в Берлине, в том месте, которое будет определено Контрольным Советом в Германии. Первый процесс состоится в Нюрнберге, а последующие процессы состоятся в местах по определению Трибунала.

Статья 23. В каждом судебном процессе участвуют один или несколько главных обвинителей. Функции главного обвинителя могут выполняться им лично или любым лицом или лицами по его полномочию.

Функции защитника могут выполняться по ходатайству подсудимого любым адвокатом, имеющим право выступать на суде в его родной стране, или любым другим лицом, которое будет специально уполномочено на это Трибуналом.

Статья 24. Судебное заседание проходит в следующем порядке:

а) оглашается обвинительный акт на суде;

б) Трибунал опрашивает подсудимых, признают ли они себя виновными;

c) обвинитель произносит вступительную речь;

d) Трибунал опрашивает обвинителей и защитников, имеющих у них и какие ходатайства о представлении доказательств, после чего Трибунал выносит определение по этим ходатайствам;

e) допрашиваются свидетели обвинения, а затем свидетели защиты, после чего обвинители или защитники представляют такие доказательства в опровержение доказательств, представленных другой стороной, какие Трибунал признает допустимыми;

f) Трибунал может в любое время задавать любые вопросы любому из свидетелей и подсудимых;

g) обвинение и защита допрашивают и могут подвергать перекрестному допросу любого свидетеля и любого подсудимого, который дает показания;

h) защитник произносит защитительную речь;

i) обвинитель произносит обвинительную речь;
10.

j) каждый из подсудимых вправе выступить с последним словом;

к) Трибунал выносит приговор.

Статья 26. Все официальные документы представляются и все судебные заседания ведутся на русском, английском и французском языках и на языке подсудимого. На языке той страны, в которой заседает Трибунал, может быть переведена такая часть протоколов и судебного заседания, какую Трибунал признает желательной в интересах правосудия и общественного мнения.

VI.

ПРИГОВОР

Статья 26. Приговор Трибунала должен содержать мотивы, на основании которых он вынесен; приговор является окончательным и не подлежит пересмотру.

Статья 27. Трибунал имеет право приговорить виновного к смертной казни или другому наказанию, которое Трибунал признает справедливым.

Статья 28. Трибунал вправе в дополнение к определенному им наказанию постановить об отобрании у осужденного награбленного имущества и распорядиться о передаче этого имущества Контрольному Совету в Германии.

Статья 29. В случае осуждения приговор приводится в исполнение согласно приказу Контрольного Совета в Германии; Контрольный Совет может в любое время смягчить или каким-либо образом изменить приговор, но не может повысить наказание. Если после осуждения подсудимого и вынесения приговора Контрольный Совет получит новые доказательства, которые, по его мнению, дают основание для возбуждения нового обвинения против подсудимого, он сообщает об этих доказательствах Комитету, учрежденному в соответствии со статьей 14 настоящего Устава.
II.

Комитет поступит, как он найдет нужным в интересах правосудия.

ПАСХОДЫ.

Статья 30. Расходы по содержанию Трибунала и проведению судебных процессов будут покрываться Подписавшимися Сторонами за счет фондов, выделенных на содержание Контрольного Совета в Германии.

Относительно Соглашения и Устава по обвинению главных преступников войны, подписанного в Лондоне 8 августа 1945 г. на английском, французском и русском языках;

Относительно несоответствия, которое было обнаружено, между оригиналом статьи 6, параграфа /c/ Устава на русском языке, с одной стороны, и оригиналами на английском и французском языках, с другой стороны, а именно: в английском и французском текстах статьи 6, параграфа /c/ Устава между словами "война" и "или" поставлена точка с запятой, в то время, как в русском тексте стоит запятая.

Так как желательно исправить это несоответствие, нижеподписавшиеся лица, подписавшие Соглашение от имени соответствующих правительств, договорились о том, что русский текст статьи 6, параграфа /c/ был изменен, чтобы точка с запятой в английском тексте была изменена на запятую, а французский текст должен читаться следующим образом:

Agreement between the United States of America and Ecuador respecting a health and sanitation program. Effectuated by exchange of notes signed at Quito December 23, 1944, and January 15, 1945.

The American Ambassador to the Ecuadoran Minister for Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA

No. 503

December 23, 1944

EXCELLENCY:

I have the honor to refer to the communications between the Acting Secretary of State of the United States of America and the Minister-Counselor of the Ecuadoran Embassy in Washington, D.C., dated February 24, 1942, relating to the initiation of the cooperative program of public health and sanitation in Ecuador. Your Excellency will recall that the United States Government, subsequent to the exchange of these communications, has allocated the sum of two million seven hundred and fifty thousand five hundred dollars ($2,750,500.00 U.S.) to be used in carrying out the cooperative health and sanitation program in accordance with resolution XXX approved at the Third Meeting of the Ministers of Foreign Affairs of the American Republics, held at Rio de Janeiro in January, 1942.

I have the honor to state that my Government is prepared, if Your Excellency's Government so desires, to make available, through the Institute of Inter-American Affairs an additional sum of two hundred thousand dollars ($200,000.00 U.S.) for the purpose of cooperating with the Government of Ecuador in prolonging the aforementioned program of health and sanitation on the understanding that the Government of Ecuador for its part will contribute the sum of two hundred thousand dollars ($200,000.00 U.S.), both at an agreed rate of exchange. The extension of the program would terminate December 31, 1947, insofar as the funds contributed by the United States are concerned.

The type of work and specific projects to be undertaken and the cost thereof and the methods and procedures to be employed in conducting the program would be mutually agreed to by the appropriate official of the Government of Ecuador and an appropriate official of the Institute of Inter-American Affairs.

The Government of the United States of America would continue to furnish such experts as would be considered necessary in order to collaborate with Your Excellency's Government in continuing the health and sanitation program.
All completed works and property acquired in connection with the program would become the property of the Government of Ecuador.

No project would be undertaken that would require services, supplies or materials, the procurement of which would handicap any phase of the war effort.

I would be glad if Your Excellency would be so good as to confirm to me your approval of this general proposal with the understanding that the program would be a subject of further discussion and agreement as provided for herein.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

Agreement between the United States of America and Peru respecting a cooperative fellowship program. Effected by exchange of notes signed at Washington December 21, 1944, and January 4, 1945.

The Peruvian Ambassador to the Secretary of State
PERUVIAN EMBASSY
WASHINGTON 6, D.C.

DECEMBER 21, 1944.

YOUR EXCELLENCY:

With reference to informal conversations which have been held by officers of the Department of State with Dr. Eduardo Garland, Minister-Counselor of the Peruvian Embassy, regarding a Second Peruvian-United States Cooperative Fellowship Program, and in view of the excellent results reached by the accomplishment of the understanding outlined in the Department of State Memorandum dated July 30, 1942 [1] and the Embassy's note of August 4, 1942 for a special technical training granted in educational institutions of the United States for advance students of Peru, I have been instructed by the Peruvian Government to inform Your Excellency that the Peruvian Government will be glad to agree to a program of this nature to be undertaken as follows:

The program will cover fifteen (15) fellowships at the graduate level for study in the United States, expenses and responsibilities of which will be taken care of as follows:

The Peruvian Government will attend to travel expenses from student's residence in Peru to the place of study in the United States and return, tuition expenses during orientation and tuition expenses if necessary to place a student in a field of study specified by the Peruvian Government for which no fellowship is available.

The United States Government will handle maintenance expenses for twelve (12) months at place of study, including orientation period, in standard amounts now paid in the different localities and not exceeding $135.00 per month.

The Institute of International Education will take care of the acquisition of tuition fellowship for each candidate at principal place of study, in so far as possible, placement of candidates at appropriate institutions of higher learning in the United States and supervision of students, including periodical reports on their progress.

To achieve the best possible results the Peruvian Government considers that the following procedure be adopted for the program:

[1][Not printed.]
1. **Fields of study.** The Peruvian Government will decide on the fields of study in which technical instruction is to be given and on the number of persons to be appointed to each field. This information will be submitted as soon as possible to the Department of State in order that the Institute of International Education may earmark the necessary fellowships for as many fields as possible and send information to Peru regarding the general requirements for study in each field for the guidance of the selection authorities.

2. **Selection of candidates.** Candidates would submit their applications on forms of the Institute of International Education which would be filed with the Peruvian-North American Fellowship and Scholarship Committee in Lima. For the purpose of this program, the Peruvian Government would, should it so desire, appoint two representatives to sit with the Committee and have a voice in its proceedings. If possible, two candidates will be submitted for each fellowship.

3. **Standards of eligibility.** The awards will be made to persons with university or superior normal school degrees who have had at least one year of practical experience in the respective fields in which they wish to pursue graduate studies; who demonstrate that they possess a working knowledge of the English language; who have better than average academic records; who have satisfactory personality and potential adaptability to living abroad; and who are in good health.

4. **Present location of candidates.** The awards will be made to persons now in Peru who have not previously received fellowship assistance from the United States Government.

5. **Orientation course.** For the purpose of adequately preparing the Peruvian students to undertake the advanced courses most effectively, the students will be given orientation courses in the language and customs of the United States upon their arrival. This course will be given at the place agreed upon by the Department of State, the Peruvian Embassy in Washington, and the Institute of International Education, and the tuition charges therefor will be borne by the Peruvian Government.

6. **Announcement of program.** Public announcement of the program will be made simultaneously in Peru and in the United States at a mutually agreeable time.

7. **Time schedule.** It is suggested that the following schedule be adopted:

Public Announcement shall be arranged for upon receipt of a reply from the Department of State to this note.

December 20, 1944—February 1, 1945—Receipt of applications by Selection Committee.

February 1—February 15, 1945—Review of applications by Selection Committee and transmission to the Institute of International Education.
March 1, 1945—May 1, 1945—Placement of candidates by the Institute of International Education.

May 1, 1945 (earlier if possible)—Announcement of awards.

June 1—June 15, 1945—Arrival of successful candidates in the United States.

June 15, 1945—Orientation.

(Date to be fixed in each case) — Commencement of formal studies.

8. Renewals. Renewal of fellowships will be considered through the regular program of the Institute of International Education for a limited number of persons who demonstrate high ability, provided funds are available for this purpose.

9. Other conditions. Candidates must obligate themselves to return to Peru on the conclusion of their studies.

Fellowships may be revoked should any student demonstrate inability to pursue the studies for which he has been brought to the United States.

I will appreciate Your Excellency's acceptance of this program which I believe will undoubtedly contribute to foster the excellent relations that have always existed between our two countries.

Please accept, Your Excellency, the renewed assurances of my highest consideration.

Excellency:

I have the honor to acknowledge receipt of your note of December 21, 1944, which refers to informal conversations which have been held by officers of the Department with Dr. Eduardo Garland, Minister-Counsellor of the Peruvian Embassy, regarding a Second Peruvian-United States Cooperative Fellowship Program and expresses the desire of the Peruvian Government, in view of the excellent results of the First Program, to undertake a similar agreement with the Government of the United States.

I have noted that it is proposed that the program cover fifteen (15) fellowships at the graduate level for study in the United States, expenses and responsibilities of which would be divided between the Peruvian Government and the Government of the United States, the latter having the cooperation of the Institute of International Education. The specific conditions governing the procedure for carrying out the program have been noted and this Government is in entire accord with them.
It is a source of satisfaction to my Government that the First Peruvian-United States Cooperative Fellowship Program should have been so successful, and it is with much pleasure that I am able to inform you of my Government's desire to cooperate in this Second Program.

Accept, Excellency, the renewed assurances of my highest consideration.

Agreement between the United States of America and Ecuador respecting military service. Effected by exchange of notes signed at Washington April 2 and 5, 1945.

The Secretary of State to the Ecuadorian Ambassador

DEPARTMENT OF STATE  
WASHINGTON  
April 2, 1945

EXCELLENCY:

I have the honor to refer to the verbal indication made on March 23, 1945, by an officer of the Ecuadorian Embassy to an officer of the Department of State that Your Excellency's Government desires to conclude an agreement with this Government with respect to the application of the United States Selective Training and Service Act of 1940, as amended, to Ecuadorian nationals residing in the United States.

As you are aware, the Act provides that with certain exceptions every male citizen of the United States and every other male person between the ages of eighteen and sixty-five residing in the United States shall register. The Act further provides that, with certain exceptions, registrants within specified age limits are liable for active military service in the United States armed forces.

This Government recognizes that from the standpoint of morale of the individuals concerned and the over-all military effort of the countries at war with the Axis Powers, it is desirable to permit certain nationals of cobelligerent countries who have registered or who may register under the Selective Training and Service Act of 1940, as amended, to enlist in the armed forces of their own country, should they desire to do so. It will be recalled that during the World War this Government signed conventions with certain associated powers on this subject. The United States Government believes, however, that under existing circumstances the same ends may now be accomplished through administrative action, thus obviating the delays incident to the signing and ratification of conventions.

This Government has, therefore, initiated a procedure permitting aliens who have registered under the Selective Training and Service Act of 1940, as amended, who are nationals of certain cobelligerent countries and who have not declared their intention of becoming American citizens to elect to serve in the forces of their respective countries, in lieu of service in the armed forces of the United States, at any time prior to their induction into the armed forces of this country. This Government is also affording to such nationals, who may already be serving in the armed forces of the United States, an
opportunity of electing to transfer to the armed forces of their own country. The details of the procedure are arranged directly between the War Department and the Selective Service System on the part of the United States Government and the appropriate authorities of the cobelligerent government concerned. It should be understood, however, that in all cases a person exercising an option under the procedure must actually be accepted by the military authorities of the country of his allegiance before his departure from the United States. Before the above-mentioned procedure is made effective with respect to a cobelligerent country, this Department wishes to receive from the diplomatic representative in Washington of that country a note stating that his government desires to avail itself of the procedure and in so doing agrees that:

(a) No threat or compulsion of any nature will be exercised by his government to induce any person in the United States to enlist in the forces of his or any foreign government;

(b) Reciprocal treatment will be granted to American citizens by his government; that is, prior to induction in the armed forces of his government they will be granted the opportunity of enlisting to serve in the armed forces of the United States in substantially the same manner as outlined above. Furthermore, his government shall agree to inform all American citizens serving in its armed forces or former American citizens who may have lost their citizenship as a result of having taken an oath of allegiance on enlistment in such armed forces and who are now serving in those forces that they may transfer to the armed forces of the United States provided they desire to do so and provided they are acceptable to the armed forces of the United States. The arrangements for effecting such transfers are to be worked out by the appropriate representatives of the armed forces of the respective governments;

(c) No enlistments will be accepted in the United States by his government of American citizens subject to registration or of aliens of any nationality who have declared their intention of becoming American citizens and are subject to registration.

This Government is prepared to make the proposed regime effective immediately with respect to Ecuador upon the receipt from you of a note stating that your Government desires to participate in it and agrees to the stipulations set forth in lettered paragraphs (a), (b), and (c) above.

Accept, Excellency, the renewed assurances of my highest consideration.

The Acting Secretary of State to the Venezuelan Ambassador

DEPARTMENT OF STATE

WASHINGTON

May 10, 1945

Excellency:

I have the honor to refer to conversations which have taken place between officers of the Venezuelan Embassy and of the Department of State with respect to the application of the United States Selective Training and Service Act of 1940, as amended, to Venezuelan nationals residing in the United States.

As you are aware, the Act provides that with certain exceptions every male citizen of the United States and every other male person between the ages of eighteen and sixty-five residing in the United States shall register. The Act further provides that, with certain exceptions, registrants within specified age limits are liable for active military service in the United States armed forces.

This Government recognizes that from the standpoint of morale of the individuals concerned and the over-all military effort of the countries at war with the Axis Powers, it is desirable to permit certain nationals of cobelligerent countries who have registered or who may register under the Selective Training and Service Act of 1940, as amended, to enlist in the armed forces of their own country, should they desire to do so. It will be recalled that during the World War this Government signed conventions with certain associated powers on this subject. The United States Government believes, however, that under existing circumstances the same ends may now be accomplished through administrative action, thus obviating the delays incident to the signing and ratification of conventions.

This Government has, therefore, initiated a procedure permitting aliens who have registered under the Selective Training and Service Act of 1940, as amended, who are nationals of certain cobelligerent countries and who have not declared their intention of becoming American citizens to elect to serve in the forces of their respective countries, in lieu of service in the armed forces of the United States, at any time prior to their induction into the armed forces of this country. This Government is also affording to such nationals, who may already be serving in the armed forces of the United States, an
opportunity of electing to transfer to the armed forces of their own country. The details of the procedure are arranged directly between the War Department and the Selective Service System on the part of the United States Government and the appropriate authorities of the cobelligerent government concerned. It should be understood, however, that in all cases a person exercising an option under the procedure must actually be accepted by the military authorities of the country of his allegiance before his departure from the United States.

Before the above-mentioned procedure is made effective with respect to a cobelligerent country, this Department wishes to receive from the diplomatic representative in Washington of that country a note stating that his government desires to avail itself of the procedure and in so doing agrees that:

(a) No threat or compulsion of any nature will be exercised by his government to induce any person in the United States to enlist in the forces of his or any foreign government;

(b) Reciprocal treatment will be granted to American citizens by his government; that is, prior to induction in the armed forces of his government they will be granted the opportunity of electing to serve in the armed forces of the United States in substantially the same manner as outlined above. Furthermore, his government shall agree to inform all American citizens serving in its armed forces or former American citizens who may have lost their citizenship as a result of having taken an oath of allegiance on enlistment in such armed forces and who are now serving in those forces that they may transfer to the armed forces of the United States provided they desire to do so and provided they are acceptable to the armed forces of the United States. The arrangements for effecting such transfers are to be worked out by the appropriate representatives of the armed forces of the respective governments;

(c) No enlistments will be accepted in the United States by his government of American citizens subject to registration or of aliens of any nationality who have declared their intention of becoming American citizens and are subject to registration.

This Government is prepared to make the proposed regime effective immediately with respect to Venezuela upon the receipt from you of a note stating that your Government desires to participate in it and agrees to the stipulations set forth in lettered paragraphs (a), (b), and (c) above.

Accept, Excellency, the renewed assurances of my highest consideration.

EXCELENTÍSIMO SEÑOR:

Tengo el honor de dar a Vuestra Excelencia el conocimiento de la instrucción que he recibido de mi Gobierno para que acepte el arreglo administrativo sobre la aplicación a ciudadanos venezolanos que se encuentran en este país de la Ley de Entrainamiento y Servicio Selectivo de los Estados Unidos, de 1940, arreglo que ha sido propuesto en la nota que Vuestra Excelencia me ha dirigido con fecha 10 del mes en curso.

El Gobierno de Venezuela conviene, en condiciones de reciprocidad, en la opción propuesta a favor de los ciudadanos venezolanos que se han registrado bajo la citada ley, y que se encuentran ya al servicio del ejército de los Estados Unidos, para solicitar su transferencia al ejército de Venezuela. A este respecto mi Gobierno accepta también las garantías señaladas en los párrafos a), b) y c) de la nota arriba citada.

Considero oportuno señalar que, de acuerdo con la Ley del Servicio Militar Obligatorio de Venezuela, los ciudadanos venezolanos en el extranjero que hayan alcanzado la edad correspondiente, están obligados a inscribirse en las oficinas consulares respectivas de la República para servir militarmente en las fuerzas armadas de Venezuela, y que el no cumplimiento de esta obligación trae aparejada la correspondiente sanción penal.

Mi Gobierno espera que el cumplimiento de esta obligación legal por parte de un venezolano, no sea considerada como una infracción a la garantía estipulada en el parágrafo a) de la nota que contesto, desde el momento que no implica ninguna presión individual aislada y ad hoc.

El Gobierno venezolano se dispone a dar vigencia inmediata al convenio de que me ocupo, y a examinar los detalles de su aplicación con las autoridades del Gobierno de los Estados Unidos.

Aprovecho esta oportunidad para reiterar a Vuestra Excelencia las seguridades de mi más elevada consideración.

Your Excellency:

I have the honor to inform Your Excellency that I have received instructions from my Government to accept the administrative arrangement regarding the application of the United States 1940 Selective Training and Service Act to Venezuelan citizens in this country, an arrangement proposed in the note addressed to me by Your Excellency on the 10th of the current month.

The Government of Venezuela agrees, on reciprocal terms, to the option proposed on behalf of the Venezuelan citizens who have registered under the said Act, or who have already entered the service of the United States Army, to apply for transfer to the Venezuelan Army. In this respect, my Government likewise accepts the guarantees indicated in paragraphs a), b), and c) of the aforementioned note.

I deem opportune to point out that, in keeping with the compulsory Military Service Law of Venezuela, Venezuelan citizens abroad who have attained the corresponding age are obliged to register in the respective consular offices of the Republic, in order to serve in the armed forces of Venezuela, and that failure to comply with this obligation involves, without further process, the corresponding penal sanction.

My Government hopes that compliance with this legal obligation by a Venezuelan citizen will not be interpreted as an infraction of the guarantee stipulated in paragraph a) of the note I am now answering, since it implies no ad hoc pressure on any single individual.

The Venezuelan Government is ready to enforce at once the agreement in question, and to go over the details for its application with the authorities of the United States Government.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

June 7, 1945

EXCELLENCY:

I have the honor to refer to conversations which have taken place between officers of the Chilean Embassy and of the Department of State with respect to the application of the United States Selective Training and Service Act of 1940, as amended, to Chilean nationals residing in the United States.

As you are aware, the Act provides that with certain exceptions every male citizen of the United States and every other male person between the ages of eighteen and sixty-five residing in the United States shall register. The Canadian Chargé d'Affaires to the Secretary of State

CANADIAN EMBASSY
AMBASSADE DU CANADA

WASHINGTON, D. C.,
July 21, 1944.

Sir,

I have the honour to refer to the Convention between Canada and the United States for the Protection, Preservation and Extension of the Sockeye Salmon Fisheries in the Fraser River System, signed at Washington on May 26, 1930.

2. Under Article 111 of the Convention, the International Pacific Salmon Fisheries Commission is required to "make a thorough investigation into the natural history of the Fraser River sockeye salmon, into hatchery methods, spawning ground conditions and other related matters". The Commission may also recommend to the two Governments "removing or otherwise overcoming obstructions to the ascent of sockeye salmon, that may now exist or may from time to time occur, in any of the waters covered by this Convention, where investigation may show such removal of or other action to overcome obstructions to be desirable".

3. As a result of extensive investigation the Commission recommended to the two Governments on January 11, 1944, remedial measures for overcoming obstructions to the ascent of the salmon in Hell's Gate Canyon and further investigation and remedial measures for overcoming obstructions to the ascent of the salmon elsewhere in the Fraser River watershed. It was estimated that the costs of the works recommended would be $2,000,000, which, in accordance with Article 111, paragraph 2, of the Convention, would be shared equally between the two Governments. One copy of the letter and memorandum from the Commission under date of January 11, signed by the chairman and secretary are attached hereto as appendix A. Also attached as appendix B is one copy of a list of the remedial works recommended by the Commission.

4. The Canadian Government has approved of these recommendations of the Commission as set forth in its letter and report of January 11. A vote of $1,000,000 to provide for Canada's share of the costs of these works has been recommended to Parliament. The Commission has also been authorized by Order in Council P. C. 5002 of June 30, 1944, to let contracts for the remedial works recommended. One copy of Order in Council P. C. 5002, marked appendix C, is attached hereto.
5. The regular procedure for the payment of expenses properly incurred by the Commission is that such expenses are paid by the Canadian Government, one-half being recoverable later by Canada from the United States. This procedure was agreed to by the United States by your note of December 10, 1937.\footnote{1 [Not printed.]} It is acceptable to the Canadian Government that this procedure should be followed with respect to expenditures incurred by the Commission for the proposed remedial works.

6. It would appear desirable that the recommendations of the Commission as set forth in its letter and report of January 11, 1944 and the arrangements proposed for implementing these recommendations should be formally approved by Exchange of Notes between the two Governments.

7. If these proposals are acceptable to the Government of the United States, this note and your reply thereto accepting the proposals shall be regarded as placing on record the agreement of the two governments concerning this matter.

Accept, Sir, the renewed assurance of my highest consideration.

Secretary of State of the United States,
Washington, D. C.

APPENDIX "A"
COPY

January 11th, 1944.

Sir,

In the Pacific Northwest a particularly valuable species of salmon, known as Sockeye, was once so abundant that in 1913 it produced a pack of almost a quarter of a billion one pound cans which, at present prices, would be worth over forty million dollars. Now, one-eighth of that amount is considered a good pack.

The blasting of rocks during railroad construction in a narrow gorge of the Fraser River known as Hell's Gate Canyon, is charged with causing this huge decline by obstructing passage of the fish to their up-river spawning grounds. It is now believed, however, that great numbers of fish were fatally retarded at this canyon even under natural conditions.

Canada and the United States created this Commission to rehabilitate this once enormous food supply of the two nations—for though the spawning all takes place in Canada, United States fishermen get first chance to catch the fish as they pass through Puget Sound to approach the Fraser River mouth.

After intensive investigation it has been conclusively shown that the terrific rush and surge of water at Hell's Gate Canyon is largely responsible for failure of the salmon run to recover its former magnitude. Furthermore, the Commission finds that construction of so-called fish-ladders at this point will largely eliminate the difficulty. Some lesser obstructions also should be eliminated.

The Treaty requires the Commission to recommend to the two Governments the removal of obstructions. Accordingly the Commission herewith submits a biological report showing the necessity for action, an engineering report showing the action required, and a request for two million dollars with which to accomplish the desired result.

Respectfully submitted,
INTERNATIONAL PACIFIC SALMON FISHERIES COMMISSION

By

"Edward W. Allen"  
Chairman.

"A. J. Whitmore"  
Secretary.

Honourable Ernest Bertrand, K.C., P.C.,  
Minister of Fisheries,  
Ottawa.
RECOMMENDATION OF INTERNATIONAL PACIFIC SALMON FISHERIES COMMISSION FOR OVERCOMING OBSTRUCTIONS TO THE ASCENT OF SOCKEYE SALMON, PURSUANT TO TERMS OF A TREATY BETWEEN CANADA AND THE UNITED STATES

The International Pacific Salmon Fisheries Commission was created for the purpose of rehabilitating a Pacific Coast salmon run known as the sockeye salmon of the Fraser River. In its largest year this run produced almost a quarter of a billion pounds of finest quality canned salmon which at present prices would have a value of more than forty million dollars. An eighth of that amount is now considered a good pack.

Among causes suggested for this great decline were need for international regulation and damage to the runs by blasting of rocks and by rock slides during railroad construction in the narrow gorge of the Fraser River, up which the fish must ascend to reach their spawning grounds. The first function of the Commission was to determine what were the actual causes, next to suggest remedies, and after eight years to regulate the catch.

Sockeye salmon normally spawn in late summer or fall in gravel beds in streams which are near lakes, or in the lakes themselves in the upper Fraser River drainage area, some 90,000 square miles in extent. The eggs hatch in early spring, and the young usually spend a year in lakes, then go down to sea and when four years old return to the very stream in which they were born, then in turn to spawn and die. The production of each stream therefore depends upon the run to that stream four years before. In a big river system like the Fraser with its numerous feeder streams there are therefore many separate runs each year. These may occur at different times during a season, though in fact there is much overlapping of such runs.

If the salmon had to keep on their way upstream or die and a run lasted only 30 days and there was a period of 30 days right at the time of such run when the fish could not pass up the river, the conclusion would be natural that such run would not reproduce itself. The problem is not that simple. However, the Commission did find that salmon could only stand a limited delay and that if the delay exceeded such limit they dropped downstream and were lost for reproductive purposes.

The Commission further found that there were specific levels of the river during which the salmon were unable to get up through the terrific rush of water at Hell's Gate Canyon and that these impassable levels occurred during the salmon season, but varied greatly in time, length, and seriousness from year to year. In some years practically all the runs which had survived to that year got through. In other years the entire season was nearly impassable (in 1941 it is estimated that one
million fish were unable to ascend the Canyon, dropped down below and died. In some years certain runs were affected; others were not.

It was also found that, although Hell's Gate Canyon was by far the most serious obstruction of this character, there were other places in the river system, each of which took its toll. Some forty such obstructions were specifically noted, of greatly varying importance, but a much more thorough survey of the seriousness of each, and of conditions at other points where difficulty may exist than the Commission has thus far been able to make, is essential. Moreover, the Commission found large areas apparently suitable to salmon spawning which never had been utilized because of some natural obstruction, and that it was probable that an adequate survey and proper remedial action would be the means of opening up such areas, thereby increasing the productivity of the system beyond what it had ever been.

A most important consideration is that a depleted run of sockeye salmon if given a reasonable opportunity recuperates rapidly. There are, however, great areas to which the runs of certain years have been completely destroyed. Such areas require distinctive treatment. Moreover, any measure of redress, in order to be effective, will require the aid of regulation of the catch.

Viewing the entire field, the Commission found that it would be uneconomical and unsound, if not wholly futile, to attempt to resort to any recuperative or regulatory measure if the same might in any year be rendered fruitless by reason of the restored runs being again depleted by being obstructed in their attempted passage up Hell's Gate Canyon or other points of difficulty.

Accordingly, it is essential that as a first step in an orderly rehabilitation of the sockeye salmon of the Fraser River system as a whole that this continuous threat of destruction at Hell's Gate Canyon be removed. After that, many runs will promptly proceed to restore themselves and this natural process can be going on while the Commission effectuates its plan to bring back lost runs as well as those so close to extinction as to require artificial stimulation, and to produce runs into new areas. Gradual removal of minor obstructions can also be carried on concurrently, as biological and engineering studies indicate the corrective action necessary.

These facts and conclusions are the result of six years of intensive investigation of every available source of information from official and commercial records and from one of the largest fish tagging experiments ever conducted, many thousands of fish having been tagged in salt water and at different parts of the river with observable celluloid tags these then having been collected by means of rewards and otherwise, also by the use of trained observers systematically stationed throughout the area.

Submitted herewith is a biological report from the Commission's scientific staff which presents a remarkable record of investigation and analysis. Dr. W. F. Thompson, until he came to this Commission, had been Scientific Director of the International Fisheries Commission (Halibut) and was largely responsible for the accomplishments of
that Commission which have justly won world-wide recognition. He
is now the Scientific Consultant for this Commission.

When the Commission became convinced that a basic difficulty in
rehabilitating the Fraser sockeye salmon run lay at Hell's Gate Can-
yon, it not only concentrated its biological work to bear upon that
point but also engaged the most experienced fishery engineers avail-
able. Milo Bell, the Commission's chief engineer, is the only active
engineer in either nation who has specialized in fishery conservation
devices directly related to Pacific salmon. And he in turn has had the
assistance of Professor Charles W. Harris, an outstanding hydraulic
engineer, as consultant.

So-called fish-ladders have been in use for many years as a means
of enabling fish to ascend rivers blocked by dams and natural obstruc-
tions. The greatest installation heretofore made was at the Bonne-
ville Dam on the lower Columbia River. The fishery devices at the
Bonneville are said to have cost approximately $7,000,000.00.
Nevertheless, these fully justified the expenditure for they have
successfully demonstrated their effectiveness in passing the well
known Chinook salmon up the Columbia. The practical use of fish-
ladders is therefore well recognized in the engineering field.

In the engineering report submitted herewith, the use of fish-ladders
to obviate the Hell's Gate Canyon obstruction is presented. But
although the Fraser salmon run substantially exceeds that of the
Columbia both in quantity and value, the cost of the proposed fish-
ladders at Hell's Gate Canyon, together with the estimated cost of
investigating and overcoming other obstructions and incidental
remedial proposals, all together is less than one-third of the cost of
the work at Bonneville.

The Commission therefore requests a total appropriation of
$2,000,000, one-half from Canada, one-half from the United States, for
the purposes above outlined. One good year's run restored should pro-
duce a catch ten times the entire proposed investment. And under
continued and adequate regulation and protection, this enormous food
resource should become recurrent year after year in perpetuity.

Respectfully submitted,
INTERNATIONAL PACIFIC SALMON FISHERIES COMMISSION

PRIVY COUNCIL

CANADA

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 30th day of JUNE, 1944.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

WHEREAS the Minister of Fisheries reports that the following item appears in the Estimates tabled in Parliament for the fiscal year 1944-45:

Vote 83 To provide for Canadian share of expenses of the International Pacific Salmon Fisheries Commission to overcome obstructions to the ascent of sockeye salmon at Hell's Gate Canyon, and for investigating and overcoming obstructions to such salmon at other points on the Fraser River Watershed. -------------------------- $1,000,000

That a similar sum has been provided for the same purpose by the Government of the United States, thus enabling the work to proceed at joint expense;

That persons who, in the opinion of the Minister, may be interested in the work contemplated at Hell's Gate, including the Government of the Province of British Columbia, the Canadian Pacific Railway Company and the Canadian National Railways, have been consulted with reference thereto and that such persons have no objection thereto provided their interests are adequately safeguarded;

That by arrangements between Canada and the United States all expenditures properly incurred by the Commission are paid by the Canadian Government, one-half of such payments to be recovered later by Canada from the United States Government; and

That it is, by reason of the war, necessary for the security, defence, peace, order and welfare of Canada that the Order hereinafter set forth be made.

THEREFORE, His Excellency the Governor General in Council, on the recommendation of the Minister of Fisheries, and under the authority of the War Measures Act, is pleased, hereby, to authorize the International Pacific Salmon Fisheries Commission constituted pursuant to the Fraser River Sockeye Convention, confirmed by chapter ten of the Statutes of Canada, one thousand, nine hundred and thirty, to enter into contracts in the name of His Majesty in right of Canada for the execution of the work at Hell's Gate Canyon and other points on the Fraser River, British Columbia, for which money is, or is to be, provided by the said Vote 83 hereinbefore set out; and is further pleased to authorize and doth hereby authorize the chairman and secretary of the said Commission to execute any such contract on behalf of the Commission.

A. J. P. HEENEY.

Clerk of the Privy Council.
The Secretary of State to the Canadian Chargé d’Affaires ad interim

DEPARTMENT OF STATE
WASHINGTON
August 5, 1944

Sir:

I have your Embassy’s note No. 266 of July 21, 1944, with enclosures, in regard to the recommendation of remedial measures for overcoming obstructions to the ascent of the salmon in Hell’s Gate Canyon and further investigation and remedial measures for overcoming obstructions to the ascent of the salmon elsewhere in the Fraser River system, which, pursuant to Article III of the Convention between the United States and Canada for the Protection, Preservation and Extension of the Sockeye Salmon Fisheries in the Fraser River system, signed at Washington on May 26, 1930, was made to the American and Canadian Governments on January 11, 1944 by the International Pacific Salmon Fisheries Commission.

As you point out the estimated cost of the works recommended, which was two million dollars, would in accordance with Article III, paragraph 2 of the Convention, be shared equally between the two governments.

The Government of the United States has approved the recommendation of the Commission as set forth in its letter and report of January 11, 1944, and the accompanying documents including the “General Engineering Report Covering Fraser River Fisheries Projects” and the first Deficiency Appropriation Act, 1944, approved April 1, 1944 (Public Law 279, 78th Congress), contained the following appropriation:

"INTERNATIONAL PACIFIC SALMON FISHERIES COMMISSION

Restoration of salmon runs Fraser River system: For the share of the United States of expenses incident to the work of improving facilities for sockeye salmon migration in the Fraser River by the International Pacific Salmon Fisheries Commission, under the convention between the United States and Canada, concluded May 26, 1930, including personal services; traveling expenses; rent; purchase, maintenance, repair, and operation of not to exceed four motor-propelled, passenger-carrying vehicles; purchase of furniture, instruments, and equipment; construction of fishways; removal of obstructions and stream improvement; construction of warehouse for storage of equipment; and such other expenses as the Secretary of State may deem proper, to be expended under his direction, $1,000,000, to remain available until expended."

The Department observes from paragraph 5 of your note that it is acceptable to the Canadian Government that the regular procedure
whereunder expenses properly incurred by the Commission are paid by the Canadian Government, one-half being recoverable later by Canada from the United States, should be followed with respect to expenditures incurred by the Commission for the proposed remedial works. The Government of the United States agrees to this procedure and, subject to the limits of the above-quoted appropriation, will reimburse the Canadian Government for one-half of the joint expenses properly incurred by the Commission in connection with the remedial works in question, the full amount of such expenses having been paid by the Government of Canada, it being understood that in the settlement of such amounts the procedure now observed by the two governments in settling the joint expenses of the Commission will be followed.

Accept, Sir, the renewed assurances of my high consideration,

For the Secretary of State:

G. HOWLAND SHAW

Mr. Merchant Mahoney

Chargé d’Affaires ad interim of Canada
Agreements between the United States of America and the Netherlands respecting mutual aid, including agreement relating to supplies and services signed at Washington April 30, 1945, effective April 30, 1945; with accompanying memorandum and exchange of notes signed at Washington April 30, 1945; agreement relating to principles applying to the provision of aid to the armed forces of the United States effected by exchange of notes signed at Washington April 30, 1945, effective July 8, 1942. And exchanges of notes signed at Washington April 30, 1945.

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND THE KINGDOM OF THE NETHERLANDS UNDER SECTION 3 (c) OF THE LEND-LEASE ACT

As parties signatory to the United Nations Declaration of January 1, 1942, the Government of the United States of America and the Government of the Kingdom of the Netherlands have pledged themselves to employ their full resources, military and economic, against those nations with which they are at war. In the Agreement of July 8, 1942 between the Government of the United States of America and the Government of the Kingdom of the Netherlands, each contracting government undertook to provide the other with such articles, services, facilities and information useful in the prosecution of their common war undertaking as each may be in a position to supply.

The Government of the United States of America and the Government of the Kingdom of the Netherlands desire to insure the continuing provision of such articles, services, facilities or information without interruption owing to any uncertainty as to the date when the military resistance of the common enemy may cease; and desire to insure further that such articles, services, facilities or information as shall be agreed to be furnished by the United States of America for the purpose of providing war aid to the Government of the Kingdom of the Netherlands, shall be disposed of and transferred, following a determination by the President that such aid is no longer necessary to the prosecution of the war, in an orderly manner which will best promote their mutual interests.

For the purpose of attaining the above-stated objectives, the Government of the United States of America and the Government of the Kingdom of the Netherlands agree as follows:

**Article I**

All aid undertaken to be provided by the United States of America under this Agreement shall be made available under the authority
and subject to the terms and conditions of the Act of Congress of March 11, 1941, as amended, and any appropriation acts thereunder.

**Article II**

The United States of America will transfer or render to the Government of the Kingdom of the Netherlands such of the articles and services set forth in the Schedule annexed hereto as the President of the United States of America may authorize to be provided prior to a determination by the President that such articles and services are no longer necessary to the prosecution of the war. Any articles and services set forth in that Schedule transferred or rendered to the Government of the Kingdom of the Netherlands prior to such determination shall be provided upon terms the final determination of which shall be deferred until the extent of lend-lease aid provided by the United States of America and of reciprocal aid provided by the Government of the Kingdom of the Netherlands is known and until the progress of events makes clearer the final terms, conditions and benefits which will be in the mutual interests of the United States of America and the Kingdom of the Netherlands in accordance with the terms of the Agreement of July 8, 1942, and which will promote the establishment and maintenance of world peace.

**Article III**

After a determination by the President of the United States of America that any of the articles and services set forth in the Schedule annexed hereto are no longer necessary to the prosecution of the war, the United States of America will transfer or render, within such periods of time as may be authorized by law, and the Government of the Kingdom of the Netherlands will accept, such articles and services as shall not have been transferred or rendered to the Government of the Kingdom of the Netherlands prior to said determination.

The Government of the Kingdom of the Netherlands undertakes to pay the United States of America in dollars for the articles and services transferred or rendered under the provisions of this Article in accordance with the terms and conditions prescribed in the Schedule annexed hereto.

**Article IV**

Changes may be made from time to time in the items set forth in the Schedule annexed hereto, by mutual agreement between the Government of the United States of America and the Government of the Kingdom of the Netherlands.

The Government of the Kingdom of the Netherlands shall be released from its obligation to accept articles or services, under Article III above, upon payment to the Government of the United States of America of any net losses to the Government of the United States of America including contract cancellation charges resulting from the determination of the Government of the Kingdom of the Netherlands not to accept such articles or services.
Delivery of any articles or services, under the provisions of Article III, may be withheld by the Government of the United States of America without cost to the Government of the Kingdom of the Netherlands whenever the President determines that such action is in the national interest.

ARTICLE V

Any amounts paid to the Government of the United States of America pursuant to the terms of this Agreement shall be deemed to be among the benefits or considerations provided by the Government of the Kingdom of the Netherlands pursuant to Article VI of the Agreement of July 8, 1942.

ARTICLE VI

This Agreement shall take effect as from this day's date. It shall continue in force until a date to be agreed upon by the two Governments.

Signed and sealed at Washington this 30th day of April, 1945.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA:

JOSEPH C. GREW
Acting Secretary of State of the
United States of America

FOR THE GOVERNMENT OF THE KINGDOM OF THE NETHERLANDS:

W. V. BOETZELAER.
Minister of the Netherlands

SCHEDULE

The terms and conditions upon which the articles and services listed below are to be transferred by the United States of America to the Government of the Kingdom of the Netherlands after the determination by the President of the United States of America that such aid is no longer necessary to the prosecution of the war, in accordance with Article III of this Agreement, are as follows:

A. Unless otherwise provided by mutual agreement, transfers of articles to the Government of the Kingdom of the Netherlands shall take place immediately upon loading of the articles on board ocean vessel in a United States port, provided, that those articles which, prior to the end of the periods authorized by law, shall have been contracted for by the United States Government and shall not have been transferred to the Government of the Kingdom of the Netherlands as above set forth, shall be deemed to be transferred to the Government of the Kingdom of the Netherlands upon the last day of such periods. Risk of loss with respect to articles to be transferred to the Government of the Kingdom of the Netherlands shall pass in accordance with the customary practice of the United States Government with respect to transfers under the Act of Congress of March 11, 1941, unless otherwise provided by mutual agreement.

B. The amount which the Government of the Kingdom of the
Netherlands shall pay to the United States of America for articles transferred under the provisions of Article III of this Agreement shall be the total purchase price, as determined by the President of the United States of America, and said total purchase price shall be the price of the articles as determined under paragraph 2 hereof plus the additional costs (incidental to delivery at shipside) set forth in paragraph 3 hereof.

1. In the determination of the price under paragraph 2 the following definitions shall apply:

(a) The term "contract price" means the contract price f.o.b. point of origin paid by the United States Government to the contractor.

(b) The term "current sale price" with respect to any articles means the market price as of the date of transfer to the Government of the Kingdom of the Netherlands of articles of similar quality and in similar quantity as determined by the President.

2. The price of the articles shall be determined as follows:

(a) If the articles transferred to the Government of the Kingdom of the Netherlands are provided out of articles delivered to a United States Government agency pursuant to an order or contract determined by the President to have been placed for some purpose other than that of filling a requisition or request filed by the Government of the Kingdom of the Netherlands, the price shall be the current sale price.

(b) If the articles transferred to the Government of the Kingdom of the Netherlands have been the subject of a contract or order placed by a United States Government agency for the purpose of filling a requisition or request filed by the Government of the Kingdom of the Netherlands and have been made available by the supplier for shipment prior to the day on which the President shall have determined that such articles are no longer necessary to the prosecution of the war, the price shall be the current sale price or the contract price less 5 per cent thereof, whichever is lower.

(c) If the articles transferred to the Government of the Kingdom of the Netherlands have been the subject of a contract or order placed by a United States Government agency for the purpose of filling a requisition or request filed by the Government of the Kingdom of the Netherlands and have been made available by the supplier for shipment on or after the day on which the President shall have determined that such articles are no longer necessary to the prosecution of the war, the price shall be the contract price.

(d) For the purpose of subparagraphs (b) and (c) above, the articles shall be deemed to have been made available by the supplier for shipment on the date of issuance of the United States Government Bill of Lading (inland) under which the articles were shipped.

3. The additional costs to be added to the price to arrive at the total purchase price shall be the costs incurred by the United States of America for inland transportation, storage and other charges incidental to delivery of the articles at shipside. The United States of America
will inform the Government of the Kingdom of the Netherlands from
time to time of the amount of such costs incurred and the bases on
which they have been determined.

C. Payment of the total purchase price for all articles transferred
under the provisions of Article III of this Agreement, shall be made
by the Government of the Kingdom of the Netherlands on or before
July 1, 1975.

1. Payment of the total purchase price of any article so trans-
ferred shall be made in equal annual installments, the first of which
shall become due and payable on July 1, 1946, or on the first of
July next following the day on which such article shall have been
transferred, whichever is later.

2. Nothing herein shall be construed to prevent the Government
of the Kingdom of the Netherlands from anticipating the payment
of any of such installments or any part thereof.

3. If by agreement of the United States of America and the
Government of the Kingdom of the Netherlands it is determined
that, because of extraordinary and adverse economic conditions
arising during the course of payment, the payment of a due install-
ment would not be in the joint interest of the United States of
America and the Government of the Kingdom of the Netherlands,
payment may be postponed for an agreed upon period.

D. Interest on the unpaid balances of the total purchase price
determined under Section B above for any article so transferred, shall
be paid by the Government of the Kingdom of the Netherlands at the
fixed rate of two and three-eighths per cent per annum, accruing from
the first day of July, 1946 or from the first day of July next following
the day on which such article shall have been transferred, whichever is
later. Interest shall be payable annually, the first payment to be
made on the first day of July next following the first day of July on
which such interest began to accrue.

E. The Government of the Kingdom of the Netherlands shall pay
to the United States of America the cost of the services listed in this
Schedule to the extent that such services shall be rendered to the
Government of the Kingdom of the Netherlands following the deter-
mination by the President that such services are no longer necessary
to the prosecution of the war. The cost of such services, so rendered,
shall be determined by the President of the United States of America
and shall be paid by the Government of the Kingdom of the Nether-
lands in accordance with the same terms as provided for the payment
of the total purchase price of the articles provided hereunder, as set
forth in Section C above. Interest shall be paid on the unpaid balances
of the cost of such services in accordance with the terms of Section D
hereof.

F. The articles and services in this Schedule shall be for the terri-
tory indicated herein and their total purchase price value shall not
exceed $242,000,000. Such articles and services and their estimated
cost to the Government of the United States of America are as follows:
For Metropolitan Netherlands

Raw materials for war use and essential civilian supply, including emergency repair of industrial and housing facilities $65,000,000
Petroleum 10,000,000
Food 70,000,000

Short life equipment and repair parts for use in war production and transportation 47,000,000
Prefabricated civilian housing for emergency shelter 5,000,000
Freight charges on United States vessels 22,000,000

Total $242,000,000

MEMORANDUM

The Government of the United States of America directs the attention of the Government of the Kingdom of the Netherlands to the proposed agreement under Section 3 (c) of the Lend-Lease Act and in particular to Article IV thereof. Under Article IV this Government will review, from time to time, and particularly at the conclusion of hostilities in Europe, as determined by the President, articles and services set forth in the Schedule annexed to the Agreement in order to determine whether the delivery of such articles or services should be withheld in the national interest of the United States. The reservation made by this Government in Article IV to withhold delivery of articles and services "whenever the President determines that such action is in the national interest" constitutes a broad power to cancel or revoke procurement programs or contracts. It is not possible to predict with precision what occasions or circumstances may arise in the future which may require this Government to withhold delivery. Actual delivery will always be subject to the development of the military situation, and the changing demands of strategy, as well as to economic and financial factors which affect the national interest of this Government.

It is further understood that the Government of the Kingdom of the Netherlands will be obligated to pay currently for civilian supplies furnished by the combined military authorities under "Plan A" or "Plan A" as modified. Payment will be made in accordance with the arrangements to be made with the governments which have furnished the supplies, and in United States dollars to the extent determined under such arrangements.

It is, of course, understood that in the implementation of the provisions of any lend-lease agreement with the Government of the Kingdom of the Netherlands, the Government of the United States of America will act in accordance with its Constitutional procedures.

The Netherlands Minister to the Acting Secretary of State

NETHERLANDS EMBASSY
WASHINGTON, D. C.

WASHINGTON, April 30th, 1945.

My dear Mr. Secretary:

Several questions of interpretation have arisen with respect to the language of the Agreement between our two Governments under Section 3 (c) of the Lend-Lease Act. I believe it will be helpful to indicate the understanding which my Government now has with respect to these questions and I would appreciate an expression from you as to whether or not these understandings are correct.

1. It is the understanding of my Government that the Agreement does not apply to arms and munitions, and that arms and munitions now or hereafter provided to my Government will be supplied, on a straight lend-lease basis, under the Agreement of July 8, 1942 between our two Governments on the principles applying to mutual aid.

2. We understand that in general it is not the intention of the United States Government to exercise its right under Article V of the Agreement between our two Governments dated July 8, 1942 to recapture any articles for which the Government of the Kingdom of the Netherlands has paid or is to pay the United States Government. If, however, the United States Government should exercise this right with respect to any such articles, appropriate arrangements will be made for repayment to the Government of the Kingdom of the Netherlands.

3. With reference to the last paragraph of Article III of the Agreement under Section 3 (c) of the Lend-Lease Act, it is the understanding of my Government that no articles or services will be transferred or rendered to my Government under that Article unless they have been requisitioned by my Government.

4. In the first paragraph of Article IV of the Agreement under Section 3 (c) of the Lend-Lease Act, it is stated that changes may be made from time to time in the items set forth in the Schedule annexed thereto, by mutual agreement between the United States of America and the Government of the Kingdom of the Netherlands. It is our understanding that this language means that not only the items but also the values expressed for each item in the Schedule and the total value expressed for the whole Schedule, may be modified by mutual agreement taking into consideration among other things the supply situation in the United States and the established needs of the Kingdom of the Netherlands.

5. With regard generally to the provisions of the Agreement under Section 3 (c) of the Lend-Lease Act with reference to risk of loss and transfer, as expressed in Section A of the Schedule annexed to the Agreement, it is my understanding that a suitable opportunity will be given to representatives of my Government, in accordance with the general procedure of your Government, to inspect articles proposed to be transferred before their transfer.

6. With reference to the provision of the Schedule annexed to the Agreement under Section 3 (c) of the Lend-Lease Act that risk of
loss shall pass in accordance with the customary practice of the United States Government with respect to transfers under the Act of Congress of March 11, 1941, it is the understanding of my Government that under the practice referred to risk of loss usually passes when the articles leave the possession of the supplier or are withdrawn from the United States Government stock.

7. With reference to the provision of Section A of the Schedule annexed to the Agreement under Section 3 (c) of the Lend-Lease Act that "those articles which, prior to the end of the periods authorized by law, shall have been contracted for by the United States Government and shall not have been transferred to the Government of the Kingdom of the Netherlands as above set forth, shall be deemed to be transferred to the Government of the Kingdom of the Netherlands upon the last day of such periods", it is the understanding of my Government that the term "periods" refers to the period as now provided for by the last clause of Section 3 (c) of the Lend-Lease Act, or as such period may hereafter be extended by amendment of that Act, during which the powers conferred by or pursuant to Section 3 (a) of that Act may be exercised to the extent necessary to carry out a contract or agreement made under Section 3 (c) of that Act.

My dear Mr. Minister

In reply to your letter of today's date outlining your Government's understanding of seven questions which have arisen with respect to the language of the Agreement between our two Governments under Section 3 (c) of the Lend-Lease Act, I am pleased to state that the understanding of your Government coincides with the views held by the Government of the United States in respect to these matters.

The Honorable

BARON W. VAN BOETZELAER,

Minister of the Netherlands.
The Netherlands Minister to the Acting Secretary of State

NETHERLANDS EMBASSY
WASHINGTON, D.C.

WASHINGTON, April 30th, 1945.

SIR,

In the United Nations declaration of January 1, 1942, the contracting governments pledged themselves to employ their full resources, military and economic, against those nations with which they are at war; and in the Agreement of July 8, 1942 between the Government of the United States and the Government of the Kingdom of the Netherlands on the Principles Applying to Mutual Aid in the Prosecution of the War Against Aggression each contracting government undertook to provide the other with such articles, services, facilities or information useful in the prosecution of their common war undertaking as it might be in a position to supply. It is the understanding of the Government of the Kingdom of the Netherlands that the general principle to be followed in providing mutual aid as set forth in the said Agreement of July 8, 1942 is that the war production and the war resources of both nations should be used by each in ways which most effectively utilize the available materials, manpower, production facilities and shipping space.

With a view, therefore, to supplementing the Agreement of July 8, 1942, I have the honor to set forth below the understanding of the Government of the Kingdom of the Netherlands of the principles and procedures applicable to the provision of aid by the Government of the Kingdom of the Netherlands to the armed forces of the United States and in the manner in which such aid will be correlated with the maintenance of such forces by the United States Government.

1. The Government of the Kingdom of the Netherlands, retaining the right of final decision in each case in the light of its own potentialities and responsibilities, will provide the United States or its armed forces with the following types of assistance as reciprocal aid when and to the extent that it is found that they can most effectively be procured in the territory of the Kingdom of the Netherlands:

   (a) Military equipment, munitions and military and naval stores;

   (b) Other supplies, materials, facilities, services and information for the United States forces including payment of those civil claims against the United States and its armed forces, employees and officers that shall be mutually agreed upon by the two Governments as a proper charge against the Government of the Kingdom of the Netherlands, but not including the pay and allowances of United States forces, the wages and salaries of civilian officials of the United States Government and the administrative expenses of United States missions;

   (c) Supplies, materials, facilities, services and information needed in the construction of military projects, tasks and similar capital works required for the common war effort in the territory of the Kingdom of the Netherlands, except for the wages and salaries of United States citizens;
(d) Supplies, materials, facilities, services and information needed in the construction of such military projects, tasks and capital works in territory other than territory of the Kingdom of the Netherlands or territory of the United States to the extent that territory of the Kingdom of the Netherlands is a more practicable source of supply than the United States or another of the United Nations;

(e) Such other supplies, materials, facilities, services and information as may be agreed upon as necessary in the prosecution of the war.

2. The practical application of the principles formulated in this note, including the procedure by which requests for aid are made and acted upon, shall be worked out as occasion may require by agreement between the two governments, acting when possible through their appropriate military or civilian administrative authorities. Requests by the United States Government for such aid will be presented by duly authorized authorities of the United States to official agencies of the Government of the Netherlands which will be designated or established by the Government of the Kingdom of the Netherlands for the purpose of facilitating the provision of reciprocal aid.

3. It is the understanding of the Government of the Kingdom of the Netherlands that all such aid, as well as other aid, including information received under Article VI of the Agreement of July 8, 1942, accepted by the President of the United States or his authorized representatives from the Government of the Kingdom of the Netherlands will be received as a benefit to the United States under the Act of March 11, 1941. In so far as circumstances will permit, appropriate record of aid received under this arrangement will be kept by each Government.

4. In order to facilitate the procurement in the territory of the Kingdom of the Netherlands of supplies, materials, facilities, information and services described in Section 1, by permitting their direct purchase rather than their procurement by the methods contemplated in Section 2, during the period of military operations and until such time as the official agencies of the Government of the Kingdom of the Netherlands are able to provide such reciprocal aid in the manner contemplated in Section 2, the Government of the Kingdom of the Netherlands agrees to make available to designated officers of the United States Government such Netherlands currency or credits as may be needed for the purpose. The necessary arrangements will be made by the appropriate authorities of the two governments.

If the Government of the United States concurs in the foregoing, I would suggest that the present note and your reply to that effect be regarded as placing on record the understanding of our two Governments in this matter and as superseding the exchange of notes of June 14, 1943 on this subject, and that for clarity and convenience of administration the present note and your reply be made retroactive.
to July 8, 1942, the date of the Agreement of the two Governments on the principles applying to mutual aid.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

W. v. Boetzelaer.

DEPARTMENT OF STATE
WASHINGTON
April 30, 1945

My dear Mr. Minister:

By the Agreement under Section 3 (c) of the Lend-Lease Act signed today between the Government of the United States of America and
the Government of the Kingdom of the Netherlands, the Government of the United States has undertaken, on the terms and subject to the conditions therein stated, to make aid available under the Lend-Lease Act to the Kingdom of the Netherlands. By the Reciprocal Aid Agreement also entered into today between our two Governments, your Government has undertaken to render reciprocal aid from the territory of the Kingdom of the Netherlands, including the Netherlands East Indies. It is the understanding of both Governments that this reciprocal aid will include mutually agreed upon quantities of raw materials from the Netherlands East Indies for the use of the United States military or naval forces or for war production in the United States.

The articles and services now specifically covered by the Agreement under Section 3 (c) of the Lend-Lease Act are those listed in the Schedule annexed to the Agreement. These are for Metropolitan Netherlands only. Article IV of the Agreement, however, provides that changes may be made in that Schedule by mutual agreement between the two Governments, and my Government is prepared in the light of the military situation and its developments to consider changes under that Article with a view to providing essential supplies, of the general type of those listed in the Schedule, necessary for the prosecution of the combined war effort in the Pacific. Any articles and services agreed upon between our two Governments as aid to be so furnished for the Netherlands East Indies under the Agreement will, when so agreed upon, become additions to the Schedule and will be transferred by the Government of the United States of America and accepted by the Government of the Kingdom of the Netherlands for the Netherlands East Indies, subject to the terms of the Agreement.

It is not the intention of this Government to provide to the Government of the Kingdom of the Netherlands under the 3 (c) Agreement articles having a long production cycle and a long life.

Sincerely yours,

Joseph C. Grew

My dear Mr. Secretary:

Some questions of interpretation have arisen with respect to the language of my note to you dated April 30, 1945, setting forth the understanding of the Government of the Kingdom of the Netherlands of the principles and procedures applicable to the provision of aid by the Government of the Kingdom of the Netherlands to the armed forces of the United States. I am, therefore, giving you the interpretation placed by my Government on those questions, and I would appreciate an expression from you whether or not you agree to these interpretations:

1. The Government of the Kingdom of the Netherlands, taking into consideration its own potentialities and responsibilities, retains the final decision as to the scope, extent and duration of its provision of aid to the armed forces of the United States.

2. As regards services and supplies procured by the armed forces of the United States either by direct requisition or by use of the funds or credits made available under the terms of Section 4 of my note, the Government of the Kingdom of the Netherlands retains the right of deciding whether or not they can be provided as reverse lend-lease.

Finally, I want to state that although the Government of the Kingdom of the Netherlands is fully prepared to give reciprocal aid up to the limits of its possibilities, the extent of reciprocal aid will necessarily depend on the economic situation of the Kingdom of the Netherlands after its liberation from enemy occupation, on the flow of imported supplies and on the development of its foreign exchange position.

Sincerely yours,

The Acting Secretary of State to the Netherlands Minister

DEPARTMENT OF STATE
WASHINGTON
April 30, 1945

MY DEAR MR. MINISTER:

You will recall that on June 14, 1943, Dean Acheson, Assistant Secretary of State, addressed a letter to the Ambassador of the Kingdom of the Netherlands with respect to the receipt by this Government as reciprocal aid of articles previously purchased abroad and imported into territories of the Kingdom of the Netherlands. In this letter Mr. Acheson stated that this Government does not expect the Government of the Kingdom of the Netherlands or the authorities in its territories to furnish such articles to American forces as reciprocal aid and that, if such articles were furnished as reciprocal aid in emergency situations, this Government would be entirely agreeable to the principle that they should be replaced from the United States as soon as possible. Mr. Acheson further stated that American forces would not request or accept as reciprocal aid any such articles, the replacement of which was regarded by the Government of the Kingdom of the Netherlands as desirable, without specific authorization in each case from the War Department.

The exigencies of war has made strict compliance with this procedure impractical, and your Government has furnished such articles to this Government and its armed forces without compliance with this procedure. The quantity and value of the articles so furnished are not yet known and it is anticipated that considerable time may be required before mutual agreement can be reached as to the exact value of the articles to be replaced under the terms of Mr. Acheson's letter.

At the time of Mr. Acheson's letter no non-military supplies were being provided by my Government to your Government as straight lend-lease. Now, however, our two Governments have concluded an agreement under Section 3 (c) of the Lend-Lease Act, under which this Government will furnish non-military supplies as straight lend-lease aid to your Government to the extent provided therein.
I should therefore like to propose that the obligation in Mr. Acheson's letter to replace articles provided as reciprocal aid which have previously been purchased abroad and imported into territories of the Kingdom of the Netherlands should not apply to articles hereafter made available to this Government as reciprocal aid.

With respect to such articles transferred as reciprocal aid by the Government of the Kingdom of the Netherlands to the United States or its armed forces prior to the date of the signing of the Agreement under Section 3 (c) of the Lend-Lease Act, I should like to propose that final action with respect to replacement be deferred until the final determination of the terms and conditions upon which mutual aid has been provided and received by the two Governments in accordance with the terms of the Agreement of July 8, 1942, with respect to the principles applying to mutual aid. At the time such a final determination is reached, and the full extent of the aid furnished by the United States and the reciprocal aid furnished by the Government of the Kingdom of the Netherlands becomes known, the United States will make such replacement in accordance with the principles expressed in Mr. Acheson's letter to any extent then mutually agreed upon between the two Governments as just and equitable.

Agreements between the United States of America and Belgium respecting mutual aid, including agreement relating to supplies and services, signed at Washington April 17, 1945, effective April 17, 1945; with memorandum of interpretation signed at Washington April 17, 1945, and exchanges of notes signed at Washington April 17 and 19 and May 19, 1945; and agreement relating to principles applying to the provision of aid to the armed forces of the United States, effected by exchange of notes signed at Washington April 17 and 19, 1945, effective June 16, 1942.

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND BELGIUM UNDER SECTION 3 (c) OF THE LEND-LEASE ACT

As parties signatory to the United Nations Declaration of January 1, 1942, the Government of the United States of America and the Government of Belgium have pledged themselves to employ their full resources, military and economic, against those nations with which they are at war. In the agreement of June 16, 1942 between the Government of the United States of America and the Government of Belgium, each contracting Government undertook to provide the other with such articles, services, facilities and information useful in the prosecution of their common war undertaking as each may be in a position to supply.

The Government of the United States of America and the Government of Belgium desire to insure the continuing provision of such articles, services, facilities or information without interruption owing to any uncertainty as to the date when the military resistance of the common enemy may cease; and desire to insure further that such articles, services, facilities or information as shall be agreed to be furnished by the United States for the purpose of providing war aid to the Government of Belgium, shall be disposed of and transferred, following a determination by the President that such aid is no longer necessary to the prosecution of the war, in an orderly manner which will best promote their mutual interests.

For the purpose of attaining the above-stated objectives, the Government of the United States of America and the Government of Belgium agree as follows:

Article I

All aid undertaken to be provided by the United States of America under this agreement shall be for Metropolitan Belgium and shall be made available under the authority and subject to the terms and conditions of the Act of Congress of March 11, 1941, as amended and any appropriation acts thereunder.
ARTICLE II

The United States of America will transfer or render to the Government of Belgium such of the articles and services set forth in the Schedule annexed hereto as the President of the United States of America may authorize to be provided prior to a determination by the President that such articles and services are no longer necessary to the prosecution of the war. Any articles and services set forth in that Schedule transferred or rendered to the Government of Belgium prior to such determination shall be provided upon terms the final determination of which shall be deferred until the extent of lend-lease aid provided by the United States of America and of reciprocal aid provided by the Government of Belgium is known and until the progress of events makes clearer the final terms, conditions and benefits which will be in the mutual interests of the United States of America and Belgium in accordance with the terms of the agreement of June 16, 1942, and which will promote the establishment and maintenance of world peace.

ARTICLE III

After a determination by the President of the United States of America that any of the articles and services set forth in the Schedule annexed hereto are no longer necessary to the prosecution of the war, the United States of America will transfer or render, within such periods of time as may be authorized by law, and the Government of Belgium will accept, such articles and services as shall not have been transferred or rendered to the Government of Belgium prior to said determination.

The Government of Belgium undertakes to pay the United States of America in dollars for the articles and services transferred or rendered under the provisions of this Article in accordance with the terms and conditions prescribed in the Schedule annexed hereto.

ARTICLE IV

Changes may be made from time to time in the items set forth in the Schedule annexed hereto, by mutual agreement between the Government of the United States of America and the Government of Belgium.

The Government of Belgium shall be released from its obligation to accept articles or services, under Article III above, upon payment to the Government of the United States of America of any net losses to the Government of the United States of America including contract cancellation charges resulting from the determination of the Government of Belgium not to accept such articles or services.

Delivery of any articles or services, under the provisions of Article III may be withheld by the Government of the United States of America without cost to the Government of Belgium whenever the President determines that such action is in the national interest.
Article V

Any amounts paid to the Government of the United States of America pursuant to the terms of this Agreement shall be deemed to be among the benefits or considerations provided by the Government of Belgium pursuant to Article VI of the agreement of June 16, 1942.

Article VI

This Agreement shall take effect as from this day's date. It shall continue in force until a date to be agreed upon by the two Governments.

Signed and sealed at Washington this 17th day of April, 1945.

Schedule

The terms and conditions upon which the articles and services listed below are to be transferred by the United States of America to the Government of Belgium after the determination by the President of the United States of America that such aid is no longer necessary to the prosecution of the war, in accordance with Article III of this Agreement, are as follows:

A. Unless otherwise provided by mutual agreement, transfers of articles to the Government of Belgium shall take place immediately upon loading of the articles on board ocean vessel in a United States port, provided, that those articles which, prior to the end of the periods authorized by law, shall have been contracted for by the United States Government and shall not have been transferred to the Government of Belgium as above set forth, shall be deemed to be transferred to the Government of Belgium upon the last day of such periods. Risk of loss with respect to articles to be transferred to the Government of Belgium shall pass in accordance with the customary practice of the United States Government with respect to transfers under the Act of Congress of March 11, 1941, unless otherwise provided by mutual agreement.

B. The amount which the Government of Belgium shall pay to the United States of America for articles transferred under the provisions of Article III of this Agreement shall be the total purchase price, as determined by the President of the United States of America, and said
total purchase price shall be the price of the articles as determined under paragraph 2 hereof plus the additional costs (incidental to delivery at shipside) set forth in paragraph 3 hereof.

1. In the determination of the price under paragraph 2 the following definitions shall apply:

(a) The term "contract price" means the contract price f. o. b. point of origin paid by the United States Government to the contractor.

(b) The term "current sale price" with respect to any articles means the market price as of the date of transfer to the Government of Belgium of articles of similar quality and in similar quantity as determined by the President.

2. The price of the articles shall be determined as follows:

(a) If the articles transferred to the Government of Belgium have been the subject of a contract or order placed by a United States Government agency pursuant to an order or contract determined by the President to have been placed for some purpose other than that of filling a requisition or request filed by the Government of Belgium, the price shall be the current sale price.

(b) If the articles transferred to the Government of Belgium are provided out of articles delivered to a United States Government agency pursuant to an order or contract determined by the President to have been placed for some purpose other than that of filling a requisition or request filed by the Government of Belgium, the price shall be the current sale price.

(c) If the articles transferred to the Government of Belgium have been the subject of a contract or order placed by a United States Government agency for the purpose of filling a requisition or request filed by the Government of Belgium and have been made available by the supplier for shipment prior to the day on which the President shall have determined that such articles are no longer necessary to the prosecution of the war, the price shall be the current sale price or the contract price less 5 per cent thereof, whichever is lower.

(d) For the purpose of subparagraphs (b) and (c) above, the articles shall be deemed to have been made available for shipment by the supplier on the date of issuance of the United States Government Bill of Lading (inland) under which the articles were shipped.

3. The additional costs to be added to the price to arrive at the total purchase price shall be the costs incurred by the United States of America for inland transportation, storage and other charges incidental to delivery of the articles at shipside. The United States of America will inform the Government of Belgium from time to time of the amount of such costs incurred and the bases on which they have been determined.

C. Payment of the total purchase price for all articles transferred under the provisions of Article III of this Agreement, shall be made by the Government of Belgium on or before July 1, 1975.
1. Payment of the total purchase price of any article so transferred shall be made in equal annual installments, the first of which shall become due and payable on July 1, 1946, or on the first of July next following the day on which such article shall have been transferred, whichever is later.

2. Nothing herein shall be construed to prevent the Government of Belgium from anticipating the payment of any of such installments or any part thereof.

3. If by agreement of the United States of America and the Government of Belgium it is determined that, because of extraordinary and adverse economic conditions arising during the course of payment, the payment of a due installment would not be in the joint interest of the United States of America and the Government of Belgium, payment may be postponed for an agreed upon period.

D. Interest on the unpaid balances of the total purchase price determined under Section B above for any article so transferred, shall be paid by the Government of Belgium at the fixed rate of two and three-eighths per cent per annum, accruing from the first day of July, 1946 or from the first day of July next following the day on which such article shall have been transferred, whichever is later. Interest shall be payable annually, the first payment to be made on the first day of July next following the first day of July on which such interest began to accrue.

E. The Government of Belgium shall pay to the United States of America the cost of the services listed in this schedule to the extent that such services shall be rendered to the Government of Belgium following the determination by the President that such services are no longer necessary to the prosecution of the war. The cost of such services, so rendered, shall be determined by the President of the United States of America and shall be paid by the Government of Belgium in accordance with the same terms as provided for the payment of the total purchase price of the articles provided hereunder, as set forth in Section C above. Interest shall be paid on the unpaid balances of the cost of such services in accordance with the terms of Section D hereof.

F. The total purchase price value of all the articles and services in this Schedule 1 shall not exceed $325,200,000. Such articles and services and their estimated cost to the Government of the United States of America are as follows:

MEMORANDUM OF INTERPRETATION
with respect to the AGREEMENT between the
United States of America and Belgium under
Section 3 (c) of the Lend-Lease Act

The Government of the United States of America directs the attention of the Government of Belgium to the proposed agreement under Section 3 (c) of the Lend-Lease Act and in particular to Article IV thereof. Under Article IV this Government will review, from time to time, and particularly at the conclusion of hostilities in Europe, as determined by the President, articles and services set forth in the Schedule annexed to the Agreement in order to determine whether the delivery of such articles or services should be withheld in the national interest of the United States. The reservation made by this Government in Article IV to withhold delivery of articles and services "whenever the President determines that such action is in the national interest" constitutes a broad power to cancel or revoke procurement programs or contracts. It is not possible to predict with precision what occasions or circumstances may arise in the future which may require this Government to withhold delivery. Actual delivery will always be subject to the development of the military situation, and the changing demands of strategy, as well as to economic and financial factors which affect the national interest of this Government.

The Government of the United States of America expects that all articles and services transferred to the Government of Belgium on or before February 28, 1945, pursuant to the exchange of notes between the Foreign Economic Administration and the Belgian Ambassador to the United States on October 20 and October 25, 1944, [1] will be paid for in United States dollars in accordance with the terms of those notes and any articles and services requisitioned in accordance with the provisions of those notes but transferred after February 28, 1945 will be regarded, if appropriate, as deliveries under the Schedule annexed to the Agreement.

The Government of the United States of America further wishes to point out that, in view of the existing economic and governmental relationships and arrangements between the Government of Belgium and the Grand Duchy of Luxembourg, and the fact that the Government of Belgium and the Grand Duchy of Luxembourg are employing their resources together in the prosecution of the war against the common enemy, it is understood that some of the articles, or an appropriate portion thereof, delivered under this Agreement are required for use or consumption within the Grand Duchy of Luxembourg, and that the Government of Belgium and the Grand Duchy of Luxembourg will make such arrangements between them as may be needed to effectuate such use or consumption within the Grand Duchy of Luxembourg. The Government of the United States of America therefore consents to the transfer by the Government of Belgium of

[1][Not printed.]
such articles, or an appropriate portion thereof, to the Grand Duchy of Luxembourg.

It is further understood that the Government of Belgium will be obligated to pay currently for civilian supplies furnished by the combined military authorities under "Plan A" or "Plan A" as modified. Payment will be made in accordance with the arrangements to be made with the governments which have furnished the supplies, and in United States dollars to the extent determined under such arrangements.

It is, of course, understood that in the implementation of the provisions of any lend-lease agreement with the Government of Belgium, the Government of the United States of America will act in accordance with its Constitutional procedures.

AMBASSADE DE BELGIQUE

WASHINGTON, April 17, 1945.

Sir:

Several questions of interpretation have arisen with respect to the language of the Agreement between our two Governments under Section 3 (c) of the Lend Lease Act. I believe it will be helpful to indicate the understanding which my Government now has with respect to these questions and I would appreciate an expression from you as to whether or not these understandings are correct.

1. It is the understanding of my Government that the Agreement does not apply to arms and munitions, and that arms and munitions now or hereafter provided to my Government will be supplied, on a straight lend lease basis, under the Agreement of June 16, 1942 between our two Governments on the principles applying to mutual aid.

2. We understand that in general it is not the intention of the United States Government to exercise its right under Article V of the Agreement between our two Governments dated June 16, 1942 to recapture any articles for which the Government of Belgium has paid or is to pay the United States Government. If however, the United States Government should exercise this right with respect to any such articles, appropriate arrangements will be made for repayment to the Government of Belgium.

3. With reference to the last paragraph of Article III of the Agreement under Section 3 (c) of the Lend Lease Act, it is the understanding of my Government that no articles or services will be transferred or rendered to my Government under that Article unless they have been requisitioned by my Government.

4. In the first paragraph of Article IV of the Agreement under Section 3 (c) of the Lend Lease Act, it is stated that changes may be made from time to time in the items set forth in the Schedule annexed

56 Stat. 32.
22 U. S. C., Supp. IV, § 122 (c).
Ante, p. 52.

56 Stat. 1504.

56 Stat. 1505.

Ante, p. 1643.

Ante, p. 1643.
thereo, by mutual agreement between the United States of America and the Government of Belgium. It is our understanding that this language means that not only the items but also the values expressed for each item in the Schedule and the total value expressed for the whole Schedule, may be modified by mutual agreement.

5. With regard generally to the provisions of the Agreement under Section 3 (c) of the Lend Lease Act with reference to risk of loss and transfer, as expressed in Section A of the Schedule annexed to the Agreement, it is my understanding that a suitable opportunity will be given to representatives of my Government, in accordance with the general procedures of your Government, to inspect articles proposed to be transferred before their transfer.

6. With reference to the provision of the Schedule annexed to the Agreement under Section 3 (c) of the Lend Lease Act that risk of loss shall pass in accordance with the customary practice of the United States Government with respect to transfers under the Act of Congress of March 11, 1941, it is the understanding of my Government that under the practice referred to risk of loss usually passes when the articles leave the possession of the supplier or are withdrawn from United States Government stock.

7. With reference to the provision of Section A of the Schedule annexed to the Agreement under Section 3 (c) of the Lend Lease Act that “those articles which, prior to the end of the periods authorized by law, shall have been contracted for by the United States Government and shall not have been transferred to the Government of Belgium as above set forth, shall be deemed to be transferred to the Government of Belgium upon the last day of such periods”, it is the understanding of my Government that the term “periods” refers to the period as now provided for by the last clause of section 3 (c) of the Lend Lease Act, or as such period may hereafter be extended by amendment of that Act, during which the powers conferred by or pursuant to Section 3 (a) of that Act may be exercised to the extent necessary to carry out a contract or agreement made under Section 3 (c) of that Act.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

My dear Mr. Ambassador:

In reply to your letter of today's date outlining your Government's understanding of seven questions which have arisen with respect to the
language of the Agreement between our two Governments under Section 3 (c) of the Lend-Lease Act, I am pleased to state that the understanding of your Government coincides with the views held by the Government of the United States in respect to these matters.

My dear Mr. Ambassador:

In the Memorandum of Interpretation accompanying the Agreement under Section 3 (c) of the Lend-Lease Act which was signed by our Governments today, there is set forth the understanding of my Government that some of the articles to be delivered under the Agreement will be required for use or consumption within the Grand Duchy of Luxembourg and that the Government of Belgium and the Government of the Grand Duchy of Luxembourg will make the necessary arrangements to effectuate such use or consumption within the Grand Duchy of Luxembourg.

You will understand that if my Government should not be able to conclude arrangements with the Grand Duchy of Luxembourg required by the Lend-Lease Act, my Government's consent to future retransfers to the Grand Duchy of Luxembourg, as expressed in the Memorandum accompanying the 3 (c) Agreement, will have to be qualified or revoked.

WASHINGTON, April 19th, 1945

My dear Mr. Secretary:

With reference to the Schedule attached to the Agreement between the United States of America and Belgium, under Section 3 (c) of the Lend-Lease Act, I note that the amount of $42,000,000.00 has been set for freight charges on American ocean vessels.
After discussion of this matter with the experts of the "Mission Economique Belge", I feel that due to the fact that an important part of the supplies from United States to Belgium will be shipped on vessels that are not under American Registry, the amount of $42,000,000, seems far in excess of the freight payments which could possibly be made for transport on American ocean vessels.

Under Article IV of said Agreement, changes may be made from time to time in the items set forth in the Schedule annexed thereto. However, in connection with the conclusion of the Agreement, I should like to state, for the record, that if in the near future the estimate of the experts of the "Mission Economique Belge" proves to be correct, I will request a transfer of part of this amount to other items of the schedule.

My dear Mr. Secretary,

With respect to paragraph B of the Schedule attached to the Agreement between the United States of America and Belgium, under Section 3 (c) of the Lend-Lease Act, I wish to state that my Government has accepted the provisions concerning the determination of the price, subject to the condition that in case a different manner of determination should be set forth in a similar Agreement between the United States of America and another country, my Government would expect to obtain the benefit of the provisions relating to price determination as embodied in such an Agreement. I should be grateful if you would kindly confirm that this is also the understanding of your Government.

My dear Mr. Ambassador:

I acknowledge the receipt of your letter of April 19, 1945 in which you state that in respect to the price arrangements contained in paragraph B of the Schedule attached to the Lend-Lease Agreement of April 17, 1945 between the United States and Belgium, your Government would expect to obtain the benefit of comparable price provisions contained in a similar Agreement between the United States and any other country.

The Government of the United States has the intention of treating each country in its individual relationship with the United States fairly and equitably in all matters pertaining to lend-lease and the general procurement of supplies in the United States. However, the United States does not consider it necessary that comparable arrangements in similar agreements between the United States and any other country should contain identical or equally favorable provisions. It is sufficient that the individual lend-lease arrangements established between the United States and each country shall be reasonable. The relatively temporary character of lend-lease, the numerous and dissimilar factors involved in the lend-lease relationships of the United States and the rapidly changing war situation compel this Government to retain freedom of action in negotiating individual lend-lease agreements.

AMBASSADE DE BELGIQUE
WASHINGTON, April 17, 1945.

Sir:

In the United Nations declaration of January 1, 1942, the contracting governments pledged themselves to employ their full resources, military and economic, against those nations with which they are at war; and in the Agreement of June 16, 1942, each contracting government undertook to provide the other with such articles, services, facilities or information useful in the prosecution of their common war undertaking as each may be in a position to supply. It is further the understanding of the Government of Belgium that the general principle to be followed in providing mutual aid as set forth in the said Agreement of June 16, 1942, is that the war production and the war
resources of both Nations should be used by the armed forces of each and of the other United Nations in ways which most effectively utilize the available materials, manpower, production facilities and shipping space.

With a view, therefore, to supplementing Article II and Article VI of the Agreement of June 16, 1942, between our two Governments for the provision of reciprocal aid, I have the honor to set forth the understanding of the Government of Belgium of the principles and procedures applicable to the provision of aid by the Government of Belgium to the armed forces of the United States and the manner in which such aid will be correlated with the maintenance of such forces by the United States Government.

1. The Government of Belgium, retaining the right of final decision in each case in the light of its own potentialities and responsibilities, will provide the United States or its armed forces with the following types of assistance as reciprocal aid when and to the extent that it is found that they can most effectively be procured in Belgium or the Belgian Congo:

   (a) Military equipment, munitions and military and naval stores;
   (b) Other supplies, materials, facilities, services and information for the United States forces including payment of those civil claims against the United States and its armed forces, employees and officers that shall be mutually agreed upon by the two Governments as a proper charge against the Belgian Government, but not including the pay and allowances of United forces, the wages and salaries of civilian officials of the United States Government and the administrative expenses of United States missions;
   (c) Supplies, materials and services needed in the construction of military projects, tasks and similar capital works required for the common war effort in Belgium or the Belgian Congo, except for the wages and salaries of United States citizens;
   (d) Supplies, materials and services needed in the construction of such military projects, tasks and capital works in territory other than Belgium or the Belgian Congo or territory of the United States to the extent that Belgium or the Belgian Congo is a more practicable source of supply than the United States or another of the United Nations;
   (e) Such other supplies, materials, facilities, services and information as may be agreed upon as necessary in the prosecution of the war.

2. The practical application of the principles formulated in this note, including the procedure by which requests for aid are made and acted upon, shall be worked out as occasion may require by agreement between the two governments, acting when possible through their appropriate military or civilian administrative authorities. Requests by the United States Government for such aid will be presented by duly authorized authorities of the United States to official agencies of the Belgian Government which will be designated or established
by the Government of Belgium for the purpose of facilitating the provision of reciprocal aid.

3. It is the understanding of the Government of Belgium that all such aid, as well as other aid, including information received under Article VI of the Agreement of June 16, 1942, accepted by the President of the United States or his authorized representatives from the Government of Belgium will be received as a benefit to the United States under the Act of March 11, 1941. Insofar as circumstances will permit, appropriate record of aid received under this arrangement, except for miscellaneous facilities and services, will be kept by each Government.

4. In order to facilitate the procurement in Belgian metropolitan territory of supplies, materials, facilities, information and services described in Section 1, by permitting their direct purchase rather than their procurement by the method contemplated in Section 2, during the period of military operations and until such time as the official agencies of the Belgian Government are able to provide such reciprocal aid in the manner contemplated in Section 2, the Government of Belgium agreed to make available to designated officers of the United States Government such Belgian franc currency or credits as may be needed for the purpose. The necessary arrangements will be made by the appropriate authorities of the two governments.

If the Government of the United States concurs in the foregoing, I would suggest that the present note and your reply to that effect be regarded as placing on record the understanding of our two governments in this matter and as superseding the exchange of notes of January 30, 1943 on this subject, and that for clarity and convenience of administration the present note and your reply be made retroactive to June 16, 1942, the date of the Agreement of the two Governments on the principles of mutual aid.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

Belgian Ambassador.

Excellency:

I have the honor to acknowledge the receipt of your note of today's date concerning the principles and procedures applicable to the provision of aid by the Government of Belgium to the United States of America or its forces.
In reply I wish to inform you that the Government of the United States agrees with the understanding of the Government of Belgium as expressed in that note. It is also agreed that the exchange of notes of January 30, 1943 on this subject is hereby superseded by your present note and this reply, both of which in accordance with the suggestion contained in your present note, will be regarded as placing on record the understanding between our two Governments in this matter.

This further integration and strengthening of our common war effort gives me great satisfaction.

His Excellency
BARON ROBERT SILVERCRUYS,

The Secretary of State to the Belgian Ambassador

DEPARTMENT OF STATE
WASHINGTON
April 17, 1945

MY DEAR MR. AMBASSADOR:

You will recall that on January 30, 1943 Dean Acheson, Assistant Secretary of State, addressed a letter to the Belgian Ambassador with respect to the receipt by this Government as reciprocal aid of articles previously purchased abroad and imported into Belgian territory. In that letter Mr. Acheson stated that this Government does not expect the Belgian Government or the authorities in the Belgian Congo to furnish such articles to American forces as reciprocal aid and that, if such articles were furnished as reciprocal aid in emergency situations, this Government would be entirely agreeable to the principle that they should be replaced from the United States as soon as possible.

Mr. Acheson further stated that American forces would not request or accept as reciprocal aid any such articles, the replacement of which was regarded by the Belgian Government as desirable, without specific authorization in each case from the War Department.

The exigencies of war have made strict compliance with this procedure impractical, and your Government has furnished such articles to this Government and its armed forces without compliance with this procedure. The quantity and value of the articles so furnished are not yet known and it is anticipated that considerable time may be required before mutual agreement can be reached as to the exact value of the articles to be replaced under the terms of Mr. Acheson’s letter.

At the time of Mr. Acheson’s letter no non-military supplies were being provided by my Government to your Government as straight lend-lease. Now, however, our two Governments have concluded an
agreement under Section 3 (c) of the Lend-Lease Act, under which this Government will furnish non-military supplies as straight lend-lease aid to your Government to the extent provided therein.

I should therefore like to propose that the obligation in Mr. Acheson’s letter to replace articles provided as reciprocal aid which have previously been purchased abroad and imported into Belgian territory should not apply to articles hereafter made available to this Government as reciprocal aid.

With respect to such articles transferred as reciprocal aid by the Government of Belgium to the United States or its armed forces prior to the date of the signing of the Agreement under Section 3 (c) of the Lend-Lease Act, I should like to propose that final action with respect to replacement be deferred until the final determination of the terms and conditions upon which mutual aid has been provided and received by the two Governments in accordance with the terms of the Agreement of June 16, 1942 with respect to the principles applying to mutual aid. At the time such a final determination is reached, and the full extent of the aid furnished by the United States and the reciprocal aid furnished by the Government of Belgium becomes known, the United States will make such replacement in accordance with the principles expressed in Mr. Acheson’s letter to any extent then mutually agreed upon between the two Governments as just and equitable.

Sincerely yours,

E R STETTINIUS, JR

His Excellency

BARON ROBERT SILVERCRUYS,
Belgian Ambassador.

AMBASSADE DE BELGIQUE

D. 8492/9
No. 2368

WASHINGTON, April 19, 1945

MY DEAR MR. SECRETARY:

I have the honor to acknowledge the receipt of your letter dated April 17th, 1945, forwarding certain proposals made with reference to the commitments taken by the United States Government and embodied in Mr. Dean Acheson’s letter of January 30th, 1943.

As you will recall, at that time the Belgian Congo was the only territory under Belgian jurisdiction where reciprocal aid could be made effective. The terms of Mr. Acheson’s letter refer accurately to the situation prevailing in the Belgian Colony, where almost every manufactured article was purchased abroad and imported with considerable difficulty. It was not considered desirable that American forces should procure such articles without a reasonable assurance being given that they would be replaced.

Quite different is the situation in the highly industrialized Belgian
metropolitan territory, which is largely dependent on imports of raw materials and where procurement from the almost depleted stocks of locally produced goods would generally necessitate their replacement by importation of the raw materials needed in their manufacture.

In order to deal with this possibility, which in our view amounts to the extension of aid not within the scope of the Reciprocal Aid Agreement between Belgium and the United States, negotiations were undertaken in Washington between the Department of State and the Belgian Embassy. On October 16th, 1944 a draft amendment to the letter of the Belgian Ambassador dated January 30th, 1943 was submitted by the Department of State to the Belgian Embassy. Paragraph III, which was tentatively agreed upon at that time, expressed in the following terms the intentions of the two interested parties concerning the special situation likely to arise in Belgium.

"In view of the shortages prevailing in Belgium, the Government of Belgium regrets that it will not be in a position to provide as reciprocal aid under Section 1 any supplies or materials (except for component parts or component materials) which require current replacement by purchases involving the use of foreign exchange from sources outside of Belgium or the Belgian Congo. The Government of Belgium, therefore, requests assurances that the Government of the United States will undertake at its option either to replace or to refund in dollars the cost of any such supplies or materials which have been either requisitioned in the manner contemplated in Section 2, or purchased with the currency made available under the terms of Section 4, wherever the quantity involved is appreciable from the point of view of the dollar exchange required for replacements."

Although no formal agreement was ever concluded on this subject, the Belgian authorities in charge of Reverse Lend-Lease Administration operated on the assumption that such was the understanding and furnished to the Allied Armies supplies, the replacement of which would call for imports from abroad.

While accepting your proposal that final action with respect to replacement be deferred, I wish to place the foregoing on record and to state that the Belgian Government may request that consideration be given to the matters mentioned above, in the final determination of the terms and conditions upon which mutual aid has been provided.

Sincerely yours,

The Belgian Ambassador,

Silvercruts

Agreement between the United States of America and Norway respecting air transport services. Effected by exchange of notes signed at Washington October 6, 1945; effective October 15, 1945.

The Secretary of State to the Norwegian Chargé d'Affaires ad interim

DEPARTMENT OF STATE
WASHINGTON
October 6, 1945

Sir:

I refer to discussions which have recently taken place between representatives of the Governments of the United States of America and Norway with respect to the conclusion of a reciprocal air transport agreement.

It is my understanding that these discussions, now terminated, have resulted in the following agreement:

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND NORWAY RELATING TO AIR TRANSPORT SERVICES

The Governments of the United States of America and Norway signed on October 16, 1933 an air navigation arrangement governing the operation of civil aircraft of the one country in the territory of the other country, in which each party agreed that consent for the operations over its territory by air transport companies of the other party might not be refused on unreasonable or arbitrary grounds. Pursuant to the aforementioned arrangement of 1933, the two governments hereby conclude the following arrangement covering the operation of scheduled airline services between their respective territories, based on the standard form of agreement for air routes and services included in the Final Act of the International Civil Aviation Conference signed at Chicago on December 7, 1944.

Article 1

The contracting parties grant the rights specified in the Annex hereto necessary for establishing the international civil air routes and services therein described, whether such services be inaugurated immediately or at a later date at the option of the contracting party to whom the rights are granted.

Article 2

(a) Each of the air services so described shall be placed in operation as soon as the contracting party to whom the rights have been granted by Article 1 to designate an airline or airlines for the route concerned has authorized an airline for such route, and the contracting party granting the rights shall, subject to Article 6 hereof, be bound to give
the appropriate operating permission to the airline or airlines concerned; provided that the airlines so designated may be required to qualify before the competent aeronautical authorities of the contracting party granting the rights under the laws and regulations normally applied by these authorities before being permitted to engage in the operations contemplated by this agreement; and provided that in areas of hostilities or of military occupation, or in areas affected thereby, such inauguration shall be subject to the approval of the competent military authorities.

(b) It is understood that either contracting party granted commercial rights under this agreement should exercise them at the earliest practicable date except in the case of temporary inability to do so.

**Article 3**

In order to prevent discriminatory practices and to assure equality of treatment, both contracting parties agree that:

(a) Each of the contracting parties may impose or permit to be imposed just and reasonable charges for the use of public airports and other facilities under its control. Each of the contracting parties agrees, however, that these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services.

(b) Fuel, lubricating oils and spare parts introduced into the territory of one contracting party by the other contracting party or its nationals, and intended solely for use by aircraft of such other contracting party shall be accorded national and most-favored-nation treatment with respect to the imposition of customs duties, inspection fees or other national duties or charges by the contracting party whose territory is entered.

(c) The fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board civil aircraft of the airlines of one contracting party authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other contracting party, be exempt from customs, inspection fees or similar duties or charges, even though such supplies be used or consumed by such aircraft on flights in that territory.

**Article 4**

Certificates of airworthiness, certificates of competency and licenses issued or rendered valid by one contracting party shall be recognized as valid by the other contracting party for the purpose of operating the routes and services described in the Annex. Each contracting party reserves the right, however, to refuse to recognize, for the purpose of flight above its own territory, certificates of competency and licenses granted to its own nationals by another state.

**Article 5**

(a) The laws and regulations of one contracting party relating to the admission to or departure from its territory of aircraft engaged in
international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other contracting party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first party.

(b) The laws and regulations of one contracting party as to the admission to or departure from its territory of passengers, crew, or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew or cargo of the other contracting party upon entrance into or departure from, or while within the territory of the first party.

**ARTICLE 6**

Each contracting party reserves the right to withhold or revoke a certificate or permit to an airline of the other party in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of either party to this agreement, or in case of failure of an airline to comply with the laws of the State over which it operates as described in Article 5 hereof, or to perform its obligations under this agreement.

**ARTICLE 7**

This agreement and all contracts connected therewith shall be registered with the Provisional International Civil Aviation Organization.

**ARTICLE 8**

Except as may be modified by the present agreement, the general principles of the aforementioned air navigation arrangement of 1933 as applicable to scheduled air transport services shall continue in force until otherwise agreed upon by the two contracting parties.

**ARTICLE 9**

In the event either of the contracting parties considers it desirable to modify the routes or conditions set forth in the attached Annex, it may request consultation between the competent authorities of both contracting parties, such consultation to begin within a period of sixty days from the date of the request. When these authorities mutually agree on new or revised conditions affecting the Annex, their recommendations on the matter will come into effect after they have been confirmed by an exchange of diplomatic notes.

**ARTICLE 10**

Either contracting party may terminate this agreement, or the rights for any of the services granted thereunder, by giving one year's notice to the other contracting party.
ANNEX TO AIR TRANSPORT AGREEMENT BETWEEN THE
UNITED STATES OF AMERICA AND NORWAY

A. Airlines of the United States of America authorized under the
present agreement are accorded rights of transit and non-traffic stop
in the territory of Norway, as well as the right to pick up and dis-
charge international traffic in passengers, cargo and mail at Oslo
(Gardermoen) or Stavanger (Sola), on the following route:

The United States via intermediate points to Oslo or
Stavanger and points beyond; in both directions.

Airlines of the United States of America having the right to pick
up and discharge international traffic on the above route will make
sufficient traffic stops in Oslo or Stavanger to offer reasonable com-
mercial service for traffic to and from Norway; provided that this under-
taking shall not involve any discrimination between airlines of the
United States and other countries operating on that same route, shall
take into account the capacity of the aircraft, and shall be fulfilled in
such a manner as not to prejudice the normal operations of the inter-
national air services concerned.

B. Airlines of Norway authorized under the present agreement are
accorded rights of transit and non-traffic stop in the territory of the
United States of America, as well as the right to pick up and dis-
charge international traffic in passengers, cargo and mail at New York or
Chicago, on the following route:

Norway via intermediate points to New York or Chicago; in
both directions.

I shall be glad to have you inform me whether it is the understand-
ing of your Government that the terms of the agreement resulting
from the discussions are as above set forth. If so, it is suggested that
October 15, 1945 become the effective date. If your Government con-
curs in this suggestion the Government of the United States will re-
gard the agreement as becoming effective at such time.

Accept, Sir, the renewed assurances of my high consideration.

For the Secretary of State:

WILLIAM L. CLAYTON

Mr. Lars J. Jorstad,
Chargé d’Affaires ad Interim of Norway.

The Norwegian Chargé d’Affaires ad interim to the Secretary of State
NORWEGIAN EMBASSY
WASHINGTON 7, D. C.

SIR:

I have the honor to acknowledge the receipt of your note of October
6, 1945 in which you communicated to me the terms of a reciprocal
air transport agreement between Norway and the United States of
America, as understood by you to have been agreed to in negotiations,

The terms of this agreement which you have communicated to me are as follows:

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND NORWAY RELATING TO AIR TRANSPORT SERVICES

The Governments of the United States of America and Norway signed on October 16, 1933 an air navigation arrangement governing the operation of civil aircraft of the one country in the territory of the other country, in which each party agreed that consent for the operations over its territory by air transport companies of the other party might not be refused on unreasonable or arbitrary grounds. ARTICLE 1

The contracting parties grant the rights specified in the Annex hereto necessary for establishing the international civil air routes and services therein described, whether such services be inaugurated immediately or at a later date at the option of the contracting party to whom the rights are granted.

ARTICLE 2

(a) Each of the air services so described shall be placed in operation as soon as the contracting party to whom the rights have been granted by Article 1 to designate an airline or airlines for the route concerned has authorized an airline for such route, and the contracting party granting the rights shall, subject to Article 6 hereof, be bound to give the appropriate operating permission to the airline or airlines concerned; provided that the airlines so designated may be required to qualify before the competent aeronautical authorities of the contracting party granting the rights under the laws and regulations normally applied by these authorities before being permitted to engage in the operations contemplated by this agreement; and provided that in areas of hostilities or of military occupation, or in areas affected thereby, such inauguration shall be subject to the approval of the competent military authorities.

(b) It is understood that either contracting party granted commercial rights under this agreement should exercise them at the earliest practicable date except in the case of temporary inability to do so.

ARTICLE 3

In order to prevent discriminatory practices and to assure equality of treatment, both contracting parties agree that:
(a) Each of the contracting parties may impose or permit to be imposed just and reasonable charges for the use of public airports and other facilities under its control. Each of the contracting parties agrees, however, that these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services.

(b) Fuel, lubricating oils and spare parts introduced into the territory of one contracting party by the other contracting party or its nationals, and intended solely for use by aircraft of such other contracting party shall be accorded national and most-favored-nation treatment with respect to the imposition of customs duties, inspection fees or other national duties or charges by the contracting party whose territory is entered.

(c) The fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board civil aircraft of the airlines of one contracting party authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other contracting party, be exempt from customs, inspection fees or similar duties or charges, even though such supplies be used or consumed by such aircraft on flights in that territory.

ARTICLE 4

Certificates of airworthiness, certificates of competency and licenses issued or rendered valid by one contracting party shall be recognized as valid by the other contracting party for the purpose of operating the routes and services described in the Annex. Each contracting party reserves the right, however, to refuse to recognize, for the purpose of flight above its own territory, certificates of competency and licenses granted to its own nationals by another state.

ARTICLE 5

(a) The laws and regulations of one contracting party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other contracting party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first party.

(b) The laws and regulations of one contracting party as to the admission to or departure from its territory of passengers, crew, or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew or cargo of the other contracting party upon entrance into or departure from, or while within the territory of the first party.

ARTICLE 6

Each contracting party reserves the right to withhold or revoke a certificate or permit to an airline of the other party in any case where
it is not satisfied that substantial ownership and effective control are vested in nationals of either party to this agreement, or in case of failure of an airline to comply with the laws of the State over which it operates as described in Article 5 hereof, or to perform its obligations under this agreement.

ARTICLE 7

This agreement and all contracts connected therewith shall be registered with the Provisional International Civil Aviation Organization.

ARTICLE 8

Except as may be modified by the present agreement, the general principles of the aforementioned air navigation arrangement of 1933 as applicable to scheduled air transport services shall continue in force until otherwise agreed upon by the two contracting parties.

ARTICLE 9

In the event either of the contracting parties considers it desirable to modify the routes or conditions set forth in the attached Annex, it may request consultation between the competent authorities of both contracting parties, such consultation to begin within a period of sixty days from the date of the request. When these authorities mutually agree on new or revised conditions affecting the Annex, their recommendations on the matter will come into effect after they have been confirmed by an exchange of diplomatic notes.

ARTICLE 10

Either contracting party may terminate this agreement, or the rights for any of the services granted thereunder, by giving one year’s notice to the other contracting party.

ANNEX TO AIR TRANSPORT AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND NORWAY

A. Airlines of the United States of America authorized under the present agreement are accorded rights of transit and non-traffic stop in the territory of Norway, as well as the right to pick up and discharge international traffic in passengers, cargo and mail at Oslo (Gardermoen) or Stavanger (Sola), on the following route:

The United States via intermediate points to Oslo or Stavanger and points beyond; in both directions.

Airlines of the United States of America having the right to pick up and discharge international traffic on the above route will make sufficient traffic stops in Oslo or Stavanger to offer reasonable commercial service for traffic to and from Norway; provided that this undertaking shall not involve any discrimination between airlines of the United States and other countries operating on that same route, shall take into account the capacity of the aircraft, and shall be fulfilled
in such a manner as not to prejudice the normal operations of the international air services concerned.

B. Airlines of Norway authorized under the present agreement are accorded rights of transit and non-traffic stop in the territory of the United States of America, as well as the right to pick up and discharge international traffic in passengers, cargo and mail at New York or Chicago, on the following route:

Norway via intermediate points to New York or Chicago; in both directions.

I am instructed to state that the terms of the agreement as communicated to me are agreed to by my Government. Furthermore, I am pleased to add that your suggestion that the agreement become effective on October 15, 1945, is acceptable to my Government.

Accept, Sir, the renewed assurances of my highest consideration.

Lars J. Jorstad.

The Honorable James F. Byrnes,
Secretary of State,
Washington, D.C.
Agreement between the United States of America and the French Committee of National Liberation respecting mutual aid in French North and West Africa. Signed at Algiers September 25, 1943; effective September 25, 1943.

MODUS VIVENDI ON RECIPROCAL AID IN FRENCH NORTH AND WEST AFRICA

The Government of the United States and the French Committee of National Liberation desirous of lending each other the reciprocal aid necessary to the prosecution of the joint war effort are agreed upon the following provisional 'Modus Vivendi' which will, following signature, be applicable in French North and West Africa:

I – With reference to supplies and services urgently needed to maintain the French war effort, which the United States has furnished to the French authorities and will continue to furnish, within limitations of need and supply, it is understood that:

a) Military aid, including supplies for railroads, docks, public utilities and other facilities to the extent that such supplies are determined to be military aid is made available on a straight Lend-Lease basis, in the light of the considerations set forth in Paragraph V. Such aid does not include the pay and allowances of French forces. The United States reserves the right to require the return of any articles furnished under this paragraph and not lost, destroyed or consumed,

(i) – if at any time it is decided that such restitution would be an advantage in the conduct of the war, or

(ii) – if at the end of the present emergency as determined by the President of the United States, the President shall determine that such articles are useful in the defense of the United States or of the Western Hemisphere, or to be otherwise of use to the United States.

b) For all civilian supplies imported from the United States, the French authorities will pay upon the basis of prices to be agreed. Payment will be made, currently at convenient intervals, in dollars, to an appropriately designated account in the United States.

c) The distinction between civilian and military aid, supplies and services, where such distinction may be necessary, will be made by agreement.

d) All aid furnished under Paragraph I (a) and I (b) will be made available by the United States under the authority and subject to the terms and conditions provided for in the Act of Congress
of March 11, 1941, as amended (P.L. 11, 77th Congress, 1st Session).

II — With reference to supplies and services urgently needed to maintain the United States war effort, which the French authorities have furnished to the United States and will continue to furnish, within limitations of need and supply, it is understood that:

a) The French authorities undertake to make available to or for the use of the armed forces and other governmental agencies of the United States, as reverse Lend-Lease aid to the United States, on a straight Lend-Lease basis, when it is found that such aid can most effectively be procured in territory under their control,

(i) — military equipment, munitions, and military and naval stores;

(ii) — other supplies, materials, facilities and services for United States forces, including the use of railway and port facilities, but not including the pay and allowances of such forces nor the administrative expenses of American missions;

(iii) — supplies, materials, facilities and services, except for the wages and salaries of United States citizens, needed in the construction of military projects, tasks and similar capital works required in the common war effort, to the extent that French North or West Africa is the most practicable source of such supplies, materials, facilities or services;

(iv) — such other supplies, materials, services or facilities as may be agreed upon as necessary in the prosecution of the war, but not including exports of civilian supplies to the United States from North and West Africa.

While the French authorities retain, of course, the right of final decision, subject to the obligations and arrangements they have entered into for the prosecution of the war, decisions as to the most effective use of resources shall, so far as possible, be made in common, pursuant to common plans for winning the war.

b) All civilian supplies exported from French North and West Africa to the United States will be paid for on the basis of prices to be agreed. Payment will be made currently, at convenient intervals, in dollars, to an appropriate designated account in the United States.

c) The distinction between civilian and military aid, supplies and services, where such distinction may be necessary, will be made by agreement.

d) In order to obtain the supplies and services included within the scope of Paragraph II (a), duly authorized United States officers or other officials will submit their requests to the official services duly designated by the French authorities. These services will be established in Algiers, Casablanca, Oran, Tunis, Dakar, and other places where it may be found practicable and convenient.
to establish organizations for facilitating the transfer of reciprocal aid.
e) For use in those exceptional cases, and particularly in cases of local procurement of supplies, in which it is agreed to be more practicable to secure such reverse Lend-Lease supplies, facilities and services by direct purchase, rather than by the method of procurement set forth in Paragraph II (b), it is agreed that the French authorities establish a franc account in convenient banking institutions and in the name of a designated officer of the United States to facilitate the provision of reverse Lend-Lease aid as contemplated by Paragraph II (a). The French contributions to this account will be mutually agreed upon from time to time in the light of the changing needs of the American forces, and other appropriate factors. Such an account will not be used for the payment of wages and salaries of American military or civilian personnel, nor for administrative expenses of American missions. Estimates of the franc requirements of the United States will be submitted to designated French authorities from time to time, as may be found convenient. The French authorities will be kept fully and currently informed of all transactions in this account.

III - In exceptional cases, and when they deem it preferable, the American military forces, or other agencies of the United States Government, may continue to use their present practice of acquiring francs against dollars from the French authorities.

IV - Adequate statistical records will be kept of all goods and services exchanged as mutual aid under paragraphs I and II above.

V - The provisions of this modus vivendi correspond to a desire to reduce to an appropriate minimum the need of either party for currency of the other party. Provisions which call for payments in dollars have been decided upon in view of the special situation arising from accumulated dollar balances and availabilities of dollar funds due to the presence of United States troops in French North and West Africa. Revision of the payment provisions of this modus vivendi will be made should the situation require.

Signed at Algiers this 25th day of September, A.D., 1943.

— : : —
Le Comité Français de la Libération Nationale et le Gouvernement des États-Unis, désireux de se prêter mutuellement l'aide réciproque nécessaire à la poursuite de leur effort de guerre commun, sont convenus du présent modus vivendi provisoire qui sera applicable, dès sa signature, en Afrique du Nord et en Afrique Occidentale Françaises.

1° — Les États-Unis ont fourni et continueront à fournir aux autorités françaises, dans la limite des besoins et des disponibilités, le matériel et les services qui leur seraient indispensables pour soutenir l'effort de guerre français, dans les conditions ci-dessous définies:

a) L'aide militaire, y compris les fournitures destinées aux chemins de fer, docks, services publics et autres facilités, dans la limite où ces fournitures sont considérées comme étant une aide militaire, est accordée sur une base purement prêt-bail, conformément aux considérations exprimées au paragraphe 5 ci-dessous. Cette aide ne comprend pas la solde et les indemnités des troupes françaises. Les États-Unis se réservent le droit de demander la restitution de tous les articles livrés en vertu du présent paragraphe, qui n'auront pas été perdus, détériorés ou consommés:

   i) s'il est convenu à tout moment que cette restitution est avantageuse à la conduite de la guerre;
   ou bien:

   ii) si, à la fin du présent état d'alerte, tel qu'il sera défini par le Président des États-Unis, le Président décide que ces articles sont utiles pour la défense des États-Unis ou de l'hémisphère occidental ou pour tout autre objet intéressant les États-Unis.

b) Toutes les fournitures civiles importées des États-Unis seront payées par les autorités françaises sur la base des prix qui seront convenus par accord mutuel. Le paiement en sera fait au fur et à mesure, à des intervalles convenables, en dollars, à un compte à désigner à cet effet aux États-Unis.

c) La distinction entre le caractère civil ou militaire de l'aide, des services ou des fournitures sera faite d'un commun accord, chaque fois qu'il sera nécessaire.

d) Toute aide fournie en vertu des paragraphes 1 (a) et 1 (b) sera accordée par les États-Unis en vertu de l'acte du Congrès du 11 Mars 1941 (modifié) et selon les termes et conditions qui y sont stipulés.

2° — Les Autorités françaises ont fourni et continueront à fournir aux États-Unis, dans la limite des besoins et disponibilités, les marchandises et les services qui leur seraient indispensables pour soutenir l'effort de guerre, dans les conditions ci-dessous définies:
a) Les Autorités françaises s'engagent à mettre à la disposition des Forces armées et autres organismes gouvernementaux des États-Unis, à titre d'aide réciproque, sur une base purement prêt-bail, lorsqu'il apparaîtra que cette aide peut être obtenue de la manière la plus pratique dans les territoires sous leur contrôle:

1° - du matériel militaire, des munitions, des approvisionnements militaires et navals;

2° - les autres fournitures, marchandises, facilités et services à l'usage des Forces armées américaines, y compris l'utilisation des chemins de fer et installations portuaires, sans toutefois prendre à leur charge les soldes et indemnités de ces Forces et les dépenses administratives des Missions américaines;

3° - les fournitures, marchandises, facilités et services, sans toutefois prendre à leur charge les gages et soldes des citoyens américains, nécessaires pour la réalisation matérielle des projets et autres travaux militaires importants nécessaires en vue de poursuivre l'effort de guerre commun, dans la mesure où l'Afrique du Nord et l'A.O.F. sont la source la plus commode pour obtenir ces fournitures, marchandises, services ou facilités;

4° - les autres fournitures, marchandises, services ou facilités qui seront reconnus comme nécessaires pour la conduite de la guerre, à l'exception des fournitures civiles exportées de l'Afrique du Nord ou de l'A.O.F. vers les États-Unis. Quoique les autorités françaises conservent, bien entendu, le droit de décision finale, sous réserve des obligations et conventions qu'elles ont contractées pour la poursuite de la guerre, les décisions relatives à l'emploi le plus efficace des ressources seront, dans la mesure du possible, prises en commun, conformément au plan commun pour gagner la guerre.

b) Les fournitures civiles exportées de l'Afrique du Nord et de l'A.O.F. vers les États-Unis seront payées à des prix convenus d'un commun accord, le paiement en étant fait par les Autorités américaines aux Autorités françaises, en dollars, périodiquement, à un compte à désigner aux États-Unis.

c) La distinction entre le caractère civil ou militaire de l'aide, des services ou des fournitures, sera faite d'un commun accord et chaque fois qu'il sera nécessaire.

d) Pour obtenir les fournitures et services rentrant dans le cadre du paragraphe 2 (a) les officiers ou les fonctionnaires américains dûment habilités adresseront leur demande aux Services officiels dûment désignés par les autorités françaises. Ces services seront institués à Alger, Casablanca, Oran, Tunis, Dakar et autres endroits où il sera jugé utile et possible de mettre sur pied des organismes destinés à faciliter l'échange de l'aide réciproque.

e) À titre exceptionnel, particulièrement dans le cas d'achats locaux de fournitures, lorsqu'il sera reconnu préférable d'un commun accord que les Services compétents du Gouvernement des États-Unis se
procurent au titre Prêt-Bail des fournitures, ainsi que des facilités et services par voie d'achats directs, plutôt que par la méthode décrite au paragraphe 2 (a), les Autorités françaises ouvriront un compte-francs dans les Etablissements bancaires au nom d'un officier des États-Unis désigné à cet effet, pour faciliter le fonctionnement de l'aide réciproque comme prévu au paragraphe 2 (a). Les versements français à ce compte seront fixés d'un commun accord, compte tenu des besoins des Forces américaines et autres facteurs à prendre en considération. Ce compte ne sera pas utilisé pour le règlement des gages et salaires du personnel américain civil et militaire, ni pour les dépenses administratives des missions américaines. Les estimations des besoins en francs des États-Unis seront soumises périodiquement aux autorités françaises compétentes; les autorités françaises seront tenues au courant, d'une manière complète et régulière, de toutes les dépenses faites sur ce compte.

3° — À titre exceptionnel, et lorsqu'elles l'estimeront préférable, les Forces armées américaines ou autres services du Gouvernement des États-Unis pourront, comme ils le font actuellement, acheter aux autorités françaises des francs contre des dollars.

4° — Il sera tenu une statistique adéquate de toutes les fournitures et services échangés à titre d'aide réciproque, conformément aux paragraphes 1 et 2 ci-dessus.

5° — Les clauses du présent modus vivendi répondent à l'intention de réduire à un minimum approprié les besoins de chacune des deux parties dans la monnaie de l'autre.

Les clauses qui se traduisent par des paiements en dollars ont été prises compte tenu de la situation particulière résultant des soldes et des disponibilités en dollars qui ont été accumulées par suite de la présence des troupes américaines en Afrique du Nord et en A. O. F.; les clauses de paiement seront révisées si la situation le rend nécessaire.

Agreement between the United States of America and Nicaragua respecting a health and sanitation program. Effected by exchange of notes signed at Managua March 30 and 31, 1944.

The American Chargé d’Affaires ad interim to the Nicaraguan Minister for Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA

No. 61.

MANAGUA, D. N., NICARAGUA, March 30, 1944.

EXCELLENCY:

I have the honor to refer to the notes exchanged between His Excellency the Minister of Foreign Affairs of Nicaragua and this Embassy dated May 18, 1942 and May 22, 1942 respectively relative to the Cooperative Program of Health and Sanitation in Nicaragua provided for in Resolution XXX approved at the third meeting of Ministers of Foreign Affairs of the American Republics held in Rio de Janeiro in January of 1942. In accordance with the notes under reference, the United States of America has contributed Five Hundred Thousand Dollars ($500,000.00) for the Cooperative Health and Sanitation Program that is now being carried out in Nicaragua.

If desired by the Government of Nicaragua, the Government of the United States of America, through the Institute of Inter-American Affairs, an agency of the Office of the Coordinator of Inter-American Affairs, is prepared to contribute an additional sum of Three Hundred Thousand Dollars ($300,000.00) for the purpose of cooperating with the Government of Nicaragua in extending the cooperative program of public health and sanitation and providing for the termination of the program within a three-year period beginning April 1, 1944. It would be understood that the Government of Nicaragua will contribute the sum of One Hundred and Fifty Thousand Dollars ($150,000.00) to be combined with the funds contributed by the United States of America and expended over the same three-year period for the cooperative program of health and sanitation in Nicaragua.

The kind of work and specific projects to be undertaken and the costs thereof would be mutually agreed to by the appropriate official of Your Excellency’s Government and an appropriate official of the Institute of Inter-American Affairs.

It would be understood that the funds contributed by both Governments will be spent by the special agency created within the Dirección General de Sanidad by Your Excellency’s Government, which special agency is known as the Servicio Cooperativo Inter-Americano.
de Salud Pública de Nicaragua. Detailed arrangements for the continuation of the special service and the prosecution of the cooperative program of health and sanitation in Nicaragua would be effected by agreement between the appropriate official of Your Excellency’s Government and an appropriate official of the Institute of Inter-American Affairs.

It would be understood that the Government of the United States of America will continue to furnish such experts as are considered necessary in order to collaborate with Your Excellency’s Government in executing the cooperative health and sanitation program.

All projects completed and property acquired in connection with the health and sanitation program would be the property of the Government of Nicaragua.

No project would be undertaken that would require supplies of materials the procurement of which would handicap any phase of the war effort.

I should be glad to be informed whether Your Excellency approves the foregoing general proposal, with the understanding that the details of the program will be the subject of further discussion and agreement as provided for herein.

Accept, Excellency, the renewed assurances of my highest consideration.

Excellency:

I have the honor to refer to our conversations relative to a cooperative program of health and sanitation in the Republic of Chile, with particular reference to Resolution No. XXX approved at the Third Meeting of Ministers of Foreign Affairs of the American Republics held at Rio de Janeiro, Brazil, in January, 1942.

REPUBLIC OF CHILE
MINISTRY OF FOREIGN AFFAIRS
DIPLOMATIC DEPARTMENT

SANTIAGO, May 11, 1943

No. 02453
E 11.6.20.—

Mr. Ambassador:

I have the honor to acknowledge receipt of your courteous communication No. 2021, dated the fifth instant, by which Your Excellency proposes to the Government of Chile the carrying out of a cooperative program of health and sanitation, for which the United States Government would contribute, through the Office of the Coordinator of Inter-American Affairs, up to the sum of five million dollars (U.S. $5,000,000) and the cooperation of such experts as may be deemed necessary.
The undersigned Minister appreciates and accepts the cooperation offered, with the understanding that the details of this general proposal will be the subject of agreements between the appropriate official of the Office of the Coordinator of Inter-American Affairs and the Director General of Health, in his capacity as representative of the National Health Service of Chile, on whom it is incumbent, in accordance with our legislation, to propose to the Government the manner of solving our health problems and to carry out the corresponding works.

As a matter of fact, the political Constitution entrusts to the National Health Service the care of the public health and sanitary welfare of the country, and the Sanitary Code provides, in Article 4, that this Service shall be under the Director General of Health, who will exercise his functions in accordance with the powers and duties which the laws assign to him, to the exclusion of any other authority.

Furthermore, the same Code, in its Article 269, authorizes this Service to receive and administer donations with the object of applying them to public health purposes.

As Your Excellency states, all the projects completed in the execution of this program shall be the property of the Government of Chile.

Consequently, I beg to ask that Your Excellency be so kind as to inform the representative of the Office of the Coordinator of Inter-American Affairs that he may deal with the Director General of Health, who has the necessary capacity to conclude agreements with respect to procedure and other details connected with the prosecution of the cooperative program of health and sanitation and to the investment of the funds in question, with the understanding that the Supreme Government will approve his acts.

The Supreme Government will provide the necessary facilities for the organization of the special Department in the National Health Service, to which Your Excellency refers, and will also contribute an amount to be determined in due course for financing such plan of sanitation works as may be agreed upon.

Finally, the undersigned begs to suggest to Your Excellency the desirability of indicating to this Ministry the name of the official who would represent the Coordinator of Inter-American Affairs and the powers with which he will act for the desired purposes.

I avail myself of the present opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

Joaquín Fernández F.

His Excellency,
Claude G. Bowers,
Ambassador Extraordinary and Plenipotentiary of the United States in Chile,
City.

Air services transit agreement between the United States of America and other powers. Opened for signature at Chicago December 7, 1944; signed for the United States of America December 7, 1944; accepted by the United States of America February 8, 1945, with an understanding.

INTERNATIONAL AIR SERVICES TRANSIT AGREEMENT

The States which sign and accept this International Air Services Transit Agreement, being members of the International Civil Aviation Organization, declare as follows:

ARTICLE I

Section 1

Each contracting State grants to the other contracting States the following freedoms of the air in respect of scheduled international air services:

1. The privilege to fly across its territory without landing;
2. The privilege to land for non-traffic purposes.

The privileges of this section shall not be applicable with respect to airports utilized for military purposes to the exclusion of any scheduled international air services. In areas of active hostilities or of military occupation, and in time of war along the supply routes leading to such areas, the exercise of such privileges shall be subject to the approval of the competent military authorities.

Section 2

The exercise of the foregoing privileges shall be in accordance with the provisions of the Interim Agreement on International Civil Aviation [1] and, when it comes into force, with the provisions of the Convention on International Civil Aviation [2], both drawn up at Chicago on December 7, 1944.

Section 3

A contracting State granting to the airlines of another contracting State the privilege to stop for non-traffic purposes may require such airlines to offer reasonable commercial service at the points at which such stops are made.

Such requirement shall not involve any discrimination between airlines operating on the same route, shall take into account the capacity of the aircraft, and shall be exercised in such a manner as not to prejudice the normal operations of the international air services concerned or the rights and obligations of a contracting State.

---

1 [Executive Agreement Series 469.]
2 [International Civil Aviation Conference, Chicago, Illinois, November 1 to December 7, 1944, Final Act and Related Documents, pp. 59–86.]
Section 4

Each contracting State may, subject to the provisions of this Agreement,

(1) Designate the route to be followed within its territory by any international air service and the airports which any such service may use;

(2) Impose or permit to be imposed on any such service just and reasonable charges for the use of such airports and other facilities; these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services: provided that, upon representation by an interested contracting State, the charges imposed for the use of airports and other facilities shall be subject to review by the Council of the International Civil Aviation Organization established under the above-mentioned Convention, which shall report and make recommendations thereon for the consideration of the State or States concerned.

Section 5

Each contracting State reserves the right to withhold or revoke a certificate or permit to an air transport enterprise of another State in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of a contracting State, or in case of failure of such air transport enterprise to comply with the laws of the State over which it operates, or to perform its obligations under this Agreement.

Article II

Section 1

A contracting State which deems that action by another contracting State under this Agreement is causing injustice or hardship to it, may request the Council to examine the situation. The Council shall thereupon inquire into the matter, and shall call the States concerned into consultation. Should such consultation fail to resolve the difficulty, the Council may make appropriate findings and recommendations to the contracting States concerned. If thereafter a contracting State concerned shall in the opinion of the Council unreasonably fail to take suitable corrective action, the Council may recommend to the Assembly of the above-mentioned Organization that such contracting State be suspended from its rights and privileges under this Agreement until such action has been taken. The Assembly by a two-thirds vote may so suspend such contracting State for such period of time as it may deem proper or until the Council shall find that corrective action has been taken by such State.

Section 2

If any disagreement between two or more contracting States relating to the interpretation or application of this Agreement cannot
be settled by negotiation, the provisions of Chapter XVIII of the above-mentioned Convention shall be applicable in the same manner as provided therein with reference to any disagreement relating to the interpretation or application of the above-mentioned Convention.

**ARTICLE III**

This Agreement shall remain in force as long as the above-mentioned Convention; provided, however, that any contracting State, a party to the present Agreement, may denounce it on one year's notice given by it to the Government of the United States of America, which shall at once inform all other contracting States of such notice and withdrawal.

**ARTICLE IV**

Pending the coming into force of the above-mentioned Convention, all references to it herein, other than those contained in Article II, Section 2, and Article V, shall be deemed to be references to the Interim Agreement on International Civil Aviation drawn up at Chicago on December 7, 1944; and references to the International Civil Aviation Organization, the Assembly, and the Council shall be deemed to be references to the Provisional International Civil Aviation Organization, the Interim Assembly, and Interim Council, respectively.

**ARTICLE V**

Agreement between the United States of America and other powers respecting air transport. Opened for signature at Chicago December 7, 1944; signed for the United States of America December 7, 1944; accepted by the United States of America February 8, 1945, with an understanding.

INTERNATIONAL AIR TRANSPORT AGREEMENT

The States which sign and accept this International Air Transport Agreement, being members of the International Civil Aviation Organization, declare as follows:

ARTICLE I

Section 1

Each contracting State grants to the other contracting States the following freedoms of the air in respect of scheduled international air services:

(1) The privilege to fly across its territory without landing;
(2) The privilege to land for non-traffic purposes;
(3) The privilege to put down passengers, mail and cargo taken on in the territory of the State whose nationality the aircraft possesses;
(4) The privilege to take on passengers, mail and cargo destined for the territory of the State whose nationality the aircraft possesses;
(5) The privilege to take on passengers, mail and cargo destined for the territory of any other contracting State and the privilege to put down passengers, mail and cargo coming from any such territory.

With respect to the privileges specified under paragraphs (3), (4), and (5) of this section, the undertaking of each contracting State relates only to through services on a route constituting a reasonably direct line out from and back to the homeland of the State whose nationality the aircraft possesses.

The privileges of this section shall not be applicable with respect to airports utilized for military purposes to the exclusion of any scheduled international air services. In areas of active hostilities or of military occupation, and in time of war along the supply routes leading to such areas, the exercise of such privileges shall be subject to the approval of the competent military authorities.

Section 2

The exercise of the foregoing privileges shall be in accordance with the provisions of the Interim Agreement on International Civil Avia-
tion [1] and, when it comes into force, with the provisions of the Convention on International Civil Aviation, [2] both drawn up at Chicago on December 7, 1944.

**Section 3**

A contracting State granting to the airlines of another contracting State the privilege to stop for non-traffic purposes may require such airlines to offer reasonable commercial service at the points at which such stops are made.

Such requirement shall not involve any discrimination between airlines operating on the same route, shall take into account the capacity of the aircraft, and shall be exercised in such a manner as not to prejudice the normal operations of the international air services concerned or the rights and obligations of any contracting State.

**Section 4**

Each contracting State shall have the right to refuse permission to the aircraft of other contracting States to take on in its territory passengers, mail and cargo carried for remuneration or hire and destined for another point within its territory. Each contracting State undertakes not to enter into any arrangements which specifically grant any such privilege on an exclusive basis to any other State or an airline of any other State, and not to obtain any such exclusive privilege from any other State.

**Section 5**

Each contracting State may, subject to the provisions of this Agreement,

1. Designate the route to be followed within its territory by any international air service and the airports which any such service may use;

2. Impose or permit to be imposed on any such service just and reasonable charges for the use of such airports and other facilities; these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services: provided that, upon representation by an interested contracting State, the charges imposed for the use of airports and other facilities shall be subject to review by the Council of the International Civil Aviation Organization established under the above-mentioned Convention, which shall report and make recommendations thereon for the consideration of the State or States concerned.

**Section 6**

Each contracting State reserves the right to withhold or revoke a certificate or permit to an air transport enterprise of another State

---

1. [Executive Agreement Series 469.]
2. [International Civil Aviation Conference, Chicago, Illinois, November 1 to December 7, 1944, Final Act and Related Documents, pp. 59-86.]
in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of a contracting State, or in case of failure of such air transport enterprise to comply with the laws of the State over which it operates, or to perform its obligations under this Agreement.

**ARTICLE II**

**Section 1**

The contracting States accept this Agreement as abrogating all obligations and understandings between them which are inconsistent with its terms, and undertake not to enter into any such obligations and understandings. A contracting State which has undertaken any other obligations inconsistent with this Agreement shall take immediate steps to procure its release from the obligations. If an airline of any contracting State has entered into any such inconsistent obligations, the State of which it is a national shall use its best efforts to secure their termination forthwith and shall in any event cause them to be terminated as soon as such action can lawfully be taken after the coming into force of this Agreement.

**Section 2**

Subject to the provisions of the preceding section, any contracting State may make arrangements concerning international air services not inconsistent with this Agreement. Any such arrangement shall be forthwith registered with the Council, which shall make it public as soon as possible.

**ARTICLE III**

Each contracting State undertakes that in the establishment and operation of through services due consideration shall be given to the interests of the other contracting States so as not to interfere unduly with their regional services or to hamper the development of their through services.

**ARTICLE IV**

**Section 1**

Any contracting State may by reservation attached to this Agreement at the time of signature or acceptance elect not to grant and receive the rights and obligations of Article I, Section 1, paragraph (5), and may at any time after acceptance, on six months’ notice given by it to the Council, withdraw itself from such rights and obligations. Such contracting State may on six months’ notice to the Council assume or resume, as the case may be, such rights and obligations. No contracting State shall be obliged to grant any rights under the said paragraph to any contracting State not bound thereby.

**Section 2**

A contracting State which deems that action by another contracting State under this Agreement is causing injustice or hardship to it,
may request the Council to examine the situation. The Council shall thereupon inquire into the matter, and shall call the States concerned into consultation. Should such consultation fail to resolve the difficulty, the Council may make appropriate findings and recommendations to the contracting States concerned. If thereafter a contracting State concerned shall in the opinion of the Council unreasonably fail to take suitable corrective action, the Council may recommend to the Assembly of the above-mentioned Organization that such contracting State be suspended from its rights and privileges under this Agreement until such action has been taken. The Assembly by a two-thirds vote may so suspend such contracting State for such period of time as it may deem proper or until the Council shall find that corrective action has been taken by such State.

Section 3

If any disagreement between two or more contracting States relating to the interpretation or application of this Agreement cannot be settled by negotiation, the provisions of Chapter XVIII of the above-mentioned Convention shall be applicable in the same manner as provided therein with reference to any disagreement relating to the interpretation or application of the above-mentioned Convention.

Article V

This Agreement shall remain in force as long as the above-mentioned Convention; provided, however, that any contracting State, a party to the present Agreement, may denounce it on one year's notice given by it to the Government of the United States of America, which shall at once inform all other contracting States of such notice and withdrawal.

Article VI

Pending the coming into force of the above-mentioned Convention, all references to it herein other than those contained in Article IV, Section 3, and Article VII shall be deemed to be references to the Interim Agreement on International Civil Aviation drawn up at Chicago on December 7, 1944; and references to the International Civil Aviation Organization, the Assembly, and the Council shall be deemed to be references to the Provisional International Civil Aviation Organization, the Interim Assembly, and the Interim Council, respectively.

Article VII

For the purposes of this Agreement, "territory" shall be defined as in Article 2 of the above-mentioned Convention.

Article VIII

Signatures and Acceptances of Agreement

The undersigned delegates to the International Civil Aviation Conference, convened in Chicago on November 1, 1944, have affixed their
signatures to this Agreement with the understanding that the Government of the United States of America shall be informed at the earliest possible date by each of the governments on whose behalf the Agreement has been signed whether signature on its behalf shall constitute an acceptance of the Agreement by that government and an obligation binding upon it.

Any State a member of the International Civil Aviation Organization may accept the present Agreement as an obligation binding upon it by notification of its acceptance to the Government of the United States, and such acceptance shall become effective upon the date of the receipt of such notification by that Government.

This Agreement shall come into force as between contracting States upon its acceptance by each of them.[*] Thereafter it shall become binding as to each other State indicating its acceptance to the Government of the United States on the date of the receipt of the acceptance by that Government. The Government of the United States shall inform all signatory and accepting States of the date of all acceptances of the Agreement, and of the date on which it comes into force for each accepting State.

In witness whereof, the undersigned, having been duly authorized, sign this Agreement on behalf of their respective governments on the dates appearing opposite their signatures.

Agreement between the United States of America and the United Kingdom of Great Britain and Northern Ireland for India respecting jurisdiction over prizes. Effected by exchange of notes signed at London June 10 and September 24, 1943.

The American Ambassador to the British Secretary of State for Foreign Affairs

Embassy of the United States of America

London, June 10, 1943.

Sir:

I have the honor to refer to the arrangement made between the Government of the United Kingdom and the Government of the United States by which, in conformity with the provisions of Public Law 704 enacted by the Seventy-seventh Congress of the United States and approved August 18, 1942, [1] the courts of the United States were permitted to exercise jurisdiction over prizes taken by United States armed forces and brought into the territorial waters of the United Kingdom and Sierra Leone. A copy of the Act in question is enclosed for your convenient reference. The consent of the Government of the United Kingdom to this arrangement was notified to this Embassy by a note (No. W 13225/279/49) dated November 3, 1942. [2]

My Government now desires to obtain the consent of the Government of India to a similar arrangement with respect to prizes taken by United States armed forces and brought into the territorial jurisdiction of the Government of India. Permission is desired for special prize commissioners appointed by the district courts of the United States to exercise in India such powers and duties, in addition to those already prescribed for prize commissioners, as may be deemed necessary or proper for carrying out the purposes of Public Law 704. The duties of prize commissioners are set out in Title 34, U.S.C., Section 1138, which reads as follows:

"§ 1138. Duties of prize commissioners. The prize commissioners, or one of them, shall receive from the prize master the documents and papers, and inventory thereof, and shall take the affidavit of the prize master required by section 1134 of this title, and shall forthwith take the testimony of the witnesses sent in, separate from each other, on interrogatories prescribed by the court, in the manner usual in prize courts; and the witnesses shall not be permitted to see the interrogatories, documents, or papers, or to consult with counsel, or with any persons interested"

---

[1] [See also proclamation of November 28, 1943 (57 Stat. 761).]

[2] [Not printed.]
without special authority from the court; and witnesses who have the rights of neutrals shall be discharged as soon as practicable. The prize commissioners shall also take depositions de bene esse of the prize crew and others, at the request of the district attorney, on interrogatories prescribed by the court. They shall also, as soon as any prize property comes within the district for adjudication, examine the same, and make an inventory thereof, founded on an actual examination, and report to the court whether any part of it is in a condition requiring immediate sale for the interests of all parties, and notify the district attorney thereof; and if it be necessary to the examination or making of the inventory that the cargo be unladen, they shall apply to the court for an order to the marshal to unladen the same, and shall, from time to time, report to the court anything relating to the condition of the property, or its custody or disposal, which may require any action by the court, but the custody of the property shall be in the marshal only. They shall also seasonably return into court, sealed and secured from inspection, the documents and papers which shall come to their hands, duly scheduled and numbered, and the other preparatory evidence, and the evidence taken de bene esse, and their own inventory of the prize property; and if the captured vessel, or any of its cargo or stores, are such as in their judgment may be useful to the United States in war, they shall report the same to the Secretary of the Navy."

My Government, upon the receipt from the Government of India of the consent required by Section 3 of Public Law 704, will take appropriate measures in accordance with Section 7 of the same Act to confer reciprocal privileges upon the Government of India with respect to prizes.

I shall be grateful if you will inform the Government of India of my Government's desire and request, on my Government's behalf, the necessary consent to the exercise of such powers by United States courts and by special prize commissioners appointed by them within the territorial jurisdiction of the Government of India.

Accept, Sir, the renewed assurances of my highest consideration.

For the Ambassador:

H. Freeman Matthews,
Minister-Counselor.

Agreement between the United States of America, the Union of Soviet Socialist Republics, and the United Kingdom and Rumania respecting an armistice. Together with annex and protocol. Signed at Moscow September 12, 1944; effective September 12, 1944. And letter of September 12, 1944.

AGREEMENT

The Government and High Command of Rumania, recognizing the fact of the defeat of Rumania in the war against the Union of Soviet Socialist Republics, the United States of America, and the United Kingdom, and the other United Nations, accept the armistice terms presented by the Governments of the above-mentioned three Allied Powers, acting in the interests of all the United Nations.

On the basis of the foregoing the representative of the Allied (Soviet) High Command, Marshal of the Soviet Union, R. Ya. Malinovski, duly authorized thereto by the Governments of the United States of America, the Soviet Union, and the United Kingdom, acting in the interests of all the United Nations, on the one hand, and the representatives of the Government and High Command of Rumania, Minister of State and Minister of Justice L. Patrascanu, Deputy Minister of Internal Affairs, Adjutant of His Majesty the King of Rumania, General D. Damaceanu, Prince Stirbey, and Mr. G. Popp, on the other hand, holding proper full-powers, have signed the following conditions:

1. As from August 24, 1944, at 4 a. m., Rumania has entirely discontinued military operations against the Union of Soviet Socialist Republics on all theatres of war, has withdrawn from the war against the United Nations, has broken off relations with Germany and her satellites, has entered the war and will wage war on the side of the Allied Powers against Germany and Hungary for the purpose of restoring Rumanian independence and sovereignty, for which purpose she provides not less than 12 infantry divisions with Corps Troops.

Military operations on the part of Rumanian armed forces, including Naval and Air Forces, against Germany and Hungary will be conducted under the general leadership of the Allied (Soviet) High Command.

2. The Government and High Command of Rumania undertake to take steps for the disarming and internment of the armed forces of Germany and Hungary on Rumanian territory and also for the internment of the citizens of both states mentioned who reside there. (See Annex to Article 2.)
3. The Government and High Command of Rumania will ensure to the Soviet and other Allied forces facilities for free movement on Rumanian territory in any direction if required by the military situation, the Rumanian Government and High Command of Rumania giving such movement every possible assistance with their own means of communications and at their own expense on land, on water and in the air. (See Annex to Article 3.)

4. The State frontier between the Union of Soviet Socialist Republics and Rumania, established by the Soviet-Rumanian Agreement of 28th June, 1940, is restored.

5. The Government and High Command of Rumania will immediately hand over all Soviet and Allied prisoners of war in their hands, as well as interned citizens and citizens forcibly removed to Rumania, to the Allied (Soviet) High Command for the return of these persons to their own country.

From the moment of the signing of the present terms and until repatriation the Rumanian Government and High Command undertake to provide at their own expense all Soviet and Allied prisoners of war, as well as forcibly removed and interned citizens, and displaced persons and refugees, with adequate food, clothing and medical service, in accordance with hygienic requirements, as well as with means of transport for the return of all these persons to their own country.

6. The Rumanian Government will immediately set free, irrespective of citizenship and nationality, all persons held in confinement on account of their activities in favor of the United Nations or because of their sympathies with the cause of the United Nations, or because of their racial origin, and will repeal all discriminatory legislation and restrictions imposed thereunder.

7. The Rumanian Government and High Command undertake to hand over as trophies into the hands of the Allied (Soviet) High Command all war material of Germany and her satellites located on Rumanian territory, including vessels of the fleet of Germany and her satellites located in Rumanian waters.

8. The Rumanian Government and High Command undertake not to permit the export or expropriation of any form of property (including valuables and currency) belonging to Germany, Hungary or to their nationals or to persons resident in their territories or in the territories occupied by them without the permission of the Allied (Soviet) High Command. They will keep this property in such manner as may be prescribed by the Allied (Soviet) High Command.

9. The Rumanian Government and High Command undertake to hand over to the Allied (Soviet) High Command all vessels belonging or having belonged to the United Nations which are located in Rumanian ports, no matter at whose disposal these vessels may be, for the use of the Allied (Soviet) High Command during the period of the war against Germany and Hungary in the general interests of the Allies, these vessels subsequently to be returned to their owners.

The Rumanian Government bear the full material responsibility for any damage or destruction of the aforementioned property until
the moment of the transfer of this property to the Allied (Soviet) High Command.

10. The Rumanian Government must make regular payments in Rumanian currency required by the Allied (Soviet) High Command for the fulfillment of its functions and will in case of need ensure the use on Rumanian territory of industrial and transportation enterprises, means of communication, power stations, enterprises and installations of public utility, stores of fuel, fuel oil, food and other materials, services in accordance with instructions issued by the Allied (Soviet) High Command.

Rumanian merchant vessels, whether in Rumanian or foreign waters, shall be subject to the operational control of the Allied (Soviet) High Command for use in the general interest of the Allies. (See Annex to Article 10.)

11. Losses caused to the Soviet Union by military operations and by the occupation by Rumania of Soviet territory will be made good by Rumania to the Soviet Union, but, taking into consideration that Rumania has not only withdrawn from the war, but has declared war and in fact is waging war against Germany and Hungary, the Parties agree that compensation for the indicated losses will be made by Rumania not in full but only in part, namely to the amount of 300 million United States dollars payable over six years in commodities (oil-products, grain, timber products, seagoing and river craft, sundry machinery, et cetera.)

Compensation will be paid by Rumania for losses caused to the property of other Allied States and their nationals in Rumania during the war, the amount of compensation to be fixed at a later date. (See Annex to Article 11.)

12. The Rumanian Government undertakes within the periods indicated by the Allied (Soviet) High Command to return to the Soviet Union in complete good order all valuables and materials removed from its territory during the war, belonging to State, public and cooperative organizations, enterprises, institutions or individual citizens, such as: factory and works equipment, locomotives, railway trucks, tractors, motor vehicles, historic monuments, museum valuables and any other property.

13. The Rumanian Government undertakes to restore all legal rights and interests of the United Nations and their nationals on Rumanian territory as they existed before the war and to return their property in complete good order.

14. The Rumanian Government and High Command undertake to collaborate with the Allied (Soviet) High Command in the apprehension and trial of persons accused of war crimes.

15. The Rumanian Government undertakes immediately to dissolve all pro-Hitler organizations (of a Fascist type) situated in Rumanian territory, whether political, military or para-military, as well as other organizations conducting propaganda hostile to the United Nations, in particular to the Soviet Union, and will not in future permit the existence of organizations of that nature.
16. The printing, importation and distribution in Rumania of periodical and non-periodical literature, the presentation of theatrical performances and films, the work of wireless stations, post, telegraph and telephone shall be carried out in agreement with the Allied (Soviet) High Command. (See Annex to Article 16.)

17. Rumanian civil administration is restored in the whole area of Rumania separated by not less than 50–100 kilometres (depending upon conditions of terrain) from the front line, Rumanian administrative bodies undertaking to carry out, in the interests of the re-establishment of peace and security, instructions and orders of the Allied (Soviet) High Command issued by them for the purpose of securing the execution of these armistice terms.

18. An Allied Control Commission will be established which will undertake until the conclusion of peace the regulation of and control over the execution of the present terms under the general direction and orders of the Allied (Soviet) High Command, acting on behalf of the Allied Powers. (See Annex to Article 18.)

19. The Allied Governments regard the decision of the Vienna Award regarding Transylvania as null and void and are agreed that Transylvania (or the greater part thereof) should be returned to Rumania, subject to confirmation at the peace settlement, and the Soviet Government agrees that Soviet forces shall take part for this purpose in joint military operations with Rumania against Germany and Hungary.

20. The present terms come into force at the moment of their signing.

It shall also provide assistance to the Allied Commanders-in-Chief and to the Occupation Authorities set up by Governments of the United Nations to maintain and improve the carrying capacity of transport.

ARTICLE II. - Membership.

The members of the Organisation shall be the Governments signatory hereto and such other Governments as may be admitted thereto by the Council.

ARTICLE III. - Constitution.

1. The Organisation shall consist of a Council and an Executive Board with the necessary headquarters, regional and local staff. The
Organisation shall concert arrangements for the establishment of regional and local offices with the Member Governments in whose territory the offices are situated and/or in appropriate cases in agreement with the Allied Commander-in-Chief concerned.

The Council.

2. Each member Government shall name one representative and such alternates as may be necessary upon the Council. The Council shall, for each of its sessions, select one of its members to preside. The Council shall determine its own rules of procedure. Unless otherwise provided in this Agreement or by action of the Council, the Council shall vote by simple majority.

3. The Council shall be convened in regular session not less than twice a year by the Executive Board. It may be convened in special session whenever the Executive Board shall deem necessary and shall be convened within thirty days after request by one-third of the members of the Council.

4. The Council shall perform the functions assigned to it under this Agreement and review the work of the Organisation generally to ensure its conformity with the broad policies determined by the Council.

The Executive Board.

5. The Executive Board shall consist of seven members who shall be appointed by the Council. These seven members shall include one member nominated by each of the following Governments: the Provisional Government of the French Republic and the Governments of the Union of Soviet Socialist Republics, the United Kingdom of Great Britain and Northern Ireland and the United States of America. Each member of the Executive Board shall be provided with an alternate similarly selected, who shall act only in the absence of the member of the Executive for whom he is the alternate. The members and their alternates shall be appointed for not longer than one year. The Executive Board shall choose its own Chairman, subject to confirmation by the Council.

6. The Executive Board shall perform the executive functions assigned to the Organisation within the framework of the broad policies determined by the Council. It shall act in accordance with the ruling of the majority of its members. It shall present to the Council such reports on the performance of its functions as the Council may require.

7. The Executive Board shall appoint a chief officer who shall direct under its supervision the technical and administrative work of the Organisation in conformity with the policies of the Council and the Executive Board as determined by their decisions. This officer shall appoint the staff at headquarters and at regional and local offices, subject to the approval of the Executive Board, taking into account the exigencies of the various branches of transport concerned. The responsibilities of the chief officer and staff shall be exclusively international in character.
8. Each member Government shall appoint one or more representatives for the purpose of consultation and communication with the Executive Board, and with the Chief Officer. Such representatives shall be fully informed by the Board and by the Chief Officer of all activities of the Organisation. Each time that any important question concerning the interests of a member Government is discussed by the Board, the representatives of that Government shall be entitled to take part in the discussions without the right of vote.

**Article IV.**

1. The Organisation shall have the capacity to perform any legal act appropriate to its object and purposes, including the power to acquire, hold and convey property, to enter into contracts and undertake obligations, to designate or create subordinate organs and to review their activity. The Organisation shall not, however, have power to own transport equipment and material other than for its own internal or demonstration purposes, except with the unanimous consent of the Council.

2. These powers are vested in the Council. Subject to the provisions of paragraph 2 of Article V, the Council may delegate such of these powers as it may deem necessary to the Executive Board, including the power of subdelegation. The Executive Board shall be responsible to the Council for the upkeep and administration of any property owned by the Organisation.

**Article V. — Finance.**

1. The Executive Board shall submit to the Council an initial budget and from time to time such supplementary budgets as may be required, covering the administrative expenses of the Organisation. Upon approval of a budget by the Council, the total amount approved shall be raised in such manner, or be allocated between member Governments in such proportions, as these Governments may agree. Each member Government undertakes, subject to the requirements of its constitutional procedure, promptly to contribute to the Organisation, in such currency or currencies as may be agreed by such Government with the Executive Board, its share of these expenses. Each member Government shall also provide such facilities as are required for the transfer into other currencies of sums so contributed and held by the Organisation in that Government’s own currency.

2. The Organisation shall not incur any expenses, other than administrative expenses, except under the authority of the Council. Proposals for such expenses shall be submitted by the Executive Board to the Council and, when approved by the Council, such expenses shall be met by contributions which one or more member Governments may agree to make or in such other manner as may be agreed between member Governments. However, the obligation of transfer into foreign currencies, as defined in paragraph 1 of this Article, does not apply to these contributions.
3. Nothing in this Agreement shall require any member Government or transport administration under its authority to perform services without remuneration.

**ARTICLE VI. — Scope of the Organisation.**

1. The Organisation shall, after giving notice of its intention, exercise its functions in any territory in Continental Europe, upon the acceptance of this Agreement by the Government of that territory and/or, in appropriate cases, provided that the Allied Commander-in-Chief concerned is satisfied that military exigencies permit and subject to such conditions as he may deem necessary.

2. In respect of any territory in Continental Europe in which any Allied Commander-in-Chief retains responsibility for the direction of the transport system, the Organisation shall on request give advice or assistance to the Allied Commander-in-Chief, and, in consultation with him, to any member Government or to other appropriate authorities of the United Nations, on any question with which it is empowered to deal under Article VII.

3. The Organisation shall treat with any of the Occupation Authorities set up by Governments of the United Nations in respect of any territory in Continental Europe in which such Occupation Authorities are exercising authority.

**ARTICLE VII. — Executive Functions of the Organisation.**

Introductory.

1. The Organisation shall carry out thorough studies of the technical and economic conditions affecting traffic of an international character and shall give to the Governments concerned with such traffic advice and recommendations directed to restoring and increasing the carrying capacity of the transport systems in Continental Europe and to co-ordinating the movement of traffic of common concern on these systems.

2. In case of any member Government meets with difficulties in carrying out these recommendations owing to reasons of a material or economic character, the Organisation shall investigate with member Governments concerned means of practical help.

**Information on Transport Equipment and Material.**

3. The Organisation shall receive and collect information concerning the requirements of transport equipment and material for Continental Europe.

**Realisation of Requirements for Transport Equipment and material.**

4. The Organisation shall assist the realisation of requirements of any member Government in Continental Europe for transport equipment and material.

**Allocation and Distribution for Use of Transport Equipment and Material.**

5. The Organisation shall, within the framework of the priorities determined by the appropriate authorities of the United Nations, de-
termine the allocation, or distribution for use, to Governments in Continental Europe, on such conditions as it may deem necessary, of such transport equipment and material as may be made available for this purpose by the Allied Commanders-in-Chief, by Occupation Authorities, or by agencies of any one or more of the United Nations. To enable the Organisation to carry out this function effectively, it may consult with the Governments concerned on their export possibilities of, and import needs of, transport equipment and material for Continental Europe and will receive from such Governments notification of all arrangements made in respect thereto of which they have notice.

Arrangements to make Mobile Transport Equipment and Material available.

6. In cases where temporary emergency requirements of mobile transport equipment for carrying traffic of common concern arise and the usual arrangements for the interchange of such mobile transport equipment are inadequate, the Organisation shall arrange with member Governments concerned to make available mobile transport equipment for the purpose of meeting such requirements. Such mobile transport equipment shall be made available under arrangements made between the member Governments concerned, with the assistance of the Organisation.

Census of Transport Equipment and Material.

7. The Organisation shall at the earliest practicable time arrange through the member Governments for a census of rolling-stock in Continental Europe and of such other transport equipment and material there as may appear necessary for the proper discharge of its functions.

Identification and Restoration of Transport Equipment and Material.

8. The Organisation shall arrange, as soon as practicable, to restore to any member Government transport equipment and material belonging to it or to its nationals, found outside the territories under its authority and outside its control. Should any difficulties of identification arise, the Organisation shall arrange immediately for such special measures to be taken as may be necessary to meet them. Where such restoration would unduly prejudice the operation of essential transport, the Organisation shall work out agreements with the Governments concerned for the temporary use of transport equipment pending its restoration. The arrangements for restoration shall be made on the basis of the ownership of the property which existed before any territorial changes in Europe, resulting from Axis policy, and in accordance with any general policies which may be determined by the appropriate authorities of the United Nations regarding restoration and restitution of the property removed by the enemy.

Traffic.

9. The Organisation may make such recommendations to the appropriate authorities as it deems necessary with respect to the
method of carrying out projected movements of traffic of common concern, having regard to the transport facilities available for the movement of such traffic.

10. The Organisation shall make recommendations to the Governments concerned in order to ensure the movement of traffic of common concern on all routes of transport in Continental Europe in accordance with the priorities determined by the appropriate authorities of the United Nations. In respect of traffic of military importance sponsored by the Allied Commanders-in-Chief, the appropriate authority for this purpose will be the Allied Commander-in-Chief concerned.

Charges.

11. The Organisation may work out the unification of tariffs, terms and conditions of transport and the like, applicable to traffic of an international character. It shall recommend to the Governments concerned the principles by which reasonable transport charges for traffic of common concern in Continental Europe should be fixed by them in accordance with the provisions of paragraph 9 of Article VIII. This paragraph shall not apply to military traffic under the control of any Allied Commander-in-Chief except at his request.

Rehabilitation of Transport Systems.

12. The Organisation may study the conditions of transport affecting traffic of an international character in individual countries and make recommendations to the Governments concerned as to technical measures directed to the quickest restoration of transport facilities and their most effective use, and as to the priority in which works or projects in respect of the restoration or improvement of transport facilities shall be carried out.

Operation of Transport

13. While it remains the task of each member Government to provide for the efficient operation of the transport systems in Continental Europe for which it is responsible, the Organisation may exceptionally, at the request of any member Government, give any assistance in its power in the rehabilitation or operation of transport in any territory in Continental Europe under the authority of such Government on such conditions as may be agreed between it and the Organisation, having due regard to the rights of other member Governments.

Co-ordination of European Transport.

14. The Organisation shall work out and co-ordinate common action to secure the inauguration, maintenance, modification, resumption or, where appropriate, suppression, of international arrangements for through working of railways and exchange of rolling-stock of the Continental European countries for carrying out international transport. In particular, it shall ensure a unified clearing system for traffic operations between the different countries in Continental Europe. In general, it shall promote where necessary the establishment of appropriate machinery for co-operation between railway administrations.
15. The organisation shall place its services at the disposal of member Governments and make recommendations with a view to ensuring the most efficient movement of international traffic on waterways. It shall not, however, make recommendations with regard to questions concerning the régimes of the international inland waterways of Continental Europe.

16. The Organisation shall take through the Governments concerned such steps as may be practicable to facilitate international traffic of common concern in lorries and other road vehicles and the co-ordination of road and other means of transport with a view to ensuring the movement of international traffic.

17. In carrying out the functions mentioned in paragraphs 14 and 16 of this Article and in placing its services at the disposal of member Governments as described in paragraph 15 of this Article, the Organisation shall make use, to the extent practicable, of conventions in force between member Governments so as to obtain the greatest benefit therefrom for the fulfilment of this task, provided that the Organisation shall act—

(a) in accordance with any general policies which may be determined by the appropriate authorities of the United Nations; and

(b) with due respect for existing rights and obligations.

18. The Organisation shall make recommendations to the Governments concerned designed to promote adequate co-ordination of all European transport for the fulfilment of the common military needs of the United Nations or in the interests of traffic of an international character.

Relations with other Agencies.

19. The Organisation shall co-operate as may be required with the appropriate authorities and agencies of any one or more of the United Nations and with international organisations.

20. The Organisation shall provide all possible assistance to the Allied Commanders-in-Chief in meeting their needs for transport facilities and improving the use of these facilities for the successful fulfilment of military requirements.

21. The Organisation shall arrange for consultation, through appropriate machinery, with representatives of persons employed in inland transport on international questions of mutual concern to the Organisation and such representatives within the field of the Organisation’s activities.

Miscellaneous.

22. The Organisation may advise the Governments concerned and the appropriate authorities of the United Nations on the priority to be given, in the interests of the rehabilitation of European transport, to the repatriation of displaced transport personnel and to workers required for the production, maintenance or repair of transport equipment and material.
23. The Organisation shall give all practicable assistance through the appropriate authorities to any member Government at its request in obtaining supplies of fuel, power and lubricants to meet the needs of traffic of common concern, in order that that Government may fulfil its obligations under paragraph 7 of Article VIII.

**ARTICLE VIII. — Obligations of Member Governments.**

9. Every member Government undertakes to secure that transport charges made within territories in Continental Europe under its authority on traffic of common concern, including such traffic in transit through such territories, shall be as low and simple and as uniform with those in other territories, to which this Agreement applies, as is practicable. Every member Government shall give the fullest consideration to recommendations made by the Organisation in accordance with paragraph 11 of Article VII and report to the Organisation on the action taken.

ARTICLE I.

Every Government signatory hereto undertakes to establish appropriate machinery necessary for the application of all the obligations assumed in paragraphs 5 and 6 of Article VIII of the Agreement to traffic on Inland Waterways and to appoint persons or organisations entitled to treat with the Organisation on questions of this nature.

ARTICLE II.

The Governments signatory hereto, taking into account the geographical, technical and other peculiarities connected with traffic on inland waterways and the needs of each of them in these respects, will nominate experts to be consulted by the Organisation on questions of traffic on inland waterways within the various areas of such traffic.

ARTICLE III.

For each waterways traffic area in Continental Europe, the allocation of inland shipping and, if necessary, shipping space for carrying traffic of common concern in accordance with approved programmes will be determined from time to time by the Organisation in agreement with the Governments concerned. In determining this allocation, due account shall be taken of the particulars of the vessel, its equipment and crew and of its normal traffic.

ARTICLE IV.

The terms of remuneration to be paid by the users of inland vessels for traffic of common concern shall be worked out by the Organisation in agreement with the Governments and/or the authorities concerned on a fair and reasonable basis in such a manner as to give effect to the following two principles:

(i) inland vessels of all flags performing the same services should receive the same freights;

(ii) freights with reference to paragraph 11 of Article VII shall be calculated so as to include, after providing for depreciation of the ship, a reasonable margin of profit.
Article V.

ACCORD PORTANT CREATION D'UN OFFICE CENTRAL DES TRANSPORTS INTÉRIEURS EUROPÉENS.

Considérant qu'il est opportun, lors de la libération des territoires des Nations Unies en Europe et de l'occupation des territoires ennemis en Europe, en vue de satisfaire aux besoins militaires communs des Nations Unies et dans l'intérêt du progrès social et économique de l'Europe, de concerter l'action des autorités compétentes en matière de mouvement du trafic et de fourniture de moyens de transport et de matériel et

Estimant qu'ainsi le transport du ravitaillement destiné tant aux armées alliées qu'aux populations civiles sera amélioré autant que possible; que le retour rapide des personnes à rapatrier sera facilité; enfin, que le mouvement normal du trafic pourra être plus rapidement repris,

Les Gouvernements dont les Représentants dûment autorisés ont signé le présent accord

Sont convenus de ce qui suit :

**Article I.**

Il est créé par le présent accord un Office Central des Transports Intérieurs Européens, ci-après dénommé "l'Office", qui exercera son activité dans les conditions prévues par les articles qui suivent. L'Office est établi en qualité d'organisme de coordination et de consultation. Étant donné l'heureuse issue de la guerre, il coordonne les efforts tendant à utiliser tous moyens de transport en vue de l'amélioration des communications, de manière à aider au rétablissement des conditions normales de la vie économique. Il aidera également les Commandants en Chef Alliés et les Autorités d'occupation établies par les Gouvernements des Nations Unies à maintenir et à améliorer les possibilités de transport.

**Article II.** — Composition.

Sont membres de l'Office les Gouvernements contractants et tels autres Gouvernements qui pourront y être admis par le Conseil.

**Article III.** — Constitution.

1. L'Office comporte un Conseil, un Comité Exécutif, et les services centraux, régionaux et locaux nécessaires. En vue de déterminer les modalités d'établissement des bureaux régionaux et locaux, l'Office se concerte avec les Gouvernements contractants sur les territoires desquels ces bureaux sont situés, et, éventuellement, avec le Commandant en Chef Allié dont l'accord est nécessaire.
Conseil.

2. Chaque Gouvernement contractant nomme un représentant au Conseil et autant de suppléants qu'il est nécessaire. Le Conseil choisit l'un de ses membres pour présider chacune de ses sessions. Le Conseil fixe ses propres règles de procédure. A moins qu'il n'en soit disposé autrement dans le présent accord ou par le Conseil, les décisions de ce dernier sont prises à la majorité simple.

3. Le Conseil est réuni en session ordinaire au moins deux fois par an par le Comité Exécutif. Il peut être réuni en session spéciale chaque fois que le Comité Exécutif l'estime nécessaire et se réunira également dans les 30 jours après que la demande en aura été faite par le tiers des membres du Conseil.

4. Le Conseil remplit les fonctions qui lui sont assignées par le présent accord et exerce un contrôle d'ordre général sur l'activité de l'Office, pour en assurer la conformité avec les directives qu'il a lui-même établies.

Comité Exécutif.

8. Chaque Gouvernement contractant désigne un ou plusieurs représentants aux fins de se concerter avec le Comité Exécutif et le Directeur Général et de communiquer avec eux. Ces représentants sont tenus pleinement informés par le Comité et par le Directeur Général de toutes les activités de l'Office. Chaque fois qu'une question importante concernant les intérêts d'un Gouvernement contractant est discutée par le Comité, les représentants de ce Gouvernement ont la faculté de prendre part à la discussion, sans droit de vote.
**ARTICLE IV.**

1. L'Office a le pouvoir d'accomplir tout acte juridique approprié à ses activités, y compris celui d'acquérir des biens, de les conserver et d'en disposer, de signer des contrats, d'assumer des obligations, de désigner ou de créer des organismes subordonnés et de contrôler leur activité. Toutefois, l'Office n'a pas le pouvoir, sauf avec le consentement unanime du Conseil, de posséder du matériel de transport autre que celui destiné à assurer son fonctionnement administratif normal ou à lui permettre de procéder à des démonstrations.

**ARTICLE V. — Ressources.**

1. Le Comité Exécutif soumet au Conseil un budget initial et, de temps à autre, en tant que de besoin, des budgets supplémentaires, couvrant les dépenses administratives de l'Office. Après l'approbation d'un budget par le Conseil, le montant total en est perçu suivant les procédures, ou reparti entre les Gouvernements contractants, dans les proportions qui auront pu être fixées d'un commun accord par ces Gouvernements. Chaque Gouvernement contractant s'engage, sous réserve des exigences de sa procédure constitutionnelle, à verser promptement sa part des frais de l'Office en telle monnaie dont il pourra être convenu avec le Comité Exécutif. Chaque Gouvernement contractant doit aussi faciliter, en tant que de besoin, le transfert en d'autres monnaies des sommes ainsi versées dans sa propre monnaie et détenues par l'Office.

2. L'Office n'engage aucune dépense autre que des dépenses administratives, si ce n'est par décision du Conseil. Les autres dépenses font l'objet de propositions soumises par le Comité Exécutif au Conseil et, après approbation par le Conseil, sont couvertes par les contributions qu'un ou plusieurs Gouvernements contractants pourraient consentir à fournir, ou de telle autre manière dont les Gouvernements contractants pourraient convenir. Toutefois, l'obligation relative aux transferts en monnaies étrangères, stipulée au paragraphe 1 du présent article, n'est pas applicable à ces contributions.

3. Aucune disposition du présent accord ne peut être interprétée comme obligeant un Gouvernement contractant, ou une administration de transport placée sous l'autorité de celui-ci, à effectuer des services sans rémunération.

**ARTICLE VI. — Champ d'Action de l'Office.**

1. Après en avoir avisé le Gouvernement intéressé, l'Office exerce ses activités dans tout territoire de l'Europe Continentale dès l'acceptation du présent accord par ledit Gouvernement, et, éventuellement, dès que le Commandant en Chef Allié intéressé le juge possible
du point de vue des nécessités militaires, et sous réserve des modalités qu'il estimerait utile de fixer.

2. En ce qui concerne tout territoire de l'Europe Continentale sur lequel un Commandant en Chef Allié conserve la responsabilité de la direction des transports, et sur toutes questions de sa compétence aux termes de l'Article VII, l'Office donne, sur demande, avis ou assistance à ce Commandant en Chef Allié et, en liaison avec lui, à tout Gouvernement contractant ou à toute autre Autorité compétente des Nations Unies.

3. L'Office traite avec toutes Autorités d'occupation établies par les Gouvernements des Nations Unies, en ce qui touche les territoires de l'Europe Continentale sur lesquels ces Autorités d'occupation'exercent leurs pouvoirs.

**Article VII. — Fonctions de Direction de l'Office.**

**Introduction.**

1. L'Office procède à des études approfondies des conditions techniques et économiques affectant le trafic de caractère international et donne aux Gouvernements intéressés à ce trafic tous avis techniques et recommandations en vue de rétablir et d'augmenter la capacité des réseaux de transport de l'Europe Continentale et de coordonner les mouvements du trafic d'intérêt commun sur ces réseaux.

2. Lorsqu'un Gouvernement contractant rencontre des difficultés dans l'application de ces recommandations pour des motifs d'ordre matériel ou économique, l'Office recherche avec les Gouvernements contractants intéressés des moyens d'aide pratique. Renseignements sur le Matériel de Transport.

3. L'Office reçoit et réunit les informations concernant les besoins en matériel de transport de l'Europe Continentale.

**Satisfaction des Besoins en Matériel de Transport.**

4. L'Office donne son aide à tous les Gouvernements contractants en Europe Continentale en vue de la satisfaction de leurs besoins en matériel de transport.

**Attribution et Répartition du Matériel de Transport.**

5. Dans le cadre des priorités établies par les Autorités compétentes des Nations Unies, l'Office attribue aux Gouvernements en Europe Continentale ou répartit entre ces Gouvernements pour usage, et sous telles conditions qui peuvent être jugées nécessaires, le matériel de transport qui peut être rendu disponible à cet effet par les Commandants en Chef Alliés, par les Autorités d'occupation ou par les organismes relevant d'une ou de plusieurs des Nations Unies. Pour pouvoir exercer ces fonctions avec efficacité, l'Office peut se concerter avec les Gouvernements intéressés sur leurs possibilités d'exportation et leurs besoins d'importation pour l'Europe Continentale en matériel de transport ; il est avisé par ces Gouvernements de tous arrangements faits à ce sujet dont ils auraient connaissance.
Arrangements en vue de rendre disponible du Matériel de Transport.

6. S'il se présente des besoins urgents et temporaires de matériel mobile de transport pour faire face à un trafic d'intérêt commun, et si les arrangements habituels concernant l'échange de ce matériel se révèlent insuffisants, l'Office s'entend avec les Gouvernements contractants intéressés pour rendre disponibles les moyens de transport nécessaires à la satisfaction de ces besoins. De tels moyens de transport sont rendus disponibles par des arrangements entre les Gouvernements contractants intéressés, avec l'assistance de l'Office.

Recensement du Matériel de Transport.

7. L'Office fait procéder, aussitôt que possible, par l'entremise des Gouvernements contractants, à un recensement du matériel roulant en Europe Continentale et de telles catégories de matériel de transport qui paraîtraient nécessaires pour lui permettre de remplir correctement ses fonctions.

Identification et Restitution du Matériel de Transport.

8. L'Office prend aussitôt que possible les dispositions voulues en vue de la restitution au Gouvernement contractant intéressé du matériel de transport appartenant à ce Gouvernement ou à ses ressortissants et trouvé en dehors des territoires relevant de son autorité, et dans des conditions telles qu'il échappe à son contrôle. Si des difficultés d'identification venaient à apparaître, l'Office veillerait immédiatement à ce que soient prises toutes mesures spéciales qui seraient nécessaires en vue de les résoudre. Au cas où une restitution ainsi opérée entraînait indûment des transports essentiels, l'Office négocierait des accords avec les Gouvernements intéressés pour l'usage temporaire de ce matériel de transport en attendant sa restitution. Il sera procédé aux restitutions sur la base de l'état de propriété existant avant que des modifications territoriales n'aient eu lieu en Europe sous l'effet de la politique de l'Axe et dans le cadre de la politique générale qui pourrait être déterminée par les Autorités compétentes des Nations Unies en ce qui concerne la restitution et le remplacement des biens enlevés par l'ennemi.

Trafic.

9. L'Office peut faire telles recommandations qu'il estime nécessaire aux Autorités compétentes au sujet des modalités des programmes concernant le trafic d'intérêt commun, en tenant compte des moyens et du matériel disponibles pour assurer ce trafic.

10. L'Office fait des recommandations aux Gouvernements intéressés en vue d'assurer le trafic d'intérêt commun sur tous les itinéraires de transport en Europe Continentale, en accord avec les priorités établies par les Autorités compétentes des Nations Unies. En ce qui concerne le trafic d'intérêt militaire relevant des Commandants en Chef Alliés, l'Autorité compétente à cet égard est le Commandant en Chef Allié intéressé.
Tarifs.

11. L'Office peut étudier l'unification des tarifs, des clauses et des conditions de transport applicables au trafic de caractère international, ainsi que les questions connexes. Il recommande aux Gouvernements intéressés les principes d'après lesquels des tarifs raisonnables pour le trafic d'intérêt commun en Europe Continentale devraient être fixés par eux conformément aux dispositions du paragraphe 9 de l'Article VIII. Le présent paragraphe ne s'applique pas au trafic militaire sous le contrôle d'un Commandant en Chef Allié, sauf s'il en fait la demande.

Remise en état des Moyens de Transport.

12. L'Office peut étudier les conditions de transport intéressant le trafic de caractère international dans des pays déterminés et faire aux Gouvernements intéressés des recommandations en ce qui concerne les mesures techniques susceptibles d'assurer le rétablissement rapide des moyens de transport, leur utilisation la plus efficace et les priorités selon lesquelles les travaux ou projets concernant la remise en état ou l'amélioration de ces moyens devraient être exécutés.

Exploitation.

13. Bien qu'il appartiennent à chaque Gouvernement contractant d'assurer l'exploitation satisfaisante des moyens de transport dont il est responsable en Europe Continentale, l'Office peut, exceptionnellement, à la demande de l'un quelconque des Gouvernements contractants, donner à celui-ci toute l'aide en son pouvoir pour la remise en état ou l'exploitation des transports dans tous les territoires de l'Europe Continentale sous l'autorité de ce Gouvernement, aux conditions fixées d'accord entre ce Gouvernement et l'Office, compte tenu des droits des autres Gouvernements contractants.

Coordination des Transports Européens.

14. L'Office prépare et coordonne l'action commune en vue d'assurer l'établissement, le maintien, la modification, le rétablissement, ou, s'il est opportun, la suppression d'arrangements internationaux pour l'exploitation en transit des chemins de fer et l'échange du matériel roulant dans les pays de l'Europe Continentale, en vue d'assurer les transports internationaux. En particulier, il établit un système de clearing unifié pour le trafic entre les différents pays de l'Europe Continentale. En général l'Office provoque, là où les circonstances le demandent, l'établissement de procédures appropriées pour la coopération entre les administrations des Chemins de Fer.

15. L'Office met ses services à la disposition des Gouvernements contractants et fait des recommandations en vue d'assurer sur toutes les voies navigables le trafic international de la manière la plus satisfaisante. Il ne fera pas toutefois de recommandations portant sur des questions concernant le régime des voies navigables internationales en Europe Continentale.

16. L'Office prend, par l'entremise des Gouvernements intéressés, toutes mesures pratiquement applicables, de manière à faciliter le
trafic international d'intérêt commun par camions et autres véhicules routiers, et la coordination des moyens de transport routiers avec les autres moyens de transport, en vue d'assurer la circulation du trafic international.

17. En remplissant les fonctions définies aux paragraphes 14 et 16 du présent article et en mettant ses services à la disposition des Gouvernements contractants comme il est dit au paragraphe 15 du présent article, l'Office applique dans la mesure du possible les conventions en vigueur entre les Gouvernements contractants de manière à en tirer le plus grand avantage pour l'accomplissement de sa mission dans ce domaine, et à cet effet l'Office agit—

(a) en accord avec les directives générales qui peuvent être données par les Autorités compétentes des Nations Unies;
(b) en respectant les obligations et droits existants.

18. L'Office adresse aux Gouvernements intéressés des recommandations tendant à promouvoir la coordination nécessaire de tous les transports européens, en vue d'assurer les besoins militaires communs des Nations Unies ou dans l'intérêt du trafic de caractère international.

Relations avec les autres Organismes.

19. L'Office coopère, en tant que de besoin, avec les Autorités compétentes ou organismes relevant d'une ou plusieurs des Nations Unies et avec les organisations internationales.

20. L'Office donne toute assistance possible aux Commandants en Chef Alliés pour faire face à leurs besoins en matière de matériel et d'équipement de transport, de manière à améliorer le rendement de ces derniers en vue de la satisfaction des besoins militaires.

21. L'Office prend toutes dispositions pour se concerter, selon les procédures appropriées, avec les représentants des personnes employées dans les transports intérieurs au sujet des questions internationales de la compétence de l'Office et intéressant aussi bien celui-ci que lesdites personnes.

Dispositions diverses.

22. L'Office peut donner des avis aux Gouvernements intéressés et à toutes les Autorités compétentes des Nations Unies sur les priorités à accorder, dans l'intérêt de la réorganisation des transports européens, au rapatriement du personnel des transports déporté et à la main-d'œuvre exigée pour la production, l'entretien ou les réparations du matériel de transport.

23. L'Office donne toute l'assistance possible, par l'entremise des Autorités compétentes, aux Gouvernements contractants, et à la demande de ceux-ci, pour leur procurer des approvisionnements en combustibles, en carburants, en énergie électrique et en lubrifiants en vue d'assurer les besoins du trafic d'intérêt commun, de telle manière que ces Gouvernements puissent remplir leurs obligations conformément au paragraphe 7 de l'Article VIII.
ARTICLE VIII. — Obligations des Gouvernements contractants.

4. Les dispositions du paragraphe 3 du présent article n’affectent pas les droits des Commandants en Chef Alliés à l’intérieur de tout territoire sur lequel l’Office n’a pas commencé à exercer ses fonctions telles qu’elles sont définies par l’Article VII.

l'Office ait conclu des arrangements adéquats avec le Gouvernement
intéressé.

Perceptions.

8. Chaque Gouvernement contractant s'engage à ne pas percevoir et à
ne pas autoriser la perception de droits de douane et d'autres droits,
si ce n'est les frais de transport et les frais de transit normaux, sur le
trafic d'intérêt commun transitant sur les territoires de l'Europe Con-

positions pour que les tarifs de transport perçus sur les territoires de

ANNEE

Protocole relatif au Trafic de la Navigation Intérieure

PRÉAMBULE

En vue de remplir, en ce qui concerne le trafic de la navigation intérieure, les obligations assumées en vertu de l'accord portant création d'un Office Central des Transports Intérieurs Européens (ci-après dénommé "l'accord principal") par les Gouvernements signataires dudit accord, et en conformité avec les dispositions de cet accord, les Gouvernements signataires du présent protocole sont convenus des dispositions suivantes:

ARTICLE I.

Chaque Gouvernement signataire de la présente annexe s'engage à mettre en œuvre l'organisation nécessaire pour remplir les obligations prévues aux paragraphes 5 et 6 de l'Article VIII de l'Accord principal en ce qui concerne la navigation intérieure, et à désigner des personnes ou créer des organisations ayant qualité pour traiter avec l'Office les questions du même ordre.

ARTICLE II.

Les Gouvernements signataires de la présente annexe, prenant en considération les conditions géographiques, techniques et autres ayant trait au trafic de la navigation intérieure, ainsi que les besoins de chacun d'entre eux dans ce domaine, designeront des experts qui seront consultés par l'office sur certaines questions de trafic de navigation intérieure à traiter dans les zones de ce trafic.

ARTICLE III.

Pour chaque zone de navigation intérieure en Europe Continentale, l'allocation de tonnage de navigation intérieure, et, si nécessaire, de tonnage pour certains programmes approuvés de transport pour le trafic d'intérêt commun, sera déterminée de temps à autre par l'Office en accord avec les Gouvernements intéressés. En fixant cette allocation, compte sera tenu des particularités du bâtiment, de son outillage, de son personnel et de son exploitation normale.

ARTICLE IV.

Les taux de la rémunération qui sera allouée par les utilisateurs des bâtiments de navigation intérieure pour le trafic d'intérêt commun, seront calculés par l'Office en accord avec les Gouvernements aussi
bien qu'avec les autorités intéressées, sur une base juste et raisonnable, de façon à donner effet aux deux principes suivants :

(a) Les bâtiments de navigation intérieure battant tous pavillons et utilisés d'une manière identique devront recevoir le même fret ;
(b) Les frets mentionnés au paragraphe 11 de l'Article VII seront calculés sur des bases qui permettront d'inclure une marge raisonnable de bénéfice, après avoir prévu une part d'amortissement du bâtiment.

**Article V.**

1. Le présent protocole demeura ouvert, à Londres, à la signature des représentants de tout Gouvernement participant à l'Office Central des Transports Intérieurs Européens.

2. Le présent protocole entrera en vigueur, en ce qui concerne chacun des Gouvernements signataires, à la date de sa signature par les représentants de ce Gouvernement. En signant le présent protocole, le représentant de tout Gouvernement peut déclarer que sa signature ne prendra effet que lorsque le protocole aura été signé par les représentants de certains Gouvernements nommément désignés.

3. Le présent protocole restera en vigueur pendant deux années à compter de la date de ce jour. Il demeura en vigueur par la suite, sous réserve du droit pour tout Gouvernement signataire de notifier par écrit au Conseil de l'Office Central des Transports Intérieurs Européens, après l'expiration d'un délai de 18 mois à compter de la date de ce jour, son intention de le dénoncer ; le protocole sera tenu pour caduc à l'égard de ce Gouvernement six mois après une telle notification.

Ministerio de
Relaciones Exteriores y Culto
D.A.E. N° 346

Buenos Aires, mayo 9 de 1945.

Señor Encargado de Negocios:

Tengo el honor de dirigirme a V.S. con referencia a las negociaciones realizadas entre S.E. el señor Secretario de Industria y Comercio de la República Argentina, General de Brigada Julio C. Checchi y el señor Randolph Powell Butler, Agente Especial de la U.S. Commercial Company, entidad del Gobierno de los Estados Unidos de América, para dejar constancia de la conformidad de mi Gobierno a las siguientes cláusulas:

A. Fuel Oil y Embarque

1. La U.S. Commercial Company se compromete a hacer disponible para embarque a la Argentina, tan pronto como sea factible después de la fecha, una cantidad no menor de 500.000 (quinientos mil) toneladas métricas de fuel oil, comprometiéndose por su parte el Gobierno argentino según lo expuesto a continuación, a vender a la U.S. Commercial Company la totalidad del saldo exportable, con las reservas que se establecen más adelante, de semilla de lino y sus sub-productos, procedente de la cosecha 1944/45 o cosechas anteriores, y a dar garantías adicionales, según se expresa en el presente Acuerdo. Además la U.S. Commercial Company se compromete a hacer disponible para embarque a la Argentina, una vez satisfecha la cantidad arriba mencionada y hasta el 31 de diciembre de 1946, una cantidad adicional de 500,000 (quinientos mil) toneladas métricas de fuel oil, o una cantidad de fuel oil equivalente al valor calórico del saldo exportable de semilla de lino y sus sub-productos procedente de la cosecha 1945/46, la que fuese mayor, comprometiéndose por su parte el Gobierno argentino, según lo expuesto a continuación, a vender a la U.S. Commercial Company la totalidad del saldo exportable de semilla de lino y sus sub-productos procedente de la cosecha 1945/46. Queda entendido que en ningún caso se obligará la U.S. Commercial Company a entregar fuel oil de un valor calórico que exceda el valor calórico total de los saldos exportables de lino y sus sub-productos entregados bajo este Acuerdo.

2. La U.S. Commercial Company se compromete a hacer disponible espacio de bodega en barcos rumbo al sur, para la entrega de no menos de 100,000 (cien mil) toneladas métricas de fuel oil, de la partida de
las primeras 500.000 (quintas mil) toneladas métricas a suministrar de acuerdo al párrafo A-1 anterior durante el período de 12 (doce) meses a partir de la fecha de este Acuerdo, con un mínimo mensual de aproximadamente 5.000 (cinco mil) toneladas métricas, y se compromete además a hacer disponible espacio de bodega en barcos rumbo al sur para la entrega de no menos de 100.000 (cien mil) toneladas métricas o el 20% (veinte por ciento) de la cantidad de fuel oil a que se refiere el mismo párrafo, correspondiente a la cosecha 1945/46, la que fuese mayor, cuyo espacio se hará disponible en las cantidades mensuales que resulten factibles y que en cualquier caso deberán completarse al 31 de diciembre de 1946.

3. Queda entendido que la U.S. Commercial Company no asume responsabilidad para suministrar medios de transporte para la cantidad restante de fuel oil cuya entrega deberá autorizarse, aunque se tiene la esperanza de que antes de la terminación del período de entrega existan facilidades adicionales a las que actualmente son accesibles al Gobierno de los Estados Unidos de América.

4. Además de las cantidades de fuel oil arriba mencionadas, la cantidad de aproximadamente 15.000 (quince mil) toneladas métricas de fuel oil que actualmente retiene la Compañía Argentina de Navegación Dodero S.A. en Buenos Aires, será librada al consumo interno en la Argentina y queda claramente entendido que una cantidad de semilla de lino y sus sub-productos, de un valor calórico equivalente al fuel oil en cuestión, se hará disponible para su entrega bajo este Acuerdo en el curso de los primeros ocho meses.

5. A cambio del embarque inmediato entre el 15 de mayo y el 15 de junio de 1945 de aproximadamente 7.000 (siete mil) toneladas métricas de fuel oil, que representan la primera entrega, en espacio de bodega de buque petrolero dispuesto por la U.S. Commercial Company de acuerdo al párrafo A-3, el Gobierno argentino se compromete, bajo este Acuerdo, a hacer disponible puntualmente 7.000 (siete mil) toneladas de torta o harina de semilla de lino, y 3.500 (tres mil quinientas) toneladas métricas de aceite de semilla de lino, F.O.B., debiendo suministrarse el saldo del equivalente calórico en entregas subsiguientes durante el primer trimestre.

6. Con respecto al compromiso contraído de acuerdo al párrafo A-1, queda convenido de mutuo acuerdo que el Gobierno argentino hará disponible sobre una base F.O.B. en cada trimestre a partir de la fecha de este Acuerdo, una cantidad de semilla de lino y sus sub-productos aproximadamente equivalente al valor calórico del fuel oil importado bajo este Acuerdo durante dicho período, y que cualquiera diferencia que surgiera será compensada en el período siguiente. A los fines de este Acuerdo los valores calóricos se computarán en la forma siguiente:

*Fuel oil* – 10,000 (diez mil) calorías por tonelada métrica.

*Aceite de Semilla de Lino* – 9,500 (nueve mil quinientas) calorías por tonelada métrica.
Semilla de Lino – 5,700 (cinco mil setecientas) calorías por tonelada métrica.
Torta de Semilla de Lino y Expellers – 4,350 (cuatro mil trescientas cincuenta) calorías por tonelada métrica.
Harina de Semilla de Lino Extraída – 3,900 (tres mil novecientas) calorías por tonelada métrica.

7. Las necesidades de fuel oil de la Compañía Argentina de Navegación Dodero S.A. que, según se entiende, son de aproximadamente 70,000 (setenta mil) toneladas métricas por año, se satisfarán además de las cantidades ya mencionadas, y queda entendido como condición esencial de este Acuerdo que se mantendrá la disponibilidad de los petroleros de dicha Compañía para transportar aceites vegetales a los Estados Unidos de América.

8. Queda mutuamente entendido y convenido que las importaciones de fuel-oil serán autorizadas únicamente para aquellas compañías, argentinas, británicas y estadounidenses que figuraban como importadores en el año 1941, o que efectuaron ventas de fuel oil para ser eventualmente importado por industrias consumidoras de este producto en la Argentina durante ese año, y que cada una de esas compañías participará de acuerdo a los porcentajes siguientes:

El fuel oil en cuestión es fuel oil residual originario de Trinidad, Aruba o Curazao. En la medida en que se emplee espacio de bodega en petroleros argentinos, la elección del punto de origen queda a opción del Gobierno argentino, pero en lo que respecta al espacio de bodega de petroleros suministrado por la U.S. Commercial Company, dicha elección queda a opción de esta Compañía. Debe notarse que existe una diferencia en las especificaciones entre el fuel oil originario de Trinidad y en el de los otros dos puntos nombrados.

9. El precio del fuel oil suministrado bajo este Acuerdo será el que corresponda al precio corriente de plaza vigente en cada puerto en la fecha de cada embarque, pero no será mayor del precio internacional equivalente.

10. Con respecto al compromiso de la U.S. Commercial Company de hacer disponible fuel oil y de suministrar el espacio de bodega en petroleros para la entrega de cantidades limitadas de dicho producto según se establece en párrafos precedentes, la U.S. Commercial Company se reserva expresamente el derecho de interrumpir el cumplimiento de estas obligaciones únicamente en el caso de que acontecimientos no actualmente previsibles relacionados con nuestro esfuerzo bélico conjunto hicieran necesaria tal interrupción. No obstante, en tal caso la parte restante de esas obligaciones serán cumplidas tan pronto como hubieren desaparecido las causas de la interrupción.
B. SEMILLA DE LINÓ Y SUS SUB-PRODUCTOS

1. El Gobierno argentino pondrá a disposición de la U.S. Commercial Company y la U.S. Commercial Company comprará la totalidad del saldo exportable, según se definirá a continuación, de semilla de lino, aceite, torta y harina de semilla de lino, procedente de las cosechas 1944/45 y 1945/46, y cosechas anteriores.

2. Con sujeción a las disposiciones vigentes sobre el canje de valores calóricos contenidos en el párrafo A-2 del presente Acuerdo, todo el saldo exportable de la cosecha 1944/45 quedará disponible para ser cargado F.O.B. Buenos Aires a más tardar al 31 de diciembre de 1945, y análogamente todo el saldo exportable de la cosecha 1945/46 a más tardar el 31 de diciembre de 1946.

3. El término “saldo exportable” se define como significando toda la semilla de lino (y el aceite, torta y harina de semilla de lino sujetos a las limitaciones que se establecerán en el párrafo B-4) que se encuentre en existencia o que proceda de la nueva producción entregable durante el periodo mencionado y en la forma especificada en el párrafo B-1 del presente Acuerdo, y que en ningún caso será menos que

133,000 (ciento treinta y tres mil) toneladas métricas de semilla de lino,
179,000 (ciento setenta y nueve mil) toneladas métricas de torta y harina de semilla de lino, y
88,000 (ochenta y ocho mil) toneladas métricas de aceite de semilla de lino,
de la cosecha 1944/45, y cosechas anteriores, que no sea necesario para

(a) las necesidades del mercado local argentino fuera de lo requerido como combustible;
(b) las exportaciones normales destinadas al consumo en otros países latino-americanos basadas sobre el volumen de dichas exportaciones a cada país en años anteriores; y
(c) las exportaciones normales destinadas al consumo en países europeos basadas sobre el volumen de las exportaciones a cada uno de dichos países en años anteriores, sujetas a las siguientes limitaciones:

(1) no se aprobará ninguna exportación de esta naturaleza salvo a pedido expreso del gobierno de la nación europea interesada;
(2) el representante de la U.S. Commercial Company será informado inmediatamente de toda licencia de exportación solicitada de acuerdo con la cláusula precedente;
(3) se tomarán las disposiciones necesarias para mantener informado al Gobierno Argentino de las cuotas establecidas por la Combined Food Board a favor de naciones europeas para productos argentinos incluidos en este párrafo;
(d) El mínimo indispensable de consumo para combustible en la Argentina hasta el momento en que los suministros de fuel oil aludidos en este Acuerdo hagan innecesario el uso de dicho producto;
(e) El reemplazo de las necesidades esenciales argentinas de diesel oil que se entienden ser aproximadamente 4.000 (cuatro mil) toneladas métricas mensuales de aceite de lino. Sin embargo la U.S. Commercial Company se reserva el derecho de hacer disponible diesel oil en lugar de fuel oil hasta el límite mensual indicado, en cuyo caso no podrá ser deducido del saldo exportable la cantidad de aceite de lino reservada por este inciso en la medida que ingrese diesel oil a la Argentina.

4. En lo que respecta a la cosecha 1944/45, y cosechas anteriores, no menos de un tercio del total del saldo exportable será entregado como semilla de lino, debiendo el remanente ser elaborado en la Argentina y todo el aceite y harina y torta resultantes deberán suministrarse según este acuerdo, a la U.S. Commercial Company. En cuanto a la cosecha 1945/46, no menos de la mitad del saldo exportable deberá ser entregado como semilla de lino, debiendo elaborarse el remanente en la Argentina y todo el aceite y harina y torta resultantes deberán suministrarse según este Acuerdo a la U.S. Commercial Company. Queda entendido que el Gobierno argentino se reserva el derecho de elegir, antes del 1° de marzo de 1946 o antes de la primera exportación de la cosecha 1945/46, cual acontezca primero, el aumentar la cantidad mínima de la semilla de lino para no menos de dos tercios del total de la cosecha 1945/46, y en tal caso el precio aplicable a aceite de lino derivado de esa cosecha será U$S 0.09½ (cero coma cero nueve y medio) por libra en lugar del precio de U$S 0.09 (cero coma cero nueve) por libra especificado en el párrafo B-5 de este Acuerdo.

5. Los precios y las especificaciones serán como se dan a continuación:

Semilla de Lino, de calidad término medio, que no contenga más de 4% (cuatro por ciento) de cuerpos extraños, cuyo peso y análisis efectuado en el puerto de descarga sea garantizado por el vendedor: U$S 1.66 (uno coma sesenta y seis) por bushel de 56 (cincuenta y seis) libras cada una, a granel, F.O.B. Buenos Aires.

Federal Capital

The American Chargé d’Affaires ad interim to the Argentine Minister for Foreign Affairs and Worship

Embassy of the
United States of America
Buenos Aires, May 9, 1945.

Excellency,

I have the honor to address Your Excellency with reference to the negotiations carried out between Mr. Randolph Powell Butler, Special Agent of the U.S. Commercial Company, an agency of the Government of the United States of America, and His Excellency The Secretary of Industry and Commerce of the Republic of Argentina, Brigadier-General Julio C. Checchi, and to express the agreement of my Government to the following clauses:

A. Fuel Oil and Shipping

1. The U.S. Commercial Company agrees to make available for shipment to Argentina, as soon as practicable after this date, not less than 500,000 (Five Hundred Thousand) metric tons of fuel oil, in consideration of the Argentine Government’s agreement hereafter set forth to sell to the U.S. Commercial Company the entire exportable surplus, subject to the reservations hereafter established, of flaxseed and its products, arising from the 1944–1945 or prior crops, and to extend other guaranties as herein outlined. Furthermore, the U.S. Commercial Company agrees to make available for shipment to Argentina, upon completion of the foregoing quantity and up to December 31, 1946, an additional 500,000 (Five Hundred Thousand) metric tons of fuel oil, or a quantity of fuel oil equivalent to the caloric value of the 1945–1946 exportable surplus of flaxseed and its products, whichever is higher, in consideration of the Argentine Government’s agreement hereafter set forth to sell to the U.S. Commercial Company the entire exportable surplus of flaxseed and its products, aris-
ing from the 1945–1946 crop; provided that in no event shall the U.S. Commercial Company be required to deliver fuel oil of a caloric value in excess of the total caloric value of the exportable surpluses of all of the flaxseed or its products delivered under this contract.

2. The U.S. Commercial Company agrees to make available southbound tank space for delivery of not less than 100,000 (One Hundred Thousand) metric tons of fuel oil, applying to the first quantity of 500,000 (Five Hundred Thousand) metric tons to be supplied under Paragraph A–1 above, during a twelve-months period counted from the date of this agreement with a monthly minimum of approximately 5000 (Five Thousand) tons and, in addition, southbound tank space for delivery of not less than 100,000 (One Hundred Thousand) tons or 20% (Twenty Percent), whichever is higher, of the quantity of fuel oil provided in that paragraph as applying to the 1945–1946 crop, such space to be made available in the monthly amounts which may prove feasible, and in any event to be completed by December 31, 1946.

3. It is understood that as to the remainder of the fuel oil to be supplied, no responsibility for providing transportation rests with the U.S. Commercial Company, although it is hoped that facilities in addition to those now available to the United States Government may present themselves before the conclusion of the period.

4. Also, in addition to the foregoing quantities of fuel oil, the quantity of approximately 15,000 (Fifteen Thousand) metric tons of fuel oil now held by the Compañía Argentina de Navegación Dodero, S.A. in Buenos Aires will be released for internal consumption in Argentina and it is clearly understood that a quantity of flaxseed and its products, equivalent to the caloric value of this fuel oil, will be made available for delivery under this agreement in the course of the first eight months.

5. In consideration of the immediate shipment between May 15 and June 15, 1945 of approximately 7,000 (Seven Thousand) metric tons of fuel oil, representing the first delivery, in tank space arranged for by the U.S. Commercial Company, in accordance with Paragraph A–8, the Argentine Government will promptly make available, f.o.b., under the agreement, 7,000 (Seven Thousand) tons of linseed cake or meal and 3,500 (Three Thousand Five Hundred) metric tons of linseed oil, the balance of the caloric equivalent to be made up in subsequent deliveries during the first three-months period.

6. In connection with the commitment contained in Paragraph A–1, it is mutually agreed that the Argentine Government will make available on an f.o.b. basis, in each three-months period, counted from the date of this agreement, a quantity of flaxseed and its products approximately equivalent to the caloric value of the fuel oil imported under the agreement during such period, and that any differences shall be compensated in the ensuing period. For the purpose of this agreement, caloric values shall be computed as follows:
Fuel Oil—10,000 (Ten Thousand) calories per metric ton
Linseed oil—9,500 (Nine Thousand Five Hundred) calories per metric ton
Flaxseed—5,700 (Five Thousand Seven Hundred) calories per metric ton
Linseed Cake & Expellers—4,350 (Four Thousand Three Hundred and Fifty) calories per metric ton
Extracted Linseed Meal—3,900 (Three Thousand Nine Hundred) calories per metric ton

7. The fuel oil requirements of the Compañía Argentina de Navegación Dodero, S.A., which are understood to be approximately 70,000 (Seventy Thousand) metric tons per annum, will be supplied in addition to the foregoing quantities and it is understood that the continued availability of this Company's tankers to carry vegetable oils to the United States of America is a necessary condition of this proposal.

8. It is mutually understood and agreed that imports of fuel oil will be authorized only through those oil companies, Argentine, British and American, who figured as importers in the year 1941, and/or who made sales of fuel oil for subsequent importation by consuming industries in Argentina during that year, and that each such company shall share in accordance with the following percentages:

The fuel oil in question is residual fuel oil originating in Trinidad, Aruba or Curacao. To the extent that Argentine tank space is employed, the choice of point of origin shall be at the option of the Argentine Government but to the extent that tank space is arranged by the U.S. Commercial Company, such choice shall be at the option of the U.S. Commercial Company. It should be noted that there is a difference in specifications between the oil originating in Trinidad and in the other two named sources.

9. The f.o.b. price of all fuel oil supplied hereunder will be the current market price ruling at each port on the date of each loading, but in no event higher than the equivalent world price.

10. In connection with the commitment of the U.S. Commercial Company to make available fuel oil and to provide tank space for delivery of limited quantities thereof contained in the preceding paragraphs, the U.S. Commercial Company specifically reserves the right to interrupt the discharge of these commitments only in case presently unforeseen developments in connection with our joint war effort should render such interruption necessary. In such event,
however, the remainder of such commitments would be discharged as
soon as the causes of interruption had been removed.

B. FLAXSEED AND ITS PRODUCTS

1. The Argentine Government will make available to the U.S. Com-
mmercial Company and the U.S. Commercial Company will purchase
the entire exportable surplus as hereafter defined of flaxseed, linseed
oil, and cake, and meal, arising from the 1944–1945 crop and the
1945–1946 crop, and prior crops.

2. Subject to the provision governing exchange of caloric values
contained in Paragraph A–2 hereof, all of the exportable surplus
of the 1944–1945 crop shall be made available for loading f.o.b. vessel
Buenos Aires, not later than December 31, 1945 and similarly, all of
the exportable surplus of the 1945–1946 crop, not later than December
31, 1946.

3. The term "exportable surplus" is defined to mean all flaxseed,
(and linseed oil and cake and meal subject to limitation hereafter
provided in Paragraph B–4) in stock or from new production deliver-
able during the period mentioned and in the manner specified in
Paragraph B–1 hereof, and in no event to be less than

133,000 (One Hundred Thirty-three Thousand) metric tons of flax-
seed
179,000 (One Hundred Seventy-nine Thousand) metric tons of lin-
seed cake and meal, and
88,000 (Eighty-eight Thousand) metric tons of linseed oil,

in the case of the 1944–1945 crop and prior crops, and which is not
required for

(a) the needs of the Argentine domestic market other than fuel
requirements,
(b) normal exports for consumption in other Latin-American
countries, based on volume of such exports to each country in
prior years, and
(c) normal exports for consumption in European countries,
based on volume of exports to each such country in prior years,
subject to the following limitations:

(i) no such export will be approved except at the express
request of the government of the European nation involved;
(ii) the U. S. Commercial Company representative will
be informed promptly of all export licenses applied for in
accordance with the preceding clause;
(iii) arrangements will be made to keep the Argentine Gov-
ernment informed of quotas established by the Combined
Food Board in favor of European nations for Argentine
products covered by this paragraph;

(d) the unavoidable minimum of consumption for fuel in Argen-
tina until such time as fuel oil supplies under this agreement
render such use of the product unnecessary,
(e) the replacement of essential Argentine requirements for diesel oil, which are understood to be approximately 4,000 (Four Thousand) tons monthly; provided, however, that the U. S. Commercial Company reserves the right to make available quantities of diesel oil in lieu of fuel oil up to such monthly amount, in which case the amount of linseed oil reserved by this sub-paragraph as a deduction from the exportable surplus shall be reduced to the extent that arrivals of diesel oil in Argentina take place.

4. As to the 1944–1945 crop, and prior crops, not less than one-third of the total exportable surplus shall be delivered as flaxseed, the remainder to be crushed in Argentina and all of the resultant oil and meal or cake to be tendered to the U. S. Commercial Company hereunder.

As to the 1945–1946 crop, not less than one-half shall be tendered as flaxseed, the remainder to be crushed in Argentina and all of the resultant oil and meal or cake to be tendered to the U. S. Commercial Company hereunder; provided, however, that the Argentine Government reserves the right to elect, prior to March 1, 1946, or prior to the first exportation of the 1945–1946 crop, whichever shall first occur, to increase the minimum amount of flaxseed to not less than two-thirds of the total 1945–1946 crop and in that event the price for linseed oil arising from that crop shall be US $ 9–½¢ (Nine and one-half cents) per pound instead of the US $ 9¢ (Nine cents) per pound specified in Paragraph B–5 hereof.

5. Prices and specifications shall be as follows:

Flaxseed—Fair average quality, not in excess of 4% (Four percent) foreign matter; weight and analysis at port of discharge guaranteed by Seller: US $1.66 (One dollar and sixty-six cents) per bushel of 56 (Fifty-six) pounds each, in bulk, f.o.b. Buenos Aires.

Buenos Aires.

6. The Argentine Government shall have the option of delivering the flaxseed and products hereunder directly on an f.o.b. basis or through exporters, the understanding being that in practice it is the present intention of the Argentine Government to make such deliveries through exporters, in which case the Argentine Government will sell the products to the exporters at f.o.b. prices herein named, less the calculated costs involved from point of delivery in each instance up to the placing of the merchandise f.o.b. Buenos Aires.

(b) normal exports for consumption in other Latin-American countries, based on the volume of such exports to each such country in prior years,

I avail myself of this opportunity to reiterate to Your Excellency the assurances of my most distinguished consideration.

Agreement respecting commercial relations between the United States of America and Colombia relating to waiver in respect of tariff preferences accorded Ecuador by Colombia under a treaty of commerce between Colombia and Ecuador signed July 6, 1942, as amended October 14, 1943. Effectuated by exchange of notes signed at Bogotá April 17, 1945.

The Colombian Minister for Foreign Affairs to the American Ambassador

MINISTERIO DE
RELACIONES EXTERIORES

CM. 415.—
Bogotá, abril 17 de 1945

SEÑOR EMBAJADOR:

En relación con la fórmula contractual sobre tarifas preferenciales entre países limítrofes o vecinos, prevista tanto en la Resolución Número LXXX de la Séptima Conferencia Interamericana, aprobada el 24 de diciembre de 1933, como en la Recomendación adoptada por el Comité Consultivo Financiero Económico Interamericano el 18 de septiembre de 1941, tengo el honor de manifestar a Vuestra Excelencia lo siguiente:

En el Artículo 5º del Tratado de Comercio entre Colombia y Ecuador de 6 de julio de 1942—que con su Convención Adicional de 14 de octubre de 1943 fué aprobado por el Congreso Nacional según ley 103 de 1944—, se permite la entrada a Colombia, libre de derechos de importación, de ciertos productos originarios y provenientes del Ecuador, especificados en una lista.

Pero como quiera que el artículo VII del Convenio Comercial entre Colombia y los Estados Unidos, firmado el 13 de septiembre de 1935, dispone que cada uno de los dos países conceda al otro el tratamiento incondicional e irrestricto de la nación más favorecida en todos los asuntos relacionados con las aduanas, muy atentamente ruego a Vuestra Excelencia comunicarme si el Gobierno de los Estados Unidos convendría en no acogerse a esta disposición con el propósito de reclamar el beneficio de las preferencias arancelarias exclusivas otorgadas por Colombia al Ecuador.

Al formular esta consulta, aprovecho la oportunidad para reiterar al Gobierno de los Estados Unidos, por el alto conducto de Vuestra Excelencia, la seguridad de que mi Gobierno está en un todo de acuerdo con el principio del tratamiento incondicional de la nación más favorecida para el desarrollo multilateral del comercio internacional, y que estima muy claramente que la excepción propuesta ahora a dicho principio, se cierne tanto a lo expresado en la mencionada Resolución LXXX de Montevideo, como a los tres siguientes requisitos de la Recomendación del Comité Consultivo Financiero Económico Interamericano:
“Que cualquiera preferencia arancelaria, de esta índole, para constituir un instrumento destinado a fomentar firmemente el comercio, debería ser hecha efectiva por acuerdos comerciales que incluyan reducciones o exenciones arancelarias;

“Que las partes contratantes deben reservarse el derecho de reducir o eliminar los derechos aduaneros a las importaciones similares de otros países; y

“Que tales preferencias arancelarias regionales no deben impedir ningún amplio programa de reconstrucción económica que contemple la reducción de aranceles y la reducción o eliminación de preferencias tarifarias y otras preferencias comerciales con el propósito de lograr el más amplio desarrollo del comercio internacional sobre una base multilateral e incondicional de la nación más favorecida”.

Ruego a Vuestra Excelencia aceptar las seguridades de mi más elevada y distinguida consideración,

MINISTRY OF

FOREIGN AFFAIRS

Bogotá, April 17, 1945

MR. AMBASSADOR:

With reference to the contractual formula for preferential tariffs between contiguous or neighboring countries, contemplated in Resolution Number LXXX of the Seventh Inter-American Conference, approved December 24, 1933, as well as in the Recommendation adopted by the Inter-American Financial and Economic Advisory Committee September 18, 1941, I have the honor to make the following statement to Your Excellency:

In Article 5 of the Treaty of Commerce between Colombia and Ecuador of July 6, 1942— which with its Additional Convention of October 14, 1943 was approved by the National Congress according to Law 103 of 1944—, the entry into Colombia is permitted, free of import duties, of certain products originating in and coming from Ecuador, as itemized in a list.

However, since Article VII of the Trade Agreement between Colombia and the United States, signed September 13, 1935, provides that each of the two countries shall grant the other unconditional and unrestricted most-favored-nation treatment in all customs matters, I very respectfully request Your Excellency to inform me whether the Government of the United States would agree not to resort to this
provision for the purpose of claiming the benefit of the exclusive customs tariff preferences granted by Colombia to Ecuador.

In formulating this inquiry, I avail myself of the opportunity to reiterate to the Government of the United States, through the high intermediary of Your Excellency, the assurance that my Government is completely in accord with the principle of unconditional most-favored-nation treatment for the multilateral development of international trade, and that it has very clearly in mind that the exception now proposed to said principle is limited to what is set forth in the aforementioned Resolution LXXX of Montevideo, as well as to the three following requirements of the Recommendation of the Inter-American Financial and Economic Advisory Committee:

"That any such tariff preferences, in order to be an instrument for sound promotion of trade, should be made effective through trade agreements embodying tariff reductions or exemptions;

"That the parties to such agreements should reserve the right to reduce or eliminate the customs duties on like imports from other countries; and

"That any such regional tariff preferences should not be permitted to stand in the way of any broad program of economic reconstruction involving the reduction of tariffs and the scaling down or elimination of tariff and other trade preferences with a view to the fullest possible development of international trade on a multilateral unconditional most-favored-nation basis."

I beg Your Excellency to accept the assurance of my highest and most distinguished consideration.

Alberto Lleras

His Excellency John C. Wiley,
Ambassador Extraordinary and Minister Plenipotentiary of the United States of America.

The American Ambassador to the Colombian Minister for Foreign Affairs

Embassy of the United States of America

No. 27

Bogotá, April 17, 1945.

Excellency:

I have the honor to acknowledge receipt of Your Excellency's note no. CM-415 of April 17, 1945, in which you mention the contractual formula for tariff preferences to contiguous countries contemplated in Resolution LXXX of the Seventh Inter-American Conference, which was approved on December 24, 1933, and in the recommendation adopted by the Inter-American Financial and Economic Advisory Committee on September 18, 1941. In this connection you refer to
the exclusive tariff preferences to Ecuador provided for in Article V of the Treaty of Commerce between Colombia and that country signed on July 6, 1942 and amended on October 14, 1943.

You inquire whether the Government of the United States of America will agree, on the basis of this formula, to refrain from claiming, under the provisions of Article VII of the trade agreement between our two countries signed on September 13, 1935, the benefit of the tariff preferences to Ecuador specifically provided for in the above-mentioned treaty.

I have the honor to state that my Government, while recognizing its adherence to the formula recommended by the Inter-American Financial and Economic Advisory Committee, desires to call attention to the fact that, mindful of the fourth and fifth principles of the Atlantic Charter, it attaches great importance to the final requirement quoted in Your Excellency's note which states that regional preferences should not be permitted to stand in the way of any broad program of economic reconstruction involving the reduction of tariffs and the scaling down or elimination of tariff and other trade preferences with a view to the fullest possible development of international trade on a multilateral unconditional most-favored-nation basis.

With these considerations in view, the Government of the United States agrees not to invoke the pertinent provisions of the trade agreement between our two countries for the purpose of claiming the benefit of the tariff preferences to Ecuador provided in Article V of the Treaty of Commerce between Colombia and Ecuador.

Accept, Excellency, the renewed assurances of my highest consideration.

Agreement between the United States of America and Norway respecting relations between armed forces in Iceland. Effect by exchange of notes signed at London August 28, 1942; effective August 28, 1942.

The American Ambassador to the Norwegian Minister for Foreign Affairs

EMBASSY OF THE UNITED STATES OF AMERICA
near the Royal Norwegian Government.

LONDON, August 28, 1942.

Excellency:

Acting under instructions from my Government, I have the honor to signify my Government's agreement to the following arrangements for regulating military relations between the Armed Forces of the United States and of Norway in Iceland.

Recognizing the advantages of preserving the principle of unity of command in Iceland, it is agreed that since the British Forces in Northeast Iceland have been relieved by United States troops, the independent Norwegian Company stationed at Akureyri, formerly under British command, shall be placed under the operational control of the Commanding General, United States Army Iceland Base Command.

The Norwegian Company shall be placed at the disposal of the United States Commanding General as a Norwegian training unit in winter warfare and for carrying out winter patrol missions in the Akureyri area. However, since the original purpose of the Company was to serve as a depot for the Norwegian detachment garrisoning Jan Mayen Island, the United States Commanding General shall make use of the Company in such a way that this purpose is fulfilled.

The Norwegian Company in Iceland shall be furnished by the Norwegian Government with necessary clothing, equipment and weapons. However, special winter equipment shall be issued by the United States authorities to the extent that the United States Commanding Officer deems desirable. The United States authorities shall provide the Company with rations, quarters and medical service, on the same scale as furnished American forces stationed in Iceland, and also effect repairs to clothes and equipment, insofar as facilities permit. The cost to the United States of all such equipment, supplies and services shall be refunded by the Norwegian Government, which shall also be responsible for the pay of Norwegian personnel. However, transportation essential for the employment of the Company by United States military authorities shall be at the expense of the United States.
The personnel of the Norwegian Company shall continue to be subject to Norwegian civil and military jurisdiction and Norwegian disciplinary authority.

The Norwegian Government reserves to itself the right to withdraw this personnel, in whole or in part, if a situation should develop rendering advisable its detail to other tasks.

The foregoing arrangement shall enter into effect as of this date and shall remain in force until either party notifies the other of its desire to terminate or modify it.

Accept, Excellency, the renewed assurances of my highest consideration.

The Norwegian Company shall be placed at the disposal of the United States Commanding General as a Norwegian training unit in winter warfare and for carrying out winter patrol missions in the Akureyri area. However, since the original purpose of the Company was to serve as a depot for the Norwegian detachment garrisoning Jan Mayen Island, the United States Commanding General shall make use of the Company in such a way that this purpose is fulfilled.

The Norwegian Company in Iceland shall be furnished by the Norwegian Government with necessary clothing, equipment and weapons. However, special winter equipment shall be issued by the United States authorities to the extent that the U. S. Commanding Officer deems desirable. The United States authorities shall provide the Company with rations, quarters and medical service, on the same
scale as furnished American forces stationed in Iceland, and also effect repairs to clothes and equipment, insofar as facilities permit. The cost to the United States of all such equipment, supplies and services shall be refunded by the Norwegian Government, which shall also be responsible for the pay of Norwegian personnel. However, transportation essential for the employment of the Company by United States military authorities shall be at the expense of the United States.

The personnel of the Norwegian Company shall continue to be subject to Norwegian civil and military jurisdiction and Norwegian disciplinary authority.

The Norwegian Government reserves to itself the right to withdraw this personnel, in whole or in part, if a situation should develop rendering advisable its detail to other tasks.

The foregoing arrangement shall enter into effect as of this date and shall remain in force until either party notifies the other of its desire to terminate or modify it.

I have the honour to be, with the highest consideration,

Your Excellency's obedient Servant,

AGREEMENT

The leaders of the three Great Powers—the Soviet Union, the United States of America and Great Britain—have agreed that in two or three months after Germany has surrendered and the war in Europe has terminated the Soviet Union shall enter into the war against Japan on the side of the Allies on condition that:

1. The status quo in Outer-Mongolia (The Mongolian People’s Republic) shall be preserved;
2. The former rights of Russia violated by the treacherous attack of Japan in 1904 shall be restored, viz:
   (a) the southern part of Sakhalin as well as all the islands adjacent to it shall be returned to the Soviet Union,
   (b) the commercial port of Dairen shall be internationalized, the preeminent interests of the Soviet Union in this port being safeguarded and the lease of Port Arthur as a naval base of the USSR restored,
   (c) the Chinese-Eastern Railroad and the South-Manchurian Railroad which provides an outlet to Dairen shall be jointly operated by the establishment of a joint Soviet-Chinese Company it being understood that the preeminent interests of the Soviet Union shall be safeguarded and that China shall retain full sovereignty in Manchuria;
3. The Kuril islands shall be handed over to the Soviet Union.
   It is understood, that the agreement concerning Outer-Mongolia and the ports and railroads referred to above will require concurrence of Generalissimo Chiang Kai-Shek. The President will take measures in order to obtain this concurrence on advice from Marshal Stalin.
   The Heads of the three Great Powers have agreed that these claims of the Soviet Union shall be unquestionably fulfilled after Japan has been defeated.

For its part the Soviet Union expresses its readiness to conclude with the National Government of China a pact of friendship and alliance between the USSR and China in order to render assistance to China with its armed forces for the purpose of liberating China from the Japanese yoke.

СОГЛАШЕНИЕ.

Руководители трех Великих Держав - Советского Союза, Соединенных Штатов Америки и Великобритании - согласились в том, что через два-три месяца после капитуляции Германии и окончания войны в Европе Советский Союз вступит в войну против Японии на стороне Союзников при условии:

1. Сохранения status quo Внешней Монголии (Монгольской Народной Республики);
2. Восстановления принадлежавших России прав, нарушенных вероломным нападением Японии в 1904 г., а именно:
   a) возвращения Советскому Союзу южной части о. Сахалина и всех прилегающих к ней островов;
   b) интернационализации торгового порта Дайрена с обеспечением преимущественных интересов Советского Союза в этом порту и восстановление аренды на Порт-Артур, как на военно-морскую базу СССР;
   c) совместной эксплоатации Китайско-Восточной железной дороги и Южно-Манчжурской железной дороги, дающей выход на Дайрен, на началах организации смешанного Советско-Китайского Общества с обеспечением преимущественных интересов Советского Союза, при этом имеется в виду, что Китай сохраняет в Маньчжурии полный суверенитет.
3. Передачи Советскому Союзу Курильских островов.

Предполагается, что соглашение относительно Внешней Монголии и вышеупомянутых портов и железных дорог потребует согласия генералиссимуса Чан Кай-ши. По совету Маршала И. В. Сталина Президент примет меры к тому, чтобы было получено такое согласие.

Главы Правительств трех Великих Держав согласились в том, что эти претензии Советского Союза должны быть безусловно удовлетворены после победы над Японией.

Со своей стороны Советский Союз выражает готовность заключить с Национальным Китайским Правительством пакт о дружбе и союзе между СССР и Китаем для оказания ему помощи своими вооруженными силами в целях освобождения Китая от японского ига.

1. Las Administraciones de los Estados Unidos de América, incluyéndose Alaska, Hawai, Puerto Rico, Guam, Samoa y las Islas Virgin de los Estados Unidos, por una parte, y de la República de Guatemala, por otra parte, convienen en realizar el servicio de encomiendas con valor declarado hasta el límite máximo de $100.00, previo pago por el remitente de las tasas especiales suplementarias que cada uno de los mencionados países de origen establezca en su propia jurisdicción. Estos derechos suplementarios quedan a beneficio exclusivo de la Administración de origen.

PARCEL POST AGREEMENT BETWEEN THE REPUBLIC OF GUATEMALA AND THE UNITED STATES OF AMERICA.

For the purpose of concluding arrangements for the extension of the parcel-post service between the United States of America (including Alaska, Hawai, Puerto Rico, Guam, Samoa and the Virgin Islands of the United States) and the Republic of Guatemala, to include the insurance of parcels, the undersigned, Postmaster General of the United States of America, and of the Republic of Guatemala, by virtue of authority vested in them, have agreed upon the following articles:

ARTICLE 1. Insurance.

1. The Administrations of the United States of America (including Alaska, Hawai, Puerto Rico, Guam, Samoa, and the U. S. Virgin Islands) on one hand and of the Republic of Guatemala on the other hand, agree to execute the service of parcels with an insured value up to the maximum limit of $100.00, upon payment by the sender of such special additional fees as each of the countries of origin mentioned may establish in its own service. Such additional fees accrue in their entirety to the Administration of origin.
2. Las encomiendas que contengan piezas de moneda, metales preciosos, joyas o demás objetos preciosos, deberán obligatoriamente expedirse con valor declarado.

3. El remitente podrá declarar las encomiendas facultativamente por el valor total de su contenido o por una parte de tal valor solamente.

**Artículo 2.**

**Indemnizaciones.**

1. Salvo los casos previstos en el artículo siguiente, las Administraciones responderán por la pérdida de las encomiendas con valor declarado depositadas en uno de los países contratantes para ser entregadas en el otro país y por la pérdida, expoliación o avería de su contenido o una parte de él.

El remitente o otra persona autorizada tendrá derecho a una indemnización que corresponda al monto efectivo de la pérdida, expoliación o avería. La indemnización se calculará de acuerdo con el valor efectivo (el precio corriente) de las mercaderías de la misma clase en el lugar y en la época en que las mismas hayan sido aceptadas para el transporte, siempre que la indemnización no podrá en ningún caso exceder del monto de que la encomienda fue asegurada y en que el derecho de seguro ha sido cobrado, o el monto máximo de $100.00. A falta de precios corrientes, la indemnización se calculará de acuerdo con el valor ordinario de la mercancía valuada sobre las mismas bases.

2. No se pagará ninguna indemnización por la avería indirecta ni por los beneficios no realizados que resulten de la pérdida, de la expoliación o avería.

liación, de la avería, de la falta de entrega, de la entrega errónea, o de la demora de una encomienda con valor declarado expedida de acuerdo con las estipulaciones de este acuerdo.

3. En el caso de que hubiere de pagarse una indemnización por la pérdida de una encomienda o por la destrucción o expoliación completa de todo su contenido, el expedidor tendrá además derecho a la devolución de las tasas postales cuando las reclame. Sin embargo, los derechos de seguro no se devolverán en ningún caso.

4. A falta del acuerdo en contrario entre los países interesados (acuerdo que puede hacerse por correspondencia) no se pagará indemnización por la pérdida, la expoliación o la avería de encomiendas con valor declarado en tránsito, esto es, por las encomiendas con valor declarado originarias de uno de los dos países contratantes y destinadas a otros países que no participaren en este acuerdo, o por los envíos asegurados originarios de algún otro país que no participe en este acuerdo y destinados a uno de los dos países contratantes.

5. Cuando una encomienda originaria de un país destinada al otro país se reexpida desde el país de destinación primitiva a un tercer país o se devuelva a un tercer país, a solicitud del remitente o del destinatario, el reclamante autorizado tendrá derecho solamente a tal indemnización por cualquiera pérdida, expoliación o avería que ocurra después de la reexpedición o devolución del envío por el país de su primitiva destinación, y que el país en donde ocurriere la pérdida, expoliación o avería deseare pagar o estuviere obligado a pagar de conformidad or delay of an insured parcel dispatched in accordance with the conditions of the present agreement.

3. In the case where indemnity is payable for the loss of a parcel or for the destruction or abstraction of the whole of the contents thereof, the sender is entitled to return of the postal charges, if claimed. However, the insurance fees are not in any case returned.

4. In the absence of special agreement to the contrary between the countries involved, which agreement may be made by correspondence, no indemnity will be paid by either country for the loss, rifling, or damage of transit insured parcels, that is, parcels originating in a country not participating in this agreement and destined for one of the two contracting countries or parcels originating in one of the two contracting countries and destined for a country not participating in this agreement.

5. When an insured parcel originating in one country and destined to be delivered in the other country is reforwarded from there to a third country or is returned to a third country at the request of the sender or of the addressee, the party entitled to indemnity in case of loss, rifling, or damage occurring subsequent to the reforwarding or return of the parcel by the original country of destination, can lay claim, in such a case, only to the indemnity which the country where the loss, rifling, or damage occurred consents to pay, or which that country is obliged
to pay in accordance with the agreement made between the countries directly interested in the reforwarding or return. Either of the two countries signing the present agreement which wrongly forwards an insured parcel to a third country is responsible to the sender to the same extent as the country of origin, that is, within the limits of the present agreement.

6. The sender is responsible for defects in the packing and insufficiency in the closing and sealing of insured parcels. Moreover, the two Administrations are released from all responsibility in case of loss, rifling, or damage caused by defects not noticed at the time of mailing.

ARTÍCULO 3.

Exceptions to the principle of responsibility.

The Administrations are released from all responsibility:

(a) In case of parcels of which the addressee has accepted delivery without reservation. In the case of “in care” parcels, responsibility ceases when delivery has been made to the addressee first mentioned and his receipt has been obtained.

(b) In case of loss or damage through force majeure.

(c) When, their responsibility not having been proved otherwise, they are unable to account for parcels in consequence of the destruction of official documents through force majeure.

con algún acuerdo existente entre los países directamente interesados en la reexpedición o devolución. Cualquier país adherido a este acuerdo que indebidamente reexpida una encomienda con valor declarado a un tercer país, será responsable dentro de los mismos límites que el país de origen para con el remitente, quedando sujeto a las restricciones, fijadas por el presente acuerdo.

6. El remitente será responsable de los defectos en el embalaje y de la insuficiencia del cierre y de los sellos de las encomiendas con valor declarado. Además, las dos Administraciones estarán exentas de toda responsabilidad en caso de pérdida, expoliación o avería que sea causada por defectos que no se noten en la época del depósito.

ARTÍCULO 3.

Exceptions al principio de la responsabilidad.

Las Administraciones estarán exentas de toda responsabilidad:

(a) De las encomiendas cuyas destinatarios hayan aceptado la entrega sin reservas. En caso de las encomiendas dirigidas “en cargo”, la responsabilidad cesará cuando ellas hayan sido entregadas al destinatario mencionado en primer término y su recibo haya sido obtenido.

(b) En caso de la pérdida o avería debida a un caso de fuerza mayor.

(c) Cuando no puedan dar cuenta de las encomiendas por causa de la destrucción de los archivos debido a un caso de fuerza mayor, y siempre que la prueba de su responsabilidad no puede comprobarse en cualquiera otra forma.
(d) Cuando el daño haya sido causado por falta o negligencia del remitente, del destinatario o del representante de uno u otro o provenga de la naturaleza del objeto.

(e) Cuando se trate de encomiendas que contengan los objetos prohibidos.

(f) En caso de que el remitente de una encomienda con valor declarado, con la intención de defraudar pretende que el contenido valga más que su valor real; este artículo no podrá perjudicar ningún procedimiento judicial necesitado por la legislación del país de origen.

(g) Cuando se trate de encomiendas confiscadas por la aduana debido a falsa declaración de su contenido.

(h) Cuando ninguna reclamación o aplicación de indemnización haya sido presentada por el interesado o por su representante dentro de un año a contarse desde el día siguiente al de la imposición de la encomienda con valor declarado.

(i) De las encomiendas que contengan artículos de ningún valor intrínseco, o sujetos a decomposición o que no se conformaren a las estipulaciones de este acuerdo, o que no hubieren sido depositadas en la forma prescrita; pero el país responsable de la pérdida, exposición o avería, puede pagar indemnización por dichas encomiendas, sin necesidad de recurso a la otra Administración.

Artículo 4.

Cese de la responsabilidad.

Las Administraciones dejarán de ser responsables por las en-

(g) For parcels seized by the Customs because of false declaration of contents.

(h) When no inquiry or application for indemnity has been made by claimant or his representative within a year commencing with the day following the posting of the insured parcel.

(i) For parcels which contain matter of no intrinsic value, or perishable matter, or which did not conform to the stipulations of this agreement, or which were not posted in the manner prescribed; but the country responsible for the loss, rifling, or damage may pay indemnity in respect of such parcels without recourse to the other Administration.

Artículo 4.

Administrations cease to be responsible for parcels of which they

Artículo 5.

La obligación de pagar una indemnización así como las tasas postales que deban restituirse, corresponderá a la Administración de la cual dependa la oficina expedidora de la encomienda, conservando dicha Administración el derecho de recurrir contra la Administración responsable. 2. Cuando la pérdida, la expoliación o la avería de una encomienda con valor declarado sea descubierta al abrir el receptáculo en la oficina destinataria de cambio y haya sido señalado a la oficina de cambio expedidora, la responsabilidad corresponderá a la Administración de que dependa la oficina de cambio expedidora, a no ser que se comproba que la irregularidad ha ocurrido en el servicio de la Administración destinataria.

3. Si la pérdida, expoliación o avería se produce en el curso del transporte, sin que fuere posible comprobar en el territorio el servicio de qué país ocurrió el hecho, las Administraciones en causa soportarán el perjuicio por partes iguales.

4. La Administración que hubiere efectuado el pago de la indemnización quedará subrogada, hasta

2. When the loss, rifling, or damage of an insured parcel is detected upon opening the receptacle at the receiving exchange office, and has been regularly pointed out to the dispatching exchange office, the responsibility falls on the Administration to which the latter office belongs, unless it be proved that the irregularity occurred in the service of the receiving Administration.

Washington, January 11, 1946
Agreement between the United States of America and Portugal respecting air transport. Signed at Lisbon December 6, 1945; effective December 6, 1945. And exchange of notes.

AIR TRANSPORT AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND PORTUGAL

Having in mind the resolution recommending a standard form of agreement for provisional air routes and services, included in the Final Act of the International Civil Aviation Conference signed at Chicago on December 7, 1944, and the desirability of mutually stimulating and promoting the sound economic development of air transportation between the United States and Portugal, the two Governments parties to this arrangement agree that the further development of air transport services between their respective territories shall be governed by the following provisions:

**Article 1**

The contracting parties grant the rights specified in the Annex hereto necessary for establishing the international civil air routes and services therein described, whether such services be inaugurated immediately or at a later date, as established in paragraph (b) of Article 2.

**Article 2**

(a) Subject to the other provisions of this agreement, each of the air services so described shall be placed in operation as soon as the contracting party to whom the rights have been granted by Article 1 to designate an airline or airlines for the route concerned has authorized an airline for such route, and the contracting party granting the rights shall, subject to Article 7 hereof, be bound to give the appropriate operating permission to the airline or airlines concerned; provided that the airline so designated may be required to qualify before the competent aeronautical authorities of the contracting party granting the rights under the laws and regulations normally applied by these authorities before being permitted to engage in the operations contemplated by this agreement.

(b) It is understood that either contracting party granted commercial rights under this agreement should exercise them at the earliest practicable date except in the case of temporary inability to do so.

**Article 3**

The terms and conditions of operating rights which may have been granted previously by either contracting party to the other
contracting party or to an airline of such other contracting party shall not be abrogated by the present agreement, except for any provisions included in the agreement conferring such operating rights which would prevent any airline designated under Article 2 above from operating under the present agreement.

**Article 4**

In order to prevent discriminatory practices and to assure equality of treatment, it is agreed that:

(a) Each of the contracting parties may impose or permit to be imposed just and reasonable charges for the use of public airports, and other facilities under its control. Each of the contracting parties agrees, however, that these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services.

(b) Fuel, lubricating oils and spare parts introduced into the territory of one contracting party by the other contracting party or its nationals, and intended solely for use by aircraft of such other contracting party shall be accorded national treatment with respect to the imposition of customs duties, inspection fees or other national duties or charges by the contracting party whose territory is entered.

(c) The fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board civil aircraft of the airlines of one contracting party authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other contracting party, be exempt from customs, inspection fees or similar duties or charges, even though such supplies be used or consumed by such aircraft on flights in that territory.

**Article 5**

Certificates of airworthiness, certificates of competency and licenses issued or rendered valid by one contracting party shall be recognized as valid by the other contracting party for the purpose of operating the routes and services described in the Annex. Each contracting party reserves the right, however, to refuse to recognize, for the purpose of flight above its own territory, certificates of competency and licenses granted to its own nationals by another State.

**Article 6**

(a) The laws and regulations of one contracting party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other contracting party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of that party.

(b) The laws and regulations of one contracting party as to the admission to or departure from its territory of passengers, crew, or cargo
of aircraft, such as regulations, relating to entry, clearance, immigration, passports, customs, and quarantine, shall be complied with by or on behalf of such passengers, crew, or cargo of the other contracting party upon entrance into or departure from, or while within the territory of the first party.

**Article 7**

Each contracting party reserves the right to withhold or revoke a certificate or permit to an airline of the other party in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of either party to this agreement, or in case of failure of an airline to comply with the laws of the State over which it operates, as described in Article 6 hereof, or to perform its obligations under this agreement.

**Article 8**

This agreement and all contracts connected therewith, shall be registered with the Provisional International Civil Aviation Organization.

**Article 9**

In the event either of the contracting parties considers it desirable to modify the routes or conditions set forth in the attached Annex, it may request consultation between the competent authorities of both contracting parties, such consultation to begin within a period of sixty days from the date of the request. When the aforementioned authorities mutually agree on new or revised conditions affecting the attached Annex, their recommendations on the matter will come into effect after they have been confirmed by an exchange of diplomatic notes.

**Article 10**

This agreement or any of the rights for air transport services granted thereunder may, without prejudice to Article 3 above, be terminated by either contracting party upon giving one year's notice to the other contracting party.

**Article 11**

This agreement including the provisions of the Annex thereto, will come into force on the day it is signed.

Done at Lisbon in duplicate in the English and Portuguese languages, each of which shall be of equal authenticity, this 6th day of December, 1945.

ACÔRDO DE TRANSPORTES AÉREOS ENTRE PORTUGAL E OS
ESTADOS UNIDOS DA AMÉRICA

Tendo em atenção a resolução que recomenda o modelo de acordo para rotas e serviços aéreos provisórios, incluído na acta final da Conferência Internacional de Aviação Civil assinada em Chicago em 7 de Dezembro de 1944, e o desejo de mutuamente estimular e promover o seu desenvolvimento económico do transporte aéreo entre Portugal e os Estados Unidos, os dois Governos partem neste acordo acordam em que o ulterior desenvolvimento dos serviços de transporte aéreo entre os seus respectivos territórios seja subordinado às seguintes disposições:

ARTIGO 1

As partes contratantes concedem os direitos especificados no Anexo junto, necessários para o estabelecimento de rotas e serviços aéreos civis internacionais, ali descritos, quer esses serviços sejam inaugurados imediatamente quer mais tarde, conforme o estabelecido no parágrafo (b) do Artigo 2.

ARTIGO 2

(a) Sem prejuízo das outras disposições deste acordo, cada um dos serviços aéreos descritos deverá entrar em execução logo que a parte contratante a quem foi concedido pelo Artigo 1 o direito de designar uma linha ou linhas aéreas para a respectiva rota tenha autorizado uma linha aérea para tal rota, e a parte contratante que concede o direito deverá, de harmonia com o Artigo 7, dar a conveniente autorização de exploração à linha ou linhas aéreas previstas; ficando entendido que a linha aérea assim designada fica obrigada a provar, perante as autoridades aeronáuticas competentes da parte contratante que concede o direito, que se encontra em condições de cumprir as leis e regulamentos normalmente aplicados por aquelas autoridades, antes de lhe ser permitido iniciar a exploração prevista neste acordo.

(b) Qualquer das partes contratantes a quem são concedidos direitos por este acordo, deverá pô-los em execução o mais cedo possível, excepto em caso de impossibilidade temporária.

ARTIGO 3

Os termos e condições de exercício dos direitos que previamente tenham sido concedidos por cada uma das partes contratantes à outra parte contratante, ou a uma linha aérea desta outra parte contratante, não serão revogados pelo presente acordo, excepto quanto aquelas disposições que, estando contidas no acordo que concede o exercício daqueles direitos, impeçam qualquer linha aérea designada no Artigo 2 de funcionar segundo o presente acordo.
ARTIGO 4

A fim de evitar práticas discriminatórias e de assegurar igualdade de tratamento, acorda-se em que:

(a) Qualquer das partes contratantes poderá impôr ou autorizar a imposição de taxas justas e razoáveis para a utilização de aeroportos públicos e de outros equipamentos sob a sua jurisdição. Cada uma das partes contratantes acorda, contudo, em que as taxas não deverão ser superiores às que seriam pagas pela utilização de tais aeroportos e equipamentos pela sua aviação nacional que efectue serviços internacionais semelhantes.

(b) Aos combustíveis, óleos lubrificantes e peças sobressalentes importados no território de uma das partes contratantes pela outra parte contratante, ou seus nacionais, e exclusivamente destinados a serem utilizados pelos aviações da outra parte contratante, será concedido pela outra parte contratante em cujo território entram estes materiais, o tratamento nacional no que se refere a pagamento de direitos aduaneiros, taxas de inspecção e outros direitos ou encargos.

(c) Os combustíveis, óleos lubrificantes, peças sobressalentes e equipamento normal e os abastecimentos existentes a bordo de aeronaves civis das linhas aéreas de uma parte contratante autorizada a explorar as rotas e serviços descritos no Anexo, serão, à chegada ou partida do território da outra parte contratante, isentos de direitos aduaneiros, taxas de inspecção ou direitos ou encargos semelhantes, mesmo quando tais coisas sejam utilizadas ou consumidas por aquelas aeronaves em vôos nesse território.

ARTIGO 5

Os certificados de navigabilidade, certificados de competência e licenças passados ou validados por uma parte contratante serão reconhecidos como válidos pela outra parte contratante, para exploração das rotas e serviços descritos no Anexo. Cada parte contratante reserva-se, todavia, o direito de recusar o reconhecimento no que respeita a vôos sôbre o seu território, dos certificados de competência e licenças passados aos seus nacionais por outro Estado.

ARTIGO 6

(a) As leis e regulamentos duma parte contratante relativos à entrada ou saída do seu território, de aeronaves que fazem o serviço aéreo internacional, ou relativos ao emprego e navegação de tais aeronaves enquanto dentro do seu território, serão aplicados às aeronaves da outra parte contratante, e deverão ser observados por estas aeronaves, à chegada, à partida e durante a permanência no território da mesma parte contratante.

(b) As leis e regulamentos de uma parte contratante relativos à entrada ou saída do seu território de passageiros, tripulação ou carga de aeronaves, tais como regulamentos referentes a entrada, saída, imigração, passaportes, alfândega e quarentena, serão observados pelos mesmos passageiros, tripulações e consignatários das mercadorias da outra parte contratante ou por quem os representar, à
chegada, partida ou durante a permanência no território da primeira parte contratante.

Artigo 7

Cada parte contratante reserva-se o direito de suspender ou revogar um certificado ou licença dada a uma linha aérea da outra parte, sempre que se verifique que a propriedade substancial e a fiscalização efectiva não pertencem a nacionais de qualquer das partes contratantes, ou no caso de falta de cumprimento por uma linha aérea das leis do Estado sobre o qual ela opera, nos termos do Artigo 6, ou ainda no de deixar de cumprir as obrigações resultantes deste acordo.

Artigo 8

Este acordo e todos os contratos dele emergentes devem ser registados na Organização Provisória Internacional da Aviação Civil.

Artigo 9

Se qualquer das partes contratantes pretender modificar as rotas ou as condições estabelecidas no Anexo a este acordo, deverão realizar-se conversas entre as autoridades competentes de ambas as partes contratantes, as quais começarão dentro de sessenta dias a partir da data do pedido de modificação.

Quando as referidas autoridades chegarem a acordo sobre novas condições ou modificações que afectem o Anexo junto, as suas recomendações sobre a matéria entrarão em vigor depois de confirmadas por troca de notas diplomáticas.

Artigo 10

Sem prejuízo do Artigo 3, qualquer das partes contratantes poderá fazer cessar este acordo ou qualquer dos direitos nele concedidos para serviços de transportes aéreos, mediante comunicação feita com um ano de antecedência à outra parte contratante.

Artigo 11

O presente acordo, incluindo as disposições do Anexo junto, entrará em vigor no dia da sua assinatura.

Feito em Lisboa, em duplicado, em Português e Inglês, tendo cada texto igual valor, aos seis dias de Dezembro de mil novecentos e quarenta e cinco.

Senhor Embaixador
Tenho a honra de acusar a recepção da Nota de Vossa Excelência desta data, comunicando-me o seguinte:

"Tenho a honra de referir-me ao Acordo de Transportes Aéreos hoje assinado entre os Estados Unidos e Portugal e de em relação

Taking due note of the communication referred to, I likewise inform Your Excellency that the “national treatment” mentioned in the Agreement which we signed today on air navigation is not to be less favorable than the treatment granted to the most-favored nation, but in a contrary case the treatment which would be most favorable would be applicable to the United States of America.

**Agreement between the United States of America, the United Kingdom of Great Britain and Northern Ireland, and Yugoslavia, respecting the provisional administration of Venezia Giulia. Signed at Belgrade June 9, 1945.**

1. The portion of the territory of Venezia Giulia west of the line on the attached map [1] which includes Trieste, the railways and roads from there to Austria via Gorizia, Caporetto, and Tarvisio, as well as Pola and anchorages on the west coast of Istria will be under the Command and control of the Supreme Allied Commander.

2. All Naval, Military and air forces west of the line on the attached map [1] will be placed under his command from the moment at which this agreement comes into force. Yugoslav forces in the area must be limited to a detachment of regular troops not exceeding 2000 of all ranks. These troops will be maintained by the Supreme Allied Commander’s administrative services. They will occupy a district selected by the Supreme Allied Commander west of the dividing line and will not be allowed access to the rest of the area.

3. Using an Allied Military Government, the Supreme Allied Commander will govern the areas west of the line on the attached map [1], Pola and such other areas on the west coast of Istria as he may deem necessary. A small Yugoslav Mission may be attached to the Headquarters of the Eighth Army as observers. Use will be made of any Yugoslav civil administration which is already set up and which in the view of the Supreme Allied Commander is working satisfactorily. The Allied Military Government will, however, be empowered to use whatever civil authorities they deem best in any particular place and to change administrative personnel at their discretion.

4. Marshal Tito will withdraw the Yugoslav regular forces now in the portion of Venezia Giulia west of the line on the attached map [1] as well as those in the town and vicinity of Pola by 08 hours GMT, June 12th, 1945. Arrangements for the retention of the Yugoslav detachment referred to in paragraph 2 will be worked out between the Supreme Allied Commander and the Yugoslav High Command.

5. Any irregular forces in this area will, according to the decision of the Supreme Allied Commander in each case, either hand in their arms to the Allied Military authorities and disband, or withdraw from the area.

6. The Yugoslav Government will return residents of the area whom they have arrested or deported with the exception of persons who possessed Yugoslav nationality in 1939, and make restitution of property they have confiscated or removed.

---

1 [A copy of this map is attached to the inside back cover of this volume.]
7. This agreement in no way prejudices or affects the ultimate disposal of the parts of Venezia Giulia west of the line. Similarly the military occupation and administration by Yugoslavia of the parts of Venezia Giulia east of the line in no way prejudices or affects the ultimate disposal of that area.

Agreement between the United States of America and Haiti respecting reciprocal customs privileges. Effected by exchange of notes signed at Port-au-Prince August 14 and 24, 1945; effective August 24, 1945.

The American Ambassador to the Haitian Secretary of State for Foreign Affairs

Embassy of the United States of America

Port-au-Prince, Haiti, August 14, 1945.

Excellency:

I have the honor to inform Your Excellency that the United States Government would view with favor an arrangement for the extension of the free importation privileges on a strict basis of reciprocity, to American Consular officers and clerks in the Mission and Consular offices, assigned to Haiti; and to Haitian Consular officers and clerks in the Mission and Consular offices, assigned to the United States.

It is proposed that, in addition to the free entry of personal baggage and effects upon arrival and upon return to their posts in the United States after visits abroad, which Haitian consular officers already enjoy, such officers and the clerks in the Mission and Consular offices, who are Haitian nationals and not engaged in any private occupation for gain, on a basis of reciprocity, would be accorded the privilege of importing free of duty articles for their personal use at any time during the period that they exercise essential government functions in the United States, on the understanding that no article, the importation of which is prohibited by the laws of the United States, should be imported by them.

The arrangement would likewise provide that American Consular officers and clerks in the Mission and Consular offices, who are nationals of the United States and not engaged in any private occupation for gain, would be accorded in Haiti the privileges as set forth above.

Accept, Excellency, the renewed assurances of my highest consideration.

AGREEMENT RELATING TO PRISONERS OF WAR AND CIVILIANS LIBERATED BY FORCES OPERATING UNDER SOVIET COMMAND AND FORCES OPERATING UNDER UNITED STATES OF AMERICA COMMAND

The Government of the United States of America on the one hand and the Government of the Union of Soviet Socialist Republics on the other hand, wishing to make arrangements for the care and repatriation of United States citizens freed by forces operating under Soviet command and for Soviet citizens freed by forces operating under United States command, have agreed as follows:—

Article 1.

Maintenance of liberated citizens.

All Soviet citizens liberated by the forces operating under United States command and all United States citizens liberated by the forces operating under Soviet command will, without delay after their liberation, be separated from enemy prisoners of war and will be maintained separately from them in camps or points of concentration until they have been handed over to the Soviet or United States authorities, as the case may be, at places agreed upon between those authorities.

United States and Soviet military authorities will respectively take the necessary measures for protection of camps, and points of concentration from enemy bombing, artillery fire, etc.

Article 2.

Repatriation representatives.

The contracting parties shall ensure that their military authorities shall without delay inform the competent authorities of the other party regarding citizens of the other contracting party found by them, and will at the same time take the necessary steps to implement the provisions of this agreement. Soviet and United States repatriation representatives will have the right of immediate access into the camps and points of concentration where their citizens are located and they will have the right to appoint the internal administration and set up the internal discipline and management in accordance with the military procedure and laws of their country.

Facilities will be given for the despatch or transfer of officers of their own nationality to camps or points of concentration where liberated members of the respective forces are located and there are insufficient officers. The outside protection of and access to and from the camps or points of concentration will be established in accordance
with the instructions of the military commander in whose zone they are located, and the military commander shall also appoint a commandant, who shall have the final responsibility for the overall administration and discipline of the camp or point concerned.

The removal of camps as well as the transfer from one camp to another of liberated citizens will be effected by agreement with the competent Soviet or United States authorities. The removal of camps and transfer of liberated citizens may, in exceptional circumstances, also be effected without preliminary agreement provided the competent authorities are immediately notified of such removal or transfer with a statement of the reasons. Hostile propaganda directed against the contracting parties or against any of the United Nations will not be permitted.

**Article 3.**

The competent United States and Soviet authorities will supply liberated citizens with adequate food, clothing, housing and medical attention both in camps or at points of concentration and en route, and with transport until they are handed over to the Soviet or United States authorities at places agreed upon between those authorities. The standards of such food, clothing, housing and medical attention shall, subject to the provisions of Article 8, be fixed on a basis for privates, non-commissioned officers and officers. The basis fixed for civilians shall as far as possible be the same as that fixed for privates. The contracting parties will not demand compensation for these or other similar services which their authorities may supply respectively to liberated citizens of the other contracting party.

**Article 4.**

Each of the contracting parties shall be at liberty to use in agreement with the other party such of its own means of transport as may be available for the repatriation of its citizens held by the other contracting party. Similarly each of the contracting parties shall be at liberty to use in agreement with the other party its own facilities for the delivery of supplies to its citizens held by the other contracting party.

**Article 5.**

Soviet and United States military authorities shall make such advances on behalf of their respective governments to liberated citizens of the other contracting party as the competent Soviet and United States authorities shall agree upon beforehand.

Advances made in currency of any enemy territory or in currency of their occupation authorities shall not be liable to compensation.

In the case of advances made in currency of liberated non-enemy territory, the Soviet and United States Governments will effect, each for advances made to their citizens necessary settlements with the Governments of the territory concerned, who will be informed of the amount of their currency paid out for this purpose.
Article 6.

Ex-prisoners of war and civilians of each of the contracting parties may, until their repatriation, be employed in the management, maintenance and administration of the camps or billets in which they are situated. They may also be employed on a voluntary basis on other work in the vicinity of their camps in furtherance of the common war effort in accordance with agreements to be reached between the competent Soviet and United States authorities. The question of payment and conditions of labour shall be determined by agreement between these authorities. It is understood that liberated members of the respective forces will be employed in accordance with military standards and procedure and under the supervision of their own officers.

Article 7.

The contracting parties shall, wherever necessary, use all practicable means to ensure the evacuation to the rear of these liberated citizens. They also undertake to use all practicable means to transport liberated citizens to places to be agreed upon where they can be handed over to the Soviet or United States authorities respectively. The handing over of these liberated citizens shall in no way be delayed or impeded by the requirements of their temporary employment.

Article 8.

The contracting parties will give the fullest possible effect to the foregoing provisions of this Agreement, subject only to the limitations in detail and from time to time of operational, supply and transport conditions in the several theatres.

Article 9.

This Agreement shall come into force on signature.

ОТНОСИТЕЛЬНО ВОЕННОПОДДЕННЫХ И ГРАЖДАНСКИХ ЛИЦ, ОСВОБОЖДЕННЫХ
ВОЙСКАМИ, НАХОДЯЩИМИСЯ ПОД СОВЕТСКИМ КОМАНДОВАНИЕМ, И ВОЙСКАМИ,
НАХОДЯЩИМИСЯ ПОД КОМАНДОВАНИЕМ СОЕДИНЕННЫХ ШТАТОВ АМЕРИКИ.

Правительство Соединенных Штатов Америки, с одной сторо-
ны, и Правительство Союза Советских Социалистических Респуб-
лик, с другой стороны, желая договориться об обращении с со-
ветскими гражданами, освобожденными войсками, находящимися
под командованием Соединенных Штатов, и об их репатриации,
а также об обращении с гражданами Соединенных Штатов, осво-
божденными войсками, находящимися под советским командова-
нием, и об их репатриации, условились о нисследующем:

Статья 1.

Все советские граждане, освобожденные войсками, действующи-
ми под командованием Соединенных Штатов, и все граждане
Соединенных Штатов, освобожденные войсками, действующими
под советским командованием, будут, незамедлительно после их осво-
бождения, отдаватьсь от вражеских военнопленных и содержать-
ся отдельно от них в лагерях или сборных пунктах до момента
передачи их соответственно советским или американскими властям
в пунктах, согласованных между этими властями.

Американские и советские военные власти примут необходи-
мые меры для защиты лагерей и сборных пунктов от вражеских
бомбардировок, артиллерийских обстрелов и т.п.

Статья 2.

Договаривающиеся Стороны обеспечат, чтобы их военные вла-
сти незамедлительно сообщили компетентным властям другой Сто-
рени об обнаруженных ими гражданах другой Договаривающейся Стороны, принимая одновременно меры для выполнения условий настоящего Соглашения. Советские и американские уполномоченные по репатриации будут немедленно допускать в сборные лагеря и пункты размещения граждан своей страны, и они будут иметь право назвать там внутреннюю администрацию и устанавливать внутренний порядок и управление в соответствии с военными порядками и законодательством их страны.

Будет предоставлена возможность для отправки или перевода офицеров соответствующей национальности в те лагеры или сборные пункты, в которых содержатся освобожденные военнослужащие соответствующих войск и где будет недоставать офицеров. Наружная охрана и охрана доступа в лагеры и сборные пункты и выхода из них будет установлена в соответствии с инструкциями военного начальника, в зоне которого расположены эти лагеря или сборные пункты, и этот военный начальник будет также назначать коменданта, который будет нести ответственность за общую администрацию и дисциплину в соответствующем лагере или сборном пункте.

Перемещение лагерей, равно как и перевод на одного лагеря в другой освобожденных граждан, будет производиться по договоренности между компетентными советскими и американскими властями. Перемещение лагерей и перевод освобожденных граждан может, в исключительных случаях, производиться и без предварительной договоренности, однако, с немедленным уведомлением компетентных властей о таком перемещении и вложением мотивов. Враждебная пропаганда, направленная против Договаривающихся Сторон или против любой из Объединенных Наций, не будет разрешаться.
Статья 3.

Компетентные американские и советские власти будут снабжать освобожденных граждан соответствующим питанием, одеждой, жилищем и медицинским обслуживанием как в лагерях или сборных пунктах, так и в пути следования, а также транспортом до момента передачи их соответственно советским или американским властям в пунктах, установленных по договоренности между этими властями. Такое обеспечение питанием, одеждой, жилищем и медицинским обслуживанием должно быть, с учетом положений статьи 8, установлено по нормам для рядовых, младшего командного состава и офицеров. Нормы обеспечения гражданских лиц должны быть, насколько это возможно, такими же, как и нормы для солдат.

Договаривающиеся Стороны не будут требовать компенсации за эти или другие аналогичные услуги, которые их власти могут предоставить освобожденным гражданам другой Договаривающейся Стороны.

Статья 4.

Каждая из Договаривающихся Сторон будет иметь право использовать, по согласованию с другой Стороной, также из ее собственных средств транспорта, которые оказываются доступными для репатриации своих граждан, содержащихся у другой Договаривающейся Стороны. То есть также каждая из Договаривающихся Сторон будет иметь право использовать, по согласованию с другой Стороной, свои собственные средства для доставки снабжения своим гражданам, содержащимся у другой Договаривающейся Стороны.

Статья 5.

Советские и американские военные власти будут выдавать
от имени их соответствующих Правительств освобожденным гра-
жданам другой договаривающейся Стороны такие ссуды, о кото-
рых компетентные советские и американские власти предвари-
тельно договорятся.

Ссуды, выданные в валюте какой-либо вражеской террито-
рии или в валюте советских или американских оккупационных
властей, не будут подлежать возмещению.

В случае выдачи ссуд в валюте освобожденной нейтральной
территории, Советское Правительство и Правительство Соеди-
ненных Штатов произведут, каждое по ссудам, выданным его гра-
жданам, необходимое урегулирование с правительствами соот-
ветствующих территорий, которые будут информированы о коли-
честве их валюты, выданной для этой цели.

Статья 6.

Бывшие военнопленные и гражданские лица каждой из Дого-
варивающихся Сторон могут, до их репатриации, быть использо-
ванны для управления и поддержания в порядке лагерей или сбор-
ных пунктов, в которых они находятся. Они также могут быть
использованы на добровольных началах, в целях содействия об"е-
диненным военным усилиям, на таких работах вблизи их ла-
герей, о которых договорятся между собой компетентные совет-
ские и американские власти. Вопросы оплаты и другие условия
труда должны определяться по согласованию между этими властями.
Понимается, что использование освобожденных членов соответ-
ствующих вооруженных сил будет осуществляться в соответствии
с военными порядками и под наблюдением своих офицеров.

Статья 7.

Договаривающиеся Стороны каждый раз, когда это будет не-
обходимо, используют все возможные средства для того, чтобы
обеспечить эвакуацию в тыл этих освобожденных граждан. Они также обязуются использовать все доступные средства для перевозки освобожденных граждан в усвоенные пункты, где они могут быть переданы соответственно советским или американским властям. Передача этих освобожденных граждан никаким образом не может быть задержана или отложена вследствие требований их временного использования.

Статья 8.
Договаривающиеся Стороны будут применять возможно более эффективно высказаные положения настоящего Соглашения, допуская при этом ограничения временного порядка и лишь в орношении деталей, которые время от времени, будут вызывать оперативной обстановкой или условиями снабжения и транспорта на различных театрах операций.

Статья 9.
Настоящее Соглашение вступает в силу немедленно по подписании.

   (a) Convoke the First Session of the General Conference.

   (b) Prepare the provisional agenda for the First Session of the General Conference and prepare documents and recommendations relating to all matters on the agenda including such matters as the possible transfer of functions, activities and assets of existing international agencies, the specific arrangements between this Organisation and the United Nations Organisation, and arrangements for the Secretariat of the Organisation and the appointment of its Director-General.

   (c) Make studies and prepare recommendations concerning the programme and the budget of the Organisation for presentation to the General Conference at its First Session.

   (d) Provide without delay for immediate action on urgent needs of educational, scientific, and cultural reconstruction in devastated countries as indicated in Paragraphs 6 and 7.

3. The Commission shall consist of one representative of each of the Governments signatory to this Instrument.

4. The Commission shall appoint an Executive Committee composed of fifteen members to be selected at the first meeting of the Commission. The Executive Committee shall exercise any or all powers of the Commission as the Commission may determine.

5. The Commission shall establish its own rules of procedure and shall appoint such other committees and consult with such specialists as may be desirable to facilitate its work.

6. The Commission shall appoint a special technical sub-committee to examine the problems relating to the educational, scientific and cultural needs of the countries devastated by the war, having regard to the information already collected and the work being done by other
international organisations, and to prepare as complete a prospectus as possible of the extent and nature of the problems for the information of the Organisation at the First Session of the Conference.

7. When the technical sub-committee is satisfied that any ameliorative measures are immediately practicable to meet any educational, scientific or cultural needs it shall report to the Commission accordingly and the Commission shall, if it approves, take steps to bring such needs to the attention of governments, organisations, and persons wishing to assist by contributing money, supplies or services in order that co-ordinated relief may be given either directly by the donors to the countries requiring aid or indirectly through existing international relief organisations.

8. The Commission shall appoint an Executive Secretary who shall exercise such powers and perform such duties as the Commission may determine, with such international staff as may be required. The staff shall be composed as far as possible of officials and specialists made available for this purpose by the participating Governments on the invitation of the Executive Secretary.

9. The provisions of Articles 104 and 105 of the Charter of the United Nations Organisation concerning the legal status of that Organisation, its privileges and immunities shall apply in the same way to this Commission.

10. The Commission shall hold its first meeting in London immediately after the conclusion of the present Conference and shall continue to sit in London until such time as the Constitution of the Organisation has come into force. The Commission shall then transfer to Paris where the permanent Organisation is to be located.

11. During such period as the Commission is in London, the expenses of its maintenance shall be met by the Government of the United Kingdom on the understanding:

   (1) that the amount of the expenses so incurred will be deducted from the contributions of that Government to the new Organisation until they have been recovered, and

   (2) that it will be open to the Commission, if circumstances so warrant, to seek contributions from other governments.

   When the Commission is transferred to Paris, the financial responsibility will pass to the French Government on the same terms.

12. The Commission shall cease to exist upon the assumption of office of the Director-General of the Organisation, at which time its property and records shall be transferred to the Organisation.

13. The Government of the United Kingdom shall be the temporary depositary and shall have custody of the original document embodying these interim arrangements in the English and French languages. The Government of the United Kingdom shall transfer the original to the Director-General on his assumption of office.

14. This Instrument shall be effective as from this date, and shall remain open for signature on behalf of the States entitled to be the original Members of the United Nations Educational, Scientific and

ARRANGEMENT PROVISOIRE
INSTITUANT UNE COMMISSION PREPARATOIRE
POUR L'ÉDUCATION, LA SCIENCE ET
LA CULTURE
Les Gouvernements représentés à la Conférence des Nations Unies pour l'Education et la Culture, à Londres,
Ayant décidé d'établir une organisation internationale portant le nom d'Organisation des Nations Unies pour l'Education, la Science et la Culture,
Ayant rédigé la Convention qui institue l'Organisation des Nations Unies pour l'Education, la Science et la Culture,
Conviennt de ce qui suit:

1. — En attendant l'entrée en vigueur de la Convention et l'établissement de l'Organisation prévue par cette Convention, il est établi une Commission Préparatoire chargée de prendre toutes dispositions pour la première session de la Conférence générale de l'Organisation et telles autres mesures qui sont indiquées ci-après:

2. — A cette fin, la Commission
   a) Convoquera la première session de la Conférence générale,
   b) Préparera l'ordre du jour provisoire de cette session et tous documents et recommandations relatifs aux questions inscrites à l'ordre du jour, y compris des questions telles que le transfert éventuel des fonctions, activités et avoirs des organisations internationales existantes, les accords particuliers à intervenir entre ladite Organisation et l'Organisation des Nations Unies et les dispositions relatives au secrétariat de l'Organisation et à la nomination de son Directeur Général.
   c) Entreprendra des études et préparera des recommandations concernant le programme et le budget de l'Organisation pour les soumettre à la Conférence générale au cours de sa première session.
   d) Prendra sans délai des mesures immédiates pour faire face aux nécessités urgentes de reconstruction, en pays dévastés, dans les domaines de l'éducation, de la science et de la culture, conformément aux dispositions des paragraphes 6 et 7.

3. — La Commission comprendra un représentant de chacun des Gouvernements signataires du présent Arrangement.

4. — La Commission nommera un Comité exécutif composé de quinze membres qui seront désignés au cours de la première séance de la Commission. Le Comité Exécutif exercera tout pouvoir que la Commission lui aura délégué.

5. — La Commission établira son règlement intérieur, nommera les comités et consultera les spécialistes susceptibles de l'aider dans sa tâche.

6. — La Commission désignera un sous-comité technique spécial chargé d'étudier les problèmes relatifs aux besoins des pays ravagés par la guerre dans les domaines de l'éducation, de la science et de la culture, en tenant compte des renseignements déjà rassemblés et des
travaux poursuivis par d'autres organisations internationales, et de préparer un exposé d'ensemble, aussi complet que possible, de l'étendue et de la nature de ces problèmes, pour le soumettre à l'Organisation au cours de la première session de la Conférence générale.

7.-Lorsque le sous-comité technique se sera assuré que des améliorations quelconques peuvent être immédiatement apportées dans les domaines de l'éducation, de la science ou de la culture, il présentera un rapport dans ce sens à la Commission; il appartiendra à la Commission, si elle le juge bon, de prendre des mesures pour attirer sur ces besoins l'attention des gouvernements, des organisations et des personnalités qui désirent contribuer à cette œuvre à l'aide de fonds, de fournitures ou de services, afin que les donateurs puissent apporter une assistance coordonnée aux pays qui en ont besoin, soit directement, soit indirectement par l'intermédiaire des organisations internationales de secours existantes.

8.-La Commission nommera un Secrétaire exécutif, celui-ci avec le personnel international nécessaire, exercera les pouvoirs et remplira les fonctions qui seront déterminés par la Commission. Le personnel sera composé, dans la mesure du possible, de fonctionnaires ou de spécialistes autorisés à cette fin par les Gouvernements des Etats Membres su l'invitation du Secrétaire exécutif.

10.-La Commission tiendra sa première séance à Londres immédiatement après la clôture de la présente Conférence et continuera de siéger à Londres jusqu'au moment où la Convention créant l'Organisation sera entrée en vigueur. La Commission sera alors transférée à Paris, où siègera l'Organisation permanente.

11.-Tant que la Commission siégera à Londres, ses frais seront couverts par le Gouvernement du Royaume-Uni, sous réserve

(1) que le montant des dépenses ainsi engagées soit déduit des contributions à verser par ce Gouvernement à la nouvelle Organisation, jusqu'à ce qu'il ait été récupéré;

(2) qu'il soit loisible à la Commission, si les circonstances le justifient, de solliciter les contributions d'autres gouvernements.

Lorsque la Commission sera transférée à Paris, ces charges financières seront supportées par le Gouvernement français aux mêmes conditions.

12.-La Commission cesserà d'exister au moment où le Directeur Général de l'Organisation entrera en fonctions; à ce moment, les biens et archives de la Commission seront transférés à l'Organisation.

En foi de quoi, les représentants soussignés, dûment autorisés à cette fin, ont signé le présent Arrangement dans les langues anglaise et française, les deux textes faisant également foi.
