(B) the institution ceases to be the owner of the facility, the United States shall be entitled to recover from the applicant or other owner of the facility an amount which bears to the then value of the facility the same ratio as the amount of such Federal funds bore to the cost of the facility financed with the aid of such funds. Such value shall be determined by agreement of the parties or by action brought in the United States district court for the district in which the facility is situated. (Pub. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 712 of this title.

§ 712. Allotment of funds.

The following percentage of the funds appropriated pursuant to section 711 of this title for a fiscal year shall be allotted among the States in the manner prescribed by section 713 of this title for use

in providing academic facilities for public community colleges and public technical institutes:

(1) In the case of fiscal years ending before July 1, 1967, 22 per centum.

(2) In the case of the fiscal year ending June 30, 1968, 23 per centum.

(3) In the case of fiscal years ending after June 30, 1968, 24 per centum.

The remainder of the funds so appropriated for any fiscal year shall be allotted among the States in the manner as prescribed in section 714 of this title for use in providing academic facilities for institutions of higher education other than public community colleges and public technical institutes. AMENDMENTS

1966—Pub. L. 89-752 provided for the allotment among the States of specific percentages of appropriated funds for the fiscal year ending June 30, 1968 and for the fiscal years ending after June 30, 1968.

§ 713. Allotments for public community colleges and technical institutes.

(a) Basis of computation; minimum amount.

The funds to be allotted for any fiscal year for use in providing academic facilities for public community colleges and public technical institutes shall be allotted among the States on the basis of the income per person and the number of high school graduates of the respective States. Such allotments shall be made as follows: The Commissioner shall allot to each State for each fiscal year an amount which bears the same ratio to the funds being allotted as the product of—

(1) the number of high school graduates of the State, and

bears to the sum of the corresponding products for all the States. The amount allotted to any State under the preceding sentence for any fiscal year which is less than \$50,000 shall be increased to \$50,000, the total of increases thereby required being derived by proportionately reducing the amount allotted to each of the remaining States under the preceding sentence, but with such adjustments as may be necessary to prevent the allotment of any such remaining States from being thereby reduced to less than \$50,000.

(b) Availability of funds.

(1) The amount of each allotment to a State under this section shall be available, in accordance with the provisions of this subchapter, for payment of the Federal share (as determined under sections 718(b)

(3) and 751(d) of this title) of the development cost of approved projects for the construction of academic facilities within such State for public community colleges and public technical institutes.

(2) Notwithstanding any other provisions of this subchapter, any portion of a State's allotment under this section for a fiscal year for which applications from an institution qualified to receive grants under this section have not been received by the State Commission by January 1 of such fiscal year, shall, if the Commission so requests, be available, in ac-

cordance with the provisions of this subchapter for payment of the Federal share (as determined under sections 718(b)(3) and 751(d) of this title) of the development cost of approved projects for the construction of academic facilities within such State for public community colleges and public technical institutes.

(c) Reallocation of unreserved funds at close of fiscal year; factors considered.

All amounts allotted under this section for any fiscal year which are not reserved as provided in section 719 of this title by the close of the fiscal year for which they are allotted, shall be reallocated by the Commissioner, on the basis of such factors as he determines to be equitable and reasonable, among the States which, as determined by the Commissioner, are able to use without delay any amounts so reallocated for the purposes set forth in subsection (b) of this section. Amounts reallocated under this subsection shall be available for reservation until the close of the fiscal year next succeeding the fiscal year for which they were originally allotted.

(As amended Pub. L. 89-329, title VII, § 702(a) (1), (2), Nov. 8, 1965, 79 Stat. 1267; Pub. L. 89-752, § 2(d), Nov. 3, 1966, 80 Stat. 1241; Pub. L. 90-575, title IV, §§ 401(a)(4), 406(a), Oct. 16, 1968, 82 Stat. 1059, 1061.)

(c) Reallocation of unreserved funds at close of fiscal year; factors considered.

All amounts allotted under this section for any fiscal year which are not reserved as provided in section 719 of this title by the close of the fiscal year for which they are allotted, shall be reallocated by the Commissioner, on the basis of such factors as he determines to be equitable and reasonable, among the States which, as determined by the Commissioner, are able to use without delay any amounts so reallocated for the purposes set forth in subsection

(b) of this section. Amounts reallocated under this subsection shall be available for reservation until the close of the fiscal year next succeeding the fiscal year for which they were originally allotted. (As amended Pub. L. 89-329, title VII, § 702(b) (1), (2), Nov. 8, 1965, 79 Stat. 1267; Pub. L. 89-752, § 2(d), Nov. 3, 1966, 80 Stat. 1241; Pub. § 716. Eligibility of institutions for grants; expansion of student enrollment capacity.

An institution of higher education shall be eligible for a grant for construction of an academic facility under this subchapter only if such construction will, either alone or together with other construction to be undertaken within a reasonable time, (1) result in an urgently needed substantial expansion of the institution's student enrollment capacity, capacity to provide needed health care to students or personnel of the institution, or capacity to carry out

extension and continuing education programs on the campus of such institution, or (2) in the case of a new institution of higher education, result in creating urgently needed enrollment capacity, capacity to provide needed health care to students or personnel of the institution, or capacity to carry out extension and continuing education programs on the campus of such institution. If the Commissioner finds that the student enrollment capacity of an institution would decrease if an urgently needed academic facility is not constructed, construction of such a facility may be considered, for the purposes of this section, to result in expansion of the institution's student enrollment capacity. (As amended Pub. L. 89-329, title VII, § 701(a), Nov. 8, 1965, 79 Stat. 1266; Pub. L. 90-575, title IV, § 402(a)(1), (b)(1), Oct. 16, 1968, 82 Stat. 1059, 1060.)

AMENDMENTS

L. 90-575, § 402(b)(1), added the provision that if the Commissioner finds that the student enrollment capacity of an institution would decrease if an urgently needed academic facility is not constructed, construction of such a facility may be considered, for the purposes of this section, to result in expansion of the institution's student enrollment capacity.

Cls. (1), (2). Pub. L. 90-575, § 402(a)(1), added "capacity to provide needed health care to students or personnel of the institution," following "enrollment capacity" where appearing.

1965—Pub. L. 89-329 omitted provisions which made institutions of higher education other than public community colleges or public technical institutes eligible for a grant only if the construction is limited to structures, or portions thereof, especially designed for instruction or research in the natural or physical sciences, mathematics, modern foreign languages, or engineering, or for use as a library, and inserted "or capacity to carry out extension and continuing education programs on the campus of such institution" in cls. (1) and (2).

EFFECTIVE DATE OF 1968 AMENDMENT

Section 402(a) of Pub. L. 90-575 provided in part that the amendments to cls. (1) and (2) of this section by section 402(a)(1) of Pub. L. 90-575 shall be effective with respect to fiscal years ending on or after June 30, 1969.

Section 402(b)(2) of Pub. L. 90-575 provided that: "The amendment made by paragraph (1) of this subsection [construing construction of academic facilities as expanding the institution's student enrollment capacity] shall be effective only with respect to grants made from appropriations for fiscal years beginning after June 30, 1969."

§ 717. Basic criteria for determining priorities and Federal share.

(a) As soon as practicable after December 16, 1963, the Commissioner shall by regulation prescribe basic criteria to which the provisions of State plans setting forth standards and methods for determining relative priorities of eligible construction projects, and the application of such standards and methods to such projects under such plans shall be subject. Such basic criteria (1) shall be such as will best tend to achieve the objectives of this subchapter while leaving opportunity and flexibility for the development of State plan standards and methods that will best accommodate the varied needs of institutions in the several States, (2) shall give special consideration to expansion of undergraduate enrollment capacity, and (3) shall give consideration to expansion of capacity to provide needed health care to students and institutional personnel. Subject to the foregoing requirements, such

regulations may establish additional and appropriate basic criteria, including provision for considering the degree to which applicant institutions are effectively utilizing existing facilities, provision for allowing State plans to group or provide for grouping, in a reasonable manner, facilities or institutions according to functional or educational type for priority purposes, and, in view of the national objectives of this chapter, provision for considering the degree to which the institution serves students from two or more States or from outside the United States; and in no event shall an institution's readiness to admit such out-of-State students be considered as a priority factor adverse to such institution.

(b) The Commissioner shall further prescribe by regulation the basic criteria for determining the Federal share of the development cost of any eligible project under this subchapter within a State other than a project for a public community college or public technical institute, to which criteria the applicable standards and methods set forth in the State plan for such State shall conform in the absence of a uniform statewide Federal share specified in or pursuant to such plan. In the case of a project for an institution of higher education, the Federal share shall in no event exceed 50 per centum of its development cost; and in the case of a project for a public community college or public technical institute, the Federal share shall in no event exceed 50 per centum of its development cost.

(c) as (b).

Subsec. (c). Pub. L. 89-752 redesignated former subsec. (c) as (b).

§ 745. Revolving Loan Fund.

(a) Creation; limitation on loans; budget.

There is hereby created within the Treasury a separate fund for higher education academic facilities loans (hereafter in this section called "the

fund") which shall be available to the Commissioner without fiscal year limitation as a revolving fund for the purposes of this subchapter. The total of any loans made from the fund in any fiscal year shall not exceed limitations specified in appropriation Acts. A business-type budget for the fund shall be prepared, transmitted to the Congress, considered, and enacted in the manner prescribed by law (sections 847-849 of Title 31) for wholly owned Government corporations.

(b) Operation of fund; sale of assets, beneficial interests, and participations in assets of the fund; interest.

(1) The Commissioner, when authorized by an appropriation Act, may transfer to the fund available appropriations provided under section 743(c) of this title to provide capital for the fund. All amounts received by the Commissioner as interest payments or repayments of principal on loans, and any other moneys, property, or assets derived by him from his operations in connection with this subchapter, including any moneys derived directly or indirectly from the sale of assets, or beneficial interests or participations in assets, of the fund, shall be deposited in the fund.

(2) All loans, expenses, and payments pursuant to operations of the Commissioner under this subchapter shall be paid from the fund, including (but not limited to) expenses and payments of the Commissioner in connection with sale, under section 1717(c) of Title 12, of participations in obligations acquired under this subchapter. From time to time, and at least at the close of each fiscal year, the Commissioner shall pay from the fund into the Treasury as miscellaneous receipts interest on the cumulative amount of appropriations paid out for loans under the subchapter or available as capital to the fund, less the average undisbursed cash balance in the fund during the year. The rate of such interest shall be determined by the Secretary of the Treasury, taking into consideration the average market yield during the month preceding each fiscal year on outstanding Treasury obligations of maturity comparable to the average maturity of loans made from the fund. Interest payments may be deferred with the approval of the Secretary of the Treasury, but any interest payments so deferred shall themselves bear interest. If at any time the Commissioner determines that moneys in the fund exceed the present and any reasonably prospective future requirements of the fund, such excess may be transferred to the general fund of the Treasury. (Pub. L. 88-204, title III, § 305, as added Pub. L. 89-429, § 4(b), May 24, 1966, 80 Stat. 166.)

Annual interest grants to an institution of higher education or higher education building agency with respect to any academic facility shall be made over a fixed period not exceeding forty years, and provision for such grants shall be embodied in a contract guaranteeing their payment over such period. Each such grant shall be in an amount not greater than the difference between (1) the average annual debt service which would be required to be paid, during the life of the loan, on the amount borrowed from other sources for the construction of such facilities, and (2) the average annual debt service which the institution would have been required to pay, during the life of the loan, with respect to such amounts if the applicable interest rate were the maximum rate specified in section 743(b) of this title: *Provided*, That the amount on which such grant is based shall be approved by the Secretary.

(d) Maximum amount of funds usable in one State.

Not more than 12½ per centum of the funds provided for in this section for grants may be used within any one State.

(2) In determining the development cost with respect to an academic facility, the Commissioner may include expenditures for works of art for the facility of not to exceed 1 per centum of the total cost (including such expenditures) to the applicant of construction of, and land acquisition and site improvements for, such facility.

(2) the institution is exercising due diligence in availing itself of State and other financial assistance available for the restoration or replacement of the facilities; and

(3) the institution does not have sufficient funds available to it from other sources, including the proceeds of insurance on the facilities, to provide for the restoration or replacement of the academic facilities so destroyed or seriously damaged,

the Commissioner may provide the additional assistance necessary to enable the institution to carry out construction necessary to restore or replace the facilities, upon such terms and in such amounts (subject to the provisions of this section), but not to exceed one-half of the costs of such restoration or replacement, as the Commissioner may consider to be in the public interest; but such additional assistance, plus the amount which he determines to be available to the institution from other sources, including the proceeds of insurance on the facilities may not exceed the cost of construction incident to the restoration or replacement of the academic facilities destroyed or seriously damaged as a result of the disaster.

(b) Assistance to replace or lease equipment, maintenance supplies, and instructional supplies.

In addition to and apart from the assistance provided to a public institution of higher education under subsection (a) of this section, the Commissioner may provide funds to such institution in an amount which he considers necessary to replace equipment, maintenance supplies, and instructional supplies (including books, and curricular and program materials) destroyed or seriously damaged as

a result of the disaster, or to lease or otherwise provide (other than by acquisition of land or construction of academic facilities) such facilities needed to replace temporarily those academic facilities which have been made unavailable as a result of the disaster, or both.

(c) Advancements of assistance.

In any case deemed appropriate by the Commissioner, disaster assistance provided under subsection (a) or (b) of this section may be in the form of a repayable advance subject to such terms and conditions as he considers to be in the public interest.

(d) Authorization of appropriations.

There are hereby authorized to be appropriated for each fiscal year such amounts as may be necessary to carry out the provisions of this section.

(e) Filing of application for assistance; approval of application; consultation with State commission.

No payment may be made to a public institution of higher education for academic facilities under subsection (a) of this section or for assistance under subsection (b) of this section unless an application therefor is submitted through the appropriate State commission and is filed with the Commissioner in accordance with regulations prescribed by him. In determining the order in which such applications shall be approved, the Commissioner shall consider the relative educational and financial needs of the institutions which have submitted approvable applications. No payment may be made under subsection (a) of this section unless the Commissioner finds, after consultation with the State commission, that the project or projects with respect to which it is made are not inconsistent with overall State plans, submitted under section 715(a) of this title, for the construction of academic facilities. All determinations made by the Commissioner under this section shall be made only after consultation with the appropriate State commission.

(f) Payment of assistance; return of unexpended funds.

Amounts paid by the Commissioner to a public institution of higher education under subsection (a) or (b) of this section may be paid in advance or by way of reimbursement and in such installments as the Commissioner may determine. Any funds paid to an institution which are not expended or otherwise used for the purposes for which paid shall be repaid to the Treasury of the United States.
