Great Britain to Protect Shipping on the High Seas

Predict Decline Gold Import To United States

(By The Associated Press)
 WASHINGTON, D. C., Nov. 23. —Administration banking authorities predicted a steady decline in future gold imports, but announced they were considering reducing the excess bank reserves, which have now swollen to abnormal proportions by the sustained flight of foreign money to the United States, because of the desire by the United States to prevent a runaway expansion of credit.

Great Britain Protect Shipping On High Seas

(By The Associated Press)
 LONDON, Nov. 23. — Great Britain will protect her shipping on the high seas from either the Spanish government or insurgents, Foreign Secretary Anthony Eden told the House of Commons this morning.

The emphatic pronouncement also said that the government would introduce a bill making it illegal to carry arms to Spain in British ships.

It seems that there are two essential conditions to a modern state. First, it must have a strong and compact political organization—one where there is good communication between "its head and tail," coordination and close junction between its limbs and body. Second, it must be an organization which is strong and sound both within and without. It must have healthy blood circulation in the shape of taxes, also well developed muscles. The more taxes that are collected, the more successful the organization will be.

"IT" ORIGINATOR DOESN'T KEEP IN TOUCH ANYMORE

(By The Associated Press)
 ".It"—that rare gift of the Gods! . . . To have 'it', the fortunate possessor must have that strange magnetism which attracts both sexes. He or she must be entirely unselfconscious and full of self-confidence, indifferent to the effect he or she is producing, and uninfluenced by others. There

REBEL AIR RAIDERS DROPPED BOMBS ON MINISTRY WAR BLDG

(By The Associated Press)
 MADRID, Nov. 23. — Insurgent air raiders dropped several bombs early today on ministry of war building in the heart of the city. One of them fell in the patio of the building which is the headquarters for the emergency defense council, and several others fell in the central district, in a renewal of air assaults which were suspended for the past three days.

Charges that two unnamed foreign submarines attacked the government warships Cervantes and Mendez Munea, in Cartagena harbor yesterday morning, were made by the ministry of air and navy in Valencia. The report declared that the Cervantes was damaged—"at least two of several submarines certainly must have belonged to a foreign fleet."

Flood Waters In Brit. Columbia Have Receded

(By The Associated Press)
 PRINCE RUPERT, Nov. 23. —Rapidly receding waters of the Skeena River near here, raised hopes today that flood conditions in northern British Columbia are nearing normal.

The Canadian National Railroad expected to resume services between here and Alberta some time today. The bridge at Salvus was reported washed out, about 65 miles east of here.

SMILES

Kept His Word, Anyhow
 Mrs. Pester—"Well, you married me after boasting that you wouldn't marry the best woman in the world."
 Her Husband—"And I didn't. I know lots of better ones."
Armor Smith—Sire, I have come to collect for that last suit of armor.
 Duke of Durham—Odds Bod.

Army Men Will Get Schooling General School

(By The Associated Press)
 WASHINGTON, D. C., Nov. 23. —The War Department today announced that Captain Lawrence Castner in charge of the infantry at Chilkoot Barracks and Captain Dale Mason of the Signal Corps at Anchorage, had been selected as students for schooling at the General Staff Command School at Fort Leavenworth, for the 1937-38 course.

How to prevent tuberculosis is a part of the campaign financed by the annual sale of Christmas Seals.

Kins, knave! How did you get across the moat and into my castle?
 Amor Smith—"Twas easy sire. I caught the gate guard with his bridges down."
Poet—Are you the man who cut my hair last time?
 Barber—I don't think so sir. I've only been here six months.

Gyn, who made "it" a household word, isn't interested in it any more.

She has lost touch with modern youth, she says—and after eight years' absence from America, she has almost forgotten what "it" is all about.

The "flaming youth" she made famous seemingly is giving way to sensibility, she said, but "it" will take time.

Sitting on a 200-year-old chair in her ornate, gold decorated living room.

One Dead Many Hurt & Missing Slides in Juneau

(By The Associated Press)
 JUNEAU, Nov. 23.—One woman dead, seven persons known to be missing and nine others in the hospital with injuries as a result of two destructive avalanches which roared down the mountain side here yesterday and buried apartments and stores under tons of mud.

The dead woman is Mrs. Gus Erickson whose body was found crushed behind the stove of her frame home; her husband is in the hospital, crushed and injured internally.

The injured are Mrs. William Lott, negress, who was found partly crushed by the piano in her demolished house.

Alfred Bates had his side pierced with a board.

August Maki, suffered a broken ankle.

Mrs. H. Lee, negress, suffered a broken leg.

Mr. and Mrs. Albert Perrson and their children, were bruised and shocked.

Gail Allen of the Cutter Tallapoosa, was also bruised and shocked.

At an earlier hour Fire Chief V. W. Mulvihill placed the missing at from five to twenty-five.

When the big slide struck, citizens, army men and firemen rushed to the scene immediately and set about the task of removing the oozing mud and broken timbers and jagged rocks which engulfed two apartment houses, a lodging house, the Peterson Store and several small frame houses.

The heavy rains ceased during the night—the power lines having been wiped out, fire trucks and automobiles trained their headlights on the slide while will ing workers delved into the debris.

The second slide was the worst, cutting a one hundred foot swath through the district in the vicinity of Gastineau Avenue and Ewing Street. The cut ranged from ten to forty feet deep and stopped just short of the Juneau Cold Storage Warehouse.

In every city there seems to be people who think they know it all, who can tell you with a knowing wink just what should be done for the betterment of the Home city and how the other fellows should spend their time and money. The only thing they are free with is advice.

HOPE DWINDLING CHARTER VESSELS ALASKA SERVICE

(By The Associated Press)
 SAN FRANCISCO, Nov. 23. — Hope dwindled today for the emergency operation of vessels to relieve possible distress in Alaska.

The Pacific Coast committee for the shipowners announced that Col. Ohlson of the Alaska Railroad was refused union personnel to man ships so long as they were operated by firms represented on the coast. The committee said the apparent alternative remaining is that the government could charter vessels and hire crews under the name of the government.

Union heads have not yet answered Ohlson's request for their attitude toward the latter proposition.

Commission To Set Substitute Mail Contracts

(By The Associated Press)
 WASHINGTON, D. C., Nov. 23. —The Maritime Commission is moving rapidly to operate the new administrative machinery to substitute the multi-million dollar ship subsidy program, for the present system of mail contracts, worth about thirty-three million dollars annually, which must terminate by June 30th, 1937.

The substitute subsidies funds will be taken from a hundred million dollar fund for such changes.

Newspaper advertising will develop new business for you.

Colonel Ohlson indicated he might go to Seattle to seek vessels for charter.

The committee statement said that Ohlson had advised them that the government had offered to employ members of the maritime unions to man ships, under the same conditions prevailing at the time the strike was called, also a further agreement on the part of the government to give the crews retroactive benefits in the event of any future agreement, but the unions declined.

"He also advised the committee that the unions had refused to man any vessels owned and operated by steamship lines represented by the committee", the statement read.

Under these circumstances, the committee indicated, it was impossible for the committee to take any action.

In Very Serious Condition After Jump Into Lake

(By The Associated Press)
 SEATTLE, Nov. 23. — Mrs. Helen Clarkson, 24, in a hospital here, still remains in a serious condition today.

She leaped from the Aurora Bridge into Lake Union Saturday night.

NATIONAL GRANGE HAS 13 POINT PROGRAM NEXT YEAR

(By The Associated Press)
 COLUMBUS, Ohio, Nov. 23. — The National Grange today announced a thirteen point platform for next year, including sound farmer controlled soil conservation programs, federal crop insurance, a tariff designed to safeguard American markets, a sound currency, continued aid for agricultural extension, cooperative rural credit systems, a rural rehabilitation program, cheap transportation system, extension of rural electrification, taxation of all incomes, support of buying and selling cooperatives, nationalization of the munitions industry, efficiency and economy in government.

The platform represents the opinions of the delegates to the convention which was held here during the past week, and which adjourned Sunday.
