

BRINKLEY'S DISASTER.

The fearful catastrophe at Brinkley Monday night cast a shadow over our city and brought forth many evidences of sorrow and sympathy for our calamity-stricken sister city...

Within a few minutes after Fire Chief McDaniel sounded the call for the volunteer firemen, every member of the company had reported and were under orders and awaiting transportation to the stricken city...

In addition to those named above, nearly every physician in town went to the scene Tuesday and gave all the aid they could in caring for the injured.

When the first news of the disaster reached here, it was feared that the fire fiend would add its horrors to the already fearful wreck and ruin.

On account of the entire fire apparatus at Brinkley being destroyed or buried underneath the debris, the authorities there requested Chief McDaniel to leave the hose and reels that were carried over Monday night, which was done.

The relief party began returning to Forrest City Tuesday morning on the 4 o'clock train, bringing the first news of the disaster. After that every train on the Rock Island has been crowded with a capacity load of passengers to and from the scene of the disaster.

Tuesday morning's 10:30 train brought in the first six bodies taken from the wreckage, they being brought here to be embalmed and prepared for burial in the undertaking parlors of A. L. Stevens & Co.

Tuesday morning's train carried a supply of bread and other food stuffs to the stricken town and that afternoon Cashier Eugene Williams, of the Bank of Forrest City circulated a subscription list, and in a couple of hours had raised something over \$300 or the relief fund.

Forrest City Lodge I. O. O. F. No. 329 held a called meeting Wednesday morning, and passed the following resolution unanimously, the money forwarded and a committee of ten appointed by T. D. Carr, Noble Grand, who immediately left for Brinkley.

We, the undersigned committee appointed to draft suitable resolutions expressive of our feelings respecting the sufferers by the cyclone that

Music Lessons Free

The only way to teach music thoroughly is to be systematic about it. There is a place to teach EVERYTHING and everything should be taught in this place.

How many music teachers, do you suppose, plan an entire course of study for each pupil, then teach each point just where it should be taught and stick to it until it is learned, before taking up something new? Not one in five hundred.

We not only do that, but we study out the simplest and easiest ways to get all these things before the minds of our very young pupils in the shortest possible time. The more studying WE do for our pupils, the less they have to do.

In short, we make the teaching of music a science, and years of experience with thousands of pupils, have proven that by our method we can teach more music in less time and do it better than by any other method.

We are now organizing our 1909 classes for pupils who wish to come to Nashville to study as well as for those who wish to study at home—whether in City, Town or Country. Our country pupils get exactly the same course of instruction as those who come here.
