**ARKANSAS STATE
BOARD OF HEALTH**

Little Rock, Ark. July 7 '21.
Mr. W. W. Raney,
Local Registrar,
McCrory, Ark.

Dear Sir:-

Herewith we are handing you two placards, which we hope will be of great help to you in birth and death registration. Please post these where they will be seen and read by the greatest number of people. If you feel that you can use one or two more to advantage, we will be glad to furnish them.

In this connection we desire to impress upon you that the Bureau has been lenient in the matter of violations of the Vital Statistics Law up to now, hoping to secure full cooperation from the people by education to the value of the law. However, it is felt that prosecutions of willful violators will bring 100% registration, and you are instructed to advise us the name or names and addresses of parties failing to comply, and also the circumstances, so that we may advise you what steps to take.

Thirty-four states have already entered the National Registration Area on death registration and twenty-two on birth registration, besides the District of Columbia, and the time has come to remove Arkansas from the list of "Fourteen Backward States" that have not yet become sufficiently progressive to fulfill the requirements of an adequate Vital Statistic Law.

It is the desire of the Bureau to aid its Registrars in every way possible, and we ask that you call on us at any time you feel you need help.

Yours very truly,

BUREAU OF VITAL STATISTICS.

**FORD PLANT BUILDS
108,962 IN JUNE**

**Demand Exceeds Output As
Ford Breaks All Previous
Records.**

During the month of June, the Ford Motor Company, through its Detroit Factories and 22 Assembly Plants throughout the country reached the production of 108,962 Ford Cars and trucks, setting up a new high record for one month.

Production of Ford cars and trucks has been steadily increasing since early spring, and shows substantial gains over the same period last year. The second quarter of 1921, viz., April, May and June, shows an output of 301,796 Ford Cars and trucks against 220,878 for the same three months of last year, or a net increase of 80,198.

Despite the fact, however, that the Ford Plants have been running at maximum capacity, the demand for Ford cars and trucks is not being met, and at the present time, many thousand unfilled orders have been piled up ahead so that Ford sales are still limited by manufacturing facilities rather than marketing possibilities. Particularly is this true with respect to enclosed cars, for which the demand has been unusually heavy.

One reason cited by Ford Officials for the unprecedented demand for Ford cars is the present tendency toward economy. Many of those whose names have been added to the long list of buyers might well have afforded larger and more costly cars than the Ford, but it is the belief that most prospective motor car buyers are investigating all of the costs incident to motoring much more carefully than at any period during the past five years.

The estimated output of the Ford Factories for July calls for 109,000 cars and trucks, or a production of 4,360 a day for 25 days. Since the assembling of cars is being handled during an eight hour work day only, the hourly output will be 545 cars. In other words, one Ford car or truck leaves the assembly line every 6 1/2 seconds. Adv.

SMART BABIES HUNGRY.

Dr. Eugene Rosamond of Memphis read a paper before the Southern Medical association with the following conclusions: (1) Habitual crying in breast-fed babies at a particular time each day—usually late afternoon and at night—is a symptom of hunger. (2) The preternaturally smart, wide-awake baby is hungry. (3) Three-months colic is primarily hunger. Starvation, indigestion and milk imbalance, due to the mother's worry, may cause true colic to supervene, but these right themselves if the baby's cries are hushed. (4) Supplemental and complementary feeding is the remedy. (5) Complementary feeding should be given only with a cup and spoon.

MODEST.

Mr. Wiggum (to servant girl)—
Is my wife going out, Annie?
Anna—Yes, she is.
Mr. Wiggum—You haven't heard whether I'm to go along?

LINER USED AS HOTEL.

Visitors to Liverpool recently, owing to lack of hotel accommodations, were housed in one of the big transatlantic liners lying in dock.

SHOULD DIVIDE TASKS.

Jud Tunkins says it doesn't seem sensible for a man to keep so busy mowing the lawn that he can't get time to shave himself.

Mr. and Mrs. Hugh Smith and children of Memphis are the pleasant guests of Mr. and Mrs. Ed Wood.

Mr. and Mrs. C. T. Willis and baby, Helen Kyle, left last week for a month's visit to relatives in Munford, Tenn.

Mr. Jack Dixon is now handling fresh baked bread, pies cakes and rolls made by the Home Bakery, at Augusta. These are delivered daily and you get them while they are hot and fresh from the oven. HOME BAKERY, Augusta, Ark. Adv. 7-1-4tc.

Fordson

For Every Field Use

\$625
F.O.B. Detroit

Pumps Water

Fills Silos

Grinds Feed

Runs Washing Machines

Does Every Power Job

You can plow, disk, harrow, harvest, thresh, bale hay, grind feed, fill the silo, saw wood, pump water, pull stumps, do road work or any other power job around the farm quicker, easier and at less cost to you with the Fordson Tractor.

Twenty-four hours each day, every working day in the year it will give maximum service. Light but powerful it gets from job to job quickly. Easy to operate and control—efficient, economical and above

all DEPENDABLE.

Get in the power-farming frame of mind now. Call, phone or drop us a card for facts. See the Fordson in practical operation.
