Wednesday, Sept. 23

at 9:30 o'clock. Everybody be sure to come.

W. H. NORWOOD

SUPT. WATERS TO THE PARENTS

Not many days now before we shall begin the work of another year, and as we shall have to labor under many disadvantages for some months, we are very anxious that every mother and father who has a child in school do all in his power to help in making the first few months as good as can be, and you can do this by talking to your child, urging him not to be in and about the building now under construction, and that they must listen to me in all matters that come up, and such other matters as you may feel ought to be said. Of course we shall have to require that every pupil shall stay away from the new building, stay from the grounds at certain times, and many other things that have not been required before, but nothing shall be done that does not look toward the care of the children under us. They have done so nicely in the past that all will gladly obey whatever is asked of them, and while many seem to think that there is much danger in having children on the ground, I have the confidence in all of my pupils to believe that they will do in the future as they have done in the past, and if they do we shall have no trouble and everything will move on nicely and the work pleasant to all.

Let me ask one thing of all who send to the public school. Believe that the teachers whom you have to teach in the grades and have charge of your school are trying to do the right thing, and if they should do something that does not seem right to you, do not talk about them to your neighbors and friends, but come straight to the teacher with an earnest desire to help us to the right and all of us will be benefited. Remember that none of you are free from mistakes in the control of your own children where you have only a few with few complications, and we have many with many complications, and certainly no one would be so unreasonable as to require that we as teachers shall be above making mistakes handling so many children with so many dispositions. When we make a mistake or do some things that you think are wrong, we are not vicious in it, but like yourself we are trying to find out the child and to bring out the best that is in him. We love these children under us next to the parent, and then do you think that any of us would take a delight in doing things that have not the welfare of the children in view? We are anxious to have the teacher and the parent more closely drawn together, and to this end we ask that you visit the school, get in touch with school life, get in sympathy with our plans, see to what purpose we are giving our lives, and this will mark the greatest year in the history of the school. May I not have you to whom these children belong join me in this?

Examinations to be given Thursday and Friday, Sept. 24 and 25. Let all who failed in May be ready at that time. I am glad to know that many are ready now and I hope that you may make your grade and go on.

Respectfully,
S. S. WATERS.

Fine Potatoes.

J. M. Seay of R. F. D. No. 2 brought to this office this morning some of the finest sweet potatoes we have seen. Mr. Seay has a large quantity of these potatoes for sale.

Unveiling Called Off.

The unveiling of the monument Gov. F. N. Bruce at Morrilton, tomorrow has been called off by request of the deceased's wife.

F. M. MORGAN.

Think of It!

Think of what an effect it would have on the commercial and financial status of Southern Institutions if Southern people would resolve among themselves to patronize Southern Industry. Why send money to the East for Life Insurance? Why encourage graft and greed?

The Southern Life Has Four Good Things

- 1st—Low Rates.
- 2nd—Guaranteed Annual Dividends.
- 3rd—A Guarantee from the State Insurance Commissioner.
- 4th—A Total Disability Benefit.

Take a policy in this safe conservative Southern Company and help build up the South. Agents wanted

Central's Primary Department.

In the early part of the summer arrangements were made for securing a trained kindergarten teacher for the College, but we were disappointed at the last moment. We have an idea that the College ought to keep abreast of the times, if it asks the parents to send their children there. We have therefore perfected plans whereby regular courses in kindergarten, manual training, school drawing and reading under the regular expression teacher, will be installed this year.

This means work under specially trained teachers of primary work, art, expression and music. We hope enough parents will appreciate the advantages offered to justify us in the expense.

W. W. RIVERS.

New Moving Picture Machine.

W. N. Owen of the Electric Theatre has just installed a new moving picture machine. The machine is the latest model and the pictures reproduced by it are much clearer than the old machine. It is so adjusted that the light is projected through each picture on the film just twice the length of time as on the machine formerly used.

Laundry Business Growing.

That Conway would rather patronize a home institution than a foreign one will be readily shown by the increase in business of the Conway Steam Laundry. The laundry does first-class work, being much better than some turned out by the "large city" laundries.

Court Allows Claims.

County Court was in session a short time this morning. The allowance of a few miscellaneous claims was the only business transacted.

Boarders Wanted!

The Erwin House opens up today under new management at \$2.50 per week. Fare the best the market affords. Rooms the best in town. See me at once. House will be full by Tuesday. I mean business. No middle men in this deal. See me at Favre, Herbert & Erwin's furniture store.

JOHN A. ERWIN

Look into this Real Estate Offer

The entire property of Joe Nixon situated on the main business street directly across the street from the Farmers Union warehouse. These lots measure 340 feet on Front street, one good 6-room house, good outbuildings, two good wells, first class barn, all improvements in first class condition—all of which can be bought for \$1750. COME SEE US.

Durham & Holman

PAINT is the cheapest thing in the world for its Real Value. It costs less than one-tenth as much to paint a house as it does to build one and will make it last ten times as long. Get True-Tagg Paint from **Nelson Drug Co.** It won't come off

Pay Cash for Meat and Save Money!

On October 1 we will begin selling on a strictly cash basis. Nothing will be charged to anybody. Those who do not wish to pay for each purchase may buy coupon books good for \$3 or \$5 in meat, and a discount of ten per cent will be made, making the books cost \$2.70 and \$4.50. Unused portions of these books will be redeemed in cash.

The credit system has proved a failure and is just as bad for the consumer as for the dealer. By selling strictly for cash we expect to be able to furnish better goods and to save money for our customers. We hope this action will meet the approval of our customers and we assure them that everybody will be treated exactly alike, no exceptions being made to this rule. dtf
