

Cal & Miscellaneous.

[From Saturday's Daily.]

REMAINS.—The remains of Captain Sawyer, 5th Cavalry, who died at Date Creek about 18 months since, are returned to Fort Whipple, Ariz., and taken to Fort Whipple, Ariz., to be interred with appropriate honors.

Small is still confined to his bed and is getting better.

Goodale and Lieuts Thomas and returned to Fort Whipple last night, where they had been in attendance at a general court-martial.

After, of Kirkland Valley, is here, says that the owners of the Victoria have agreed to give Dr James one-fourth interest in said land, which he has expended \$1,000 in sinking on the same, which he is now preparing to do.

Mr Flanders wishes us to say that the death of his partner, his Prescott will be short.

Poland, of Big Bug, was here yesterday, informed us that some 20 men were there, in quartz and placer claims, and left. All were pleased with their prospects.

WATER WORKS.—Yesterday the water was worked well, supply houses surrounding with a bounteous supply of water, but owing to a defect in one of the valves, the power to force the water into the reservoir on the hill. This slight defect will be remedied at once, and it is expected that it will be in perfect working order Monday next.

NOTICES.—Prospectors are now active, locating quartz claims. No less than five were called at our office yesterday, to purchase claim notices, copies of congressional mining law, etc., etc.

SALE.—Fred. M. Williams, of this place, just sold Hugh McCrum, of San Juan, 100 feet in first southern extension of Eagle lode, in Bradshaw mountains, for a sum of \$2,000.

Lambertson, of Walnut Grove, sent up, yesterday, several wagons laden with eggs, and other produce. The meal retails at 5 cents per pound, at least that is what we purchased some for.

Yesterday's telegrams informed our readers that Capt Pike and "Billy Free," have made some grand discoveries, Free, of rock, near the old Tachapet mines; Pike, of a veritable crater, with sulphur, and other ingredients.

A small party of miners from Pioche, Nev., left Prescott for the San Juan country, about today.

Anniversary of Washington's birth, on the 22d inst., when dancing, may occur here and at Fort Whipple.

[From Monday's Daily.]

M. Bryan arrived here from Wickenburg this morning's backboard and informs us that his brother George was killed by a bear. He says that he and Nelson never had trouble about the bear, but that they had not spoken about it for 18 months. He is satisfied that Nelson tried to assassinate his brother and himself, and that the proof against Nelson is clear.

After leaving Mr Bryan's presence, forenoon, we met Nelson, escorted by Sheriff Herbert, and Under-Sheriff Wilkerson, in the direction of Judge Fleury's camp, arriving there Nelson waived examination and was taken back to jail, to await trial. Public feeling here elsewhere is decidedly against the accused.

JEFF.—"Jeff" Davis got in yesterday from the mining camp on the aforesaid lode, which camp is distant from Prescott at 45 miles, in the southern foothills of Bradshaw mountains. While there he learned that the several companies engaged in searching the gold rock of that vicinity were not paying their way. One company they had just cleaned up \$100 to the Geo Monroe was doing first-rate. Jeff says the ledges are rich and numerous, but very thick.

California and Eastern Nevada people who come here and fitted up for a cruise to the San Juan country were surprised at the immense stocks of goods in the stores of our merchants, and expressed themselves with surprise at the prices of everything here. They wanted us to advise other immigrants to this way, it being the best and cheapest way of reaching the new Dorado.

Mr George Jackson, of Walnut Grove, was here Saturday last, and said that the recent flood in the creek down him a great favor, by opening a new channel, out of which he can draw nearly all the water in the creek he needed to irrigate his farm.

John White and S. Ball, having heard nothing concerning the movements of Nelson, started for Peoples valley, intending to lead him off and deliver him to J. M. Bryan, who they thought was in here a little while ago.

L. Alters and George Lount started this morning for their placer diggings near the Hassayampa, out of which they expect to make a great deal of gold dust.

Atlan Lodge, F. & A. M., held a called meeting on last Saturday evening, for the purpose of conferring the third degree on a worthy brother.

There is yet remaining on the north hills, around the heads of Big Bug, Lynx, Turkey and Hassayampa creeks, from 15 to 20 feet of snow.

L. A. Stevens continues to supply the market with fresh mutton, butter, milk, &c.

He today informed us that he has already planted considerable barley.

George Lount, contractor for erecting new county buildings, has done for the foundation and some of the brick for the walls already on the ground.

The "Nifty" people advertise good board at \$12 per week, which is cheap, considering their style of living.

Fredericks, of upper Hassayampa, will, in a very short time, have his wheel and arrastra all O. K. for reducing rock.

The many friends of D. S. Lount will be sorry to hear that he is, and has been for a long time past, quite unwell.

Two wheels, for driving arrastras, instead of one, as heretofore stated, are in course of construction on Big Bug creek.

listened to by a large congregation in the court-room.

Lovejoy & Co. are to-day making a "clean-up," after a three weeks' run in the hydraulic claim, on Lower Lynx Creek.

Ed. F. Bowers, from Skull Valley, and T. W. Boggs, from the Lower Agua Fria, are in town.

J. W. Knott got to town this forenoon, after an eight-day trip in the mountains.

Messrs Baker and Swearingen arrived from Chino Valley yesterday.

[From Tuesday's Daily.]

MORE PRECIOUS STONES.—A party of three men came in here yesterday, from the "country," one of whom called at our office and borrowed a work on precious stones. He was exceedingly reticent, and to our questions gave the answer that himself and partners had a place where they expected to secure all the wealth they desired, and that said place was not one thousand miles from Prescott. The book was returned late in the afternoon, and, this morning, we learn that the trio, after packing their animals with provisions, etc., started, late in the night, towards Northern Arizona.

MINES—INDIAN.—A letter from Jesse Jackson, dated "Del Pasco Mill, Bradshaw, February 6," was this morning handed to us. It says that Messrs Fine, Martin & Moore had just arrived there from Humbug Creek, where, they stated, four arrastras were working up gold rock that was good for three hundred dollars per ton.

Indians are numerous over there, and the miners would like to take in Gen Crook as full partner for a short time.

Several more arrastras are in course of construction.

Should the \$500 rock hold out, it will be bad for the Indians, as hundreds of miners and prospectors will soon be there to hustle them out.

MILITARY.—General Crook and Dr Magruder arrived at Department Headquarters last night, from Camp Verde.

The water works at Fort Whipple, were put in operation yesterday, and soon forced water from the well near Granite Creek, to the reservoir on the hill back of Department Headquarters. Some days will elapse before the new reservoir can be looked to for a regular supply of water as the mains have to be cleaned from rust and dirt, and an occasional weak section of pipe replaced by one of better quality.

Mr. Daniel Hazard arrived with his train from Camp Verde, on Sunday last, travelling the new road which he has graded in places, and otherwise improved, making it now a first class road for heavy teams.

Mr. Hazard and party, killed thirteen deer during their trip.

His train proceeds to Hualpai to haul lumber, for government, from there to Fort Whipple.

An expression often repeated in Prescott, is, "D—n Tucson checks," which expression is not likely to be checked until the arrival of some person who will change greenbacks for said checks.

It is stated that a U. S. Paymaster from Southern Arizona is coming here with money for this purpose. We hope so, for, as it stands, considerable money is now locked up in the confounded Depository orders.

Mr. Hazard, who started for Texas a short time ago, to make purchases of cattle, went to meet Mr. Hooker, who sold them several hundred young cattle, with which they returned home, arriving in this vicinity a few days ago.

A miner arrived here yesterday from Cedar Valley district, purchased provisions and started for Lynx creek, where he has a placer claim. He came all the way alone, which goes to show that but little is now thought of danger from Indians.

The weather, for the past few days, has been unusually mild, for this season of the year, but, from the present state of the atmosphere, and cloudy indications, we may look for another storm very soon.

M. L. Peralta, one of the pioneer business men of Wickenburg, has just replenished his stock of goods, and is selling very cheap. When you go to Wickenburg call on "Miguel," who will treat you right.

The 14th inst., will be St. Valentine's Day. Kelly & Stephens are prepared to supply valentines of every description.

[From Wednesday's Daily.]

Mr Flanders, photographic artist, of this place, has done considerable work, of a superior character, since his arrival here, as will be seen by visiting his gallery, formerly that of F. A. Cook's.

We, yesterday, for the first time, got sufficient copy ahead of printers and devil, "shot" away, and took a look at his photographs of men, women, children and places, all of which reflect credit upon him as an artist. One large picture of our friend Col. H. A. Bigelow looked "mighty pretty," as the California gal said upon first seeing an Eastern dandy in tight pantaloons and coat, the tails of which had been nipped by the frost, on account of their nearness to so soft and green a specimen of humanity.

Various other pictures looked to us, wondrously fair, particularly that of little Henrietta Behan, but, hold, we are getting into a bad Indian country, a photographic work, for fear of being accused of partiality. Yes, we will venture to state that, tramping over ourself and a few other unfortunate invisible beauties of this town, Prescott people, particularly the ladies and children, beat all creation so far as good looks is concerned.

Another of Gen Crook's good plans has been accomplished. Several months ago, he had the supplying of Fort Whipple, Headquarters and suburbs with water, by means of wagon and team, was an expensive, unreliable and inadequate way, so plans were drawn for water works, a well sunk on Granite creek bottom, ditches were cut, a reservoir built, etc., etc., and Headquarters are both places—Fort and Headquarters—are both completely successful. Water now works are completely successful. Water now works are completely successful. Water now works are completely successful.

WICKENBURG dispatches say that there was hope for George Bryan. Also, that quite a number of Arizonians are on their way home to Prescott.

John G. Campbell is near by, on his way

way home from California with five or six extra good rams, a pair of valuable horses, et-cetera.

RAIN.—It commenced raining this morning, and, at this writing, 1 o'clock p. m., it looks as if a rain or snow storm of some magnitude would soon break loose. Up to this time, but little rain has fallen.

A dispatch from San Diego, California, says that similar weather prevails there.

R. E. Farrington and many other Arizonians who left this Territory a few years ago and settled in Southern California, wish themselves back again.

DEPARTURES.—J. M. Bryson, H. Asher, Deputy Sheriff Fraser, Hugh McCrum, and M. Wormser left Prescott in the past two days.

Messrs Banghart and Hall arrived in town yesterday, from Chino Valley, where every prospect pleases, &c., &c.

Mr Standifer has driven most of his herd of cattle from Mohave county to Williamson Valley, in this county.

Persons recently from the Verde say that the military are making some good improvements at the post.

It is said that one of our architects has been engaged to furnish a plan of a new hotel, soon to be erected on Montezuma street.

E. J. Cook has recently made some good improvements around his dwelling house, corner of Granite and Gurley streets.

The Prescott post office is the only one in Arizona through which money orders can be sent to, and received from, Germany.

Mr M. Goldwater has his eye on a lot for a store which he designs erecting here, this spring.

Lumber, for building purposes, is in demand.

Swearingin is engaged in painting the new Methodist church.

[From Thursday's Daily.]

WEATHER.—We stated, in yesterday's MINER, that rain commenced falling here early on that day. Well, it kept falling until about 3 o'clock this morning, when a high, cold southerly wind transformed the rain drops into snow, which, at daylight this morning, barely covered the ground. The wind is yet blowing fiercely and clouds are scudding before it, threatening to again unite and spill themselves upon us.

Granite creek is pretty high and so, we presume, are all other creeks in this vicinity. It was a god-send to miners, many of whom, were beginning to loose more or less time and gold for want of full heads of water.

Later.—It commenced snowing about noon to-day, now, at 2 p. m., flakes are flying thick and fast from the southwest. Let it come.

Col Bigelow came to town yesterday from his gold diggings on Lynx creek, and showed us a few ounces of gold worth, at the mint, \$18.25 per ounce. The Colonel came in, thinking that water was about to fail him, but, now that it has rained good, he will return to day and find more water than he will be able to use.

He reports the miners working in the main creek doing very well. One company of Californians, who are working the bar below French Frank's mine.

We are informed that Mr J. D. Cusenberry is again on his way from New York to the Vulture mine, in capacity of agent for the Vulture mining company. It is also stated that his object in coming here, again, is to pay that 20 per cent of the company's indebtedness.

No MAIL.—Here it is, half-past one p. m., and no mail from any quarter. The storm has, no doubt, caused the mail wagon from Mohave county, as well as that from California, to seek shelter.

The California mail and the Mohave county mail both arrived here about half-past 2 p. m. The following passengers came in on Grant's stage: Mr and Mrs Marks, Dr Geo. D. Kendall, Mr Barclay.

The roads are very bad. It rained three days on the Mohave road.

Mr Donahugh, farmer and dairyman, of Williamson Valley, was in town yesterday. We learn that he has some idea of establishing a dairy near Camp Verde.

Judge H. Brooks is having lumber hauled on a lot near the post office, upon which he designs erecting a tin shop.

Col Jas. H. Nelson, paymaster, U. S. A., left Fort Whipple this morning for Phoenix, where he is to meet Col Taylor, of the same corps.

Mr John G. Campbell arrived here to-day from California.

AGENTS FOR THE MINER.

San Francisco—L. P. Fisher, Rooms 20 & 21 Merchant's Exchange, California street.

San Francisco—W. B. Hillings & Co., Merchants' Exchange.

San Francisco—J. S. Maudsland.
