Special to the Journal-Miner.

PHOENIX, Feb. 3.—The third session of the first state legislature convened shortly prior to noon today by election in the House of Linney of Yavapai County as Speaker and the continuation of Cunniff of Yavapai as president of the Senate.

The last named body presumed that the old officers should be continued and there was little delay in beginning its work. In the lower House however a twenty-four hour caucus left a Democratic majority that was present equally divided fifteen votes for Linney and a like number for Bradner with

one member from Maricopa absent on account of illness.

With this situation confronting them the Representatives made their way to the capitol where a last effort on the part of the Linney men secured the withdrawal of Bradner in the interest of party harmony and Linney was chosen unanimously.

It was Bradner's idea that a grave political error would be committed should the House remain in a wrangle over the Speakership till Cocks the absent member might return, hence his action in withdrawing. Prior to taking such action however an effort was made by the

NEW INTERPRETATION OF ANTI-TRUST LAW

Supreme Court Says Mere Combining of Non-Competitors Not Violation Of Sherman Act.

By Associated Press.

WASHINGTON, Feb. 3.—The Supreme Court held in effect today for the first time, that the Sherman law does not forbid the mere combining of non-competitors in an industry.

The decision was given in the "shoe machinery trust" case in which Solicitor Bullitt contended if a combination be brought into one hand and in undue proportion" of trade it was forbidden by the anti-trust law.

The disintegration aimed at by the statute does not extend to reducing all manufactures to isolated units of the lowest degree" declared Justice Holmes announcing the unanimous decision of the court that

the mere organization of the United Shoe Machinery Company, by heads of several non-competing groups of shoe manufacturers had not been a violation of the law.

The justice continued that it is as lawful for one corporation to make "every part" of a steam engine and put the machine together as it would be for one to make boilers and another to make wheels.

Despite the decision the officials of the Department of Justice declared the United Shoe Machinery Company will be prosecuted for alleged criminal violation of the Sherman law under one remaining count of the indictments returned, the validity of which was sustained by the lower court.
