

# WEEKLY CHAMPION.

SATURDAY, OCTOBER 13.

Arizona has been awarded first prize for mineral exhibit at the Albuquerque fair.

Scan the new advertisements from our metropolis, Albuquerque, published in the CHAMPION this week.

The inhabitants of Mazatlan are said to be dying at the rate of 25 to 30 per day from yellow fever.

Quite a large number of strangers have visited our town this week, the most of them taking the trip to the Grand Canon.

The game of poker, coupled with overdoses of the ardent, has caused considerable many personal encounters in town this week.

Lawson, the Kingman butcher, is offering great advantages to people along the line of the road to supply fresh meat during the winter.

President Arthur is to designate a day for the congress of the nations to be held at Washington in 1884, to select a standard prime meridian and standard of time for the globe.

The choice beef steaks now being served at Miller & Huntley's lunch counter, in Peach Springs, furnished by Davis, the Hackberry butcher, are of the very finest quality. Oh! how delicious!

George Smeardon, who, it will be remembered, was an important witness for the defense in the Tiffany cases, and who disappeared just before the commencement of Tiffany's trial, is said to have died at Guaymas a few days ago, from yellow fever.

The mineral display from Mohave county, Arizona, is something very fine in its way. The ore is very high grade as a rule, and is shown in large pieces. It is arranged in a cabinet devised by B. Moses, and was at the south end of the hall with the A. & P. exhibit.—Albuquerque Journal.

Yesterday a special car brought to our town Gen. Sedgwick, John W. Young and one or two others, who, after partaking of dinner, proceeded to the Needles. They will return here to-morrow, and Young & Farlee will convey the party to the Grand Canon.

During the week Mr. Gilmore, real estate agent of Albuquerque, visited Peach Springs, accompanied by Lieut. Spruance, of Fort Wingate, and two other gentlemen, the latter looking for ranches or grazing lands. They took in Aubrey, Pitman and Chino valleys during their trip along the railroad. The party returned to Albuquerque on Friday morning.

Mr. Frank Ruby, late agent at Flagstaff, and formerly connected with the Atchison, Topeka & Santa Fe, stationed at Santa Fe, we are glad to announce, has assumed the position of station agent at Peach Springs. An affable, courteous gentleman, who has had large experience in railroad-ing, he comes to a position here very much in need of such a man. Mr. Ruby is warmly welcomed by our business men.

Frank F. Carnduff, editor and proprietor of the Valley Review, Livermore, California, and representative of the well known type foundry of Palmer & Rey, San Francisco, paid Peach Springs a brief visit to-day, leaving for Mineral Park in the evening. Mr. C. has made an extended trip through our Territory, as well as New and Old Mexico, in the interests of the type foundry, and is a gentleman whom it is a pleasure to meet at all times. He will return to California via the Needles.

The railroad company is building an addition to the ice house, of eighteen feet, preparatory to storing larger quantities of the frigid for summer use. This is all well enough, but if they will look a little more to the comfort of the traveling people by at least giving them a place to sit down while waiting for a train at the station (we can't call it a depot), the improvements will be better appreciated. The business office of the agent allows a coop of 2x4, in which the customer (not the passenger) is allowed to stand while he counts out his freight money or express charges, and he can quietly retire, while another comes forward and repeats the dose. A mother, child in arms, can walk the platform while waiting, but, thanks to the railroad boys, generally speaking, the best accommodations they have are extended under such circumstances.

The Albuquerque Democrat states that the gate receipts for two days at the fair were \$1,800. Al Whitney, of Prescott, was racing chief, his horses, Gray Charley and Kansas Maid, being the fleetest ever seen in Albuquerque.

The Examiner is authority for the statement that there are a great many clerks and other men out of employment in San Francisco. A man who recently advertised for a clerk received more than 200 applications for the place. Many of those who applied said they did not expect high wages; what they most desired was employment and a living. Another straw going to show that the cities are overcrowded.

**The Wickenburg Stage Held Up at Willow Creek.**

The incoming stage on the Wickenburg route, when at a point near Willow Creek, last night, was stopped by a masked man, and the mail sack and passengers robbed. Owing to the lateness of the hour, we are unable to learn further particulars.—Courier.
