

BURMISTER WILL LEAVE PHOENIX NATIONAL

Former Prescott Banker Secures Lucrative Appointment

(From Friday's Daily.)

Regretting that he is to leave Phoenix permanently, but glad that the change will mean a bettering of his private fortunes and a wider field of usefulness, the many friends of R. B. Burmister were quite surprised to hear yesterday that he had tendered his resignation as cashier of the Phoenix National bank, to accept a similar office with one of the larger San Francisco banks.

Speaking last night Mr. Burmister said that for a great many reasons he had to leave Phoenix which is now just entering upon such wonderful prosperity, and he does so through no dissatisfaction with the city or his former associations.

During his residence here Mr. Burmister has been among that guild of business men which has led all movements for the bettering of business and society and the rebuilding of the city and valley on broader lines.

There is no announcement yet of who will succeed Mr. Burmister here nor just when the change will be made, as those details will be worked out for the convenience of all concerned.

SUGGESTS REFORMS IN CRIMINAL STATUTES

(From Friday's Daily.)

OMAHA, Neb., Oct. 18.—Quoting President Taft as saying that "the administration of criminal law in this country is a disgrace to civilization," Judge C. A. De Courcy, of Lawrence, Mass., justice of the Superior court of Massachusetts, before the American Prison association to-night pointed out that the United States was conspicuous for the great number of unpunished murderers.

The defense of insanity, the limitation of the power of judges and the character of testimony allowed to be introduced in behalf of the defendant, were some of the evils which, he said, ought to be rectified.

"The number of homicides in this country for 1910 were 8975—an increase of nearly 900 over the number in 1909; yet but one in 86 were capitally punished in 1910 as against one in 74 during the year preceding," said Judge De Courcy.

"It is said that in 1896 for each million of the population there were 118 homicides in the United States; in Italy less than 16; in Canada less than 13; in Great Britain less than 9; in Germany less than 5. "In the last year in London, with a population of seven millions, there were but nineteen cases of murder. Of the nineteen murderers five committed suicide. All of the others except four were arrested and either convicted and executed or committed to the insane asylum.

"In New York City, 119 cases of homicide were investigated by the grand jury during the last year, but only 45 convictions resulted. Chicago reports 292 homicides were committed in that city during the last year. Only one of the offenders was hanged; fifteen went sent to the penitentiary and the others were set free.

In Louisville, with a population of 224,000, during the last year there were 47 cases of homicide and not a single murderer was hanged. In Alabama for the two years ending September 30, 1910, 620 cases of homicide were disposed of and the death penalty was imposed in but 27 cases.

(From Friday's Daily.)

A requisition has been issued by Governor Sloan, on the governor of Oklahoma, at the instance of Pinal county authorities, and placed in the hands of Sheriff James McGee of that county, for presentation to the governor of Oklahoma.

Eagin was cashier and manager of the Florence bank, which was closed some time last year, by the territorial auditor and a receiver appointed. It was charged that Eagin's crookedness was in connection with the conduct of the bank. The particular instance is that he induced Messrs. Price and Powell, well known business men of Florence, to sign notes and mortgages, totaling \$11,500. It is alleged that on some pretext he got these signatures with the understanding that \$7000 of it should be paid in cash to the gentlemen giving the paper, the remainder to be turned over at a later date.
