About Town

SHORT NOTES

Just found out that the Arizona Sun has quite a circulation in California. — Winston Tease re-enlisted last month, looks like he will make it twenty. — About the water fight in East Broadway one lady said "Men don't have to worry too much, they don't bathe as often as women."

Few people know it but Jene Walker is the only Negro in Arizona with a promoters license for boxing.

HAIR STYLE SHOW

A big hair style show is set for Sept. 18 at Adrienne Beauty Salon in the Valley Life Building. One of the nation's top hair stylist Josie of Berkeley will be on hand to demonstrate new styles.

LAS VEGAS

While other gents chose to stay around home or go hunting and fishing, Valley Life Executive Bill Dickey packed up a few suits and headed to Las Vegas over the Labor Day weekend.

Average Family Water Use Doubled

Did you know that the average family uses 44,000 gallons of hot water each year?

In a decade the hot water requirements of the average U. S. family have almost doubled. Back in 1950, according to the Gas Appliance Manufacturers Assn., a family of four needed 75 gallons daily; now the figure is 120.

The reason? Living habits have changed. Homes are larger. There are more baths. Dishwashing and laundering have become mechanized. Wash and wear and other man-made fibers have changed laundering routines.

When you take a shower or give the kids a bath, the chances are that each of you will use 10 to 15 gallons in each cycle. A modern automatic dishwasher gulps 10 gallons in each cycle. A modern clothes washer takes another 25 to 30 gallons for each load.

ONE OF THESE DAYS

Every time a long week-end comes up, it is as if every one in town can be seen. Even quite a few out of towners.

NEW DAILY PAPER

When the new daily paper starts publishing, there just might be a first in Phoenix on the reporting end. So far Doyle Carr seems to have the inside track.

BIG FISH

Rev. M. Harrison, pastor of Lucy Phillip's Methodist Church caught quite a fish on his vacation while in California. However when it dawned on him to call the newspaper it seems that friends and relatives cut down the size of the fish.

NAACP Firmly Against Benicia Arsenal Badges Designating "Race"

San Francisco, California—Tarea Hall Pittman, Acting Regional Secretary reported today that NAACP leadership have received complaints from workers at Benicia Arsenal in connection with new security badges which carry the designation of "race." The information obtained brought out the fact that these new badges were issued pursuant to technical instructions 1300-6-60 dated June 6, 1960. It was also learned that approximately 4,000 of the new badges were purchased in March, 1961 and were received at Benicia Arsenal in May, 1961. The first of the new badges were issued on July 14, 1961.

Negro workers protested the fact that behind the designation of the item of "race" was the word Negro, N, Filipino, P, Caucasian or white. Officers at Benicia Arsenal made it clear that they were simply carrying out instructions and had no authority to do otherwise until ordered to do so by the Department of Army in Washington, D. C.

Mrs. Pittman said, "the protest of defense workers at Benicia Arsenal against the use of race on their identification badges is completely understandable in light of the Negro's insistence that he be treated as an American and not set apart by racial designation. It is hard to understand how such an order could be issued by the Army and harder still to comprehend why it is being carried out at this date. The West Coast Region office today filed a complaint with the Secretary of Army and informed Clarence Mitchell, the Director of the NAACP Washington Bureau of the action taken. All workers at Benicia Arsenal will be supported in their right to protest this indignity."
