Citizens of Phoenix, headed by a delegation from Prescott, serenaded Judge Porter last evening at the Gardner Hotel, and were received in the Judge's chamber in fine style. Judge Porter is a general favorite in this valley. We are pleased to see so many Prescott people with us this week. We hope they will go back home with a better opinion of Phoenix and the country about it, conclude it is a good place to be, load up their wives and babies and come to stay.

The merchants of Phoenix have been in the habit of giving credit almost indiscriminately. E. Irvine & Co. have been almost the only exception to this rule, and since January last they have ceased giving credit almost entirely. They now come out in to day's issue and advertise their business on a cash basis entirely. Perhaps it will win, perhaps it will not. Call around and try them on their new style and see how it suits. The Los Angeles Commercial speaks thus of the business manager of THE HERALD and his paper: "Mr. Chas. E. McClintock, business manager of THE PHOENIX HERALD, Phoenix, Arizona, made us a call yesterday. Mr. McClintock reports great mining developments in the Bradshaw and Globe districts and a good run of business in the Salt River Valley. THE HERALD is a good compendium of mining intelligence for the Territory, and we are glad to know, is successful."

WANTED—A FIRST-CLASS HOTEL.

PHOENIX, April 15, 1879. Editor HERALD:—A traveler slighting from the stage here, is both surprised and disgusted to learn that Phoenix has no hotel. When you get down you naturally look for the hotel; you don't see it. Then you inquire of a bystander for it. "Hum—ah—w e l l, there is none, but there is a lodging-house up yonder and you can get your meals at a restaurant, or somewhere." You look in the direction he points and make for the "lodging house." It is a small one and you find it stuffed full to overflowing. "Got any blankets, no." "Got any friends here?" No. "Well the saloons shut up some times, before morning, and if they do you can stand up against a cotton wood tree and sleep, if you don't want to lie on the ground." You are astonished, you are disgusted, you are indignant. Everywhere as you approach the place you hear of lively Phoenix, and so you find it when here, all of which makes you wonder the more that there is no hotel. The practical hotel man who starts a good, large, first-class hotel in Phoenix, has a fortune. Travel into the place is large and increasing daily, and will justify some person to do the thing up right. If a second or third-rate house is established there will soon be numerous cases of competition, but a good hotel, at reasonable rates, and an accommodating landlord who knows his business, will be without rival for a considerable time to come. The present week, court week, the place is full of visitors. One gentleman told your correspondent a day or two since that if he had not happened to bring his blankets with him he would have had no place to sleep whatever, as he could not find a single room in town. Now don't let everyone "jump" this thing at once, because it would be a failure, but the right man in the place has a good thing of it. Care: Eco.

TERRITORIAL ITEMS.

The railroad track will be completed to Maricopa by the 28th inst. Samuel A. Lowe has been appointed postmaster at Little Giant, Pinal county. The mill of the McMillen mining company is to be in operation by the first of May. The last term of the district court at Yuma cost, all told, \$39.20. Economy is wealth.

Even Tucson is to have water works; at least a water company and possibly, works. Fourteen of the Papago mines have been bonded at \$175,000 for New York parties by the editor of the *Sentinel*. Times are reported exceedingly "off" at Mineral Park. We hope to hear better things of that locality before long. The *Sentinel* says that 5,000 pounds of good bacon are offered in Yuma at nine cents per pound. It's worth twenty here. John Keefe, who was shot by Wm. McCurdy at Lynx Creek, died last Wednesday morning at the hospital in Prescott.

The treasurer of Yavapai county has \$961.50 over from the quarter ending March 31st. Why don't he "git up and git it?" It is reported that water in large quantity has been struck in the Arkansas shaft at Castle Dome. Water so far has been hauled eighteen miles from the Colorado. It seems that the Government is furnishing its posts in this Territory with a greater amount of supplies than is necessary for the forces now stationed here. What's in it; a job? The *Sentinel* says the thermometer does not go as high here as in the Sacramento and San Joaquin valleys. It may be, but hot spells there last about three days at a time and here three months at a time. Tell it all. The *Enterprise* says a large number of immigrants are coming into Apache county from the east. Many of the new-comers are Gentiles and will do much to offset the Mormons who are also going to Apache county.

The extension of the railroad track beyond Maricopa this summer is as yet undetermined, though a large amount of material, in excess of what is required to complete the road to Maricopa, is coming forward. Should construction be delayed for a time, Maricopa will become a livery town. The old Venture mine has been taken in hand by the Central Arizona Mining Company, an eastern company, and will yet be made to yield up its abundant wealth. The company is going to work in earnest and business is rapidly picking up in the vicinity. We want more companies in this Territory, with capital, and less speculation which is our prevailing scourge.

Adonde is to be abandoned to the coyotes. At one time it promised to have some importance as a shipping point from the railroad to the San Antonio mines; but the San Antonio company have concluded to open a road to Port Libertad, on the Gulf of California, some forty miles distant, and has already loaded and dispatched a schooner from San Francisco to that port.—*Sentinel*.

Final County.

What's up at Florence? Is it something crooked? The *Silver Belt* informs us that at the regular quarterly meeting of the board of supervisors of Pinal county they elected a new clerk, in accordance with the recent act of the legislature, and on demanding the books and papers of the former clerk he refused to give them up. Road viewers were appointed to survey the route for the new road between Florence and Globe. Six-horse coaches run between Florence and the railroad terminals. The Pinal county court, which was to have convened at Florence on the 14th, has been postponed one week. The Murder on Lynx Creek. From the *Miner* we gather the particulars of the murder at the Thunderbolt Mine on Lynx Creek: At 11 p. m., on the 8th inst., Wm. McCurdy, late Foreman of the Lynx Creek Mining and Milling Company, had an altercation with Keefe, his successor as Foreman, which ended in McCurdy shooting Keefe in the right breast near the region of the heart. The shot was fired at the distance of three feet and probably with fatal effect. John H. Hicks, in the employ of said Company, left the mill immediately after the shooting and brought the news to Major Duke, Secretary of the Company, at about 1 o'clock this morning. Keefe was a live, but unconscious when the messenger left, but there are slight hopes of his recovery. [He has since died.—Ed.] McCurdy is an Irishman, about 30 to 35 years old. He is about six feet high, has blue cowardly looking eyes, strong even teeth, and smokes cigarettes. It is surmised that he has not gone far from the scene of the murder. Up to the present time, McCurdy has not been arrested although the Sheriff is in pursuit.
