E. IRVINE & CO.
A NEW
DEPARTURE.

Cash Down
Or No Sale.

WE WILL HAVE THE
PAY OR KEEP OUR
GOODS!

We hereby notify our friends and the public generally that from this time forth we will cease to sell for credit on any terms whatever. We are aware that in order to do this we will have to sell cheaper than our neighbors, and we are prepared to do so. As we are building we are very much pressed for cash, and therefore it will be better for us to sell for cash than to sell on ever so short a time, no matter how good the buyer. The facts in the case are just these: it is a necessity with us to have our goods or to have the wherewith to buy more. Of course we do not expect to do so much business, but we are determined to do what we can.

Our Lumber Yard is
now full and nearly complete.

THE PHOENIX HERALD.
SEMI-WEEKLY EDITION.
Wednesday, May 28 1870.
ARIZONA LETTER.
The Salt River Valley—Salinas-ites Down There, Etc.

[Salinas Index.]
PHOENIX, A. T., May 5, 1870.
Thinking some of your readers might wish to hear from Arizona, I address you a few lines of which you can publish such portions as may prove desirable to you.

I arrived here May 1st and found Phoenix a lively little city of about 2,000 inhabitants, situated in the center of a fine farming country of about 40,000 acres. Times are lively here and money is plentiful compared with California.

Harvest has just commenced and in consequence thereof there are very few idle men here. There is at present some very fine agricultural land lying vacant in this valley, but is rapidly being settled with a steady and industrious class of people principally from California.

The average yield per acre is wheat, 1,500 pounds; barley 2,500, while alfalfa, sorghum, and all kinds of vegetables do well. There are some very fine young orchards here which look as well as do the fruit trees of California.

Among the former residents of Salinas valley who are engaged in farming here, I met with Messrs. Wm. Isaacs, E. Isaacs, John Isaacs, Geo. Utes, Don E. Abbott, B. Kellogg, C. Small, C. Bryant, O. Kellogg and D. Cummings, H. Scott and Geo. Collins, of Santa Cruz. All of these gentlemen have fine farms and good crops and seem to be doing well, and well satisfied with their change from Salinas City to Phoenix. They say that, although this is a new and newly settled valley, they are confident that in time the comforts and conveniences they have left behind will appear once more; and they will gladly welcome them on farms of their own unencumbered with mortgages and not fearing dry seasons, as there is plenty of water for irrigating purposes. The water supply is obtained from Salt River. There are five ditches running through the valley carrying about 5,000 inches of water apiece.

The climate is very healthy, though at present quite warm. The average temperature for June and July is 110° to 115°. But little mining is done in this vicinity, though from 40 to 60 miles distant there are some very rich ledges.

Grain buyers are at present contracting with farmers for their crops, wheat at \$3.50 per cental, barley \$2.25 per cental, showing that the near proximity of the S. P. R. R. (28 miles distant) will not materially affect the prices of grain, but has caused a reduction in groceries, clothing, dry goods, etc.

I see some new arrivals from California, among are J. E. Kellerman, C. H. McKenna, Fred Vischer and S. Ballou, all former residents of Monterey county. These gentlemen are delighted with the future prospects of the Salt River Valley and are rushing around making homes for themselves while they can obtain good land at government prices, thereby avoiding the high prices and heavy rents that the people of California are subjected to.

Grant Co. (N. M.) Herald: Henry Lesinsky will leave Silver City for New York on to-morrow's coach. He has decided to build a railroad from the Longfellow copper mine to the furnaces at Clifton, and proposes for the purpose of purchasing rail cars and other material required for the purpose. The road will be four and a half miles in length, with a grade of 150 feet to the mile. The gauge is to be twenty inches. As noted elsewhere, Mr. Lesinsky has closed a contract with Black & Casgrove of this place for 10,000 ties of suitable dimensions, which will be delivered at Clifton without delay, as work upon the road had to be commenced at once. Three hundred thousand pounds of rails will be required for the road, and it to be equipped with cars with a capacity of two tons each. Mr. L. has not yet determined whether he will purchase a locomotive or use mules to drag the empty cars up the incline, but is disposed to favor the former class of motive power. The Longfellow Co. determined some time since to increase the capacity of their works at Clifton, and to this end the railroad became a necessity, as a sufficient supply of the ore could not be obtained from the mine by wagon transportation.

MILITARY ORDERS.—Acting Assistant Surgeon Dorsey M. McPherson is relieved from duty at Fort Grant, A. T., and will report in person to the commanding officer, Fort Apache, for duty.
Private Andrew Lee, company K, 6th cavalry, is relieved from extra duty in the quartermaster's department, and will report for duty.
Private Geo. W. Gardner, company H, 6th cavalry, is detailed on extra duty in the quartermaster's department, and will report at Whipple depot for duty.
Captain Chas. P. Eagan, Commissary of subsistence, U. S. A., will make an inspection of the subsistence department at Fort McDowell.

A terrific fire is raging in the woods southeast of Prescott and destroying much very valuable timber.

TERRITORIAL ITEMS.
From the *Silver Belt:*
The Stowell mill is running successfully.
Work on the Newton mine is progressing with good prospects.
Everything looks well at the Independence.
The Armit mine is looking well and work is being pushed.
Work for the present has been suspended on the Bohemia.
Miller & Watson have resumed work on the Silver Era.
Dr. Wilson and J. Gibbons have recommenced work on the Centennial mine.
The Antler mine looks very promising. Some native silver has been taken out this week.
The Cox & Copin mines are still turning out very fine ore and plenty of it.
Messrs. Salter and Lorence Bros. are still taking out very rich ore and the mine is improving daily.
James Thompson and Thos. Read, owners of the Lyman, near Cox & Copin's camp, are making some rich developments on their claim.
The amount of water obtained in the well dug to supply the Haskin mill is 57,000 gallons every twenty-four hours.
The Buffalo mine, recently purchased by General McDonald, of Chicago, was surveyed Wednesday, a preparatory step to obtaining a patent.
Farmers in the vicinity of Florence are busily engaged in harvesting their small grain. We are also informed that in that section the fruit crop is most promising. The peach crop will be unusually large.

A San Francisco letter dated the 15th inst., to a firm in this place, conveys the statement that it is currently reported there that 60,000 shares (the controlling interest) in the King mine have been sold. We have also heard it, said that the price paid was twelve dollars per share or \$720,000 for the 60,000. Should this prove true the purchaser is to be congratulated for having bought a bargain.

Citizen: Territory of Arizona vs. Oliver Boyer, convicted of murder in the first degree; Motion for a new trial overruled and the prisoner sentenced to be hanged by the neck. The day of execution to be fixed in his death warrant.

Postoffice changes: Bumblebeery, Yavapai county, discontinued. Name of Mount Hope, same county, changed to Fort Rock.
In the near future the Silver King will reduce its ore at the mine, instead of sending their concentrations to San Francisco.
A young man was lately murdered at Dos Cabezas by a miner named Pat Cannon, who was drunk when he committed the deed.

In the House of Representatives, on May 6, Mr. Campbell introduced House Bill No. 1724, for the relief of Bowers & Richards; read first and second time and referred to the Committee on Indian Affairs.

A company of Chicago capitalists with ex-Governor Beveridge, of Illinois amongst the number, are about to take charge of and develop some of the numerous silver mines in the Black Hills, near Prescott.
The wooden portion of one of the storehouses at the Quartermaster's depot, Yuma, says the *Sentinel*, is to be taken down and moved to Maricopa, where an agent is already stationed, and supplies for Northern Arizona will be delivered by the R. R. Co. at that place.

A petition asking for daily mail from Prescott to the end of the railway in Utah is being circulated and generally signed. It will be of vast benefit to the commercial and general business interests of Arizona if the petition is granted and the service put on at once.

Sylvester Mowry, at one time a Lieut. in the U. S. Army and owner of the Mowry Silver mine, Sierra, Colorado, Pima county, has been adjudged insane and sent to the Napa (Cal.) Branch Insane Asylum. Mr. Mowry was a promising young officer 20 years ago. He is now a poor lunatic.

Through fares from Tucson to San Francisco are as follows: First-class, \$80; second-class, \$70; third-class, \$60.
Minor Joseph R. Walker, Sheriff of Yavapai County, went out to the Peck on Tuesday, accompanied by Deputy Sheriff Pierce, and Wm. Hardy Superintendent, for the purpose of taking possession of the mine and mill under an order of Court Commissioner Hargrave. They were resisted by armed force and were unable to take possession. Those holding the mine claim to be doing so by an order of Judge Porter, of the 2nd District, who, it is asserted, is acting outside of his jurisdiction.

A brother of J. L. Fisher of Prescott was drowned at his home on the 1st, near Victoria, British Columbia.
Minor A. Small barn on a vacant lot belonging to Hon. J. G. Campbell, from some cause became ignited recently, and was discovered just in time to extinguish it before doing any harm. In this building was stored several kegs of powder which would have become ignited, have caused much injury to property adjacent thereto, and especially the county indigent, who are quartered in the adjoining house.

A report is in circulation that Joiney McNeale, the freighter, had died at Maricopa a few days since. We think and hope the report is untrue.
