OUR LUMBER INTERESTS.

Since the completion of the Southern Pacific railroad to Maricopa, a sort of competition in lumber and that grain in elevators should be as other articles seems to have set in sessed for taxes. Not that we would decry the railroad, for it is a benefit to us and the Terri- York looking toward the colonization tory at large. Still there are its dis-advantages. The lumber merchants lies. of San Francisco, and particularly York to the proposed celebration of those of Los Augeles, see a large the hundredth birthday of Tom Inc. field for the sale of humber in this Moore. To the north ty-five feet. Great rejoycing was inof us is a vast timber belt, comprising pine, walnut, fir, ash, etc., which will take years to diminish. Men was ordered by brought machinery there years ago, when it was a wild country, and when they had to guard their mills with of money in circulation and a popuarmed men, lest the savage Indian lation of not less than 500 men would destroy them. They have furwished this country at rutes as low as was possible, and we are confident that they will do by us fairly, and it is our duty to purchase of them in preference to California, for they are the principal consumers of our products. Our wheat, barley and flour find a steady market in their region. The population of Northern Together with a large lot of the best Arizona is larger than that of the central portion and is steadily inereasing, and the greater number they have, the better and more prosperous we become. Lumber may be purchased a few dollars cheaper from California, but do we gain by it? Cannot our neighbors buy their barlev, their flour and other products peculiar to this valley, in California, thus cutting off our market? These are things which should be looked into and not take a leap in the dark. Lumber purchased in California must be for cash, while that from Prescott is exchanged, for the most part, in goods; the money is kept here, improvements are made that would not he done if it were sent away; the country becomes better off by virtue of the improvements, and both the repaired. purchaser and manufacturer are ben, efited. Tonto Basin is not only a stock grazing region but a mineral district of no mean importance. The Mazatzal Mining Company, is located in the northern portion. This company have a two-stamp mill in operation, and a good mine to supply the ore. The owners, Messra. Dougherty and Raymond are practical miners and would not waste their time on any thing that didn't promise well. A number of other good locations have lately been made with good indications.

It is often said that " men look for work, and at the same time wish that it could not be found. Monday last we heard a gentleman who has charge of some harvesting, ask some fifteen loungers if they would go to work in a harvest field. They replied that it was "too hot." These are the kind of men that say a town is dead and curse the country. The law against vagrants, if there be one, should be en. MERCHANDISE forced.
