THE Irish anti-rent agitation has assumed such a serious aspect as to cause the British Government great uneasyness. In the monster meetings which have been held throughout Ireland, the oft-repressed sentiment that an ounce of lead is the best means of preventing rent extortion, always meets with a hearty endorsement from all present. From present indications there is but one of two courses that the British Government can pursue—either conceed the just demands of the Irish people; or, to engage in a war, which, in her present exhausted condition, can only, so far as she is concerned, result disastrously.

WE HAVE received information from reliable sources, that the sole reason why the Plaza is allowed to remain in its present neglected condition is that several of our prominent town officials are pecuniarily interested in the watermelon business carried on on its northwest corner. We think there is sufficient

INDIAN TROUBLES, NEAR AT HOME.

Indian Outbreak in New Mexico.

Terrible Slaughter of the Innocents.

General Indian War Imminent.

SPECIAL DISPATCHES TO THE HERALD.

ARIZONA.

Tucson, Oct. 16th.—A special to the Daily *Star* from Silver City New Mexico says: The Indians have been committing terrible depredations in the Rio Grande Valley, and Southwest of Fort Cummings, for several days past. The people of the Colorado have been beseiged and fighting since Saturday, and appealed for aid. On Sunday a volunteer company of thirty men, under Captain John S. Crouch, went from Mesilla and Cruces to their aid. They met one hundred Indians near the Colorado, eighteen miles from Slocum's ranch, on the side of the road. After a severe fight the volunteers were compelled to fall back. They had a running fight into Slocum's ranch. The killed in this fight were W. T. Jones, County Clerk of Dona Anna county, and four Mexicans. On the receipt of the news at Mesilla, two more companies of eighty men were raised under Col. Ryneron, composed of the best men in Mesilla Valley. These companies were to join Crouch to-day at Slocum's and go to the Colorado. Two trains were captured yesterday west of Slocum's, in one of them eleven men and one woman and one child were killed, in the other all hands escaped. Both trains were scattered and some of the oxen were killed and others left standing in the yokes. Corpses lie all along the road. The stage from the east arrived this morning two hours late. The number of people known to have been killed within the past four or five days all together number about forty. The Indian trail leaving the stage road yesterday leads toward the Black Range and the vicinity of Hillsboro mining camp. Major Morrow of the Ninth Cavalry, with a strong scouting party, are thought to be in the vicinity of the Colorado river. This is the most persistent fighting the Indians have ever been known to do in this section. They are in large bands and seem determined to stay in the country and fight and make a general warfare.

The bodies of Agent Meeker and his employees were found in various positions around the ruins, and were entirely naked. Some were horribly mutilated. There were no signs of the women and children, so it is not known whether they have been massaced and burned, or carried off. ROVING RYLAND.

A Chapter from the Life of a Famous Showman.

Some Singular Scenes and Shades Seen in a Showman's Sphere.

Few men are so well known throughout the Pacific coast as G. Ryland, the veteran showman and caterer to public amusement. The following facts making up a brief sketch of one of the first expeditions Mr. Ryland made as a traveling showman were given by him to the reporter of the DAILY HERALD, and will serve to illustrate the life of an American showman.

FIRST EXPEDITION.

In 1859 my partner and myself fitted out a vessel in San Francisco harbor and with a troupe of professional artists whose equals at that time could not be obtained set sail for the Sandwich Islands. The only

INCIDENT OF INTEREST

that occurred during the voyage was our meeting an English man-of-war, whose captain seeing the blue and gold uniforms of the band, sent on board a lieutenant, who, after presenting his captain's compliments desired to know from the captain what troops he carried. On being informed that it was only an

AMERICAN CIRCUS TROUPE

he appearred to be considerably astonished. On his return to his vessel the Britisher dipped flag to the tune of Yankee Doodle. This salute was replied to by our dipping flag and playing God Save the Queen.

ARRIVAL IN HONOLULU.

On our arrival in Honolulu we were met by the King and court outside the harbor and escorted to anchorage. The day after our arrival we gave our first performance with the result of pleasing the King so vastly that he insisted on making me High Lord Chamberlin to his Royal Highness, the King of the Sandwich Islands, and Brother of the Sun. The honor was to great, and I was forced to use all my ingenuity to evade being invested with the office, and it was only with the greatest difficulty that we succeeded in setting out for Otaheiti.

PRESENTED WITH A WIFE.

On our arrival in Otaheiti we performed before the Queen and the court, and succeeded in pleasing her Majesty so well, that after the performance she called me to her, and said that in recognition of the pleasure the night's exhibition had afforded her, she would give me a wife, at the same time selecting for that position one of her ladies of honor. My endeavors to make her understand that the mere fact of having been able to please such an august personage was happiness itself, was in vain; entreaty and expostulation met with no better success, and it was only through the stratagem of having the clown, who was regarded by natives with a great deal of veneration, act as my father and pre-emptorily forbidding the marriage. The matter was finally compromised by my accepting the lady as a present, to the evident satisfaction of the Queen. I afterwards presented the woman to the wife of an American sea captain, who brought her to Boston, and succeeded, as I have since learned, in making a Christian and civilized being out of her. On our way home from Otaheiti, through the carelessness of our captain we were wrecked off the coast of South America, and were forced to take to the boats, but succeeded, after suffering great hardships, in reaching Callao, and from there worked our way back to the States, through Mexico
