Among the numerous persons who have been cured of rheumatism by Chamberlain's Pain Balm, mention should be made of Mrs. Emily Thorne, of Toledo, Wash., who says: "I have never been able to procure any medicine that would relieve me of rheumatism like Chamberlain's Pain Balm. I have also used it for lame back with great success. It is the best liniment I have ever used, and I take pleasure in recommending it to my friends." For sale by Druggists.

Cococino Sun: The ice caves twelve miles south of Flagstaff is one of the attractions which is receiving a good deal of attention from our summer visitors. It is the only ice cave known to exist in the territory, and the novelty of gazing on an immense quantity of natural ice in midsummer cannot be resisted by visitors from the warmer sections of the territory.

Messrs Barron and Scribner have their new whim on the Telephone and will commence work in a very few days. The shaft of this mine has to be cleaned out and the timbering looked after, which will take some little time, but as soon as this is done everything will be ready and operations will be pushed.

FOR OVER FIFTY YEARS. An old, well-tried remedy. Mr Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste. Sold by druggist in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

W. D. Mounonier is busy improving the acoustics of the court house chambers. Heretofore to be heard in the room one was compelled to speak quite loud, but now, when finished it will be possible for one in the rear end to hear audibly a whisper from the witness stand. This desirable effect is obtained by a system of continuous copper wires strung overhead, both lengthwise and crosswise. While it may seem incredible it is nevertheless a fact that this result is produced, being based on scientific principles.

D. K. Wardwell returned to Fort Huachuca today after a short visit to the county seat. The general is post-master at the fort.

Bread and butter and tea and apple-sauce—delicious!

It all depends upon the tea—there is none so charming as Schilling's Best.

The secret of the charm of Schilling's Best tea is youth and freshness. It is the young tender leaves of the tea-plant, fresh-roasted in San Francisco.

The people of Safford, Graham county, have succeeded in raising a fund of \$5000 for the building of a courthouse and securing the county seat.

The United States during the last twelve months has chewed and smoked five million pounds of tobacco besides 73,000,000 cigars and four billions of cigarettes.

The Discovery Saved His Life. Mr. G. Caillouette, Druggist, Beaver ville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was well and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at the Tombstone Drug Store.

While the news from all sections of the country is of the most cheering nature because of the bright outlook for silver and the dawning of prosperous and happy future of the people of this country, there is one man in our community who shows a slight tinge of disappointment, and still he is happy. He had calculated to call him William Jennings Bryan Costello, but now he can't do it; it's a girl, and as bright and pretty as the daintiest flower. The PROSPECTOR extends congratulation, Martin.

Marvelous Results. From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rivers Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Tombstone and any Drug Store. Regular size 50c. and \$1.00.

Langpaap and Dunker have about completed arrangements for the beginning of active operations on the Silver Thread mine. They have their machinery and tanks all in place and as soon as the track laid for the removal of waste dirt and rock is ready for the cars, work will begin in earnest. A number of men will be employed by these gentlemen and reports of the bullion output from this mine may be looked for.

It All Depends. "If Messrs. A. Schilling & Co., who are about to carry on this fight against colored tea, do not succeed, some other concern in some other report will take up the cry, and so win the success (that by right of first thought) belongs to A. Schilling & Co. and San Francisco—besides doing good to the United States; for no one doubts that it will be far better for the people at large to drink pure tea."—San Francisco Journal of Commerce.

It ought not to be so hard a fight. The "money-back" part of Schilling's advertisements ought to get a trail for their tea; and if "Schilling's Best" tea is as good as they say, the tea will do the fighting. It all depends upon the tea.

The copper boom this year is something remarkable. The consumptive demand abroad is very strong and large contracts are reported to have been made in London for delivery up to the end of the year and even longer. The Boston News Bureau of recent date says: Messrs. James Lewis Sons Liverpool, write under date of July 20 of the copper market that they take a very favorable view of the future of copper. They say: "Consumption in Europe is certainly wonderful and appears likely to absorb all the surplus America has to send out and to make great inroads on the public stock on this side. We see no reason why copper should not advance £10 or £20 per ton further before the year is out. There is every prospect of a further decrease in the public stocks this fortnight."

THE NEW HOOK SPOON FREE.

I read in the Christian Standard that Miss A. M. Fritz Station A, St. Louis, Mo., would give an elegant plated hook spoon to anyone sending her 10 2 cent stamps. I sent for one and found it so useful that I showed it to my friends and made \$13 in two hours taking orders. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in place by a hook on the back. Anyone can get a sample spoon by sending ten 2 cent stamps to Miss Fritz. This is a splendid way to make money around home. Very truly, JEANNETTE S.

Mr. Editor, I take my pen in hand to let you know that times are a hard for me to take your paper. Hits all I kid too low buy terbacker fur myself and the boys. Besides the ole woman has to have a noo pare of bloomers and hit all takes money. I will pay you next fall when I sell my hogs, if they don't all die with colic. N. B.—We have got another baby at our house, come a week ago last Thursday nite. Rite a good peace about it and send 4 or 5 papers and we will send 'em off fur you.—Ex.

A CHANCE TO MAKE MONEY.

I have berries, grapes and peaches a year old, fresh as when picked. I use the California Cold process, do not heat or seal the fruit, just put it up cold, keeps perfectly fresh, and costs almost nothing; can put up a bushel in ten minutes. Last week I sold directions to over 120 families; anyone will pay a dollar for directions, when they see the beautiful samples of fruit. As there are many people poor like myself, I consider it my duty to give my experience to such, and feel confident any one can make one or two hundred dollars round home in a few days. I will mail sample of fruit and complete directions, to any of your readers, for eighteen two cent stamps, which is only the actual cost of the sample, postage, etc. to me. 13, FRANCIS CASEY, St. Louis, Mo.

Undersheriff F. E. Cadwell returned from Bisbee today. Upon receipt of the news of the Nogales bank robbery and being informed what direction the fugitives had taken Mr. Cadwell made all haste for a point near the line and ran upon the trail of the robbers which led direct into Mexico. At a point near the Custom House the Undersheriff joined a posse of 6 under Collector Webb and together followed the trail below the line. The robbers were evidently well mounted and lost no time in getting out of the jurisdiction of U. S. The robbers are known to the officers and at one time were residents of Cochise county. They are now in Mexico, but a sharp and continuous watch will be kept and if they venture back on this side, they will taken in out of the wet and placed where there is but suffering from the effects of frost.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal

The world

doesn't stand still. Six years ago a New York Ceylon tea company said that Ceylon tea was twice as strong as Japan tea. It was so then—such Japan tea as Americans drank.

But the Japanese drink better tea, and they want you to drink it too. Nothing stands in your way but your own indifference and the American tea-colorers in Japan, whose interests are not yours.

Three years ago the Japanese gave a big tea-exhibit at the World's Fair. Those who tasted tea there tasted Japan tea as the Japanese drink it—delicate, aromatic, inspiring.

And now the Japanese tea-growers are sending you their best—pure Japan tea, young tender leaves, uncolored, unadulterated, delicate, strong money-back tea—Schilling's Best.

We have been wanting to talk about this ever since the World's Fair; but the time was not ripe.

Also pure and money-backed: Schilling's Best coffee, baking powder, soda, spices, and flavoring extracts. A Schilling & Company San Francisco

Wanted by the Carr.

Last Tuesday night about 9:30 o'clock Joseph Butcher, who had been employed at the Peace mine, twenty-five miles south-west of Wilcox, came to town from the west end of the railroad yards, and while trying to board an outgoing freight train slipped and fell under the cars, mangled his right arm and causing other injuries which resulted in death.

Dr. Nicholson and Reid found it necessary to amputate his arm, which was done. His bruises about the face were dressed and everything possible was done for the man, but he died on Wednesday morning about 11 o'clock.—Wilcox News.

WHAT A WOMAN CAN DO.

Last week I cleared, after paying all expenses, \$355.85, the month previous \$260 and I have at the same time attended to other duties. I believe any energetic person can do equally as well as I have had very little experience. The Dish Washer is just lovely and every family wants one, which makes selling very easy. I do no canvassing. People hear about the Dish Washer and come or send for one. It is strange that a good cheap Dish Washer has never been put on the market. The Mound City Dish Washer fills this bill. With it you can wash and dry the dishes for a family of ten in two minutes without wetting your hands. As soon as people see the Washer work they want one. You can make more money and make it quicker than with any household article on the market. I feel convinced that any lady or gentleman can make from \$10 to \$14 per day around home. You can get full particulars by addressing THE MOUND CITY DISH WASHING CO., St. Louis, Mo. They help you get, then you can make money awful fast. A. L. C.
