**CITY AND COUNTY OFFICIAL PAPER**

Phoenix has the most ungentle-  
manly footpads known. After robbing  
a man of all he has they throw him  
into the most convenient irrigation  
ditch at hand and let him scramble  
out as best he can.

What with mysterious air ships  
lighting the nights in central Califor-  
nia and a daytime apparition of a  
winged female angel hovering in sev-  
eral parts of Wayne county, New  
York, it seems that we are upon the  
eve of extraordinary developments—or  
degeneration—Los Angeles Record.

Caviling contemporaries are draw-  
ing editorial morals from the fact that  
a Chicago woman asked a court to  
grant her a divorce inside of twenty  
minutes the other day and was refused  
that accommodation. But if the court  
was rushed at the time it was no more  
than fair to ask her to stand in line  
and take her turn.

The discovery in Los Angeles that  
much of the beef sold was horse meat  
shows that they need food inspection  
as badly in the citrus belt as we need  
it here. With proper examination of  
the meat supply this fraud on the  
public could not have been carried  
out. Horse meat is wholesome, but  
no one wants to eat it under the idea  
that he is eating good beef.—San  
Francisco Call.

But if it is so much like good beef  
that the people of Los Angeles have  
been eating it for years without dis-  
covering the difference, it proves that  
the people of Los Angeles are not epic-  
ures, or else that horse meat is as  
good as beef. And if it is as whole-  
some, and tastes as good, and doesn't  
cost any more, what's the use of mak-  
ing a fuss about it?

Two Cups in

tea leaves, the first pick-  
ings of the crop—prop-  
erly cured and packed as  
soon as picked—never  
touched again until open-  
ed by the consumer. Re-  
sult, the fragrance and  
strength of two cups of  
ordinary tea in one cup

**The National Matte Smelter.**

A practical and simple method of matting  
sulphide ores, such as nickel, copper, gold and  
silver ores. In localities where lead ores and  
fuels are scarce and almost unobtainable, our  
pyritic, water jacket Matte Smelter has been re-  
cognized with highly satisfactory results, and  
has been thoroughly tested on various pyritic,  
sulphide and arsenic ores in capacity of a to  
80 tons per day. It is the most practical,  
cheapest and simplest method of gold and silver  
ore matting and concentrating that is known  
today.

It requires no extraordinary skill, no lead ores,  
no fluxing material, and no fuel of any kind for  
the smelter after it is started. The sulphur in  
the ore is its natural fuel only, and its cost has  
no comparison with any other process of con-  
centrating.

We are prepared to furnish any size or capaci-  
ty plant complete to substantial mining people,  
set it up and furnish our men to run it for them  
on easy payments. Price and specifications  
furnished with references and testimonials on  
application.
