The flowing well which was recently struck in the Huachuca mountains, is gaining in volume every minute. This has been encountered on the Cobb ranch and flows 150 gallons a minute.

FINDING GOOD ORE IN BISBEE-DULUTH

The Bisbee-Duluth people, who are now sinking a double compartment shaft upon their property, have found some good ore during the past few days. Some of the gold nuggets which are being taken out of the property are as fine as can be found anywhere. John Corning, superintendent of the property, states that they will continue development work as rapidly as possible. They own six claims. They are working in a pink porphyry taking out free gold rock and horn silver. The ledge is three feet wide. The company reports everything very encouraging.

YOEMEN INSTALL OFFICERS.

The Brotherhood of American Yoemen installed officers for the coming year Wednesday evening at Pythian Castle. The ceremonies were beautiful and impressive, and a large number of members and guests filled the hall. After the installation a social time was enjoyed. Dancing was the attraction for the evening. The music was splendid and altogether the evening was delightfully spent.

Don't forget that the Royal changes tonight. Good program. 49c.

FAST DRIVER WHACKS UP.

Luke Joseph, the colored man who was recently fined for fast driving, squared his account with the law yesterday by handing Justice Burdick \$7.50 of the hard earned money of the realm. It is said that certain other drivers, who have the habit of using the crowded business streets of the city as a speedway, are in imminent peril of coming face to face with a similar fate.

DOUGLAS REAL ESTATE.

Any parties wishing to buy Douglas real estate on monthly payments can meet me at Bisbee in John W. Hogart's office, on the 1322 and 19th of this month. It is the only bank for your money and where it will pay you back with compound interest. Now is the time to buy before the increase in value, where you can get the benefit of the new railroad that is now under construction which will further increase the industries of our city. M. J. Donohoe, 1120 G avenue, Douglas, Ariz.

JOHN DOE INTOXICATED.

A maudlin character, who modestly confessed to the name of John Doe, was brought before Justice High yesterday morning charged with disturbing the peace. The real attack to the offense of this man was an innocently mislabeled as the name he gave, for it seems that "Doe" had been literally annihilating the peace for three or four days previously. John was given six days and a most solemn warning. "There is a certain Richard Roe who had better be lying low, too," was the justice's significant remark.

"Morning in the Alps" and "Life Boat Maneuvers" will be shown at the Royal tonight with four other live subjects. Popular prices of 10 and 15 cents. Don't miss it. 49c.

NORTHERN MEXICO QUIET.

J. J. Hill, who came in yesterday from Nacozari, states that there is not very much doing in mining business in that section, owing to the quiet which has prevailed over the country. "We have felt the slump in business affairs in many places on this side of the line, as well as depending entirely on the expenditure of northern money to open up our properties. When this stopped coming we stopped developing our mining properties."

TO MEET MISS JONES.

Friday afternoon the board of directors will hold a special reception at the Y. W. C. A. in honor of Miss Elizabeth Jones, who arrived in the city yesterday. Open house will be observed from 3 until 5 o'clock. A cordial invitation is extended by the board to all the members and friends and urges them to be present this afternoon. An interesting program will be carried out in which many of the Bisbee favorites will participate, after which daily refreshments will be served by the hostess.

EXPERTS TO CONSULT.

City Engineer McNetish went to El Paso last evening for the purpose of conferring with engineers of the Texas city with regard to the plans he has drawn up for Bisbee's new water works project. McNetish carried with him a roll of prints the diameter of a stove pipe. This trip and consultation is undertaken at the instance of the city council, who on Wednesday decided that the city engineer's plans should have the O. K. of the most competent engineers available. Notable among the experts who will go over the elaborate plans with Mr. McNetish, is City Engineer Anderson, of El Paso. It is probable that the plans, before being actually used, will receive a still further and final checking over.

GETS UNIQUE PRESENT.

Attorney E. G. Strickler is the possessor of a unique souvenir in the form of a small steel handled knife, which was sent him recently by an inmate of the state penitentiary at Frankfort, Ky. Years ago when this man was being tried for a most heinous murder, Strickler was the court reporter. The knife, which is far from a crude affair, considering that it was manufactured clandestinely out of bits of metal, the very collecting of which represented years of time, was given to the prison authorities with the request that it be sent to the "court reporter" of the trial. One of these men happened to know Mr. Strickler. He at once mailed it to Bisbee.
