CURRENT COMMENT.

A CENSUS of the entire world is proposed for the year 1900.

FAY HOWARD and George Richard accomplished the feat of rolling two beer kegs from Green Bay, Wis., to St. Louis within 60 days on a wager of $700.

A RUSH of miners for the gold fields of Alaska is reported from the large cities on the Pacific coast. Some of the prospectors say there is more gold in Alaska than in south Africa, and that the precious metal in our Arctic territory is widely distributed.

THE New York World recently stated that naval officers in that city and Brooklyn declared that it was the intention of the government to place the navy on as complete a war footing as possible in time of peace and demonstrate what the United States can do in the way of a coast defense fleet to guard our shores, both on the Pacific and the Atlantic.

ANTHONY COMSTOCK, of the Society for the Suppression of Vice, will ask the New York legislature to pass a bill prohibiting the appearance in public of women in knee dresses, tights, bloomers and all feminine raiment. Living pictures, burlesque shows and comic operas are also to be suppressed by the Comstock bill, which has for its object the elevation of the American stage.

JOHN B. ROBINSON, of South Africa, is thought to be the richest man in the world. His fortune is estimated at $350,000,000. In 1878 Robinson was in debt. He had kept a grocery store in the Orange Free State, but he could not make both ends meet. He and his wife begged their way for 300 miles to Kimberly. Here Robinson laid the foundation of his enormous fortune by picking up a rough diamond worth $1,200. His ambition now is to be worth $1,000,000,000.

EGBERT BORCHGREVINK, the Norwegian explorer, is arranging an expedition to the south pole next winter. The scheme that the explorer has in hand is to travel over 160 miles inland on snow shoes and sledges, with three Norwegian companions, till he reaches the south magnetic pole. He expects that it will take him more than two years to do so. He says a commercial company has been formed in England for the purpose of whaling and this company has agreed to send out an expedition next September. Eleven scientists are to go with the expedition.

THE cattle growers of the United States will probably have to encounter in the not remote future a vigorous competition in the European markets from Australia. That land of vast areas of cheap grazing lands is capable of producing an enormous supply of meat and the quantity is increasing from year to year. Shipments of live cattle from Australia to Europe have not been very successful, but it is said that chilled beef has been sent from Sydney to Liverpool in such good condition as to sell in the markets at the prices obtained for beef shipped from Chicago.

MR. SPERRY'S bill to provide for delivery of letters in towns and other places where no free delivery exists says that whenever not less than 20 persons who receive their mail matter through the same post office petition the postmaster at such office to appoint carriers to deliver and collect the mail from such person the postmaster is to do so. The carrier is to receive from the person to whom the mail is delivered a compensation agreed on, and if no agreement is made, they may demand not exceeding one cent for each letter. They are to receive no other compensation.

THE news comes from Brandenburg, Germany, of a discovery which excites the deepest interest in scientific, commercial and industrial circles. Dr. Selle has contrived a photographic instrument which will in minute details reproduce the various colors of objects, persons and landscapes brought within a specified range of the camera, the colors losing none of their original brilliancy and shade. Dr. Selle sent a number of photographs in colors of rose bushes, peacocks, crazy quilts and tropical butterflies to some experts for their examination, which were greatly admired.

Mr. Cyrus Edson, who was at one time the commissioner of health of the city and county of New York, has made a discovery which, it is said, may solve the problem of the cure of consumption. After numerous experiments he has produced a fluid which he calls aseptolin. It contains 2.75 per cent. of carbolic acid, and to every ounce of it there is added one-hundredth of a grain of a new salt called pilocarpin-phenly-hydrozide. The aseptolin is injected under the skin and into the blood. It has also cured every case of malaria and la grippe in which it has been tried.

THE sultan of Turkey has replied to the autograph letter of Queen Victoria, which, it is understood, was a personal appeal to the better nature of the sultan against the condition of Asia Minor. He also asserted that it was the Turks who were first attacked while praying in the mosque.

Carl then made his escape.

SATURDAY'S HOUSE.

Mr. Towne Speaks for Free Silver and Mr. Hall for "Sound Money."

WASHINGTON, Feb. 10.—The debate on the free coinage substitute for the house bond bill was very spirited Saturday. Mr. Towne, of Minnesota, a republican, claimed the attention of the house and galleries for over an hour with an eloquent effort on behalf of free coinage.

Mr. Hall, a democrat from Missouri, announced his conversion to "sound money" in a rather sensational speech, in which he charged that eight senators who voted for free coinage, according to "creditable information," had privately said that they believed free coinage would bring upon this country national and individual bankruptcy and ruin. He declared that a high officer of the administration had said that the silver agitation had already cost the government $262,000,000 in bond issues and in the course of the next 12 months the bond issue would increase to $1,000,000,000.

Mr. Corliss favored the passage of a bill to secure international bimetallism by an agreement with other nations than Great Britain.

FIVE YEARS FOR COLEAN.

Embezzling Cashier of the Fort Scott State Bank Sentenced.

FORT SCOTT, Kan., Feb. 10.—J. R. Colean, who a few days ago pleaded guilty to the embezzlement of $9,000 from the State bank, although his shortage amounts to $51,000, was sentenced to five years at hard labor in the penitentiary. Before receiving his sentence he made his first statement since being arrested. He said that although some believed that he had some of his stealings hidden, it was not so, and that he was penniless. He then broke down and sobbed piteously, although his wife tried to comfort him.

While delivering the sentence Judge Walter L. Simons took occasion to condemn vigorously the inequality of the present state law which places the maximum penalty for embezzlement at five years, while the maximum penalty for burglary is ten years.

TO EXTEND PENSION LAWS.

Congressman Clark, of Missouri, Has a Bill to Include Officers and Privates of the Militia.

WASHINGTON, Feb. 10.—Congressman Clark, of Missouri, introduced a bill in the house which provides that the present provisions of existing pension laws be extended to officers and privates, their widows and children and dependent fathers and mothers of militia men raised in the states from 1861 to 1865, who performed service to the United States, or were subject to call for a period of 90 days. It is also provided that a certificate of discharge from either the state or federal government shall be prima facie evidence of service rendered, and shall entitle the person named therein or his heirs to receive a pension.

A Young Couple Drive Into Nine Feet of Water and Are Drowned.

MIDDLETOWN, N. Y., Feb. 10.—Peter L. Atkins took Maud Kelley, aged 23, out driving last night. They crossed Wallkill river at Hoskin's bridge, and in the darkness Atkins drove off the road into the flooded meadow. The water was nine feet deep and the two stood on the seat of the wagon calling for help. A Frenchman named Baupre went to their assistance with a lantern, but when the water reached his hips he was obliged to retire. The two succumbed to the intense cold and both sank beneath the flood after an hour's suffering.

FEE SYSTEM MUST GO.

WASHINGTON, Feb. 10.—The sub-committee of the judiciary committee having in charge the bill to abolish the fee system for the payment of officers of the United States courts decided to recommend that the bill, as amended, pass. CREW OF SEVEN DROWNED.

Schooner Florida Goes to Pieces Off the Massachusetts Coast.

AMESBURY, Mass., Feb. 10. — The schooner Florida, coal laden for an eastern port, was discovered half a mile off Salisbury beach, in a sinking condition. The Plum Island saving crew attempted to reach the vessel with a line but failed. At ten o'clock the Florida went to pieces, when the masts gave way, letting the seven occupants into the sea. Two of the bodies were washed ashore. The life-saving crew could do nothing, as no boat could stand the sea.

TWO CHILDREN KILLED.

Caught Under a Falling Chimney While Viewing the Ruins of a Fire.

DUEL WITH KNIVES.

A Fearful Fight Between Brothers at a Family Christening.

CHICAGO, Feb. 10.—Carl Dahlke and Herman Dahlke, brothers, fought a frightful duel to the death with knives last night in the rear of No. 208 Blackhawk street, the home of their sister, Mrs. William Stuy. There had been a family gathering for the christening of a babe, when the brothers quarreled. "Get out your knife," cried Herman, "and come into the yard." Pushing the women away, the two men sprang down the steps to the yard in the rear of the house. Each had a keen-bladed pocketknife in his hand, and with screams of anger jumped at one another like tigers. In a moment they were slashing and cutting in fury.

Suddenly Herman gave a scream of agony. Carl's knife had shone under the window-light for an instant, and then was buried almost to the hilt in Herman's head, entering at the left eye. The unfortunate man fell to the ground writhing in agony. In the meantime the whole neighborhood had been aroused by the wailing of the women and the children's cries of fear. Men and women were ranged about the fence, watching the deadly duel between the brothers, but no one had the temerity to attempt to interfere. A policeman arrived just too late to catch Carl red-handed with his brother's blood. A child had run to the corner and informed him, but after Herman had fallen Carl jumped over the fence and made his escape.

THE BIG FIGHT.

Preparations for the Meeting Between Fitzsimmons and Maher Being Pushed.

EL PASO, Tex., Feb. 10.—Bob Fitzsimmons and Peter Maher will meet in the ring in spite of official action, and there is strong probability that several of the other carnival events will take place. Dan Stuart so declares and the preparations are being made as though no bar had been placed upon the events. The only effect of the action at Washington has been to make the promoter and his associates more secretive as to the plans. At midnight Saturday much of the paraphernalia for the mills was taken from the city. Great care was taken to keep the matter quiet. The material presumably went across the border into Mexico at a point north of here.

At a meeting of Dan Stuart and his lieutenants it was decided that on the day of the big fight Bat Masterson will be given charge of the train and will have 100 men under his orders. Jim Bates was given charge of the equipment and Secretary Wheelock was made master of transportation.

The New Mexico border is protected by a posse of deputy sheriffs. At Juarez, Mex., there are five companies of Mexican national infantry, two of the companies having been transferred to the Juarez barracks within the past ten days.

TRAINS WRECKED.

Stock and Passenger Trains Collide Near Hannibal, Mo.

HANNIBAL, Mo., Feb. 10.—Fifteen persons were more or less seriously hurt, and one cannot recover, as the result of a collision at 12:40 o'clock yesterday afternoon, between an eastbound Wabash stock train and a St. Louis, Keokuk & Northwestern passenger train coming south. The collision occurred near a tunnel, one mile north of this city. The stock train, which had just emerged from the tunnel, struck the passenger train, crushing in the side of the ladies' coach and throwing it over an embankment, almost into the Mississippi river. There were 15 passengers in the coach, and that none was killed is a miraculous fact. All were more or less bruised, but only the following were hurt seriously: H. F. Hudwell, of St. Paul, Minn., arm crushed; Miss Eva Pettit, Hannibal, Mo., eyebrow badly cut; Miss M. Whittey, Quincy, Ill., hip fractured, recovery doubtful; J. C. Cohen, stockman, Minneapolis, head cut; Mrs. Triester and son, Hannibal, both cut about the head; D. C. Webster, engineer Wabash train, knee injured.

Train Blown from the Track.

GEORGETOWN, Col., Feb. 10.—The regular passenger train which left Denver at eight o'clock yesterday morning was blown from the track half a mile from the depot here at 12:10 o'clock. Fren Van Sicklen, of Chicago, editor of Fowler Truth, a bicycle paper, was badly cut about the head. Mrs. Van Sicklen, E. A. Eager, of the Union Manufacturing Co., Toledo; S. C. Gillard, of the Dunlop Tire Co., Boston, and J. P. Dazy, of the Referee, a bicycle paper, were all more or less hurt. The train was blown over at a point within 1,500 feet of where similar accidents have occurred several times before.

Went Over an Embankment.

CLEVELAND, O., Feb. 10.—The derailing of a truck on a Cleveland, Canton & Southern mixed train near Dell Roy, O., late yesterday afternoon threw a passenger coach down an embankment. The car caught fire. Eight persons were severely injured and one, J. B. Tripp, a miner, was badly burned.

CHICAGO, Feb. 10.—Voters of Edison park Saturday decided that they did not want a "new woman" for police magistrate. The town has 97 voters. Fifty-three turned out, and of these 31 voted against Miss Florence King and 22 for her. The "horrid man" who captured the prize is Charles A. Whelon.

Reward for Train Robbers.

JEFFERSON CITY, Mo., Feb. 10.—Gov. Stone has offered a reward of $300 for the arrest and conviction of the robbers who held up the Missouri Pacific freight near Nevada, January 15.

FATTENING HOGS COSTS ONE CENT.

The editor recently heard of a farmer fattening hogs at less than one cent a pound. This was made possible through the sowing of Salzer's King Barley, yielding over 100 bu. per acre, Golden Triumph Corn, yielding 200 bu. per acre, and the feeding on Sand Vetch, Teosinte, Hundredfold Peas, etc. Now, with such yields, the growing of hogs is more profitable than a silver mine.

Salzer's catalogue is full of rare things for the farmer, gardener and citizen, and the editor believes that it would pay everybody a hundred-fold to get Salzer's catalogue before purchasing seeds.

IF YOU WILL CUT THIS OUT AND SEND it with 10 cents postage to the John A. Salzer Seed Co., La Crosse, Wis., they will mail you their mammoth seed catalogue and 10 samples of grasses and grains, including above corn and barley. Catalogue alone, 5c postage. (x)

"HOW NICE to get such a hearty encore!" she said, as the half-back was called back after an 80-yard run.—Harvard Lampoon.

Very Awkward Indeed.

This is precisely the kind of mistake a man makes if he "turns out" on the wrong side of the road when a vehicle comes toward him. No less absurd is the error of the individual who takes drastic medicines to relieve his liver. That organ is on the right side, and the road to its relief is Hostetter's Stomach Bitters, a medicine also adapted to the relief of dyspepsia, constipation, kidney and rheumatic ailments and malaria.
