

## SORROWFULLY SHE DEPARTS

The Ex-Queen of Hawaii a very Sick Woman.

SUFFERING WITH A CANCER.

Seeks the Mild Climate of Her Island Home—Still Wants Money for Crown.

SAN FRANCISCO, May 21.—Ex-Queen Lilioukalani has arrived and will sail for Honolulu on May 30th. Her secretary admitted that the queen had been suffering for three years from a cancer on the neck. Dr. English, who accompanies her, declares that the soft, mild climate of Honolulu will effect a cure, but the queen's intimate friends here say sorrowfully that she is going home to die. Queen Lilioukalani hopes that congress, before it adjourns, will grant her a quarter of a million dollars as compensation for her crown.

### EXPIATED HIS CRIME.

Murderer Meyer Was Electrocuted Today.

SING SING, N. Y., May 21.—Fritz Meyer, who murdered Policeman Smith of New York, was electrocuted at 6:05 this morning in the prison. He went to death coolly and with indifference. Meyer, until a few hours before the last, stoutly declared he was an atheist, but became a christian last night.

On October 27, 1897, Meyer entered the church of the Holy Redeemer at New York and attempted to rob the poor box. A priest who saw him summoned a policeman named Smith, who attempted to arrest Meyer, but was shot dead. Meyer escaped from the church, but another policeman close at hand soon arrested him. The crowd which got wind of the tragedy gathered about the murderer and his captor and it looked like he would be lynched. During the trial it was brought out that Meyer had previously robbed the church of Holy Trinity and murdered an aged bell-ringer who discovered him in the church.

### GOVERNOR ROOSEVELT.

His Ancestry is Traced Back to Pennsylvania. WEST CHESTER, May 18.—There having been considerable discussion as to the ancestry of Governor Theodore Roosevelt of New York, a member of the Chester county bar has interested himself in tracing the matter up, and has succeeded in establishing the fact that the Governor is a descendant of a Pennsylvania family.

In the old records on file at the Court House here, mention is made of John Dunwoody of the Scotch-Irish settlement in Londonderry township, this county, who married Susan Criswell about 1737. Among the children born to this couple was James Dunwoody, who when a young man studied medicine and emigrated to Georgia. This Dr. James Dunwoody was the grandfather of the mother of Gov. Roosevelt, and the great-grandfather of the Governor himself.

A letter was written the Governor in reference to the matter by William S. Harris, and he received this reply: "DEAR SIR—Replying to yours of the 12th inst., it is true that I am of Scotch-Irish blood, partly Pennsylvanian and partly Georgian. Dunwoody is a family name of ours, but I am sorry to say that I have no conception of exactly where it comes in in our ancestry." There are many members of the Dunwoody and Criswell families residing in Chester county at the present time.

### THE KENTUCKY WRANGLE.

The Supreme Court Decides That It Has No Jurisdiction.

WASHINGTON, May 21.—The United States Supreme Court today decided that it had no jurisdiction in the Kentucky gubernatorial wrangle, because no federal question is involved, and dismissed the petition of W. S. Taylor, the republican incumbent for hearing. This leaves victory with the democratic governor and the legal action of Kentucky.

Mrs. W. W. Weed returned to Bisbee Saturday afternoon from a visit to Tucson, where she has been attending the bedside of her sick daughter, who is now convalescing.

### RAID ON ALVORD.

The Mexican Authorities Find the Bird Had Flown.

Charles N. Thomas, at one time mayor of Tombstone, and who has been spending much of his time of late in Mexico, is a visitor in Bisbee today. Mr. Thomas' business claims his attention throughout Sonora, but he comes direct from Guaymas, where, he informs the REVIEW, considerable excitement was occasioned last Wednesday when a former Cochise county man made it known that he had seen Burt Alvord at Torres, a town 60 or 70 miles distant from Guaymas, who was making inquiry as to the time the first steamer would leave for Mazatlan.

Many American miners are stopping at Guaymas, awaiting a cessation of hostilities, and the authorities, upon learning that Alvord was in the country, made a raid on the American headquarters, hoping to capture the bold bandit. Officers have been dispatched to Torres, and if Alvord is in that section it is more than likely that he will be captured and returned to the United States.

Mr. Thomas informs the REVIEW that the Yaqui rebellion is still in full force, and that many American miners are waiting around Guaymas until such time as they deem it advisable to go into the mining fields. They do not fear the Yaquis, but it is the Mexican soldiers who have deserted from the army and are responsible for all the depredations lately visited upon foreigners in that section. His many Cochise county friends will be pleased to learn that Mr. Thomas has met with substantial success while in our sister republic. He will return to Sonora after renewing acquaintances in Bisbee and Cochise county.

### HEAVY SENTENCE FOR A TRIFLE.

An American in Mexico Sent to Jail Six Years for Stone Throwing.

AUSTIN, Texas, May 21.—A dispatch from San Luis Potosi, Mexico, says John McMillan, an American, after being held in jail for eight months without a trial, has been sentenced to six years' imprisonment in the state penitentiary there on charge of being in a crowd of men who were throwing stones, one of which accidentally struck a Mexican woman, but did her no injury. Members of the American colony in San Luis Potosi have interested themselves in the case and have laid the matter before United States Ambassador Powell Clayton, in the City of Mexico. It is asserted that McMillan was wholly innocent of any offense, however slight, and that his severe sentence is due to the prejudice of a local judge against all Americans.

### SIBERIAN EXILE ABOLISHED.

No More Russian Suspects to Be Sent There Without Judicial Inquiry.

LONDON, May 19.—On Monday last, on the initiative of the Czar, the Russian council unanimously passed the bill abolishing transport to Siberia and arbitrary exile without judicial inquiry. It absolutely abolished the transportation of criminals in the mass of cases, and the construction of central prisons for their temporary reception will be hurried.

What this means may be partly appreciated from a consideration of the fact that there are 300,000 exiles now in Siberia, half of them without having had a trial. Two-thirds of these lead a nomadic life, preying on the country and suffering and inflicting violence and misery. The remainder have settled down to a struggle to earn an honest livelihood.

### WORK OF A MANIAC.

Killed his Friend that he Would Have Company in Hereafter.

DENVER, COLO., May 21.—Walter W. Williams, an undertaker, yesterday afternoon killed his friend William A. Douner, Williams called Douner to the door of his room and shot him twice. Death was instantaneous. Turning the gun upon himself he suicided, sending a bullet through his chest. Williams had been drinking sometime, and left word that he feared the hereafter without a companion and was going to kill his bosom friend before committing suicide.

### Official Confirmation.

LONDON, May 21.—The relief of Mafeking is officially confirmed.

Paul Hull, late publisher of the defunct Arizona Graphic, and who will furnish editorial pabulum according to latter-day democrats for the forthcoming Bisbee Herald spent last Sunday in the line city. He crossed over into the land of Montezuma and then crossed back again, his enlarged appearance giving evidence that the ozone of Manyana is a good thing to take in with a first-class Mexican cigar.

## BADEN-POWELL

### MAKES REPORT.

A Description of a Musketry Demonstration.

GEN. ELOFF'S RETREAT CUT OFF.

His Forces Were Lost in the Dark and Were Completely Surrounded.

LONDON, May 21.—Colonel Baden-Powell reports from Mafeking under date of May 13, through Roberts, as follows: Before dawn today, a storming party of 250 rushed pickets got into the Staats Protectorate camps from the west along the Molopo Valley. A strong musketry demonstration occurred simultaneously on the eastern front. The western posts closed in and stopped the batteries, our supports following and cutting off Eloff's retreat, while the town defenses stopped his further advance. Eloff's forces got lost in the darkness and a strong party has sent between it and completely surrounded it. The fighting continued all day, and soon after night fall two parties surrounded and others were driven out of the Staats under a heavy fire. Ten dead and nineteen wounded were left behind. One hundred and eight prisoners were taken, including Eloff, nine officers, seventeen Frenchmen and many Germans. Our loss is six killed and two officers and nine men wounded.

### Mongolians Will Not Submit.

SAN FRANCISCO, May 21.—Business is suspended. In the Chinese quarters knots of Chinese stood in the streets discussing the plague situation and expressing their determination not to submit to inoculation. They say they would rather die from the plague.

Mr. Packard and his partner, Mr. Gates, left on this morning's passenger.

James Roach, an old time miner of Bisbee, returned yesterday from the Prescott country, after an absence of five years. Jim will place his future in southern Arizona, declaring there is no other section that will equal Cochise county.

An interesting time is anticipated at the opera house tonight when the "Greatest Combination of the 19th century will produce a trip to the Philippine Islands and return in an hour and fifteen minutes." The company playing at the opera house is spoken of very highly by the press.

Col. Alex O. Brodie, who was in Phoenix a few days since from his Crown Point mine, reports a lively interest in mining matters in that vicinity. The Crown Point is exceeding all expectations in the matter of ore, though the water supply is somewhat limited. The mill, which was recently erected, gives good satisfaction, only that the limited water supply prevents a steady run. The water used is pumped from the mine and sinking continues in the hope of developing the supply. The search for water, however, brings to view constantly new ore bodies, a fact in itself very gratifying, for though a big water supply at the mine is very desirable it is not an absolute necessity. The Hassayampa river is not far distant and if water is not found at the mine it can be pumped and piped from the river, though it would involve an expense. Mr. Brodie believes it will be avoided.

The Bluet Boot and Shoe store of Bisbee has a distinction that draws to it the patronage of all the old-timers in Southern Arizona. It is the oldest mercantile house in Bisbee, having begun business eighteen years ago, when only the Copper Queen company supplied the demands of the southern Cochise trade. Mrs. Bluet is to be congratulated upon the successful manner in which she has conducted this business, her prosperity being attributable to strict business methods, furnishing the best carried in her lines at reasonable rates, being satisfied with a small margin on the money invested. But the Boot and Shoe store is really a misnomer, for, aside from making a specialty of these articles, a department for gentlemen's furnishing goods, ladies' ready-made skirts and a large line of millinery, is complete in every detail. With age the house has grown in public favor.

### THE COBRE GRANDE.

A Supreme Court Decision in Favor of the Company.

The Phoenix Republican of the 18th says: Mr. L. H. Chambers, attorney for the Cobre Grande Mining company, has returned from the City of Mexico, where he has been the last three weeks engaged in an adjustment of the dispute between the company and W. C. Greene and his associates. Much has been published in Arizona and Texas papers regarding the contention between the Cobre Grande and Greene people, and it came to be generally understood that the latter had been placed in undisputed possession of the valuable Cobre Grande mine.

Said Mr. Chambers last night: "We have not cared to go into print until something could be definitely said and I was surprised from time to time to read in American papers that the Greene people were ultimately victorious and the case was at an end. I may now say that the situation is as follows: We brought suit in the court of Arizona for possession of the mine and a decree was ordered in our favor, whereupon Mr. Greene took a writ of amparo. A writ of amparo corresponds in a general way to our writ of habeas corpus, and may be sued out at any stage of a legal proceeding, the person praying for it averting that he is being deprived of his constitutional rights.

"In this case, after the decree giving us possession of the Cobre Grande had been issued, Mr. Greene obtained a writ of amparo, having sworn that the judge of the court at Arizpe was in collusion with the Cobre Grande company. This writ has the effect of interrupting any legal proceedings which may be in progress and goes directly to the supreme court of the republic. The writ in this case has been fully heard and dismissed by the unanimous voice of the supreme court, whose members say that on the showing of Mr. Malgarejo they are surprised that the Greene people had the audacity to ask for the writ. It is the belief of the judges of the supreme court and of the court at Arizpe that Mr. Greene and his associates were endeavoring to deprive the Cobre Grande company of its rights.

"The company is left, by this decision, to proceed with litigation in the court at Arizpe and it is safe to say that only a short time will intervene before the order already issued will be enforced. The course taken by Mr. Greene and his party was a last desperate stand on technicalities and the Mexican courts have expressed themselves as convinced that they have no rights in the property and have so decided.

### Obituary.

The Angel of Death visited the home of Neill E. Ferguson yesterday. His infant child died of an attack of tonsillitis. The attending physician, Dr. Edmundson, was unable to save the child, who was literally strangled by the tonsillic attack.

The funeral, which occurred this afternoon at 2 o'clock, was largely attended by the friends of the bereaved parents.

John Cronman, who was overtaken by a painful accident while working in the mine some time since, is able to be around again.

J. A. Kelly, formerly with the Bank of Bisbee, but more recently with the commercial department of the Copper Queen company, has resigned the latter position to accept a place with the COCHISE REVIEW. Mr. Kelly is at home in any department of business he may be placed, and the REVIEW and Mr. Kelly expect mutual results.

The socialists are after John James Ingalls. However, Jon J. wont particularly mind; the old bird has been indulged by many a moon of caustic debate. There was a time in his tortuous career when he was set upon simultaneously by a clergyman and Bob Fitzsimmons. Ingalls impaled the doctrine on the deadly rapier of his wit, but Bob proved more obdurate. It was he who stigmatized the writer as "a living skeleton with a rubber neck."

J. A. Kelley of the REVIEW spent the Sabbath in Naco, calling on his numerous friends and incidentally doing some business for the paper. A two hours' downpour of rain visited Naco yesterday afternoon, following which a damaging hailstorm occurred. The stones were as large as his fist, says Mr. Kelly, and they met with no resistance when they struck the tents, penetrating them as though they were missiles fired from a Mautser. The wind blew quite heavily also, razing a few flimsy structures to the earth. Fortunately there was no casualties.

### BUSINESS LOCALS.

D. V. Daniels, customs house collector at Naco, visited Bisbee last evening.

WANTED—A live, energetic young man of good address, willing to work. Must be reliable and able to keep books. It is necessary that he be able to find his pockets without an index.

Why in thunder don't you have your claims patented and avoid assessment? See the Southwestern Engineers' ad. m14,1w
