## Masquerade Ball A Decided Success

(From Tuesday's Examiner)  
Much credit must be given A. J. Marquard and R. F. Hawver for the masterful way in which they handled the Masquerade ball given at the Yuma theatre last evening. It was a decided success from every standpoint.  
Yuma people present saw some of the most elaborate costumes ever gotten together, and these costumes varied from the "Country Hoosier" to the "Spanish Cavalier."  
Fully 150 couples were on the floor, one of the largest gatherings Yuma has ever witnessed.  
The music and the floor were perfect and when Mr. Ray and wife led off the grand march, it was easy to see that it was destined to be one of the most successful balls ever held in Yuma.  
The various costumes in the march with the gold and silver trimmings was a feature not to be forgotten.  
There were four handsome prizes up, the first two for the finest costumes, which were awarded to Miss Lattimore, the charming milliner at Sanguinetti's, and Jas. J. Apostle.  
Miss Lattimore received a handsome handbag and Mrs. Apostle a leather pillow cover.  
The other two prizes were for the most comic costumes, and these were awarded to Miss Wilson and Dr. R. R. Knotts, Miss Wilson receiving a two pound box of Rough House Chocolates and Dr. Knotts, a camera.  
Mr. Apostle represented "Little Nemo" and the costume was perfect.  
Miss Lattimore represented the "Princess," and her costume could not have been improved upon, and with the jeweled cover and pearls, she looked stunning indeed.  
Miss Wilson's representation was that of a colored girl and the part was not only well dressed, but well acted, while Dr. Knotts represented the "Country Hoosier," in a style peculiarly his own and which won him much applause.  
The three judges who awarded the prizes were Councilman A. L. Verdugo, P. J. Sullivan and Charlie Ewing.  
Other beautiful costumes noted on the floor were those of Miss Ruby Livingston and Mrs. John Beaubee.  
Miss Livingston was made up as a girl and Mrs. Beaubee as an Indian maiden. Both representations were almost perfect.  
The entire evening proved most enjoyable from the first to the last dance.

The Yuma Ice Company's soda water is the best. Only pure distilled water is used in its manufacture, therefore it is also the most healthful drink no other. tf

## San Diego Boosters Coming to Yuma

San Diego, November 1—(Special to the Yuma Examiner)—Arrangements are complete for the San Diego Exposition Boosters' train which will leave here Friday evening with 150 men and women representing the business and social life of San Diego to greet the new state of Arizona.  
The train is really the finest ever assembled in the United States, and is a much finer train than that used by President Taft on his recent trip.  
It will be open to inspection at the different cities of Arizona where the party will visit. A complete telephone exchange will be in operation on the train, with a telephone directory giving the names of the passengers, their berth number and their phone number. Compartment cars, composite cars, the largest diners in service and the heaviest engines, electric lights and complete service will make the train a veritable first class hotel on wheels. Some of the cars even have bath rooms.

The boosters plan to spend one day at the Grand Canyon where Director General Collier, of the exposition, will join them from Santa Fe, N. M.  
One evening at Prescott, two days at Phoenix, half a day at Yuma, and half a day and the evening at the Imperial valley will complete the trip.  
Elaborate preparations for entertainment en route and at the different cities visited have been completed. A band of entertainers, amateur musicians and lots of literature will be taken along.

The purpose of the trip is to cement the close relations that exist between the new state of Arizona and San Diego; relations that will be closer when the San Diego & Arizona railroad is finished.  
San Diego is sending her greatest spell binders to make speeches and her prettiest women to charm the Arizonians from one end of the new state to the other. It will be a boost trip from the time the train leaves here, until it pulls in six days later.
