Federal Contractor Begins Real Work

Phoenix, December 11—With the arrival in Phoenix yesterday of W. H. Maxwell, the contractor who will erect the new \$150,000 postoffice and federal court building on North First avenue, between Monroe and VanBuren streets, assurance is given that building operations will begin at once.

Mr. Maxwell had not been in town more than 15 minutes before he was in conference with Superintendent of Construction Lee Ullery of the buildings bureau of the postoffice department and Postmaster J. H. McClintock. He has with him Lewis Gale, one of his construction foremen, who will remain in Phoenix until the building is completed and turned over to the government. Two other foremen are expected to arrive here tomorrow.

Los Angeles, Dec. 11—Calbraith P. Rodgers finished his ocean to ocean flight at Long Beach at 4:00 o'clock yesterday afternoon.

Three minutes later an excited mob of thousands of spectators broke over the ropes, overwhelmed the police force, and with a wild shout of triumph seized the aviator's biplane and bore it backwards over 200 feet of sand until its rear end was laved in the waters of the Pacific.

Munsey Is Called

Salt Lake City, December 10—J. E. Munsey, business agent for the Iron Workers' organization accompanied by Mrs. Munsey, left this afternoon for Los Angeles, where he will appear before the federal grand jury now investigating the dynamiting conspiracy.

It is said by the federal officers that after J. B. McNamara dynamited the Times, he remained for two weeks a secret guest at the Munsey home.

The New State of Arizona

According to Governor Sloan the new state of Arizona comes into the union with a population of 225,000, against 204,354 in 1910. The increase in the year was largely in the farming sections, perhaps the best kind of increase.

As to the coming statehood, the Governor says: "The privileges of statehood are such as to warrant the expectation, that if the affairs of our new state shall be conducted economically and with reasonable prudence, our population will rapidly increase and be followed by a development of our resources to a degree which we could not reasonably expect should we remain a territory."

Arizona approaches statehood with the knowledge that it has an excellent school system, maintaining a high standard for teachers and affording advantages to our children equal to those found in older states.

The public school statistics are: Children of school age (6 to 21) 39,611 Enrolled in the public schools 31,686 Enrolled in high schools 1,343 Attending private schools alone 2,104 Average daily attendance, public and high 21,776 Male teachers 149 Female Teachers 736

Roosevelt Approves Presidential Primary

Oyster Bay, Dec. 11—Upon receiving a copy of Hoval A. Smith presidential primary plank in the Republican platform in Arizona, Theodore Roosevelt promptly replied, giving the plank his hearty endorsement "for Arizona and everywhere else as just the sort of sane progressivism which the country needs."

McManigal Will Soon Go to Indianapolis

Los Angeles, Dec. 10—Ortie E. McManigal is going to Indianapolis in a few days to tell the federal grand jury there what he knows of the alleged dynamiting conspiracy.

Just when he will leave here has not been determined, but he will be in Indianapolis by December 22.

McManigal said to-day: "I will tell the grand jury everything I know. I have nothing to conceal. I consider it my duty to give the authorities all the information in my possession."

No Red Cross Seals On Parcel's Face

Buy Red Cross seals and put them on the BACK of your Christmas parcels, put them on the back of your letters, use them for wrinkle plasters; to cure your crow's feet; perforate them and stick them or place them on your back instead of the "old reliable" porous plaster, paint them black and use them for beauty plasters, do anything with them that suggests itself to your mind, but DO NOT put them on the front or address side of your letters or packages, because your Uncle Samuel has a ruling against it.

Fire Destroys Big Portion of Luna Park

New York, Dec. 11—Fire started this afternoon at Luna Park, one of the great show places at Coney Island. More than half of the park is destroyed and at 3:30 p. m., the flames are still uncontrolled. Structures across the street are threatened and the entire island is alarmed.

The Yuma Ice Company's soda water is the best. Only pure distilled water is used in its manufacture, therefore it is also the most healthful drink no other.

The Yuma Ice Company's Extra Dry Ginger Ale is on sale wherever drinks are sold. Try it.
