### FAMILY OUT OF STATE KUNSELMAN HOME BURNS

Frame Residence on North Third Avenue Destroyed By Evening Fire

Fire of unknown origin completely destroyed the frame residence of Contractor C. H. Kunselman, at 325 North Third avenue about 8:15 o'clock last evening. The building was unoccupied at the time, Kunselman, together with Lee Long, being in Utah on an automobile trip while the remainder of the family is in California during the summer months. When discovered the fire had gained such headway that there was little for the firemen to do but extinguish the flames which completely enveloped the structure and to protect surrounding property.

### LADIES! LOOK YOUNG, DARKEN GRAY HAIR

Use the Old-Time Sage Tea and Sulphur and Nobody Will Know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it falls, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyer's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

The ringing of the Central school bell was the first intimation the firemen had that a fire was in progress. A minute later somebody telephoned that a building was burning in the 300 block on North Third avenue. Box 25 was sounded and the firemen made a quick run to the scene of the blaze. It is estimated that the loss will probably amount into several thousand dollars, as little, if anything, was saved. The building and contents were insured.

The irony of fate figured in the fire of last evening, for only the day before, word was received here that Kunselman and Lee, who had arrived at the Shebit Indian agency, twelve miles from St. George, Utah, and 100 miles from a railroad, had suffered the loss of their car which had been burned. They were forced to make other arrangements to reach civilization.

### HAULING GRAVEL FOR THE GLENDALE ROAD

The contract for hauling the gravel to be used on the Glendale road was let yesterday at the office of the state engineer and the work of transporting material will begin today. J. D. Lee of Phoenix was the successful bidder for this part of the work. In all 12,000 cubic yards of gravel will be distributed along the road in readiness for the actual work of road building. Of this amount 200 yards will be hauled from south of the city, and the remainder brought in by rail, probably from the vicinity of Tempe. Preliminary survey work on the road to the Sugar City was completed some time ago, and as soon as the material for the twenty odd culverts is received and the gravel distributed, actual construction work will be begun.

### Y. W. C. A. GENERAL SECRETARY RETURNS

Mrs. E. N. Phillips, general secretary of the Young Women's Christian Association returned yesterday from a month's vacation spent at the California resorts, which included naturally San Francisco and the beach towns, Monterey, the far famed Valley of the Moon, which has recently been the scene of taking the motion picture dramatization of Jack London's novel of the same name, and Los Angeles.

During her absence Mrs. Phillips attended the secretary's conference of the Y. W. C. A. which was held near Pacific Grove. There were in attendance here a number of the more prominent workers in the Y. W. throughout the United States, and the conferences took the nature of extension work largely for employed officers.

The work of the local Y. W. will now take on added impetus with the return of the popular and efficient general secretary. The fall gym classes are to be inaugurated shortly registrations for the same beginning about the middle of the month. The classes themselves will open about October 1.

A number of other activities will be started among which will be a girls' employment bureau, the noon lunches and the down town rest room. Sunday afternoon vesper services will re-open in the very near future. The association looks for a most successful fall and winter's work.

### MYSTERIOUS RAFFLES TO BEGIN PECULATIONS

For some days past it has been rumored that the mysterious Mr. Raffles has been seen in Phoenix. Yesterday's developments made these rumors a certainty, for the light-fingered gentleman was seen by a number of different people and is known to be operating in this vicinity. Raffles is one of the most interesting characters to be found in this country. A born criminal, he is absolutely harmless and purloins things more for the excitement of eluding capture than for any actual value he gets from the results of his operations.

A man who claims that he saw him last evening was acquainted with him in the east, and states that he cannot be mistaken. He was in the northern part of town, wearing a gray suit and apparently had on a black eye mask or large black glasses. If it really is Raffles there is a merry chase ahead for professional and amateur detectives, for he is always careful to leave a semblance of a trail after his operations and takes care that the police are made aware of it and then matches his wits against theirs in the pursuit that invariably follows.

### IMPOLITE BURGLAR VISITS DR. CONNOR

A most unaccommodating thief visited the home of Dr. D. L. Connor, west of town Tuesday evening, not being satisfied with taking what he could find in the house, he took also with him the key to the house leaving the doctor cruelly locked outside. In addition to this inconvenience Dr. Connor is out a gold watch, and many other things of value as a result of the impolite visit. For some time past Dr. Connor has been in the habit of leaving the key to his house at a certain place, including in fact, and since Mrs. Connor and the family are spending the vacation at Long Beach, the house is often left without anyone there for some hours during the doctor's business engagements down town.

Whoever the thief was, he knew where the key was hidden, and proceeded to help himself, getting into the house, committing the depredations complained of and following that up by taking the key off with him. When Dr. Connor got back home he couldn't get within. Then followed the investigation and the discovery of the theft.

### SECOND PICTURE OF ALICE JOYCE SERIES

"The Show Girl's Glove," the second picture of the Alice Joyce series of pictures that is being produced by the great Kalem company and which are being shown at the Lamara theater exclusively, will be shown there today and tomorrow. The success which has attended these pictures in other parts of the United States should draw heavily upon the numbers of the movie fans of the town and the theater comfortable, which is the Lamara, ought to be crowded to capacity all day today and tomorrow.

In this absorbing drama, Miss Joyce portrays the role of a wife who runs down the perpetrator of a crime for which her husband faces the gallows. According to the story, Dick Hampton breaks his engagement with Stella Desmond, a show girl, when he makes some discoveries concerning her past. Pretending she is about to commit suicide, the girl raises a knife. Dick seizes her hand and in the struggle is accidentally killed. Stella contrives to have suspicion fall upon John, the murdered boy's brother, whom she hates. John is arrested. Mrs. Hampton visits the scene of the crime and finds a woman's glove. A girl whom she has befriended sees the glove and informs Mrs. Hampton that her father, a raggie picker, has brought home a similar glove. Mrs. Hampton is led to suspect Stella and manages to secure a position as the show girl's maid. While thus employed, she arrange a denouement

## To the Voters of Arizona:

Having an intimate knowledge of the many benefits derived by the business men, manufacturers and people generally of Arizona, from the services of F. A. Jones on the Arizona Corporation Commission and as a member of this organization, the members of the Maricopa County Commercial Club have unanimously decided to appeal to the people of the state in Mr. Jones' behalf.

It was only at the earnest solicitation of hundreds of residents of the state that Mr. Jones decided to enter the contest for renomination on the democratic ticket for the position he now holds. His announcement was made at a late date, and for this reason has not received as much publicity throughout the state as it would had he presented his name earlier.

In all parts of the west Mr. Jones is recognized as one of the country's ablest traffic experts. Possessing as he does a full knowledge of rate-making and the many intricate points involved, he has proved of inestimable value to the people of the state as a member of the Corporation Commission. So much has been accomplished for the direct benefit of the people by the activities of Mr. Jones as a member of the Commission that we feel it would be a gross oversight on the part of our people to fail to nominate him at the coming primary election.

The Maricopa County Commercial Club is not a political organization; neither is it the personal political machine of any man or set of men. The Club was organized some years ago for the purpose of doing everything possible to secure better and more equitable freight rates for the people of Arizona. With the able assistance of Mr. Jones we have succeeded to some extent, and feel that only by his retention on the commission can the work thus begun be carried to a successful issue. Our Club has kept in close touch with all matters pertaining to freight regulation in Arizona. We know of the splendid work done by Mr. Jones and feel it is a duty we owe, both to him and to the people, to advise the voters of Arizona of the many things he has accomplished that have been of direct benefit to every man, woman and child in the state.

In justice to Mr. Jones, we have decided to conduct a newspaper publicity campaign, setting forth numerous concrete examples of savings of thousands of dollars made to the people by his tireless efforts. It is but the object of the present letter to place Mr. Jones' name before the people as a candidate for nomination for Corporation Commissioner. In subsequent articles we will present facts and figures to bear out the statements we have made herein in his behalf.

DAILY AND SUNDAY

which brings a confession from the murderer. The manner in which this is done will hold spectators wide-eyed. Alice Hollister and Harry Millard appear with Miss Joyce in this drama.

INVESTMENT PERMITS — The corporation commission yesterday granted investment permits to the Antelope Peak Copper Mining company of Winkelman, and the Yavapai Mining & Milling company of Phoenix. Permission was also granted the Salome Oil company of Globe to purchase 4000 acres of oil land.

### "BREWSTER'S MILLIONS" AT ARIZONA THEATER

"Brewster's Millions" well known as one of the tremendous hits of five years ago, and to the present day in book form, one of the very best sellers, is now a motion picture comedy drama, product of the Jesse L. Lasky Feature Play company and

comes to the Arizona theatre tonight. The story of "Brewster's Millions" in brief, tells of Monte Brewster, who is bequeathed a million dollars by an uncle. Another uncle in the west, who dislikes the first uncle wills young Brewster seven million dollars upon condition that he spends the first uncle's million dollars within a year. He is not to squander the money, is to show receipts at the end of the year for the entire million, yet he must possess nothing of value at the expiration of the year. Young Brewster accepts the condition

and the troubles and tribulations attendant upon his endeavor to spend the million dollars makes one of the most fascinating stories ever concocted. The motion picture of this famous stage play is in five parts and composed of over 200 scenes, and was produced at an expense exceeding \$50,000. In addition there will be shown a splendid Biograph farce, "The Boiler-maker's Day of Rest" and the famous Edison, "Across the Burning Trestle," making seven reels in all tonight.
