DOUGLAS GETS SIXTH FRANCHISE AS RESULT OF LEAGUE CONFERENCE

Phoenix Opens at Tucson, Las Cruces at El Paso and Douglas at Albuquerque on April 27—Here Week After

BY HERB HESTER (Manager Phoenix Baseball Club, Rio Grande League) TUCSON, April 15.—(Special).—Douglas gets the sixth franchise in the league. The meeting today weighed the offers of three cities, Douglas, Silver City and Nogales, and accepted what appeared to be the best one.

Tonight the owners and managers are conferring here with President Hughes and John J. McLoskey over the schedule and other matters. Phoenix loses a chance to open the season at home.

Las Cruces at El Paso, Douglas at Albuquerque.

Phoenix at Tucson. That is the way they start the season on April 27. The following week Phoenix and Tucson open at Phoenix.

when the special tickets sold to the boosters will be honored.

The deal was closed yesterday whereby the Phoenix team, or such of it as is on the ground, will play the Indians at the school tomorrow afternoon at 3:29 o'clock and a combined team of Tempe and Mesa players Sunday at 3:30 at Riverside. Neither the park nor the players will present a very good appearance Sunday. Improvements on the former are not yet complete, and while the two-inch pipe has been nearly installed, it will not be in use until after Monday.

The new uniforms have not arrived for the Phoenix players and they will be dressed in everything from Coast League suits to gunny sacks. No snap judgment should be rendered on the play of the Phoenixians Sunday, for the diamond is utterly impossible from the viewpoint of a fast ball player. None of the players has found himself on the dusty diamond yet, but daily practice is putting the team in shape.

PETERSON SURVIVED ARIZONA'S DROUTH

To Ted Peterson, a very live member of the original water board, who was at the dam yesterday, the news in The Republican, that he had died, came as a great surprise. Mr. Peterson's name got confused with that of J. T. Priest, the only member of the board who has not survived the drouth he worked so hard to vanquish.

"I desire to be reassociated in a manner that will leave no question as to my liveness, and that will be pleasing to me and to the members of my immediate family," said the reported dead one.

EXPERIENCE IS FAR

ness was a teacher at Cornell, and identified himself as a practical sociologist by stating that he made a social survey of the packing industry in 1910 and 1911 for the University of Chicago settlement. The editing committee declined to publish his "interpretations and conclusions based on facts," he said. In this he thought the crew.

Kennedy said the survey was accomplished by permission of the packers, who gave him access to the books upon the representation that the inquiry was to be strictly scientific. He said an attorney of Armour and company, to whom by previous agreement the manuscript was submitted, wrote to the editing committee that the facts established were accurate but the conclusions, in effect, that low wages were at the bottom of all evils of the existence of unskilled labor at yards, and that a labor union offered the only solution, went beyond the bounds agreed to when the books were opened for his inspection.

Unskilled labor at the yards, Mr. Kennedy said, at the beginning was English and German; now it is largely Slavonic. He intimated that large numbers of these unlettered laborers had been lured to this country for the purpose of providing an over-supply of labor. In any event, the supply was always greater than the demand, he added, and the workers receive an average of \$10 to \$12 a week when steadily employed, which most of them he said, are not. He used Armour and company as an illustration, he said, because J. Ogden Armour is to testify tomorrow, and he wished to be fair, but conditions at the Armour plant, he said, were typical.

The low wages carry in their train unsanitary housing conditions, child labor and a high mortality rate. Of the deaths in the stock yards district he said, thirty per cent, were due to tuberculosis. The expenses of the average unskilled workers family, he asserted, were shown by his investigations to run \$200 a year beyond absolute requirements. Thus children and wives were sent out to make up the deficit or boarders taken in to further defoul the air of already crowded cottages, Mr. Kennedy declared.

"I was forced to trace every one of these evils to inadequate compensation," said the witness.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay gray! Here's a simple recipe that anybody can apply with a hair brush.

The use of Sage and Sulphur for restoring faded gray hair to its natural color dates back to grand-mother's time. She used to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.
