No. 10, east-bound, daily at 4:33 a. m.

Judge W. H. Benson went to Kelvin Wednesday.

BORN—In Florence, July 3, to the wife of Sr. Juan Solis, a daughter.

Pete Schilling, of Mineral Creek, will leave to-day for Cripple Creek and the east.

Carlos H. Tully, editor of the *Allianza*, of Tucson, was a visitor in Florence this week.

Allen Whitlow, of Mesa, spent several days in Florence this week among his old friends.

Mrs. L. K. Draai took Thursday's excursion for California to take a much needed rest.

The aged mother of Hon. J. A. Marshall, of Phoenix, died at Glasgow, Nova Scotia, on the 9th inst.

Louis Melzer of Phoenix and Julius Goldbaum of Tucson were registered at the Florence Hotel Monday.

There is no need of denying the fact that the weather has been very warm and enervating for the past week.

General Manning, of Tucson, now has the contract for hauling the freight for the Ray Mines, Limited, between Red Rock and Kelvin.

The Arizona Telephone Directory has just been issued, containing the names and numbers of subscribers to the Sunset Long-Distance lines in the territory.

Jim Willis, convicted of stealing cattle on the San Carlos reservation, and whose case was appealed to the Supreme Court, has been admitted to bail in \$300.

Nick White has recovered from the effects of the rattlesnake bite received some time ago and is profuse in his praise of the skillful treatment received at the hands of Dr. Broekway.

The mining camp of McCabe, Yavapai county, had a \$7,000 fire on the 4th of July. All the business portion of the town was destroyed except the store of C. W. French (formerly of Florence) and one saloon.

Alex. Barker and Ed. Thomas were below Casa Grande this week looking at mines. The latter will leave to-day for his old home in Leavenworth, Kansas, for a short visit when he will again go to Mexico for W. P. Dunham.

Miss Mabel Berry arrived Monday from Fayetteville, Ark., and received a warm welcome at the hands of her parents, Mr. and Mrs. W. D. Berry. Mabel is a bright little girl of ten or twelve years, and made the long trip alone without mishap.

A letter received this week from District Attorney Stone reports his health steadily improving. He and the family are at Stockton, Cal., and are pleasantly situated. Ted, and the old man had been a-fishing, but it was not stated whether they caught anything.

Dr. George M. Brockway will go to the coast with his family in a week or two to take a much needed rest. The doctor has been with us for over six years and in that time has not taken a vacation, although his extensive practice has been very wearing on him. Dr. J. E. Maddux will have charge of the county hospital and Dr. Brockway's outside patients in his absence.

A. T. Colton and his surveying party left Florence last Tuesday for Mohave county, where they will run the lines of the Mohave Indian reservation. Those employed on the survey will be W. E. Kentfield, Andy O'Connor, Otis Wilson, Wm. McGee, Tobe Whitlow and Mr. Smith. Jim Sam will do the cooking for the outfit. Mrs. Colton and three daughters and Mrs. F. M. Doan and son Fletcher also went along for an outing. They will take in the Grand Canyon and other places of interest in the northern part of the territory before their return, and expect to have a glorious time. Judge Doan will join the party in two or three weeks. The outfit consists of two good teams and wagons and goes well supplied.

Millions Involved.
The Colorado Springs Gazette of June 28 contains the full text of the petition of W. P. Dunham to the Secretary of the Interior asking that suit be instituted by the Government to set aside the patent to the Hull City placer at Cripple Creek, Colorado. A careful reading of the fourteen columns of closely printed matter can lead to no other conclusion than that the patent was obtained by perjury and fraud, as three of the principal witnesses have confessed their crime. On the showing made Secretary Hitchcock promptly issued an order to the Attorney General directing him to bring suit at once. Some of the most valuable mining property in Cripple Creek is involved in this controversy and a number of the best lawyers in the country are engaged in the case. Mr. Dunham has just returned to Colorado from Washington with his attorney, Gen. John W. Noble, of St. Louis, and is jubilant over his victory, as there is now little doubt that he will recover the property for which he has been so gamely fighting. Big-hearted and generous, we know of no man whom millions will be less likely to spoil than William P. Dunham, of Mineral Creek, Pinal county, Arizona.

Steve Bailey returned Thursday from Globe, where he went to get Tom Burns, under indictment for rape said to have been committed on the San Pedro. Burns furnished bonds and was allowed to remain in Gila county until our next term of court. Steve reports Globe to be quite lively, though the weather was very warm there and he was glad to get back where the gentle and cooling zephyrs sweep across the prairies. Globe is too shut in by the mountains.

A number of freighters between Red Rock and Kelvin are now coming through Florence, claiming that the road is better although somewhat longer, enabling them to make better time. Those who have already passed through this way with their big teams are Messrs. Mulcahy, Sears and Lou, English, and their reports are so favorable that it is more than likely that all the freighting will come through Florence again.

Acting upon the petition of a majority of the tax-payers of Florence, praying for incorporation, the Board of Supervisors granted the same and appointed Ramon Arballo, J. G. Keating, D. C. Stevens, George A. Brown and T. F. Weedon as aldermen. Subsequently the Board of Aldermen met and elected Weedon chairman, after which adjournment was taken subject to the call of the chair.

Mrs. J. G. Keating and two daughters will take next Thursday's excursion for Los Angeles.

E. J. Edwards, the well known attorney, arrived from Globe last Sunday and his intention is to make Solomonville his future home, he having formed a partnership with Judge W. C. McFarland. The west end of the Solomonville saloon is to be cut off and fitted up for a law office for this new firm. Judge Edwards has always had a good clientele in Graham county, since he moved to Gila county, and he has many friends here who will welcome as a citizen of Graham county.—[Bulletin.]

The capitol building will be ready for occupancy by July 20. The plastering was completed Saturday and only a few odds and ends remaining to be finished before the building will be ready to receive the furniture. The huge metallic statue, sixteen feet high, of the Goddess of Liberty, which will be placed on the dome, has been received and will be placed in position immediately.—[Enterprise.]

It was a wise precaution on the part of the officials to send Billy Stiles to Yuma for safe-keeping as well as to remove him from any possible intercourse with his fellow prisoners or the outside public who out of curiosity desire to see Stiles. John Meta, deputy U. S. Marshal, accompanied Stiles to Yuma, leaving here early Monday morning on the delayed train.—[Star.]

Paris Fair.

The American exhibit at the Paris Exposition will be an open volume, whose lessons of skillfully directed endeavor, unflinching energy and consummate performance may be read by all, of every age. The United States Government Building is about completed, and no effort has been spared to make it worthy to represent our nation. It was by the same American perseverance, industry and unflinching energy that Hostetter's Stomach Bitters, the famous dyspepsia cure, was first produced. Since that time, it has never failed to perform its duty—the cure of constipation, indigestion, biliousness, malaria, fever and ague, liver and kidney troubles. It is an excellent tonic for the general health. All druggists sell it. There is nothing to equal it.

GLOBE ITEMS.

Miss Jessie Edwards, daughter of Judge and Mrs. E. J. Edwards, came in from California this week where she has been in school for over a year. Her friends are delighted at the progress Miss Jessie has made, especially on the piano, for which she has always shown remarkable aptitude.—[Times.]

Charles M. Clark returned last week from Los Angeles, where he has succeeded in interesting capitalists in his electric power enterprise. Engineers are expected here next week to make an examination of the proposition and if the report is favorable, it will be undertaken at once. The scheme is to generate electricity on upper Salt river about 20 miles from Globe, and supply the power to run the mines in this district and also the Ray mines. This proposition is considered entirely feasible.—[Silver Belt.]

J. Addison Peralta Reavis is up to his old tricks, having on June 16 posted an amended notice of a water location filed by him in 1885, in the box canyon of Salt river, below the mouth of Tonto creek, and claiming 200,000 inches of water. Wm. Welcome's name is on the notice as witness. Reavis' claim covers the location of the Hudson reservoir company.—[Silver Belt.]

Globe is threatened with a shortage of water. The well of the Globe water works which supplies the town has been sunk deeper several times, and to-day bedrock was reached, which renders futile any further effort to increase the flow of water. The supply is now about 40,000 gallons, which will suffice for ordinary uses. The irrigation of trees and lawns will be prohibited, and patrons of the water company are cautioned to practice the utmost economy in the use of water, as in case of fire the consequence might be disastrous.—[Silver Belt.]

Everybody who can afford a week off ought to visit the cool resort up on Pinal mountain. If some of the east had this privilege the place would be depopulated and the mountain swarming with people. In three hours slow time you can gain a point on the Pinals from which old Globe looks like a cluster of gnats on a barn door, while the mountain breeze sings the rarest symphonies in the pines, and fragrant verdure is scattered all about you.—[Times.]

When you want a modern, up-to-date physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at Broekway's drug store.

Heartburn.

When the quantity of food taken is too large or the quality too rich heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by Broekway's Pharmacy.

The Future of Silver.

[From the Salt Lake Tribune.]
Where men own silver mines and are not forced to work them, they might let the work drag for a few years, because as gold is increasing in this world, and as things are presenting themselves in China in ten years there will be such an immense volume of gold and such an immense demand for silver for the Orient that under natural laws silver will gravitate back to parity with gold. Possibly the war in South Africa will, in a desultory manner, continue for some months yet, but probabilities are that the mines will be in full working blast within sixty days. In that event the product of the world's gold this year will probably reach \$300,000,000 and by another year, or by two years more at farthest, it will amount to \$400,000,000 and we shall hear the old mosebacks in the East begin to demand that a limitation shall be put on the coinage of gold lest money become too plenty and too cheap. In the meantime, with the Boxers boxed out, the demand for silver in China will be something tremendous. Two years ago China wanted to borrow \$100,000,000 in silver and her statesmen said it could without trouble absorb \$100,000,000 a year for twenty years to come. That would give the people only 45 apiece.

\$25 Bicycles.

We have them. They are pretty good wheels—better than you can buy in Chicago for that price. Besides, we guarantee them, and carry a full stock of parts for them here. Better wheels at \$30 to \$75. We make wheels here, and do all kinds of difficult repairing. No repair job is too difficult for us.

PINNEY & ROBINSON.
Established 1887.
Bicycles, Typewriters, Photo Stock and Sporting Goods, Phoenix, Arizona.

Federal Irrigation Coming.

Looking over the field at the close of the century it is seen that the United States stands practically alone among irrigation countries in having left all the work of reclamation to the unaided efforts of private capital, and in the prodigality of the surrender of public control of streams. In one respect the policy pursued has been successful. It has resulted in an enormous investment (not less than \$100,000,000, and some estimates make it twice that sum) and the creation of taxable and productive wealth of many times the amount invested. We have now about reached the limit of this sort of growth. There will be few large private investments in canals hereafter until we have better and more liberal irrigation laws. Entrance on the coming century is confronted by larger problems; the storage of flood waters, the interstate division of streams, and the inauguration of an adequate system of public control, which will insure to the humblest handler of a shovel his share of the snows falling on mountains above his farm, no matter how far removed he may be.

"The people in every state know where President McKinley stands." Chicago Inter-Ocean.

Probably, until Mark Hanna or some other controlling spirit says "wobble, wobble"; then he will wobble. A few years ago he out-Bryanned Bryan as the champion of the free and unlimited coinage of silver, and loudly declaimed against the Cleveland policy of "attempting to demonetize one of the coins of commerce." He said Cleveland by so doing was trying to "make money the master and everything else the servant," and consequently had "left the side of the poor." But the siren voice of monopoly whispered, and he wobbled. He is now standing in Cleveland's shoes, and in turn is trying to "make money the master and everything else the servant." He also said it was "our plain duty" to give the Porto Ricans free trade; but the sugar and tobacco trusts said "thumbs up," and he wobbled. He also said in his message to congress, April 11, 1898, "I speak not of forcible annexation; that cannot be thought of, and by our code of morals would be criminal aggression." Then the spirit of militarism cast its glamour over him and filled his head with heroics, and he again wobbled and began to criminally aggress in the Philippines. Perhaps the Inter-Ocean has private advice and knows just where he now stands, but to the general public he is much like the Irishman's flea—when you think you've got him you don't know where he's at.—[National Rural.]

Mr. H. S. Foreman was at Nogales this week, en route to Altar with a mining company which is developing some property about forty-five miles west of that place.—[Oasis.]

You often hear of a man who can't accumulate anything because his wife is too extravagant, but never of one who does not prosper because he is too extravagant himself.

Forest Lieu Selection No. 106.
U. S. LAND OFFICE,
TUCSON, ARIZONA, June 2, 1900.
NOTICE IS HEREBY GIVEN THAT John Zellweger, whose post office address is Tucson, Arizona, has made application to select under the Act of June 4, 1897, (30 Stat., 25) the following described tract: What will be when surveyed the NW 1/4 of SE 1/4 section 4, township 4 south, range 12 east, G. & S. R. B. & M.
Within the next thirty days from the date of the first publication of this notice protests or contests against the selection on the ground that the land described, or any portion thereof, is more valuable for its minerals than for agricultural purposes, will be received and noted for report to the Commissioner of the General Land Office.
MILTON B. MOORE, Register.
First publication July 7, 1900.
