TO GET THE NEWS—ALL OF THE NEWS—YOU'LL HAVE TO READ THE REVIEW—IT'S ALL THERE.

JAMES M. LYNCH.
James M. Lynch, of Syracuse, N. Y., has been re-elected to the presidency of the International Typographical Union, one of the most important and most powerful labor organizations in the country.

Another Clud Burst Adds To the Troubles of the Santa Fe Road

ALL LOCAL STREAMS ARE AFFECTED, AND BIG VOLUME OF WATER RUSHING THROUGH CROZIER CANYON—SANTA FE R. R. IS PRACTICALLY OUT OF BUSINESS—TELEGRAPH SERVICE WRECKED—TRAINS HELD UP BEING SENT BACK TO DEMING TO BE RUN OVER ESPEE TRACKS TO CALIFORNIA. DAMAGE AT MARICOPA PREVENTED SENDING TRAINS BY THAT WAY.

Zellman, Ariz., Aug. 24.—During a heavy storm today a clud burst occurred in the mountains, which caused all streams in the locality affected to become greatly swollen. Tonight a large volume of water is coming through Crozier canyon. Much property has already been destroyed, and the Santa Fe Railroad company, which has been working night and day to repair the damage done by the recent rains, is practically out of business. Three hundred feet of track has been washed out at Crozier, new abutments and the bridge at that point have been torn out by the rushing water, and the telegraph service has been wrecked, and the water is now over the company's tracks at Crozier.

LUTLEY'S GOOD REPORT.
Says He Has Struck Fine Showing in His Paradise Mine.
(Special to Review.)
Douglas, Aug. 24.—Wm. Lutley, of the San Juan, is in town this morning from his mine. He is in charge of the development work which is being rushed now that the indications of a large ore body have been opened up. Mr. Lutley said that the shaft and drift are both in good ore, and as the shaft goes down the ledge widens, while the ore does not lessen in value per ton. The property looks better than ever, and as it now is, it is ready for shipping ore. When asked if he was intending to ship ore soon, he stated that he did not think that he would ship any ore, at least not until the development work is carried on to a much greater extent.

MORE PLACER GOLD.
James Chambers is in from his camp on the Hassayampa, south of Prescott, says the Courier. He says that Cy Rutledge and Len Briggs have struck some before unworked and good pay placer ground in the vicinity of Beaverville, on the Hassayampa; that they have been taking out more than \$5 a day to the man, and are satisfied that the ground will average that right along. This ground was missed by the old-timers and is above the present bed—in some places 50 feet above the present bed of the creek. It is surmised that this new ground is miles in extent. The gold taken out is valued at \$17.50 per ounce, while that taken from the present bed of the creek is valued at about \$16 per ounce. As there is plenty of water, all conditions are favorable for working the new discovery.

Gzar Orders Immediate Disarmament of Cruiser and Torpedo Boat Destroyer

London, Aug. 24.—The London correspondent of the Times at Shanghai, in a dispatch dated August 24, 11:35 p. m., says orders from Emperor Nicholas have been conveyed to Capt. Reitzenstein, commanding him forthwith to disarm the cruiser Askold and the torpedo boat destroyer Groasovoi, and that the flags on both vessels were lowered at 7 o'clock tonight.

Slowly, but Surely Are the Japs Breaking Down Port Arthur's Defenses

POURING A CONTINUOUS AND DESTRUCTIVE FIRE INTO THE CITY PREPARATORY TO THE FINAL ATTACK WITH THEIR INFANTRY—RUSSIAN LINES HAVE BEEN WEAKENED, AND ENTIRE LINE OF DEFENSES ARE WITHIN RANGE OF JAPANESE GUNS—THE RECORD OF KILLED AND WOUNDED WILL BE THE BLOODIEST SINCE THE BATTLE OF SEDAN, IN THE FRANCO-GERMAN WAR.

Tokio, Aug. 24.—The definite and final assault on Port Arthur is imminent. Hundreds of Japanese guns are pouring a destructive fire into the city and harbor along the lines of forts and entrenchments preparatory for the infantry assault. It is evident the Russian lines have been weakened and partly penetrated in the vicinity of Autzshan and Iizshan forts. The entire line of Russian defenses immediately about the harbor are within range of the Japanese guns. A number of Russian forts and batteries continue to be vigorous, and the Japanese death roll will be heavily increased before they are captured. The final stand will probably be made at Liaoties Chang. It is believed here that both sides have suffered heavily in lost, and that the final record will make the siege the bloodiest since Sedan.

Convention Town Center of Interest

DOUGLAS COMING WITH STRONG DELEGATION TO URGE HER CLAIMS.

Naco Will Also Ask the Convention of Central Committee Today—Timorous Express Fear of Warm Bunch of Politicians Douglas is Booked For.

Clerk J. N. Gaines, of the Board of Supervisors, arrived in the city last evening from El Paso, where he went from Tombstone last Sunday on a business trip. His coming last night marked the arrival of the first of the Democratic war horses and central committee men who will be on hand today to attend the meeting of the county central committee, at which will be decided the date for county primaries and the date and place for holding the county convention.

To take a hand in the latter matter, by presentation of the various grounds upon which they think their respective cities should be awarded the honor and emoluments attending entertainment of the convention, will be delegations from Douglas and Naco. Both cities want the meeting, and both are going to tell the central committee all about it. As nearly as can be learned, Douglas has a pretty substantial backing already staked out on the committee, and stands a better show of winning than does Naco, unless the latter town has something up her sleeve that has not been guessed at. At any rate, unless the Douglas crowd awes the Naco people out of the field by weight of numbers today, the contest will be the feature of the meeting.

The only point that appears to be waging with strength against Douglas, from talk current last night, is that embraced in the fact that the town has a bunch of politicians considered the strongest in the county, some of them among the strongest in the territory. One of the fearful, in expiating his position last night, said that the question uppermost was whether or not the outsiders would not be lobbied out of their wits if they got right in the thick of the Douglas bunch, and come away with all kinds of bogus goods under their coats. The Douglas contingent will be in on this morning's train ten or fifteen strong. The members of the delegation are after the convention in earnest and will have it if work will get it. A majority of the committeemen will arrive this morning, and the committee will convene in the parlors of the Copper Queen Hotel at 11 o'clock. Besides making the call for the county convention it devolves upon the committee to appon the delegates from the various precincts in the county. Several proxies have already been received in Bisbee for the meeting. It seems to be the general opinion that the convention will be called to meet not later than September 10th, and that one convention will be held for the double purpose of selecting the thirty delegates to the territorial convention and the nomination of county officers.

Lowell Desires Precinct Established

PETITION IS BEING CIRCULATED FOR PRESENTATION TO BOARD OF SUPERVISORS.

Document Recites That Section Adjoining Bisbee is Without Proper Protection, and Ask That a Justice and Constable Be Appointed.

Lowell, the healthy offspring of Bisbee, wants to set up business on her own responsibility, and is out with a petition asking that the Board of Supervisors make an order that this section adjoining Bisbee be designated as a separate and distinct precinct, and that a justice of the peace and constable be appointed. The petition has been circulating during the present week, and has been generally signed by the residents of Lowell. The petition recites at some length the many hardships that are being inflicted upon the residents of the vicinity, where the citizens are left at the mercy of night prowlers and tough characters, and no peace officers nearer than Bisbee. It is further stated that there is sufficient population in this particular locality to justify the board in establishing the precinct, and in conclusion the petitioners request that in the event the petition is granted the Frank Kelsey be appointed as justice of the peace and Mr. Hamm as constable.

Copper Queen Arrivals—F. H. Merritt, Duluth; Mrs. F. C. Buchanan, G. J. Hartman, El Paso; H. W. Bacon, Los Angeles; Thos. Flannigan, Tombstone; Henry Gill, Tucson; H. R. Masters, Salt Lake City; John Carey, Milwaukee; W. J. Morrison, Kansas City.

Ross Griffiths is home from a business trip to Douglas.

per Queen Hotel at 11 o'clock. Besides making the call for the county convention it devolves upon the committee to appon the delegates from the various precincts in the county. Several proxies have already been received in Bisbee for the meeting. It seems to be the general opinion that the convention will be called to meet not later than September 10th, and that one convention will be held for the double purpose of selecting the thirty delegates to the territorial convention and the nomination of county officers.

Chance for Teddy to Use the Big Stick

REVOLUTIONISTS ARE MAKING THINGS LIVELY IN PARAGUAY, AND FOREIGNERS LEAV- IN UNDER PROTECTION OF DIPLOMATIC CORPS.

Buenos Ayres, Aug. 24.—The panic is indescribable. Foreigners in all parts of Paraguay are leaving under protection of diplomatic corps. Preparations for hostilities and negotiations looking to the settlement of questions at Asuncion between the revolutionists and the government are proceeding simultaneously. The belief is growing that the government must yield.

Another Effort Coming to Settle Stock Strike

CITY COUNCIL OF CHICAGO TO HAVE MAYOR HARRISON APPOINT ELEVEN ALDERMEN TO BRING ABOUT A SETTLEMENT.

Chicago, Aug. 24.—The Chicago city authorities are to make a second effort to settle the stock yards strike. At a meeting of the city council tonight a committee of eleven aldermen was appointed to make an effort to bring about a settlement. Invitations were at once sent to the leaders of the strikers and to representatives of the employers inviting them to meet the members of the committee tomorrow morning.

Man's Brains Adds Millions to the Trusts

SUPT. OF PITTSBURG STEEL WORKS PERFECTS PROCESS WHICH WILL REVOLUTIONIZE MANUFACTURE OF STEEL.

Pittsburgh, Aug. 24.—Homer Williams, superintendent of the Duquesne Steel Works, an old Carnegie steel man, has perfected a process which will mean a revolution in the manufacture of steel, and will put millions into the coffers of the company. He has succeeded, after many experiments, in reducing the phosphorus in the molten iron while still in the ladle, thus making it ready for the Bessemer converter to be made into steel. The process is simple and costs no more than the ordinary way of handling steel. Different materials are used in lining the ladle, which cause a chemical reaction and neutralize the phosphorus.

Arizona-Eastern Is Progressing Rapidly

ARE AT PRESENT DRIVING A LONG TUNNEL ALONG THE GILA RIVER.

Four Hundred Men Are Now Engaged on This Work—Now Conceded That Both Roads Will Be Built Up the Gila.

The Arizona Eastern has had a force of 400 men at work building a grade and driving a long tunnel along the Gila river, between the junction of the San Pedro and Gila and the San Carlos copper mines. The Phoenix & Eastern also had a surveying corps in the same vicinity last week making the permanent location of their line to run up the Gila. The surveys of times being identical.

It is now the generally accepted opinion that both roads will be built up the Gila to San Carlos and that the Phoenix & Eastern will put a branch into Globe. It is the intention of both the Santa Fe and Southern Pacific to make the Gila river route a part of their main continental lines. It has been stated that the advantages of this route to the Southern Pacific will be a grade of only four tenths of one per cent and the shortening of their line nearly 100 miles. In this connection the Florence Blade says:

"At the time the Southern Pacific line was constructed through this territory the Texas Pacific grant was alive and covered the Gila river route. This forced the Southern Pacific company to keep back from the Gila river and build over the heavy grades, between Gila Bend and Bowie.

"The Texas Pacific grant expired some years after the Southern Pacific road had been completed and in 1876 or '77 Chief Engineer Hood, of the Southern Pacific company surveyed a line down the Gila, over the route now followed by the Arizona & Eastern surveyors, and found it was an ideal route for a railroad line, with the lowest and most uniform grade that could be found across the continental divide.

"Ever since the completion of the Hood survey the Southern Pacific company has contemplated building over this line and making it the route for their through traffic but had no near by competition to spur them to prompt action and let the matter rest. But when the Santa Fe entered the field and began to build over this unequalled route the Southern Pacific people saw the time for prompt action had arrived and got a move on themselves, so to speak, and will hardly slumber in fancied security again."

Henry Till, the Tucson beer man, is in the city looking after business.

DOUGLAS IS COMING STRONG

BOTH AS TO BALL TEAM AND ACCOMPANYING CROWD.

WILL BE BIG CROWD

May Bring Band—Low Rates for Sunday From Naco, Tombstone, Fairbank, Douglas and Other Points, Day Being Boomed by Railroad.

Captain Hooper, of the Douglas ball team, said to a Review reporter last night that Douglas was coming here Sunday with a strong team in excellent playing form, and expected to fully redeem its loss of several weeks ago, when Bisbee won the game at Douglas by a scratch. It is expected y the team that a big crowd will come up with it on Sunday. There is some talk of bringing the Douglas band of ten pieces along to help enliven the way and the stay. The band has lately improved wonderfully and has become an organization in which pride can rightfully be taken by the town. Beside a crowd from Douglas there is reason to expect a good attendance from Tombstone, Fairbank, Naco, Hereford and Lewis Springs. From Naco a round trip rate of 50 cents has been made. Douglas and Hereford come in for a dollar for the round trip from each place. Fairbank and Tombstone are down for \$1.50 each, and Lewis Springs for \$1.25 for the round trip. With these exceedingly low rates prevailing a big crowd in town Sunday is a certainty. Traveling Passenger Agent King, of the E. P. & S. W., started out on the line yesterday with a heavy bunch of advertising matter for the occasion, telling all about the balloon ascension by Miss Josephine Wagner, the concert program by the Copper Queen band, the baseball game between Bisbee and Douglas, and the general desire on the

deck and to shake hands will all its outside friends. On the side Mr. King is putting in many and enthusiastic words in pushing the proposition for all there is out, and it will not be his or the railroad's fault if the event is not the biggest kind of a success.

KING BOOMS FOR BISBEE.

Tells Douglas About the Big Day Planned Here.

(Special to Review.)
Douglas, Aug. 24.—Garnett King traveling freight and passenger agent of the E. P. & S. W., was in this city last evening on his way to Bisbee to make arrangements for the Sunday excursion to Don Luis. He stated that there will be a big time all day Sunday. The balloon will go up and the lady will take a leap into space hanging onto a parachute. Douglas baseball team is going to play Bisbee, and the Copper Queen band is going to furnish music. It is reported that the Bisbee band is rapidly improving under the direction of Prof. Fred Weinstan, the composer of "Battery O," "City of Bisbee March," and several other well known pieces, and will be well worth hearing. The excursion tickets will sell for \$1 for the round trip.

MURPHY IN DOUGLAS.

(Special to Review.)

Douglas, Aug. 24.—Wm. Murphy, the Naco constable, who has been given considerable notoriety in the papers within the last few weeks, was in Douglas all day yesterday, and last night returned to Naco. It was reported that the grand jury had indicted him on several charges, but upon investigation it is found that there is no truth in the report. Murphy said last night that he intended to settle up his affairs in Naco, where he owns a good ranch, and go east. His wife is in Louisiana very ill with lung trouble.

Criminal Informations Are Filed Against Many Deporters

Denver, Aug. 24.—A special to the News from Cripple Creek says: Ten criminal informations were filed in the district court today by Deputy District Attorney Charles E. Butler, charging about seventy-five persons, including the most prominent citizens of the district, with being leaders of the mob that deported a dozen or more men from the district last Saturday. Informations were based upon affidavits prepared in Denver by the men who were driven from the camp. The charges include conspiracy, malicious mischief, arson, false imprisonment and assault to kill. It will require 250 capias to complete the service upon the defendants named in the information. Bonds have been arranged in sums of \$500 and \$1000. Two men were arrested by Sheriff Bell today while attempting to deport Herman Herz, a clothing merchant of Goldfield, from the district. In company with one other, they forced Herz at the point of revolvers to accompany them, saying he was wanted at Independence.
