

MINERS' MARCH IS BROKEN UP

(CONTINUED FROM PAGE ONE)
ters that stragglers from the now disbanded "army" might remain in Boone county, and the presence of the force would be needed there to help Sheriff Hill and his three or four deputies to clear up the situation. There was no official statement on this point but the assumption was borne out by people in Logan when Captain J. R. Brockus and his troopers rode through the town on their way to the Boone county border.

One Man Demented
MADISON, W. Va., Aug. 27. — Paul Curley of Madison, was shot last night at Danville, near here, as he and friends were driving along a road lined with men on the Marmet-Mingo march. A miner sitting by the road received part of the charge of shot in his face and was taken with Curley to the hospital.

One of the many men waiting here last night for the special train to take them back home became demented and was placed in the county jail. Today the sheriff learned that the man belonged in a village on Cabin Creek, and sent him to Charleston.

Reports from points along the road between here and Racine were to the effect that the main body of marchers had left the county. A few still were waiting at Racine for transportation but it was thought these would move out before Sunday morning.

Logan District Quiet
LOGAN, W. Va., Aug. 27. — All was quiet in Logan tonight and reports from over the county did not indicate disorders in any place.

statement with reference to the march and its consequences was issued by General Handholtz tonight, in which he stated that he placed the responsibility directly up to the United Mine Workers' officials for this district. It said in part:

"In the present instance, I have not made an effort to obtain evidence with which to definitely place responsibility with any person or persons. A defiance of the law has been committed by a body of men mainly composed of members of the United Mine

PROMINENT NEW MEXICO SHEEP MAN FATALLY WOUNDED DURING QUARREL OVER YOUNG WOMAN

EAST LAS VEGAS, N. M., Aug. 27. — J. E. Bledsoe, a ranchman, was shot and fatally wounded by T.P. Pennington, of Valmore, on the streets of this city today. The trouble arose over Pennington's attentions to a young lady.

The shooting occurred in Pennington's automobile which was parked along the principal business street. According to Pennington's statement to the press, Bledsoe came up to the car and ordered him to leave it and follow him.

"I knew he meant to beat me up," said Pennington, "as he had threatened to do if I ever was seen again in the company of Miss Josephine Johnson. So I refused to get out. He climbed in the car and began to beat me unmercifully.

"I reached in my pocket, got my revolver and shot several times. I did so in the belief that I was acting in self defense. Miss Johnson, who accompanied me here from Shoemaker, her home, got out of the machine at Workers of America. I have, therefore, acted upon the assumption that the leaders of that organization, regardless of the question of their personal attitude, must be held responsible for the act of the members of the society which they have created and represent.

my suggestion, when it was seen that there was to be trouble."

Bledsoe was shot several times through the body, a wound in the heart being fatal. He died on his way to the hospital. He was unarmed, officers stated.

Pennington was arrested and made no resistance. His head and face are a mass of bruises from the beating he says. Bledsoe gave him. Five chambers of Pennington's revolver were found fired.

Pennington was employed for several years by Armour and company in Chicago before coming to Valmore, N. M., for his health. He was assistant there to the superintendent of the Valmore Sanatorium.

Bledsoe was a rancher with extensive sheep holdings.

GERMANY FEARS POLITICAL WAR

(CONTINUED FROM PAGE ONE)
the arrest of the assassin of Mathias Erzberger.

The local police are investigating the present whereabouts of Oltwig von Hirschfeld, the student recently released from 18 months' imprisonment for his attempt on the life of Herr Erzberger in the courtroom during the sensational trial of the Erzberger-Helfferich libel suit.

The party organs continue to pour out a flood of bitter recrimination. The national party, of which Dr. Helfferich is one of the leaders, has instituted proceedings for criminal libel against the independent organ, Freiheit, because of the latter's charge that the Pan-German party instituted Erzberger's murder.

BRITISH FORCES ARE NOW CONCENTRATED IN SOUTHERN PART INDIA

MADRAS, British India, Aug. 27. — (By the Associated Press.) — Concentration of the necessary troops in the disturbed area of southern India, has been completed, says an official communique issued today, and those sections which have been occupied by the military are quiet. The total number of military casualties since the outbreak are given as one officer killed and two of the ranks missing.

The steamer Nawab is expected to arrive at Calicut from Bombay Sunday with supplies.

Nearly six lakhs of rupees, 600,000 rupees or normally about \$190,000, are said to have been contained in the treasury.

The Moplahs, or native Moslems, released prisoners from jail and forced two of them and a warden to accept the Mohammedan religion. They also carried off arms and ammunition from the police station.

A motor bus returning to Calicut from the disturbed area was attacked by Moplahs who killed the driver and an attendant and set the vehicle on fire.

LID IS CLAMPED ON HAZING AT UNIVERSITY

Students are Required to Sign Pledge This Year Not to Try Any 'Ruff Stuff'

TUCSON, Aug. 27.—The action to abolish hazing, taken by the faculty of the University of Arizona at the close of the academic year, has elicited widespread interest. This rule has the decided approval of parents and taxpayers. It became known to the authorities of the university that more than once there had been narrow escapes from serious catastrophe as a result of hazing, and since fatalities in other institutions had occurred from this cause, prompt and decisive action seemed the wise course.

The hair-cutting episodes, in particular, had become highly distasteful and annoying to the public as well as to the college community. At best, hazing seemed very juvenile—a relic of the boarding school stage of education—and, at worst, a dangerous and brutal sport, humiliating in the extreme to certain victims of inborn pride and courage.

The University of Arizona has happily passed beyond the rudimentary stage of its progress and has won cordial recognition as a unique and dignified institution among the first class universities of the nation so the abolishing of manhandling is timely and appropriate.

In order that there may be no possible misunderstanding on the part of entering students, either of the rule abolishing hazing or of the serious intention of the authorities to enforce the rule promptly and firmly, a printed slip has been prepared to be given to each student before he registers. The slip reads as follows:

"Formal notice is hereby given to each student who desires to enter the University of Arizona that hazing has been abolished and is from this date prohibited. Each applicant for admission is required to sign the following statement at the time of registration, 'I hereby pledge myself, on my honor, not to encourage or participate in hazing during my attendance at the University of Arizona.'"

Contents among students according to rules approved by the faculty are not classed as hazing."

If it should come to the knowledge of the authorities that an applicant before registering in the university has engaged in any form of hazing since the passage of the rule prohibiting hazing, he will not be accepted as a student, since such action would show that the prospective student is out of sympathy with the published policy and purpose of the university here and to seek such an institution as meets his ideals of discipline.

PAPER ENDS VALVE TAP

A sheet of writing paper will take up clearance and stop an annoying valve tap, when no time is had to correct the defect with tools. The engine should be hot when the paper is placed between the push rod and valve stem. As the paper is continually under pressure, it will not slip out.

Ninety per cent of the people of Honduras cannot read or write. These monster bombs measure just one inch less than 14 feet in length and have a body diameter of 23 inches.

TUBERCULOSIS HEALED
Dr. Bledsoe has absolute proof that tuberculosis can be healed in all climates by Dr. Bledsoe's "TUBERCULOSIS CURE" which is sold in all drug stores. For further particulars address THE BLED SOE CO., Suite 909, Union League Bldg., 212 So. 4th St., Los Angeles, Cal.

SINN FEIN WILL ACCEPT OFFER

(CONTINUED FROM PAGE ONE)

Scotch country, 40 miles from a railroad. There is much curiosity here as to who will act as negotiators in behalf of Great Britain in case the negotiations begin, since the prime minister, in his letter to de Valera, emphasized that there should be no delay in negotiating.

Henderson Hopeful
Two labor leaders, who are friendly to the Irish aspirations, gave their views today. Arthur Henderson, speaking at Carlisle, said the situation was criticized but not hopeless.

"An almost insurmountable obstacle in the fact that the Ulster parliament has been created," he declared. J. R. Thomas, leader of the railway men, who is visiting Dublin, said: "The atmosphere I see in Ireland is conducive to peace."

The outstanding fact in the position of the Irish negotiations is that both Lloyd George and de Valera ended their last notes by statements of a desire or willingness to continue the discussions.

Congratulate Craig
BELFAST, Aug. 27.—(By the Associated Press.)—The Royal Black Institution, a branch of the Orange Order, held demonstrations throughout Ulster at which vigorous resolutions were adopted concerning the present Irish negotiations. That adopted at Ballymena, county Antrim, is a fair sample. It said:

"We look with shame upon the humiliating sight of the British prime minister groveling in the dust to rebels and assassins. We congratulate Sir James Craig (the Ulster premier) for having refused to confer with a man calling himself the president of the Irish republic. We tell him that on these lines, he has loyal Ulster at his back, and that the day he deviates from this, he has ceased to represent the voice of Ulster."

Wife Helps Elect Hubby

"After having been in bed half the time for a year with severe pains in my right side over the appendix, stomach trouble and bloating, which the doctors seemed unable to reach with medicine, and advised operation as the only remedy, my nurse advised me to take Mayr's Wonderful Remedy, and its results have truly been wonderful as I am now entirely well and strong, and at the last election worked hard to elect my husband." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or

SUITS AND OVERCOATS

Made To Your Measure

ORDER YOUR FALL AND WINTER GARMENTS NOW, WHILE OUR LINE IS COMPLETE

Suits and Overcoats made from the finest selected foreign and domestic woolsens.

In Models To Please You

\$45 to \$65

Workmanship, style and fit guaranteed. We can make you a Suit for \$35.00, but it would not prove satisfactory —

We have with us a man who thoroughly understands the Merchant Tailoring business.

Every Suit a fit was our record last season —

Come in tomorrow and look over our big assortment of woolsens.

Farm Bureau News

At a recent meeting of the executive committee of the Arizona Farm Bureau, held in Phoenix, they employed Lawrence G. Wilson, of Pinal county, as marketing agent for the Arizona Farm Bureau. On the same evening, this committee sent Mr. Wilson to Washington, D. C., to appear in a hearing against the railroads on hay, grain, and grain products. Upon Mr. Wilson's return he will devote his time to the creation of marketing agencies in the various counties in connection with the various commodities the counties may determine upon.

Saturday, the 13th, State President C. S. Brown attended a county-wide Farm Bureau meeting in Cochise county, where 18 of the members of the board of directors had assembled for the purpose of transacting the County Farm Bureau business. In this county many thousands of dollars have been saved by cooperative buying of fuel oil, corn and cottonseed meal. Independent of the benefits that have been derived from County Agent Adamson's purchase of pure bred hogs and dairy cows, their saving has amounted to \$71,000.00.

August 16th a tour was made to Santa Cruz county in connection with County Agent Joe D. Morgan. The copious rains have made Santa Cruz county a perfect meadow of grass. Outside of the lateness of planting which will force the farmers to harvest their crops before maturity, the farmers and stockmen of that county are feeling more hopeful than for many months past. A county-wide picnic is being arranged by President Bristol and County Agent Morgan, to be held some time in October, when the Farm Bureau members will get together with the cattlemen, and in addition to the celebration, there will be a short business meeting to transact some matters of importance that we feel the cowmen and farmers are mutually interested in.

FRENCH SEEK CONTROL

BERLIN, Aug. 27. — The Tagelische Rundschau says it is informed that the French are attempting to obtain an active interest in the Saxon textile industry and have already gained control of one of the big plants at Chemnitz.
