Mohave, about 100 votes counted on senatorial race and about 150 for the rest of the offices. MINE RESCUE TEAMS CONTEST FOR HONORS IN FIRST AID WORK

[Republican A. P. Leased Wire] DENVER, Colo., Sept. 10.—Sixty-eight teams, representing mines in every section of the country, gave demonstrations of first aid work here today in connection with the international mine rescue contests being held under the auspices of the United States Bureau of Mines and mining organizations. The teams had two problems on which to work. In the first they were required to apply treatment to a man supposed to have sustained severe injury to his left eye ball, a broken knee cap and a dislocated shoulder. They were allowed eight minutes in which to complete this test.

In the second problem they attended a miner supposed to have been a victim of carbon monoxide gas who also had a fractured leg and arm. They were allowed eight minutes in which to attend to him. Two physicians judged each team, marking it according to the time required to properly attend to the patient and also according to the correctness of the treatment given. Dr. R. R. Bayers, chief surgeon of the United States Bureau of Mines, was chairman of the judges. The contests were held in the stockyards stadium and were attended by a large crowd. The policy of concealing the identity of the teams participating, which was inaugurated yesterday, was continued in force.

U. S. GOLD-SILVER PRODUCTION SHOWS DECLINE IN YEAR 1919

[Republican A. P. Leased Wire] WASHINGTON, Sept. 10.—Production of both gold and silver declined last year, Director of the Mint Baker announced tonight in making public revised figures which showed the production to have been: Gold, \$69,333,400; silver, \$63,533,652. In fine ounces, the output totaled 2,018,223 of gold and 56,832,445 of silver. The director placed the loss in the production of gold as compared with the previous year at \$8,313,300, while the slump in silver mining reduced the output by 11,127,000 ounces. California leads in the production of gold, the state's output being 841,633 ounces, worth \$17,348,200. Colorado ranks second with a gold production valued at \$10,243,300. Alaska produced 481,984 ounces valued at \$9,963,500. Montana was the leading state in the production of silver with an output of 15,012,000 ounces, worth on the current market about \$16,800,000. Utah was second with 12,542,323 ounces, worth \$14,658,450. Virginia and South Carolina managed to creep into the list of states producing the precious metals, according to Mr. Baker's statement. BERRY INDICTMENT BARES WHOLESALE PLAN TO SWINDLE

[Republican A. P. Leased Wire] LOS ANGELES, Sept. 10.—Service of a copy of an indictment on Orla B. Berry when he was arraigned here today, brought to light the fact that sixteen persons had been indicted here last Wednesday on four charges of larceny by trick and device. Officials said the indictments charged participation in confidence games and had been regarded after extensive investigations had been made in the middle west. The indictments charge that three persons were induced to part with an aggregate of \$89,000 through purchase of worthless securities and that efforts were made to obtain \$10,000 similarly from a fourth person. Berry, until recently, was an assistant cashier in a bank here. He was arrested Wednesday. All the persons named in the indictments either are under surveillance or have been arrested, officers said. The list of those indicted includes William Meier, Abner B. Thomson, Fred Weis, Joe Stanley, Joe Carter, George Carter, John Doe, Harry Day, J. W. Davis, and Fred Mayne and three "John Does" and three "Richard Roos."

The indictment alleges that on June 23, 1920, the defendants procured \$42,000 cash and securities from Thomas Donohue of Altoona, Pa.; on March 13, \$13,000 from John Bassler of Amrillo, Texas, and on an unnamed date \$17,000 from John F. Davis, of Lancaster, Pa. It is alleged in a fourth count that the defendants conspired in April to secure \$10,000 from Simon Weiss of Fargo, N. D., but that this attempt failed.
