**CASA GRANDE VALLEY**  
 Opportunities were never better in this valley than now. No time should be lost in securing at least a quarter section of this wonderful land. It is only a question of time until it will be on the same price level as the Salt River valley lands. In the meantime prices on unimproved tracts are steadily working higher. They will continue to do so until, in our opinion, the \$10.00 land, will be bringing \$50.00 or more. Present buyers can make that profit or saving. We have for next week several tracts of low water lift land at \$10.00 per acre, some a little less. Buying these now means a sure quick profit.  
 We will be glad to have you call and get definite prices and location, also information as to the cost covering installation of pumping plants and irrigation thereby. We have reliable information on these points.  
 We will soon need more listings. Owners desiring to sell should see us for quick results.
