Watch Phoenix Grow

A city that can't owe money is not worth living in. It would help Phoenix to owe 15 TO 20 MILLION IF SPENT CORRECTLY. First all city streets should be paved. We are sure to have 100,000 POPULATION ON OR BEFORE 10 YEARS. We need a court house and city hall combined, on the city hall site. In my opinion it should be 3 stories over entire grounds; store rooms and office rooms, municipal affairs and convention hall on top floor. Such a structure at the cost of $2,000,000 would pay itself out on or before 10 years.

Mr. Farmer

Can you afford to pay $500 to $1,000 an acre for land in the Salt River Valley when in the Casa Grande Valley only a short distance away you can buy the same kind of land from $25 to $100 an acre? $50 an acre will improve this land, and only a short lift to a large underground supply of water. You can grow any kind of crops in the Casa Grande valley, including cotton. Transportation is excellent on the main line of the Southern Pacific railroad. Water is soft and the climate unexcelled. You can realize as much money on these lands at from $75 to $150 an acre, improving with pumping plant, as you can on land in this state that they are asking $500 to $1,000 an acre for. Write wire or phone to me for information, regarding this wonderful opportunity. James King Green, Jefferson Hotel, Phoenix. 1
