

### PLANS COMPLETE FOR INAUGURAL SPECIAL TO MEXICAN CAPITAL

One hundred and fifty Arizonians will make the trip to Mexico City, Mexico, to attend the inauguration of President Alvaro Obregon, Dec. 1, according to information from the Nogales Chamber of Commerce, which is directly in charge of the "Inauguration Special." Relative to the proposed trip from Nogales to Mexico City, the Nogales Herald of Monday date has the following to say:

"Reservations for the Nogales Home Folks Obregon Inaugural Special train which leaves this city for the Mexican capital at 9 p. m. Thanksgiving, closed last night with space based on a five car train. These five cars are sleepers and do not include the diners and baggage cars. The train will be all Pullman. Leaving Nogales Thanksgiving, the party will be absent about two weeks, returning Dec. 9. The trip will be made via Tucson, and El Paso over the Mexican National railways.

"A representative of the Ford Week-

ly, G. R. Kershner of Los Angeles, will accompany the train. He will make views of the party along the entire trip and of the inauguration scenes when Obregon becomes Mexico's next president, the first constitutionally and regularly elected by popular suffrage. The initial picture will be made of the special train and members of the party at the international line in Nogales.

"Going, no stops will be made except at El Paso. Returning, the train will make various stops in the interior of Mexico to permit Nogales business men and other members of the party to study conditions.

"The big special train was booked finally for five sleeping cars because the chamber of commerce secured larger sleepers than at first assigned for the trip. Having thus the extra space, it was decided to dispense with the sixth car.

"It is noteworthy that fully 50 per cent of those booking reservations are personal friends and neighbors of Obregon. Practically all others are personally acquainted with him and all are his friends. Not only representative business men of Arizona and other neighboring states are booked for the trip, but Mexican citizens from the west coast territory are in the party which makes the special an international train composed of men who thus express the actual friendship and cooperation which exists between American citizens toward Mexico.

"Final and definite instructions and

### TO KEEP PRICE FOR COTTON PICKING AT 4 CENTS THIS YEAR

After a discussion in the high school auditorium last evening in which more than 250 cotton growers participated it was solved to keep the price for picking the staple at 4 cents a pound for the remainder of the season. This action came after the growers had considered the question for several days, the first meeting having been held last Saturday, when Sheriff John G. Montgomery called the growers of the county together to consider present conditions in the cotton-growing industry. The resolution adopted last evening also carried the suggestion that the growers pay only 2 cents for picking "trashy" cotton and dismiss pickers who do not keep their picking clean.

The meeting spent a large part of the time in listening to W. H. Knox, general superintendent of the Arizona Cotton Growers' association, who explained the work of the association, its expenditures and its plans for the future. After detailing the amount of labor and money necessary to get pickers into the Salt River valley from Mexico and outlining the problems which have confronted the organization during the season, he said that the total expenses of the association for the season will fall generally under three heads—the expense of getting pickers into the valley, \$200,000; probable expenditure for deportation charges after the season is over, when pickers must be cared for and sent back to Mexico, in accordance with the regulations under which the association operates, \$120,000, and expenditure to keep laborers here for the work necessary in the spring, \$40,000. Every possible cut in expenses is being made the association at this time, Mr. Knox said, and plans are being put into effect to keep the charge per bale next year for the association to \$3 or less.

The meeting was presided over by Garnett Holmes, Phoenix, and J. W. Campbell acted as secretary.

### WEATHER FAVORABLE TO RANGE CONDITIONS

Telegraphic and mail reports to the weather bureau indicate that stock ranges have undergone but little change in the last week. There have been no recent snow storms in the northern section and, unlike ranges in many of the northern states, all pastures are free from snow. Nights have been cool, but there has been no high wind to interfere with the comfort of animals. Both range and stock in the Grand Canyon district are reported as being in good condition. Cattle in the Pinto district are looking well, range is fair and water plentiful. Some shipments to market are being made from Seligman. While the range is poor and stock only fair in the neighborhood of Thatcher, supplementary feed in that section is plentiful and the range is heavily overstocked. In the Nogales section stock are in good condition, but prospects for winter feed are poor. The range in the Douglas section continues to be fairly good.

Absence of storms and the presence of generally mild daylight temperatures have favored fall seeding and the completion of harvest in dry land sections of the state. In the Nogales section it is reported that it is too dry for fall plowing that gravity water is scarce and pumping is too expensive. The weather of the past week has been favorable for cotton picking, being excellent progress has been made considering the labor situation, which, however, is not acute. A drive through cotton growing sections reveals a number of fields practically untouched by pickers. Gins are fully stocked up and rumpling to their full capacity and a moderate amount of cotton is stored on farms.

### HE DROVE 40 BURROS TO MOOSEHEART, ILL.

A man who at one time was instrumental in attracting the attention of scores of cities and counties to Phoenix has returned to this city, this time for good. His name is George W. Voltz, and many Phoenixians will remember what he did in the way of advertising Phoenix some years ago.

On May 8, 1915, Mr. Voltz, who had been engaged in the cigar business here, left Phoenix on horseback, driving a herd of 40 burros to Mooseheart, Ill., where they were to be presented to the big Moose institution and its kiddies. By the time he arrived there the praises of Phoenix had been heard in almost every locality on the way to Illinois, for Mr. Voltz addressed meetings in 123 theaters and halls in as many towns before his journey ended, six months and twenty-three days after it had begun. All along the way he spread news of Phoenix and the Salt River valley, the wonderful climate and the prospects here.

Before he left this state Mr. Voltz

### GETS HIGHER POST IN HIGHWAY DEPARTMENT

E. A. Wolf, former division engineer for northern Arizona, has been made chief construction engineer with the state highway department, according to announcement made yesterday by Thomas Maddock, state engineer. Mr. Wolf will take up his residence in Phoenix.

The engineer has had charge of numerous construction projects in the north, among others the Prescott-

### BAN PAINT AND BARE KNEES

North Adams, Mass. — Civilization has advanced to a point where the use of war paint is no longer necessary, said Principal H. H. Gadsby of Drury high school, in an order just issued to young women students against the use of cosmetics. Painted faces, bare knees and other extremes in style of dress no longer will be permitted in classrooms.

Old floors made like new. Phone 3059.

herd of burros was increased by two, donated by the Bisbee Moose lodge. Thirty-five of the burros were delivered safely at Mooseheart, a few dropping by the wayside during the long hard trip.

Now after an absence of five years and more Mr. Voltz has returned to Phoenix, where he intends to remain permanently.

### We are Not Inviting You to a Special Sale

FEED PRICES are always MARKET PRICES—and the present grain market is DOWN. Compare our prices today with those of a month ago.

### DOLL MANSION TO BE XMAS PRESENT

H. O. Whyman of 1119 North Second street caught the Christmas spirit many weeks ago when after business hours he engaged in constructing one of the most pretentious doll houses that has ever been exhibited here.

Mr. Whyman has built the miniature house for a small granddaughter in Amarillo, Texas, but long before little Betsy Sanders gets joy out of her doll's home a number of tiny tots in Phoenix will have viewed the building, for Mr. Whyman has generously allowed all of the youngsters in the neighborhood to take a "peep."

The house is of three stories and is built of wood. The outside coloring is white, with a brick foundation and a brick chimney. The bright red is reflected in the window trimmings. The front door has a tiny glass knob with the name of the owner engraved on the silver nameplate. As it swings open one gets a view of the broad stairway leading to the spacious rooms. The bedrooms are tinted in delicate pink and blue, the bathroom and kitchen have incense door coverings and the living room and dining room offer wonderful possibilities for furnishings, for which an exclusive shop in the east has the order. Each room has two windows of glass, with every detail in the way of construction included, to the tiny window sill and the small curtain rods.

### THANKSGIVING DAY---1920

The glad thanksgiving time is upon us. In this happy, prosperous, reunited land of ours, there isn't a man, woman or child who hasn't something to be thankful for or someone to be thankful to.

We are thankful for all the good things which this country provides—food; shelter, safety, liberty and opportunity—in greater measure than any other country on earth.

We are thankful because we have been able to provide, so fully and so efficiently, good things for the home, good values and fine service.

We are thankful for the confidence our patrons have reposed in us and we hope to continue to merit that confidence.

We are thankful we're living in these momentous days and we're sure you are, too.
