

OTIS ELEVATOR CO. ESTABLISHES BRANCH OFFICE IN THIS CITY

Establishment of an Arizona office of the Otis Elevator company of Yonkers, N. Y., has recently been effected with the opening of headquarters for Phoenix and the state at 204 Monihan building. Elevator operators will hereafter be afforded the same efficient service available in the larger cities of the country.

Decision to establish a resident representative was made by the Otis company as a result of the tremendous growth of business in this state. "Interests of the Otis Elevator company have grown to such proportions in Arizona that an Arizona office is an absolute necessity to properly serve our patrons and give the public the protection to which it is entitled," said one of the representatives yesterday.

Under the creation of an Arizona office, the Otis company will maintain a competent force of elevator specialists in Phoenix and Arizona. Every man employed by the company is an expert, carefully trained in the factory and competent to a superlative degree.

MAY ACT NEXT WEEK ON CURFEW MEASURE

The curfew ordinance for Phoenix, designed to keep children under 16 off the city's streets after 9 o'clock at night in the winter or 10 o'clock in the summer, was formally placed before the city commission at its meeting yesterday and referred to the city attorney for approval as to legal form. The ordinance probably will be acted upon at the commission's meeting next Wednesday.

The proposed curfew ordinance has met with general approval from organizations and individuals of Phoenix since the law was first advocated a few weeks ago. Comment on it repeatedly has pointed out the need of some such measure to protect the city's youngsters, who under present conditions are free to stay out as late as they please, in any part of town, regardless of the influence the habit of being on the streets at late hours and with any companions may have on the children.

Bids for the erection of a bandstand at the public library park were received by the commission at yesterday's meeting and referred to the city manager.

State Treasurer Gets Large Check

A remittance of approximately half a million dollars was received yesterday by State Treasurer H. S. Ross from Cochise county as state taxes collected on the second installment for 1919 taxes. The check of \$416,736.52 is one of several that have been received by the treasurer since the first of June, although all the counties have not yet remitted tax monies to the office.

Among the counties that have forwarded checks since the first of June are Mohave, with a check of \$23,355.32; Gila, \$101,409.73; Pinal, \$174,648.23; Greenlee, \$116,126.80; Yuma, \$11,303.62; Coconino, \$46,821.93; and Santa Cruz, \$17,437.97.

TREMENDOUS SACRIFICE OF \$25,000 Stock of Woolens

\$50

There is hardly any need of going into details to the general public relative to what the months of June, July and August means to merchants throughout Salt River Valley, which at this critical period of the year from a commercial standpoint has meant a tremendous loss to merchants in general which statement will be fully acknowledged, but being alive to the issue, and its meaning to us, and rather than wait and sit idly by awaiting the opening of the busy season, which without a doubt would mean complete stagnation and a tremendous loss, we must at whatever cost keep our force of expert tailors intact, which otherwise would mean incurring hardship on those depending upon them, which we sincerely wish to avoid. We have fully determined on our course of action and taken the bull by the horns as drastic measures are imperative in order to avoid stagnation, and the retaining of the services of our large force of expert tailors whose splendid mechanical ability for needle work has enabled us to establish the most wonderful personal following in the state of Arizona, hence our determination in fully deciding on holding the greatest record breaking tailoring sale ever undertaken in the mercantile history of the state of Arizona, involving the stupendous sacrifice of a \$25,000 stock of high grade foreign and American woolens, the largest and most complete stock of woolens carried by any individual tailoring firm throughout the entire Pacific Coast. Profits will be discarded entirely and given no consideration. Every suit will be made up at the practical cost of production.

We are under deep obligation and in honor bound to keep our force of tailors busy during these trying summer months as there is a gentleman's agreement to that effect between us, and that agreement must be kept regardless of the cost to us. We are willing to go to the utmost extremes, in the keeping of this agreement, and avoiding stagnation, which will mean that the public will get the benefit of the greatest high class tailoring sale ever undertaken in the mercantile history of the State of Arizona.

GENTLEMEN—As an incentive, owing to these days of unusual business depression which is prevalent throughout the entire country at this particular time of the year, and in order to stimulate business thereby keeping our large force of tailors busy throughout the summer season, this entire and magnificent \$25,000 stock of foreign and American fabrics which are of the finest quality and textures, will be placed on sale in one of the most stupendous record-breaking sacrificing woolen sales ever undertaken throughout the entire state. Every suit pattern in this establishment will be literally sacrificed regardless of its original cost and selling price. More than fifteen hundred styles to select from. Every known weave, color and design imaginable is here and will be placed at your disposal. Hundreds of these patterns cannot be duplicated in any tailoring or clothing institution west of Chicago, as they are exclusive novelties in woolens. We are going to go to the utmost extremes in order to keep our force of expert tailors busy and to carry us through the critical trying months of June, July and August, the time of year which is usually dreaded by all merchants throughout the Salt River Valley. Every suit that had previously been sold and made up for not less than and from \$60, \$65 and \$70, will be made to your own individual measure into a high class and STRICTLY HAND CUSTOM TAILORED SUIT during this tremendous value giving tailoring sale only for \$50. We positively guarantee that the same identical high grade linings, trimmings and workmanship will be placed in your garments as though the original selling price of \$60, \$65 and \$70 had been paid. Every garment will be practically hand tailored by our force of expert tailors who have statewide reputations to sustain and who have been affiliated with us for years, the fitting of your garments will be absolutely guaranteed throughout. No suit upon completion will be delivered to customers until thoroughly inspected by the members of this firm, as under no circumstances will a defective garment be allowed to leave this institution as the reputation of this tailoring institution must be guarded at all costs. We are thinking of the future and not the present. Space forbids our going into the intricate details relative to the different patterns and quality of these magnificent fabrics, hence a cordial invitation is extended the public of this community to visit this institution where you can examine these beautiful woolen fabrics at your own leisure regardless of whether you place an order or not. Every courtesy will be extended nevertheless. The public's attention is respectfully directed to article to the right of this advertisement as we wish to be judged fairly.

SPECIAL NOTICE TO THE AMERICAN PUBLIC AND THOSE CONCERNED

The Byrd Tailoring Co. issues due warning to those we have in view that in future, any sentence, phrase, or paragraph of any advertising matter emanating from this institution, appearing in the advertising columns of any commercial organization without due authorization, in a wanton and wilful attempt to deceive the buying public at the expense of our advertising matter, will be instantly met by the institution of both civil and criminal proceedings, and will be vigorously prosecuted to the full extent of the law with every means at our command. There will be no compromising a matter of this kind, as we intend to make an example of those who may be guilty of such despicable methods. Every promise made in this institution is made in the right spirit and carried out to the very letter, and we are prepared to stand behind any statement that may be issued in our advertising columns, and we do not propose to tolerate for an instant the use of any advertising matter that may emanate from this institution by those whom we have just cause to believe have a designing and ulterior motive in view. The protection of our friends and the public in general, the guarding of our name and reputation are warranted issues that makes the threatening of drastic action imperative. We gladly tender our sincere and profound apologies to our worthy and reliable well meaning fellow merchants and competitors, for the publication of this article. This warning is issued for the edification of a certain few only. Furthermore any future slurring insinuation which may be cast in any of their future advertising columns, which carries with it a hidden meaning which is instantly detectable by men of intelligence who are naturally capable of reading between the lines, and which will have a tendency to reflect in any way on the nationality, integrity and character of this or any other reliable commercial institution, ways and means will be found that will put a stop to such cowardly tactics.

This is an intensely American institution, based on American ideals and principles, and conducted by Americans throughout. We are American tailors true enough, but in making that statement we do not wish to create the impression on the minds of the intelligent American public, that we are any more deserving or entitled to the preference of the American public's consideration any quicker than our worthy and reliable fellow merchants and competitors, who are loyal American citizens of foreign birth. They are just as much entitled to and worthy your valuable consideration regardless of the land of their birth as any American tailoring or clothing organization in the country, as long as their methods are honorable and above reproach.

We are not making our free born Americanism an issue for commercial purposes, as we are not commercial beggars. Said slurring insinuation was recently cast which we deem is a vile insult to business men of foreign birth, and a still deadlier insult to all free born Americans of foreign birth and parentage. Thousands upon thousands of Americans of foreign birth and parentage were enrolled in our national army ready to sacrifice all and even life itself if necessary in the just cause of democracy which fully attests to their intense patriotism and loyalty. Let any loud mouth braggart who makes one's nationality an issue for commercial purposes deny that contention, drawing a distinction between free born Americans and loyal American citizens of foreign birth who are willing to sacrifice their lives if necessary for our flag, the symbolic emblem of justice, freedom, and equality thereby making one's nationality an issue for commercial purposes and the mere sake of gain and particularly on a small scale is in our estimation extremely revolting, and is beyond our power to express our contempt in words, and is both degrading and repulsive to an extreme. Every loyal American citizen of foreign birth, whether our competitor or not, who may be engaged in some commercial enterprise, is fully deserving of very free born American's patronage regardless of creed, color, or nationality, as long as their business methods are honorable and their loyalty to the stars and stripes is unquestioned and we are more than certain that every fair and broad minded American whose natural characteristics for fair play and justice is only too well known will concede our contention. We are fully cognizant of the fact that insidious, slurring insinuations against reliable commercial institutions signifying unwarranted malice and hatred by an ignorant for no other reason than that they as well as ourselves are competitors in this particular line of business has the same effect on the minds of the intelligent men and women of Phoenix and elsewhere as water on a duck's back. This publication is also a precautionary measure in a sincere and conscientious effort on our part to avoid if possible any future disagreeable controversy that may accrue involving court proceedings which is naturally and extremely distasteful, but if brought to an issue a few unpleasant facts may be brought to light that will possibly startle and open the eyes of the public relative to this self styled merchant prince. We are staunch adherents of clean cut advertising. We admire aggressive merchants, we believe in keen competition, but we do not believe in belittling and humiliating competitors and fellow merchants, and further do we believe in accusing those struggling for an honorable commercial career and livelihood of being fake tailors and clothiers even though they are our competitors. Those tactics are usually employed by rascals only and denounced and frowned upon by honorable men and women in all walks of life.
