Another great shout of approval went up to be redoubled in vigor when the chairman closed his address with the charge that "Republicans have trifled with the hearts and consciences of the American people in their handling of the peace treaty."

The dry issue got into the session from an amusing angle. An announcement that a corps of nurses and "sixteen doctors" were conducting a hospital in the auditorium, drew the fire of a delegate.

"Do they write prescriptions?" he demanded in a voice that carried through the hall. Galleries and floor joined in a burst of laughter from which rose cries of "doctor—doctor—hospital corps this way," and the like. When he could be heard, the secretary shouted: "This is a dry hospital," and the convention rumbled again with mirth.

Registered Chemical Fibre Indemnity Protod Checks

Prevent the use of acid used by forgers to erase the name of the payee and substitute a fictitious name, thereby stealing the face value of the check. "Protod" differs from Safety paper, because its safety qualities are in the fibre and not on the surface of the check from where they may be removed and replaced.

Protod checks are non-forgable because the stock is not for sale on the open market and because they are manufactured under strict supervision of the General Indemnity Corporation of America whose bond protects user and his bank jointly.

gun all were cleared before today's adjournment. The adoption of the report of the rules committee finally settled that nominations will not be made until after a platform has been adopted. Candidates will know before hand what the principles of the party are to be. Delegates went back tonight to the always engrossing task of gossiping in hotel corridors about candidates for nomination, pending completion by the committee of its difficult task in shaping a chart of principles by which the party shall steer its course in the troubled political seas between now and next November.

U. S. NEEDS NO EUROPEAN COUNCIL

(Continued from Page One)

"In the spirit of the republic we proclaim Americanism and acclaim America. The first duty of a government is to be true to itself," said Governor Coolidge. "This does not mean perfection. It means a plan to strive for perfection. It means loyalty to itself. The ideals of America were set out in the declaration of independence and adopted in the constitution. They did not represent perfection attained, but perfection planned. The fundamental idea was freedom. The farmers know this was not yet apprehended. They formed a government firm in the faith that it was ever to press forward to this high mark."

the establishment of a league of nations. They anticipated and arranged with aristocratic logic the very arguments now advanced against the league. "The plain fact is that the enemies of the league dictated the policy of the majority in the senate and controlled the platform declaration at Chicago. While the league plank in the Chicago platform is full of ambiguities, it is an endorsement of the principles of the irreconcilables. Says War Prevention Chief Issue. "The chief issue is whether the United States shall contract with other nations to prevent unnecessary wars; whether the waste and sacrifices of unjustifiable conflicts shall be superseded by orderly tribunals for settlement of disputes among nations. If the Republicans win, the small nations, which obtained their independence through association in the war with the allies, will be overcome by their recent enemies and Europe quickly will collapse into its pre-war conditions of oppression and threatened anarchy. Our country will incur the distrust and contempt of her former allies and our people will earn a reputation for selfishness and irresponsibility which will require centuries to counteract. "Will the women of America, who gave their men to our uniform, prove indifferent to the cause of forever rendering impossible the recurrence of such a struggle as the war just ordered." It is profoundly significant

that the movements for woman suffrage and for the prevention of needless wars, proceed simultaneously. The immediate ratification of the equal suffrage amendment will assure victory for the Democratic party on a platform favoring the ratification of the treaty without destructive reservations. The women of America stand for peace and against war. "Never before has a nation-wide political battle been waged in the cause of international justice, humanity and peace. The opposition has taken low and untenable ground. Let the Democratic party occupy the heights. Never again will any great political party in America openly invite disaster by trifling with great problems."
