SHOWS CONFIDENCE IN STATE OIL LAND

Confidence in Arizona oil land is expressed in the offer made to the land board yesterday in a telegram to Governor Campbell from S. G. Mayfield, more than is being paid at present for the same amount of land.

A copy of the wire was sent by the governor's office to each member of the land board and will be acted upon at the next regular meeting. A copy of the telegram follows:

Holbrook, **Governor Thomas E. Campbell**, Chairman Land Commission, Phoenix, Arizona.

If section open and I can get it, would ask that it be let at competitive bidding. Will send formal application addition to one filed if desired.

S. G. MAYFIELD,
Hopi Oil Company.

FOUND FINE FISHING IN WHITE MOUNTAINS

Walter Brawner, W. K. Bowen and others have returned from a trip into the White Mountains almost as far as the road is cut out. They went almost to the source of White river, where the trout had hardly ever seen a white man and were therefore not quite so coy as trout usually are.

They caught trout until their arms were tired and their hands sore from the pointed fins of the fish, the marks of which they yet bear. That, said Mr. Brawner, is the most beautiful country in the world; every kind of a flower that ever grew, in his opinion, may be found there.

Returning to the subject of fishing, he said that as they caught the speckled beauties they stuck them into a nearby snow bank to keep them fresh. The snow is still there, the remnants of heavy drifts, though the air was so warm that one preferred his shirt sleeves.

They also found excellent fishing at Stoneman's Lake. The fish there are large croppies.

NEED WORKERS FOR HIGHWAY MEASURES

Ten energetic workers, who can each secure 100 signers of the petitions now in circulation for the creation of a highway commission, and the increasing of the limit of state bonded indebtedness, are asked to report at the Phoenix Chamber of Commerce as early as possible this morning, prepared to get in and hustle.

The committee in charge announces that the petitions must be completed today, and through the work of canvassers who will work hard, it is hoped that all the necessary signatures will be obtained before nightfall.

PETITIONS MUST BE FILED BY MIDNIGHT

The office of the secretary of state will be open until midnight tonight to receive initiative petitions to be placed on the ballot at the general election in November. At closing time yesterday only three of the proposed measures were filed with sufficient number of signatures to come before the voters.

The county division bill was filed yesterday the petitions containing 7,215 signatures. The petition was filed by W. L. Brooks of Miami, a former member of the legislature who has been active in circulating the petition for the creation and organization of counties.

The game law and the civil service law are also filed with the required number of signatures and it is believed that several other measures will be included in today's filings.
