of Europe can achieve once more economic independence and stability. This government believes that it recognizes in the memorandum of the German Government the desire on the part of the German Government to reopen negotiations with its allies on a new basis and hopes that such negotiations, once resumed, may lead to a prompt settlement, which will at the same time satisfy the just claims of the allies and permit Germany hopefully to renew its productive activities.

Germany Hopeful BERLIN, April 4.—The German note sent by Dr. Simons, foreign minister, discussing reparations and suggesting Germany is willing to assume her debts to the allies, and the reply of Secretary of State Hughes, delivered to the German foreign office on March 31, by the American high commissioner, Lord Drexel, were published tonight.

While the American note is brief, the German official interpretation is friendly, and the mere fact that the United States answered at all, is looked on as a hopeful sign that the American government has taken its good offices in solving the reparations problem.

Dr. Simons is still in Switzerland on vacation, consequently the communication to the United States is not expected immediately.

WAGES OUT ON KATY LINE ST. LOUIS, April 4.—Intention to reduce wages of all employees and executives May 1, was announced today by officials of the Missouri, Kansas and Texas railway today.

LEAGUE TRADE MISSIONS STIR REVOLUTIONS

[Republican A. P. Leased Wire] LONDON, April 4.—An undated document purporting to contain secret instructions from Nicolai Lenin, the Russian bolshevik premier, ordering Soviet trade missions abroad to stir up revolution, is published today by the London Times. The document, which is signed "Buharin Berezin, for Third International executive," and "Pavlov-Veltman, director of the Council of Action for Propaganda in the east," says in part:

"Trade relations must always serve for communistic propaganda. Their primary object is spreading discontent among workers and soldiers and preparing strikes and disturbances. 'The point of a stated guarantee should always be raised after negotiations with foreign firms. The guarantee would not be forthcoming and thus the firms would be obliged to refuse the orders. This would furnish a useful basis for stirring up discontent among workers.'

Soviet delegates are further instructed 'to stay at the best hotels and spare no expense,' also to make efforts to 'buy' the press. Special attention is called to the importance of 'arming workers to serve as a nucleus for fighting units.' The Daily Telegraph also publishes the instructions. This newspaper says they were issued to the Soviet trade delegation in Constantinople. The London Times, however, represents the plan of Lenin as being world-wide.

WOMEN IN OFFICE "Votes for women" has become "Political Jobs for Women." Women are becoming more and more active in the field of politics. Here are just a few of the jobs into which women recently have been elected or appointed or for which they are waging an active campaign:

JUSTICE PROMPT AND SWIFT A court lawyer in England is called a barrister, the others solicitors. It is beneath the dignity of a barrister to meet ordinary clients direct. The solicitor prepares the case and submits it to his superior; before the case goes to trial he may consent to see you. The barrister has quite a definite social position. He wears a gown and wig in court.

Don't smile, fellow American; you and I had better look under these advertisements. If we do our superior smile will become sickly.

What is the product of the British courts of justice? Strange to say it is justice, prompt and unavoidable. As a result there has been no crime wave in England. The transition from war to peace, from business booms to present depression, has brought no such general lawlessness as has marked the history of the United States during the last few months.

Why? Well, in America we arrest only a few of our criminals, convicting perhaps 10 per cent of those arrested; then we pardon most of those convicted. We let them off on general parole.

OMITTED ONE FACT "The judge discharged you?" "Yes, I told him I was going for a doctor." "Of course he wouldn't fine you for speeding in such circumstances." "No, but didn't tell him we needed another man in a poker game." "The 'doc' had agreed to sit in." Birmingham Age-Herald.

HE CAME CLEAN. Mother—Now, Bobby, was it you who ate all the white meat off the chicken? Bobby—Well, mother, to make a clean breast of it, I did.—American Legion Weekly.

GREEN—Don't you ever take your wife home a bouquet or a box of candy? Gayboy—Heavens, no! There's no sense in voluntarily arousing her suspicions.—Boston Transcript.

WOMAN'S NAME CHOSEN Cunard line officials in choosing a new name for the former German liner Imperator, have departed from their usual custom of naming ships after provinces of the Roman empire and will name the liner "Berengaria." Berengaria was the wife of Richard I of England.

FILE CARDINAL'S WILL BALTIMORE, Md., April 4.—The will of Cardinal Gibbons filed today dispensed of a personal estate of about \$100,000.

HE WORE WELL Two country women were arguing on the matter of thrift. "D'ye see that purse?" demanded one with a triumphant air. "It's the one I bought when I was married 20 years ago, and it's as good as new yet."

Everything is Ready for The Reunion of Pioneers In Phoenix on April 12-13

Just One Week From Today Will See The Opening Of The Great Reunion Which Is Expected Will Bring Together Many Hundreds Of The Early-Day Settlers Of Arizona—Plans For The Two Days Have Been Completed By The Republican—Round Trip Rate Of One And One-Half Fares Has Been Granted

Today, just a week before the opening of the pioneers' reunion, which has been planned by The Republican to bring together the founders of Arizona's glory in the greatest event of its kind in the West, this newspaper is able to announce the complete program for April 12 and 13. Preparations for the reunion have been in progress for several months, during which the entire state has been combed for pioneers with a response which has placed on The Republican's registration lists more than 1500 names and addresses, and now, as the event approaches, the details of the reunion are completed.

Not only have the names of the pioneers who will be included in the party will be admitted to mingle with the pioneers and join in their entertainment. At 8 o'clock the old timers will be taken back to Phoenix. During the evening the Elks theater, the Strand and the Columbia will be free to the pioneers, who will be admitted by coupon tickets given them in the morning. This will bring the first day to an end.

The Second Day At 10 o'clock following morning, Wednesday, April 13, the pioneers will meet again at the Central school grounds, where they will enter automobiles for a trip around the Salt River valley to view the changes which have come about since the arrival of the old timers here almost four decades ago. Every effort is to be made to give the tourists an intimate knowledge of the valley as it is today, and to point out to them the development which is primarily due to their own courage and fortitude as exercised in the years when this section of the Southwest was true desert and a "goodly" story telling, the Elks and the Gila monster held undisputed sway over it.

At 2 o'clock in the afternoon the pioneers will meet at the Blue Bird hall on West Washington street, where a general reception will be held and where the afternoon will be given over to an indoor picnic, story telling and a "good-bye" program. At 8 o'clock in the evening the pioneers will be given "good-bye and good luck" and the reunion will have come to a close.

Between 11 o'clock and noon the pioneers will hold a get-together and acquaintance meeting, and then they will attend a monster barbecue, where the best efforts of the most expert barbeque artists in the valley will be strained to provide a dinner that will make the best of former out-door meals in Arizona but poor seconds of the largest of the local bands.

At 2 o'clock there will be a reunion picnic at the park with many entertainment features to assist the pioneers in knowing their old friends, calling the names and scenes of the early days. At 4 o'clock the public

Officers Waiting For Gale To Cross U. S.-Mexico Line [Republican A. P. Leased Wire] LAREDO, Tex., April 4.—United States officers today were alerted to the border for possible departure from Mexico through this port of Linn A. Gale, reported being sent out of Mexico as a notorious forger. Several charges are pending against Gale in this country according to federal authorities, including draft evasion and violation of the espionage act.

THEN SHE HURRIED HOME. Mrs. Johnson had gone away from home leaving Mr. Johnson lamenting. On arriving at her destination she missed her gold brooch and sent a postcard to her servant asking the maid to let her know if she found anything on the dining room floor when sweeping it next morning.

THE SERVANT DULY REPLIED: "Dear Madam: You ask me to let you know if I found anything when sweeping the dining room floor this morning. Everything American is perfect. If we criticize, it must be criticism as mild as the chicken dealer's."

"Do you guarantee this hen?" "I once assed a Providence chicken dealer."

"You bet I do, admiral," said the man. "Has she got no faults—no faults at all?" I asked cautiously. "Well, admiral, the chicken dealer confessed, 'one fault she has, and there ain't no use denying it—she will lay on Sunday.'"

SINN FEIN REPLIES TO GEDDES' REPORT ON IRISH QUESTION

[Republican A. P. Leased Wire] DUBLIN, April 4.—The publicity department of the Dan Eireann, replying to the communication issued by the British embassy in Washington regarding American relief in Ireland, terms the communication a "particularly unscrupulous attempt to mislead American opinion with regard to the destruction and distress in Ireland."

"The reason it appears that relief is being made," the communication says, is that the British government has refused to take financial responsibility for the destruction deliberately and wantonly inflicted on the non-combatant population by the armed forces of the crown."

The statement gives instances of alleged refusal by the government to make compensation for destruction in county Clare, amounting to nearly £200,000. It also cites the case of the Cork fires and cases where innocent persons were killed while the forces of the crown were engaged in the guerrilla warfare.

The statement denounces what it calls the embassy's amazing assertion that some parts of Ireland have refused money raised in the United Kingdom, preferring to appeal to American charity. On the contrary, it declares "considerable sums have been received and publicly acknowledged by the Irish White cross, a non-political society, which appeals not only to America but to the whole of the civilized world."

ALMOST PERFECT An admiral said at a recent dinner: "There are too many people in our country who can't bear the truth. We must pretend to these people that everything American is perfect. If we criticize, it must be criticism as mild as the chicken dealer's."

"Do you guarantee this hen?" "I once assed a Providence chicken dealer."

"You bet I do, admiral," said the man. "Has she got no faults—no faults at all?" I asked cautiously. "Well, admiral, the chicken dealer confessed, 'one fault she has, and there ain't no use denying it—she will lay on Sunday.'"

MEASURES FRACTIONS OF TIME. Those who are devoting themselves to the science of measuring the small things of the universe will best appreciate the achievement credited to Professor Pederson of Copenhagen university, who is said to have invented a method by which he can measure the thousand-millionth part of a second. Physicists can accurately weigh quantities as small as the 100-thousandth part of a milligram, of which it takes 28,350 to make an ounce, and an instrument exists by which the 70-millionth part of an inch can be measured.

But if there is no mistake about what the Danish scientist has accomplished in the division of minute intervals, he has assuredly beaten all previous records in this particular field of scientific research. And at the other end of the time scale there is the astronomer's unit for sounding the depths of stellar space—a "light year," the distance traversed by a ray of light in a year, moving without cessation at a speed of 186,300 miles a second.—London Chronicle.

New British coins have been issued which contain only half the amount of silver used in the old pieces. According to a census just completed, Germany's population is 69,282,000.

First Snow Storm On Record Visits Imperial Valley [Republican A. P. Leased Wire] SAN FRANCISCO, April 4.—Snow in the Imperial valley of California for the first time on record, and snow falls ranging to two feet deep in the mountains west of that region; hail and snow at some points in the northern coast states; considerable damage to fruit crops and winds which prevented small shipping from entering of leaving several ports, were outstanding developments tonight of a storm which for 24 hours has swept the Pacific coast.

Storm warnings continued to be displayed tonight and the weather bureau, while forecasting fair weather for some coast sections tomorrow, let it be known that the warning might have to remain up until tomorrow.

Continued cold was the outlook for the coast region except northern California, the bureau said. Reports of automobile parties snowbound or delayed for long periods by the snow in the southern California desert country, where high temperatures are the rule, were received tonight.

One life is known to have been lost in the storm, that of John Zuberin, sweep overboard at the fishing smack near San Diego, Cal., last night.
