

DELEGATES DISCUSS LEGISLATIVE PLANS FOR FARMER RELIEF

[Republican A. P. Leased Wire] WASHINGTON, April 11.—Lower transportation charges, economy in taxation, equal treatment under any tariff law and short time credits, are among subjects representatives of farmers in 20 states began discussing today, preliminary to making up a program of legislation to be asked of congress for relief of the agricultural situation.

Further, as Mr. Hughes dealt with the whole subject of mandates as well as with Yap.

It has been the expectation of state department officers and of some foreign envoys that the allies would admit the soundness of the American position that as one of principal allied and associated powers in favor of which Germany renounced its rights and titles in its overseas possessions the United States is entitled to a voice in disposition of those territories.

Secretary Colby in his note to Great Britain on the Mesopotamian question as well as his communication of February to the league of nations council on Yap contended that the American government should be given opportunity to pass on the mandate terms before final adoption.

important question of title to the river bed lands involved. Determination of the exact location of the south bank, he explained, is complicated by the character of the stream whose changing course, after every spring flood, first brought on the boundary dispute.

Together it is estimated 800 miles of the river bed is involved. In a counter-suit, Texas has set up a claim to approximately 24,000 acres on Oklahoma's western boundary line, involving a narrow strip between the 100th meridian as fixed by the Jones and Brown survey of 1858, and the Kidder survey in 1902.

Not Beauty Only

These whiter teeth mean safer teeth as well

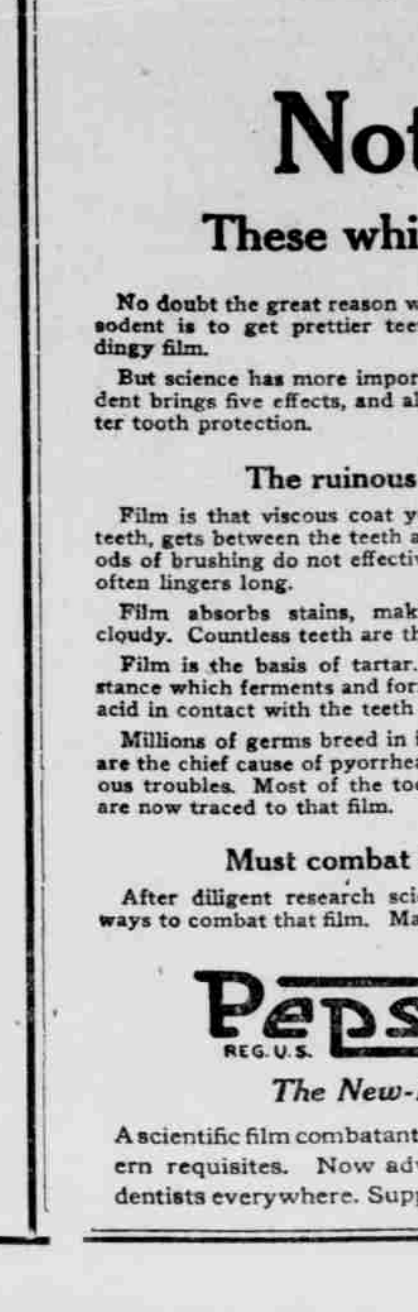

No doubt the great reason why millions use Pepsodent is to get prettier teeth. It removes the dingy film.

But science has more important objects. Pepsodent brings five effects, and all of them mean better tooth protection.

The ruinous film Film is that viscous coat you feel. It clings to teeth, gets between the teeth and stays. Old methods of brushing do not effectively combat it.

Fights starch and acid Pepsodent does what fruit acids do. It multiplies the salivary flow. It multiplies the starch digestant in the saliva, to digest starch deposits that cling.

Effects are apparent Millions now know the delightful effects. Any one who will can quickly see and feel them.

Must combat it daily After diligent research science has found two ways to combat that film. Many careful tests have
