Nearly 2,000 Arizona Pioneers Who Have Lived In State For 35 Years Or More Have Sent Their Names To The Republican

Following is a list of Arizona pioneers who lived practically continuously in the state for 35 years or more. This list is made up of names which have been sent to The Republican during the past few months.

About one-half of these men and women were in attendance at the reunion in Phoenix Tuesday and Wednesday.

In addition to this long list, there are many pioneers who were at the reunion, and who registered Tuesday morning at The Republican office but whose names do not appear here. This is because of lack of time to recompile the list.

However, the name of everyone who registered, whether during the past few months or on Tuesday or Wednesday of this week, is listed for future reference and for use of the new association of state pioneers now in process of organization.
