## KEEP YOUR BUILDINGS

PAINTED and Save Costly

Repair Work.

Everyone knows the importance of keeping a building well  
painted, from the standpoint of appearance alone, painting  
adds value to property and in case of a sale will help to bring  
high prices. Inasmuch as lumber and repair work are very  
costly, you will surely see that it is much cheaper to keep your  
buildings well painted. I will do your painting, papering, or  
kasoning at a very low cost. All work guaranteed satis-  
factory. Also photo's enlarged and framed. Give me a trial  
is all I ask. I have had ten years experience in Chicago,

## BEATRICE

### Efficiency

Efficiency in a Cream Separator is  
measured by the amount of work the  
machine will do and the way it does it.  
With the BEATRICE you can skim  
more milk, in the same time, and skim  
cleaner, than with any other Separator.

### Economy

The BEATRICE is the Best Value  
for real economy, because, capacity  
considered, the price is lowest; be-  
cause it gets more cream out of the  
milk, and because it saves time and  
labor.

### Durability

The construction of the BEATRICE aims  
at strength and durability. All materials  
used are the best. It is the strongest, best  
looking and strongest in construction.  
Trouble in operation is almost done away  
with and cost of repairs is very low.

### Price

In the BEATRICE you get more than  
twice the skimming capacity for the same  
price--and we absolutely give you \$25 to  
\$50. Prices \$25 to \$50 the capacity, \$75 to  
\$100 to \$150 the. \$200; \$250 to \$300 the. \$375.  
Free with each Separator--BEATRICE Cre-  
dential New Working Device and 1-3-Cre-  
dential Seal-Pat.

Come in and see the BEATRICE Cream  
Separator for yourself.

W. B. MOLDENHAUER,  
AGENT.
