

A NEW BASIS GIVE TO ARGUMENT

Editor **Glenwood Post**,
Glenwood Springs, Colorado.

I have just read with terror and dismay your editorial of April 30th, in which you say that states rights "perished with the War of Secession" and that the Federal Government should undertake to do the work of the states within their boundaries, doing it "with full authority," because, as you say, "the doctrine of states rights has been so completely repudiated by the people, that, save for a few dreamers in Colorado, it is never heard of in this intelligent and progressive age."

For forty-five years the greatest legal and political writers, and the courts of the United States have said that not a single principle of any kind was decided by the Civil War; that the only thing that was decided was that the Northern army was stronger than the Southern one; that if the result of the war had been the other way, no principle would have been decided, but merely the fact that the Southern army was stronger than the Northern one.

Even so lately as 1907, in the case of **Kansas vs. Colorado**, counsel for the Federal Government contended for the doctrine of sovereign and independent states in Congress to control the waters in the states, but said—"I am aware that in advancing this doctrine I seem to challenge great decisions of the courts, and I speak with deference."

In response to this, the supreme court of the United States said that the argument of counsel ignored the principal factor in the constitution, to the effect that "Powers not delegated to the United States by the constitution are reserved to the states respectively," and that the control of waters "properly belongs to the states by their inherent SOVEREIGNTY."

And yet a country editor in Colorado, without the least "deference," with one swipe of his legal fist knocked out these treasured ideas, and relegated his state to the condition of a dependent territory.

Surely a "new Daniel has come to Judgment."

Humbly Yours,
D. C. BEAMAN.

Duree-Berryhill Wedding

Two popular Gunnison young folks were wedded last Sunday, May 8th, when at noon at the home of the bride's parents, Mr. and Mrs. J. F. Berryhill, were united in matrimony Mr. Chas. Duree and Miss Ethel Berryhill.

The house was beautifully decorated with plants and green vines, and the occasion was made a gala one by the relatives and intimate friends invited. Rev. Stephen Lumley used the beautiful ring service in conducting the ceremony.

The bride wore a gown of white silk trimmed with val lace. The groom wore conventional black. They were attended by Miss Hazel Berryhill, sister of the bride and Mr. John Risse of Mt. Carbon. The wedding gifts were numerous and handsome.

After the wedding an elegant repast was served by Mrs. Berryhill. Mr. and Mrs. Duree are not only popular among our young folks, but command high regard in the business world and predictions of success and happiness along life's journey are freely mingled with the congratulations and best wishes showered upon them.

The Smith cottage in North Gunnison is their home.

Taking Trout Eggs

Rainbow trout are just beginning to run in earnest, and men at the three field spawning stations are kept busy taking eggs. Elmer Ames is in charge at Beaver creek, Geo. Perrell at Steuben and M. M. Foster at Little Elk creek.

ATHLETICS FIND FAVOR ON HIGH SCHOOL

Field Meet at Delta Fine Affair. Arrangements for Gunnison County Meet May 25

Quite a delegation of Gunnison high school boys and girls went last Friday to Delta to take part in the annual Western Slope Rhetorical and Field Meet. Prof. W. A. Franks, superintendent of the county high school was accompanied by O. Fallon, Mullin, Larry Stone, Quinn, and Lacroix as the track team, and by Miss Helen Webster as representative in the declamations and Miss Kate Redden in oratory. Miss Onie Pitter, Chester Pitter and Bruce Blackstock also went down.

Ouray swept the field as Delta did last year, winning 73 points. Montrose got 31, Telluride 10, Delta 9, Gunnison 5, Olathe 4, and Paonia 3. Owen O'Fallon of Gunnison broke the record of the Western Slope association with the shot put, putting it 38 feet and five inches.

In the declamation contest Miss Helen Webster won great applause by her rendition of the "Soul of the Violin." She divided first place with Miss Sanberg of Ouray, the judges being unable to decide which was the better. For second place Montrose and Paonia also tied. In the argument Kraear of Telluride won first with the Paonia man second, Delta third. In oratory Telluride also won first, Delta second and Ouray third place. Miss Redden, who was to have given the oration for Gunnison was taken severely ill with pneumonia and brought home in a critical condition.

The county athletic field meet open to all boys in any school in Gunnison county has been changed to the date of Saturday, May 28. It will begin on the base ball field at Gunnison at one o'clock.

The events will be divided into two classes. First, for boys under 16 years of age, must be in school in county. Second, boys between 16 and 21. Open to all citizens in county. Medals or prizes will be given to all who take a first. A gold medal will be given to the boy who take the most number of undivided points in their class and a silver medal to those who are second. A

Pet Cinnamon Bear of Sportsmen's Hotel, Gunnison County

list of events will be published next week. A base ball game will be played the 28th at 9:30 a. m. between the county high school and a team from Crested Butte.

New King of England

The latter part of last week the world was shocked to hear of the sudden death of Edward VII, King of England. His eldest son, who was immediately crowned as George V, Edward had only been on the throne eight years.

Rio Grande Liasman Arrested

R. Reynolds, hucman for the Rio Grande and Western Union out of Gunnison got in the toils yesterday. He was accused by the railroad of collecting old brass, and stuff of that kind and selling it to peddlers. His defense was that he intended to ship it to Denver collect the money and turn it over to the company.

The preliminary hearing before Judge Leahy resulted in his being put under \$500 bond and his trial this afternoon may result in his being bound over to the district court.

as the value of the copper and stuff amounts to some \$120.

Sheriff Pat Haulon made the arrest, having been watching the case for some months. A barrel, headed up, but full of the copper, was found at Reynolds residence and a Jew peddler in town had just paid him \$10 for like stuff.

New County Store

J. B. Hottell, has associated in business with Wade Quarles, also recently of Montrose, and the two will conduct a grocery and feed business. They have rented the Collins brick on Main street and about June first expect to have their new cash grocery in operation.

D. A. Cuthbert came in from Leadville last night to attend the funeral of Geo. Estes. Some as though a dozen of the railroad engineers arrived on a train under him and all speak in affectionate terms of "Dad" Estes.

Miss Lizzie Miller is this week going to Louisville where Mrs. P. P. Miller now resides.

C. A. R. BOYS OFF FOR THE JUNCTION

Containing Will Work to Make July Day Department Commanders of Colorado and Wyoming

The annual encampment of G. A. R. boys for the department of Colorado and Wyoming is being held at Grand Junction this week, and reports are that Judge Dexter T. Sapp of our city is being urged by his friends as a candidate for commander. The Judge has a world of friends among prominent people of the state, all of whom want him to be elected. Ferguson of Denver is his principal opponent.

He has been mentioned before for this high honor, but never allowed his name to be presented. However, Comrades Henry F. Lake, W. S. Ditto, S. L. Trine and H. C. Herrick from Gunnison Post No. 17 have gone down to assist, and eight delegates from our strong Relief Corps will help. The delegates of the Corps are Mesdames S. J. Miller, C. T. Sills, John Whipp, E. A. Price, A. B. Warner, E. E. Mueller and Annie Downey. Mrs. Sapp is also present as a national aide of the Daughters of the Revolution.

The boys (and shall we say, the girls) are anticipating a grand time, and expect to land the high position sought for Judge Sapp.

Activity at Marble

Marble Times:—What sort of a summer are we going to have at Marble? The answer to the question is being given in the work that began yesterday on the Treasury Mountain railway, in the starting of the sawmill at Crystal so early in the season, in the stir and activity at boarding houses and stores. With in a short time the familiar, resonant notes of the Rocky Mountain canary will be afloat, as in seasons past, miners with characteristic courage and zeal, will be bending their energy in bringing hidden treasures to light and the flow of traffic will sweep through every inlet of the district. Late in the winter, like the waters of the tide ebbing to old ocean, it will return loaded with argosies of purple sails.

WELL KNOWN ENGINEER DIES IN SABBATH

Geo. Estes, Late in Study of Analyzing While Being Engaged on the Mill at Crested Butte

At five o'clock Monday the Butte's extra taking back the train crew from their Sunday in Gunnison pulled out of the yards here. Engineer Geo. Estes with his hand on the throttle, where he had driven at least one train a day, with hardly a break for twenty-six years. At six o'clock as they were rounding the curve at Almont, his daughter, Mrs. A. D. McKee heard the train and noted that she did not hear the greeting whistle which her father always sounded. Fireman Braswell, also noticed the omission and slowing of the train and looked over from his work. The engineer's cab seemed empty. Hastily crossing over he found the aged railroad man lying prone upon the floor, with his head against the pipes. Seized with apoplexy or paralysis, he had apparently fallen forward, shutting the throttle with the last effort of a clouding mind. Going on a short distance to Almont, the trainmen found Mr. and Mrs. McKee waiting at the station where they were notified of the accident.

Mr. Estes was immediately brought to Gunnison, but never regained consciousness, and died at six o'clock Monday, May 9. Funeral services are set for Friday at one o'clock at the house, his son, Cale, being expected from Seattle, Washington the night before. A great many railroad friends arrived from Salida this morning.

Mr. Estes was one of the oldest engineers in point of service on the Rio Grande system. He came to Gunnison county in 1884 and immediately took charge of the Buttes run. This he held without a change except some runs a years ago on the west end out of Gunnison. He had never been in a serious wreck and was one of the favored engineers on the third division, taking the Crested Butte run as preferred because he wanted to be at home as much as possible. Before coming to Gunnison Mr. Estes was an engineer out of St. Louis and worked bringing in supplies at the time of the famous Eads bridge construction.

Mr. Estes was born on a farm near Greenfield, Ill. on the 25th of April, sixty years ago. There he grew up and received his education. On October 21, 1872 he was married at Glaspe, Illinois, to Miss Thuramatis Horton. The family has lived in Gunnison since early days. The three daughters, Mrs. F. W. Harper, Mrs. A. D. McKee and Miss Dossia live in this vicinity. Cale is the only son. Three children who died in infancy are buried at Crested Butte. A brother, B. F. Estes arrived Wednesday from Salt Lake City to attend the funeral and two other brothers live, one at Danville, Ill., and another at Stillwell, Okla.

Mr. Estes was a Mason and also had for years been a prominent worker in the Methodist church at Gunnison. He was also a member of the B. O. L. T. in which he carried life insurance.

Geo. Estes was an excellent citizen in every way, reliable in his business dealings and kind to his family. His death is generally regretted.

New Mill Working Fine and Hundred Men Employed

Howard Marshall came in Wednesday from Dorchester. It was a hard trip through the snow banks yet remaining but the road is now open. Mr. Marshall tells us that the new 200 ton mill of the United Colorado Mines company is working splendidly, and while not yet operated to its full capacity is making an excellent concentrate and a good saving from ore as low as \$6 in value.

About a hundred men are now steadily employed by this enterprising mining company and supplies are hauled in and the ore and concentrates taken out by way of the almost impassable Taylor pass. Indeed it has been impossible to cross it for two weeks, though men are constantly shovelling and teams breaking the road.

Now a good strong pull by the business men of Gunnison, Crested Butte and Tin Cup, the miners and ranchmen interested, the county commissioners and the forestry department and we ought to be able to ensure that Taylor park cutoff, and bring this trade down water grade.

Five orders in one day followed a three line ad in last week's News-Champion. "Do not run the ad for turkey eggs again as I have all the orders I can fill" writes the pleased advertiser. IF YOU WANT RESULTS TRY A "WANT AD" IN THESE COLUMNS—5c PER LINE
