PIFFLE FOR CALLOW YOUTH

Advice Handed Out by Successful Business Men is, to Use a Slang Phrase, Bunk.

A successful lumber merchant has been giving a newspaper interviewer a few of the mental wrinkles that influenced him in the making of money. Here are some of them:

"If your initials spell a word it means you will be rich.

"If, on the other hand, you mend a garment while wearing it, you will always be poor.

"If your right hand itches it is a sign that you will receive money. If your left hand itches you will spend it. This is because right begins with R and R stands for receive, while L stands for let go.

"When you see a shooting star you should say 'money.' As many times as you are able to say the word during the fall of the star, so many extra dollars will you have in your pocket as a result."

Helpful words, aren't they? Well, they are no better and no worse than the bulk of the talk handed out by successful men for the guidance of their fellows—that is, in the matter of making money. The rich or successful business man doesn't disclose his real secrets—if he has any—though he often attends club luncheons or dinners and makes a speech pretending to do so.—Philadelphia Record.

NOTHING TO IT AS A PIE

With Lemon Filling Gone, Remainder of Confection Could Only Be Classed as "Squash."

A business man of Jeffersonville, active in the councils of the Young Business Men's club and of the Rotary club and one of whose outstanding characteristics is a liking for pie, says he has learned a perfectly good way of making squash pie out of lemon pie, but prefers the latter kind, says the Indianapolis Star. He had been to a sale in Utica township, not to buy, but attracted by the fame of the cooks who were to serve pie. He surrounded one lemon pie and asked to have another packed to take home—for his wife, he said. The women packed it between two paper dishes, the upper one inverted, and then wrapped it in newspaper. He placed it on the back seat of his automobile and started for home. Unfortunately he gave a friend the package for a cushion. When the package was turned over to the lady of the house and was opened by her it consisted of an upper paper dish, an upper pie crust, a lower pie crust and a lower paper dish; that was all. It was a clear case of "squash," and not a sign of lemon filling left.

Horse Once Reverenced.

The sacrifice of horses characterized the Scandinavian and Teutonic cults, whilst Tacitus tells us that the Germans sought omens and monitions from white horses kept at the public expense in sacred woods and groves, pure from the taint of earthly labor, but that on solemn occasions these were yoked to the sacred chariot and were accompanied by the king or chief of the tribe and the priest, who noted their neighings and snortings, and that no species of divination was more trusted, not only by the people and the nobles, but by the priests who regarded themselves as the ministers of the gods and the horses as acquainted with their will. It has been commonly believed, though on insufficient evidence, that the Saxon invaders of Britain bore banners blazoned with a white horse.
