

### AN INTERNATIONAL PATROL GUARD OUR INTERESTS AT SPALATO.

On many occasions in the past international patrols have been organized by the powers allied together in some great cause. The most common of these have been in Turkey and China where the powers of the world are kept continually on guard protecting their citizens. Recently the Allies have worked to-

gether throughout the Mediterranean and in this region can be found Bluejackets and Marines from every navy represented in the cause.

The picture above shows the International Patrol at Spalato, Dalmatia and consists of French, English and Americans. Can you pick them out? It is easy. The French are wearing "Tams"; the British, white flat-hats; and the Yanks, the jaunty white hat which is distinctly American.

#### CHERRY CREEK VALLEY.

(Too late for last week.) A big snow is on and roads are impassible. No mail to-day and it is 4 p. m. The fodder piles, hay and straw stacks look mighty good now. Weather is not bad and stock is doing well. Our cattlemen received many prizes at the Stock Show.

Fire, starting probably from the stove, ruined Mr. Chris Schreiber's kitchen and all of its contents. The fire was discovered by Chris and fearing his mother was in the room he plunged through the smoke and flames, but she was outside.

### Worth Saving.

The features of this girl portray the finest type of Polish childhood that now lies engulfed in hunger and disease and all their attendant miseries. Relief already administered by America has preserved her beauty and freshness, albeit her eyes betray the suffering she has seen, but literally millions in her own and adjacent countries still have no one to look to but America as another winter of horrors closes in upon them. To the end that their prayer may not go unanswered eight leading American relief organizations have banded together in a joint appeal in behalf of Europe's suffering children. They are the American Relief Administration, the American Red Cross, the American Friends' Relief Committee (Quakers), the Jewish Joint Distribution Committee, the Federal Churches of Christ in America, the Knights of Columbus, the Y. M. C. A. and the Y. W. C. A.

Nowadays the owner of the "one-man farm," intensely cultivated, is in luck, being independent of hired help, unless he feels the need of a chauffeur.

Immigrant families from South America are bringing in great rolls of money, sometimes hundreds of thousands of dollars. One suspects that they intend to rent a flat.

We have assisted farmers along our lines in purchasing 31 cars of dairy cows in Wisconsin during the past three years. In many cases we have acted as the agent and have done the buying. At other times, we have merely assisted farmers, accompanying and directing them to the best localities and herds, seeing that they bought good stock at right prices. Also, we have assisted in gathering, testing for tuberculosis, loading and seeing that the cattle were properly routed and billed out. In many cases, we were able to save farmers a considerable amount of money brought such aid.

If you want to purchase cows this spring, we suggest that you communicate with your county agricultural agent or direct with us. We will be glad to assist anyone in our territory the same as previously done. We contemplate a purchasing trip to Wisconsin about March 1st.

We already have orders for five or six carloads and do not care to accept orders for, or try to assist buyers for more than ten carloads at this one time. So it will be necessary for you to place your order early if our assistance is desired. Our services are free and we hope
