The Circulation of the Bulletin.

The Bulletin has the largest circulation of any paper in Eastern Connecticut, and from three to four times larger than that of any in Norwich.

1901, average 4,412 1905, average 5,920 January 4, 1913, 8,508

GRATUITIES AND GRAFT. If the general assembly refuses to avoid the newspaper graft then the newspapers better do so.

The Bulletin readily endorses this sentiment as it has in the past, and it is one of the few newspapers in the state which has its voice.

EDITORIAL NOTES. Happy thought for today. Though young, 1913 is already showing it has a flicker of disposition.

STAMPS AND BOOKS. If it is only ten days now that the parcels post has been in operation and it has hardly begun to show its working shape, but the picking of flaws and the suggestions for changes are frequently heard.

END OF THE CORNER. Though practically everyone had reached the decision that the "corners" which are so often practiced to the great advantage of the few and even greater injury of the many, were illegal combinations and ought to be forbidden, that judgment has now been substantiated by the United States supreme court and promises to correct a practice the absence of which will operate, though perhaps unconsciously, to the benefit of the consumer.

IDEAS OF A PLAIN MAN. Does love spring from the sex instinct, and is it but a modification of that? There are some who believe this, and it is not for the reason that I love many persons where the sex instinct does not enter into my feeling for all, as, for instance, my brother, mother, daughter or friend.

SEEKING GREATER SAFETY. Better protection for the navigators is made apparent and its advocacy taken up with added interest following disasters which occur along the coast, and in such a way which stirring the people of New Jersey at the present time for a better system of lights further out to sea for the warning of the navigators of the dangers which beset the coast.

What is going to be a great aid to navigation at particularly dangerous points along the entire Atlantic coast is the movement for making the inland waterways available, and the meaning of this is the opening of the Cape Cod canal, by the use of which the dangerous and shifting shoals to be guarded against in respect to the cape, and to overcome a much shorter route provided and the greatest step for safety ever attempted in that locality.

MUNSEY'S PROPOSITION. The proposition which Mr. Munsey makes for the getting together of the republicans and progressives shows that he realized the old saying that in unity there is strength, and that the progressives of which he was an important leader stand in a position which is of benefit only to the democratic party.

Yale football revival brought a number of former players to New Haven Saturday night to discuss possible improvements. Captain Henry H. Ketcham outlined the four plans that he had in mind for the revival of the coaching system next fall.

ROBERTS' SPECIAL YALE LETTER. Festivities of Junior "Prom" Week Joyfully Anticipated.

—Consideration of Coaching System For Football Team—Selecting President Taft's Home—"Lefty" Flynn's Marriage the Season's Sensation—Getting Tips on English Rowing.

New Haven, Jan. 9.—Starting Saturday with Tolstoi's Russian play, "Fruits of Culture," by the Yale Dramatic association, the festivities of Junior Prom week will continue uninterruptedly until daylight, or some hours after, on next Wednesday morning. Then the promenade itself, the most brilliant of the whole series of gay social events, will be over, except for the early morning "tea" which customarily follows it.
