STRATFORD PRIZE FIGHT CASES ON TRIAL

Defendants in the cases which grew out of the alleged prize fight which took place in Stratford on Sunday, Sept. 2, at 10 o'clock, are on trial in the Stratford court before Judge Charles Peck today and went on trial about press time. It is believed that the court would take jurisdiction in some of the cases and that others would be bound over to grand jury under the bonds in which they have been held since the arrests were first made.

Major General Wood, chief of staff, was at his office early after having spent the night in telephone conversation with members of his staff. For a long time the war department has been prepared to send troops into Mexico but additional precautions are being taken to insure quick action in case the President order an expeditionary force to cross the border.

MAJOR GEN. WOOD CONSULTS TAFT ON WAR SITUATION

Washington, Sept. 9.—A voluminous interchange of telegrams between President Taft at Beverly Hills and officials of the state and war departments took place today, relative to the Mexican situation. The President wants to have the fullest information as to the situation along the border and in Southern Mexico and he is receiving a copy of practically every message that comes here.

It is not believed here, however, that the President will permit any invasion of Mexico without the consent of Congress.

BODINE'S MEN RACING WITH OILING MACHINE

Superintendent Bodine has 25 men at work cleaning the streets which are to be oiled and expected to finish the job by the last of this week. He said today that it has been found more practical to hand-sweep the streets rather than to use a flusher as the water and dust made a nasty paste when mixed with oil and thus hampered the work.

We are giving the 25 miles that are to be cleaned a very thorough sweeping," he said, "and have managed to get 10 miles ahead of the oiling machine. My men are at work on parallel streets and have started in on the South End and will then take up the West End street by street. We have completed the cleaning of all streets on the east side of the river and the oiling machines are now at work over there. They will probably finish within a day or so, on that side, and then begin on this side of the river."

PROBE INTO MINE TROUBLES IN W. VIRGINIA

Charleston, W. Va., Sept. 9.—Interest in the Kanawha coal strike was stirred today, by the preparations for the investigation by Governor Glascock's commission. Hearings will begin Wednesday. The commission is expected to take evidence on all questions bearing on the situation on Paint and Cabin creeks where bloodshed and much suffering have been inflicted since the strike began. The wage conditions, the sanitary and working conditions are also to be inquired into. The strike began originally as a demand for more wages, the miners declaring they could not live on the present rate of pay. Finally, the strike resolved itself into a protest against the government by guards in the mines. The miners charged that the guards were employed to break the strike by force of rifles and machine guns. They declared the guards evicted them from the company-owned houses without process of law.

The operators charge that the strike was led by a dangerous element and that the guards were necessary to prevent the destruction of mine property. It is the merit of this controversy that the commission will seek to decide. Governor Glascock has declared that he will accept the recommendations of the investigators and abide by their findings in disposing of the guard system.

New graceful shoes for women.

A hearty welcome is sure to be given the new styles of shoes. No, they are not radically different; lines are about the same. But there is a newness plainly marking them. 'Tis a vague indefinable air—but it makes them very very attractive. Cloth tops are seen on more shoes than ever; are expected to be very much in favor. Some are plain and some are of fancy patterns. And they combine attractively with the leathers used. \$3 \$4 & \$4.50. Tan shoes are to be a favorite for early Autumn wear. They make easier the step from Summer's white to Winter's black; are a charming compromise between the two. New styles full of grace, of plump good leather; and a large assembly is ready now. \$3.50 and to \$5. Near Fairfield avenue door.

Shoes for school;

Proof is right here that boys and girls can have shoes for school that will look well and wear well. That proof is the gathering of essentially school shoes. It is a good big gathering. It includes a number of styles. And it includes only shoes that can be counted on for durability. Yet there is not one shoe without good looks. For girls—Vici kid, button and lace,—\$1.25 to \$2. Calfskin, button and lace,—\$1.50 to \$3. High cut shoes, good styles,—\$1.75 to \$3. For boys—Calfskin, lace,—\$1 to \$1.50. Calfskin, better grade, bluchers,—\$1.50 to \$2. Goodyear-welted bluchers of calfskin,—\$2 to \$3.50. Main floor, rear.
